The lead trade in Teesdale shows no sign of reviving, but on the contrary, the extreme depression seems likely long to continue. In addition to the number of men already discharged by the agents of the London Lead Company, it is stated in the upper part of the dale that the mining agents have been instructed to discharge about one hundred more miners. Acting on the instructions of the Governor and Company, it is understood that the necessary notices have been issued and that they will take effect at the usual letting of bargains in the course of a week or two. The outlook is exceedingly gloomy in Teesdale.

FUNERAL OF MR SOPWITH

In the presence of only a few sorrowing relatives the remains of Mr Thomas Sopwith, MA, FRS, FGS, were on Tuesday interred in the pretty cemetery of Lower Norwood. Had it not been for the privacy which the friends requested, the company in attendance must have been a very large one.

IN MEMORY OF
JANE
THE BELOVED WIFE OF THOMAS SOPWITH
WHO DIED AT ALLENHEADS NOVEMBER 1ST 1855,
AGED 48
A LIFE OF EARNEST GOODNESS WAS CLOSED IN

AGED 76 YEARS
AND WAS INTERRED IN NORWOOD CEMETERY
LONDON

This was the second wife of Thomas Sopwith

25th January 1879 (Hexham Herald)

SERIOUS CONTRAVENTION OF MINES REGULATIONS

At Stanhope Petty Sessions, James Blenkiron, manager of the Rookhope Lead mine, the property of the Rookhope Lead Mining Company, was charged by Supt. Thubron, with certain breaches of the general rules of the Metalliferous Act 1872, viz:

1) That he had not kept at the above mine a register of the name, age, residence, and date of first employment of all the boys of the age of twelve years and under the age of thirteen, and of all male young persons of the age of thirteen and under eighteen.

2) That he did permit and suffer, for the purpose of forming or stemming, iron or steel prickers to be used underground; and also did permit to be used iron or steel tampering rods.

3) That he had not provided a sufficient covering for a cage used for the raising and lowering men to and from the mine.

4) That he had not provided near the principle entrance the prescribed dressing accommodation for the men employed in the mine.

The defence was, in the second charge, that the copper tool required had been ordered but had not arrived at the time of the inspectors visit to the mine; in the third, that the cage was not ordinarily used, and in the fourth, that dressing accommodation was not required by the men.

The Bench were satisfied that in all cases, there had been a contravention of the law and they inflicted a penalty of £2 (a tenth of the full one) in each case, defendant to also pay costs. Mr Wm. Edwards, director of the above company, was also charged with the above offences and a similar penalty was inflicted upon him. Three charges of the same nature, which had been preferred against three more of the directors, were withdrawn.

Deaths
East Deanrow, Langley Mills, 20th inst, aged 14, Catherine Ann only daughter of George and Sarah Ritson.
In 1871, Standing Stone, Matfen, George Ritson, sawyer, aged 39, wife Sarah 37, children Michael W. 13, Thomas W. 11, William 10, Catherine A. 6, and nephew Cuthbert Woodman, sawyer, aged 18.

31st January 1879 (Newcastle Courant)
Green Hurth Lead Mine
The holders of shares in the Green Hurth Lead Mine, upper Teesdale, have in the last few days received information of the discovery of what promises to be a most valuable vein of lead, and the result has been to cause the price of shares to rise rapidly. The shares are of the value of £1, of which 6s. has been paid. The price of the shares has been down to 13s. 6d. recently, but on Monday a few lots were sold at £4 per share.

1st February 1879 (Hexham Courant)
LEAD MINING IN TEESDALE
During the last few months the directors of the Green Hurth Mine have been putting down a sump close to where No. 1 vein was so rich four years since. A month ago the men cut a branch of the vein worth one ton of lead ore per fathom and a fortnight ago they found the vein itself leading into the sump. They have not yet seen the whole width of the vein, and at present it is worth 12 tons of ore per fathom. The sump is still in Hazel. It is down 10 fathoms, and is now within six feet at the limestone in which rock it is expected the vein will be even richer than at present. When this mine was so rich four years ago the ore was nearly all obtained from a limestone averaging 4 ½ fathoms in thickness. As soon as the present sump is sunk through the limestone, workings will be commenced north and south of the vein, under a back or cover of 16 fathoms.
Deaths
At Derwent Mines, Blanchland, 28th ult. aged 80, Mrs Jane Lowdon.
At Roughside, near Blanchland, 30th ult. aged 90, Thomas Jameson.
In 1861, at Shildon, Blanchland, Thomas Jameson, widow, labourer at mines, aged 68, born Northumberland, Shotley.
At Alston, 27th ult., aged 7 months, Lilian Grisdale, daughter of Thomas Grisdale, formerly sergeant of police.
At Nenthead, 25th ult., aged 46, John Doyle, lead miner.
In 1871 at Whitehall, Nenthead, John Doyle, lead miner & local Methodist preacher, aged 38 (born Berwick), his wife Rachel (Elliott, married 1857, at Alston) aged 37, children Robert 14, Henry 8, Hugh 1, and a visitor Thomas Indian, shoemaker, aged 14.
At Nenthead, 28th ult., aged 37 Thomas Roddam, lead ore washer.
In 1871, at Nenthead, Thomas Roddam, lead miner, aged 29, and his wife Isabella (Tatters, married at Nenthead 25th February 1869) aged 30.
Isabella died 6th August 1879.
Thomas Roddam, of Nenthead lead ore miner, will dated 24th January 1872, proved at Carlisle 3rd January 1882, gross value of effects £584. Isabella Roddam his wife sole executor and recipient, her will was proved at Carlisle 3rd January 1882 by Henry Hall and Joseph Teasdale the executors of the will

of Isabella Roddam, widow deceased, whilst living the relict of the said deceased Thomas Roddam.
Isabella Roddam, will dated 18th July 1879, proved at Carlisle 13th May 1881, by Henry Hall and Joseph Teasdale. Names mentioned in the will: — Brothers in law, Henry Hall and Joseph Teasdale, son John William Roddam, nieces Sophia Sarah Wilson, and Isabella Ann Wilson, three sisters Sarah wife of Henry Hall, Elizabeth Tatters, spinster, and Mary Jane Teasdale wife of the said Joseph Teasdale.
See 27th Feb 1869, 3rd March 1877, 14th June 1884, and 20th August 1887.
At Greenends, 28th ult., aged 21, Jonathan Millican, lead miner.
In 1871 Greenends, Alston, Mary Millican, miners widow, aged 59, children Joseph lead miner 29, Robert lead miner 23, Mary 21, John lead miner 18, and grandsons Jonathan lead ore washer 13, and Vipond 2 years.
See 8th July 1876.

1st February 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

THE LUNATICS.

The CLERK intimated he had got the account from the Royal Albert Asylum for the maintenance of George Blacklock. It was £7 5s for the quarter, The asylum account was £50 18s 6d.—Mr VIPOND: I suppose the Inspector has not been at the Workhouse—The CLERK: I have not had any account of him.—MR VIPOND: You will have heard nothing with regard to that boy then?—The Master of the Workhouse said that the Inspector had not been there, It would be five years next March since the boy went to the asylum.—Mr VIPOND: He will have had a fair trial then?—The Master: Yes, they told me that two years would be a very fair trial.

PROPOSED BYE-LAWS.

The CLERK said at last meeting he was requested to prepare a form of requisition for a ratepayers' meeting to consider the expediency of having bye-laws established for the School Attendance Committee. He had got the requisition, and it would require to be signed by not less than 50 ratepayers, and they must be ratepayer; as they were rather particular in these cases. If the Board approved of the requisition they could sign it that day, so that it could be taken to the different districts to get it signed.

Mr H. WALTON: What better will it make us?

Mr DICKINSON: None; it will make us worse. (Laughter.)

The CLERK: Compel children to attend schools.

Mr WALTON: I suppose that we can do that now?

The CLERK: No.

Mr VIPOND: We can't act.

The CLERK explained to Mr Walton what steps they could take under existing circumstances.

Mr WALTON: If we could compel them to attend, the master could compel us to pay him.

The CLERK: Of course; it makes no difference, but that we can make children attend school whether they are the children of poor or rich.

Mr WALTON: The Master will not put the parish to the expense of repaying.

The CLERK: We have nothing to do with the Master's fees.

Mr WALTON: We can compel them to attend, and the Master has to compel them to pay.
The CLERK said that when the children did not attend school regularly, and when their parents did not endeavour to make them attend, and made all sorts of excuses for them, the consequences were simply this, that they did not get the sufficient number of attendances, and therefore they did not gain the capitation money, and that was a loss to the ratepayers. So when they found that they were really not attending they could make application to the magistrates. and they could summon them before them, and fine them to the extent of 5s.
Mr DICKINSON: How many children are there that have lost the Government Grant this year?
The CLERK: I have not got the returns?
Mr DICKINSON: 23 perhaps
The CLERK: Far more; in some schools there are a great many.
Mr DICKINSON was of opinion that the fathers and mothers of the children had quite a right to exercise their own judgment with regard to their children, and further expressed himself against the Education Act as a whole.
The CLERK: We have to keep up the schools and if we do not keep up the attendances we will not get the money for the school, and the result is for the parents' neglect, the parish will have to pay.
The requisition was signed by some of the guardians as ratepayers.

RURAL SANITARY AUTHORITY.

The meeting of the Sanitary Authority was held at the conclusion of the Guardians meeting, when the CLERK intimated that in accordance with the letter from the Local Government Board, of the 9th March last year, it was necessary that notice should be given at the meeting that at next meeting the medical officers would be re-appointed. In reference to his own salary, the Clerk further added, that it was necessary that the Authority should make an order for the payment of it each year. He believed he mentioned it last year; the Local Government Board requested that it be done. It was due on the 2nd Dec.—The usual order was made.—The CLERK mentioned that he had received a return from the Local Government Board, requesting to know the number of noxious trades within the limits of the Sanitary Authority's District. It did not appear to apply to this parish at all except with regard to the smelting mill, and the question would be whether it was regarded as a noxious trade.—The CHAIRMAN : We consider that it does good. (Laughter.)

The annual report of Dr Gill, Medical Officer of No 1 District, was read as follows : Sanitary Report of No 1 District of the Parish of Alston. Since the first of January there has been remarkable depression in the commerce of the country arising from causes which cannot enter into a report of this nature There is, however, reason to fear that before the winter is over it may have an influence in producing epidemic and other diseases. The year just ended has been free from epidemic of serious importance. The death rate for the year, assuming the population of 1871, has been about 16 per 1000, and for the quarter 2.28 per 1000 of the population. January 15.—I visited the east side of the town and found the manure steads required cleaning, which the owners promised to do as soon as possible. January 23.—Visited premises owned by Mr Dickinson and occupied by Messrs Farries and Dodsworth, whose families have been suffering

disease, of a serious and infections nature. I discovered bad smells in the cellar and found obstructions to the flow of sewage. On representing this matter to the owner, the plumber and mason by his order sufficiently improved the pipes &c., so that no further diseases have since occurred. April 10.—During my professional attendance at the house of Mrs Salvin, I discovered an unhealthy nuisance in the drainage. Having called the attention of the Inspector he soon got the place improved so far that nothing remains for complaint. May 20.—A complaint having been made respecting a privy belonging to Mr Thomas Graham, orders were given to get it cleansed, and although some difficulty existed from its locality it has now been made satisfactory. May 23.—Accompanied by the inspector, I visited nearly all the manure steads and privies on the east side of the town, and ordered some of the owners to remove the contents as soon as possible. Owing to the bad ventilation of a cow byer belonging to Mr J. Millican, part of a cottage above which being occupied by Mr E. White, was unhealthy for a sleeping apartment. On representing the same to the owner it was improved so far as to be free from complaint. June 13.—I have also visited other places during my professional avocation and am satisfied as to their sanitary condition. June 23. —Discovered the premises occupied by J. Beadle in a very unhealthy condition, and recommended the owner to make the place free from damp walls, and to have better ventilation, so decidedly hurtful were the above causes that the family constantly suffered from some of those diseases which occasionally are epidemic. August 15. A complaint called my attention to a cow byer occupied by Wm. Walton, and having requested our Inspector to look after it, he, I believe ordered it to be cleaned, for on repeating my visit, I found it, in a few days, cleaned in a satisfactory manner. September 15.—Made a tour of inspection on the west of the town, but nothing called for interference. October 12. —Along with the Inspector inspected the east side of the town, but nothing was worthy of remark excepting the cottage occupied by Mrs Law, which is still in a very bad condition. The obstacle I understand, is some disputed ownership of the neighbouring houses. However the matter must be duly attended to or the house declared untenantable.—November 13—I visited Thirlwell's Lane and found the drain which conveyed the sewage broken down in two or three places consequently much obstructed. I recommended the whole to be laid in earthenware tubes and the Sanitary Inspector duly gave orders to follow this intention _____ _____ _____ _____ better condition, and capable of improving the health of the neighbourhood. Dec. 3.—Along with the Inspector visited the east side of the town and again on the 12th the west side and found privies and manure steads satisfactory. Dec. 27.—On visiting the Butts ordered J. Lancaster to cleanse his manure stead. RAILTON GILL

Dee 31st, 1878.
—The Inspector of Nuisances reported that Joseph Seatree complained of the slop water put into the channel which ran past his door, by Mrs Drydon, as a nuisance to him. —During the course of conversation that transpired it was elicited that the water had to be carried across the street to this channel, therefore the Authority instructed the Inspector to give notice to all concerned to put their return water down the grate. which is only a short distance away.—This concluded the business.

8th February 1879 (Alston Herald)

BLAYGILL LEAD MINE

Within the last few days, we hear that the Blaygill mine has been closed, and that some twenty-five men and lads have thereby been thrown out of employment. Whether the stoppage is intended to be a permanent one, or only for a time we cannot say.

8th February 1879 (Hexham Herald)

WEARDALE

W. B. Beaumont Esq. has been obliged to suspend working his mines for a time in consequence of the depressed state of the lead market, and only a small body of men are being employed by the Weardale Iron Company. It is reported that the London Lead Company have given notice of a great reduction of their staff of men employed at Bollihope, Cornish and other mines – many of whom are Allendale and Rookhope men. Mr Beaumont has kindly sent £100 to be applied to the relief of the most needy cases among his workmen, which has been duly appropriated to that end by one of the agents, who, we are informed, is in deep sympathy with the suffering poor.

15th February 1879 (Hexham Courant)

NENTHEAD

THE LEAD TRADE. —The quarterly bargains at the London Lead Co.'s works at Nenthead will be let on Friday next, when it is anticipated 30 men will receive notice that they cannot again obtain bargains. It is also reported that the wages of the washers will be reduced by 2d per day. Rumour further states that 5 men will receive notice at the Dowgang Mine near Nenthead.

ALLENDALE

THE LEAD MINES

The extensive lead works and mines in Allendale belonging to W. B. Beaumont Esq. MP., are virtually still closed. The agents have given the men the option of going into the "Old Man," or the old workings in the mines, but only some twenty or so have availed themselves of it, the labour being so unremunerative. A few hands only are employed at the smelt mills.

THE DISTRESS IN THE PARISH. —-On Saturday last, the Relief Committee met at Allendale Town, to consider the applications for relief from the relief fund. There were present—Rev. Dr Mason (in the chair), Dr G. Arnison, Capt. Holmes, Lieut. T. S. Allison, Rev. Mr Lewis, and Messrs Ridley Nevin, John Walton, Isaac Hall, Thomas Brown, Matthew Stephenson, T. Thompson, W. Sparke, J. Johnson, G. G. Lee, W. Moore, F. Graham, J, Coats, &c.— After considering the several (sixty) applicants' cases, there was distributed between fifty and sixty of them the sum of £22 15s, the sums in each case varying from 5s and 7s 6d to 10s, leaving a leaving of £16 9s in the treasurer's hands. Since the formation of the Committee about the New Year there has been collected from sympathetic friends to relieve the needy poor the sum of £89 19s 10d, besides three waggon loads of coals, each containing 12 fother, two of these gifts of coals having obtained through the application of Mr John Walton, and the third through Mr Wm. Forster, grocer, from Mr W. Benson, Allerwash House. It may not be amiss to state that the Committee first met on January 11th, and distributed £18 12s 4d in cash and 24 fother of coals. The Committee again met on January 25th, and distributed £31 13s 6d in cash and 12 fother of coals.

They again met on Saturday, the 8th inst. (as stated above), and distributed £22 15s, leaving a balance of £16 19s in the treasurer's hands. These gifts are exclusive of those of W. B. Beaumont, Esq., M P., as well as of 30 pairs of blankets, 100 yards of wincey, 40 yards of cotton, and £30 in cash, given by Mr Isaac Hall and his friends, to relieve the distress prevailing in the parish since the suspension of the lead works and mines on the 28th December last.

LEAD MINING.

LANGLEY BARONY AND STONECROFT MINES.

A notice has been posted at the Langley Barony Lead Mines, intimating that all work must cease on the 8th March next. It will be remembered that a similar notice was given last year, to expire on the 14th December last, when a few men were paid off and the wages of others reduced. We may state that work has been continuing regularly at this mine since, except in the washing department, where the lads were stopped for a time during the severe frost. It is also reported that a reduction in wages has been given to the men employed at Stonecroft.

THE TEESDALE LEAD MINES

The quarterly bargains in connection with the lead ore workings of the London Lead Company in Upper Teesdale have just been let, and the local agents in conformity with the instructions received from the Court of Directors in London have discharged 40 more miners. It is understood that a still larger number of men will be discharged during the ensuing week on the Weardale side on the letting of the bargains. The lead trade is in an exceedingly depressed state in these dales.

Deaths

At Alston, 7th inst., aged 66, Margaret Smith, wife of William Smith, cordwainer.

William Brown Smith, son of Joseph Smith and Tamar Brown, born 11th March 1808, married Margaret Dickinson, 27th November 1834, at St Augustine's, Alston.

In 1841, at Town Foot, Alston, William Smith, shoe maker, aged 30, hiswife Margaret, aged 25, children, Joseph 5, Matthew 4, and Jane 4 months.

In 1851, at Ropery Walk, Alston, Margaret Smith, married, aged 38, Children, Joseph, lead ore washer, aged 15, Mathew, lead ore washer, aged 14, Jane 10, William 8, Tamar 6, Hannah 4, and Mary 2.

In 1861, at Physic Hall Bank Foot, Margaret Smith, cordwainers wife, aged 49, children, Matthew, lead miner, aged 24, William, lead miner, aged 18, Tamar 16, Hannah, servant at woollen mill, 14, Mary 12, Margaret A 4, and Martin B aged 2. In 1871, at Town Foot, Alston, Margaret Smith, married, lodging house keeper, aged 58, daughter Jane, organist, aged 30, and son Martin Brown 12.. William Smith died 1st quarter 1880, aged 71, at Alston.

At Bruntley Syke, Alston, 7th inst. aged 74, Mary Lowe, widow of Joshua Lowe, landed proprietor. *In 1851, at Copt Hill, Joshua Lowe, lead miner, aged 52, wife Mary 46, daughters Elizabeth 15, and Hannah 10. In 1861, at Copt Hill, Heathery Cleugh, St John's. Joshua Lowe, lead miner, aged 62, his wife Mary, draper & grocer, aged 56, and daughter Hannah aged 20. In 1871, at Copt Hill, Joshua Lowe, land owner, aged 72, his wife Mary, aged 66, and servant, Sarah Ann Lowe, aged 19. Hannah married Jonathan Walton 3rd quarter of 1870, Jonathan a butcher and in 1871 he and his wife Hannah lived at Bruntley Syke Alston.*

Joshua Lowe died 1st quarter of 1878, at Alston, aged 79.
In 1881, at Ramsey's buildings, Alston, Jonathan Walton, butcher & cattle dealer, aged 40, his wife Hannah 40, children Mary Ann 9, Joseph Louis 8, Sarah Eliz. 5, and Fredrick 1 year.
At Rice, near Alston, 1st inst., aged 62, Thomas Waugh, lead miner.
In 1851, Thomas aged 34,and his wife Ann aged 37, were living at Middle Craig, Garrigill. In 1861, at Low Craig, Garrigill, Thomas Waugh, lead miner aged 44, his wife Ann, aged 45, and niece in law, Mary Davidson, aged 11 year's. In 1871, at Rice, Garrigill, Thomas Waugh, widow, lead miner aged 54.

22nd February 1879 (Alston Herald and East Cumberland Advertiser)
LETTING OF ALSTON PARISH LANDS.—The Fairhill Charity, which comprises several closes of pasture and meadow, near Alston, with three allotments on Middle Fell, were let by auction, in the Town Hall, on Saturday afternoon. Mr Jno. Dixon officiated as auctioneer. The attendance was large and biddings brisk. Lot 1, a meadow of 3.302 acres, started at £14 12s., and let to Mr Wm. Hall at £18 12s. Lot 2, the Home Field at Fairhill, 4.530 acres, was taken by Mr Jos. Lancaster, at £23 10s. The West Allotment, 19.736 acres, was bid to £20, at which price it was laid down, whilst the East and Limekiln Allotments, measuring together 62.358 acres, were put up and bid to £43. The Allotments were then put up in one lot, and after some brisk bidding between Mr Edgar, the old tenant, and Mr J. Millican, of Farnbury, were let to the latter gentleman at £76. A pasture and meadow at Annetwall, occupied by Mr Thomas Walton, was the last lot offered and realised £26 10s., from Mr Jackson. The leases are for five years, and the present rental is an increase of about 20 per cent, over last letting. The rental goes towards the salaries of the masters of Alston Grammar School and Garrigill National School, and the poor of Allston and Garrigill.

22nd February 1879 (Hexham Herald)
Marriages
At Victoria, Kansas, America, 23rd ult., Thomas W. second son of Mr Carrick, of Wooley Burn Foot, Allendale, to Annie L. daughter of the late James Mack Esq., Upper Keith, near Lauder, Berwickshire.
Deaths
Peckriding, Allendale, 18th inst. aged 27, Jane, wife of Robert Heslop. *Robert Heslop married Jane Shepherd 1st June 1872, at Allendale.*

1st March 1879 (Hexham Courant)
NENTHEAD
THE LEAD MINES
The quarterly letting of the London Lead Company's bargains took place at Nenthead on Friday. We intimated a short time ago that it was intended to dismiss some thirty hands. We are very sorry to announce that fully that number were informed that they could not again get bargains. It was intimated that the extra two pence a day given to the washer boys in the spring and summer of each year would not be given. It is also contemplated we understand to reduce the staff of "outside" men, which has up to present not been interfered with. At Rodderup Fell, though the Company have not reduced the number of men washing has been stopped for nine or ten weeks on account of the frost. The few days thaw set the machinery going but again the frost has held sway,

although we hope by the time this appears in print that its power will no longer be. The frost, too, has prevented their hydraulic engines from working and the lower level is flooded, and is a consequent stoppage of work.

Deaths

At Alston, 25th ult. aged 76, William Craig.

In 1871, at Town Foot, Alston, William Craig, farm labourer, aged 68, wife Frances 67, son, Joseph, saddler 26, and grandson John W. Snowden, grocers shop man, aged 19.

1st March 1879 (Hexham Herald)

NENTHEAD

The quarterly bargains of the London Lead Company were let on Friday last, no less than thirty workmen received notice that their services were no longer required. It was also intimated that the advance of two pence per day in the wages of the washer boys always previously given at these bargains would not be given this year. ... Blagill, Hudgill Burn, and Ayle Burn mines are all closed. At Cashwell the number of workmen has been greatly reduced. Lead which a couple of years ago was selling in the London Market at £21 per ton, is now making £15 to £16, with a very limited demand. The decreased value is in part due to the depression in trade, and in no slight degree to large imports from America and Spain.

Marriages

At the Wesleyan Chapel Appleby, 20th ult. Mr Wm. Sanderson, Appleby, to Lizzie, Mr Alexander Carmichael, Draper, Alloa, to Maggie, daughters of the late Joseph Hudspith, formerly of Nenthead.

15th March 1879 (Hexham Herald)

TEESDALE

We reported some short time ago on the discovery of a valuable vein of lead ore at Green Hurth mine in Teesdale. We are now informed that another valuable discovery has been made in an adjoining mine the property of the Teesdale Mining Company Limited. The company have been working for some time in a new vein running into entirely whole ground, the value of which increased as the operatives proceeded further into the hill and it now produces lead ore worth fully five tons per fathom.

WEARDALE

We are glad to be able to state that the mining operations which have been suspended since last year are now beginning to show symptoms of revival, the Weardale Iron Company having commenced operations at their several mines

in the dale, all the old hands being started. The agent Mr Vickers Hodgson, hopes to be able to set on some fresh men at an early period. …
The lead miners at present being employed by the Ecclesiastical Commissioners, draining, planting, &c., are only earning a mere pittance to keep in existence the average earnings being from 1s 1d to 1s 11d per day of twelve hours.

22nd March 1879 (Hexham Courant)
Marriages
At the Wesleyan Methodist Chapel, Nenthead, 20th inst., John Heatherington to Jane Stout both of Nenthead.

LEADGATE (ALSTON.)

LECTURE.—The Rev W. Nall, B.A., Curate of Leadgate, gave the concluding part of hie lecture, "Henry VIII. and the Reformation," in the School-room, on Friday. There was a good attendance. Mr Hardy, Rodderup Tower, occupied the chair.

REV. Mr PATTISON.—The Emmanuel Baptist Church of Albany, the most prominent of the Baptist churches in the country, having a membership of 600 and a building costing 200,000 dols., has voted to extend a call to Rev. T. Harwood Pattison, pastor of the Wooster Place Baptist Church of this city, and it is probable that when the notification arrives formally he will accept. …
Rev. Mr Pattison came here from England as settled pastor of the Wooster Place Church about the middle of February, 1875. The Rev Dr Phelps, the former pastor of the church, who had occupied the pulpit twenty-eight years, left here September 30, 1874, the day before the church was burned. *New Haven Union*.—[The Rev T. Harwood Pattison, the gentleman alluded to by our American contemporary, is well known in Newcastle, having been pastor of Rye Hill Church for six years—from 1865 to 1871. Previous to that the Rev gentleman had been pastor of the Baptist Church at Middleton-in-Teesdale, where he formed a matrimonial alliance with the daughter of R. Bainbridge, Esq., of Middleton House, and grand-daughter of the late Robert Bainbridge, Esq., solicitor, of Loaning House, Alston.

Deaths

At Mark Close, 19th inst., aged 74, Emmerson Hounam, joiner.
Emerson Hounam married Ruth Martindale, 6th December 1828, at St Augustine's, Alston.
In 1851, at Preston, Lancashire, Emerson Hounam, joiner, and cabinet maker, aged 44, born Alston, and his wife Ruth 42, born Alston.
In 1871, at Slaggyford Village, Knaresdale, Emerson Hounam, retired buider, aged 65, and his wife Ruth 62.
Ruth Hounam died 2nd qtr., 1876, aged 67, registered at Alston.

22nd March 1879 (Hexham Herald)

Deaths

At Garrigill, Middle Houses, 14th inst. aged 21 James Hodgson Blacklock.
In 1861, at Rice House, Garrigill, John Blacklock, shoe maker & Ale House keeper, aged 46, his wife Ann (Walton, married 5th May 1838, at St John's Garrigill) aged 38, children John clog maker 19, Jonathan 9, and James 3.

John Blacklock died 1st quarter 1898, aged 84.

29th March 1879 (Hexham Courant)

GREEN HURTH LEAD MINING COMPANY.

The following is taken from the "Mining Journal": - Considering that this mine is in the mouth of everyone about here, perhaps a few particulars may be of interest to your readers. The Company was formed a few years back with a capital of 6,000 shares of £1 each, upon which 6s per share has only been called up; shortly after commencing work they found lead in considerable quantities of about five tons per fathom, and the shares speedily ran up to something above £5, and since then 42s per share or 700 percent has been paid in dividends upon 6s exclusive of the most approved plant &c., costing considerably over £4,000, also out of revenue; the vein then became disordered, and was partially lost, but lately a new sump has been sunk on the same vein and lead discovered, and in 13 fathoms 10 to 12 tons per fathom is proved in one part and in going down still richer below the deepest working which is believed to contain about 15 tons per fathom, the width of the vein is known to 12 feet with every expectation of widening when further explored. What has already been discovered will give full work for several years, and with the continued bright prospects, much larger results may be anticipated. The ore is very rich and even solid lead, requiring no dressing, is found to be in gross quantities; in the south working there are 12 to 14 tons per fathom, and in the north 5 tons, whilst on the top of the limestone which when gone into is almost certain to be richer. Whilst the or was formerly worth some £16 per ton, its present value is about £10, with an upward tendency, and the shares are now asked for at £5 2s 6d, but with few sellers. The mine is situated between Middleton in Teesdale and Alston, and ore is put on rail at the latter place; the area of the mine is about two miles long and one mile wide, and bounded by the Teesdale and Dubby Dyke mines.

29th March 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS.

The fortnightly meeting of this Board was held on Saturday in the Board Room, Town Hall, when there were present—Rev O. James (chairman), and Messrs J. G. Millican, Henry Walton, Joseph Armstrong, Jonathan Carr, Joshua Mulcaster, Adam Walton, Walton Vipond, J. J. Millican, Isaac Walton, and Thomas Dickinson. The Collector's monthly statement for February was read as follows :—Recoverable arrears as per last month's statement, £646 18s 5d; collected since, £236 12s 8d; recoverable, £410 5s 9d. Collector's account with the overseers—balance in hands at the end of last month, £1 6s 8½d collected since, £236 12s 8d; paid to treasurer, £236 12s 8d; balance in hands, £1 6s 8½d. —The Clerk intimated that Mr Joseph Lancaster was complaining of a drain that went out of the Burial Board field into the Charity field that he had taken. It was doing a great deal of damage.—Mr J. G. Millican said the Fair Hill Charity Committee had intended to meet on Monday, but the day was too stormy, so that they could not go out.—The matter was referred to the Committee.—Mr Adam Walton called attention to the damage done to the land

in Mr John Peart's field by the mining operations carried on there. Was there nothing due to the tenant for his loss during the time the damage was occurring? There was a certain number of yards of land lost during the time, and he (Mr Peart) wanted compensation for it.—The Clerk: The Company must pay compensation for it.—Mr Walton: But the Company paid compensation to the Board. —The Clerk: They paid for permanent damages, not for tenant's damages.—Mr Mulcaster: Mr Peart was asked once or twice to make a claim, but he refused; he thought the Board would decide.—The Board has nothing to with it.—After the transaction of the usual routine business, the Board resolved itself into a Rural Sanitary Authority, when the Inspector of Nuisances reported that he had examined Nenthead and the high district, and gave one or two notices to remove dung heaps, but the district was in a good sanitary condition. The water pipe at the Cross had been put right, but evidently there was a leakage at another place. They were waiting till the frost got away when they were going to see to it. —The Clerk: No doubt there's a leakage; I saw it myself.—This concluded the business.

5th April 1879 (Hexham Herald)

NENTHEAD

DEATH OF TINNISWOOD MILLICAN.

The village of Nenthead has been cast into gloom by the death of Mr Tinniswood Millican, which sad event occurred at his residence on Wednesday last. Mr Millican who came to Nenthead when quite a young man, held the responsible position of resident mine manager for the London Lead Company for many years; his brother, Mr John Millican, whose decease we chronicled about, six months ago acting as surface manager. The straightforward integrity of all his dealings won for Mr Millican not only the confidence of the Company but all with whom he had business connections, whilst among the numerous workmen he will be remembered not only as a conscientious master, but a kind and sincere friend. ... Mr Millican resigned the position of agent to the Lead Company some twelve or fourteen years ago and was succeeded by his son Mr J. J. Millican. ... He enjoyed fair health until about a week before his death, when he had a paralytic stroke, after which he gradually sank. He had attained the ripe age of 75.

Marriages

Nenthead Wesleyan Chapel, 25th ult. George Robson to Mary Ann Pattinson both of Nenthead.

In 1861, at White Hall, Matthew Pattinson, mason, aged 50, born Coanwood, his wife Mary 40, daughters Elizabeth 9, Mary A 7, Sarah J 2, and mother Catheron Pattinson, farmers widow, aged 81, born Allendale.

ALSTON

THE LATE MR TINNISWOOD MILLICAN

The mortal remains of the above much respected gentleman were laid in their last resting place at the cemetery, Alston, on Saturday last. The vicar, Rev E L Bowman, was the officiating clergyman, the Rev Mr Berry, Nenthead, was also present. A very large concourse of people were present at the funeral to pay their last tribute of respect to one of the most widely known and deservedly respected residents of the parish. As resident manager at Nenthead for the London Lead Company a post which he held for a great part of his life. Mr Millican gained not only the confidence of his employers, but the esteem of the numerous workmen of whose welfare he was always most considerate. Mr Millican resigned his position as the Lead Company's agent some twelve or fourteen years ago, since which time he has led a quiet country life at his adopted village. He attained the age of 75 years, and his death severs a link connecting Nenthead and Alston Moor generally with older and more prosperous times. Since Mr Millican's resignation, his son J. J. Millican has acted as the Lead Company's Lead agent in the district.

Tinniswood Millican, late of Nenthead, gentleman, will dated 12th March 1875, proved at Carlisle 13th May 1879, effects under £10,000. Names mentioned in the will: —
Daughters Frances Dalton widow, and Sarah Dalton the wife of Henry James Dalton, son John Joseph Millican, and servant Hannah Teasdale.

See 17th August 1844, 2nd September 1876, 24th August 1878, 8th February 1896, 26th June 1897, & 12th March 1898.

3rd May 1879 (Hexham Courant)
LANGLEY MILLS
Death of Mr Joseph Dinning. We regret to have to record the death of Mr Joseph Dinning, of Langley Mills on Thursday last (*1st May*), at the age of 63 years, after a painful and lingering illness. The deceased gentleman was a self made man. He began life as a clerk in the Langley Smelt Mills, under the late Messrs Shield and Turnbull, and gradually improved his position until he became a partner in that concern. On the deaths of Messrs Turnbull and Shield, he became the sole lessee of these smelt mills. The deceased for 17 years conducted them on his behalf, and was much respected by his workmen being a kind and considerate employer. He worked the Stublick and Harondale Collieries, and was also interested in the Hudgill Burn and Rodderhope Fell lead mines near Alston. He was a director of the Hexham and Allendale Railway until the time of the purchase of that line by the North Eastern Railway Company. In farming matters the late Mr Dinning took a warm interest, particularly in the breed of Leicester sheep.
The deceased gentleman was born at Page Croft near Haydon Bridge, and was never married.
He resided with his sister, his remains were interred at Haydon Bridge on 5th May
WEARDALE LEAD MINES
The leasehold lead mines belonging to Mr W B Beaumont, MP., in Weardale have been closed since the New Year, and there is naturally considerable anxiety in the dale as to when they are likely to be reopened. It appears that the lessee considers that the rents now payable to the Ecclesiastical Commissioners from these mines are to high, and that there appears to be no probability of their being reopened until some arrangements are come to on this

point between the Ecclesiastical Commissioners and Mr Beaumont. Whatever this matter be between the lessors and the lessee, the condition of Weardale requires speedy consideration.

Deaths

At Alston workhouse, 25th ult. aged 48, Smith Elliott, lead miner.

Isaac Elliott (son of John, baptised 7th January 1789, at Alston), married Mary Walton, 8th December 1811, at St Augustines, Alston.
Smith Elliott, born 14th May 1831, baptised 28th May 1831, at Nenthead Chapel, parents Isaac Elliott and Mary Walton.
Isaac Elliot of Nenthead was buried, 14th January 1834, aged 47, at Alston.
In 1841, at Low Dykeheadfs, Nenthead, Mary Elliott, 45, children, Isaac, lead miner, aged 20, John 15, Smith 10, Ann 15, and Isabella 5.
In 1851, at Overwater, Mary Elliott, lead miners widow, parish relief, aged 58, and son, Smith, lead miner, aged 19.
In 1861, at Overwater, Mary Elliott, miners widow, aged 69, son Smith, lead miner, aged 30, and Boarder Robert Walton, lead miner, aged 20.
In 1871, at Overwater, Mary Elliott, widow, house keeper, aged 78, and son Smith, lead miner, aged 39.
Mary Elliott was buried at Nenthead, 30th January 1874, aged 80.

At Garrigill, Pasture House, 26th ult., aged 27, Elizabeth, wife of John Wailes, lead miner.

In 1851, at Haggs Foot, William Wailes, lead miner, aged 31, his wife Sarah (Redshaw, married 1st June 1848, Nenthead) aged 25, sons John 1, and Thomas 2 months.
In 1861, at Haggs Foot, William Wailes, lead miner, aged 41, his wife Sarah 35, children John, lead miner, aged 12, Mary 7, and William aged 2.
In 1871, at Low Grassfield, Nenthead, William Wailes, lead miner, aged 51, his wife Sarah aged 45, children John, lead miner, aged 22, William 12, Isabella 9, and Frances Sarah 7.

William Wailes died 13th June 1879 aged 69

John Wailes married Elizabeth Vipond in 1875, at Alston. See 3rd July 1875.
In 1881, at Croft, Garrigill, Sarah Wailes, lead miners widow, aged 55, her children John, widow, lead miner aged 32, William, lead miner aged 22, Isabella, aged 19, Frances S. dressmaker aged 17, and grandson John William (son of John & Elizabeth) aged 3.
In 1891, at Croft, John Wailes, widow, lead miner, aged 42, brother, William, lead miner, aged 32, sisters Isabella 29, Frances Sarah 27, son John William 13, and niece Matilda Wailes aged 6.
In 1901, at Low Galligill, William Wailes, lead miner, aged 42, sister Frances S 37, sister Isabell 36, nephew John W Wailes, lead miner, aged 23, and niece Matilda 16.
John Wailes snr. died 1st quarter of 1898, aged 48.
See 21st June 1879, & 29th November 1890.

3rd May 1879 (Hexham Herald)

Deaths

Alston 27th ult. aged 73, Mrs Mary Armstrong who was for a period of 36 years matron at the Alston Workhouse.

3rd May 1879 (Alston Herald)
Deaths
At Overwater, Nenthead, 29th ult., aged 67, Richard Trathan lead miner.
In 1851, at Bank Head, Nenthead, Richard Trathan, lead miner, aged 38, his wife Catherine (Erwin, married 25th May 1837) aged 34, children James 12, Ruth 10, Thomas 8, Jane 5, John 3, and Richard 6 months.
In 1861, at Donks Hall, Nenthead, Richard Trathan, lead miner, aged 49, his wife Catharine 44, children James lead miner 22, Thomas lead miner 18, Jane 15, John 13, Richard 10, William 8, and Betty 5.
In 1871 at Donks Hall, Richard Trathan, lead miner, aged 59, his wife Catherine 55, children James labourer, 33, Jane Barklow 23 (married daughter), John lead miner 23, and Elizabeth 15, and grand children William Trathan 8, Walton Trathan 7, Ruth Trathan 4, and George Trathan 2.
See 5th May 1877, 7th August 1880, and 25th November 1882

10th May 1879 (Alston Herald)
Deaths
Alston, 2nd inst., aged 49, Jonathan Pearson lead miner.
In 1861, at Littles Buildings, Alston, Jonathan Pearson lead miner, aged 32, his wife Ann 33, children Elizabeth 6, and Mary 4.
In 1871, at Kings Arms Lane, Alston, Jonathan Pearson, lead miner, aged 41, his wife Ann aged 43, children, Hannah, 9, Robert 6, Susannah, 3, and Thomas 10 months. Elizabeth is working as a domestic servant for the Alston Primitive Methodist preacher William Baity and his family, Mary is staying with her uncle & aunt Thomas & Jane Clark (nee Richardson) at Warden, Northumberland.
See 1st June 1866.

10th May 1879 (Hexham Herald)
Deaths
Spency Croft, Alston, 4th inst. aged 45 Mary daughter of the late Wm. Dickinson.
In 1851, at Spency Croft, William Dickinson, farmer of 52 acres, born Grassington, Yorkshire, aged 42, his wife Mary (Robson, married 12th July 1831, Alston) aged 41, children Jane 18, Mary 17, Thomas 16, William 14, Sarah 13, John 11, Catharine 10, Hannah 8, Elizabeth Ann 6, Isabella Friend 4, Frances Octavia 2, and general servant Isabella Errington 27.
William Dickinson, died 29th March 1857.
In 1861, at Spency Croft, Mary Dickinson, widow, farmer of 90 acres, aged 51, children Jane 28, Thomas, tallow chandler & powder merchant, aged 26, Sarah 23, John, merchants clerk, aged 21, Elizabeth A 16, Isabella F 14, Frances D 12, and servant Mary Kirton, dairy maid, aged 20.
William Dickinson, died 29th March 1857.
In 1871, at Spency Croft, Mary Dickinson, widow, farmer of 60 acres, aged 61, children 61, Thomas, landowner & tallow chandler, aged 36, Jane 38, Mary 37, Sarah 32, Elizabeth Ann 26, and domestic servant Mary A Spottswood 18.
See 4th May 1872, 20th August 1887, 6th July 1889, 14th November 1891, 23rd April 1892, & 23rd November 1895.

ALSTON

ALSTON MAY HIRING.—This half yearly hiring for domestic servants was held on Saturday, and was considered a very poor one, as very few engagements took place. Wages ranged from £3 to £5 for the half year.

24th May 1879 (Hexham Courant)

NENTHEAD

LONDON LEAD COMPANY'S MINES

We are sorry to state that we are informed that Mr J. J. Millican the much respected head agent of the London Lead Company, is about to leave their service, but the reason for leaving is not assigned. The men who are working in the "old yard" do not appear to make large earnings, and we are informed that some eighteen or twenty will be disappointed to some extent in their monthly "lennings."

DESTRUCTIVE FIRE IN TEESDALE

On Saturday night, a fire broke out in a detached shed at Blackton Smelting Mills, near Eggleston. The shed was built over two flues which conveyed smoke from the furnaces to the chimney, and it is conjectured that the fire originated in the flues. A man named Walton discovered the fire, and he immediately gave

the alarm. The shed which was a long brick building, and was used for the purpose of drying timber, was burnt, but the fire was got under before the smelting mills, which are contiguous, became ignited. There was a quantity of firewood in the building, which of course, was consumed. The shed was the property of the London Lead Company, and the damage considerable.

ALSTON

The factory of Akrigg Bros. and Co. is now finished and is being rapidly fitted up with machinery, so that we may expect to see it again in working order shortly.

24th May 1979 (Alston Herald and East Cumberland Advertiser)

THE WEARDALE LEAD MINES.

MINERS' MEETING AT ST. JOHNS' CHAPEL

On Wednesday, a largely attended meeting of lead miners took place in the Town Hall, St. John's Chapel, Weardale. The meeting was presided over by Mr J. W. Walton, of Witton-le-Wear, in the absence of Dr Livingstone, and the was to take into consideration the present condition of that lead mining district. The principal employment in the western part of Stanhope parish is in the lead mines leased of the Ecclesiastical Commissioners by Mr W. B. Beaumont, M.P., and these have been closed since the New Year, owing it appears, to some dispute between the lessee and lessors as to the dues payable from them. As the community keenly feel the present state of affairs there is considerable anxiety as to when these mines will be re-opened, and Wednesday's meeting was consequently largely attended. Addresses were given by the Rev R. Crozier, Wesleyan minister, of Stanhope; Mr Thomas Elliott: Mr George Maddison: Rev J. Young, Primitive Methodist, of Westgate the Rev. Hume; Rev Mr Hill, &c. The following resolution was passed:—"That the present cessation of the lead mines in Weardale is entailing great suffering on the miners . and their families, and it is very undesirable that it should continue."—Committees were then appointed to seek out the most necessitous cases and to solicit subscriptions to relieve them. A meeting of the committee is to be held on Friday at Stanhope.

ALSTON BOARD OF GUARDIANS

RURAL SANITARY AUTHORITY.

The fortnightly meeting of the Rural Sanitary Board was held at the conclusion of the Guardians' meeting, Mr James still presiding, and the same members being present.—The Inspector of Nuisances (Mr Dixon) reported that he had visited Nenthead and district which were in good sanitary condition.

DR. GILL'S QUARTERLY REPORT.

The quarterly report of Dr Gill, medical officer for No. 1 district, was read. There had been eleven deaths or at the rate of 5.4 per thousand. Diarrhoea had been prevalent but was disappearing. The premises occupied by Mrs. Ann Kirk were in a shocking condition and the lane must be sewered immediately.—The CLERK said the authority must make the main sewer and call on the proprietors to make the connections. This was directed to be done.

Deaths

Thornley Gate Allendale, 21st inst. aged 43, Francis wife of Thomas Ritson.

In 1871, at Thornley Gate, Allendale, Thomas Ritson Joiner & cartwright, aged 37, his wife Frances (Shield, married 1859) 35, children Joseph 9, Mary 7, Hugh 5, and Thomas 6 months.

31st May 1879 (Hexham Courant)

SUICIDE OF A WEARDALE LEAD MINER. On Tuesday morning the body of a man named Wm. Raine, aged 32 years was found hanging to a tree in a wood near Rowentree Foot. …

Raine was a lead miner under the London Lead Mining Company, but lost his work six months ago. He lived with his widowed mother on his own property, so that it is not probable he had been impelled to commit the rash act through want. Deceased was attended by a medical man about a fortnight ago, and was then understood to be suffering from a derangement of the stomach.

31st May 1879 (Hexham Herald)

ALLENDALE

Allen Mills have now been closed for some time and there is no prospect of their being started again.

31st May 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON

There were sharp showers of hail in the neighbourhood of Alston on Monday, and snow is still lying on the uplands.

MAY FAIR.—The annual fair for the sale of horses, cattle, sheep, and pigs, was held on Thursday last. Cattle was seal scarcely an average show, but, as is usually the case, a large amount of business was done on the preview day in the various yards and fields adjacent to the town where cattle were located. The prices of the previous night were held out against in some cases, buyers expecting to see a downward tendency on the hill in the morning, but the result was the contrary, as the prices were higher at the commencement of the fair, although they receded a little before the close. The bulk of the cattle shown were shorthorns and cross-breds, interlarded here and there with a few Galloways and Irish, but the latter class was very thinly represented, indeed we only noticed one lot on the ground. Buyers described good cattle as very dear, and held out against the prices asked, which necessarily rendered trade slow, although it could scarcely be described as dull, as a middling finish would be made. On the whole good grazing cattle would be scarce and bad to buy, although the prices were similar to other markets. Stirks were the most saleable animals on the ground. A few Milch cows were on offer, and, where of a good class, met a ready sale. Good bullocks brought from £7 to £10; heifers rather less; two-year olds, £12 to £16. The show of sheep was small and was composed principally of blackfaced ewes, with lambs, and blackfaced hoggs. A lot of mule hoggs sold at 30s a-head, which was considered a remarkably cheap price, the top price being 36s. The ewes and lambs were only a middling lot. There was a fair demand in the sheep market. The pigs were shown in carts in the street, and the show fell short of an average. Trade was pretty brisk and prices ranged from 22s to 35s each. The horse fair exhibited a more animated appearance than we have noticed for some years, and the number and class of animals shown seemed much above what has been the case for some time. Mostly light horses and ponies for riding and hacking were on offer, with a few draught horses, but the prices asked were very high and the sales which were transacted were like angels' visits, "few and far between." The only case in which we heard the price mentioned was that of a pony, where £25 was asked. but something below that figure would be taken. The fair on the whole was a very slow one, although a

fair number of sales would take place, but prices for young cattle do not appear to have improved any from the March fair, as heifer stirks brought no more money, while farmers who sold stock at that fair mentioned that they could not have got the same price on Thursday. The fair, however, was quoted as being a better one than either Haltwhistle or Penrith. The weather was fine and as usual a large number of pleasure seekers were present, but there was an entire absence of shows and shooting galleries. Amusements were however, provided in the shape of "Billy Fairplays," &c., while the inevitable "Cheap Jacks" were also present endeavouring to drive good bargains.

7th June 1879 (Hexham Courant)

NORTH OF ENGLAND LEAD MINING.
ITS CONDITION AND PROSPECTS

The condition and prospects of North of England lead mining have attracted much attention of late. Seldom if ever, has the industry been in such a depressed state. Prices are low, the demand small, working more costly, and the outlook anything but encouraging. From remunerative rates and a steady business there has been a fall to quotations which barely pay expenses, and to a trade which is hardly worthy of the name. It is only by the strictest economy, and by perseverance and enterprise in face of greet discouragement, that in some districts, the mines are kept going at all. And in those cases, even, the continuance of operations is due more to the circumstance that the royalty charges have been rendered less burdensome than to the exertions of the employers, indispensable though they may be. The expenses connected with the working of the great majority of the mines are so heavy that, in a time of small prices, the margin of profit which should go in to the pocket of the capitalists is almost wholly absorbed by the landowner's royalty. After every effort to reduce their outlay, and after the workmen's wages have been reduced to the point of bare subsistence, it is not to be wondered at that those who are interested in certain of the largest lead mines should at length find themselves at a standstill. Works cannot be carried on without a profit. There must be some reasonable prospect of a return, however limited. Every item of outlay having been reduced to the minimum, attention has necessarily been directed in the only other source whence assistance can be obtained, namely, the royalty charge. In Weardale, where there has been a great amount of misery among the miners, a reduction in this direction is considered absolutely necessary if the industry is not to cease. In Teesdale, some years ago, the Duke of Cleveland did make an arrangement with respect to the charge which in some degree relieved the lessees— the London Lead Company—and in that district, there are now working tolerably well, though with a much less number of men than they employed three or four years ago. They smelt their own ore, putting the pig lead into the market; and the company, which is an old one, and in a very large way of business, is resting content with the day of small things, in the hope that an improvement will take place shortly. In the case of the Alston Moor mines, too, a reduction in the royalty charge was obtained so far back as the year 1857, or about that time, the decrease being from a seventh to a tenth. But now, even with that diminution, the pressure upon the lessee is very great, and unless there is yet a farther reduction, not a few of them, it is stated, will have to close their business. From these statements, briefly given, it will be gathered that the Weardale mines, where there has been no reduction of the royalty

charge, so far as we are informed, are most unfortunately circumstanced. It is in their case that the owner, Mr W. B. Beaumont, M.P., has been compelled to suspend operations, greatly against his inclination, and greatly to his regret. That gentleman practised every economy in working his extensive mines; his workmen accepted reduced wages in order to assist him; and, indeed, on no hand was an effort spared to keep the works in operation. For some time, we believe, Mr Beaumont submitted to a loss sooner than throw idle those dependent upon him; and now that matters have come to a dead-lock, his losses where so much valuable plant is concerned, cannot be trifling. With the miners and their families, who for months past have been in the deepest distress, through no fault of their own, there is a great amount of sympathy. Never, within the memory of the oldest in habitant, has the fertile and picturesque vale been so gloomy sad depressed; and any relief which may be afforded will be truly welcome to the suffering fathers, wives, and children dwelling in the valley, and the sooner it comes the more heartfelt will be its welcome.

The principal of the North of England Lead Mines are divided into three great groups—the Alston Moor Mines, in the county of Cumberland; the East and West Allendale Mines, and also the Blanchland and Derwent Valley Mines, in the county of Northumberland; the Weardale Mines, in the upper part of the valley of the River Wear, and its tributary valleys of Burnhope, Kilhope, Wellhope, Ireshope, and Rookhope; and lastly, the Teesdale Mines, in the upper part of the valley of the River Tees, the mines being situated chiefly in the county of Durham and partly in Yorkshire. A reference to the map will show that this, the great lead mining district of Great Britain, is in that narrowest portion of the island which is formed by the counties of Northumberland, Durham, Cumberland, and Westmorland, and is in what is nearly the central part of the entire island.

The royalties of Allendale, formerly held by the Fenwicks, of Wallington, and also by the Blacketts, are now possessed by Mr W. B. Beaumont, M.P. The Weardale mines are held under lease by the same gentleman from the Ecclesiastical Commissioners. Mr Beaumont, at vast outlay, has rendered his mines among the best equipped in the country. Some of them have not been worked for a considerable period only a few workmen and boys being retained to keep them open and preserve the plant The Alston Moor mines are chiefly leased from the Greenwich Hospital. Among the largest of them is Rodderup Fell, situated about three miles from the town of Alston. It is worked by Messrs. Crawhall, Wilson, and Co., who pay the Hospital the value of a tenth of their produce as royalty charge. As already stated, every lessee under the Commissioners of the Hospital pay at the same rate, and individual owners of royalties in the neighbourhood have adopted a similar scale. Rodderup Fell at one time was a rich mine, yielding nearly 4,000 “bings” a year. “Bing” is purely a local term, two-and-a-half “bings” making a ton. The output now varies from 600 to 800 bings, and the produce is sold at about half what was gained when trade was brisk. About eighty men and boys are employed at the mine, the men receiving on piece work from 15s, to 20s. a-week, as compared with from 20s. to 24s. a week in the years 1873 and 1874. At Cashwell (eight miles from Alston), about forty men and boys are employed. This mine, which is worked by a Newcastle company, does not yield much silver, but its lead ore brings first class prices in the market. Its output used to be from six hundred to nine

hundred bings a year, but latterly the quantity has not been so great. The mine has not been at work this year, the company being engaged in putting in a new engine. Pattersyke, on Colonel Byng's royalty is the richest in silver of all the mines in the district, and its ore usually rules from eighteen shillings to twenty shillings above the value of the ores raised elsewhere on the moors. But it is only a small mine, and very few hands are engaged in it. The Calvert is another small mine on Col. Byng's property, employing a few hands, and producing an average ore. Around Nenthead are the Blagill, Haggs, and Brownley Hill mines, which are worked by small companies; and in the same locality are a group of mines leased by the London Lead Company. Blagill was formerly a rich mine, but now a portion of its revenue in derived from the raising of pyrites. The company who own it are pushing forward with renewed vigour, in the hope, it is to be presumed, that they will come upon a "good find" At Haggs there has not been much doing for the last four or five years; and at Brownley Hill where from twenty to thirty men are employed in place of the former number of forty or fifty a good average ore, which brings a fair price, is produced. The London Lend Company had a curious beginning. It was founded by certain members of the Society of Friends with a view to afford employment to men in the agricultural districts who were at that time in a very destitute condition, and not, strange to say with the sole view of making profit. They set out with the object of not requiring more than 5 per cent on the capital invested, and they devoted extra profits to giving their workmen certain privileges and to assisting various social and religious institutions. In the course of the years there was an infusion of new blood into the Company, and with it came a change to their policy. Their object became then, and it has been ever since, to make a profit, and a very difficult task they have found it. They have been compelled to lay off the whole of their mines in Westmorland, and their operations in Stanhope and I Teesdale are greatly restricted. Like their neighbours they find the royalty charges acting as an embargo upon their undertakings. The Company, roughly speaking raise about 3,000 bingo per annum from their Nenthead Mines and from Garrigill inclusive. They do not employ so many men as formerly, and the output, as stated, is considerably less than it used to be. In addition to those named, there are a number of small mines that, from various reasons, have been permanently closed. In round numbers, it may be taken that there were about one thousand workmen engaged in the mines on Alston Moor in former times there are now about six hundred. The wages made at Rodderup Fell is the average wage of the district, namely, from fifteen to twenty shillings per week; indeed, it may be taken as the average wage paid throughout the whole of the lead mining districts. Those minors who are married generally have a bit garden ground attached to their cottages; and though their condition is not an enviable one, it is nevertheless very much superior to that of their unfortunate brethren in Weardale. As to the prices which are got for Alston lead in the market, it may be generally stated that where once a fair lead ore brought from £6 to £6 10s. per "bing" in the market, it now brings from £3 to £3 10s. This is a serious falling off, and one which is being severely felt by all who are interested in the mines. Perhaps among the most fortunate speculators in lead mines at the present day are the members of the Greenhurth Lead Mining Company. They started with a capital of 6,400 one pound shares, on which six shillings only has been called up. On that amount, the mine, which can hardly be described as opened out, has paid a dividend of forty-two shillings per share, besides affording profits out

of which machinery, buildings, and other plant has been obtained. Greenhurth lies midway between Middleton-in-Teesdale and Alston, and it yields a very superior ore in abundance. The Company are “driving” north and south from the bottom of the “sump,” and on the top of limestone, and the mine, at each fathom, is being proved a very valuable one. About three miles lower down the vale, the Teesdale Company are opening out a fairly valuable mine. To the south of Greenhurth, another company, called the Dubby Syke Company, are sinking a shaft to hit upon the Greenhurth vein in another part of it; and the Crook Burn Company are sinking a shaft in the north of Greenhurth with a similar object. The poverty of the mines, and depressed times may be said to have caused the unprecedented dullness of business in Alston lead ore; and the lessees are directing their attention to the royalty charges. We are not aware that there has been any movement made in reference to them yet, but on all hands, it is agreed that if the mines are to be carried on the owners will require relief of some sort. It is pointed out that when a mine becomes poor it as more expensive to work; that is to say, the ore is more difficult to win, they have to sink to a greater depth for it, and necessarily the outlay is considerably increased. The lessees state that the prices realised hardly pay the expenses incurred, and they feel strongly that they should be afforded some inducement to continue their mines. In 1873-4, they got as far as £17 a ton for lead ore; now, at the outside, they get from £7 to £8 per ton; or, in other words only half the money. The whole countryside, they further point out, is so riddled that there is little chance of any valuable vein being struck, and they hold, therefore, that there is all the more need of a redaction of the royalty tax in order to induce speculators to spend their capital in search of lead, and also to relieve them in the meantime. In the case of the Weardale mines reasons of a similar nature operate, only in that instance it has been to a greater degree. With the exception of a few men and boys retained to keep the mines and their plant in order the whole of the miners in Weardale have been flung out of work. Bad trade has fallen upon the dale with a heavy hand; the direst distress prevails among its inhabitants; they bear it uncomplainingly and patiently, but their human fortitude is not equal to their sufferings, and at length their wail of misery has passed from the limits of their valley, for which they have a parental attachment, and has reached the ears of the outside public Attention has been called to their condition, and there is hope among them that they will be afforded a chance of working for even a mere subsistence. None sympathises with them more than Mr Beaumont himself, and none would be more heartily glad than he could his mines be caused to resume work. But while the Weardale Mines have combatted hard times, low prices, and increased difficulties in winning the lead, the royalty charges imposed by the Ecclesiastical Commissioners have proved too heavy, taking away almost the only chance of that profit which would have carried the mines on to good times and better prices. The Alston Mines pay a tenth, while Mr Beaumont, we believe, pays a fifth or a fifth-and-a-half to the owners of the royalty; to that it will at once be seen that the tax which he has to pay more than counterbalances any advantages which he may possess in the excellent character of his mines. Mr Cain (Mr Beaumont’s chief agent) has been in London during the past week or fortnight endeavouring to arrange the matter with the Commissioners. Several local men of influence are also interesting themselves keenly in the matter on behalf of the suffering miners; and it is to be hoped that, as a result of their efforts, the Commissioners will see their way to a compromise, and that

there will be an early resumption of work in the Weardale mines. —*Newcastle Daily Chronicle*

THE TEESDALE LEAD TRADE.

The quarterly bargains of the lead miners in the employment of the London Lead Company have just been let at Middleton in Teesdale. There has been no further reduction in the number of workmen employed in the Teesdale workings, but at the Weardale mines the London Lead Company have found it necessary to discharge over 50 pickmen and others. A large number of the discharged men with their wives and families have emigrated to the Western States, the depression in Teesdale and Weardale being at a very low ebb.

7th June 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON.

It was reported on Sunday at Alston that a water spout had been seen on the fells to the west, and which was considered to have fallen towards the other side of the fell. **6TH CUMBERLAND (ALSTON) RIFLE VOLUNTEERS**.—On Friday and Saturday last this corps held its monthly handicap prise competition. The weather on Friday was fine with strong rear wind, Saturday not being so favourable, rain coming on before the close of the shooting. The conditions were 5 shots at 200, 500, and 600 yards, no sighters; Wimbledon targets. 1879.

ALSTON BOARD OF GUARDIANS

THE BEQUEST OF £2,000

The Clerk stated that he was in receipt of further correspondence with reference to the bequest of £2,000 by the late Mr King to the town, which he read to them. A letter from Mr Yorke, solicitor to the late Mr Kings trustees, dated 22nd May, was read, in which he stated that he was instructed by the trustees to the will of the late Mr King to ask the Alston authorities to inform them of the nature of the scheme which was prepared for administering the bequest, as they wished the scheme to meet the instructions expressed by the testator.—In the meanwhile the Clerk had received a letter, dated the 8th May, from the Charity Commissioners, stating that as soon as the order for the amount of the bequest was lodged in the Bank of England they would direct the requisite steps to be taken for the establishment of a scheme. They also asked the concurrence of the magistrates and guardians forming the Rural Sanitary Authority to the coarse proposed.—In reply to Mr York, the Clerk said he had written noting that under the existing circumstances there was no one to prepare a scheme, and referred them to the letter of the Charity Commissioners. In reply to that letter Mr Yorke had written again, on the previous morning, stating that he was not overlooking the letter, but he presumed that there was no doubt that the recommendations of the local authorities as to the application of the charity would be given effect

to.—The Clerk remarked that the question was who the local authorities were. The executors of the will had taken the opinion of counsel, who advised that the money should be paid to the Charity Commissioners. The beat plan would be to send copies of the letters to the Charity Commissioners and ask for instructions. —Mr Richardson Have the magistrates taken any steps? —The Clerk: They have done nothing; nothing will be done till the money be paid —The Chairman: You think it desirable that no steps be taken, but remit these letters to the Charity Commissioners.— The Clerk: I think so because we might take a wrong step, The Charity Commissioners are waiting for the money to be paid and then they will submit a scheme. The executors repudiated the magistrates; repudiated the guardians, and now they want a scheme.— The Clerk submitted a resolution that the guardians give their consent to the course proposed to the Charity Commissioners, that the money be handed over to them for the purposes mentioned in the will of the testator of the scheme.—The Chairman: You mean that to be a resolution of the magistrates as well as of the guardians.—The Clerk said he was going to submit it to the magistrates on the following Friday.—Mr A. Walton moved that the resolution be adopted —Mr I. Walton seconded the motion.—Mr I. Walton: Would it not be wise to call the people interested to state their opinion of the matter.—Mr Richardson: I think the Commissioners will send a Commissioner down to make inquiry.—The Clerk: They will either hold an inquiry or order a public meeting.

THE GRAMMAR SCHOOL

Mr A. Walton said that Mr Grey had seen fit to continue the Hospital subscription this time, but he would not do it again except he got a better report. He was convinced from what he heard that the school was in a very unfit state, and unless some steps were taken by the managers, he did not think there would be anything done. So far as his (Mr Walton's) own individual opinion went—he did not wish to prejudice the guardians against Mr Davies in any way—but he thought they had not sufficient control over the management of the school, and they could not get any control under the existing arrangements, and he would propose that they give the master three months' notice to terminate his engagement, and then make a new engagement with him. The Chairman: Do you propose that we advertise for a new master and take his application.—Mr A. Walton: No if he was not willing then do that, it would certainly give him a full chance of doing the best he can, but we must have the full management of the school and finances.—Mr I. Walton thought that the scholars scarcely had a fair chance the way they were examined, and he would prefer to have another examination. The master complained that he had no time to bring them up to the standard that he might have. The scholars also were timid, and not like scholars who were examined yearly and got hardened. He (Mr Walton) thought the master was labouring under a disadvantage on these grounds—Mr A. Walton thought the master had no reason to complain about the examination he knew they had been examined before and he must have known that they must be examined again. He (Mr Davies) had an interview with Mr Grey, when he told him that he had only two days' notice, but he (Mr Walton) should think he had anyway seven.— -Some conversation followed, in which Mr Vipond was of opinion that they had sufficient control over the school, and complained of the inspector not examining the children in mensuration, Mr Millican was in favour of another report before any action was taken; and after a pretty lively dismission the meeting terminated without any action being taken.

SAD FATAL ACCIDENT AT NENTHEAD.

On Monday last, a sad fatal accident occurred to a man named Joseph Robinson, 51 years of age, lead miner, Nenthead while working in the London Lead Company's mine at that place. Deceased was working about half past twelve o'clock, noon, along with three other men named Joseph Trathen, George Hetherington, and Thomas Robson, and was engaged putting a piece of wood under the roof when a large stone weighing about two cwt fell upon him crushing him severely. The poor man was immediately conveyed out of the mine to his home and as Dr Don Bavand, the Company medical man, was from home and not expected back till Wednesday, Dr Gill of Alston, was immediately telegraphed for, but the poor man died at two o'clock in the afternoon before the doctor had been able to reach him. Deceased was married and leaves a family of eight one of which is working age.

In 1841, at Wellgill, Dykeheads, Hannah Robinson, widow, aged 52, children James 19, William 15, Martha 15, Joseph 12, and Betsey 6.
In 1851, at Holmes Foot, William Robinson, lead miner, aged 36, his brother Joseph 22, and sisters Ann 35, Elizabeth 15, and Jane 5.
Joseph married Mary Thompson (daughter of Jonathan Thompson and Nancy Vickers, born 19th September 1833) in the first quarter of 1860, at Alston.
1871 Census gives the following, at Overwater, Nenthead, Joseph Robinson, miner, aged 42, his wife Mary, aged 36, children Hannah aged 8, Thomas aged 6, Margaret Ann aged 5, Jonathan aged 7, Joseph W 3 months.
In 1881, at Overwater, Mary Robinson, widow, housekeeper, aged 48, children, Thomas, lead ore washer, aged 16, Jonathan, lead ore washer 13, Joseph W, 16, and James 7.
In 1881, Hannah was a servant to Sarah Harrison (aged 82) of Overwater, Nenthead, Margaret Ann was living with her Uncle & Aunt, Thomas & Ann Thompson at Cleator Moor, occupation dressmaker.
In 1891, at Overwater, Mary Robinson, widow, aged 58, children, Thomas, lead miner, aged 26, Jonathan, lead miner, aged 23, Joseph W, lead miner, aged 17, and James, lead ore washer, aged 17.
In 1901, at Overwater, Mary Robinson, widow, aged 67, sons, Jonathan, lead ore washing foreman, aged 35, Joseph, time keeper, aged 30, and James 27, stoker stationary engine, aged 27.
In 1911, at Overwater, Nenthead, Mary Robinson, widow aged 77, and son James, foreman lead & zinc ore dressing floor, aged 37.
Mary Robinson died 3rd quarter 1915, aged 81.
See 20th May 1876.

Deaths

At Alston, 2nd inst., aged 79, Elizabeth, widow of James Bell, barber.

14th June 1879 (Hexham Herald)

SUCCESSFUL LEAD MINING.

A very valuable discovery of lead ore has been made by the Burnhope Lead Mining Company, who commenced operations in October last to work a North and South vein running through Harehope Hall Royalty, Edmondbyers. A shaft was set on some fifty fathoms South from Burnhope stream (the Northern Boundary) and after sinking 15 fathoms through a deposit of fine alluvial soil, they struck the High Grit Sill, and on top of this Sill large blocks of pure galena, lead ore were found, weighing from 2 to 3 cwts each, and some tons of this was

got out at the bottom of the shaft having been washed from the North and South vein where the sills are thrown up West.
Having also seen indications at the surface of an East West vein near to where the shaft was sunk a level was started at this depth in a Northerly direction and after driving twelve fathoms a very fine powerful East and West vein was cut at the outcrop of the High Grit Sill. Another cross cut was then commenced from the shaft to prove the North South vein, and after driving four fathoms, this vein was cut rich. The vein is a large and masterly one well defined, and contains very fine pure galena lead ore valued at 5 tons per fathom.
The Hexham and Edmondbyers Mining Company, who hold the adjoining royalty to the North have sunk a shaft 33 fathoms deep and from this shaft a level has been driven 30 fathoms to their Southern boundary (the Burnhope stream) and it is estimated that over 100 tons of lead ore have been got from this level alone, and in coming Southward to the Burnhope Company's Royalty the vein increased in size and productiveness every fathom of ground being opened out, and the vein is standing at present at their Southern boundary, nine feet wide and rich for ore. The Burnhope Company are preparing machinery and plant for raising and dressing the lead ore, and are commencing to work the North and South vein towards the intersection of the East and West vein. …

21st June 1879 (Hexham Herald)

LEADGATE (ALSTON)

We understand that the number of workmen employed at Rodderup Fell Mine will be much reduced, in fact, nearly to the extent of one half. Several of the washer boys have also received notice that their services will be no longer required. Much regret is expressed that the managers should be under the necessity of reducing the number of their workmen, as Rodderup Fell is the only mine in the district which up to the present has employed its full number of hands, and such is the public spirit of the proprietors that all admit that nothing short of stern necessity would have impelled them to take this step. Present prices of lead, however are about prohibitive to mining, and it is felt that the Lords of the Admiralty should make a material reduction in their Royalty dues.

21st June 1879 (Hexham Courant)

Deaths

At Alston, 16th inst., aged 55, Ann widow of the lated David Smith, much and deservedly respected.

In 1871, at Town Head, Alston, Ann Smith, widow, laundress, aged 47, children, Thomas, lead miner, aged 24, Sarah, domestic servant, aged 23, Mary, domestic servant, aged 16, David, coal miner, aged 16, and granddaughter, Mary Ann Smith 5.

See 28th September 1872, & 29th January 1887

At Low Greenends, 15th inst. aged 69, Elizabeth Broadwood, widow of Robert Broadwood, lead mine agent.

In 1851, Robert Broadwood, lead mine agent farming 18 acres, aged 52, his wife Elizabeth (Whitfield, married 29th November 1828, at Ninebanks) aged 42, children Mary, dressmaker, aged 17, Elizabeth 16, Jane 13, Thomas 17, Robert 9, Edith 5, Isabella 3, John J. 1, and niece Ann Louden 2.
Robert Broadwood died 1st quarter of 1860.

In 1861, at Nether, Nentsbury, Elizabeth Broadwood, widow, farmer of 27 acres, aged 50, children Thomas, joiner & millwright, aged 21, Robert, lead miner & land agent, aged 19, Edith 15, Isabella 13, John James 11, William Guy 9, granddaughters Ann Richardson 5, and Emma Richardson 3.
In 1871, at High Nenthall, Elizabeth Broadwood, widow, house keeper, aged 60, sons John James, lead miner, aged 21, William Guy, coal miner, aged 19, and granddaughter Emma Richardson 13.
At Haggs, 13th inst., aged 69, William Wailes, lead miner.
See 3rd May 1879, & 29th November 1890
At Low Dykeheads, 16th inst. aged 73, Robert Douglas, Millwright.
In 1861, at Low Dykeheads, Robert Douglas, Millwright, born Bishop Auckland, Durham, aged 54, and his wife Susannah (Swindle, married 26th December 1839, Alston) aged 46.
In 1871, at Low Dykeheads, Robert Douglas, Millwright, aged 64, and his wife Susannah aged 56. See 10th September 1942
Probate 1879: The Will of Robert Douglas late of Nenthead in the parish of Alston in the county of Cumberland Millwright who died 16th June 1879 at Nenthead was proved at Carlisle by James Atkinson of Nenthead Mine Washing Overman, one of the Executors. Personal Estate under £300.
Susannah Douglas was buried at Nenthead, 30th May 1885, aged 70.

LEAD MINING IN ALSTON MOOR

A meeting of delegates from each mine in the district, with several tradesmen, of the town, took place at the Golden Lion Hotel, Alston, on Saturday, to consider what steps it was desirable to take to afford relief in the present

depressed state of the leads mining and the general trade of the district. Mr John Dickinson occupied the chair. It was resolved to call a mass meeting of the inhabitants at the Town Hall for the purpose of passing resolutions, asking the Lords of the Admiralty - Lords of the manor of Alston Moor - to reduce their mineral dues, such resolutions to be embodied in a petition signed at the meeting, to be presented to their Lordships. A sub committee was appointed to make necessary arrangements, consisting of Messrs John Dickinson, John Little, M Whitfield, D Walton, C Irving, U Stout, J Walton, W Brown, and J Pattinson, to draw up resolutions and make the necessary arrangements. it was decided that the meeting be held at the Town Hall, on Friday, the 4th July. The dues paid by the lessees of the Alston Lead mines now arrange from a tenth to a twelfth of the gross produce.

Deaths

At Alston, Bridge End, 20th inst., aged 76, George Dickinson, farmer.

28th June 1879 (Hexham Herald)

STOPPAGE OF MINES AND DISTRESS IN WEARDALE
PETITION TO THE ECCLESIASTICAL COMMISSIONERS

"The respectful memorial of the inhabitants of Weardale in public meeting assembled at St John's Chapel on the 21st June inst.

"To the honourable the Ecclesiastical Commissioners of England, Showeth: -

"That your memorialists are suffering sad distress from the fact that the lessee of your honourable Commissioners has closed very many of your local mines, and as mining is the only industry in this dale, nearly the whole of the working population are thrown out of work, and are suffering pinching distress.

"Your memorialists submit that it is wrong to the entire dale that all the lead mines should be leased to one person as it literally places a monopoly in the hands of that person. Your memorialists are aware that when the Ecclesiastical Commissioners came into possession of the lead mines they found existing leases to Mr W. B. Beaumont, and that to a considerable degree their hands were bound. But your memorialists beg urgently to ask your honourable Board to consider if it is possible to lease a few portions of this large extent of country, in which lead ores are worked (by tender or otherwise) to separate parties. In such circumstance, your memorialists would have several employers instead of only one upon whom they are solely dependent. Your memorialists therefore implore your honourable board to give immediate consideration, and trust you will without delay find a way to an early attainment of so desirable an end, and give your suffering memorialists work and bread.

"And your memorialists will ever pray.

The Lead Miner's Plaint

In garments of grandeur the meadows are clad,
And rich blossoms adorn the trees of the wood;
But the hearts of our dalesmen are drooping and sad,
For their homes are devoid of cash fuel, and food.

Lonely they oft wander on the banks of the Wear,
And watch the wild waters roll murmuring past;
The voice of the surges - like the words of their prayer -
Grow sadder and deeper the longer they last.

The old lead mines are closed, the source of our bread,
Hewn out by the hands of our brawny ancestors,
Poor, hard toiling miners, it is well they are dead,
And freed from the ills which daily sweep o'er us.

Beneath the church spire in the quiet green hollow,
We laid them to rest on death's dreamless pillow.
There sunbeams oft linger on the white daisied sod.
Where sleepeth our kindred, whose sons are with God.

Such memories must bind us to our dear native hills,
Though foreigners should reap the rich of the sills.
Work - work is our wealth, and this seems denied us,
And new forms of anguish threaten to o'erwhelm us.

Cold rusty, and dormant are picks, hammers, and drills,
And locked in dead silence are the huge crushing mills,
And bloodless brow'd children have forgotten their play,
And hang like blanched roses around the bare tray.

We revile not our master, we chide not the state,
But bear faultless and firmly our indigent fate,
In our travail of grief through the starless night,
Love's high priests will lead us, and heaven be our light.
Behind the crude curtain Jehova is working,
And "Lo I am with you" is his law everlasting.

Blessed balm of the soul to sufferers given,
Sweet dewdrops of comfort descending from heaven.
Then hush thy sad murmurs, pious miner and friend,
For in heaven thy taper shall shine without end.
F. Martindale
Westgate 25th June 1879.

The Beaumont leases were first held under the Bishop of Durham, and later from the Ecclesiastical Commissioners, with the exception of one tract they held a monopoly of the right of mining.
Widespread destitution existed amongst the Weardale lead miners on account of the stoppage of the mines - one half being closed in June 1878, and the other portion at the close of 1878. (end December)
It was stated by the Beaumont's that the mines could not be profitably worked owing to the abnormally heavy dues paid out of the produce to the lessors.
The miners were working by giving their time on the supposition of a return in the price received for the lead, whilst the older system of payment of a regular wage as "subsistence money" has been for some time done away with.
Ecclesiastical Commissioners had employed some of the miners in planting and repairing drainage &c.

5th July 1879 (Hexham Herald)

WEARDALE

THE DISTRESS

Mr W. Murray of this town, has kindly collected £ 16s and has forwarded it for distribution among twelve families of Weardale miners, which he intends supplementing by another collection. The Rev. R. Crozier. who has undertaken its distribution, says “the suffering is becoming intense many of the inhabitants being frequently without a bite in the house. All is very painful and very dreary, but it is hoped an improvement will shortly take place.” Relief is urgently needed.

5th July 1879 (Alston Herald and East Cumberland Advertiser)

Amid the general depression in lead-mining is refreshing to hear that Messrs Bell intend to increase the number of their workmen at Crossfell mine. Messrs. Jacob Walton and David Burns also propose driving an adit level near the Park. On the hand, the notices of the Rodderup Fell workmen expired at the end of the month and some thirty of their number are out of employment. A meeting of the directors was held on Thursday, and we understand it was seriously mooted to close the mine altogether. At Nenthead only about 40 men are employed underground, this number being required to prevent the Lead Company’s lease from lapsing. At Calvert, a sale of mining plant was held a few days ago, which probably means that the mine is to be permanently thrown in. Lead which half a dozen years ago was worth £23, is now selling at about £14 per ton.

ASHGILL

The Primitive Methodists of Ashgill celebrated their annual Sunday School festival on Saturday and Sunday last, at the beautiful waterfall called Ashgill Force, in the grounds of the London Lead Company, granted for the occasion by J. J. Millican, Esq., Nenthead. The meriting did not seem altogether promising of fine weather, and as mid-day approached the weather prophets prognosticated showers. The brass band belonging to Garrigill having been engaged for the occasion, left the village about three o'clock in the afternoon for the place of rendezvous. By that time a number of young people had found their way to the famed waterfall, to admire and enjoy the rich and varied scenery, it being one of the most delightful places in the neighbourhood. Tea was provided in a spacious marquee, which was erected on the east side of the plantation house the scholars partaking first, then followed their teachers and the public. The ladies who kindly attended by their wants were Miss A. Emerson, Miss S. Carr, Miss A. Richardson, Miss E. Martin, and Miss E. A. Renwick. About six o'clock a public meeting was held, presided over by Mr J. Wilkinson (Coanwood). The report was read by Mr Henry Wilkinson secretary to the Sunday School, after which able addresses were delivered by the Rev. W. A. French, Shildon, and the Rev B. Wild, Alston. At the close of the meeting a coffee supper was held of which a goodly number partook to their entire satisfaction. On Sunday, two sermons were preached in the open air by the Rev W. A. French, in the afternoon and evening to large congregations, particularly in the evening, scores flocking in from the surrounding villages. On Monday evening, the Rev W A. French delivered a popular lecture in the Primitive Methodist Chapel, Garrigill, subject, "Ulrich Zwingle, the Swiss Reformer,” the chair being taken by the Rev B. Wild, Alston.—A collection was taken after each service in aid of the fund.

11th July 1879 (Newcastle Courant)

HARD TIMES IN THE ALSTON DISTRICT.

A meeting of Alston Moor lead miners was held in the Town Hall, Alston, on Friday, for the purpose of passing resolutions, to be embodied in an address, asking the Lords Commissioners of the Admiralty, who are the Lords of the Manor of Alston Moor, to make such substantial reduction in their manorial dues as may enable the lessees to work the mines, and afford employment to the inhabitants The Rev. O. James, Clarghyll Hall, occupied the chair. Resolutions expressive of regret at the present distress existing amongst the lead miners, yet recognising the cordial relations between the workmen and their employers, and the perseverance of the lessees in working the mines in spite of heavy losses; affirming, also, the necessity for a reduction in the dues, were moved, and supported by the Rev E L Bowman, Vicar of Alston; Rev W. Farries, Congregationalist minister; Rev B. Wylde, Primitive minister; Mr John Dickinson, Alston; Mr Duncan C. Walton, Roddehope Fell; Mr James Atkinson, Nenthead; Mr George Dickinson, Alston: and Mr Thos. Ramsay, Alston. Perfect unanimity characterised the proceedings, and the workmen were highly complimented by the speaker on the peaceful and considerate attitude they had assumed in the trying times through which they have lately passed. The Rev O James, Rev E. L. Bowman, and Mr Thos. W. Crawhali were requested to wait on the Lords of the Admiralty and present the address. Amongst other effects of the depression in the lead trade the churches in the Alston district, which are to a great extent supported by the voluntary contributions of the mining companies, are being disendowed on a small scale. The London Lead Company has given notice of the withdrawal of its annual subscriptions of £40 to Nenthead living and £30 to Garrigill curacy, the latter sum being met by a contribution of equal amount from the Ecclesiastical Commissioners, and the withdrawal of the one probably means the withdrawal of the other. The Rodderup Fell Company have also discontinued the payment of £10 annually to Garrigill, and it is understood will also discontinue their payment of £30 to Leadgate curacy. These sums are also met by contributions from the Commissioners, which may probably cease. The Lord Bishop of Durham visited Nenthead and Garrigill during last week for the purpose of ascertaining how the spiritual needs of the inhabitants might be best provided for. It was proposed to unite the living and the curacy under one clergyman; but His Lordship after walking over the bleak and steep moor, which separates the two villages decided that the distance was too great for one clergyman to perform the duties; and he had reason to believe the Lords of the Admiralty and the Ecclesiastical Commissioners together would be induced to provide a sufficient endowment for Nenthead; but as to the curacies of Garrigill and Leadgate his Lordship was not yet prepared to say what course would be taken, to provide stipends for the officiating clergymen. The schools as well as the churches are being affected. The London Lead Company have withdrawn their grants to Nenthead and Tyne-head schools, and the Rodderup Fell Company their grant of £50 to Leadgate. The two largest mines in the district —Rodderup Fell and Nenthead—are not employing more than half their usual number of hands; indeed, the latter company only employ the 40 "pickmen" who they are bound to keep on to prevent their lease from lapsing. Brownley Hill and Cashwell have reduced the number of workmen. Gilligill Syke is in the market. Ayle Burn, Hudgill Burn,

Blagill, and Calvert mines have ceased working. Cross Fell mine is the only mine, which has increased the number of its workmen.

12th July 1879 (Alston Herald and East Cumberland Advertiser)

A SCENE SELDOM WITNESSED IN THE VILLAGES OF ENGLAND.

The influence of bad times in the lead trade in the district of Alston, is making itself felt not only in the loss of employment by the workmen, but also by the removals that are taking place. In the early part of this week there occurred at the village of Nenthead what had perhaps never occurred there before, and may perhaps never happen again,—the meeting together for the purpose of a united move to the lands of the west, of the representatives of four generations. A man of the name of Anthony Robinson, having relatives in America, and after having looked at the matter of emigration in the light of the present times, came to the conclusion that it was best to emigrate and to join his friends on the other side of the Atlantic, and having disposed of his possessions and made all the necessary arrangements as to passage, and travel to the port of embarkation (Liverpool). he then assembled his family at Nenthead having several daughters in situations and a married daughter living in Newcastle, who with her husband and child joined the family group at this mining village; probably he wanted them to have a last look at the village of their nativity, the place where they first saw the light and drew their breath, and to have a full family meeting in the old homestead ere a separation came that might be final, and so it was that the whole family met consisting of 18 souls and representing four generations, for in addition to the grandchild of Robinson, there was his mother 85 years of age, full of hopefulness in regard to the future, and strong in the belief that the sea voyage might be of benefit to her, at the same time saying that she thought she would see Nenthead no more. The family left Nenthead on Tuesday evening lodging at Alston for the night, and there departing by the first train on Wednesday morning for Liverpool where they were to embark for America. May the breezes blow propitiously for them, for we think that a man in the ordinary occupation of a miner, that can rear a family of fourteen and be in a position when bad times overtakes his native place to transport to the Continent of America, such a quantity of living freight is worthy of a special place in society as an instance of what persevering, industry, economy, and thrift can accomplish.

ALSTON CHURCHES AND SCHOOLS AND THE DEPRESSION IN THE LEAD TRADE.

… The Lead Company have withdrawn their grant to the Nenthead and Tynehead schools, and the Rodderup Fell Company their grant of £50 to Leadgate. The two largest mines in the district Rodderup Fell and Nenthead are not employing more than half their usual number of hands; indeed, the later company only employ 40 “pickmen” who they are bound to keep on to prevent their lease from lapsing. Brownley Hill and Cashwell have reduced the number of workmen. Galligill Syke is in the market, Ayle Burn, Hudgill Burn, Blagill, and Calvert mines have ceased working. Cross Fell mine is the only mine, which has increased the number of workmen.

THE LEAD MINES OF THE DISTRICT

PUBLIC MEETING IN THE TOWN HALL.

A public meeting of lead miners and those interested in the prosperity of the district of Alston, was held in the Town Hall, yesterday afternoon week to

consider the propriety of adopting a petition to the Lords of the Manor (the Greenwich Hospital Commissioners) asking for a reduction of the dues now payable to them, whereby the lessees might be enabled to work the mines at less expense and afford employment to the population of the district.
To the Lords Commissioners for executing the office of Lord High Admiral of the United Kingdom of Great Britain, the Lords of the Manor of Alston Moor in the County of Cumberland.
The humble petition of the lead miners, workmen, tradesmen, and other inhabitants of the said Manor.
Sheweth, The great distress now prevails amongst the lead miners in the district of the Manor of Alston Moor, and as a natural result, thereof the trade of the country is generally much depressed.
That your petitioners believe that much of this distress is caused by the present unproductive state of the lead mines, which combined with the prevailing depression in the lead trade, has of necessity compelled the lessees of a number of the mines, either wholly or to a great extent to abandon their works.
That the whole, or a great part of the mines now being worked in the district, are carried on by the lessees at great loss to themselves.
That the manorial dues, now payable in respect of the mines, vary according to circumstances from.
That your petitioners believe that if an adequate reduction were made in the amount of manorial dues, it would tend greatly to induce and encourage the mining lessees to recommence their explorations of the now apparently exhausted mines and be productive of a greater revenue to your lordships, and also afford relief and employment to the mining population of the district, many of whom have now for a considerable time been out of employment and are in great distress.
Your petitioners therefore humbly pray that your lordships would be pleased to take into your gracious consideration the necessity of making such a reduction in the Manorial due now payable as would enable the lessees of the mines to recommence their now abandoned works and explorations, and afford relief and employment to the distressed mining population of the district.

And your petitioners will ever pray &c.

T. W. Crawhall Esq., JP., said he would have great pleasure in assisting all that he could in the object of the meeting, at the same time he was a lessee, and it struck him that it would have been better the petition should be presented by gentlemen who were not lessees. He further remarked that 50 years ago the mine lessees were better able to pay one-fifth duty than they were to pay one fifteenth now.

Deaths

At High Spency Croft, 7th inst., aged 17, Mary Jane, daughter of John Richardson, stonemason.
At Holmefoots, Nenthead, 6th inst., aged 48, John Hetherington lead miner.
In 1861, at Holme Foots, Nenthead, Thomas Whitfield, lead miner, aged 36, wife Ann 32, children Emmanuel 12, Mary 10, Thomas 8, George 6, Robert W. 2, and John Hetherington, lead miner, aged 30.
At Holmefoots, Nenthead, in 1871, living with the Whitfield family, John Hetherington, boarder, unmarried lead miner, aged 40.
At Fairhill, Nenthead, 8th inst., aged 48, Smith Elliott lead miner.
St John's, Nenthead burials, show, Smith Elliot, buried 10th July 1879.

In 1871, at Burn Bottom, Alston, Smith Elliott, unmarried labourer at the lead mines, aged 40, his widowed sister , Jane Varty (Jane Elliott married William Varty (lead miner) at Nenthead 11th July 1858, William died 5th August 1864, aged about 35), aged 42, nephews Featherston Varty 12, Thomas W Varty 8, and niece Sarah Jane Varty 9.

19th July 1879 (Hexham Courant)

STONECROFT AND GREYSIDE LEAD MINES

The workmen employed at these lead mines, near Newbrough, have received notice to cease work, it being the intention of the owners, it is said, to close the greater portion of their lead mines, owing to the depression in the lead trade.

26th July 1879 (Hexham Courant)

STANHOPE

FATAL QUARRY ACCIDENT AT STANHOPE.

On Monday an inquest was held at the Town Hall, Stanhope, before Mr Thomas Dean, coroner, touching the death of John Walton, of Stanhope, who died on Saturday from injuries received at the Ashes Limestone Quarry on Thursday. Deceased with his Uncle John Walton was commencing to fill a truck when a large stone came down and knocked him on to the edge of the truck and crushed his back. The deceased was a fine young man aged 20 years, and a skilful workman.

1st August 1879 (Newcastle Courant)

LEAD MINING IN UPPER TEESDALE

The proprietors of the Dubby Syke Mine, we are informed, commenced sinking a shaft (which has yielded some fine specimens of ore in the clay) on that part of their sett adjoining the Green Hurth Mine, and they are expecting to strike the same vein which is now working so profitably at Green Hurth, and which runs through the Dubby Syke sett.

2nd August 1879 (Hexham Courant)

TEESDALE

THE OPERATIVE LEAD MINERS IN TEESDALE AND THE ROYALTIES

A deputation from the operative lead miners in Teesdale, have had an interview with Mr W. T. Scarth, JP. at Staindrop House, on the subject of the royalties paid in connection with the mining operations of the London Lead Company. Mr Scarth is the chief agent of the Duke of Cleveland, who is the Lord of the Manor. Spanish competition in lead has for some time very seriously affected the trade of Teesdale, and it is feared that many more miners will shortly be discharged in consequence of the increasing depression. The question of lowering the dues was introduced. It is understood that his Grace and Mr Scarth, together with others interested in the matter, will duly consider the representations of the deputation, and every point embraced in the whole question.

NENTSBURY

The Rev. Walton Pattinson of America and formerly a native of Alston, paid a visit to Nentsbury and preached in the Primitive Methodist Chapel on Sunday evening last…

Deaths

At Wardway Foot, Nenthead, 18th ult., aged 69, John Walton, lead miner.

John Walton married Elizabeth Kirkpatrick 27th April 1834, at Alston.

In 1841, at Strellas, Nenthead, John Walton, lead miner aged 30, his wife Elizabeth 25, children Mary 7, Hannah 5, and John 1.

In 1851, at Stralars, Nenthead John Walton, lead miner aged 41, his wife Elizabeth, aged 39, children, Hannah 14, John, lead miner aged 11, Alice 9, Ann, 7, Adam 5, Elizabeth 2, and Frances 9 months.

In 1861, at Foulard, Nenthead, John Walton, lead miner 51, his wife Elizabeth 48, children Adam lead miner 15, Frances 10, Dinah 8, and John 4

In 1871 at Wardway Foot, Nenthead John Walton, lead miner aged 59, his wife Elizabeth aged 56, son John a lead ore washer aged 14, and granddaughter Anny Temperley, aged 2.

John Walton, of Wardway Foot, lead ore miner, will dated 30th June 1879, proved at Carlisle 15th April 1882, gross value of effects £144. Names mentioned in the will: —

Wife Elizabeth Walton, four children Adam Walton, Alice Fairless wife of Hugh Fairless, Frances Walton, spinster, and Dinah Thompson wife of Ralph Thompson.

At Bridge End, Garrigill, 12th ult., aged 64, William Thomason, lead miner.

2nd August 1879 (Northern Echo)

CORRESPONDENCE,
A LANDOWNER'S VIEW OF LEADMINING
IN TEESDALE.

TO THE EDITOR OF THE "Northern Echo"

Sir, —Permit me to state an aspect from which landowners may fairly regard the vexed question of lead mining in Teesdale. There are four mines in Teesdale—Harwood, Dubby Syke, Teesdale, Green Hurth—and another one, Crookburn, is about commencing. Each of these mines have had a capital of £6,400. Green Hurth and Dubby Syke, I believe, have worn out or exhausted more than one company of £6,400 capital. Dubby Syke up to the present has been a total loss. Green Hurth, on the other hand, if she was fairly reckoned for the capital sunk, may have realised interest at four and five per cent. Harwood has had a dwindling existence so long as the capital lasted; but is, I believe, now temporarily abandoned. Teesdale, also, has its capital exhausted, though in full work; and, I hear, more than maintaining itself. Now, each of these mines has cut up and rendered useless a considerable portion of land, which, though poor, is of soma value far game and grazing. The amount of ground explored is not commensurate with the capital expended, while the benefit to the landowner is very far short of the laud destroyed; and while no doubt landowners are ready to look at the matter fairly in the face, it is fair to ask how much of this subscribed capital goes towards the real development of the royalties. —Yours. &c.,

July 31st, 1879.

FAIRPLAY, F.G.S.

9th August 1879 (Hexham Courant)

ALSTON

LEAD MINING

According to the report of Mr John Peart, the shareholders of the Pattersyke mine, which is so rich in silver, and in close proximity of the celebrated Green Hurth mine, which yields seven tons of lead ore per fathom, will soon be rewarded for their indomitable perseverance. They are drawing the top level south in the Clargill lead vein, which is unquestionably proved to be the Green Hurth vein, so rich at present. They have got up to the middle shaft, where several pieces of ore eight stones weight have been worked, and still lying at the shaft top. In driving south from this shaft they are getting large pieces of ore with every appearance of continuing. The low level been driven a considerable distance will lay open this vein in depth, and also the St John's vein, both veins having raised large quantities of lead ore in the Tyne Manor. By going southward, they will intersect with some of the best lead ore bearing east and south veins. In May last, they sold sixty bings, and have now another parcel of forty bings ready for sale.

Deaths

At Nenthead, 6th inst. aged 38, Isabella Roddam, widow of Thomas Roddam Lead ore washer. *See 1 February 1879. See 14th June 1884*

At Alston, 3rd inst., aged 57, Jane Davidson, wife of Jonathan Davidson, lead miner.

12th August 1879 (Northern Echo)

CORRESPONDENCE,

A LANDOWNER'S VIEW OF LEADMINING

IN TEESDALE.

TO THE EDITOR OF THE "Northern Echo"

Sir, —I have waited a full week expecting some more capable pen replying to the above letter in your Saturday's issue. I can scarcely believe that any landowner, especially in Teesdale (for there is really only one), would allow such a letter to appear with their sanction. They know full well more than any other landlords the vicissitudes, trials, difficulties, and uncertainties that attend lead mining, and consequently are almost the last people in the world that would wantonly say or do anything against such an important industry, which affects such great numbers of people, mostly their own tenantry, more especially at a time of such unusual depression as the present. I do not profess to know ail the ins and outs of the mines mentioned, but I know sufficient to satisfy any ordinary individual about two of the most important ones—Teesdale and Green Hurth—that "A Landowner's" information is mostly fake; and, if so respecting these two mines, it is a fair inference that it is equally false in the others. I have no hesitation in a saying that Green Hurth is one of the richest deposits of lead ore that ever was discovered in England, and had it been above instead of below their adit level its produce would have been enormous; even as it is it must yield considerable results, certainly four times more than stated in "Landowner's" letter. I do not pretend to know every minutia of its past history, but I am quite safe in saying its yield of lead ore is three times more than stated. Teesdale Mines is e different undertaking altogether—a mine slow and hard, but capable of being developed to almost any extent; and how many lead mines are there that are not working with an exhausted capital? Most of the richest mines in

England owe their discovery to the energy displayed after the capital has gone. But to show the fallacy of “Landowner's" letter, they are not only not exhausted, but are about declaring a dividend out of the profits of the mine for the year, notwithstanding the fact that four months of the year were partially lost through the severity of the winter. — I am, yours, &c.,
Durham JOHN SLACK

16th August 1879 (Hexham Herald)
Marriage
Alston Primitive Methodist Chapel, 9th inst. John Wilkinson, Blagill, to Sarah Bushby, Greenhead.
In 1871, at Haltwhistle, William Busby, cask burner, aged 45, born Allendale, , his wife Jane 44, born Allendale, children Jacob 15, Mary 13, Sarah 12, Jane 7, and Fanney 4.
In 1861, at Swinhope Mill, Allendale, Matthew Wilkinson, lead miner, aged 33, his wife Elizabeth (Hodgson, married 1st quarter 1851, reg. Hexham) aged 38, children John 9, Mary J 7, Hannah 5, and Elizabeth 4.
In 1871, at White Well House, Alston, Matthew Wilkinson, lead miner & farmer, aged 43, his wife Elizabeth aged 48, son John, lead miner, aged 19, and Elizabeth 16, all the family born Allendale.
Matthew Wilkinson died 1st quarter 1881, aged 52.
In 1881, at Blagill Hill Top, Elizabeth Wilkinson, widow, farmer of 20 acres, aged 59, son John, lead miner, aged 29, sons wife Sarah 22, born Haltwhistle, grandchildren Margaret 9, and Matthew 9 months. In 1891, at Gill Street, Benwell, John Wilkinson, coal miner, aged 38, his wife Sarah 32, children Matthew 10, John 6, Edward Wm 4, and Elizth Jane 2. In 1901, at Gill Street, John, coal miner, aged 47, his wife Sarah 42, children Matthew, coal merchant, aged 20, John 16, Edwin 14, Elizabeth Jane 12, Ada 7, Sarah Alice 5, and Thomas Richardson 1. In 1911, at Hampstead Road, Benwell, John Wilkinson, coal miner, aged 58, his wife Sarah 52, children John, coal merchant, aged 26, Edwin William, coal merchant, aged 24, Thomas 11, Elizebeth Jane, milliner, aged 22, Ada, assistant confectioner, aged 18, and Sarah Alice, printers apprentice, aged 15.

16th August 1879 (Alston Herald and East Cumberland Advertiser)
LEAD MINING DUES IN ALSTON MOOR.
Numerous enquiries having been made as to the position of the petition to the Lords of the Admiralty for a reduction of the manorial dues we are now requested to state that it has been forwarded to C. G. Grey, Esq., to be laid before their Lordships. It appears that after the public meeting on the 4th ult., Mr Dickinson at the request of the Committee entered into communication with Mr Grey to ascertain if it would be convenient to their Lordships to receive the deputation, and if so, to appoint a time when they should attend in London and present the memorial. From the correspondence that ensued it appeared that the attendance of the gentlemen in London would be useless, unless they would first ascertain the extra number of men who would be employed at each mine in the event or a reduction of the dues. On this becoming known the matter was again laid before the Committee who came to the unanimous conclusion that under the circumstances it would be quite useless for the deputation to attend before their Lordships, and that they could not ask them to do so. A resolution

was accordingly passed thanking the three gentlemen who had so kindly consented at the request of the men to attend in London on their behalf, and stating that under the circum. stances the Committee did not feel themselves justified in asking them to incur the expense and trouble. It was also agreed that the memorial and resolution should be sent direct to Mr Grey for presentation to their Lordship, which was accordingly done. The memorial bore about 1050 signatures. We note that the miners of Alston are not the persons who are seeking relief in a reduction of dues. Subjoined we reprint an extract from the Derby Mercury of July 30, in reference to the reception of a deputation with a similar object by the Duke of Devonshire:—

"A deputation waited upon the Duke of Devonshire at Chatsworth, on Friday, on the subject of the dues paid to his Grace in the High Peak district the deputation being a fair representation of the district. The Duke of Devonshire, KG., was attended by the Hon. Lord G. W. Cavendish, M.P.

"Mr Bradwell was appointed to introduce the deputation by name, and to open the business, which he did by laying the whole subject before the Duke, who gave them a most cordial reception and patient hearing. Alderman Fairburn then took up with his Grace the cope groat of 4d per load, and showed the great inequalities of this charge as upon low-priced ores unfit for a reverberatory furnace and only fit for a blast, such ores containing from 5 per cent. to 25 per cent, of metallic lead in the assay; in some cases slime or sludge containing 5 per cent ,and selling for 2s per ton—taking seven mineral loads to the ton was liable to pay a cope 4d, per ton, let alone 1-20 lot and 1-40 tithe; and the barmaster had satisfied himself with a commuted charge of 6d. per ton, which was in that item alone 25 per cent, of the net value of such low ores. Other members of the deputation joined in the discussion, and the whole business was most clearly laid before the Duke. The most touching case was from the Bradwell district, related by Mr Z. Walker, who said the men at this place having been thrown out of work by the closing of the large mines, are driven to work in poor exhausted mines on tribute. Their earnings are miserably small; after selling their ores at 36s per load, paying dues of lot, cope, and tithe, the cost of powder, canisters, tools, and dressing expenses, their average earnings are not more than 6s per week per man. After suggesting a suspension for a time of the duties and tithes, the interview ended, his Grace promising to give the question his careful considerations His Grace invited the deputation to luncheon, after which they returned, feeling satisfied that something would be done to relieve the present depression.

THE TEESDALE MINING COMPANY.—The annual general meeting of the Teesdale Mining Company (Limited) was held last week at Newcastle. —The Chairman, in moving the adoption of the reports, said their sales only realised £8 per ton, whereas three years ago they were selling at £16 per ton. Notwithstanding these drawbacks he had to report a balance in favour of the company, and available for dividend, of £237 10s. 4d, The sum of £1,543 6s., for liabilities incurred had been paid off, and the amount received for Lead ore had nearly covered the working expenses of the year: hence cash received for lead ore in excess of the working expenses in future would be available for dividends. —The reports were unanimously adopted. —The Chairman moved a vote of thanks to their energetic manager, Mr Slack. Their present satisfactory position was due to the able manner in which Mr Slack had developed the working in the mine, (Applause). —Mr Slack having thanked the Chairman for the compliment paid to him said that whereas they had only two workings up to some little time ago, they now had five. Two of these workings, "Holmes Level" and the " West-end Stope," had yielded the large quantity of 240 bings of lead ore, from a section of the mine, too, composed of short posts, plate, hazel and grey stone, which are not rankled as ore-bearing beds in the district. The mine, although naturally hard and slow to work, was capable of being developed to

almost any extent, and would ultimately give employment to a large number of workmen. Another pleasing feature was that, although the mine had been worked by the "old man" hushing and Staple shafts, over a period of 100 years, and had realised enormous quantities of lead, they were now, by means of an adit, developing the workings below this level. In addition to the ore yielded in these old workings an entirely new vein had been discovered with 400 fathoms of whole ground and a covering of 50 fathoms overhead, which it would taka many years to develop and infinitely more to exhaust. At the present time, the exterior machinery was in good working order, and a large dam had been constructed, and cottages built. —On the motion of Mr R. W. Salkeld, seconded to Mr W. Wardale, it was unanimously carried, "That power be, and is hereby given to the directors to declare a dividend or dividends, as they may from time to time be in possession of funds for the purpose.''

NENTHEAD

DREADFUL EXPLOSION OF DYNAMITE AT NENTHEAD

A dreadful explosion of dynamite occurred in the London Lead Company's mines at Nenthead, by which a man named Michael Cowing lost his life on Monday last, by being blown into atoms. A box had to be carried into the mine to gather up the scattered fragments of the mutilated body. Being at the time a good way from other three men in the mine - one of whom was the deceased's son Michael - it is not known how the accident happened. The men hearing the explosion hastened to the spot, and found the deceased as above stated. A coroner's inquest was held at the Miner's Arms Inn, Nenthead, touching the matter in question. From the evidence given it appears that deceased, who was 47 years of age, and lived at Wellgill, Nenthead, was getting his dinner in the mine along with one or two others, and when he had finished he left them telling them to wait until he returned. Shortly afterwards they heard a violent explosion in a direction opposite to that which they were working, and on going to ascertain the cause they found Cowing had been completely blown to pieces by an explosion of dynamite. All the dynamite had been removed from the case, which suggested that Cowing had committed suicide. The inquest was adjourned until Monday to allow the Government Inspector of Mines to visit the place.

The opinion expressed that this was suicide was not that of the papers Nenthead correspondent, this had been taken from a report which had appeared in the Carlisle Express and Examiner.
In 1841, at Donk Hall, Joseph Cowing, carrier, aged 50, Mary Cowing (Married 25th November 1835, Alston), aged 50, and Michael Cowing, carter, aged 9.
In 1851, at Cob End, Joseph Cowing, annuitant from a club, aged 61, his wife Mary 60, and stepson Michael Cowing, cart driver, aged 16.

In 1861, at Wellgill, Michael Cowing, lead miner, aged 28, his wife Ann 28, William 7, John 5, Michael 1, and Mary3.
In 1871, at Wellgill, Michael Cowing, lead miner, aged 38, his wife Ann 38, children William, lead miner, 17 (emigrated to Canada), John, lead miner, 15, Mary 13, Michael 11, Ann 8, Donah 5, and Joseph Stepherson 2.
In 1881, at Spring House, Nenthead, Ann Cowing, widow, aged 48, children John, peddler, aged 25, Michael, lead miner, aged 21, Annie 18, Diana 15, Joseph S. 12, and Harry 8.
See 13th September 1879

6th September 1879 (Alston Herald)

TEESDALE

TEESDALE MINE.

Reports from the Teesdale mine, worked by the Teesdale Mining Company, continue favourable. At the annual meeting of the shareholders held on Friday in Newcastle, it was officially stated that the workings had of late been considerably increased, and two of them, Holmes Level, and the West End Slope, had yielded a large quantity of lead ore, not withstanding that a section of the mine referred to is not regarded as an ore bearing bed. The discovery of a valuable vein entirely distinct from the "old man" workings is satisfactory, as it will not only recoup shareholders for their outlay, but it will be the means of giving employment to an increased number of workmen.

WEARDALE

SETTLEMENT OF THE LEAD MINING "DIFFICULTY" IN WEARDALE

The greatest pleasure was evinced on Saturday last in the district West of Stanhope on the receipt of the news that the "difficulty" which has existed between Mr W. B. Beaumont and his workmen at the lead mines in the neighbourhood of Westgate had been satisfactorily arranged. The terms are much the same as those which existed when the stoppage took place upwards of twelve months ago; and eventually 200 hands signed the agreement. Work was resumed on Monday morning.

12th September 1879 (London Gazette)

IN THE MATTER OF THE COMPANIES ACTS, 1862 AND 1867, AND OF THE ROOKHOPE LEAD MINING COMPANY LIMITED.

AT an Adjourned Extraordinary General Meeting of the Members of the Rookhope Lead Mining Company Limited, duly convened and held at the office, 8, Austin Friars, in the city of London, on Tuesday, the 8th day of, July 1879, the following Extraordinary Resolutions were duly passed: —

"1. It having been proved to the satisfaction of the Meeting that the Company cannot, by reason of liabilities, continue its business, that it is advisable to wind up the same.

"2. That the Rookhope Lead Mining Company Limited be wound up voluntarily."

William Edwards, Chairman

13th September 1879 (Hexham Courant)

RATE CASES

Joseph Archer, Hilltop, Nenthead, was summoned for refusing to pay poor rates. He was allowed a month in which to pay the whole amount. —Joseph Dixon, Fairhill, Nenthead, was summoned for similar offence, and allowed the

same time to pay up his arrears. —George Barron, miner, Nenthead, was also summoned for non-payment of poor rates, but the case was compromised by defendant paying the amount due before he came to court. —Mr Thomas Dickinson, rate collector, prosecuted in these cases.

13th September 1879 (Hexham Herald)

NENTHEAD

INQUEST *(into the death of Michael Cowing)*

… The Deputy Coroner said their former inquiry was only preliminary, the only witness called being the son of the deceased, and that only to identify the remains. A plan of the mine would now be produced, and such witnesses called as were thought necessary. Joseph Thompson, Overman for the London Lead Company, produced a plan of the mine and described the locality. The dynamite was kept up a rise eight feet above the waggon way, and from 6 to 8 fathoms from where the men were working. The men had orders to keep the dynamite carefully stored in a wooden box which the company provided for that purpose. It was seldom the box contained more than one case of dynamite, more than two cases were not allowed to be taken into the mine at one time. A case contained about 5lbs., and so far as could be gathered there was from half to a whole case in the box immediately before the explosion. The case was subdivided into packets containing about 35 cartridges each. A single mine blast contained from one to 5 cartridges. Deceased was foreman of the partnership with which he worked, and had more direct charge of the dynamite than the others, but the box was not locked merely fastened with a buckle and strap. It was witnesses duty to see that the dynamite was not kept lying about loose, but he had no charge as to the quantity to be used, that was left to the discretion of the workmen. He had noticed the day before that deceased was sickly looking and seemed depressed in spirits. Witness asked if he was unwell, and he replied that he had been poorly, and was then poorly, he also complained of not making much money. All the men were piece workers. He believed deceased was comfortably off for a workingman, and was very steady. In reply to Mr Wilson *(Inspector of Mines)* witness further stated that the dynamite was the property of the workmen themselves, who bought it from the company. It was taken from the magazine outside, the storeman giving it out once a week. He believed the storeman had no particular instructions as to the quantity to be given out at once. The partnerships used powder or dynamite as they preferred. Deceased partnership had their last supply of dynamite on the 22nd August and a box of caps, containing about 100 on the 4th July. Witness had examined the place where the box was kept, and nothing was disturbed. All the dynamite and caps were gone and nothing was left but small pieces of fuse, a pair of nippers and a piece of twine. The remains were found about 23 fathoms from the dynamite store. The powder was kept in gutta percha caddies, *(gutta percha a natural form of rubber, it could be heated and moulded to make a tough container)* some distance from the dynamite.

Michael Cowing, son of the deceased, deposed that on the day in question he worked with his father and two other partners in the mine. They had dinner together his father eating as usual. After dinner, he left them, telling them to sit and he would return in a few minutes. He went in the direction of the water closet, and they supposed he was going there. On his way he would pass the place where the dynamite was stored. About five or six minutes after he left

they heard the explosion, but thought at first it came from the opposite direction. They went in that direction until they heard the men working, and then returned to where the explosion had taken place. Some caps were picked up at the place. He did not know what quantity of dynamite was in the box before his father went to it, but he thought about a quarter of a packet. His father was in the habit of taking out the dynamite used by the party. It was quite usual for miners to put cartridges in their pockets to soften with the heat of their bodies. It was not usual to carry caps in their pockets, but sometimes they were put there and his father might place them there as there was another way to where they worked without passing where the dynamite was kept.

Hugh Spottiswood deposed to removing the remains from the scene of the explosion. Five caps were lying about with some fuse. The fuse was chopped to pieces by the force of the explosion, but had not been fired. The parts of the body were found in a radius of ten fathoms. He had no idea, from the effects of the explosion what quantity of dynamite had been ignited, but it must have been considerable as the space was open. In reply to Mr Edwards *(Nobel Explosives Co. representative)* witness said he had never known dynamite or percussion caps explode from falling on hard substances, but he thought it possible they might do so.

Mr Wilson said there had been several accidents in his district from dynamite which they considered a more than ordinarily dangerous explosion.

John Robson, son in law of deceased deposed to having been to deceased's house the previous day and finding him in his usual spirits. Deceased was a steady and religious man, very fond of his family, and he (witness) knew of nothing to lead him to suppose he would commit suicide. He had lately rented 19 or 20 acres of land.

By the Coroner: Never heard him say he thought he had done wrong in taking it.

By Mr Edwards: A friend had not promised to lend him money and then declined. The explosion might have been caused by the candle he carried coming into contact with the dynamite, or by matches igniting in his pocket, or by the heat of his pipe, or by his falling and striking against some hard substance.

The jury after a lengthened consultation, found a verdict that deceased died by an explosion of dynamite but how caused there was no evidence to show. They quite exonerated his employers from all blame.

Joseph Thompson, Nenthead, mine overman, for the London lead Company; Hugh Spottiswood, miner, Clitheroe, Alston; William Graham, Michael Cowing jnr., John Robson, miner, son in law of the deceased. The partnership was made up of two father and son pairs, Michael Cowing snr., Michael Cowing jnr., and William Graham snr., and William Graham jnr.

Michael was the son of Joseph and Mary Cowing living at Donk Hall in 1841, Joseph was a Carrier and Michael a Carter, in 1851 they were living at Cab End.

The 1861 census has Michael and his wife Ann living at Wellgill, Michael now listed as a lead miner, children William 7, John 5, Michael, 1, Mary 3.

The 1871 census has Michael and Ann with the children, William 17, lead miner; John, 15, lead miner; Mary 13; Michael, 11; Ann, 8; Diana 5; and Joseph Stephenson, 2.

The 1881 census gives the following information regarding the Cowing household: Living at Spring House, Alston, Ann aged 48 Widower & housekeeper; John aged 25 son, Pedlar; Michael aged 21 son, Lead Miner; Annie aged 18 daughter, dress maker; Diana aged 15 daughter, House Maid; Joseph S. aged 12 son, scholar; Harry aged 8 son, scholar.

DEATH OF A LOCAL MAN IN AUSTRALIA

The Richmond Guardian, Australia, announces, June 14th the death of Mr. Thomas Davison, who died at Melbourne, Australia, on June 8th, the cause of death being disease of the heart. He was born at Hexham Northumberland, in September 1829, and consequently was nearly 50 years of age, thirty-two of which have been spent in that colony, so that he had seen most of the amazing development of Victoria.

He was brought up as a carpenter and builder, and for 10 years held the position of foreman to the late Mr. Samuel Ramsden, and since that, time has been in business on his own account. He represented the North Ward at Melbourne in the Council for four years, losing his seat at the last ordinary election in August of last year. As a councillor he brought his practical ability as a contractor to bear and thus proved a highly valuable member; but as he was always possessed the courage of his own opinion, and was somewhat plain spoken and sarcastic he gave offence to many. For a long time he carried on a crusade almost single-handed, with the officers of the council, with a view to secure thorough efficiency. For three years, he was a member of the Board of Advice; he was also a member of the Manchester Unity Order of Oddfellows for 26 years. In private life he was well liked, and as a business man was shrewd. He has left the whole of his property for to Mrs. Davison, who is therefore comfortably provided for.

The Argus (Melbourne) 10th June 1879:
Deaths
DAVISON.—On the 8th inst., at his residence, Hexham villa, Highett-street Richmond, Thomas Davison, contractor, aged 49 years. Home papers please copy.

13th September 1879 (Alston Herald)

ALLENDALE NOTES.

Some twenty of the old hands have started to sweep the flues at Allen Mill, and some 28 or 30 miners have also started at Allenheads during the week. This is a small beginning to be sure considering the large number of miners and smelters out of employment.

20th September 1879 (Alston Herald and East Cumberland Advertiser)

NENTHEAD.

The fourth exhibition of the Nenthead Agricultural Society was held in a field kindly lent by Mr J. J. Millican. The day was fine and there was & good attendance on the show ground. There was & slight decrease in the number of entries as compared with last year. Of course, the weather having been as bad as possible, in lower situations, had even been worse at Nenthead during the present summer, and stock were not seen to advantage. There were some useful shorthorns on the ground, and a fair entry throughout. The horses were numerous, and of the kind suitable to the district. There was a fair show of Leicester and blackfaced sheep, and the mule was well represented. Pigs are

always a feature at Nenthead, and as usual the grunters were up to the mark. There was a large entry of dogs, and some very handsome animals were exhibited. …

20th September 1879 (Hexham Herald)
Deaths
Allendale Town, Kings Head Inn, 15th inst., aged 56, Thomas Brown.
In 1871, at Allendale Town, Thomas Brown, separator of lead and innkeeper, aged 48, his wife Ann 44, children John J. labourer 17,, Margaret A. 15, Hannah M. 13, Thomas F. 10, and George A. 6

27th September 1879 (Hexham Courant)
ALLENDALE NOTES
A large number of Mr Beaumont's lead miners in Weardale are compelled at last to entertain the idea of emigrating. I hear that there are over 50 from the small tract of country lying between Cowshill and Killhope head, who will shortly sail for New Zealand.
Poor "Shorney Heslop" as he was called, has come to a very distressing and untimely end, and is another victim it is to be feared to carelessness in dealing with machinery when in motion. It seems strange that no contrivance of mechanical or engineering skill can prevent the occurrence of such lamentable accidents. Surely, something can be done, and if so, it ought to be done at once. Poor Heslop will be greatly missed, he was a kind hearted fellow, unkind only to himself, he was passionately fond of flowers, and has left a garden like a paradise adjoining his fell side home.
Thomas Heslop was the son of Pattinson Heslop (son of Thomas Heslop and Mary, baptised 27th April 1794 at St Peters Allendale), who on the 11th January 1823 married Isabella Head. Pattinson Heslop and Isabella had seven children, Mary, Thomas, Ann, William, Elizabeth, John, and Pattinson. On the 1851 census we find that Thomas is living at Shorngate (0.5 km SE of Allenheads) with his mother Isabella (aged 49 years), his brothers John (aged 18 years a wagon driver), Pattinson (aged 16 years a lead ore washer). Also with them was his sister Mary and her son James aged 2 years, and Isaac Heads, Isabella's brother (aged 51 years a Stable groom and Cartman). His father Pattinson had died aged 41 years, and was buried at St Peters, Allendale on the 2nd September 1835).
Thomas was baptised at St Peters Allendale on the 12th December 1824 He married Sarah Stokoe at Ninebanks on the 3rd January 1857, and was living at Coalcleugh at this time. On the 23rd November 1862, they had a daughter Sarah Elizabeth.
The census of 1871 tells us that they were living at Furnace Cottage which is approximately 0.75 km outside of Allenheads village on the road to Cowshill, he being responsible for attending the Air Furnace.
1871 census: At Furnace Cottage, Thomas Heslop, attending air furnace for lead mine, aged 46, his wife Sarah aged 41, and daughter Sarah E. aged 8 years.
On September 18th 1879, aged 54 years, he was killed while engaged attending to his duty in oiling and looking after the water wheels and pumping, at the Old Gin Water Level Allenheads (Notice of Fatal accidents For the

Metalliferous Mines Regulation Act 1872, NRO 2762/37). He was buried at St Peter's Allendale on the 21 September 1879.
On the 19th September 1879, John Curry (mine agent) sent the following letter to P.C. Davidson

Dear Sir

I am sorry to say that we have had a fatal accident in the mines here, our Engine Keeper (Thomas Heslop) has been found killed at the OLD GIN WATER WHEEL, which is needed for pumping water out of the mines.

The accident appears to have occurred by the deceased, in not having stopped the wheel before oiling, as instructed always to do.

As there has been so few accidents at this place. I scarcely know how to act, and will feel obliged to you if you would inform the Coroner at once, and take the necessary steps for holding the inquest as early as possible as the body is much mutilated.

Yours Truly
John Curry

Surprisingly very little appears in the newspapers concerning this awful accident, and although Northumberland County Records Office has the Coroners reports for South Northumberland (NRO 5276, and NRO 280) for the period 1870 to 1948 the records for 1879 are missing.

Thomas's work record can be seen in The WB lead mines Wage man's Monthly Accounts 1872-1905 (NRO 672/2/128) and the Labour Account half yearly book 1884-1908 (NRO 712/A/25). He was listed as a labourer, but took over as Engine Keeper (probably from George Irwin) in February - March 1878; he was paid 20/- per week.
After his death Sarah appears in the Monthly accounts and Labour half yearly account, as attending the air furnace, for which she initially received 10/- per week, later reduced to 9/-. the records show her employed up until week ending 18 April 1896.
*The **1881 census** shows Sarah and her daughter still living at Furnice Cottage, Sarah is listed as attending the Air Furnace.*

Deaths

At Cleator Moor 17th inst., aged 22, Charles Wesley Millican, son of Thomas Millican late of Allendale.

See 30th May 1866.
In 1851, at Carrshield, Wallace Millican, mining platelayer & blacksmith, aged 27, his wife Elizabeth 30, Thomas 4, Elizabeth 1, Francis 1 month, cousin Thomas Millican, miner aged 30, born Hesket New Market.
In 1861, at High Blue Row, Ninebanks, Thomas Millican (son of Thomas Millican, lead miner & Mary Gill) lead ore washing agent, aged 40, born Hesket New Market, Cumberland, his wife Elizabeth (Millican, married at Ninebanks, 10th June 1852) aged 28, children Mary A. 7, William G. 5, Charles W. 4, Thomas A. 2, Caroline E. 4 months, and brother Mark Millican widow, lead miner, aged34.
In 1871, at Fawside House, Allendale, Thomas Millican, lead dressing agent, aged 50, his wife Elizabeth 38, children William G lead ore washer, aged 15, Charles W. lead ore washer, aged 14, Thomas A 12, Caroline E 10, Emily H 8, and George A. aged 5.

In 1881, 32 Ennerdale Road, Egremont, Thomas Millican, coal agent, aged 62, his wife Elizabeth 48, children Caroline 20, Emily H. millinery apprentice, 18, George A. grocers assistant 15, and lodger Henrietta C. Cairn, schoolmistress aged 26, born Manchester.
Thomas Millican died 2nd quarter 1881, aged 62, Elizabeth died 4th quarter 1890, aged 57.
See 18th May 1889

27th September 1879 (Hexham Herald)

WEARDALE

THE W. B. LEAD MINES. These mines were reopened a short time ago, but the operations are only limited, as, out of about 400 men, only 170 men have got work. The remainder, having received intimation that their services will not be required for this year at least, are now emigrating in large numbers to all parts, and Mr J. Dawson, of St John's, is engaging men for collieries in Derbyshire; also the Rev. A. J. McGowan, is working most assiduously amongst the poor and needy, to try and alleviate the dire distress, the latter gentleman having succeeded in inducing the Ecclesiastical Commissioners to pay the expenses of all emigrants to the port of embarkation, and provide them with their ship furniture.

Fifty three men, women and children travelled to New Zealand on the Margaret Galbraith, leaving the East India docks on 16th October 1879, and arriving at Port Chalmers on 12th January 1880.

Taranaki Herald 13th January 1880

New Zealand Telegrams 12th January.

ENGLISH SHIPS ARRIVED. The ship Margaret Galbraith, 77 days out from London, has arrived. She brings 1000 tons of cargo, and 140 passengers. There was one death — a child — and two births on the voyage.

The Otago Daily Times, January 13th, 1880

The Otago Daily Times, January 13th, 1880

ARRIVAL OF THE MARGARET GALBRAITH

Shortly after 6pm on Sunday, January 11th, a signal was made from the Pilot Station at Otago Heads to the effect that the ship Margaret Galbraith was standing in for the entrance. The tug Koputai proceeded down the harbour at 10.30pm and brought the vessel into port at 2a.m. on the 12th January, anchoring her off Mansford Bay. The Margaret Galbraith is an old trader to this port, having been built at Port Glasgow in 1868 for the Albion Shipping Company, from whose hands she passed in 1876, and was then purchased by Messrs Shaw, Savill and Co., under whose flag she now sails, our old friend Captain John Ferguson being still in command, Mr McIntosh being chief, and Mr Potter second officer.

She brings a quantity of general cargo and 140 passengers, under the medical supervision of Dr. Stockwell who reports the general health of the passengers to have been good throughout the voyage, only one death, that of a child from stomatitis and diarrhoea having occurred. This has been counter balanced by two births. The good ship comes into port in excellent order, and has made a capital run out, her passage

from the London Docks to Port Chalmers having occupied 87 days, and from land to land 77 days. Captain Ferguson reports the passage to have been entirely a fine weather one, and he states that after he took up the north-east trades he had never taken the fore and maintopgallant sails off the ship.

No vessels were spoken during the passage, nor was any ice or wreckage observed. She passed the Crozet group on December 22nd, but not near encugh to observe whether any persons were on the islands. Captain Firguson wished to get closer in to them, but was prevented by the weather coming on thick, whichh rendered it prudent for him to give them a wide berth, however anxious he might have been to ascertain if any castaways were there.

The ship left the East India docks on October 16th 1879, and anchored in the Downs on the next day, on the 19th she encountered a very heavy westerly gale, which she beat under her lower fore and main topsails, strong head winds were encountered all down the Channel, and it was not until October 26th that she cleared the land, taking her departure from the Lizards, with a strong S.W. Breeze which hauled round to S.E, with dark rainy weather. The island of Palma was sighted at noon on November 4th and there she lay becalmed for two days, encountering on November 6th a heavy gale of wind from the S.S.W. Attended by terrific squalls, the ship being under her lower main topsail. During the height of the gale the starboard lifeboat was carried away clean out of the davits.

The Margaret Galbraith at Port Chalmers.
From the D. A. De Maus Port Chalmers photographic Collection hosted on Rootsweb

After the weather moderated she had light S.W. winds and calms until November 10th when the first ol the north-east trades was taken in latitude 23 N.; the trades proved light, and died away in latitude 6 N.; they were followed by a short spell of doldrum weather, and at noon on November 18th the south-east trades were picked up in latitude 3 N.,

tho equator being crossed on the next day In longitude 29 W., 34 days out; the trades proved very light, and were attended by fine weather, and in latitude 24 S. hauled round to the N.E., continuing in that quarter until the reached lat. 30. S. She passed and sighted Gough Island on December 9th, and crossed the meridian of Greenwich on the next day in lat. 42 S., 65 days out, jouxding the Capo cf Good Hope on December 15th in lat. 43 S.; passed and s ghttd the Crozet group on December 22nd, and thence experienced fresh westerlies all across tho Southern Ocean, crossing the meridian of Cape Leuwin on December 31st, still carrying favourable winds.

She made the coast of New Zealand on January 8th, and on that day encountered a very heavy northerly gale, which continued until she rounded the Snares on the following day, experienced light winds along the coast, and arrived at Otago Heads on the 11th January.

4th October 1879 (Hexham Herald)
Deaths
Ashgill Side, Garrigill, 19th ult. aged 55, Jane wife of Matthew Watson.
In 1871, at Ashgill Side, Matthew Watson, grocer & landowner, aged 42, wife Jane 46, children Isabella, dress maker, aged 18, Jane 12, Matthew 9, Robert W 7, John J. 4, and Ralph S. 1 year.

4th October 1879 (Hexham Courant)
CARSHIELD (WEST ALLENDALE.)
SUDDEN DEATH. —A very sudden and unexpected death from heart disease occurred on Friday, the 26th ult., at the above place. Mrs Mary C. Armstrong, teacher of the Board School, Carshield was in school at her duties on Thursday, 26th ult., and to all appearance to her husband and others who saw her on that day she was in perfect health. Suddenly during the night she awoke her husband from sleep very ill, and from the time of his first alarm to time of her death he thinks she did not live more than thirty minutes, all attention being of no use whatever. Mrs Armstrong was a daughter of the late Mr Jos. Teasdale, Nenthead, mining agent for London Lead Company, and was well known to a wide circle of friends in this locality and other parts of Northumberland, where she has laboured with her husband, the head master of the Carshield school. The loss of such a valuable teacher is greatly felt in West Allendale, and the circumstance has cast quite a gloom over the place. Great sympathy is shown to Mr Armstrong in his loss as he (with his late wife) is most highly respected in the dale as a useful citizen, and an excellent teacher, having raised himself to a most respectable position in society and the profession to which he belongs.—Cor.
In 1841, at West Nenthead, George Armstrong, lead miner, aged 40, his wife Margaret 37, and son James 5. In 1851, at Overwater, George Armstrong, pauper lead miner, aged 50, his wife Margaret 48, born Scotland, lead hills, son James Dudson, lead ore washer, aged 14, and daughter Hannah 8. George Armstrong aged 52, was buried at Nenthead, 20th July 1852.
in 1861, at Holme Foot, Nenthead, Margaret Armstrong, lead miners widow, aged 60, born Scotland, and son, James D., lead miner, aged 24.

Joseph Teasdale of Alston married Frances Russell, 16th January 1808, at St Michael, Appleby, Westmorland.

Children of Joseph and Frances Teasdale:
John born 7th May 1809
Ralph born 20th December 1811
Samuel about 1814
Lydia baptised 20th April 1816, buried at Garrigill, 29th March 1837, aged 21.
Ann born 28th June 1818, baptised 22nd July 1818
Mary baptised 20th December 1821
Elizabeth baptised 19th October 1823
Joseph baptised 18th October 1825
Isaac baptised 3rd July 1827
Joseph Teasdale of Nenthead was buried at St John's, Garrigill, 3rd September 1839, aged 54.
In 1841, at Pasture Head, West Nenthead, Frances Teesdale, independent, aged 54, children, Samuel, lead miner, aged 27, Mary 20, Elizabeth 18, Joseph, lead miner, aged 16, and Isaac, lead miner aged 14; also, John Robinson, lead miner, aged 26, his wife Ann 22, and son Samuel, 8 months.
In 1851, at Pasture House, Nenthead, Frances Teasdale, widow, annuitant, aged 64, son, Joseph, lead miner, aged 25, daughter, Ann Robinson, widow, parish relief, aged 32, grandchildren, Samuel 10, Mary 8, and Frances 6.
In 1851, at High House, St John's, Stanhope, Mary Clementson, widow, annuitant, aged 73, niece, Mary C. Teasdale, 30, nephew, Joseph Race, married, lead miner, aged 30, his wife Elizabeth 28, and children, Frances 5, Joseph 3, and John 1.
Frances Teasdale, was buried 4th January 1860, aged 73, at Nenthead.
In 1861, at Holme Foot, Nenthead, Joseph Teasdale, stone mason, aged 33, sisters, Mary C, teacher aged 35, Ann Robinson, lead miners widow, aged 40, nephew, Samuel T. Robinson, lead miner, aged 19, niece, Mary W. Robinson, 17, and niece, Frances aged 15.
Mary Clementson Teasdale, married, James Dudson Armstrong 26th October 1861, at St John's, Nenthead.
In 1871, at Gold Hill, Beltingham,Haltwhistle, James Dudson Armstrong, schoolmaster, aged 34, born Nenthead, his wife Mary Clementson, schoolmistress, aged 43,born Garrigill, and nephew, George William Armstrong 6, born Newcastle.
Mary Clementson Armstrong aged 58, was buried at Carshield 29th September 1879.
In 1881, at Carrshield, James Dudson Armstrong, schoolmaster, aged 44, his wife Mary, (Henderson, married 3rd quarter 1880) aged 41, born Allendale, and nephew George W. Armstrong, aged 16, lame from birth.
James Dudson Armstrong died 3rd quarter 1888, aged 52, registered at Brampton.
In 1891, at Lees Hill, Askerton, Mary Armstrong, widow, teacher elementary, aged 51.

4th October 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON SEPTEMBER FAIR.

This fair—generally the largest of the Alston autumn gatherings—was held on Saturday. There was a large show of horses and sheep, but scarcely the usual number of cattle. Perhaps in some degree the decreased number of the cattle

may be ascribed to the Auction Mart sale of the previous day. All stock, with very few exceptions, were much below the usual standard in point of condition. Very few buyers were present, and it is scarcely too much to say that the fair was one of the slowest on record. So small appeared the business done, that prices are scarcely quotable, nearly all classes being equally devoid of animation. Good shorthorn cows might be making £15 to £17, or in some cases when near calving, a little more. Two-year-old heifers or bullocks if in good condition, made £12 to £13, but generally the figure would be lower. From £6 to £9 may be quoted as the prices of one year-old stirks Few Galloways were on offer, but the holder of one good lot was never asked his price and probably business in this department was nil. There was a large show of mule lambs, blackfaced wedders, with a few mule shearlings. Few sheep appeared to be sold. One lot of mule lambs brought 16s. and one or two other lots made 15s. For a lot from Garrigill, very forward in condition, 19s. was asked but we did not hear that they were sold. From 12s. to 16s. was being asked for draft ewes, but the whole or nearly the whole, left the ground unsold. A number or foals, yearlings, and two-year-olds—most of the latter *en route* for Brough Hill. In some cases prices were asked but apparently more from curiosity than from intention of doing business, and we cannot chronicle a single sale. It may be stated as partly accounting for the scarcity of buyers that Melmerby Fair was held on the same day.

11th October 1879 (Hexham Herald)

LEAD MINING IN THE NORTH OF ENGLAND

The following is from the Mining Journal:- The Dubby Syke mine is situate half a mile to the South of Green Hurth Mine. The present operations are confined to sinking a shaft to prove the Dubby Syke East and West vein near the point of intersection with the No. 1 Green Hurth North and South vein in the rock sill (about 20 fathoms in thickness), called the Whin. The shaft is to be sunk 20 fathoms, about 8 fathoms of which is already accomplished, the last 2 fathoms is in Whin rock. A branch or small vein is passing through the shaft in an East and West direction; it is 12 to 16in. wide, and composed of Spar, Barytes, and Lead increasing in the sinking. The vein is now so very rich at Green Hurth is believed to be not more than 2 or 3 fathoms distant from this shaft, and both it and the Dubby Syke East and West vein will be cross cut, too, as soon as the sinkers are deep enough in the Whin to form a good back or stope to test the value of each vein. The branch named and other back or strings crossing have rendered sinking comparatively easy, and being free from water the contractor is making good progress, and the shaft is made secure and permanent by a good wall being carried up from the top of the rock to the surface. The intersection of these two powerful veins in strata so congenial for the production of lead ore as this rock has been proved to be very near to Dubby Syke (under precisely similar conditions) and also at other places, renders this trial exceedingly interesting and important to all mines in the district. At the adjoining mine (Green Hurth) they are sinking a shaft from the surface to test the value of the veins still deeper, as well as to work those already opened upon below the Adit level. They have every encouragement to do so, as the No. 1 vein is worth 12 tons of ore per fathom in the sole of the level 30 fathoms from surface, and continuing rich going South towards Dubby Syke, the level forehead being worth five tons per fathom of 144 square feet, with plate or shale only on one cheek or wall of the vein.

11th October 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

ATTENDANCE COMMITTEE

The monthly meeting of the School Attendance Committee was also held.—The School Attendance officer (Mr Walton) said that since last meeting he had visited the different schools in the district. At the Nenthead School there were 240 on the books and an average attendance of 201; Nenthall, 68; average attendance 56; Alston High School, 225; average attendance, 174; National School, 62; average attendance, 54; Infant School, 95; average attendance, 76; Tynehead School, 48; average attendance, 33; Garrigill, 108; average attendance, 92; Leadgate, 56; average attendance, 30.—The chairman: These are all mixed schools? —The School Attendance Officer: Yes, sir; with the exception of the National School.—Mr I. Walton said he did not know how they could get on at Leadgate, except they could make the school self-supporting. All the grants to the school had been withdrawn with the exception of £5 a-year. Their old master had retired, but they were expecting another on Monday.—Mr J. G. Millican: What are the fees?—Mr Walton; Threepence a week will be charged now. The men used to subscribe 6s a-year, and they paid a penny per week for their children, but that has been done away with, and they must all pay threepence per week now.—Mr J. J. Millican; What do you think it would take to carry on this school, Mr Walton?—Mr Walton: We will be under the necessity of keeping the fees well up, and that will likely have the effect of not getting many scholars as the fees are higher than at Alston. The master that comes will get the grant and the fees, and as long as the Lead Company keeps the school he will have a free school, house, and garden. The Company are going to sell all the land, and the school and school house are going to be sold with the land.—The Chairman: Are you getting hard up?—Mr I. Walton; We have been hard up long enough. Mr Walton subsequently added that the school fees at the school last year amounted to £25 6s 3d, and the Government grant to £30, which with the £5 a year from the Admiralty made £60 6s 3d. The master would get the whole now, but there might be a little advance upon that.—Mr Dickinson: The Government grant might be better; what was it the year before?—Mr Walton: It was about £40.

RURAL SANITARY AUTHORITY

At the Rural Sanitary Authority meeting, the quarterly report of Dr Gill, medical officer for No. 1 district, was read. There had been 6 deaths during the quarter—3 males and 3 females ; registered births, 15; 9 males and 6 females. The district was tolerably clear of epidemics. In company with the Inspector of Nuisances he had visited various localities, and reported the result of a visit to the Crown Inn. He had recommended earthenware tubes to replace the old drains. The Chairman: I suppose that there is no doubt that the Crown Inn proprietors will comply.—The meeting then terminated.

NENTHEAD.

NENTHEAD CRICKET CLUB

Amid fine and beautiful weather, on Saturday last, the members of the above Club met on their practice ground to hold a gala day. The first event on the programme was cricket playing, in which eleven members of the Club took part, in order to see who could make the highest score. There was some very free hitting, J. Rutherford, I. Elliot, G. Barron, and J Vickers putting together some

capital totals as will be seen from the appended scores. Other sports followed. Results:—
Bowling at wicket—1, J. Vickers ; 2. J. Rutherford.
Throwing the cricket ball—1, J. Elliot; 2, J. Blacklock.
Three-legged races—1, J. and J. Vickers; 2, J Blacklock and J. Walton.
100 yards handicap footrace—1, T. Whitfield; 2. G. Rutherford.
The scores made in the cricket were as follows:—J. Richardson, c Blacklock, b Erwin, 6: J. Walton, c and b Erwin, 0; J. Rutherford, b Walton, 39; M. Erwin, b J. E. Hudspith, 3; R. Walton, b Elliot, 5; J. E. Hudspith, b Elliot, 0; I. Elliot, c Erwin, b Blacklock, 28; J. Blacklock, c and b Robson, 3; T. Robson, b Vickers, 3; G. Barron, b Walton, 26; J. Vickers, b Walton, 18; total, 131. __ Just as darkness was setting in, the company left the ground, and proceeded to Mr J. Walton's, Miners' Arms Inn, where they partook of a most substantial dinner, which was served up in first-class style. reflecting much credit on the host and hostess. On the removal of the cloth, Dr Don Bavand occupied the chair, and Mr Bolton the vice-chair. Songs, toasts, and recitations were given, a most enjoyable evening being spent.

18th October 1879 (Hexham Courant)
Deaths
At Dykeheads, 14th inst., aged 65, Margaret, widow of William Thompson lead miner.
In 1851, at Spring Hall, Nenthead, William Thompson born Scotland, lead miner aged 40, his wife Margaret (Cowing, married 25th May 1837) aged 37, children Matthew lead ore washer 13, Joseph lead ore washer 11, John 9, Ann 6, Agnes 5, Mary 2.
William died 2nd quarter 1858.
In 1861 at High Dyke Heads, Nenthead, Margaret Thompson, lead miners widow, aged 47, children, Joseph lead miner 21, John lead miner 19, Ann dressmaker 16, Agnes 14, and Mary 12.
In 1871, at Dyke Heads, Nenthead Mary was living with her unmarried daughter Ann, a dressmaker.
At Chicago, Illinois, North America, 26th ult., Elizabeth, relict of John Walton, late of Alston, Cumberland. *See 22nd August 1868.*

25th October 1879 (Alston Herald and East Cumberland Advertiser)
ALSTON CATTLE SHOW.
The annual exhibition of live stock, &c., under the auspices of the Alston Agricultural Society, was held on Saturday last, in the holmes behind the Golden Lion Inn, Alston. Owing to the lateness of the season at which this show is always held, it is always a matter of congratulation when fine weather is secured for the exhibition, but on this occasion the Committee of Management may be congratulated on having been favoured with the proverbial "Queen's weather" for the gathering, although, as might have been fully expected, considering the lateness of the season, and the high-lying district, the air was rather sharp. The North Eastern Railway Company ran a special train from Haltwhistle in the morning, and both this and the "regular" were well filled with passengers, who soon thronged the streets of the quiet little town. The number of people from the out-lying districts who also attended the show was large, so that the town during the whole of the day presented a lively appearance. In the morning the

proceedings were enlivened by the Alston new band, which also was present on the show ground during the day, and discoursed a variety of music. The number of visitors who were present on the show ground seemed to be large, but they appeared to have been short of last year, as about £40 was taken at the gate, as against £46 17s last year, but that must have been an exceptional year, as the receipts at the gates on the occasion of the exhibition of 1877 was over £7 below the last mentioned figure, viz., £39 3s 6d. The total number of entries this year was 310, as against 293 last year, and 260 the previous year, so that it will be seen that the entries have been gradually improving during the last three years. The entry of Shorthorns numbered 54, against 52 last year; Galloways, 61, last year, 52; horses, 43, last year, 44; Leicester sheep, 41: last year, 46: blackfaced sheep, 40, last year, 36: extra stock, 29, last year, 19: leapers, 7, last year, 8: butter, 33, last year, 36. This show an increase on the whole of five, while an addition to the catalogue of a premium for colley dogs received an entry of 12, which made the total increase upon last year year's entries up to 17. The arrangements of the show were quite as complete as previous years, and everything went off without a hitch. The hon. sec. and treasurer, Mr T. W. Dickinson, was indefatigable in carrying out his onerous duties, in which he was assisted by the following gentlemen who officiated as stewards :—Mr J. J. Millican, Nenthead House, and Mr James Brown, Blackburn Banks., …

25th October 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

RURAL SANITARY AUTHORITY.

DR. CARSON'S QUARTERLY REPORT

The monthly meeting of the Rural Sanitary Authority was also held, when Dr Carson's (medical officer for No. 2, or high district) report for the quarter ending Sept. 30th, 1879, was read. He reported a fatal case or enteric fever at Rodderupside. Ha had visited the place, and ordered it to be disinfected, which instructions had been complied with. On 16th Sept he had visited Garrigill and with the Inspector of Nuisances, and found everything in gool sanitary order, with the exception of one or two midden steads and dung heaps, which he had ordered to be removed. On the 19th of the same month he had visited Nenthead, in company with the inspector, and with one or two exceptions found all in good sanitary order. Whooping cough was prevalent in the Nenthead district but of a very mild type. The Inspector reported that he had been around the district since he and the medical officer had inspected it, and all the orders given had been complied with.

1st November 1879 (Alston Herald)

WEARDALE

SALE OF WEARDALE CARRIER PONIES.

Thursday, 23rd ult., may be said to have brought to a close a very old Weardale institution. On this day there were sold by auction by Messrs Tarn at Westgate, seventeen carrier ponies, belonging to Harrison Barkas. The price for animals about six and seven years brought £9 10s to £10, aged ponies bringing £5 10s and various sums under. These were the last "set" of carrier "galloways" used in Weardale for carrying lead ore from the W.B. Lead Mines to the smelt mills, and had been sold owing to the want of employment. Twenty or thirty years ago there were in Weardale some ten or twelve "sets" of carrier ponies, each

set or team consisting of fifteen to eighteen animals. Nearly all the lead ore raised at the W.B. Lead mines was conveyed in those days on the backs of those ponies which occasionally brought, on the return journey, coals, and light timber for the mines. These ponies had considerable carriage, when we consider that the Weardale mines, with those of Allendale raised in 1847, 13,600 tons of ore. Each pony carried two pokes of eight stones each, and the team had a "raker," or leading horse, which was followed by the others. For the better management of the team, the driver always had his dog. ...

In 1841, at Broad Law, Stanhope, Harrison Barkas aged 40, a farmer, wife Maria (born Blanchland) aged 40, and children Mary 15, John 15, Harrison 9, and Elizabeth 7.

Harrison Barkas snr. died 2nd quarter 1845.

In 1851, at Stanhope, Broad Law, Maria Barkas, widow, farmer of 48 acres, employing 1 labourer, aged 55, children Mary A. 28, Harrison, 19, Elizabeth 17, and grandson, John Sanderson aged 3.

In 1861, at High Farm, Harrison Barkas, Iron miner, aged 28, his wife Mary (Armstrong, born Alston, married 2nd quarter 1859, Stanhope), son George aged 10 months, and lodger, John Sanderson iron miner, aged 13,

In 1871, at Stanhope, Broad Law, Harrison Barkas, agricultural labourer, aged 38

Mary Barkas 35, son George 10, and nephew John Barkas, limestone quarryman, aged 24.

In 1881, at Westgate, Stanhope, Harrison Barkas, farmer, aged 48, his wife Mary 45, son George Iron cartman, 20, and servant Mary A. Philipson aged 14. Harrison died 4th quarter 1915, aged 83, his wife Mary 2nd quarter 1898, aged 62.

Their son George married Mary Ann Emerson, in 1884, the 1901 census shows them living with Harrison at Westgate.

8th November 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

THE VACCINATION STATION AT NENTHEAD.

The CHAIRMAN said that Dr Carson had stated that the rent of the vaccination station house at Nenthead was not paid for him, which was done at Garrigill, and considered that if one was paid for, the other should also be.

Mr J. J. What do you pay for the Garrigill one? The Relieving Officer (Mr Walton): 20s.

After some conversation as to where the doctor held his vaccinations, and how often he was required to attend in the year, in order to ascertain whether the rent was moderate, Mr A. WALTON moved that both stations should be made alike, viz., the same rent be paid for each, £1 per year. Mr I. WALTON seconded the motion, which was agreed to. T

THE OVERFLOW OF THE BURN.

The CLERK said that be had received a letter from Dr Gill, the medical officer for No. 1 District, which although it was not a sanitary meeting he would bring before them. The letter reported an unhealthy nuisance at the foot of the town, near the Low Mill, owing to some obstruction in the sewer. The CLERK: I presume he refers to the mill burn, which is not a sewer. The CHAIRMAN remarked that the burn had flooded Mr Haldon's house and several houses at the Townfoot on the previous day. The CLERK: Mr Wilson was here yesterday,

and he wished me to mention it. The CHAIRMAN: Is that Mr Wilson's house? The CLERK: Yes A long conversation ensued on the subject, in which the question was raised as to who was the responsible party for cleaning out the burn. The CLERK said that when Mr Utrick Vipond was at the mill, he got the volume of water increased by bringing water from Nentforce. Mr Wilson objected to this increase of water, but raised no further objection on Mr Vipond promising to keep the race free from obstructions. This Mr Vipond carried out till he left the mill, and the present miller did not use this extra water for a time, and did not keep it right, but he (Clerk) understood that he was new using this water, and therefore he ought to keep tie race clean. When the water was brought from Nentforce an undertaking was given that the race between the mill and the river should be kept clear. Mr Wilson was very much annoyed about it, and was inclined to take legal proceedings if he could. The CHAIRMAN thought there was nothing to be done but to speak to Mr Whitfield, the miller, and he would render the affair satisfactory. Mr A. WALTON: I should say the debris which comes into the race will be put in at the town head. The CLERK: No doubt but Mr Vipond undertook to do it. Mr A. WALTON: Well, I think it was a very supererogatory duty to take upon him. Mr RICHARDSON was of opinion that the owners of the houses which had been flooded could bring an action, against the person who had to clear this debris away from the mill race. The CHAIRMAN: remarked that it was opened out now, the water was no longer overflowing. Mr RICHARDSON: Would it not be as well, as Mr Millican suggested to call the attention of the Inspector to this nuisance, which is caused by putting things into the race. Mr VIPOND remarked that all the butchers' killing shops in the high part of the race had trap doors into the race. The CLERK said that Mr Wilson also spoke of the drain which Mr Thomas Graham had made and taken through his property. He (Clerk) was not aware what it was, but he said that he would mention it. The CHAIRMAN: I suppose Whitfield will have to pay for this opening into the race, because the road has nothing to do with it. Mr A. WALTON: Has the Board power in it. The CLERK: No, we have nothing to do with it, but if any person puts in rubbish, which Dr Gill complains of they are liable to be prosecuted. After a few other remarks, Mr J. G. MILLICAN said it was a matter which would not be done with soon as if the holes into the burn were closed, the ashes and refuse would be put down beside the places. and the nuisance would be greater than before. There is a very considerable space in the Fair Hill which might be used for a time as a deposit. The CHAIRMAN: Would the Hospital allow the ashes to be deposited on the Lords' wastes. Mr A. WALTON: The Hospital might be asked. The CHAIRMAN: This matter should be mentioned to Whitfield. The CLERK said that he would mention it to him on behalf of Mr Wilson, he did not see how the Board had any power in the matter.

TEESDALE LEAD TRADE

The prospects of the lead trade in Teesdale have somewhat brightened during the past few weeks, the London Lead Company having it is understood, disposed of about 10,000 pieces. Should the favourable quotation’s for lead continue, a hope is entertained that the staple industry in Upper Teesdale may revive.

15th November 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON

VESTRY MEETING.—A vestry meeting was held in the Board Room, on Thursday last, for the purpose of fixing on the amount of rate to be levied for next half-year. Precepts to the amount of £1200—£900 for usual parish people, and £300 for the highways, &c., had been issued, and the meeting fixed on a rate of 1s 6d in the pound for the purpose of meeting present parish needs.

We understand that the threat of the Admiralty to discontinue their annual grant to the Grammar School has been carried into effect this year, as we are informed that on Thursday week—when it would have been paid if it was intended that it should be paid the application for its payment was refused. Owing to Mr Grey not paying his usual visit to Alston through indisposition, the deputation from the guardians could not wait upon him as intended. T

THE QUARTERLY RETURNS OF BIRTHS AND DEATHS.—The Registrar-General's quarterly return, ending September, with reference to this parish, is as follows :—Population in 1871, 5,680; births registered, 35; deaths, 17; deaths by seven chief zymotic diseases, nil.

ALSTON PETTY SESSIONS.—These monthly Petty Sessions were held on Friday, before the Roy. O. James, and T. W. Crawhall, Esq., but the only cases on the charge sheet were two affiliation cases, and two charges of drunkenness and disorderly conduct. The latter were both against one man, John Henry Woodmass, joiner, Alston, the first offence having been committed on the 4th of October, and the second on the 18th. Sergt. Calvert proved the first offence, and P.C. Byrnes the second, and defendant was mulcted in a penalty of 5s and 10s 6d costs in each case.

THE HIRING'S.—The "hiring day" for this district was held on Saturday, but the town, in appearance, differed very little from the usual market day, nearly all the engagements being made previous to the market. We understand that several girls belonging to the district were unable to get situations. The top wage for the half-year, for domestic servants, would be £7, and wages would vary from.

THE WEATHER.—On Wednesday night we had a sharp frost as if foreshadowing the approaching winter. Crossfell is covered with snow.

Deaths

At Ashgill, 4th inst., aged 52, John Martin, farmer.

At Redwing, Garrigill, 7th inst., aged 27, Stephenson Ward, lead Miner.

In 1851, at Windy Hall, Garrigill, Joseph Ward, lead miner, aged 46, his wife Ann (Stephenson, married 7th December 1833) aged 39, children Joseph lead miner 26, John lead miner 16, Martha 15, Mary 13, Jason 11, Ann 8, Hunter 6, and James 3.

Joseph Ward senior died in 1858.

In 1861, at Windy Hall, Garrigill, Ann Ward, widow farmer of 14 acres, aged 49, children Martha 25, Jason lead miner 21, Ann 18, Hunter lead miner 16, James lead miner 13, Thomas 8, and Stephenson 8.

In 1871, at Red Wing, Garrigill, Ann Ward, farmer of 50 acres, aged 59 children Martha 30, Ann 28, Hunter farmers son 26, James lead miner 23, Thomas lead miner 18, and Stephenson lead miner18.

See 26th February 1876 & 26th January 1884

At Holmefoots, Nenthead, 10th inst., aged 57, Robert Armstrong, lead miner.

See 5th October 1878

15th November 1879 (Hexham Herald)

THE DURHAM LEAD TRADE

There is a marked improvement in the leads market, and in several of the Durham dales there is a much fuller employment to the lead miners than for many months. The price of lead continues to increase having risen from about £13 per ton to £17 per ton for English Pig. …

22nd November 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

THE GRAMMAR SCHOOL.

The CLERK said a deputation Had been appointed to wait upon Mr Grey relative to the Grammar School. The CHAIRMAN : Mr Grey was not here.

Mr I. WALTON, on behalf of the deputation, reported that they attended according to appointment, on the 5th inst., at the Manor Office, but they found when they arrived there that Mr Grey had been unable to come to Alston, so that they could not have the interview with him which was intended. They were, however, kindly received by Mr Walton, who gave them a letter which he had received from Mr Grey, explaining his absence. This letter was read to the meeting. It stated that owing to an attack of rheumatism Mr Grey could not came to Alston, and asked Mr Walton to inform the deputation that he could not be present, but he could not see how they could be anything in not seeing him. The letter then went on to make some remarks with reference to the school and the grant by the Admiralty. Mr J. G. MILLICAN: At the time Mr Grey wrote that letter he would not have got a copy of the report which he will have got since. A report from the School Committee was next read as follows: To the Guardians of Alston with Garrigill. The Grammar School Committee beg to report that in accordance with instructions received the school has been examined by Mr Carr, the master of the National School, Corbridge, and they beg to lay before the Guardians Mr Carr's report thereon. The Committee beg to suggest that a copy of Mr Carr's report be forwarded to Mr Davies, the master of the school, with the intimation that the Guardians will expect a more favourable and satisfactory report at the next examination. …

The following is a copy Mr Carr's report:— Corbridge-on-Tyne, Nov. 6, 1879 Gentlemen,—In compliance with your request I visited Alston Grammar School on the 31st October, for the purpose of examining the children. I regret not to be able to report favourably. The discipline and attainments are at a low ebb. Talking went on the whole time, and copying, in spite of repeated warnings, was quite general. The reading was fluent, but incorrect, in the upper classes. In the lower classes the children were presented in books much beyond their capacity, and, instead of reading, only stumbled from word to word. The dictation was very bad throughout. The composition of the first and second classes was fairly done by four boys and one girl, but the punctuation and spelling of the rest sadly disfigured their exercises. The arithmetic throughout the school was a total failure. All the paper work was very untidy, and the writing copies did not show any traces of careful supervision. The grammar of the boys in the first class was moderate, but they all failed to distinguish a very easy complex sentence. In the lower classes they showed no certainty in distinguishing the parts of speech, and adjectives, nouns, and adverbs, all went down as verbs. The geography was readily answered in the upper classes by about two-thirds of the children. In the second geography class, the answering was fair by the but the girls were

not nearly so ready. Needlework and singing are not attempted. Four or five boys were presented in algebra and mensuration The mensuration was done by all, but they were not successful in algebra. I am, gentlemen,
Yours truly, A CARR.

22nd November 1879 (Hexham Courant)
Deaths
At Annatwalls, 13th inst. aged 77, Ann Todd, widow, of Joseph Todd, lead miner.
Ann Teasdale married Joseph Todd 2nd July 1825, at Alston.
In 1841, at Annatwalls, Alston, Ann Todd, farmer, aged 35, children Thomas, lead miner, aged 14, Isaac, lead miner, aged 12, Mary 8, Joseph 5, and John aged 1.
Joseph Todd aged about 45, was at Maryport in 1841, his death is recorded at Alston 3rd quarter 1841, he was buried at Garrigill, 15th August 1841, aged 45.
In 1851, at Low Annatwalls, Ann Todd, lead miners widow, aged 46, children Isaac, lead miner, aged 21, Mary 18 (buried at Garrigill 6th April 1859, aged 26), Joseph, lead miner, aged 15, and John, lead miner, aged 11. In 1861, at Annatwalls, Ann Todd, widow, farmer, aged 57, sons Joseph, Ag. labourer, aged 25 (buried at Garrigill 7th July 1863 aged 27), and John, Ag. labourer, aged 21. In 1871, at Low Annatwalls, Ann Todd, widow, farmer of 21 acres, aged 66.
Ann Todd died 4th quarter 1879, reg. Alston, buried at Garrigill, 16th November 1879, aged given as 77.
In 1851, at Bruntly Syke, Thomas Todd, lead miner, aged 24, his wife Mary aged 22, and son Joseph 9 months. In 1861, at Town Head, Thomas Todd, lead miner, aged 34, his wife Mary, dressmaker, aged 32, children Joseph 10, Robert 8, Mary A 6, and Frances 2.
Mary died 1st quarter 1870, aged 41, at Alston.
In 1871, at Physic Hall Bankfoot, Thomas Todd, widow, lead miner, aged 44, children Robert, draper, aged 18, Mary A, 16, Frances 12, Elizabeth 9, Thomas 7, Maria 5, and John 1. In 1881, at Physic Hall Bankfoot, Thomas Todd, widow, lead miner, aged 54, children Mary Ann, house keeper, aged 26, Maria 15, John 11, and grandson Isaac E. Todd 2.

In 1891, at Scotswood Road, Newcastle, Robert Todd, draper, aged 38, brothers Thomas, draper, aged 27, John, drapers assistant, aged 20, sisters Mary A., housekeeper, aged 36, Elizabeth, dressmaker, aged 29, Maria, drapers assistant, aged 25, and nephew Edwin Todd aged 12.
In 1901, at 9 Hawthorn Street, Elswick, John Todd, draper, aged 31, his wife Florence Alice, aged 27 (Buddle, married 1st quarter 1893, Newcastle), born Wreckenton, Durham, children William R 6, and Mary A 3.
In 1911, at 172, Rye Hill, Newcastle, John Todd, draper, aged 41, his wife Florence Alice aged 34, daughter Mary Alma 13, and domestic servant Mary Mc Kenna, aged 18.
At East Nattrass, 13th inst., aged 60, Thomas Lee, lead miner.
In 1851, at Nattrass, Thomas Lee , lead miner aged 32, his wife Mary (Graham, married, 13th December 1835?) 36, children Ann 10, Wm 8, Mary 5, Hannah 3, and Jane 1 year.
In 1861, at Nattrass, Thomas Lee, farmer of 36 acres, aged 42, his wife Mary 46, children William lead miner 18, Hannah 13, Jane 11, Elizabeth 8, and Isabella 5.
In 1871, at East Nattrass, Thomas Lee, farmer of 26 acres, aged 52, his wife Mary 56, children Ann dairy maid 30, William lead miner 28, and Isabella 15.

Births
At Hill House, Alston, 25th inst., the wife of Robert Stagg, Esq., of a son.

29th November 1879 (Hexham Courant)

ALSTON

BURGLARY NEAR ALSTON.

On Sunday last, the farm house at Moscow, near Alston, was entered by burglars, from which there was stolen a quantity of ale, some whisky, and also some wearing apparel belonging to the mala sex. The house in question is the intended dwelling of the person occupying the farm known by the name of Moscow, and situate not far from Whitfield Fell, but the present occupier Mr W. Watson, having also the farm known by the name of Corby Gates, and having taken up his residence at that place, has we understand, since his occupancy at Corby Gates, generally had some person living in the house at Moscow. Of late, however, it seems that there has been no one living in the house except during the grouse season, when it has been occupied by Mr J. Gill, brewer, Alston, as a shooting box, and that in it he kept his stores and other necessaries and used it for the purpose named. In the morning of Sunday last, one of the sons of Mr Watson while looking over the farm also inspected the house and found it all safe, but it was discovered on Monday morning that the premises had been entered, the wearing apparel stolon, and the spirit and ale having nearly all disappeared, an 18 gallon cask of ale taken to the house some two days before being found empty. Entrance to the house had been gained from an outhouse by means of raising a flag in the floor, and another door being forced open. The police, we understand, are on the lookout for the delinquents.

TEESDALE

THE LEAD MINES

The lead mining industry in Teesdale is gradually but surely showing signs of improvement, and that fact is manifesting itself throughout the whole of

Teesdale. Large stocks of stored up pigs of lead ore are gradually disappearing, and the Teesdale Mining Company are forwarding good parcels of ore monthly to meet an increasing demand. It may be interesting to mention that this company was formerly in the hands of Newcastle shareholders, almost without exception, and they carried on the mine for several tears without realising any profits. Under the circumstances, they lost heart, and strange to say sold out just as the mine was beginning to improve. These shares, which were sold at great sacrifice, have been largely bought up by gentlemen in Durham, who at the present time own about half the share capital, and we are still buying up the shares as fast as they come into market. We are informed that the mine has been recently inspected by three eminent engineers unconnected with the company.

Deaths

At West Ashgill, 20th inst. aged 64, Isaac Currah, lead miner.

In 1851, at West Ashgill, Isaac Currah, lead ore miner, aged 35, wife Elizabeth (Hindmarsh, married 25th July 1840, St John, Garrigill) aged 33, children Mary 9, John 8, Isaac 6, Elizabeth 3, and Jane 1.

In 1861, at West Ashgill, Isaac Currah, lead miner, aged 45, wife Elizabeth 43, children Mary, house maid, aged 19, John, lead miner, aged 18, Isaac, lead miner, aged 16, Jane 11, Joseph 8, and Lucy E. 4. In 1871, at West Ashgill, Isaac Currah, lead ore miner, aged 55, wife Elizabeth 53, children Isaac, lead ore miner, aged 26, Joseph, lead ore miner, aged 18, Lucy Eliza 14, and nephew in law Joseph Hindmarsh 13. In 1881, at West Ashgill, Elizabeth Currah, widow, farmer of 8 acres, aged 63, son Isaac, leads miner, aged 36, daughter Lucy Elizabeth 24, and nephew Joseph Hindmarch, lead miner, aged 23. See 7th September 1866, and 23rd January 1892.

At Loaning Head, Garrigill, 22nd inst., aged 74, Sarah Vipond widow of Isaac Vipond lead miner.

In 1841, at Loaning Head, Garrigill, Sarah Vipond (Archer, married 18th August 1825, Alston) aged 35, children, John lead miner aged 15, Isaac 10, Joseph 7, and William Hunter 2 years.

In 1851, at Lane Head, Garrigill, Sarah Vipond, widow (Isaac died 27th October 1836, aged 32, at Loaning Head), farmer, aged 45.

In 1861, at Loaning Head, Garrigill, Sarah Vipond, proprietor of land, aged 54.

In 1871, at Loaning Head, Garrigill, Sarah Vipond, lead miners widow, aged 64, boarder, Elizabeth Watson, unmarried, needle and washerwoman, aged 23.

9th February 1924 Barier Miner (Broken Hill)
NEW MINING INSPECTOR
APPOINTED FOR SOUTH AUS.
Mr. John L. Pearson, of Wallaroo mines, has been appointed Inspector of Mines and Quarries for the South Australian Government (says the "Advertiser"). He is 53 years of age, and has had extensive experience in mining operations in Australia. From 1922 to 1923 he was surface and under-ground manager at the Wallaroo mines, and for seven years prior to that occupied the position of underground manager at the same place.

A good deal of his technical training was obtained at the Moonta School of Mines.
His experience in gold mining was gained as manager of various prospecting leases at Kalgoorlie, Kanowna, and Menzies, in West Australia. For a period ho was employed with the Queensland Copper Comppany, and also spent some time in Broken Hill in investigating mining and concentrating methods. While there he paid considerable attention to the improvements effected to comply, with the requirements of the Technical Health Commission regarding the abatement of dust, better ventilation, and safer working practice. Mr. Pearson holds a first class mine manager's certificate for Queensland, and is a member of the American and Australian Institute of Mining and Metallurgy.

13th December 1879 (Alston Herald and East Cumberland Advertiser)
ALSTON.
The frost in the Alston district was most intense on Wednesday and Thursday week, the minimum registered being about 8 degrees below zero. A continuance of the present weather will tell most severely on the sheep stocks which were not, generally speaking, in good condition to commence winter with. At all the lead mines washing operations are stopped, and a good many hands are thus laid idle.

SINGULAR EFFECT OF THE FROST.—The frost on Thursday night, had an effect on an engine, on the Alston branch of the North Eastern Railway, which is at least unusual. A train from Haltwhistle arrived at Featherstone about the usual time, but when the driver endeavoured to replenish the water in the boiler from the reserve in the tender, it was found that the injector was frozen, and the water could not pass, as the gauge only showed a few inches of water in the boiler, matters did not look particularly pleasant for the passengers (the thermometer being below zero) besides those *au fait* in the mysteries of boilers thought it advisable to give the engine a wide berth, for reasons which may probably suggest themselves to our readers. Of course any danger might have been averted by damping the fires, or opening the escape valve, but to adopt either plan promised further delay. A fire was however, lighted under the engine, eventually the ejector was thawed, and the welcome sound of the cold water rushing into the boiler was heard. The train was delayed about forty minutes.

FROST ACCIDENTS.—On Thursday last, about eleven a.m., David Hounam was carting coals from the Station into the town, and on getting opposite the Cross, his horse fell on the ice breaking both of the cart limmers; fortunately help was at hand, and the horse was soon extricated from uncomfortable position and got upon his legs; another cart, however, had to be procured to take the coals to their destination. The **Alston Woollen Mill** was laid off for a short while, in consequence of the action of the frost on some parts connected with the boilers; the weather, however, after being intensely keen for over a fortnight showed signs of change, on Tuesday last, when it was thought at Alston that a thaw had set in, but the morning of Wednesday showed the reasserted sway of king frost, and there appears to be no immediate signs of change.

Deaths

At Garrigill Gate, 6th inst., aged 25, Isabella, daughter of Joseph Pearson, cordwainer. *See 16th October 1875*

At Wardway Foot, Nenthead, 6th inst., aged 23, Mary Ann, daughter of John Walton, lead miner.

See 24th July 1875

20th December 1879 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

THE BEQUEST OF THE LATE MR. KING.

The CLERK stated that he had received a communication from the Charity Commissioners requesting him to furnish them a list of persons, substantial and respectable, resident in Alston, who would be willing to act on the trust in Mr King's will. He (the Clerk) hesitated to take such a responsibility himself, and would suggest that the Vicar, the Chairman of the Board, and Vice-Chairman, be appointed to assist him—The letter was read, and it stated that ample preliminary notice would be given before any decided steps would be taken.—Mr WALTON proposed, and Mr VIPOND seconded, that the Clerk's suggestion be carried out, which was agreed to.

FAIR HILL CHARITY.

The CLERK said Mr John Millican had called at his office on the previous day, and refused to pay his rent except something was done about some fencing. He (the Clerk) had asked him to put it down in writing, but he had not done so yet.—Mr I. WALTON said he understood it was partly about the fence next to the road to the quarry ground. They were working the quarry too near to the boundary

fence. It was about three feet when first reported, but it appeared it was only about two feet now. He had written to Mr Jacob Peart, the gentleman who surveyed it, and he found that the fence was exactly upon the boundary. If something was not done the wall would come down —Mr H. WALTON said it was a great mistake that this quarry had not been looked after before this.—Mr I. WALTON said it had been reported repeatedly by the Committee, but nothing had been done.—Some conversation then took place of a desultory character in which the CLERK stated that on the first of January last there was £10 6s 5d on account for repairs, and 5 per cent of the rents of the year would be attached to it, but he did not know what the expenses of the Committee amounted to, He should like the accounts in as the books will have to be closed by the next meeting.— Eventually the whole question was referred to the Committee who were instructed to report to the next meeting. —The CLERK remarked that they ought to have the rent some way or another before next meeting.—Mr R. WALTON: He should pay his rent and we can consider it after.

27th December 1879 (Alston Herald and East Cumberland Advertiser)

SPELTER WORKS.

SCHOOL.—On Saturday last, the children of the above school received their annual treat in the shape of tea with its usual concomitants, and apples and oranges. Over 100 children sat down to the good things provided. This kindness was done to the children by Major Thompson, Milton Hall, and Mr J. C. Swan, Newcastle. After the children had done ample justice to the good things provided, a public tea was held, when a large number sat down to a very excellent tea, which was very ably presided over by the following ladies:—Miss Smith, Spelter Works; Miss Dodd, Roachburn Cottage; Miss Shipley, Riggfoot; Miss Wallace, Miss Henderson, Misses Smith, Prior Dyke; Mrs Clennel, Spelter Works; Miss Moscrop, Dale Hole Cottages; Miss Parker, Spelter works; Miss Armstrong, Miss Stobart, Miss Ruddick, Roachburn Cottage, Miss Smith, Blue Gate, and Miss Wharton, Woodend. After the tea was concluded, a grand concert was held. The Rev Mr Battle occupied the chair. The meeting was addressed by the Chairman, and Mr Swan also contributed very much to the enjoyment of the meeting. Mr Ritson also delivered an address. The Misses Broatch and Stephenson presided at the pianoforte. The meeting broke up at a reasonable hour, and on the whole a very enjoyable evening was spent.—On Monday last Master Watson, of Seaham Harbour, very kindly favoured the children with a treat in the shape of a magic lantern exhibition, which was very much enjoyed by all.—Cor.

ALSTON.

On Saturday last, of our town had their usual Christmas display of beef, mutton, and pork, while the grocers had their windows decked with tempting fruits and sweets, and ornamented with evergreens. Our obituary column this week contains a record of the death of Samuel White, at Ipswich, Queensland, an Alston man, and as it may have special interest to our readers we communicate some little items of information that have reached us. It appears that for some time back he had been engaged in agricultural pursuits at a place called Melora, and near to Ipswich, and that having been unwell for some little time back, he and his wife had gone to Ipswich, that he might have medical advice and treatment, and that while there his disease increased with such rapidity and power as to defy all medical skill, and there to prostrate its victim and finish his

course. He leaves a widow (the daughter of the late Leonard Madgin, of Nenthead) and two sons to mourn his loss.

LEADGATE SCHOOL (ALSTON.)

On Friday, the 19th inst., the scholars attending the above had a treat given them by the Rev. James Sharp, now of Calicut, India, and. formerly, curate of Alston. The committee of the Sunday school had arranged to give their scholars a Christmas treat on the 19th inst. and on the 16th a letter was received by Mr J. R. Walton from Mr Sharp containing an order for £2, with a request that the Leadgate School children should have a treat with it, or if one was already in contemplation for them that the amount be expended in gifts to the poor of Leadgate, and particularly widows. After this beneficent gift was received, in order to carry out the desire of the Rev. gentlemen, the whole of the children attending Leadgate National School had tea and oranges given them, and the balance remaining along with the amount of collection at the Sunday School entertainment, which was held in the evening, will be given to the poor. In the evening the schoolroom was crowded. On the motion of Mr Thos. Martindale, seconded by Mr Jos. Craig, Mr Isaac Walton was called upon to occupy the chair. The programme consisted of several hymns and recitations. Miss Hymers and Miss Bell sung a duet "He wipes the tear from every eye;" the solo by Miss Hymers was also, well sung. Mr Lock ably presided at the harmonium, assisted by Mr Wm. Craig, Garrigill. The evening's entertainment occupied about two and a half hours. Before the collection was made the chairman explained to the audience that Mr Sharp had sent more than sufficient to pay for the children's treat, and in consequence, if a collection was made that evening it might be given to the poor if they thought proper, and on putting it to the meeting it was unanimously agreed to give it along with the remaining portion of Mr Sharp's £2 to the poor. During the chairman's remarks. he said it was very considerate of Mr Sharp to remember the children and poor of Leadgate, and especially during his domestic troubles, his wife's health having failed, she had been ordered to leave India for England at once for at least a year. Mr C. Hardy moved that a very hearty vote of thanks be accorded to the Rev Mr Sharp for his great kindness to the children and poor of Leadgate. Mr Thomas Parmley seconded the motion, which on being put to the meeting was passed amid tremendous applause. Mr J. R. Walton said he felt it was his duty as the order had been sent to him to acknowledge the vote of thanks, on behalf of Mr Sharp for the most hearty way they had shown their appreciation of gift, he said although they were parted from him by seas and lands, yet Mr Sharp had not forgotten them, this showed a good trait in his character, and he said he would convey their kind expressions to him when he wrote acknowledging the receipt of his gift. Mr Isaac Walton, Jun., next proposed a vote of thanks to the choir, and addressed the children. Mr W. T. Lock suitably replied. A vote of thanks to the chairman concluded the meeting.

Deaths

At Rise Green, Allenheads, 23rd inst., aged 76, Jane Varty.

In 1871, at Allendale, Northumberland, Isaac Varty, retired lead ore miner, aged 71, his wife Jane aged 66, daughter Elizabeth 34, and son William, a shepherd, aged 32. See 23rd May 1866, 29th April 1876

At Ipswich, Queensland, Sept 30, aged 46, Samuel White, late of Alston.

In 1851, at Kates Lane, Alston, Samuel White, butcher, aged 51, his wife Elizabeth aged 49, born Allendale, children Fenwick, lead miner, aged 23,

John, lead miner, aged 22, Samuel, lead miner, aged 18, Edward, lead miner, aged 16, Hannah 14, Matthew 11, Thomas 9, Sarah 9, and Charlton 7.

Date within which Caveat may be Lodged. February 10,1880.

Queensland Times 19th February 1917
Death of Mt. Feawick White
A RESPECTED CITIZEN OF MARYBOROUGH
A FORMER IPSWICHIAN

It is our sad duty to record the death of Mr. Fenwick White, an old and respected citizen of Maryborough. The deceased gentleman was apparently in his usual good health until Wednesday, the 7th instant, when he was taken suddenly ill at his seaside residence, at Torquay, where the family were spending the summer months (says the "Wide Bay and Burnett News" of the 16th inst.) On Friday last, he was removed, to his home in John-street, city, where, despite all that medical skill and unremitting, loving attention could do, he breathed his last about 5.30 a.m. yesterday at the age of 62 years and 8 months. The deceased gentleman leaves a widow and two daughters Misses Bessie and Edna, and two sons, Mr. Leonard (Biggenden), and Lance Corpl.

Ernest Telfer (who is now on active service in France to mourn their irreparable loss. He is also survived by his aged mother (Mrs. M. White), who resides at Wooloowin, Brisbane, and a brother, Mr. John White, who is well known in the Gympie and Degil_o districts

The late Mr. White was born at Nenthead, Alston, Cumberland, England and he arrived in Queensland in the sailing vessel "Winsfall" in 1862.

He came with his father and mother and younger brother, and was then just eight years old. The family went to Ipswich where the father found employment on the first Queensland railway construction, and subsequently worked on the Iron Breer Bridge, which is still in use. Mr. White, when a boy, gained the rudiments of education at the Church of England Day school at Ipswich (then situated on the site of the Bank of Australasia), but. at the age of 12 he went to help his father in a farming venture. Their first attempt

was at cotton growing, and their first crop was put through the gin belonging to Messrs. Cribb and Foote, at Harrisville. In 1872 Mr. White set out on his own account, and subsequently was employed in Ipswich by Messrs. MacFarlane and Sons. Mr White was appointed manager of their grocery department. In 1880, he married Miss Bessie Telfer, and during the succeeding year he found responsible employment with Mr J. E. Noakes, in Maryborough. Later he commenced business on his own behalf, and in 1883 his brother Mr John White, joined him, and the well-known firm of Messrs White Bros. was founded.

As a businessman, Mr. White was highly respected by his clients, and also by his fellow-businessmen. This was shown by his election, at the forthcoming convention of the Queensland branch as president for the 1915-16 term. He was also a member of the south-eastern division Shop Assistants' Board, and Chairman of Directors of the Maryborough District Co-operative Canning Company, Limited.

Mr. White became intimately interested in municipal matters, and in 1892

he was elected as alderman. He resigned his seat during 1893 in order to visit his native land in company with Mr W. F. Finlayson, the present member for Brisbane in the Commonwealth House of Representatives. Both these gentlemen represented Queensland at the International Grand Lodge, L.O.G.T., in Chicago and Des Moines. With Mr Finlayson, Mr White visited Scotland, and also his native village—Alston, in Cumberland, England, and his kinfolk at Carlisle, Newcastle-on-Tyne, and in Staffordshire. …

SERIOUS SHOOTING CASE NEAR ALSTON.

ARREST OF TWO POACHERS.

Two lead miners, residing at Nenthead, named Michael Robson and Anthony Thompson, were apprehended on a warrant by Sub-Inspector Calvert, on Wednesday last, charged with feloniously firing a gun loaded with powder and shot at James Dodd. Prisoners were brought before the Rev. O. James on Friday. James Dodd deposed that he was shepherd and game watcher for Mr Dinning of Nilston Ridge. On the day in question, he saw the prisoners poaching on his employer's moor. He followed them. Thompson warned him that if did not desist he would fire on him, and twice raised the gun to his shoulder. As witness knew the men, he thought this a mere threat, and still followed, when Robson raised his gun and fired. Several pellets lodged in witness's hands, and

others struck his leggings but did not penetrate, as these were leather, and he was at some distance prisoners. He thought the distance was about 100 yards Prisoners were remanded bail, being accepted, themselves in £50 each, and four sureties in £25 each. *See 17th January 1880*

3rd January 1880 (Alston Herald and East Cumberland Advertiser)
TINDALE SPELTER WORKS.
On Friday night last, the Tindale Spelter Company entertained their workmen to a good and substantial supper of roast beef and plum pudding, over 100

partaking of the good things provided, the carvers being the Rev Mr Battle and Mr J. C. Swan. After supper a hearty vote of thanks was, on the motion of the Rev Mr Battle, accorded to the Company for their generous treat. In reply, Mr Swan who was warmly applauded, said he was happy to meet them once more under these pleasant circumstances. He was glad things were looking a little better, though as yet there was no likelihood of any lengthened prosperity. A ball was afterwards held, and dancing was kept up merrily until a late hour.

FAIR HILL CHARITY

At the Board of Guardians' meeting on Saturday, the subject of this Charity was brought before the members', notice by two or three applications for temporary relief out of its funds, It appears that the balance on hand is some £34, whereas last year, there remained about £38, after making the yearly distribution. It will thus be seen that the calls upon this charity during the year have been very large, while the Board in many cases have been obliged to refuse relief, as the case was not considered urgent enough, and they have also had to forego the annual distribution. In regard to Garrigill the balance in hand was reported to be £11 13s 9½d, against a balance of £9 7s on hand after the distribution last year. The Garrigill guardians were thus able to make a small distribution. Part of it was awarded on Saturday, while the Relieving Officer was requested to select other needful people as recipients, for the rest.

10th January 1880 (Alston Herald and East Cumberland Advertiser)

OUR OBITUARY—At Carrshield, West Allendale, in the county of Northumberland, the mortal remains of **George Wilson**, Esq., of Nenthall, were interred on Wednesday last. Mr Wilson, we learn, was taken suddenly ill on the morning of New Year's Day and died about six o'clock in the evening. We understand that he had been in his usual health up to the time of his attack, and had been able to walk out and take his usual exercise. The attack, however, was severe, and in about twelve hours he fell beneath the blow. He had, however, reached the advanced ago of 78 years. In the early part of his life, we believe that Mr Wilson held a commission in the army, and in the Belgian Campaign saw active service, but for a lengthened period his abode has been in his own mansion at the village of Nenthall, near Alston, where he was greatly respected, and his occupation the pursuit of those pleasures and amusements in which country gentlemen are wont, according to their liking, to indulge.

On Wednesday last, **Mr John Richardson**, grocer, Market Place, Alston, died in the 70th year of his age. For the most part of a twelvemonth Mr Richardson had been in feeble health, and quite unable to attend to business, and in his decease it may truly be said that Alston has lost one of its most deserving and respectable inhabitants—a man whose history, while not abounding in much that came to the surface as startling and romantic, yet whose career, to those who knew him best, was one of gentle flow and beneficent influence taking within its range all the relationships in which he stood. During his somewhat lengthy life he has spent his substance in helping the trade of the district; he has been the friend of the poor, and has left an example worthy of imitation. From early youth he was a member of the Wesleyan Church, and for a long time was superintendent of the Alston Wesleyan Sunday School. In the young he took a deep interest, and spoke, often during his illness of the interest he felt in their welfare; and his end was what might be expected—peace. He leaves a widow to deplore his loss.

Deaths
At Leadgate, 5th inst., aged 53, John Wilkinson, lead miner.
At Alston, 7th inst., aged 75, John Richardson, grocer.

10th January 1880 (Hexham Courant)
Deaths
At Overwater, 4th inst., aged 4 weeks, James son of James Richardson, lead miner. *See 6th June 1874*
6th inst., aged 8 years, Foster, son of Robert Sanderson, lead ore washer.
In 1871, at Overwater, Robert Sanderson, lead miner, aged 33, his wife Elizabeth (Ridley, married 12th June 1866, Nenthead) aged 37, and daughter Elizabeth 1 year.
In 1881, at Overwater, Elizabeth Henderson, married, lead ore washing foreman's wife, aged 49, and daughter Elizabeth aged 11.
In 1891, Robert Sanderson, lead ore washing foreman, aged 53, his wife Elizabeth, aged 59, and daughter Elizabeth aged 21.
Robert Sanderson was buried at Nenthead 29th August 1891, aged 53; his wife Elizabeth was buried at Nenthead 6th May 1894 aged 62.
At Low Dykeheads, 4th inst., aged 61, Ann, wife of Jonathan Vickers, lead miner.
In 1851, at Overwater, Hannah Vickers, pauper, formerly lead miners wife, aged 73, her son Jonathan (father Matthew Vickers, buried at Alston 31st December 1836, aged 58), lead miner aged 35, daughter in law Ann (Hind, married 6th March 1845) aged 32, grandchildren, Matthew 5, Joseph 3, Hannah 1, and son Thomas lead ore washer, aged 13.
In 1861 at Overwater, Jonathan Vickers lead ore miner, aged 43, Ann 42, Matthew lead ore washer 15, Joseph lead ore washer, 13, Hannah 11, Isabella 9, Jonathan 7, Ann 5, Elizabeth Vic4, John 2, and brother Thomas 23.
In 1871 at Low Dyke Heads, Jonathan Vickers, lead miner, aged 53, his wife Ann 52, children Joseph lead miner 23, Hannah Vickers 21, Jonathan lead ore washer 17, Elizabeth 13, and Johnny 12.
In 1881, Bloomsberry Hall, Jonathan Vickers, widow, lead miner, aged 63, children Hannah 31, Elizabeth dressmaker, 24, and John lead miner 22.

17th January 1880 (Alston Herald and East Cumberland Advertiser)

CUMBERLAND WINTER ASSIZES.

CROWN COURT.—WEDNESDAY

Before Lord Chief Justice Coleridge

SHOOTING WITH INTENT AT ALSTON.

Anthony Thompson (23, miner). and Michael Robson (47, miner), were charged with unlawfully, maliciously, and feloniously shooting at and against one James Dodd, with a certain gun, with intent to do him some grievous bodily harm, at Nenthead, near Alston, on the 1st November, 1879.

Mr Shee, instructed by Mr Isaac Baty, Jun., Hesham, was for the prosecution; Mr Henry appeared for Robson, and Mr Mattinson appeared for prisoner Thompson.

Evidence was given by the prosecutor, James Dodd, shepherd for Mr Dinning, Ellen Dodd, mother of prosecutor, P.C. Calvert, and John Woodmass, surveyor, Alston, … Evidence having been given for the defence, His Lordship, in summing up to the jury, after stating some portions of the law, said that if the prisoners were trying to escape together, or if they were trying to wound him with intent and one did wound him, and the other helping him and being reedy if his comrade failed to do it himself, then in point of law both were equally guilty. He did not assume the guilt of the prisoners, but he would call attention to the fact that if there were two persons there and one shot Dodd, if the jury believed that they would probably equally believe that the other man twice pointed his gun at him from his shoulder, and that, therefore, was evidence that the two men were acting together for the purpose of doing an unlawful act. That did not show that either of these two men was there. It was a question of identity, because he did not think any of the learned counsel had suggested that the story was an invention on the part of Dodd. His lordship proceeded to discuss the evidence. On that of identity he said the jury would be able to judge, if they had any experience of it, how far a man could recognise his best friend if he saw only his nose and eyes. From his dress, demeanour, walk, a hundred things, they might be certain of the identity, but to identify him only by the eyes and nose would be a difficult job. But the men were dressed in the same way as in the morning. Then the question arose, did the evidence for the defence raise such doubts in their minds as to make them ask whether the case for the prosecution had been sustained. As to the times given by the witness Robson, his experience went to show that the more a witness was cross-examined on a question of time the more absolutely certain he became about it. Between Dodd and Robson they must judge for themselves. If one was right the other was wrong, for they put a man at different places at the same time. The learned judge proceeded to discuss the evidence in support of the alibi. If it was not proved as to Thompson and was proved as to Robson, then Thompson ought to benefit by Robson's alibi. The prosecutor was just as strong about Robson be was about Thompson, and the whole story must either stand or fall together. They could not very well convict Thompson and not Robson on the ground that Robson was not there. If there was, any difference at all Dodd was more certain about Robson than he was about Thompson, for he should not like to have sworn to Thompson if it had not been for the check suit. If he was wrong about one they might naturally come to the, conclusion that he was wrong about the other about whom he was more certain. As to the evidence to character it might be taken for what it was worth. If a man of good character shot another man they might say as a caustic judge

once said of a prisoner "that a man of most excellent character had stolen a pair of boots." The jury began the consideration of their verdict at five minutes to six, and in a quarter of an hour rose to deliver it. The Clerk of Arraigns: Gentlemen of the jury, do you find the prisoner Thompson guilty of shooting with intent to do grievous bodily harm? The Foreman: We find him guilty of abetting. The Learned Judge: It is the same thing. The jury found Robson guilty of shooting with intent, and recommended both prisoners to mercy, on account of their previous good character, His Lordship, in passing sentence, said: You have been found guilty, after careful consideration by the jury, and I must say I entirely concur in the verdict the jury have found, because I believe the evidence of Dodd, and I don't see that he could have any reason for misleading us. He certainly had an opportunity of being certain you were the persons and you were there earlier in the day. I have hesitated long as to what I should do. You did him really no injury, but to shoot at a man is a most serious matter, and if you had done him any injury —though I am not quite sure that that should make the difference I will let it make—to penal servitude you should have gone. I wish people to understand my notion of criminal justice is to make the broadest distinction between cases of violence and outrage and cases where there is no violence or outrage. You have had a good character up to this time, and you have been recommended to mercy. Whether I am right in what I am doing I don't know, but I don't mean to send you to penal servitude. Still I must make some distinction between you, because you, Robson, did actually fire and hit him; Thompson twice half made up his mind but thought better of it and did not fire— His Lordship then sentenced Robson to eighteen months' imprisonment with hard labour, and Thompson to six months' imprisonment with hard labour.
See 27th December 1879

24th January 1880 (Hexham Herald)

ROOKHOPE

Mr Thomas Bowman, draper and grocer, Boltsburn has succeeded the late Mr John Forster as Foreman in Rookhope Smelt Mill. On Friday last, a few more men were engaged at Rookhope Smelt Mill, though it is reported the wages are only small, about 12s 6d per week. Our correspondent thinks this will ultimately be found to be incorrect, and that £1 per week will be the wage as lead is now at a good price.

Deaths

Allendale Town, 15th inst. aged 68 John Moore.

In 1871, at Allendale Town, Jane Moore, widow, aged 47, children William, draper & grocer, aged 23, John, draper & grocer, aged 18, Joseph 12, brother in law John, assistant draper, aged 59, and domestic servant Mary A Hutchinson 21.

Brampton, 2nd inst. aged 55 Thomas Kindred, tallow chandler late of Alston.

In 1851, at Front Street, Alston, Thomas Kindred, Tallow Chandler, aged 26, his wife Jane (Snowden, married 5th May 1850, Alston) aged 25, and daughter Elizabeth 1 year.

In 1861, at Back Street, Brampton, Thomas Kindred, Tallow Chandler, aged 36, wife Jane 35, children Elizabeth 10, John 9, Jane 5, and William 2.

In 1871, at Lonning Head, Brampton, Thomas Kindred, tallow chandler, aged 46, his wife Jane 45, children John 19, Jane 15, William 12, Robert 6, Joseph 4, and Fanny 9 months.

28th January 1880 (Teesdale Mercury)
SUDDEN DEATH. —A man named Scott, belonging to Whey Syke, Forest and Frith, whilst on his way to the London Lead Company's Wiregill Leadmine, on Monday morning, suddenly dropped down dead near Lodgesyke Mine Shop, it is supposed from heart disease, accelerated by the intense cold.
James Scott buried 29th January 1880, at St James the Less, Forest and Frith, aged 26.
James Scott baptised 21st May 1854, at Middleton-in-Teesdale, mother Frances Scott
In 1851, at Teesdale, William Scott, unmarried, lead miner, aged 29, sister Hannah, unmarried aged 35, niece, Mary Scott 6, and nephew Jacob Scott 1.
In 1861, at Forest and Frith, Middleton-in-Teesdale, William Scott, unmarried, farmer of 17 acres and lead miner, aged 39, sister Hannah, unmarried aged 45, nephews, Jacob Scott aged 11, and James Scott aged 9.
In 1871, at Forest and Frith, Middleton-in-Teesdale, William Scott, unmarried, farmer and lead miner, aged 49, sister Hannah, unmarried aged 55, nephews, Jacob Scott, unmarried, lead miner, aged 21, and James Scott, unmarried, lead miner aged 19.
In 1881, at Forest and Frith, Middleton-in-Teesdale, William Scott, unmarried, disabled lead miner, aged 59, sister Hannah, unmarried aged 65, and nephew, Jacob Scott, unmarried, lead miner, aged 31.
William Scott aged 64, buried 22nd January1886, at St James the Less, Forest and Frith.
Hannah Scott aged 70, buried 12th August 1886, at St James the Less, Forest and Frith.
Jacob Scott married Jane Ann Bainbridge 1st February 1891, at Forest and Frith
In 1891, at Forest And Frith, Jacob Scott, farmer & lead miner, aged 52, his wife Jane A aged 39, children, Walter 7, Frederic 2, step son William Bainbridge, lead washer, aged 15, and step daughter Emily Bainbridge aged 13.
In 1901, at Raby Terrace, Forest And Frith, Jacob Scott, farmer, aged 42, his wife Jane A aged 29, and daughter Emily Bainbridge aged 3.
Jacob Scott aged 73, buried 27th April 1923, at St James the Less, Forest and Frith.

31st January 1880 (Hexham Courant)
Deaths
At Torquay, 25th inst., aged 28, Thomas Sopwith, mining engineer, youngest son of the late John Sopwith *(cousin of Thomas Sopwith, mining engineer, John died in 1878)* of Newcastle.
In 1851, at Lovaine Row, Newcastle, John Sopwith, cabinet maker, and upholsterer, employing 60 hands, aged 37, his wife Jane Alice (Anderson, married at Gosforth, 30th November 1837) aged 37, children James 5, Henry J 4, Mary E 1, and Thomas 1 month.

ALSTON

THE WEATHER.—The continuance of the frost has enabled the inhabitants of Alston to indulge in a pastime which they rarely have an opportunity of enjoying. The streams in the neighbourhood are usually so rapid and their courses se ragged that there are no places where any extent of ice can form for skating. During the past summer, however, a long reach of still water has formed on the Tyne, about a mile above the town, which is now frozen, and where the youth and beauty, wit and fashion have daily been disporting themselves during the past week. The pastime being new to many, has doubtless been accompanied by the usual misfortunes, but we hear of lle-broken bones yet.

NENTHEAD.

NENTHEAD CHARITY.—The Committee has given twenty-seven cartloads of coals to the most needy cases of the poor in Nenthead this present winter, to mitigate the sufferings they are exposed to by the pinching seasons we generally pass through. Four hundred and seventy-nine cartloads of coals have been given to the poor during the past fifteen years.

Deaths

At the Workhouse, Alston, 27th inst., aged 71 years, William Smith, cordwainer.

At Allendale Town, 15th inst., aged 68, John Moore, draper, formerly of West End, Allenheads.

4th February 1880 (Teesdale Mercury)

Forest and Frith Roads. —Mr W. J. Watson, Barnard Castle, on behalf of the Teesdale Mining Companies, made an application that the magistrates would consent to the dedication to the public of the road extending from Langton Beck, along past the Teesdale mines, by Dubby Syke, and Green Hurth mines to the main road over Yad Moss, all of which was in the township of Forest and Frith, The question to be determined was one of utility, Mr Richardson observed that the application had been previously made to the Highway Board of the district, who, however, had refused their consent, and a public meeting of the inhabitants had also unanimously declared their opposition to the road being taken over. Evidence was adduced on the part of the applicants, which showed that there were only four farms at an aggregate rateable value of not more than £56 in the district through which the road principally passed, but since its formation the traffic of pleasure seekers had greatly improved, owing to the number of sightseers who travelled on part of the road on their way to Caldron Snout. This, Mr Watson contended, was evidence of utility, because an influx of the general public would improve the value of property, and generally increase the prosperity of the inhabitants of the district—what was good for the people individually being also to their benefit collectively. It was admitted by both sides that the road was a good one, well surveyed, laid out, and with a capital foundation, —The Magistrates, however, after hearing all the evidence, came to the conclusion that no proof was shown that the road was of general utility, but recommended that a compromise be effected between the applicants and the Highway Board, whereby some portion of the road could be taken over.

7th February 1880 (Alston Herald and East Cumberland Advertiser)

ALSTON

CRANSTON'S ROCK DRILL.—At a time when so much is heard of American manufacturers driving the English out of the markets which they formerly enjoyed, it is gratifying to learn that English machinery also secures appreciation in the United States. The fact, no doubt, is that the jealousy which formerly existed between the two countries has died away, and each now recognises that the other excels in certain specialities useful to themselves and that there is, therefore, plenty of room for interchange of business with advantage to both nations. It is really remarkable that so progressive a people as the Americans have done so little with machine mining, but this may probably be attributed to the fact that the greater necessity for the introduction of rock drills in Europe led to more strenuous efforts to perfect them. Mr Cranston, of Newcastle-on-Tyne is just shipping another consignment of his rock dills and air compressors to America. This is the more gratifying, as it will be remembered that at the commencement of his career he had to encounter fierce opposition and even defend his rights in Chancery. The results, however, were entirely in his favour, the validity of his patent rights were established, and his opponents had to pay him all costs. The "Cranston" drills and air compressors are now employed throughout the world by many of the most enterprising and successful companies, which is undoubtedly one of the best proofs of their economy and

efficiency.—*The Mining Journal*. —As many of our readers will be aware, these rock drills of Mr Cranston were first introduced in the Alston lead mines in 1874.

Deaths

At Newshield, 30th ult., aged 10 months, Frances Mary, daughter of John Place.
At High Harbut Lodge, 31st ult., aged 9 days, Mary Errington, daughter of William Errington, farmer.
At Littlegill, *(near Rodderup Side)* 4th inst., aged 90, Elizabeth Hodgson, widow.

14th February 1880 (Alston Herald and East Cumberland Advertiser)

RE-APPOINTMENT OF THE MEDICAL OFFICERS. Drs. Gill and Carson had both made application for re-appointment, and on the proposition of Mr MILLICAN seconded by Mr VIPOND their applications were acceded to.

DR. CARSON'S ANNUAL REPORT.

The annual report of Dr. Carson, medical officer of No. 2, or High District, was read, with an abridged statement of the action taken for the prevention of the spread of infectious diseases. The report was a resume of the year's and work done by the Medical Officer in his district. There had been 55 deaths, being at the rate of 18.3 per 1000: 33 males and 22 females, number of births, 75; viz., 48 in Nenthead and 27 in Garrigill sub-districts. In the report two midden steads at Rodderup Side were referred to, and Dr. Carson stated that he had mentioned them in his report of 1875.—The CLERK stated that he had looked up that report. There had, however, been no report of any nuisance , upon the premises since that time, and if there was no report of a nuisance they could not do anything.— The Inspector said the only thing was that the midden steads stood rather near the doors—The CHAIRMAN: Are they on the roadside ?—Inspector: Yes; one of them is enclosed by a wall now, and the other is to be enclosed in the same way.—The CHAIRMAN: Are they fifteen feet from the centre of the road?—Inspector: Yes. I think so. —Th. CLERK said they would be on Mr Horrocks' own property—The Surveyor of Highways, who was present, concurred in the belief that the manure steads would be 15 feet from the centre of the road.—Mr H. WALTON said the road was not 30ft wide.—The CHAIRMAN: Well, we will do nothing till a complaint is made.—The subject then dropped.

ALSTON INDUSTRIAL CO-OPERATIVE SOCIETY.—The fourteenth anniversary of this Society was celebrated in the usual way on Friday, when a public tea was held in the Town Hall, of which some 350 persons partook. …

After tea, the customary public meeting was held in the Hall, at which there was a crowded audience Mr Adam Walton, Loaning-foot House, presided, and there were also on the platform Rev John Welford, Newcastle; Rev , B. Wild, Alston; and Messrs Telford and Robinson, Shotley Bridge. A quadrille band was in attendance, and greatly enhanced the proceedings with their lively airs. The chief part of the entertainment of the evening was a lecture by Mr Welford on "Thrift," a subject which the Rev gentleman treated in a masterly style; and kept his audience interested throughout the whole of his lecture which lasted about an hour and a half. The Chairman, in opening the meeting, made some exceedingly practical remarks, and Messrs Telford and Robinson also addressed the meeting, and during the course of their remarks proposed the usual votes of thanks to the lecturer and chairman. The accounts of the Society for the year 1879 shows that the amount of shop sales have been £4554, while the amount of profit has been £469. The amount of the members' share capital

is £1544, and the number of members 286. A dividend of half-a-crown in the £ has been declared on members' purchases.

Marriages

At Nenthead, Wesleyan Methodist Chapel, 11th inst. Mr Thomas Price to Miss Elizabeth Millican Teasdale, both of Nenthead.

In 1881, at Nenthead, Thomas Price, shopman at Coop Store, aged 26, his wife Elizabeth aged 22, and son William 7 months.

Deaths

At Alston, 9th inst., aged 9 months, Geo. William, son of Francis Clemitson, joiner.

At Alston, 10th inst., aged 65, Mary, widow of David Hounam, farmer.

At Loaninghead, Garrigill, 11th inst. aged 32, Elizabeth Watson.

At Williamsburg, Franklin Co., North America, 14th ult., aged 50, Isaac Rutherford, formerly of Nenthead in the parish of Alston.

See 5th April 1884

14th February 1880 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

The Medical Officers report (Dr Carson) for No. 2 district was read: He had inspected the district periodically and found nothing seriously detrimental to health. There had been five cases of Scarlatina at Dykeheads, and effective steps had been taken to prevent spreading. There had been a fatal case of Enteric Fever at Mr Hugh Kearton's, Rodderupside. The premises were in good condition except that the manurestead was too near the door and the road. This was also the case at the adjoining premises occupied by Mrs Varty.

20th February 1880 (Northern Echo)

FATAL MINE ACCIDENT

At Middleton-in-Teesdale.—On Wednesday afternoon George Readshaw (17) employed in the Coldberry Lead-mine, Middleton-in-Teesdale, met with his death in a shocking manner. He was working along with others, in the "forehead" of the mine, when a large stone fell from the roof, completely crushing him and causing instant death. —Mr Coroner Dean will hold an inquest at the Cross Keys Inn on Saturday.

George Readshaw aged 17, buried at St Mary the Virgin, Middleton, 21st February 1880

In 1841, at Middleton, James Readshaw, 35, his wife Martha aged 35, children, Jacob 14, Elizabeth 12, Mary 10, William 5. and George Readshaw aged 45.

In 1851, at Middleton, James Readshaw, farmer, aged 45, his wife Martha 44, son Jacob, lead miner, aged 23, and daughter Mary 20.

James Readshaw aged 49, was buried at St Mary the Virgin, Middleton, 30th August 1854.

In 1861, at Middleton, Martha Readshaw, widow, aged 55, daughter Isabella 17, and grandson, John Readshaw, lead ore washer, aged 14.

Martha Readshaw aged 56, was buried at St Mary the Virgin, Middleton, 2nd February 1863.

William Readshaw married Nancy Coatsworth 2nd quarter 1859, at Teesdale.

In 1871, at Middleton, William Readshaw, lead ore worker, aged 34, his wife Nancy aged 36, children, James 10, George 8, Martha 6, Mary Ann 4, John 2, and Elizabeth 1.
In 1881, at Middleton, William Readshaw, lead ore washerr, aged 44, his wife Nancy aged 44, children, Martha 17, Mary Ann 15, John C 12, Elizabeth 10, Joseph Wm 6, and Georgina 0.
In 1891, at Market Place, Middleton, William Readshaw, manager Temperance Hotel, aged 54, his wife Nancy 54, children, Martha 27, Elizabeth 21, Joseph Wm, cabinet makers apprentice, aged 16, and Georgina 10
In 1901, at Market Place, Middleton, William Readshaw, lead ore washer, aged 64, his wife Nancy, Temperance Hotel Manageress, 64, daughters, Elizabeth, Temperance Hotel assistant, aged 31, Georgina, Temperance Hotel assistant, aged 20, and granddaughter Millicent Readshaw 8.

21st February 1880 (Alston Herald and East Cumberland Advertiser)
Deaths
At Howgill Rigg, 13th inst., aged 7 years, Rebecca, daughter of Henry Walton, yeoman.

28th February 1880 (Hexham Herald)
ALSTON
LEAD MINING.
There is at present considerable more activity in lead mining, and several mines are employing an additional number of hands. Wages as yet are low. We do not hear that any of the miners have more than 50 shillings per month subsistence money given, and in many cases "the lennings" is even less, whilst to make matters worse few of the men have anything of consequence to pocket at the half yearly pays, and in not a few cases the "lent money" is not earned. The London Lead Company at their last quarterly bargains considerably increased the number of their workmen, and the Rodderup Fell Company have also lately taken on additional hands. In sympathy with the rise in prices of other minerals, lead during the last six months, has increased in value by 50 per cent, and brands which in the autumn brought £14 per ton now command £20 per ton in the London Market. This being the case there has been a pretty general clearance of old stocks and renewed speculation in mining. ...
Deaths
Langley Mills, Langley Hill Top, 23rd inst. aged 69 Jane Dinning.
In 1861, at Langley Hill Top, Joseph Dinning, unmarried, lead manufacturer, employing 120 men, & farmer of 200 acres, aged 43, visitor & brother Alexander, spirit merchant, aged 47, sister Jane, house keeper, aged 49, niece Ellen Dinning 15, house servants Hannah Wigham 27, and Rachael Rutherford 15.
In 1871, at Langley Hill Top, Joseph Dinning, lead ore smelter employing 72 men, aged 54, and sister Jane, aged 60.
Alston, 18th inst. aged 67, Jane wife of Robert Snowdon, Mason.
In 1871, at Front Street, Robert Walton, unmarried, lead ore miner, aged 56, brother in law Robert Snowden, stone mason, aged 48, sister Jane Snowden aged 58, and domestic servant Sarah Scaife 21.

28th February 1880 (Alston Herald and East Cumberland Advertiser)

ALSTON

BOARD OF GUARDIANS.— Tho ordinary meeting of this Board was held on Saturday last, Rev O. James in the chair, the other members present being—Messrs Walton Vipond, John Geo. Millican, Isaac Walton, Henry Walton, Adam Walton, Jonathan Carr Joseph Armstrong, Thos. Dickinson, Thos. Richardson, Wm. Lee, Thos. Walton, and Jos. Renwick.—The Clerk intimated that Mr Whitfield, the treasurer of the Board, had tendered his resignation, owing to a new Act of Parliament precluding him from further holding office owing to his being in service of an officer of the Board.—The resignation was accepted, and the further consideration of the matter adjourned to next meeting.

SCHOOL ATTENDANCE COMMITTEE

The monthly meeting of the School Attendance Committee was held on Saturday, Mr James presiding.—A minute was made at the last meeting with reference to the woman Mary Carr, that she was to be summoned if she did not send her children to school. The School Attendance Officer, however, reported that she had sent them after he had served the notice of summons. He also reported that he had visited the eight schools under the supervision of the Committee and the attendance was as follows:

School.	Weekly Average Attendance.	No. of Register.
Nenthead	168	209
Nenthall	49	62
Tynehead	34	52
Garrigill	93	109
Leadgate	41	56
Alston (High)	124	235
Alston National	32	68
Alston Infant (for one week)	36	74

—He had visited the town and found the measles still prevalent. Several children who had been attacked had recovered, but others in the same families had been smitten, so that it was not safe to send the convalescent ones to school till all had recovered. There had been one fatal case.—Three applications were made for the payment of arrears of school fees, which were refused, the Committee having no power to grant the applications even if they had been willing to do so.—This concluded the business.

Deaths

At High Plains, 29th ult., aged 57, Hannah, wife of Joseph White, farmer.

6th March 1880 (Hexham Courant)

Deaths

At Clitheroe, 27th ult. aged 64, Elizabeth widow, of Joseph Parker, lead miner.

In 1841, at Skelgill Rig, Alston, Joseph Parker, lead miner, aged 25, wife Elizabeth (Parker, married 10th June 1837, Alston) aged 25, children Mary 3, and John 1. Deaths
At Alston, 13th inst., aged 19 months, Jane Hannah, daughter of William Robinson Little, spirit merchant.
At Leadgate, 14th inst., aged 8 years, Lilly Ellen, daughter of William Thomas Lock, schoolmaster.

27th March 1880 (Alston Herald and East Cumberland Advertiser)
NENTHEAD POULTRY SHOW.
This annual show was held on Wednesday last, in the Lead Company's School Room Nenthead. In point of quantity and quality of exhibits this show has never been surpassed at Nenthead. The day was all that the promoters could wish for, and it being the quarterly pay day a general holiday was observed. …

STANHOPE.

FATAL ACCIDENT AT STANHOPE.—On Saturday last, Robert Bell of Crawleyside, an ironstone miner, met his death whilst at work at the Red Vein Mine, Stanhope Burn. A fall of stone came upon the unfortunate workman, causing instantaneous death. Deceased was 40 years of age, a widower, and leaves a family

3rd April 1880 (Hexham Herald)

ST JOHN'S CHAPEL

The lead trade in the district is still very dull and future prospects are very gloomy. Few can understand the reason for such limited operations at the several mines of W. B. Beaumont Esq. as there is little or no "foreheads" being driven, so that unless something fresh takes place there will be another collapse. The Ironstone mines are all working briskly, and the Commissioners are draining and planting, which employs the few remaining hands, hundreds having left the dale to look for work elsewhere.

3rd April 1880 (Alston Herald and East Cumberland Advertiser)

Marriages

At Alston, at St Augustine's Church, 31st ult., by the Rev. W. Nall, B.A., Mr W. Hallet, Stockton, to Miss Anne Walton, of Alston, eldest daughter of the late Toward Walton, Esq., Alston. *See 10th July 1886*

SETTLINGSTONES
FATAL MINING ACCIDENT.
A sad fatal accident occurred in the Settlingstones mine near Newbrough, on Saturday last by which a man named John Harkness lost his life. Deceased and a son of his named James, were working in the mine together while two men named Brown with a young man called Thomas Patterson of Haydon Bridge, were also working together not far off, but reached the scene of their labours by means of another level. The two levels in which the men mentioned above worked appear to commence at two extremes, and had been almost worked up to a point opposite each other. The Browns and Patterson were working in one level making a drift at an angle, while the deceased and his son

in the other were also working at an angle so as to meet the Brown "partnership". On the day in question the men, who had been making considerable progress in their work the three previous days, had drawn very close to each other, there being we are informed only about two feet of earth separating the different "partnership" at the time the accident took place. A code of signals had been established between the two parties, and about half past eleven o'clock in the morning, Brown had signalled that he was prepared to fire the hole. The signal was answered by the deceased and his son left the drift and went into the level, but his father did not immediately follow. Before long the shot went off, the deceased being still in the drift, and on the son going back again into the drift he found his father had been killed by the effects of the shot. The body of the deceased was conveyed to his home at Settlingstones. ... The deceased was a native of Allendale, was married and leaves a widow and a family of five to lament his loss *(aged 53)*.

In 1861, Folley, Allendale, John Harkness, lead ore miner, aged 35, his wife Margaret 39, children James 3, John 2 weeks, and mother Hannah Harkness, widow, aged 74.

In 1871, at Settlingstones Mines, John Harkness, lead miner, aged 46, his wife Margaret 39, children James, lead ore dresser, aged 13, Hannah 8, and John H. aged 2.

20th April 1880 (London Gazette)

THE GREENHURTH LEAD MINING COMPANY LIMITED.

AT an Extraordinary General Meeting of the Greenhurth Lead Mining Company Limited, duly convened and held at the rooms of the Incorporated Law Society, Royal-arcade, Newcastle- upon-Tyne, on the 23rd day of March, 1880, the following Special Resolution: was duly passed; and at a subsequent Extraordinary General Meeting of the-said Company, also duly convened and held at the registered offices of the Company, No. 25, Westgate-road, Newcastle-upon-Tyne, on the 13th-day of April, 1880, the said Resolution was duly confirmed: —

"That the Company be wound up voluntarily, and that Henry Pritchard, of No. 17, Grey-street, Newcastle-upon-Tyne, Clothier, and Charles Webster Harrison, of No. 25, Westgate-road, Newcastle-upon-Tyne, Agent, he and they are hereby appointed Liquidators for the purpose of such winding up."

Dated this 17th day of April, 1880. J. C. Swan, Chairman.

24th April 1880 (Hexham Courant)

At Alston, 22nd inst., aged 80, Mary Lightbown. *She died at the residence of her son, Mr James Lightbowen, Turk's Head Inn, Alston.*
At Doves Pool, Allenheads, 17th inst., aged 56, Mrs Phoebe Watson.
At Doves Pool, Allenheads, 18th inst., aged 70, Thos. Charlton, lead ore washer.

1st May 1880 (Hexham Courant)

ALLENDALE

ADVANCE OF WAGES

The long and impenetrable gloom that has enveloped and possessed so heavily on the staple industry of this district is beginning to exhibit signs of slowly bet surely lightening, so that some feint glimmer of blue sky are now visible and it is hoped will increase in dimensions. A number of workmen employed at Mr Beaumont's smelting works have received an advance coupled with an hour shorter shifts and horse work for the conveying of timber and ore to and from the mines is considerably more in request.

8th May 1880 (Hexham Herald)
Marriages
At Alston, Wesleyan Methodist Chapel, 1st inst. John Richardson to Miss Jane Shield both of Garrigill.
In 1881, at Kyo, Lanchester, Thomas Nall, coal miner, aged 30, born Alston, his wife Mary 32, born Durham, niece Margaret H. Bowman, aged 6, and lodgers John Richardson Coal miner, aged 23, and his wife Jane Richardson aged 21.

8th May 1880 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

NENTHEAD SCHOOL TRUSTEES AND THE ATTENDANCE.

A letter was read from Mr Robert Bell, one of the trustees of the Nenthead School, stating mat he was requested by the Committee to request the Board of Guardians to assist them in securing a better attendance of the scholars attending their school. If this could not be secured it would be the advancement of the system of the School Board, which they wished to avoid. The letter concluded by inquiring the date of the last day for entering plaints at the County

Court.— In explanation of this matter, the School Attendance Officer (Mr Walton) stated that he had also received a letter from Mr Bell having reference to the same subject, in which it was stated that there were 63 absentees on a certain afternoon. He went to Nenthead on Tuesday, and visited the school. The master was not present, but he (officer) was provided with a list of 52 absentees whom he visited, and the result was 26 were absent through illness; one was over 15 years of age, and they could not, therefore, compel attendance; 10 had passed the fourth standard and they could not compel them to attend after that; leaving 14 irregular attenders, and these they could not bring up as they only missed half-a-day occasionally. He called upon Mr Bell and told him the nature of the circumstances, when that gentleman informed him that he had not been aware of this sickness. The schoolmaster was suffering from the same disease; it was a sort of sweating in the head, and the affected person was rather delirious during the night. The schoolmaster had only been able to attend school one half-day during the week, and very little the week before.—Mr A. WALTON: It seems to be that they are not used to absentees at Nenthead.

RURAL SANITARY AUTHORITY.

WATER SUPPLY.

The CLERK remarked that the Surveyor had prepared a plan at the request of the Committee of the sewers and also of the water pipes, which was now lying at his (Clerk's) office, and use could he made of it at any time.—The CHAIRMAN: You have had no more complaints about the water lately; is it getting all right?—The Surveyor: Yes; I think so. I have no complaint.—Mr Richardson: is that Committee which was appointed by the old Board to stand on as it has been standing on for a long time.—Mr M. A. WALTON: It would be a Provisional Committee at the time.—The CLERK remarked that before proceeding any further, he supposed that it would, be agreed that the Chairman and Vice-Chairman of the Board of Guardians were to be the Chairman and Vice-Chairman of that Sanitary Authority.—This was answered in the affirmative.—Mr DICKINSON, in reference to the water supply, said the water was all right now; the Committee were not there half an hour before they found out the remedy.—The CHAIRMAN remarked that the water lower down the street was not so good as the water at the Cross.—The CLERK said the Committee gave the Surveyor instructions to prepare a plan of the sewers and water pipes.— Mr A. WALTON remarked that he considered that this Committee was existing till this plan was considered.—The CLERK: If you were going into the water supply it would be better to appoint a Committee specially.—It was agreed to appoint a Committee but the matter was allowed to stand over till next meeting.

DR. CARSON'S REPORT.

Dr. Carson's (medical officer for No. 2 District) quarterly report, for the three ending 31st of March was read. Visits had been made to Nenthead and Garrigill, which were found in satisfactory sanitary condition. The death rate was very low—9 for the quarter, There had been a few mild cases of measles at Garrigill, but they had now disappeared.

INSPECTORS REPORT

The Inspector of Nuisances' book was examined, in which was a complaint made by Mr Isaac Vipond, Market Place, Alston, of water standing in his cellar which wanted removing.— Mr DICKINSON: Well, he will have to take his pump in and pump it out. (Laughter.)— The Inspector said he wished his landlord to draw it out; he desired to have a drain put in.—The CLERK: Well, let him get the

landlord to drain it; we have nothing to do with it; get the landlord to do it.—A letter was read from the medical officer (Dr. Gill) with reference to it. It stated that he had inspected the premises occupied by Mr Isaac Craig. There was a great need of a change, there being a pool of standing water in the cellar. It required repairs in a sanitary view. How that could be accomplished he left to the Sanitary Authority to decide.—The Inspector said he had seen the landlord that morning and he had promised to have the matter rectified.—The Inspector also reported that he visited Nenthead and Garrigill Districts. The manure heaps had all been removed, and it was all very satisfactory at present.

NENTHEAD

SUNDAY SCHOOL ANNIVERSARY.—The Wesleyans of Nenthead celebrated their Sunday School anniversary on Saturday and Sunday last. The morning of Saturday was clearly a May morning, and invigorating to the human frame. The morning was only a prelude to the after proceedings of the day. At one o'clock p.m. the scholars and teachers were to be seen wending their way to the Wesleyan Chapel, and by half-pest one they formed themselves into a procession and visited the principal places in the village, singing appropriate hymns and anthems. The procession terminated at the London Lead Company's School room, where the scholars were regaled with tea gratuitously, and the public at the small charge of sixpence each. At the close of the tea meeting a public meeting was held in the chapel, presided over by Mr Robert Bell, the superintendent of the school, who called upon Mr Joseph Vickers, the secretary, to read the report, which was as follows: Number of scholars on the class register—girls, 73; boys, 81; total, 154; average attendance, 119; number of teachers—females, 5; males, 27; total, 32; average attendance of teachers, 27; classification of scholars-13 Bible classes; 7 Testament classes; 6 reading book , classes; 27 alphabet scholars; 14 scholars meet in society classes. Literature circulated and distributed in the school monthly—" British Workman," 23: "Family Friend." 15; “Children's Friend," 24; "Band of Hope," 15; "Our Boys and Girls," 16. Financial statement—income, £18 6s 1½d: expenditure, £17 13s 4d; balance, 12s 9½d . The scholars were examined in scripture history and dialogues and acquitted themselves in a creditable manner. An address of a practical nature was given by the Rev T. J. Despres, of Allendale. The services were resumed on Sunday morning at half-past nine o'clock, the, scholars being examined in the Wesleyan Catechism. In the afternoon Mr Despres preached at two and in the evening again at six, both sermons demonstrating the well-merited reputation of the preacher. The singing was conducted by Mr George Angus, the organist of the chapel, for whom too much praise cannot he given for the patience and plodding shown in getting the choir into an efficient state. The singing might be considered really excellent. Collections were made at all the services except Sunday morning in aid of the Sunday School funds.

Marriages

At the Alston, Wesleyan Methodist Chapel, 24th ult. by the Rev. T. J. MacCartney, Mr George Millican to Miss Jane Dent.

In 1871, at Garrigill Gate, Robert Dent, schoolmaster, aged 47, born Haltwhistle, his wife, Jane aged 45, born Lambley, children Fanny 18, Jane 16, William R 14, Sarah E 4, Anne 1, and granddaughter Sophia J Dent 5.

15th May 1880 (Alston Herald and East Cumberland Advertiser)
Deaths
At Low Row, *(Haltwhistle district)* near Alston, 4th inst., aged 24, Lucy, second daughter of Walton Lee.

22nd May 1880 (Alston Herald and East Cumberland Advertiser)
ALSTON BOARD OF GUARDIANS
The regular meeting of this Board was held on Saturday, in the Board Room, at the Town Hall, the Rev O. James (chairman) presiding. The other members present were—Mr J. G. Millican, Mr H. Walton, Mr Isaac Walton, Mr Jonathan Carr, Mr J. T. French, Mr Thos. Dickinson, Mr Thos. Richardson, Mr Thos. Walton, Mr Adam Walton, Mr Wm. Lee, and Mr Robert Ward.—There was no business of any public interest to transact, the attention of the Board being principally taken up with applications for relief and charity.
SCHOOL ATTENDANCE COMMITTEE.—The monthly meeting of the School Attendance Committee was held at the conclusion of the Guardians' meeting, when the School Attendance Officer reported that the monthly average attendance at the different schools in the district was as follows:—

	No. on register	Weekly average attendance
Leadgate	49	39
Nenthall	51	39
Garrigill	96	75
National (Alston)	64	47
Infant (Alston)	88	78
High School (Alston)	230	174
Tynehead	45	35
Nenthead	207	162

—The Officer also reported that he had given notices to several parties whose children were irregular attenders at school, but as this mode of making them attend did not apparently answer, it was resolved to issue summonses against them.
Marriages
At Alston, St Augustine's Church, 18th inst., Mr John Geo. Kay, of Darlington, to Miss Isabella Little, of Alston.
Deaths
At Alston, 16th inst., aged 47, Tom Bowman, Sergeant Drill Instructor.

29th May 1880 (Alston Herald and East Cumberland Advertiser)

ALSTON

THE "CRANSTON" ROCK DRILL.—The Commissioners of Patents have granted a further renewal of seven years to Mr J. G. Cranston, of Newcastle-on-Tyne, for his invention of improvements in machinery, for drilling rock and cutting coal, on which patent the stamp duty, £100, has just been paid. The "Cranston" rock drill and air-compressing machinery is already well-known, and extensively employed in mines, quarries, and tunnels in various countries, and the rapid and economical work they are doing will, no doubt, ensure their being yet much more extensively used.

Deaths

At Rose Hill, Allenheads, 9th inst., aged 56, Matthew Lee, lead ore miner.

12th June 1880 (Hexham Herald)

Marriages

ALSTON
VOLUNTEER REVIEW AT CARLISLE.—The Alston Volunteers attended the review held at Carlisle on Friday, July 30th. It has been said that it was the largest ever held in the old city, although there were such downpours of rain during the day. The total strength of the Alston, 1st Cumberland, which were present is as follows: —4 officers, 5 sergeants (including drill instructor), 15 band, and 40 rank and file, making a total of 64. On their return Captain Dickinson complimented the men as to the highly efficient manner in which they had performed their duties that day. The men were not long in making for home after being dismissed, as they nearly all got a good drenching
NENTHEAD. In our obituary of this week, it is our painful duty to record two very sudden deaths. Mrs Frances Hetherington, relict of the late Geo. Hetherington, lead mining agent. On the 30th she had partaken of supper as usual, and then retired to bed. Finding herself very unwell, she informed her daughter and immediately afterwards took an apoplexy fit, from which she never recovered. Deceased was 62 years of age.—On the 1st inst., Mrs Margaret Cousin, wife of Mr Wm. Cousin, Wellgill, died suddenly, her illness continuing only three hours. Her parents, Mr and Mrs John Stephenson, and the other members of the family are located in the state of Texas, America. Deceased was only 32 years of age.
Deaths
At West Nenthead, 30th ult. aged 62, Mrs Frances Hetherington, relict of the late Mr George Hetherington lead mining agent.
In 1851, at Holmes Foot, Nenthead, George Hetherington, lead miner, aged 35, his wife Frances (Hornsby, married 24th June 1837, at Alston) aged 36, children, George 9, Sarah 7, Ann 4, and Robert 2. In 1861, at Town End, Middleton in Teesdale, George Hetherington, lead mine agent, 43, his wife

Frances 40, children Sarah 17, Ann 14, Robert 12, Mary 9, Frances 7, Tamer 5, their son who was visiting, George draper & grocer, aged 19.
George senior died at Teesdale 2nd quarter of 1861.
In 1871, at Nenthead, Frances Hetherington, widow, innkeeper, aged 53, children Robert lead miner, aged 22, Mary 19, Frances 17, and James 15.
In 1881, at Overwater, Nenthead, George Hetherington, draper & grocers assistant, aged 39, his wife Ann (Hodgson, married 1870, at Alston) aged 32, children George W. 10, Robert W. 6, Tom Lee 4, Martha A. 2 years, and niece Jane Hodgson, nurse & domestic servant, aged 14 years. In 1881, at Wardway Foot, Robert Hetherington lead miner aged 32, his wife Elizabeth (Trathen, married 1877, at Alston) aged 25, children, Elizabeth 1, and George 3 months.
See 5th May 1877, 3rd May 1879, and 25th November 1882
At Whitehall, Nenthead, 3rd inst, aged 64, Catherine, widow of Mr George Hutchinson, lead miner.
See 25th February 1843, 25th December 1867, and 31st December 1887.
At Wellgill, Nenthead, 1st inst. aged 32, Margaret wife of Mr William Cousin, lead miner. *She was about to be confined, but died very suddenly, her parents Mr John and Ann Stephenson, and all other members of the family are now located in the state of Texas, America.*

26th August 1880 (Northern Echo)
THE PUMPING APPARATUS which has been in the course of erection some time at the Crookburn, Dubby Syke, and Greenhurth Mines is nearly completed.

28th August 1880 (Alston Herald and East Cumberland Advertiser)
NENTHEAD
SUNDAY CENTENARY CELEBRATION.—The Nent valley has spoken out plainly what she thinks of Sunday Schools as an institution, and her appreciation of the founder of Sunday Schools by a demonstration on Saturday last, which has out-stripped everything in her local annals. In attempting to subscribe our humble tribute of respect to the benefit of Sunday School tuition, it will not be in flattering vain words, but mature profound respect for the gratuitous system of inculcating the principles and doctrines of Christianity in the youthful mind. The national attachment to the Sunday Schools has been developed in the amount of attention paid to the centenary year by the gatherings in city, town, country, and village. This national attitude towards the Sunday Schools will nerve and stimulate the humble Sunday School teacher, pregnate his holy ambition and

aspirations that he is not only working for time but for eternity. As soon as the idea had been conceived of holding a local centenary gathering, vigilant committee formed from the schools formulated the scheme, which was so auspiciously held on Saturday last, and terminated successfully The day was everything that could be desired, and the fears of a failure dismissed from the minds of the teachers, and by one o'clock the teachers and scholars were wending their way to their respective schools, and precisely at half-past one o'clock the schools all met beside the Wesleyan Chapel and formed in marching order, headed by the Nenthead Union Brass Band and their noble banner, whose leading motto is the "Good Samaritan." Each school had its banner, and these reflected great artistic credit upon our local amateurs who had got them up. The procession was imposing, about 526 teachers and scholars took part, wearing a centenary medal which had been supplied by a Sheffield firm. The first school in the procession was the Nentsbury Primitive Methodists, and we inferred from its banner it had been established in 1823. No. 3, the Nenthead Wesleyan School, and from its banner it had been established in 1860. No. 4 in the procession was the Nenthead Primitive Methodist School, which, like its neighbour, had been established in 1860. A little explanation is needed to the reader here. A Sunday School was held in Nenthead long before they assumed a devotional form, which was conducted by the London Lead Co., the schoolmaster being the superintendent; the company's officials and workmen formed the staff of teachers. A noble feature of the patrons of the school was on a male scholar arriving at the age of eighteen was presented with a handsome Bible, small pica type, 7s 6d each, and the female at sixteen years was presented with one of the ruby type at 3s 9d each; both subject to a Bible examination. The procession terminated in the field granted for the occasion by Pearson Walton, Esq., of Foulard. At three o'clock p.m. the scholars partook of tea gratis and afterwards the public for the charge of 6d per ticket; about 1,000 partook of tea. In the interval between the tea and public meeting, various games were indulged in—football, cricket, kissing rings, jolly miller, &c., all seeming to squeeze as much enjoyment out of the day as possible and made it a gala. At six o'clock a public meeting was held on the ground, the chair being occupied by Jonathan Walton, Esq., of Donk's Villa, who said he was glad to meet them on that occasion, and more especially so as the memorable occasion was the celebration of the Sunday School centenary, and was not likely that any now present would be privileged to celebrate the by-centenary of Sunday Schools. The first Sunday School he attended was the Nentsbury Wesleyan School, which was held in a mining shop at Haggs, prior to the erection of the Wesleyan Chapel at Nentsbury. Sunday School teaching in that day was very much different from what it was in this day. The spiritual and doctrine was more left to the itinerant and local ministry. The Chairman called upon Messrs T. W. Snowdon H. Dowson, J. Teasdale, and Thomas Pearson to address the meeting, each making an appropriate reference to the establishment of a centenary of Sunday Schools.—Votes of thanks was accorded to Mr Pearson Walton for the loan of the field, the waiters, band, and all who took part therein.—A collection was taken at the meeting to help to defray expenses—A confectionery stall was provided on the ground in connection with the movement.—The tables were spread, and a number partook of supper, and a sale of bread wound up the proceedings.—The income amounted to £19 13s 1d, including collection; the expenditure being. £22 3s 9d. The deficiency was

made up by a gift from Mr J. Walton, Donk's Villa.—The committee purpose giving a present to the lender of the ground in gift of a Bible, value £1.

4th September 1880 (Alston Herald and East Cumberland Advertiser)

FLOWER SHOW.

NENTHEAD.

The Nenthead Floral and Horticultural Society held their annual show on Friday, the 27th ult., in the Lead Company's school-room. The weather was unexceptionally fine and the number of visitors all that could be desired, showing a fair average compared with previous years. The general arrangements were under the management of Mr Wm. T. L. Shaw and Mr Anthony Bolton, and were in every respect satisfactory, the show altogether being highly creditable to the district. During the afternoon and evening the Nenthead Union Brass Band played selections of popular music to the enjoyment of those present. The judges, who, we might mention, considered the display of flowers superior to those hitherto exhibited, were Mr Greg (from Messrs. Little and Ballantye, Carlisle) and Mr D. Carruther, Stanwix Villa, Carlisle. …

6th September 1880 (Hexham Courant)

Marriages

At Nentsbury Primitive Methodist Chapel 30th ult., Mr Alfred Hornsby to Elizabeth Walton both of Nenthall.

SEVEN MEN IMPRISONED IN A LEAD MINE

Seven men have been imprisoned in a lead mine at Eyam, near Sheffield, since Wednesday night, in consequence of the mine being flooded by the heavy rains, were released yesterday morning. They escaped drowning by climbing into the higher parts of the mine.

18th September 1880 (Alston Herald and East Cumberland Advertiser)

ALSTON

The rainfall measured at Lovelady Shield, Alston, on Wednesday at 9 a.m., was registered at 1.81 inches for 24 hours. This is the heaviest known register in the district. Over 200 people availed themselves of the four days' excursion from Alston to Newcastle, Sunderland, and Tynemouth, last Friday, the 10th inst.

25th September 1880 (Hexham Courant)

Deaths

At Tallulah, Louisiana, 24th ult., aged 32, Joseph Dinning.

25th September 1880 (Alston Herald and East Cumberland Advertiser)

NENTHEAD.

The Nenthead Agricultural Society has been yearly increasing in popularity and importance until it has now taken a high standing as a local agricultural show. Certainly the exhibits on Saturday last excelled any previous show held under the society's auspices, both as regards quantity and quality; there were upwards of 180 entries, and the judges themselves expressed their surprise and stated it was far beyond their expectations. Although the weather was unfavourable, yet the attendance was very numerous, and at an early, hour numbers of visitors were seen coming in from all quarters. It is only five years since the first show was held in connection with this society, and was comprised of only one class, viz., hat of pigs; so that it is really surprising, and very creditable to the promoters, at the success which has attended it since that time. The arrangements were satisfactorily carried out under the management of the secretary, Mr Thomas Swindle, the treasurer, Mr Walton Holmes, and a general committee; amongst whom we might mention Mr James Atkinson and Mr J. Erwin, whom we are given to understand first proposed a Nenthead Cattle Show, and to whom many thanks are due for their energy displayed in bringing it to its present proportions. The Nenthead Brass hand was in attendance and played a

popular selection of music during the proceedings. The gentlemen who officiated as judges were:—Mr Walton Raine, Wanwoodside ; Mr Thomas Moore, Softley; Mr Ellerington, Coanwood; and Mr Stobbs, Allendale. …

2nd October 1880 (Alston Herald and East Cumberland Advertiser)
Deaths
At Croft House, Alston, 23rd ult., aged 58 years, William Akerigg (late of Kendal).
At High Galligill, 28th ult., Matthew Edward, son of Thomas Harrison, farmer.

9th October 1880 (Hexham Courant)
Deaths
At Alston, 1st inst., aged 54, Martha daughter of the late Joseph Watson, lead miner.
Joseph Watson married Mary Pearson 17th May 1810, Alston.
There is a record of a burial of Joseph Watson, aged 41, of Lee Houses, at Garrigill, dated 3rd April 1831.
In 1841, at Low Skides, Garrigill, Mary Watson, farmer, aged 45, children John, lead miner, aged 30, Nancy 25, Martha 15, and Thomas 10.

22nd October 1880 (London Gazette)

WHITEHALL, OCTOBER 19, 1880.

THE Queen has been pleased to grant unto John Wilson Walton, of Shotley Hall, in the parish of Shotley, in the county of Northumberland, Gentleman, eldest son of Thomas Walton, late of Albany House, in the parish of St. George, Camberwell, in the county of Surrey, Gentleman, by Maria, his wife, daughter of John Wilson, late of Shotley Hall aforesaid, Gentleman, and sister of Thomas Wilson, also late of Shotley Hall aforesaid, Esq., in the Commission of the Peace for the counties of Durham, Northumberland, and Cumberland, all deceased, Her Royal licence and authority that he and his issue may, in compliance with a clause contained in the last will and testament of his maternal uncle, the said Thomas Wilson, assume and use the surname of Wilson, in addition to and after that of Walton, and that he and they may bear the arms of Wilson quarterly with his and their own family arms; such arms being first duly exemplified according to the laws of arms, and recorded in the College of Arms, otherwise the said Royal licence and permission to be void and of none effect:

And to command that the said Royal concession and declaration be recorded in Her Majesty's said College of Arms.

23rd October 1880 (Hexham Courant)

Deaths

At Hill House, Tynehead, 19th inst. aged 92, Mary widow of Francis Philipson, lead miner.

In 1841, at Thorn Green, Allendale, Mary Philipson (Her husband Francis died 3rd quarter of 1840) aged 50, children Nicholas, lead ore miner, aged 30, George, lead ore miner, aged 20, John, lead ore miner, aged 20, Elizabeth 20, Henry, lead ore miner, aged 15, Ann 14, and Edward 11.

In 1851, at Shield Bank, Allendale, Mary Philipson, widow, farming 60 acres, aged 62, children John, lead ore miner, aged 32, Ann 23, Edward 21, Francis 39, Margaret 11, William 10, Margaret 8, and sister, Jane Dixon, widow, aged 66.

Deaths

At Overwater, 27th inst. aged 1 year, Phoebe Hannah Archer.

23rd October 1880 (Alston Herald and East Cumberland Advertiser)

GARRIGILL.

SUNDAY SCHOOL CENTENARY CELEBRATION.—Never in the measure of duration was there such a gathering of Sunday School teachers and scholars in Garrigill, as was collected together on Saturday last, being the centennial celebration of different schools in the neighbourhood. At four o'clock the scholars belonging to the Primitive Methodists, Ashgill, Wesleyan Methodists, Tynehead, Primitive Methodists, Garrigill, and the Wesleyan Methodists, Garrigill, met at the Wesleyan Chapel, each scholar being presented with a medal by their respective teachers and managers, the medals bearing the following inscription Sunday School Centenary, Garrigill,—each school taking its own name on the medal. Beneath the inscription is a portrait of Robert Raikes, founder of Sunday Schools. After the distribution, the scholars formed a procession and marched into the centre of the village, accompanied by their teachers, and a number of local musicians, where they sang a number of delightful pieces, prepared for the day. The weather being gloriously fine a very large number of people made their way into the village to view the procession, which numbered about 400 teachers and scholars, the scholars belonging to the Primitive Methodists Garrigill, being the first in the procession, the Wesleyan scholars, Garrigill, second, Ashgill, Primitives, third, and Tynehead, Wesleyans fourth. Having sung a number of pieces on the village green, the scholars were again formed into processional order, and marched to The Primitive Chapel, where a public meeting was held, the chair being ably occupied by Mr Jahn Pickering, superintendent of the Wesleyan school, Garrigill. Able addresses were also given by the Rev B. Wild, Alston; Rev W. Shavelton, Alston; and Mr W. Craig, formerly of Garrigill. Attached to Primitive chapel pulpit was a large engraving of Robert Radices, enclosed in a massive gilt frame, giving it a most magnificent appearance. After the usual vote of thanks had been given to the speakers, chairman, and singers, the doxology was sung, and the meeting brought to a conclusion.—A collection was taken at the close of the meeting in aid of defraying the expenses.

Deaths

At Browngill, 17th inst., aged 58, Ann, wife of John Yeats, yeoman.
At Hill House, Tynehead, 19th inst. aged 92, Mary widow of Francis Philipson, lead miner.

In 1841, at Thorn Green, Allendale, Mary Philipson (Her husband Francis died 3rd quarter of 1840) aged 50, children Nicholas, lead ore miner, aged 30, George, lead ore miner, aged 20, John, lead ore miner, aged 20, Elizabeth 20, Henry, lead ore miner, aged 15, Ann 14, and Edward 11.
In 1851, at Shield Bank, Allendale, Mary Philipson, widow, farming 60 acres, aged 62, children John, lead ore miner, aged 32, Ann 23, Edward 21, Francis 39, Margaret 11, William 10, Margaret 8, and sister, Jane Dixon, widow, aged 66.
In 1861, at White Rigg, Allendale, John Philipson, single, tile manufacturer, aged 42, his mother Mary, widow, aged 73, niece Mary E Philipson 13, niece Sarah A Philipson 11, nephew William H Philipson 8, and house servant Sarah Martin 17.
In 1871, at Pasture House, Garrigill, Elizabeth Millican (Philipson, married 10th May 1848, at Ninebanks), widow (Husband Wallace, farmer, died 2nd quarter of 1866, aged 42), farmer of 44 acres and landowner, aged 50, children Francis, lead ore miner, aged 20, James, lead ore miner, aged 18, Joe, lead ore miner, aged 15, Leah 13, Albert 11, Jesse 7, Philipson 5, and lodger Mary Philipson, widow, annuitant, aged 83.
See 23rd August 1890

6th November 1880 (Alston Herald and East Cumberland Advertiser)

ALSTON BOARD OF GUARDIANS

The School Attendance Officer (Mr N. Walton) stated he had visited the various schools in the district and reported as follows:—Number of scholars on Tynehead register 46, average attendance 32; Garrigill register 94, average attendance 76; Leadgate register 46, average attendance 37; Nenthall register 62, average attendance 52; High School, Alston, register 219; average attendance 161; National School register 60, average attendance 50; Infant School 100, average attendance 75.
Nenthead school had been closed three weeks on account of the prevalence of measles; and Nenthall two days owing to the severe weather. 16 notices and five summonses had been served upon parents for the continued irregular attendance of their children.
Mr French I don't know that it is imperative to serve notices to all. The Clerk: The attendances at schools in Alston are decidedly worse than they are in the country. Three cases of relief were disposed of according to their merits.
There was no more business of a public character.

ALSTON.

SNOW STORM.—A snow storm of great violence was experienced on Wednesday and Thursday week, accompanied with a strong north-east wind. Considerable damage was done to telegraph wires in this neighbourhood, communication by which was entirely interrupted for some time. By the force of the wind together with the weight of snow, many trees were nearly stripped of their branches some broken down, while others were uprooted. Great anxiety was occasioned to flock-masters as to the safety of their flocks. Many sheep have been dug out of the drift alive; in some cases they were entombed six feet deep, while others which remained buried have been drowned by the sudden thaw which set in on Friday afternoon, and serious loss has been the result. Traffic was entirely suspended on most of the fell roads, the consequence was, only one cart of potatoes found its way to market on Saturday; it is needless to

say they were quickly bought up. Gangs of workmen were busily engaged on Friday and Saturday clearing the roads. A cart laden with dynamite from the Hebburn Manufactory on its way to the Nenthead lead mines, stuck fast on the Whitfield road on Friday, the driver having to come to Alston for assistance. Some of our oldest inhabitants say they never remember so much snow fall in so short a time, and more remarkable is it for its early appearance.— The weather is now very fine with a keen frost.

Marriages

At Alston Primitive Methodist Chapel, 28th ult. Mr Edward Little, Alston, to Mary Davidson, High Skelgill.

In 1881, at Front Street, Alston, Edward Little, widow (his wife Isabella died 25th January 1870, aged 61), farmer of 23 acres, aged 74, married son Edward Little, grocer, aged 38, sons wife Mary 30, and granddaughter Isabella Little, 1 month.

Edward Little snr., draper & grocer, died 7th August 1884, aged 77.

In 1891, at Diana Street, Westgate, Newcastle, Edward Little, coal merchant, aged 48, his wife Mary 40, children Isabella 10, Sarah 8, and William 6. In 1901, at Oak St. Benwell, Edward Little, general labourer, aged 57, his wife Mary 45, and daughter Sarah, dressmaker machinist, aged 18.

Edward Little died 13th April 1901, aged 57, interred at Benwell.

In 1911, at Corby Gates, Alston, Jane Davidson, single, housekeeper, aged 67, brother Joseph, single, farmer, aged 64, brother John, single, farmer, aged 56, sister Mary Little, widow, washer woman, aged 60, sisters daughter Isabella Little, domestic servant, aged 30.

At Nentsbury, Primitive Methodist Chapel, 30th ult., Alfred Hornsby, to Elizabeth Walton, both of Nenthall.

In 1891, 83 Mariah Street, Gateshead, Alfred Hornsby, cartman, aged 31, born Alston, and his wife Elizabeth aged 32, born Alston, children, Mary L 8, Alfred W 5, and boarders, George Kindred, railway checker, aged 25, born Alston, & Thomas Kindred, Policeman, aged 23, born Alston.

Deaths

At Alston, Workhouse, 26th ult., aged 80, Mary Dobson.

20th November 1880 (Hexham Herald)

STANHOPE

FATAL QUARRY ACCIDENT

On Tuesday, George Watson of Brokenway, near St John's Chapel died from the effects of injuries received on the previous Wednesday at the Parson Byers Limestone Quarry, when he was crushed by a fall of earth. He was 45 years of age and leaves a wife and family.

In 1871, at Brokenway, St John's, George Watson, lead miner and farmer of 9 acres, aged 31, his wife Frances (Philipson, married 1865, at Weardale) aged 28, children William 3, Mary H. 2, and George 5 months.

In 1881, at Brokenway, St John's, Frances Watson, widow, aged 38, children William 13, Mary H. 12, George 10, John 8, and Joseph R. 4.

Frances died in 1889, aged 46.

Mary Hannah Watson died at Weardale in 1883, aged 14 years.

In 1891, John aged 18, and Joseph, aged 14, are living at Frog Hall, St John's Chapel, John is a pupil teacher and Joseph a grocers apprentice. George is working as a domestic servant at Prise, St John's Chapel, William is working

as a Railway porter, lodging with Garthwaite Hornsby (born Nenthead) and his family at Gateshead.

27th November 1880 (Hexham Courant)
Deaths
At Middleton House, Middleton in Teesdale, 19th inst., aged 70, Jane the wife of R W Bainbridge. *See 15th September 1888.*
At Darkdale, near Alston, 1st inst. aged 58, William Kindred.
In 1871, at Ratten Row, Knaresdale, William Kindred, farmer of 44 acres, wife Elizabeth aged 39, children, John 15, Jane Ann 12, and Mary 6.
At Coal Pits, near Allendale, 15th inst., aged 74, Jane Varty, widow of the late Tingate Varty. *See 3rd March 1873*

4th December 1880 (The Times)
THOMAS WILSON deceased—Pursuant to the Statute 22 and 23 Victoria Cap 35 intituled " An Act, to further amend the Law of property and to relieve Trustees" Notice is hereby given that all CREDITORS and other persona havening any debts claims or demands against the Estate of THOMAS WILSON, late of Shotley Hall in the County of Northumberland Esquire deceased (who died on the 22nd day of April; 1180 and whose will with two codicils thereto was presented by Thomas Wilson Esquire and the Reverend Thomas Isaac Walton the Executors thereof in the Newcastle on Tyne District Registry of the Probate Division of the High Court of Justice on the 26th day of August 1880) are hereby required to send particulars in writing of their debts claims or demands to me the undersigned the Solicitor to the said executors on or before the 31st day of December 1880 after which day the said Executors will proceed to distribute the assets of the said Testator among the parties entitled thereto having regard only to the debts claims or demands of which they shall then have had notice, and that they will not be liable for the assets or any part thereof so distributed to any person or persons of whose debt claim or demand they shall not then have had Notice Dated this twenty seventh day of November 1880.
JOHN WILLIAMSON BROWN; Percy Chambers, 29 Grainger Street West, Newcastle upon Tyne, Solicitor for the said executors.

4th December 1880 (Alston Herald and East Cumberland Advertiser)
ALSTON
THE WEATHER.—A severe storm of wind and rain was experienced here on Sunday last and during the week the weather has been extremely boisterous.
A fire, which might have proved disastrous, considering the heavy wind that was blowing at the time, occurred on Sunday evening lust, on the premises belonging to Mr George Thompson, chemist, Market Place. It appears that a beam in the chimney, immediately above the fireplace in the kitchen, ignited, and had it not been for the promptitude of the family in securing a few buckets of water, it might have reached serious dimensions.
ALSTON SKATING CLUB.—The Committee of this Society held their second meeting on Tuesday evening, and reported favourable progress, the trial to flood the field belonging to Mr William Hymers, Golden Lion Hotel, being a great success. The Committee, composed of the following gentlemen, are now open to sell tickets for the season 1880 and 1881:—Mr Lawrence James, hon.

treasurer; Mr James Akerigg, hon. secretary; Messrs Jacob Walton; Joseph R. Walton; H. L. Dickinson; Steward Carson, junr.; H. S. Dryden; Edmund Crawhall; F. B. Sheppard (Alston Herald Office); Maughan; Charles Millican; John Dawson, grocer; and Cranston, grocer. Season tickets, 2s 6d each; evening tickets, 1s 6d each; daily tickets, 3d.

Marriages

At Alston, Independent Chapel, 2nd inst., by the Rev. Wm. Farries, Mr William Craig, to Miss Sarah Routledge, both of Flatt.

In 1881, at Hermitage, Garrigill, William Craig, lead miner (out of employment), aged 26, his wife Sarah 23, children, Walton Routledge 2, and Joseph Craig, 1 month.

In 1891, at Acomb Terrace, West Acombe, William Craig, lead miner, aged 36, his wife Sarah 38, children, Joseph 10, Robert W 8, Thomas 5, John 1 month, and sister in law, Hannah Routledge 22.

Deaths

Langley Hill Top, 20th ult., in her 67th year Mary relict of the late W. H. Bright of Allenheads.

See 19th October 1864, 12th June 1867, and 24th July 1886

11th December 1880 (Hexham Courant)

ALLENDALE

A CHILD SUFFOCATED.

On Wednesday last, Hannah Jane Pearson, daughter of James Pearson, lead miner, Guide Post, Allendale, was suffocated under very painful circumstances. She was about 9 weeks old, and the mother it appears started from the Guide Post on the day named between 3 and 4 o'clock in the afternoon, taking the baby with her. To protect the child from the wind and the cold, she wrapped her shawl and the skirt of her gown round about it and when she got to the house at Pease Meadows she found the child was dead. Mr R. Y. Green, deputy coroner, held an inquest at Pease Meadows yesterday, when the jury returned a verdict to the effect that the child had been accidently suffocated.

11th December 1880 (Alston Herald and East Cumberland Advertiser)

ALSTON PETTY SESSIONS.

FRIDAY, 3RD DECEMBER.

(Before Rev. O. JAMES (chairman), and Thos. W. CRAWHALL WILSON, Esq.) **DRUNK AND DISORDERLY AT ALSTON.**

William Featherstone was charged with being drunk and guilty of riotous behaviour in the Front Street, Alston, on the night of the 13th November last. P.C. Byrnes said that about half-past five he found defendant drunk and making a disturbance in Front Street, and requested him to go away, which he did, but at half past eleven the same night he found him still drunk and wanting to fight. In answer to the charge the defendant admitted the offence.—The Chairman cautioned him against such conduct in future, and in answer to a question put to Sergt. Calvert as to defendant's previous character took a lenient view of the case.—Fined 5s and costs.

John Redshaw, who did not appear, was also charged with being drunk and disorderly. Sergt. Calvert proved the case, and stated that he had seen the defendant since, who acknowledged offence, and hoped the magistrates would

deal as leniently with him as possible.—Fined 5s and costs, or in default seven days.

Wm. Hall and Nicholas Spottiswood were charged by P.C. Byrnes with fighting and refusing to quit licensed premises, to wit, that at twenty minutes past eight on the night of the 13th November, he (P.C. Byrnes) at the request of a son of Mr Jonathan Walton, proprietor of the Blue Bell Hotel, went down and found both defendants under the influence of drink and fighting, they at first refused to go out, but after sitting some time consented.—Fined 10s each and costs.

NEGLECTING TO SEND CHILDREN TO SCHOOL.

Elizabeth Woodmass, William Armstrong, William Thompson, Hannah Lee, and Jane Coates, were all charged on remand with neglecting to send their children to school. The School Attendance Officer said that since the last magistrates' meeting the attendance at school had been better in every case with the exception of Hannah Lee's child, who had not been at school since. She (Lee) was fined 5s., or in default seven days in prison.—The Bench, considering the other cases satisfactory, dismissed them. Robert Holmes. John Walton Armstrong, Edward Wallace, and Obediah Clarkson, boys, were all charged with sliding and causing an obstruction on the footway at Alston. Sergt. Calvert and P.C. Byrnes proved the cases. The Bench dismissed all with a caution, except John Walton Armstrong, who did not appear. The magistrates therefore issued a warrant for his apprehension. Two tramps were charged with begging on Thursday last, but promising to leave the town they were discharged.

NENTHEAD.

BAZAAR AND MUSICAL FETE.—The Primitive Methodists of Nenthead held a bazaar for the sale of useful and fancy articles on Saturday, in the Lead Company's School Room. The members and friends met in the Chapel at one o'clock, and processioned to the school room, headed by the Weardale Brass Band, conducted by Mr W. English. Mr Thos. Golightly, of Sunderland, opened the bazaar, after which business commenced immediately. The stalls were well laden with goods, which was very creditable them, considering the short time the ladies had on hand for collecting them together. The stalls were efficiently presided over as follows:—No. 1, Mrs Walton, Mrs Doyle, Miss Wilkinson; No. 2, Miss Dalton, Miss Thompson; No. 3, Mrs Robson, Miss Hudspith, Miss A. Cowing; No. 4, Miss S. Pattinson, Miss Robinson; No. 6, Mrs Raisbeck, Miss Hill, Miss Lattimer; the hardware stall by Mr Thos. Harrison and Mr Tim. Armstrong. As usual in connection with bazaars, the physical wants of humanity were well provided for, and to all appearance a good stroke of business was done in this line, more especially in the evening, as the ladies were kept going who presided over this department, namely, Mrs Armstrong, Mrs Stephenson, Mrs Hall, Mrs Walton, Mrs Bell, Mrs Sparke, and Miss Rutherford; carvers and bread-cutters, Messrs John Hall, Wm. Pattinson, C. Carrick, and Wm. Rutherford. The confectionery stall had supreme attraction for the children and young visitors, who were promptly attended to by Messrs Havelock and Wilkinson. Not only was the varied wants of humanity attended to, but likewise provision was made to gratify the sense of hearing in the sweet strains of music, both the Weardale Brass Band and the choir of the Primitive chapel being in attendance, and performing an excellent programme of music. Great credit is due to Messrs English and Raisbeck for their efficient services.

5th January 1881 (Teesdale Mercury)

LEAD MINING IN 1880.

To the animation that has increasingly characterised the mining industries during the year 1880, the lead mining trade has been an exception. At the beginning of the year the price of pig lead was rising rapidly, and the prospects in most or the lead mining centres were improving. But the maximum price was soon attained in February, when the quotation was £19 10s. per ton, and from that time to June there was a continuous and rapid descent in the price of lead, that month giving the minimum price of the year—£13 15s per ton. Since then the reaction has been slight, and the year closes with English pig lead at from £15 to £15 6s. per ton, with an addition of about 7s. 6d. per ton for special brands. Under these circumstances it is not to be wondered at that the course of the lead ore trade has been dull, and that the amount of labour employed in one of the northern deles is rather limited. An effort it being made in several quarters to secure a reduction of the royalties that are paid, and if this is successful, it is probable that in the Teesdale district mining will be prosecuted much more actively. As some of the Weardale mines have been working, and as most of these were closed in 1879, it is expected that the output of the present year for the North of England will exceed that of the past, but it ii believed that it will not be an average yield. Until the tardy publication of the official returns—towards the close of 1881—it is impossible to state the exact output of 1880.

7th January 1881(Newcastle Courant)

A NIGHT IN THE SNOW ON THE WEARDALE MOUNTAINS A NARROW ESCAPE.

The snow storm in Weardale brings to remembrance those old-fashioned winters which are associated with stories of numberless sheep being overblown and of persona being lost on the mountains, more particularly as the great snowy storm on the evening of Wednesday last will mark the time when two men and four horses passed the night on the mountain pass between Allenheads and Cowshill. Snow, fell on Wednesday last almost incessantly, and the storm continued bitterly through the night, the wind whirling the snow into massive ridges, underneath which numberless sheep were buried. At about six o'clock in the evening two cartmen each with two horses left Allenheads on their way over the fell to Cowshill, and thence home to Earnwell. After they had proceeded to the top of the pass, the blinding snow rendered it impossible to proceed further with the carts, and the horses were un- yoked, and an attempt was made to continue the journey with the horses. The night was now far gone, and there stood the two men and four horses surrounded by a dreary, trackless moor, which presented an endless sea of blinding I snow on every side. The party, however, made an effort to proceed onwards, but after a considerable struggle, and having lost the road, they gave up the idea of thus reaching a place of safety. Mr John Watson, one of the men, a strong hale young man, son of Mr Wm Watson of Earnwell, now gave his overcoat to his partner, Mr Richard Slater, whom he left with the four horses, and started alone to find his way to Cowshill for help. Watson had a heavy struggle, and knew little as to the direction he was taking. For some half mile, he crept on hands and knees on the top of a stone fence, and after several hours' plodding in the snow, with little progress, he reached Mr Richard Bright's inn at Cowshill at five o'clock in the

morning. Mr Bright promptly attended to the wants of the exhausted traveller, and such was his exhausted condition he is said to have reached the inn on his hands and knees. None but a strong, hale man could have withstood the many hours of exposure and exertion. A search party of miners and others was soon in readiness, and proceeded at once, and found Slater and the horses a considerable distance from the road on the Weardale side of the hill, over which they had crossed, Slater was found with the horses, which he held by their head; standing round him, and was in an exhausted condition. Twice he had been about to fall asleep, and he has not yet quite recovered from the effects of the exposure. It was nearly nine o'clock before he was got to Mr Bright's inn, where he was duly attended to. That the two, men ultimately reached home safe is a happy sequel to the adventure of a night in the snow on a Weardale mountain.

8th January 1881 (Hexham Courant)

LETTER FROM A WEARDALE MINER IN NEW ZEALAND

The following letter has been received by Mr Joseph Coats of Allendale from one of the miners who left Weardale in October, 1879, for New Zealand.

Riccerton Oct. 14th, 1880

Mr Coats

Dear Sir, Before leaving home I promised to write to you. A year having past away since that, I think the time somewhat opportune for that purpose. It was on the 14th Oct., 1879 that we left Weardale for New Zealand. Our journey to London was a pleasant one, after riding in the train about ten hours we arrived safely in that great city. Many of our Weardale friends were very curious about the subterranean railways and the electric lights, for they had never seen anything of the kind before. We only stayed one day and one night in London, so we had not much time to view the wonders of the world's metropolis.

We went on board our ship at ten o'clock the night after we arrived at port. At midnight we left the dock and were towed down to Gravesend; here we stayed all day and a few more came on board. The steamboat left us and the pilot came on board. At night we set sail.

For the next ten days we were tossed about the English Channel with very heavy seas, and were all very sick; some of us not tasting food for three days. On the 27th October the weather began to clear up, and the sea became more peaceful and calm. On the following Sabbath we were able to hold divine service. We had no minister on board but we had five Methodist lay preachers who willingly and ably supplied a minister's place, and preached alternately every Sunday during the voyage. On Nov., 4th we came in sight of the Canary Islands; a head wind sprang up and we were detained two days. On Nov., 6th it became very stormy, the sea ran the highest we had ever seen it. It broke over the decks and did considerable damage: one of our boats was lifted out of its place and

broken to pieces. The sails were much torn, and the first mate received a bad cut on the forehead while endeavouring to draw them in. On Nov., 8th the weather again cleared up,

and we had a concert on deck, which went off very well. This we continued every

Saturday afternoon, which greatly relieved the monotony of the voyage. Nov., 9th we entered the tropics. On the 20th we crossed the equator. It was rather

hot while passing through the tropics, but we put off our underclothing, and our stocking, and none of us took any harm. While in the tropics we were entertained and amused every day by seeing large flocks of flying fish about our ship. We also saw the Nautilus scudding along among the rippling waves. As we approached the Cape of Good Hope the weather became more cool: when reaching the Cape it was so cold that we could not go on deck without wrapping ourselves in our big coats. On Dec., 8th we sighted Tustanda Cunah Island (*sic*). When we came in sight of it the passengers all rushed on deck to see land, a thing which we had not seen for some weeks. All were very curious about it. Some said it was the Cape of Good Hope; others said it was Australia, while others declared it was New Zealand.

Between the Cape and New Zealand we derived much sport from catching birds with lines, which are very numerous; some of these birds are very large. The Albatross, four or five of which we caught: some of them measured fourteen feet from wing end to wing end. We were also delighted by seeing a few Whales and many large herds of porpoise, which often went alongside the vessel for many miles, sometimes leaping many feet above the water. On Jan., 8th we encountered another heavy storm, during which we shipped large quantities of water. In this storm the Captain's dog was washed from off the poop and lost.

On Jan., 9th we could see in the far distance the land for which we were bound. It was very indistinct, and many concluded that it was only a cloud, but on the following morning (Sunday) we fully realised what we had faintly seen on the previous day. As we stood on the deck we could distinctly see the coast spreading itself out before us, some twenty miles in the distance. It was one of the finest and most lovely mornings we have ever seen, there was not a ripple on the waves, the sun was shining brilliantly yet not oppressively; all were anxious to arrive. At two o'clock the pilot came on board, the steamboat was signalled for but did not come out to meet us until it was dark in the evening. Our Captain then refused to enter the harbour, which is rather a dangerous one until daylight next morning. At break of day we entered the port. It was a fine morning, and all were on deck by half past three o'clock. The scenery around the bay at Port Chalmers is beautiful and picturesque; & everywhere you may see rugged cones and towering peaks covered with trees and scrub, which renders it profoundly grand to the spectator. We came by train from Port Chalmers to Dunedin, which is nine miles. The line is a very poor one compared with the home lines, and the route one of a very serpentine character. We stayed at Dunedin about a fortnight, one week of which I worked on the railroad for which I received seven shillings a day. Dunedin is a very clean and pleasant town, beautifully situated on sloping ground, sloping down to the bay. The houses are fine specimens of buildings, the streets are uniform and well arranged. Almost every denomination of the church is fairly represented in Dunedin, and have built beautiful churches on the choicest sites. The Wesleyan Methodists held their annual conference in Dunedin the week after we arrived. I had the pleasure of hearing a few of their most able preachers preach, which to me was a treat. The harvest commenced about the 1st February, three weeks after we arrived; I went up the country to harvest; almost all our Weardale friends who came out with us did the same. We harvested about two months and were paid the sum of tenpence

halfpenny an hour. During the last six or seven months I have worked at a number of different jobs, road making, railroad making, cutting water races, and at present am engaged in sinking a shaft for a coal pit. I have never been more than two or three days together out of work since I came to the colony, and when working for wages I have never been paid with less than seven and never more than ten shillings a day. Eight hours a day is the regular shift throughout New Zealand.

Now, as to how we like the colony, I can assure you that we like it much better than Weardale. We like it better because it is a finer climate. I never saw so much fine weather in a summer in the North of England as I have seen this winter in this colony. I have seen men living comfortably in calico tents all winter. We like it because we are better remunerated for our labour. There is not that worry and struggle here for existence that there is at home. If you cannot get rich you can pay every man his own, and live comfortably. We like it better because we are better fed. The poor here can affords steaks or chops every day, things which are quite out of date in Weardale, excepting among a few of the more opulent. It is true that the government of this colony have committed some fearful blunders, and have run the country into a great amount of debt, so that times are not near so good as they were four or five years ago: but still the operative class is infinitely better off here than they are in most places in the North of England.

Now just a few words about the country before I close my letter. I hardly need say that New Zealand throughout the length and breadth of it is a very mountainous country: so that in general it is better adapted for grazing purposes than for tillage, yet a great amount of land has been tilled and there are still hundreds of thousands of acres which may yet be made to bear grain: but having had no experience in producing grain, we would not venture one word of remark. The experience we have had has been in the shape of grazing farming, and the middle part of Otago, where we have been for the last nine months (which is very hilly) is eminently fitted for sheep and cattle farming. The staple production of the colony is wool, which has always found a market in England, and which can be shipped there for one penny a pound. Good returns also may be got by cattle

which run out all the year round. Butter and cheese are about the same price as they are at home; but cows are not more than one third of the value that they are in the old country.

You can buy a good cow for £6 and one of the best for £8. Now just let me add that there are plenty of farms in New Zealand which may be taken for very reasonable nay even moderate rents, and if there is not so much land for sale by the government as there formerly was, there is still plenty of improved land for sale by private parties, which may be bought at quite a low figure, and will save purchasers a lot of rough hard work which they would otherwise have to do.

Then who are suitable persons to come to New Zealand? None but those who like work. The colony is of American industry, and is in every way more of the American type than of the English, and if you are a farmer you may be sure you will have an assiduous hard worker for a neighbour, and if you are to compete with him you will have to be out of bed in the morning before you get your breakfast. No one should come to the colony who is of a delicate

constitution, unless he has got other means to live upon than his own hard labour.
Hard, strong, robust men are the men which the employers of this colony look after, so that when you go to look for work, if you are rather thin, you will fare no worse if you have half a dozen shirts on your back and a couple of pair of trousers. Those who are well off at home should not come here lest they fare worse. Clerks and those who have worked in pin and needle factories need not come, for there is already a superabundance of clerks, and as to pins and needles there is none manufactured in the colony.
Anyone may come to the colony, and will do well, who can turn his hand almost to any and every job, but to come out here with the knowledge of one single trade is dangerous speculation in the extreme.
Now let me just mention a few things which intending emigrants should bring with them. If you are not married bring as little with you as possible: a portmanteau or small box will be quite sufficient to hold all you need bring: but if you are married and intend settling in the colony you need not fear bringing a few things with you. You will not sell your little things for much at home, and it will only cost you a trifle to bring them with you, and in setting up house here and having every little thing to buy you will find it very dear. Bring one box of provisions for the voyage, and place it in your berth where you can get at it at any time.
Put in this box one bacon ham, two or three dozen of herring, a good number of eggs, a tin or two of biscuits, some butter, cheese, jam, and some baking powder, and any other thing you may have a fancy for. Bring a camp stool with you; three months is a long time to be on the water, and it will be useful also when you arrive. Also bring all your wit and a good stock of shrewdness: you will need some of them on board. You need not bring your grammar, but be sure to bring your logic. Bring frugality and temperance, self reliance, and perseverance; also a good quantity of common sense and industry. Pack all these where you can get at them at any time, and come away at once, and you are sure to
succeed well in this country.
I am, &c., PLAIN TRUTH

8th January 1881 (Hexham Courant)

PRESENTATION TO MR ROBERT LEE

On New Year's Day, the friends and admirers of Mr Robert Lee, late of the Hope, Allendale, met at the King's Head Inn, Allendale Town, to present him with a gold stop watch, value thirty guineas, and Mrs Lee with a diamond ring value five guineas, the occasion being their leaving England for New Zealand, the presents being intended as a souvenir of the many kind friends they left behind them. …

The 1861 census shows, at Lands End West, Haydon, George Lee farmer of 1000 acres employing 8 labourers, aged 49, his wife Mary 42, children George G 14, Matthew 14, Robert 11, Sarah 9, Joseph 7, and Mary 5.
George Lee senior died 19th March 1868, leaving an estate valued at £6000.
The 1871 census shows, at Hope, Allendale, Robert Lee, farmer of 348 acres employing 7 men and 1 boy, aged 21, his mother Mary aged 52, an annuitant, sisters Sarah 19, and Mary 15.
See 8th January 1912

15th January 1881 (Hexham Courant)
At Low Bayles, 6th inst. aged 83, Sarah, widow of William Goodfellow, lead miner.
In 1841, at West Nenthead, William Goodfellow, lead miner, aged 35, wife Sarah (Price, married 7th June 1829, Alston) aged 40, children Thomas, lead miner, aged 11, Nancy 9, John 6, Mary Ann 4, and William 2.
In 1851, at Overwater, Nenthead, William Goodfellow, lead miner, aged 48, wife Sarah 54, children Thomas, lead miner, aged 21, Nancy 19, John, lead ore washer, aged 16, Mary Ann 14, and William 13.
In 1861, at Leadgate, Alston, William Goodfellow, lead miner, aged 56, wife Sarah 64, children John, lead miner, aged 26, Mary Ann 24, William, lead miner, aged 23, granddaughter Mary Armstrong 9, and grandson Thomas Goodfellow 4. William Goodfellow, died 1st quarter of 1864
In 1871, at Leadgate, John Goodfellow, lead miner & farmer of 6 acres, aged 36, wife Ann 26, daughter Elizabeth Sarah 5, mother Sarah Goodfellow, widow, aged 75, and nephew Thomas Goodfellow, lead ore washer, aged 14.
At Dykeheads, 5th inst., aged 84, Mary, widow of James Armstrong, lead miner.
In 1841, at Wellgill, Dykeheads, Nenthead, James Armstrong, lead miner, aged 45, his wife Mary (Thompson, married 24th June 1820) aged 45, children Mary 15, Elizabeth 15, Christopher 12, and Hannah 7.
In 1851, at Wellgill, Dykeheads, James Armstrong lead miner, aged 58, his wife Mary 52, children Elizabeth 24, Christopher lead miner, aged 21, Hannah 10, and Jane 7. James Armstrong died in 1860.
In 1861, at High Dyke Heads, Mary Armstrong, lead miners widow, aged 65, and granddaughter, Jane Ann aged 1 year. In 1871, at Dyke Heads, Mary Armstrong, widow, aged 74, nieces Jane Ann 11, and Mary 9.

NENTHEAD

CHARITIES

The Nenthead coal committee has again presented twenty four cartloads of coal for distribution amongst the poor of Nenthead to alleviate them from the pinching hard weather.

15th February 1881 (Hexham Herald)

WEARDALE

Mrs Race widow of the late Rev J. Race, Wesleyan Minister in China, arrived in St John's Chapel, her native town on the 22nd ultimo. The youthful widow and 3 children were accompanied by a Chinese nurse to London, where she was met by her father, Mr Jos. Dawson and one of her sisters. …

The 1881 census tells us that Hannah was living with her parents, her children: Florence A, aged 4; Russell T, aged 2; and Joseph D, aged 6 months, all born at Hankon B S, China. Hannah remarried in 1893 to the Rev. Thomas H. Penrith, Wesleyan Minister, in 1901 she was living at High Wycombe, Buckinghamshire, with her husband and son Russell. Joseph was a bank clerk living in West Hartlepool, Florence was at the time of the census staying with her Aunt Phoebe & Uncle Albert Woolley a Wesleyan Minister at Kilham, Yorkshire.

Deaths

Alston, Alston House, 31st ult., in her 20th year, Fanny Maud E. Crawhall, eldest surviving daughter of Thos. W. Crawhall Wilson Esq. of Alston House.

12th February 1881 (Hexham Herald)

WEST ALLEN

FATAL ACCIDENT:—An accident occurred in the lead mine at Coalcleugh, West Allen, on Tuesday 25th ult., by which a man named Christopher Walton, a miner was instantaneously killed. It seems that the unfortunate man was ramming home a charge of powder, which exploded and blew his brains out.

In 1841, at High West Allen, Allendale, Isaac Smith, lead miner, aged 40, his wife Elizabeth 40, children Jane 15, Mary 10, Sarah 8, and Hannah 6.

In 1851, at Wellhope, Allendale, Edward Armstrong, unmarried, lead miner, aged 40, sister Elizebeth Smith, widow, housekeeper, aged 49, nephews, Joseph Smith, lead miner, aged 28, John Smith, lead miner, aged 21, George Smith, lead miner, aged 18, James Smith, lead miner, aged 15, niece Jane Walton, widow, aged 27, her children Jane Walton 5, Christopher Walton 4, and John Walton 2.

In 1861, at Wellhope, Allendale, Elizabeth Smith, widow, farmer of 18 acres, aged 59, sons Joseph, lead miner, aged 38, John, lead miner, aged 32, James, lead miner, aged 26, granddaughter, Jane Walton 16, grandsons, Christopher, lead miner, aged 14, and John Walton 12

In 1871, at Hearty Cleugh, Wellhope, Allendale, Elizabeth Smith, widow, farmer of 18 acres, aged 70, sons Joseph, lead miner, aged 49, John, lead miner, aged 41, James, lead miner, aged 35, daughter Jane Swindle, widow, aged 50, grandson Christopher Walton, lead miner, aged 24, grandson John Walton, lead miner, aged 22, granddaughter Elizabeth Swindle 12, and servant Ann Swindle, domestic servant, aged 20.

ALSTON
RURAL SANITARY AUTHORITY

The clerk read the Medical Officers report of No. 2 district. He reported having found the district in a satisfactory sanitary condition. Measles had been epidemic at Nenthead and on death had resulted from them. There had bean a few cases of fever in a mild form. During the quarter, there had been 65 births and 39 deaths.

Stanhope, Weardale, 16th inst., aged 41, Mr John Russell, late of Allendale, lead miner.
In 1871 living at Lead Gate, Allendale with his wife Margaret aged 30 (born Yorkshire) and daughter Annie aged 1 year. The 1881 census has Margaret living at Front Street, Stanhope, with her children Annie11, George 9, John R 5, Jane 2; she is working as a Baker.

12th March 1881 (Hexham Herald)
GREEN HURTH MINING CO.

The annual report of the company has been issued: The operations of the past year have been on the whole more successful than those carried on in previous year. The anticipation of increased production set forth in the last annual report have been fully realised. The lead ore raised has been 820 tons or about double the quantity raised in previous year; notwithstanding the very low price of lead there has been a profit on the year of £5331 1s 9d. In all a sum of £5320 equal to 11s per share has been paid in dividends. … The transfer of a portion of Green Hurth sett to a company, with the object of securing the effective exploration and working of the veins in the ground in question has been successfully completed during the year.
Deaths
Alston, Glenwood House, 3rd inst., aged 69 Phoebe relict of the late Jacob Walton of Green Ends. *See 23rd November 1864.*

26th March 1881 (Carlisle Express and Examiner)
NENTHEAD POULTRY SHOW. This annual poultry show was held on Thursday, in the Lead Company's new School Room, and was one of the best ever held, there being no fewer than 150 entries. In some of the classes the Judge had difficulty in selecting those for highest honours. Mr. Enoch Hutton, Pudsey, Leeds, acted as judge, and gave every satisfaction. …

15th April1881. (London Gazette)
ANTHONY DODD BROWN, Deceased.

Pursuant to an Act of Parliament 22nd and 23rd Victoria, chapter 35, intituled "An Act to further amend the Law of Property, and to relieve Trustees."

NOTICE is hereby given, that all creditors and other persons having any claims, debts, or demands on or against the estate of Anthony Dodd Brown, late of Nenthead, in the parish of Alston, in the county of Cumberland,
Miner, deceased (who died on the 23rd day of September, 1873, and whose will was proved by John Lattimer of Nenthead aforesaid, Draper and Grocer, the sole executor therein named, in the District Registry attached to the Probate Division of Her Majesty's High- Court of Justice at Carlisle, on the 9th day of December; 1879), are hereby required to send, on or before the 10th day of May next, full particulars, in writing, of such debts or demands to the said executor, at the offices of us, the undersigned, the Solicitors for the said executor, after the expiration or which time the said executor will proceed to distribute the assets of the said testator amongst the persons entitled thereto, having regard only to the debts and demands of which the said executor shall then have had notice; and further, that the said executor will not be liable for the assets of the same testator, or any part thereof, so distributed to any person of whose debt or demand he shall not have had notice. —Dated this 14th day Of April 1881.
BAINBRIDGE and MILLICAN, Alston, Cumberland,
Solicitors for the Executor.

29th April 1881 (London Gazette)

WEARDALE

FATAL MINE ACCIDENT. John Maddison, of Side Head, Weardale, died on Thursday from the effects of injuries received from a shot on the previous day at Bollihope Lead Mine.

The 1881 census gives living at Side Head, St John's, John Maddison lead miner, aged 35 living with his wife Mary Ann aged 32, and brother William also a lead miner aged 21. In 1885, Mary Ann re-married, the 1891 census shows her living at Crook, Barnard Castle with her husband John Bell, farmer, aged 42, and his son John H. aged 18, a masons labourer.

28th May 1881 (Hexham Courant)

Marriages

At Nentsbury Primitive Methodist Chapel, 25th inst. Robert Graham, High House, Nenthead, to Jane Ann Armstrong, Nenthead.

In 1871, at High House, Nenthead, John Graham, lead ore smelter, and farmer of 65 acres, aged 50, his wife Martha aged 44, children Thomas, lead ore washer, aged 14, Margaret 12, Robert 11, John 8, George 6, and William 3.

In 1881, at High House, Nenthead, John Graham, farmer of 65 acres, aged 60, born Allendale, his wife Martha, aged 53, children Thomas, farmers son, aged 24, Margaret 22, Robert, lead miner, aged 21, John, lead miner, aged 18, George, lead ore dresser, aged 16, and William, lead ore dresser, aged 13.

John Graham died 3rd quarter 1888, aged 67.

In 1891, at High House, Nenthead, Robert Graham, lead miner, aged 31, his wife Jane Ann 31, children Mary Marg 7, John 6, Joseph 5, Martha Eliz 2, and Robert Will 3 months.

In 1901, at Hard Edge, Nenthead, Robert Graham, lead miner, aged 42, his wife Jane Ann aged 42, children John, lead ore dresser, aged 16, Joseph, lead ore dresser, aged 14, Martha E 12, Robert Wm 10, Violet 7, Albert 4, George Sydney 3, and Lily 8 months.

In 1911, at Hard Edge, Nenthead, Robert Graham, widow, farmer, aged 51, children John, ministerial studies, aged 26, Joseph, lead & zinc miner, aged 25, Martha E 22, Robert Wm, lead & zinc miner, aged 20, Violet, dairy work, aged 16, Albert, labourer, aged 14, George Sydney 13, and Lily 10.

Probate records give: —

Graham Robert of Whitehall, Nenthead, Alston, Cumberland, died 14th October 1936. Probate Carlisle 12 March to John Graham Methodist minister and Joseph Graham Farmer, effects £1369 1s 9d.

Deaths

At Garrigill, 16th inst. aged 46, Mary wife of Matthew Millican.

In 1851, at Dyke Nook, High West Allen, James Millican, joint farmer of 76 acres, undertaker of drawing at lead mines employing 10 labourers, aged 52, his wife Elizabeth (Lowes, married 29th June 1820, Alston) aged 61, son Matthew aged 25, and niece Margaret aged 14.
William Millican, joint occupier for both land and drawing at mines, aged 49, wife Mary (Coats, married 19th January 1826, Alston) aged 47, children Matthew 24, Mary 21, Ann 16, and Thomas 10.
In 1861, at Pasture House, Matthew Millican, widow (Matthew married Mary Jackson 4th quarter of 1857), contractor of earth work, aged 35, children Mary J. 2, Thomas J. 2, and housekeeper Betsy Heatherington aged 20.
Matthew married Mary Ridley 2nd quarter of 1862.
In 1871, at Pasture House, Matthew Millican, farmer of 44 acres & landowner, aged 43, wife Mary 34, children Mary Jackson 12, Thomas Jackson 12 Ridley 8, and Bessie Alice 5.
In 1881, at Garrigill Gate, Matthew Millican, master joiner, aged 55, wife Mary 45, children Thomas J. master joiners assistant, aged 22, Ridley, engineers apprentice, aged 18, Bessie A. 15, and sister in law Sarah Ridley, annuitant, aged 38. See 28th June 1890, & 27th January 1894
At High Ashgill, 19th inst. aged 92, John Richardson, lead miner.
John Richardson married Tamar Shaw, 4th May 1797, at Garrigill, Tamar died 28th November 1830, aged 55.
His daughter Mary Richardson married Joshua Parker 30th June 1836, at St John Garrigill.
In 1841, at High Ashgill, John Richardson, lead miner, aged 50.
In 1841, at Ashgill, Joshua Parker, lead miner, aged 25, his wife Mally, 25, children Sarah 4, Hannah 2, and John 1 month.
Joshua Parker of Ashgill, was buried at St John's, Garrigill, 18th March 1845.
In 1851, at Ashgill, John Richardson, widow, labourer, aged 62, daughter Mary Parker, widow, parish relief, aged 36, grandchildren Hannah Parker 11, John R Parker 9, and Mary Parker 7.
In 1861, John Richardson, widow, Ag. Labourer, aged 72, daughter Mary Parker, widow, house keeper, aged 46, grandson John R Parker, Ag. Labourer, aged 19, grandson Emerson Parker 3, and lodger Robert Robson, woodcutter, aged 56.
In 1871, at Ashgill, John Richardson, widower, formerly lead miner, aged 82, daughter Mary Parker, widow, aged 56, and grandson, Emerson Parker, lead ore washer, aged 13. In 1881, at High Ashgill, John Richardson, farmer of 15 acres, aged 92, daughter Mary Parker, widow, domestic and dairy work, aged 66, grandson Emerson Parker, lead miner, aged 23, lodger William Beautyman, engineman at lead mine, aged 37, and lodger John Brag, engineman at lead mine, aged 54.

At Alston Primitive Methodist Chapel, 30th ult. T. W. Snowdon of Cocklake to Margaret Ann Yates, Alston.
In 1861, at Cocklake, Robert Snowden, farmer of 90 acres, aged 31, and his wife Hannah (Broadwood, married 8th July 1858, Alston) aged 29.
Hannah Snowden died 2nd quarter 1863.
Robert Snowden married Jane Hilton 2nd quarter 1868.

In 1871, at Cocklake, Robert, Snowden, farmer, aged 41, his wife Jane 30, children Thomas 9, Annie 1, and domestic servant Ann Proud 19.
Robert Snowden died 2nd quarter 1875, aged 46
In 1881, at Cocklake, Thomas Walton, farmer of 222 acres, aged 45, his wife Jane (Snowden, married 4th quarter 1877) aged 40, daughter Frances Louisa 2, step children Thomas Will. Snowden, farmers assistant, aged 19, Annie Snowden 11, Sarah Jane Snowden 7, and niece Mary Jane Walton, dairymaid, aged 18.
In 1891, at Cheviot Rd., Elswick, Thomas W Snowden, dairyman, aged 29, his wife Margaret A 31, and niece Margaret A Bell, dairy assistant, aged 20.

16th July 1881 (Hexham Courant)
Deaths
At Alston, Physic Hall, 12th inst. aged 68, Edward Vipond.
In 1841, at Bales, Edward Vipond, lead miner, aged 25, wife Isabella (Walton, married 17th March 1840, Alston) aged 20, and daughter Elizabeth 9 months.
In 1851, at Low Park, Edward Vipond, lead miner, aged 36, wife Isabella, aged 32, children Elizabeth 10, Sarah 8, John 3, and Edward 1.
In 1861, at Low Park, Edward Vipond, lead miner, aged 48, wife Isabella 43, children Sarah 19, John, lead miner, aged 13, Edward 11, William 8, Isabella 6, and Mary A. aged 3.
In 1871, at Physic Hall, Bank Top, Edward Vipond, stone waller, aged 58, wife Isabella 50, children John, coke drawer, aged 23, Edward, coke drawer, aged 21, Isabella, house maid, aged 15, Mary A. 13, grandson Walton F Vipond 6, and boarder Thomas Walton, labourer, aged 40.
In 1881, at No. 3 Physic Hall, Edward Vipond, stone mason, aged 68, wife Isabella 64, children John, general labourer, aged 33, Mary A., dressmaker, aged 23, Walton F., lead miner, aged 15, Albert 1, and boarder Thomas Walton, millers labourer, aged 50.

16th July 1881 (Hexham Herald)
WEARDALE
LEAD MINES. The half yearly pays took place a fortnight ago, and people are much satisfied with the results, as the returns issued by the auditors of the Weardale mines of W. B. Beaumont. ... For the half year ending 31st December 1879, was 19s 3d per week per man; for half year ending 30th June 1880, £1 2s 11d per week per man, for the half year ending 31st December 1880 £1 3s per week per man. It has also been said that the Agent's salaries are included in the above, but this is not the case, as they and all other workmen are paid in full monthly, ... as the miners work only five shifts per week of 6 and 7 hours each, the above statistics show clearly that the lead miners in this part are in a very fair way, considering the present price of lead and the dullness of trade.

22nd July 1881 (Coventry Herald)
Marriages
On the 20th inst., at Nenthead Parish Church, near Alston, (by the Rev. C. Berry, M.A.) George D. Dawson, schoolmaster, Nenthall, to Mary Ann, elder daughter of William Lee, gamekeeper, Nenthall, Alston.

30th July 1881 (Hexham Courant)

NENTHEAD

MINING ACCIDENT AT NENTHEAD

On Monday, an accident of a very serious nature occurred at the Dowgang mine, Nenthead. It appears that a party of three workmen, one of whom is the injured person, Jacob Erwin, had loaded a "hole" with dynamite, which had not exploded in the usual time. The men foolishly returned to the hole to examine into the cause, when unfortunately the dynamite caught fire, the explosion inflicting some very serious injuries upon Erwin. One of his eyes is completely blown out, a deep hole caused by the driven splinters of rock has jeopardised the sight of the other, the skull is dangerously fractured, and a deep hole has been pierced in one of his arms. The other four men Anthony Thompson and John Archer of Nenthead, and two from Allendale, all of whom were close behind Erwin, probably owed their safety to the charges not having taken such a hold upon the rock as was anticipated, having what is called in mining parlance, "necked" itself. Erwin is married, and has one child, and lies in a very precarious condition.

Deaths

At Dryburn, Alston, 19th inst. aged 55, William Bell.

In 1881, at Dryburn, William Bell, farmer of 48 acres, aged 55, wife Ada 46, and visitor John Hetherington, cow keeper, aged 50.

At Garrigill, 13th inst. aged 45, Joseph Clementson.

At Garrigill Gate Foot, Joseph Clementson, single, lead miner, aged 44, sister Margaret, housekeeper, aged 39, and brother Mathew, leads miner, aged 37.

At Cape Clear, Australia, May 11th, aged 47, Robert Walton Catton, formerly of Blagill Head, Alston.

Cape Clear, approx. 30 km south west of Ballarat, Victoria

The Argus Wednesday 1 August 1928

CATTON -On the 30th July 1928, at her residence, Cape Clear, Sara (nee Conroy), relict of the late Robert Walton Catton, in her 83rd year.

Their son Joseph Henry Catton married Rosanna Lavender Furniss in 1903 (Victoria, Australia) Joseph Henry born Approx. 1873, Rosanna born approx. 1882. Joseph Henry died 1847, Rosanna died 12th December 1846.

30th July 1881 (Carlisle Express and Examiner)

CARRIAGE ACCIDENT NEAR ALSTON.

On Friday last an accident which might have been attended with serious results occurred near Alston to some gentlemen returning in a four-wheeled dogcart from inspecting the mines at Nenthead. As the conveyance was coming down Crook Bank, a dangerous place where accidents have taken place before, the horse started to gallop. Two of the occupants jumped out, one of them getting his shoulder injured and his arm cut and the other having a bone in his ankle broken, while the driver was cut about the face. The remaining occupant, however, stayed in the dog-cart and managed to pull tho animal up without further damage.

6th August 1881 (Hexham Courant)

NENTHEAD

The man Jacob Erwin, who was so dreadfully injured at the Old Dowgang mine, Nenthead, died on Sunday. The deceased man is 42 years of age, and leaves a widow and one child. - An inquest was held at the house of Mr Latimer by Mr J Lee (the deputy coroner for Cumberland) and a verdict of accidentally killed was returned. It appears that three holes had been loaded with small dynamite cartridge, two of which had exploded in due course. The fuse attached to two of the cartridges would measure twelve inches, and in the other fourteen, which would consume at the rate of one foot to the minute, assuming that it was perfectly sound and had no flaws in it. The men had waited seven or eight minutes for the third explosion to take place, when the deceased man went back and put his face to the hole and said that was it. With the assistance of the other men, he walked home, where he lived seven days in great agony. The jurymen very kindly handed their fees to the widow, as did Mr Latimer also for the hire of the room. It appears in the Act of Parliament there is no specified time to wait till the dynamite explode.

The 1871 census gives the following: Jacob Erwin born Derwent, Durham, aged 33, wife Mary Ann (Wilkinson, married in 1868) aged 29, born Alston, John 9 months born Alston. In 1881 the family were living at Kings Head, Nenthead. The 1891 census shows at Bloomsbury Hall, Nenthead, Mary Ann Erwin and her son John aged 20, John is employed as a lead ore washer.

Deaths

At Holme Foots, Nenthead, 1st inst. Joseph Teasdale aged 55.

In 1871, at Holme Foots, Joseph Teasdale, stonemason 44, wife Ann (Percival, married 2nd quarter of 1861, Alston) aged 34, children Frances 9, Elizabeth M. 6, Margaret A. 4, William P. 2, and Thomas 1.

In 1881, at Holme Foots, Joseph Teasdale, stonemason, aged 54, his wife Ann 44, children Margaret A. 14, William P. 12, Thomas H. 11, Joseph R. 9, Lydia J. 7, Edwin V. 4, and Emma 2. See 7th November 1891

At Flowedge, Alston, aged 63, Ralph Pickering.

In 1851, at Flowedge, Ralph Pickering, lead miner, aged 33, wife Elizabeth (Bainbridge, married 31st October 1840, Alston) aged 30, children Thomas 10, Peter 8, Ann 6, Matthew 4, Walton 3, and John 1. In 1861, at Flowedge, Ralph Pickering, Ag. Labourer, aged 43, wife Elizabeth 40, children Thomas lead miner, aged 20, Peter lead miner, aged 18, Ann 16, Matthew, lead ore washer, aged 14, Walton 13, John 11, Elizabeth 9, Joseph 7, Ruth 5, Margaret 3, Ralph 1, and house servant Ann Thompson 22.

In 1871, at Flowedge, Ralph Pickering, farmer of 60 acres, aged 53, wife Elizabeth 50, children Matthew, dry waller, aged 26, Joseph, dry waller, aged 17, Ruth 15, Margaret 13, Ralph 11, Adam 9, and grandson Frederick 2.

In 1881, at Flowedge, Ralph Pickering, farmer of 60 acres, aged 63, wife Elizabeth 60, son Joseph, stone mason, aged 27, daughter Margaret 23, and grandson Frederick Pickering 12.

6th August 1881 (Hexham Herald)

Deaths

Cumberland, Garrigill (at the residence of his mother) 26th ult., aged 32, John Coulthard, Newcastle on Tyne.

In 1861, at Garrigill, Joseph Coulthard, lead miner, aged 58, his wife Margaret 47, children Hannah 25, Thomas lead miner, 23, Joseph lead miner, 20, James lead miner, 17, Cuthbert lead miner, 15, John 12, Isabella 9, Frances 6, and William 5.
Joseph senior died in 1863.
In 1871, at Elswick, Cuthbert Coulthard, warehouse porter, aged 24, his brothers Thomas Corporation labourer, aged 33, John, Corporation cartman, aged 22, and his sister Isabella, house keeper, aged 18.
In 1881 living at 11 Day Street, Newcastle, at the home of his mother in law (Jane Allen, widow aged 67), John Coulthard, Warehouseman aged 32, his wife Margaret (married 1876) aged 28, and daughter Margaret aged 3 years.

19th August 1881 (London Gazette)

THE PATTERSYKE MINING COMPANY LIMITED.

AT an Extraordinary General Meeting of the Members of the above-named Company, duly convened and held at No. 123, Pilgrim- street, Newcastle-upon-Tyne, on Wednesday, the 20th day of July, 1881, the subjoined Special Resolutions were duly passed; and at a subsequent Extraordinary General Meeting of the Members of the said Company, also duly, convened, and held at the same place, on the 5th day of August, 1881, the said Resolutions were duly confirmed: —

1. "That the Company be wound up voluntarily, and that Mr. John Bell, Shipowner, and Mr. Charles Webster Harrison, Agent, both of Newcastle-upon-Tyne, be and they are hereby appointed Liquidators for the purpose of such winding up.

2. "That the following scheme of re-construction be and the same is hereby approved, namely That a new Company be incorporated under the Companies Acts, 1862 to 1880, as a Company limited by shares, by the name of the Pattersyke and. Clargill Head Mining Company Limited, with a capital of £6,400, divided, into 6,400 shares of £1 each, and having power to acquire and take over the business, property, and liabilities of this Company, and that the said Liquidators be and are hereby authorized, pursuant to section 161 of the Companies Act, 1862, to sell to such new Company, upon such terms, and subject to such conditions as they shall think fit, all the property of this Company, but so that the new Company shall undertake all the liabilities of this Company, shall pay the costs of winding it up, and provide the funds (if any) which may be required to purchase, the interests of any dissentient members, whose interests the Liquidators may have to purchase, and that every member of this Company shall, in respect of every two shares therein held by him, be entitled to require the new Company to allot to him one of its £1 shares fully paid up, and so that the shares not so allotted be offered, in the first instance, to the members of this Company, in proportion to the shares held by them therein, and subject thereto be disposed of as the Directors of the new Company shall think fit. And that the said Liquidators be and they are hereby authorized to execute and do all such assurances and things as may be necessary for carrying the said scheme, into effect."

William Nesham, Chairman.

31st August 1881 (Teesdale Mercury)

A VISIT TO THE LEAD-WORKS AT EGGLESTONE, NEAR BARNARD CASTLE.

It is a rather curious fact in human nature that many persons spend their lifetime in the near neighbourhood of beautiful scenery, of interesting historical remains, or of important branches of industry, and yet remain in almost perfect ignorance of them. Numbers of people bring under the shadow of St. Paul's Cathedral, Westminster Abbey, and the British Museum, hare never been inside those buildings; and illustrations of the same strange indifference to objects of local interest may be found in all parts of the country. There are probably many natives and old residents of Barnard Castle who have never examined the ruins of their own Castle, never explored the beauties of Deepdale and Rokeby, never visited Bowes, the burial place of the lovers who are the subject of Mallet's pathetic ballad "Edwin and Emma," to say nothing of the curious literary reminiscences connected with "Nicholas Nickleby." The same remark would probably apply to the important lead-mining industry carried on at Egglestone and Middleton-in-Teesdale, full of interest as it is. Of the 65,000 tons of lead procured annually in Great Britain, nearly a fourth is derived from the Northumberland and Durham district; —the quantity of silver separated from British lead amounting to some 600,000 ounces a year, value £140,000.
Through the courtesy of the Rev. Joseph Lee I obtained an introduction to Mr Pinkney, the manager of the lead-works at Egglestone, and had the privilege of being one of a small party lately conducted over the works under this kind and able guidance of Mr Pinkney himself. Without any attempt at an exhaustive description of the various processes, (which must be left to those who are more familiar with the subject than I can profess to be) it occurs to me that a brief popular account of our visit may not be uninteresting to the readers of the Teesdale Mercury.
After a short railway ride to Romaldkirk, amid fine pastoral scenery, and a delightful drive of about three miles, we entered the works through great stacks of "pigs " of lead, and were shown through the various departments. In one place we saw the ore, looking like very small bright coal, kept in an ingeniously contrived series of what I may call shoot-bins. In another department we were shown a range of open furnaces, on the bright fuel of which men were employed constantly throwing small quantities of the ore. The lead, speedily melting and separating from the dross, runs down small channels in a sloping iron plate,

fixed under and in front of each furnace, and collects in a pot at the right hand side, from which the men dip it in large ladles and pour it into "pig" moulds. It soon cools sufficiently to be turned out, when it shows a variegated bluish tint on the surface, and bears, in deeply indented letters, the words "Lead Company." In another department huge cauldrons are seen full of boiling lead, from which, when tapped, the lead runs like water into great round moulds, shaped like the tins in which small pies are baked; an iron crook having been placed in each mould, by which the great mass it lifted by means of a powerful crane, and deposited on a pile of what looks like enormous leaden pies. But one of the most interesting of the processes is that for the treatment of the fume. Large quantities of lead are carried off in the smoke or fume, and it is a very important matter to prevent the waste of the lead so carried off. Mr Pinkney has contrived a method of accomplishing this, which is most ingenious and successful. The fume is made to pass through a long succession of flues placed longitudinally, and in its course is condensed by water falling on it, the result being seen in a substance which has the appearance of fine drab liquid mud. This is rich in lead, and the produce of the fume under the improved treatment of it introduced by Mr Pinkney, has increased from 200 tons to 600 tons per annum. This mud-like substance is thrown upon a furnace, in small shovel-fulls, and, bulk for bulk, yields more lead than the ore itself. The long range of flues for condensing the fume stretches up the hillside enclosed in an enormous wooden casing (ingeniously constructed without nails) the small remainder of smoke escaping by a tall chimney. An important collateral advantage of this excellent mode of condensing the fume is seen in the beautiful foliage of the trees, and the healthy-looking sheep in the immediate vicinity of the works. Formerly vegetation was killed by the poisonous exhalations, and the health of man and beast was seriously injured.

The separation of the silver from the lead is accomplished by a process invented by the late Mr H. Pattinson, of Newcastle-on-Tyne. We had the pleasure of seeing a large cake of silver taken off, weighing 1744 ounces, which, at four shillings and eight pence the ounce, was worth £406 18s. 8d. This was broken into two to examine its quality, which was pronounced to be excellent, the fracture revealing a fine, sparkling, granular appearance. A peep into the assaying office, where the proportion of pure silver in a given quantity of lead is ascertained by a delicate process with "cupel," "muffle," etc., brought this very interesting visit to a close; and, with hearty thanks to our kind, instructive, and hospitable guide, we walked back to Barnard Castle wiser than when we left home some hours before, feeling thankful that our lot is cast in such a lovely and interesting part of the country; and not without the hope for ourselves and all we love, that a refining process continuously in operation might result in an ever increasing proportion of the silver to lead in the composition of that strange, that endlessly-interesting alloy, the human mind.

F. Haydn Williams

Barnard Castle, August, 1881.

3rd September 1881 (Hexham Courant)

ALSTON MINING ACCIDENT

On Monday, an accident, which might have resulted fatally, occurred at the Craig Green mine. It appears that the two men who are employed at it - John Shield and Matthew Davidson - had worked their last shift on Wednesday last,

previous to the former attending the Edinburgh review. On Monday, they returned to their work, Davidson first ascending a rise by means of a ladder to ascertain the effect of a shot, which had been fired the previous Wednesday. On his return, Shield ascended to examine the place also, and when in the act of descending, a large piece of rock or plate suddenly fell, striking him from the ladder, and inflicting some rather serious injuries upon the side of his face and chest. With the assistance of his fellow partner, he walked home, and has since been attended by Dr Pickworth of Nenthead.

10th September 1881 (Hexham Courant)
Marriages
At Alston Primitive Methodist Chapel, 8th inst. John Robson, West Nenthead, to Hannah Renwick, Nenthead.

WEARDALE

THE WEARDALE LEAD MINES

There appears to be an opening for lead mining enterprise in Weardale, as the lead mines under a considerable tract in the Eastern portion of the Weardale lead mining field, including the parish of Wolsingham, belonging to the Ecclesiastical Commissioners, and held by W. B. Beaumont Esq., MP., are now offered for sale.

23rd September 1881 (Newcastle Courant)

THE TEESDALE LEAD TRADE

The lead trade, which is the staple industry throughout Teesdale, continues in very depressed state, chiefly owing to the fact that the price of pig lead still rules exceedingly low in the market. The London Lead Company have large stocks on hand, and for some considerable time past there has been a paucity of orders. Twelve men have just been paid off at the Egglestone smelt mill, and it is feared others will shortly have to find employment elsewhere.

23rd September 1881 (Carlisle Journal)

NENTHEAD.

The annual show Society of this Society was held Saturday last in field belonging to Mr. R. Ward, Over Water. There was a good many visitors on the ground. The entries were in excess of last year. After the show, dinner was held in the Miner's Arms.

24th September 1881 (Hexham Herald)

Deaths

West Wylam, 20th inst., aged 63, Joseph Robson late of Alston *(Retired post messenger).*

1st October 1881 (Hexham Herald)

WEARDALE

A large batch of emigrants for America leave here on Wednesday next, amongst whom is Mr T. Fleming, White Stones, and some of our most promising young men in the dale.

The only T Fleming on the 1881 census at White Stones was Thomas Fleming, lead miner, aged 41, wife Mary 40, and daughter Mary Ann aged 17 dressmaker.

Deaths

Stanhope, 22nd ult., in his 79th year Nicholas Urwin, innkeeper formerly of Allendale Town and Ovington.

1st October 1881 (Hexham Courant)

At Nenthead, 26th ult., aged 63, Jos. Raisbeck, lead miner.

In 1841, at Holmes Foot, Nenthead, Nancy Raisbeck, supported by sons, aged 60, sons Francis, lead miner aged, 30, and Joseph, lead miner aged 22. Joseph married Mary Bell, 12th December 1844, Mary died in 1st quarter 1850. In 1851, at Holmes Foot, Nenthead, Joseph Raisbeck, widow, lead miner, aged 32, his son William aged 2 (died 1863), his brother Francis, lead miner, aged 41, and servant, Jane Bond, aged 19.

In 1861, at Parsonage House, Nenthead, Joseph Raisbeck, lead ore miner, aged 42, his wife Margaret aged 38, sons William 12, and Matthew aged 8 years.
In 1871, at Wardway foot, Joseph Raisbeck lead miner aged 52, his wife Margaret aged 48, and son Matthew, blacksmith aged 18.
In 1881 at Hillersdon Terrace Joseph Raisbeck, lead miner, aged 62, with his wife Margaret aged 54, and married son Matthew, blacksmith, aged 28, with Matthew's wife Mary Ann aged 23.
Margaret Raisbeck died in 1893 death registered at Alston. See 15 March 1879

19th October 1881 (Teesdale Mercury)

EGGLESTONE

THE LEAD COMPANY'S SMELT MILL. —The Lead Company obtained their Charter as an Independent Company for Lead Mining and Smelting Lead Ore about 180 years ago, in the reign of William and Mary. They carried on smelting operations at a small establishment a few hundred yards further down the ravine up to the year 1818, when they purchased the present establishment from a Mr D. Crawford, of Newcastle, and, by exchange, secured land adjacent to it for chimney extension. At that time the whole of the lead smelted had to be refined to extract the silver. The litharge had to be subsequently reduced to convert it into market lead. This involved the loss of about half of the lead operated on; and, as the fume- collecting only amounted to about twenty tons in the year, after the horizontal chimney had been extended to 600 yards in length (which took place about the year 1824), the Company were among the first to take up the patent of the late Mr Hugh Lee Pattison, for desilverising the lead by crystallisation, somewhere about the year 1834. By this process the waste was reduced to a fractional part of what it previously had been, and lead of a better quality produced for the market, and the silver concentrated into from a 20th to a 30th part of the original lead, which contained on an average about 10 oz. per ton, instead of which the Pattison process turned lead out for refining containing from 200 oz. to 300 oz. per ton. The next improvement was in the condensing by means of Mr J. D. Stagg's patent, by which the smoke was thrown through water, in large condensing chambers, made of wood and lined with lead, through the operation of air-pumps driven by a water wheel, by which the quantity of lead from fume was raised from 20 to 50 tons in the year; but these pumps were utterly inadequate to draw the whole of the smoke, and the irregularity of the draught was not adapted for the reverberatory furnaces. In the year 1857-8, an extension was made of about 800 yards of flue, and a new stack made with self-acting buckets inside. The condensing flues emptied into a filter-bed of rubble stones. This raised the amount of lead from fume to nearly 200 tons. In the years extending from 1870 to 1880 the greatest improvements were made by the introduction of wooden flues and large condensing chambers. The extension thus made comprised over 1,200 yards of wooden flues, and over 600 yards of stone flues covered with wood, and has resulted in an increase of fume which, in the year 1880, yielded over 635 tons of lead. The Rosan process of crystallising has now also superseded the Pattison process for desilverising the lead. In 1 pan upwards of 20 tons are operated on at once, and the process of crystallisation and purification are accomplished together. Under the Pattison process, 2 men wrought 2 pots of 6 tons each, in 8 hours;

under the Rotan process 2 men with 6 pots, 20 tons each, in 12 hours; while the percentage of silver in market lead is less than under the old system. It will thus be seen how readily the Lead Company have always availed themselves of every discovery for the better refining of the lead, and the consequent diminution of waste. This, whilst creditable to their own efforts, end profitable to themselves, has also stimulated the inventive powers of their employees, and not a few of the ingenious minor processes in the smelting of lead have been devised and carried out by members of the Company's staff. Though there is at present a cloud over the mining industry of Teesdale, it cannot be said that the Lead Company have themselves neglected anything calculated to advance the interests of their workpeople or of the inhabitants generally of the district, and a return of the old prosperity is anxiously desired, if but to reward the company for their unwearied exertions.

22nd October 1881 (Hexham Courant)

Marriages

At Alston Wesleyan Methodist Chapel, 16th inst. Robert Clark, Coanwood, to Frances Hannah Irving, Alston.

In 1861, at Thirlwalls Lane, Alston, Joseph Clarke, lead & ironstone miner, aged 53, born at sea, Chatham, his wife Frances (Philipson, married 21st July 1832, Alston) aged 49, born Alston, children Frances 20, Mary Ann 16, Joseph, lead miner, aged 13, William 11, and Robert 8. In 1871, at Herdley Terrace, Lambley, Joseph Clark, coalmine labourer, aged 63, his wife Frances 59, children Mary Ann 26, Robert, coal miner, aged 21, and granddaughter Jane Clarke 1.

Joseph Clark, snr. died 2nd quarter 1879, aged 74.

In 1881, at Chapel House, Haltwhistle, Fanny Clerk, widow, aged 69, sons William, coal miner, aged 31, and Robert, coal miner, aged 28. Also at Chapel House, Robert's brother, Joseph Clerk, coal miner, aged 33, his wife Margaret, 27, children, John 8, Frances 6, Mary 4, Dorathy 2, and Sarah Jane 4 months.

In 1891, at Herdley High Terrace, Lambly, Robert Clark, coal miner, aged 37, his wife Frances H 32, children Jane E 9, Frances H 7, Joseph W 4, Christopher 2, and Lily 3 months. In 1901, at Middle Friar Side, Tanfield, Robert Clark, coal miner, deputy overman, aged 49, his wife Frances H 42, Frances H 16, Joseph W 14, Christopher J 12, Lilly 10, Sarah C 7, and Florence M 4. In 1911, at Middle Friar Side, Tanfield, Robert Clark, coal miner, deputy overman, aged 58, his wife Frances Hannah 53, Joseph William, coal miner, hewer, aged 24, Christopher Irving, coal miner putter, aged 22, Sarah Cecilia 17, and Florence Mary 14.

Frances H Clark died 4th quarter 1928, aged 70, a probable death for Robert Clark is 1st quarter 1921, aged 69.

Deaths

At Nenthead, Greenends, 18th inst. aged 11 months, Phoebe Shield.

In 1861, at Low Blue Row, Ninebanks, Thomas Shield, lead miner, aged 44, wife Barbara (Roddam, married 15th June 1839, Ninebanks) aged 43, children Jonathan, lead miner, aged 21, Joseph, lead miner, aged 18, William, lead miner, aged 16, Thomas, lead ore dresser, aged 13, Isaac 9, Hannah 6, and Elizabeth 3.

In1871, at Shield Ridge, Ninebanks, Thomas Shield, lead mine rail layer, and farmer of 8 acres, aged 54, his wife Barbara 53, Thomas, lead miner, aged 22, Isaac, lead miner, aged 19, and Elizabeth 12.
In 1881, at The States, Ninebanks, Thomas Shield, lead miner unemployed, aged 64, and his wife Barbara 63.
Thomas Shield died 4th quarter 1883, aged 66.
In 1891, Barbara Shield aged 74, a widow, stocking knitter, was living at Blue Row, Carrshield.
In 1871, at Blue Row, Carrshield, Jonathan Shield, leads ore miner, aged 30, wife Dinah aged 33, and son Thomas R. 1 year.
In 1881, at Carrshield, Jonathan Shield, lead miner, aged 40, born, Allendale, wife Dinah (Rodham, married 2nd quarter of 1866) aged 43, born Stanhope, Thomas R. 11, Mary A. 9, Hannah E. 6, Joseph W. 3, and Phebe 4 months.
In 1891, at Foulard, Nenthead, Jonathan Shield, lead miner, aged 50, wife Dinah aged 53, sons Thomas Roddam, lead miner, aged 21, and Joseph William, lead ore washer, aged 13.
In 1901, at Foulard, Jonathan Shield, widow (Dinah died 2nd quarter of 1897, aged 59), lead miner, aged 60, sons Thomas R., lead miner, aged 31, Joseph W., lead miner, aged 23, and house maid, Dorothy A Graham, aged 25.
In 1911, at Foulard, Jonathan Shield, widow, retired lead & zinc miner, aged 70, and his son Thomas R., hand drilling lead & zinc miner, aged 41.
Jonathan Shield died 1st quarter 1917, aged 76.
See 15th May 1897.
At Nenthead 16th inst. aged 45, Joseph Robson, lead miner.
In 1871, at Spring House, Nenthead, Margaret Robson, widow, farmer of 6 acres, aged 69, children Thomas, leads ore miner, aged 42, Grace 40, Joseph leads ore miner, aged 35, grandson John Robson11, granddaughter Jane Robson 7.
In 1881, at Fiddler Street, Nenthead, Thomas Robson, lead miner, aged 53, brother Joseph, lead miner, aged 45, nephew John Robson, lead miner, aged 21, niece Jane Robson, domestic servant, aged 17, and niece Grace E. Robson, house keeper, aged 18.
In 1891, at Whitehall, Spring Houses, Thomas Robson, single, retired lead miner, aged 63. At Whitehall, John Robson, lead miner aged 31, his wife Hannah 30, children Mary Jane 8, John Joseph 5, and Grace Ann 1 year.

ALSTON

RURAL SANITARY AUTHORITY

Dr Carson reported that all was in a fair sanitary condition at Nenthead and Garrigill. Diarrhoea had been prevalent but no deaths had resulted from it. There had been 20 births and 11 deaths.

WEARDALE

DEATH OF RALPH MARTINDALE

On Wednesday, last the remains of Mr Ralph Martindale of New House were interred in St John's Churchyard. In early life, the deceased followed the profession of Cordwainer and when a little over twenty years of age he suddenly left his native Weardale no one new whither. But it appears he journeyed to

Scotland working at his trade in Edinburgh and Glasgow, and when the Crimean war broke out in 1854, he imbibed the patriotic spirit of the time and enlisted in the 47th Foot. As soon as efficiently disciplined, he was dispatched to the Crimea and was present at the fall of Sebastopol, for which he received the Turkish medal. The Indian Mutiny breaking out, his regiment was at once dispatched to take part in the suppression of the sepoys. He afterwards served with his Corps in Bermuda and other military stations in the Mediterranean. On his return to England, his whereabouts were discovered to his relatives in Weardale through a singular incident. His brother Thomas Martindale then in the Life Guards, getting into conversation with a soldier of the 47th, who was extolling the splendid bass voice of a certain Ralph Allison of his regiment caused enquiries to be made by Thomas who elicited that the vocalist was his long lost brother, Ralph Allison Martindale. He at once communicated with his friends in Weardale who purchased his discharge after 10 years service. He received a good conduct medal and a first class certificate of character. On his return to Weardale, he was employed at the W. B. Shops, and on the decease of Mr Whitfield Harrison was appointed Store Keeper, a position of trust, which he fitted with integrity. On conversion to Wesleyan Methodism, he strove by word and deed to retrieve his past. He was unfortunately seized with inflammation of the lungs, which proved fatal in a few days. Out of respect to the deceased Mr Thos. Rumney, Agent ordered the offices and shops to be closed and the whole of the employees attended the remains of their deceased friend to their last resting place aged 55 years.

The 1851 census tells us that Ralph was lodging in the town of Dalkeith (High St West), aged 24 years a Journeyman shoe maker.

47th (Lancashire) Regiment of Foot.

The 47th landed with the rest of the British at Calamity Bay. They then began the journey to the Russian naval base of Sevastopol. On the 30 September the regiment, in the Battle of Alma.

On 5 November, the regiment took part in the battle of Inkerman. The regiment was part of the force besieging Sevastopol, a siege that lasted from September 1854 to September 1855 when the British captured it.

The regiment returned to Malta in 1856 upon the war.

In 1861 the regiment went to Nova Scotia, Canada to reinforce Canada's defences against the USA. In 1866 during the raids by Irish-American ex-soldiers who invaded Canadian territory, the 47th assisted in the defence of Canadian territory. In 1868 the 47th arrived in Barbados in the West Indies.

12th November 1881 (Hexham Courant)

Marriages

At Alston Primitive Methodist Chapel, 8th inst. Joseph Spark to Elizabeth Hymers both of High Galligill. *See 24th March 1883*

Deaths

At White House, Catton, Allendale, 9th inst. aged 51, Mary wife of Joseph Craig.

At Swainby near Northallerton, 31st ult. William oldest son of Mr Tom Hutchinson formerly of Fourdargue, Alston.

In 1851, at Aimshaugh, Thomas Hutchinson, lead miner, aged 32, his wife Mary, aged 24, and daughter, Mary Ann 3 months.

In 1861, at Annatwalls, Alston, Thomas Hutchinson, lead miner, aged 42, wife Mary, aged 34, children, Mary A 10, William 8, Elizabeth 6, and Joshua 2.
In 1871, at Fourdargue, Thomas Hutchinson, lead miner & farmer, aged 52, his wife Mary 44, children, William, lead miner, aged 18, Joshua 12, Isabella 9, Barbara 6, and Thomas 3.

WEARDALE

DEATH IN A WEARDALE LEAD MINE

A lamentable death took place in a Weardale lead mine on Monday. Whilst two miners were proceeding to their work, in a rise at Quarry Level lead mine, their candles went out, indicating foul air. Joseph Robinson, one of the men, proceeding further, soon died. Deceased resided at Huntshieldford, Weardale, was much respected, and leaves a widow and two children.

1881 Mines Inspectors Report

Source North of England Institute of Mining and Mechanical Engineers, Neville Hall, Westgate Road, Newcastle-upon-Tyne

Joseph Robinson 21st November 1881

Greenlaws Lead Mine
Robinson, Joseph, aged 38, Miner, suffocated by gas while climbing a rise to another level

Description

No. 5 on the list took place at the Green Laws Mine, where Joseph Robinson was suffocated by gases; it appears that deceased and Thomas Eggleston went to work in a rise in the quarry level of Green Laws Lead Mine; the rise was 14 fathoms up, and when they had climbed up about eight fathoms both their candles went out owing to foul air. They tried to re-light them with matches but could not, and Robinson said he would go up to the end of the Air-box and light his candle there. Eggleston advised him not to do so, but he went, and, when about three fathoms from the top, was overcome by the foul air and suffocated. The rise was ventilated by 5-inch air boxes from a water blast, with a column of eight fathoms, but the current had been too feeble to sweep away the foul air which had escaped from the strata during a falling barometer. These two men had driven the rise from the level, and Eggleston said it was usually well ventilated, but that occasionally, when there was a change in the weather, they had seen foul air, and gone home. They did not report this to anyone, and the agent said he was not aware of it.

In the 1851 census Joseph aged 8 is living at Chapel Prospect, St John's, with his widowed father John (in 1841 John was living at home with his mother and father John & Margaret Robinson, both aged 40, at Newlandside, Stanhope) aged 31, who was working as a lead miner.
In 1861, at Huntshieldford, St John's Chapel, John Robinson, lead miner, aged 41, his wife Sarah (Walton, married 1851, this is John's second marriage) aged 35, children Joseph, lead miner, aged 18, Phebe 9, George 6, Mary 4, and Addy 2.
John Robinson died in the last quarter of 1871, Sarah died 1900?
In 1871, at Huntshieldford, St John's Chapel, Joseph Robinson, lead miner, aged 28, his wife Margaret 26, children Isaac Vickers 2, and John 6 months.

In 1881 census Joseph Robinson, Huntshieldford, Lead miner, aged 38, wife Margaret aged 35, Isaac aged 12 (Isaac married Annie Dalkin in 1898 she was aged 34 in 1901, Isaac died 1909), John aged 10.
In 1891, Margaret living at Huntshieldford is listed as a widow, farmer, with her are Isaac a saddle & harness maker and John a farmers son. In 1901 Margaret is still living at Huntshieldford with her son John.

Deaths

At Australia, Sept 10th Hugh Johnson, late of Sunnyside, Catton, *born about 1852, son of Thomas lead ore smelter and Margaret, Farmer.*

10th December 1881 (Hexham Courant)

Marriages

At Garrigill Church, 26th ult. Mr John Watson, Middleton in Teesdale, to Annie seventh daughter of the late Thomas Richardson, Ashgill, Garrigill.
In 1841, At Ashgill, Thomas Richardson, game watcher, aged 45, his wife Isabella 25, children Thomas 5, Mary 3, and Sarah 1.
In 1851, at Ashgill, Thomas Richardson, game protector, aged 57, his wife Isabella 37, children Thomas, labourer, aged 15, Mary 13, Hannah 8, Sarah 6, Isabella 4, and Elizabeth 1.
In 1861, at Ashgill, Garrigill, Thomas Richardson, game watcher, aged 67, his wife Isabella 49, children Thomas, forester, aged 25, Hannah, dressmaker, aged 18, Isabella 14, Elizabeth 11, and Anne 6. In 1881, at Low Ashgill, Thomas Richardson, retired game watcher, occupies 15 acres of land, aged 87, his wife Isabella 67, children, Thomas, schoolmaster, elementary, aged 45, Elisabeth, dairymaid, aged 31, Annie, dairymaid, aged 26, grandson Joseph E. Richardson 13, and granddaughter Alice E. Richardson 3.
In 1891, at Town Head, Middleton in Teesdale, John Watson, cartman, aged 39, born Holwick Yorkshire, his wife Ann 36, children Mabel 5, Joseph R 3, and Sarah A 3 months. In 1901, at Market Place, Middleton in Teesdale, John Watson, manager of flourmill, aged 49, his wife Ann 46, children Mabel 15, Joseph R 13, and Sarah A 10. In 1911, at Middleton Mills, John Watson, corn miller, aged 59, his wife Ann 56, children Mabel 25, Joseph Richardson, assistant corn miller, aged 23, and Sarah Annie 20.
John Watson died 1st quarter 1920, aged 68.

10th December 1881 (Hexham Herald)

Marriages

Nenthead Parish Church, 2nd inst., W. T. Dalton of Winnipeg, Canada, son of the late William Dalton Esq., of Nenthead to Miss Fanny Walton, daughter of Jonathan Walton of Donks Villa, Nenthead.
See 2nd September 1876
William T Dalton, son of William (Assistant Mine Agent Lead Smelting) and Frances Dalton (Frances Millican, married 15th September 1853, at Nenthead), Living at Rose Hill, Nenthead in 1861. William Tinniswood Dalton was born in the 4th quarter of 1854.
In 1871 William Tinniswood Dalton (16 years old Clerk) was living in Bishop Gate London with his Uncle Henry Dalton.
See 10th October 1874, and 10th November 1883.

Jonathan Walton was a lead mining agent Fanny (baptised Frances Mary) was born in the 2nd quarter of 1856, she was one of 6 children.
See 25th February 1888

William Tinniswood & Frances Mary had the following children:
Arthur Tinniswood Dalton was born on 11 Nov 1883 Winnipeg, Manitoba West, Canada.
Joanna Frances Dalton born 21st September 1885 in Winnipeg, Manitoba West, Canada.
In 1891 living in the district of New Westminster, Vancouver City, British Columbia.
In 1901 living in the district of Burrard, Vancouver City, British Columbia

The British Columbia Geographical names Index gives the following:
Dalton Dome named after Arthur Tinniswood Dalton (1883 -), FRGS, Vancouver architect, city assessor and mountaineer. Member of first ascent party on Mount Garibaldi, also Mounts Albert, Alfred, Alexander, Victoria, Tinniswood, Wellington and George Edwards. Born at Winnipeg; came to Vancouver with his parents in 1889; 2 years at McGill; worked with his father, William Tinniswood Dalton, pioneer Vancouver architect; Port Grey building inspector c1922.

Mount Tinniswood named by Arthur Tinniswood Dalton and Percy W. Easthope, of Vancouver, in honor of the former's father, William Tinniswood Dalton (1854 - 1931), early Vancouver architect. Born in England and trained as a church architect in London; arrived in Vancouver in 1889. Designed first Tranquille Sanitarium; supervised Vancouver Court House, Customs House and other early buildings in Vancouver. Took up mountaineering as a sport in 1894, and was an enthusiastic mountaineer and explorer; one of the party credited with first ascent of Mount Garibaldi, 1907. Died in Vancouver 1931.
William Tinniswood Dalton (Architect) died on 26 May 1931 in Vancouver, British Columbia.

Deaths
At Middle Scalegill, Alston, 11th inst., aged 61, Isaac Archer, lead miner. *Son of Joseph and Elizabeth. In 1841 Joseph Archer, lead miner, aged 50, his wife Elizabeth 40, children, Isaac 20, lead miner, Valentine 15 lead miner, Elizabeth 12, Hannah, 11, Mary 7, Agnes 5, Thomas 2, Joseph 2, living at Skelgill Plains. Joseph Archer snr. died 1850/51.*
In 1851 at Skelgill Plains, Elizabeth Archer, widow, aged 50, children Isaac, lead miner, aged 31, Valentine, lead miner, aged 25, Mary, spinner woollen factory, aged 17, Agnes, machine feeder, wool factory, aged 15, Thomas, lead ore washer, aged 12, Josh 9, and William 7.
In 1861, at Middle Skelgill, Alston, Isaac Archer, lead miner, aged 41, and his wife Mary aged 34. In 1871, at Middle Skelgill, Alston, Isaac Archer, lead miner, aged 51, and his wife Mary aged 44, and daughter Sarah E. aged 8 years. In 1881 Isaac and his wife Mary are living at Middle Skelgill with their daughter Sarah E aged 18 years their only living child.
At Haggs, Nenthead, 15th inst., aged 36, William Glendenning, lead miner,
In 1851, at Low Galligill, Nenthead, Thomas Glendenning, lead miner, aged 42, his wife Susan 42, children John lead miner, aged 16, Jane 13, William 5, Robert 3, and Margaret 2 years. Susan died in 1856.
In 1861, at Haggs Foot, Nenthead, Thomas Glendening, widow, lead miner, aged 52, children John, lead miner, aged 26, William, lead miner, aged 16, Robert, lead miner, 13, Margret 12, Mary 9, Susannah 7.
In 1871, at Haggs Foot, Nenthead, Thomas Glendenning, widow, lead miner, aged 62, children William, lead miner aged, 25, Robert, lead miner aged, 23, Margaret 22, Susannah 17.
Thomas Glendinning was buried at Nenthead 30th October 1873, aged 65.
In 1881, William, unmarried, is living with his sister Susan (Susannah) aged 27 at Haggs.

24th December 1881 (Hexham Herald)
WEARDALE
THE LEAD MINES. It is rumoured throughout Weardale that all the lead miners employed by Mr W. B. Beaumont, MP., at the Weardale lead mines are under notice, and that the works will in all probability be stopped about the New Year.

28th December 1881 (Morning Post)
THE WEARDALE LEAD MINES,
Subjoined is the letter from Mr. Wentworth Beaumont respecting the closing of the Weardale Lead Mines, which was referred to in a paragraph inserted on Tuesday: —
"Bretton Park, Wakefield, December 22, 1881.
"Dear sir, —Upon the eve of closing the mines it is but considerate to the miners employed under me that I should offer some observations upon a course so distasteful to me—one which I fear will be injurious to many persons in Weardale; and it is convenient I should do so in the form of a letter to you. In 1878 the attention of the late Mr. Edmund James Smith, the agent of the Ecclesiastical Commissioners, was called to the complicated nature of the arrangements with the lessors, and to the great desirability from many points of

view of simplifying them, and of reducing the rents, regard being had to the great fall in the value of lead ore, and to the increasing difficulties of lead mining owing to the exhaustion of the richest portions of the Weardale mines, and it was furthermore pointed out that unless this course were adopted neither the London Lead Company nor I, lessees of the commissioners, could be expected to, neither would we, risk money in exploring and trying to increase the productiveness of mines not our own, but that, on the contrary, we must restrict our operations within a very limited scale. It is due to the memory of one who in all business transactions was actuated by a high sense of what he considered to be just and fair to all persons here to say that he more than once expressed his personal agreement with the above views; but he pointed out that before a public department could act upon them it was necessary to have a report from some well-known man of eminence in the mining profession, and accordingly Mr. Warrington Smythe was, in the spring of 1879, selected by the board to investigate the whole case. That gentleman being largely occupied upon the royal commission on mining accidents stated when he was appointed that a considerable time must elapse before he could exhaustively examine the district, and consequently, after some delay, a temporary reduction of rent was, under his advice, made from June, 1879, to June, 1880. In the middle of the latter year, 1880, Mr. Warrington Smythe made his report to the commissioners very shortly before the death of the late Mr. Edmund James Smith, but, unfortunately, not in time to enable him to take part in the settlement of a question in which he had evinced so much intelligent interest. This report advised that considerable concessions should be made; but the commissioners, after Mr. Smith's death, not only refused to give effect in any way to the advice of their chosen adviser, but, turning their backs on their former course, they have recently stated that, as trustees for the public, they do not feel justified in altering the terms of the leases held by the London Lead Company and by myself, and they decline negotiations upon the subject. In Alston, the Lords of the Admiralty have hitherto met their mining tenants with consideration, and it is difficult to understand upon what reasonable grounds another Government department will not act upon the same lines when owners of property throughout the length and breadth of the land are making fair concessions to tenants. Whatever may be the future of this matter, I wish our people to understand that, having done, all which in me lies to place on a proper basis the relations of lessor and lessee, the responsibility for the unsatisfactory state of mining operations in Weardale rests not with my agents but with the London board.
Kept, during the last three years, in continued uncertainty, and harassed for a long time by vexatious litigation, in which the plaintiff commissioners were wholly unsuccessful, it has been impossible to carry on proper mining adventure.
I remain, very faithfully yours,
“C. Cain. Esq." “WENTWORTH B. BEAUMONT. ESQ.”

28th December 1881 (Teesdale Mercury)
NORTHERN LEAD MINING.—Probably the experience in the lead mining industry in the North of England is different to that of almost every other mining and metallurgical industry in the district in the year that is now so near its close. Most of the mining industries have recovered from the depression that set in a few years ago, so far as the quantity of the production is concerned, but they

do not as yet seem to have recovered entirely the value of the output. But in lead mining, not only is the value but the volume of the production also far below that of a few years ago, in several of the districts that were amongst the most productive In the North of England. Especially does this seem the case in the great lead mining district of Weardale. There are in that district unhappily local differences that affect the industry, but that need not be indicated in detail here. It may, however, be stated that the great “W. B.” mines In Weardale have in the past been amongst the most productive in the world, the output having long been from 10,000 tone to 16,000 tons yearly. But since the dullness in trade set in, it has shown itself in the most marked form in that district, and during part of a recent year the mines were for a time entirely closed. It is rumoured that such a step is now again contemplated, though the statement has not yet been officially made. Still the fact that such a rumour has arisen, and the lesser output of the last few years, is enough to illustrate the great dullness of the trade in the district, and this at a time when there is in the southwest of the kingdom a very marked increase ta activity in lead mining. The Weardale mines are the property of the Ecclesiastical Commissioners, and there have been once or twice statements made that it is the question of the “dues" payable to them that is responsible for the present condition of the industry. The question is worth the consideration of those interested in the trade. The North of England has long been the largest contributor to our production of lead, and the whole nation is interested in the conditions that affect its prosperity, and possibly' prevent its further growth and development. —*Engineer*

ALSTON

TYNEHEAD SULPHUR, COPPER, AND LEAD COMPANY LIMITED.

Upon terms of an agreement of the 13th September, this Company propose to purchase from Mr T. Nicholas Woolton of the West Villas, Tollington Park, certain mineral property situate at Tynehead, in Priorsdale, Parish of Alston, Cumberland, held for a term of 21 years, from the 3rd August last. The Company was registered on the 5th inst. with a capital of £75,000 in £1 shares.

31st December 1881 (Hexham Herald)

THE WEARDALE LEAD MINES.

With the close of this week, the Weardale Lead Miners notices will expire, and the New Year will find the mines belonging to W. B. Beaumont Esq., MP., in Weardale closed. ...

The London Lead Company’s Agent, speaking a few days ago, expressed a fear that unless the dues were lowered, Teesdale would be little better off than Weardale, and said the condition of Weardale was due to the hard heartedness of the Ecclesiastical Commissioners. Now, Mr W. B. Beaumont, MP., in a letter addressed to his chief agent, Mr Cain, and dated the 22nd inst., throws the blame upon the lessors. From the letter, we learn the following:- “In 1878 the attention of the late Mr Edmund James Smith, the agent to the Ecclesiastical Commissioners, was called to the complicated nature of the arrangements of the lessors, and to the great desirability from many points of view of simplifying them, and of reducing the rents, regard being had to the great fall in the value of lead ore, and to the increasing difficulties of lead mining, owing to the richest portions of the Weardale mines; and furthermore pointed out that unless this

course was adopted neither the London Lead Company nor I (W.B. Beaumont), lessees of the Commissioners could be expected to, nor would we, risk money in exploring and trying to increase the productiveness of mines not our own; but that on the contrary, we must restrict our operations within a very limited time scale."

After recounting delays, we are informed that Mr Warrington Smythe was selected in 1879 to investigate the whole case. In the meantime a temporary reduction of rent from June 1879 to June 1880 was made and in the middle of this latter year, 1880, Mr Warrington Smythe made his report to the Commissioners, shortly before the death of Mr E. J. Smith, but too late to enable Mr Smith to take any steps in "a question in which he had evinced so much intelligent interest." "This report advised that considerable concessions should be made; but the Commissioners, after Mr Smith's death, not only refused to give effect in any way to the advice of their chosen adviser, but turning their backs on their former course, they have recently stated that, as trustees for the public, they do not feel justified in altering the terms of the lease held by the London Lead Company and myself (Mr W. B. Beaumont) and they decline negotiations upon the subject." Mr Beaumont refers to the Lords of the Admiralty at Alston having met their mining tenants with consideration, and in conclusion says:- "Whatever may be the future of this matter I wish our people to understand that having done all which in me lies to place on a proper basis the relations of lessor and lessee, the responsibility for the unsatisfactory state of mining operations in Weardale rests not with my agents but with the London Board."

7th January 1882 (Hexham Herald)

THE WEARDALE LEAD MINES

Earl Stanhope, in a letter to the Northern Echo, replies to the letter written by Mr Beaumont, MP., blaming the Ecclesiastical Commissioners for the stoppage of mining operations in Weardale. His Lordship points out that the Commissioners have already reduced the Royalty from one fifth to little more than one thirteenth of the output. On Mr Beaumont applying for a further reduction of the rent, the Commissioners asked to be furnished with full information as to his receipts and profits during the past ten years. Mr Beaumont refused to give the information, and says Earl Stanhope, is the cause of the disastrous state of things in Weardale. Mr Beaumont, moreover, gave them no intimation of his intention of closing the mines.

THE WEARDALE LEAD MINES

MEMORIAL TO THE ECCLESIASTICAL COMMISSIONERS

On Friday, the representative committee, convened by Mr John Thompson, solicitor, held their first meeting at the Board Room, Stanhope, for the purpose of considering what was best to be done on behalf of the Weardale Lead mines. The committee agreed to adopt a memorial to the Ecclesiastical Commissioners, a copy of which is to be sent to the Bishop of Durham asking his Lordship's assistance, and a copy also to the lessee of the lead mines of Mr W. B. Beaumont, MP.

REPLY OF MR BEAUMONT MP. TO LORD STANHOPE'S LETTER.

Mr W. B. Beaumont, writing to the "Northern Echo," in reply to Lord Stanhope, says: -

There is no provision in the lease for the render of one fifth, and consequently the contention that the lessors have reduced therefrom by allowances fall to the ground. But it is the fact that the reservations made due to the high price of lead were considered so very large that the lessors and lessees became apprehensive some years ago (as set forth in a case which the Board themselves submitted to the present Solicitor General) as to the exhaustion of the mines, and they wisely determined to make their lessees considerable exploration allowances; and for these the lessees have, I respectfully submit, received full value. - Indeed, it is my humble opinion that had these allowances not been granted the crisis in Weardale, which we now deplore, would have arisen several years ago. Supposing for the sake of argument, that the profits in the earlier years of the leases have been considerable, I fail to see what that has to do with the matter. Fortunately, for the Commissioners, they have reasonable lessees, but had irresponsible companies been their tenants would it have been any satisfactory reason for crippling an important industry to say that many years ago the shareholders earned good dividends? When the landlords were asked for a remission in rent, they did not decline on the grounds of prosperity in former years; nor so far as I know, did they ask their tenants for an account of past profits. But believing however, that exaggerated reports had found currency in London, and determined to meet the Board more than half way, I placed last spring in the hands of the Chief Commissioner a confidential memorandum giving the average cost of the ore during the period of ten years covered by their request. The price at which the Board had sold me the ore they had at command, and the difference between these two figures, constituting the lessees moderate profit, the Commissioners know perfectly well. They then asked leave for their officials to examine my books for detailed information, which request ought never to have been made, and was accordingly declined. No formal communication was made to the Board of my intention to close the mines, because under the circumstances hereinafter mentioned such notification was deemed useless on my part. My manager in Newcastle has never received even an acknowledgement of the receipt of his letter to the Board, and after waiting a reasonable time; I called on their financial secretary, Mr Porter, with whom I had two or three interviews. This advisor, able as he is, impressed me with the idea that his duties were mostly limited to obtaining as much money as he could for the Ecclesiastical Commissioners; and he informed me the Board had come to the conclusion that they would make no alterations in their Stanhope leases; he further pointed out that the Commissioners were the most indisposed to do so on account of the prevalent agricultural depression. An observation of mine that I did not follow this reasoning which led the lessors to refuse consideration to their mining tenants because they had made remissions to agriculturalists did not appear to strike this gentleman as pertinent. Not only this: he told me the Board objected to entertaining any proposal for new terms until within two years (viz., 1884) of the expiration of the first break in the lease; and my remark in reply that this decision coupled with the consequent uncertainty as to the Commissioners intentions about the future, would necessitate the limitations of exploration and workings to immediate necessities, and the throwing many people out of employment, did not do more than call forth the official <u>non possumus</u>. On leaving him, I said that the matter would not end thus. King Red Tape has long reigned triumphant in Whitehall Place. No one who knows my noble friend doubts for a moment

the truth of the assurance given me by the late Mr Edmund James Smith, that Lord Stanhope is personally most anxious that justice should be done, and equities liberally considered; but the office has hitherto been too strong for him.

14th January 1882 (Hexham Herald)

THE WEARDALE MINES
REPLY OF THE ECCLESIASTICAL COMMISSIONERS.

In answer to the memorial sent from Stanhope by the Representative Committee to the Ecclesiastical Commissioners, praying that some steps may be taken to remove the great distress caused in Weardale by the closing of the lead mines, the committee have received a copy of a letter addressed by the Ecclesiastical Commissioners on the 6th inst. to Mr R. W. Beaumont, MP. After referring to the said memorial on behalf of the Weardale lead miners, to the letter addressed to Mr Cain, and the editors of the Northern Echo, all of which they have considered, the Commissioners understand that Mr Beaumont's contention is that the royalties payable under the terms of the lease are so onerous that the working of lead ore in Weardale can no longer be carried on at a profit. In view of this contention on the part of the lessee, and the existing pressure of distress among the mining population, the Commissioners offer, in the letter referred to, to accept as from the 30th June next, a surrender of the lease, and thereby release Mr Beaumont from the liability for the payment of the yearly rent of £4,600 to which the lessee is bound up to the year 1886. This however, is on the condition that the mines be at once reopened so as to provide employment for the inhabitants of the dale, who have hitherto been engaged in that work. The Commissioners further state that they would be ready to entertain proposals from Mr Beaumont for the grant of a new lease of some portion of the Weardale Lead Mines, and in the event of their entering into negotiations they would be content to refer any points on which difference might arise to an arbitrator, and suggest for that purpose Mr David Dale, a gentleman of high standing, and fitted for the purpose, being hitherto entirely unconnected with the case. The Commissioners deeply deplore the distress and hardships which have fallen on the industrial population of Weardale by the closing of the mines, and hope that their proposals may result in the mines being reopened at an early date.

REOPENING OF THE MINES.

Mr J. C. Cain has received a letter from Mr W. B. Beaumont, MP., in which he says:-

"It is impossible to carry on lead mining in Weardale with satisfaction under existing circumstances. As you are aware, your respected predecessor, the late Mr Sopwith, no mean authority on such questions, always considered the conditions of the Stanhope leases onerous. While however, the mines were productive, and lead kept a good price, things went on well. Now all is changed, speaking in round numbers, lead has fallen from £22 to £15 per ton, and the best known veins have largely worked under the pressure system which to pay great rents, has been forced upon the lessee. It is not wise to kill the goose which lays the golden egg; the not distant future must be cared for as well as the immediate present, which I fear the lessor will fail to do, unless they follow the advice of a practical man like Mr Warrington Smythe, who understands lead mining. For a long time he has superintended the mines belonging to his Royal Highness the Prince of Wales in the Duchy of Cornwall. He has held other

important posts, and I am confident he may be trusted to advise the church authority what they should do for the due management of their Metalliferous mines. A right decision in this matter is the foundation on which is built the prosperity of the mining population, a prosperity in which the Ecclesiastical Commissioners assure the public they "feel so deep an interest," and I doubt not that they will soon make good their words with due regard to everyone concerned. The state they are most desirous of bringing to an end the recent crisis, and under these circumstances I have great pleasure, pending negotiations with the Commissioners, in authorising you to reopen the mines."

21st January 1882 (Hexham Herald)

WEARDALE

LEAD MINES. On Friday, many of the lead miners in the Upper Part of Weardale took their bargains at the lead offices. The bargain day for the miners in the St John's Chapel and lower part of the district was held on Saturday. The mines were reopened on Monday.

21st January 1882 (Hexham Herald)

WEARDALE LEAD MINES

Much dissatisfaction has existed amongst the miners of Weardale at the present arrangements for working the mines and an agitation is going on with the view of getting some better system. According to the Old System of working they obtained lent money; now this is not given, and hence they argue that a good deal of hardship arises. So great is the interest manifested in the movement that, at a public meeting held at St John's Chapel on Saturday night, the Town Hall was crowded.

28th January 1882 (Hexham Herald)

Deaths

In this town, Hencoats, 24th inst, aged 53, Nicholson Dixon, Lead Miner. *He was the son of Stephen (Lead ore washer) and Elizabeth of Low house Allendale.*

The 1881 census has Nicholson and his wife Hannah (Hannah Foster married 1857) aged 52, with their son Stephen N. aged 12, living at Hencotes, Hexham. Nicholson is recorded as a lead miner unemployed ill health. In 1871, they had lived at High Shield Allendale.

Union Workhouse, 21st inst., aged 68, Clemitson Currey, Lead ore Smelter *In 1851 Clemitson Currey was living at Union Cottage, Allendale, aged 37, with his wife Sarah, 38, and children Mary 14, Robert C. 8, John 1.*

In 1881, Clemitson was listed as a Widow, living at Mill Cottages, an unemployed Lead weigher.

Green Pit, Allendale, 18th inst., aged 50, Christopher Ashman.

Lead miner, he did not marry.

Parents Thomas & Elizabeth Pears, married at Allendale 19th May 1821, Thomas died in 1854, Elizabeth died in 1847.

In 1851, at Pry House, Allendale, John Ashman, lead ore miner, aged 27, his brothers Christopher lead ore miner aged 19, Thomas, lead ore miner, aged 22, and sister Frances 24. In 1871, at Allenheads, John Ashman mine inspector, aged 47, his wife Barbara 39, brother Christopher lead ore miner

39, and domestic servant Hannah Reed 15. In 1881, Christopher is a boarder at West End, Allendale, with Mary Pearson & her family.

28th January 1882 (Cumberland & Westmorland Herald)

WOMAN KILLED AT NENTHEAD.

On Monday an inquest was held at the Miners' Arms Inn, Nenthead, by Mr. J. B. Lee, on the body of Elizabeth Hewitson, aged 63, who had been run over on the previous Thursday, by a horse and three stone waggons whilst crossing a line of rails between Nenthead and Overwater. It appeared from the evidence adduced that for some distance above the "crossing" the rails form an incline along which the waggons gather sufficient momentum to carry them along independent of the exertions of the horse. No brakes are attached to the waggons, and the only means at hand for regulating the rate of speed is by pulling up the horse and allowing the waggons to "bump" against its hindquarters.—In reply to the Coroner, Isaac Hornsby, the lad who was driving the horse, stated that he shouted with all his might when the deceased stepped on the rails some two or three yards in front of the horse, and instead of stepping right across, she commenced to Walk or half run between the rails, and in the same direction as the horse was going. He jumped off the waggons and attempted to stop them by backing the horse, but was not successful until they had run over the woman and dragged her a distance of fifteen or twenty yards. The Coroner: Is that the only way to stop the waggons?—Witness: Yes; the horse's head is held back and it holds the waggon.—A Juryman: The horses wear leather backskins on purpose for stopping them, and some can do it in two or three yards.—The Coroner, addressing the jury, said if they considered the place dangerous to too public he had no doubt the London Lead Company would listen to any recommendation they might make.—The jury considered the place sufficiently safe, and returned a verdict of "Accidental death."

4th February 1882 (Hexham Courant)

Deaths

At Overwater, Nenthead, 26th ult. aged 42, Mary Hetherington

In 1871, at Fiddler Street, George Hetherington, lead miner, aged 29, wife Mary (Walton, married 16th November 1869, at Nenthead) aged 31, daughter Mary Alice 1 (died 1st quarter of 1872).

In 1881, at Overwater, George Hetherington, lead miner, aged 39, wife Mary 41, children Isaac 9, Mary E. 7, Alice 6, and William 4. In 1891, at Overwater, George Hetherington, widow, general labourer, aged 49, sons Isaac, lead miner, aged 19, and William, lead ore dresser, aged 14.

George Hetherington died 1st quarter 1906, aged 64.

See 23rd April 1870, & 7th November 1874.

11th February 1882 (Hexham Herald)

Deaths

Allendale Town, 2nd inst., aged 30, Hannah fourth daughter of the late Thos. Todd Mulcaster. *See 12th June 1875*

Dipton, 2nd inst., aged 51, John Vipond, late of West Allendale.

In 1851, at Leight Shield, West Allendale, Joseph Vipond, farmer of 7 acres & lead ore miner, aged 45, his wife Ann 44, children John lead ore miner, aged 20, William 10, Sarah 7, and Hannah 4 years. In 1861, at Nether Houses,

Ninebanks, Allendale, John Vipond, grocer, provisions dealer, and farmer of 7 acres, aged 30, his wife Hannah 31, children Francis Joseph 3, and Isabella A. E. J. 10 months; and brother William lead miner, aged 20.
In 1881 John Vipond a General dealer was living at Front Street, Dipton, County Durham with his wife Hannah aged 57, sons Francis J. aged 23, general dealer; John W. T. aged 10; and daughters Sarah Ann, 16; Isabella D. aged 13, and John W. T. aged 10.

25th February 1882 (Carlisle Express and Examiner)

ALSTON BOARD OF GUARDIANS

This Board met on Saturday, under the presidency of the Rev. O. James. There was a fair attendance.—A letter was read from the Local Government Beard sanctioning the appointment of Drs. S. Carson, junr., and Pickworth medical officers of health in Nos. 1 and 2 districts.—A letter was also read from Dr. Canon, senr., resigning his situation of poor-law medical officer at Nenthead.—An application was read from Dr. Carson jnr., for the post of poor-law medical and vaccination officer in the Alston district.—Notices were arranged to be given to the poor-law medical and vaccination officers of Nos. 1 and 2 district terminate their offices on the 25th March, prior to the better arrangement the whole _____. **The meeting of the Highway Board was held on Saturday.**—The Surveyor reported encroachment on road at Blaygill by Mr. Crawhall-Wilson putting up certain wire fences, but stated he was willing to widen the road by removing certain mining deposits, &c.—This was agreed to. A letter was read, signed by several persons in the town, asking the Board to take a certain road leading past the Congregational Chapel.—In reply to the Chairman it was stated that the road in question was a parish road, and the application was consequently refused. It was, however, decided that the Sanitary Inspector should see that no nuisances were placed upon it.—The Highway Committee reported that they had inspected the roads at Overwater, Nenthead. Clarghyll, and Newshield. They recommended the Board not interfere with the gales in the Garrigill, Nentwater, and Blaygill districts. As regarded the application of the inhabitants of Overwater for a road to be repaired between Nenthead and Overwater the Committee stated the distance to be some 270 yards. Some of this was paved some forty or fifty years ago, but was now much injured by the public traffic as be almost impassable. They reported that several complaints had been made of late of no snow posts being on the road between Nenthead and Killhope; they recommended that posts placed. They found the roads in the Clarghyll district (with the exception of Lowbyre) in good repair, and they did not find the expenditure heavy. They condemned the system of allowing persons who had private gateways opening on the highways to block up the ditch, thus turning water upon and damaging the road. They recommended the Board make application for the district road between Howgill and Garrigill to be made a main road; and also, to consider if it was not desirable be at some expense put the road between Garrigill and Hartside into condition, with the same object in view. -It was staled that if the roads in question had to be made main roads would have referred to the County Surveyor.—On the motion of Mr. Millican it was decided to put up snow posts between Nenthead and Killhope, and refer the Overwater and Nenthead road to the Highway Committee for an estimate of the cost.— Some considerable diversity of opinion prevailed as whether the road ought to repaired or not.— No decision was arrived regarding the entrances into

private fields from the highways.—The recommendation referring to the parish gates was adopted.

25th February 1882 (Hexham Herald)

THE WEARDALE MINES
MR BEAUMONT AND THE ECCLESIASTICAL COMMISSION.

A long correspondence has taken place between Mr Beaumont, MP., and the Ecclesiastical Commissioners relative to the reopening and working of the Weardale mines, an alteration in the lease, and a surrender of it having been discussed.

The present position of affairs is indicated by the two last letters:-

9 Bow Church Yard, Cheapside, London, E.C. 15th February 1882
Weardale Lead Mines

Sir, The matter has been placed in our hands. Mr Fothergill not having been favoured with a reply to his letter of 24th Ultimo, we beg leave to say we cannot accept your offer to take off our client's hands his mining lease without compensation for his outlay.

The present Bargains expire at the end of next month, and unless satisfactory arrangements can be made, the mines will be closed.

We are, Sir your obedient servants
Bell, Broderick, and Grey.

The Secretary, Ecclesiastical Commissioners.

Ecclesiastical Commission, 10 Whitehall Place, London, SW.
16th February 1882
Weardale Lead Mines

Sirs, I am directed by the Ecclesiastical Commissioners to acknowledge your letter of the 15th instant, informing them that the matter of the Weardale Mines has been placed in your hands, and stating that "unless satisfactory arrangements can be made the mines will be closed at the end of next month." Upon the receipt of Mr Fothergill's letter of the 24th ultimo the Commissioners instructed their mineral agents to advise with the least possible delay as to sliding scale of Royalty, which the Commissioner's could accept in respect of the portion of the mines which Mr Beaumont might wish to retain after the contemplated surrender of his lease in June next. It is obvious that a scale of Royalty for so important a property cannot be settled without the most careful consideration. The Commissioners hope to be in position to name terms at an early date.

But as you make it a ground of complaint that no reply has as yet been sent to Mr Fothergill's letter of the 24th ultimo, and in view of the announcement that the mines may be again closed, I am directed to make the following observations in reply to that letter:-

The Commissioners regret with Mr Beaumont the divergence of views which exist between themselves and him in reference to the proposal for the surrender of the lease of the Weardale mines.

The Commissioners have already stated that there can be no question of compensation in connection with the surrender of the lease, and I am to point out that more than one half of the total expenditure of £200,000 which Mr

Fothergill states Mr Beaumont has made upon the mines since the commencement of the present lease, has been paid by the Commissioners out of their rent and royalty. The statement in Mr Fothergill's letter that Mr Beaumont looks upon the allowance to him of the sums of £108,000 only as a matter of account is quite unintelligible to the Commissioners.

Mr Beaumont having declined to furnish the necessary information in support of his request for a modification of the terms of his lease, the Commissioners have endeavoured to ascertain from other sources the approximate cost of working the mines with a view of deciding upon the terms which might be accepted by them for the portion of the mines which Mr Beaumont might be desirous of taking after the present lease is surrendered. Taking the year ending 30th June 1878, as an average year (for 8,196 tons of ore were raised in that year, and the output for the seven years ending June 1878, averaged about 8,000 tons), the Commissioners have reason to believe that the whole of the expenditure made by Mr Beaumont in exploration, added to the net rent and royalty paid by him to the Commissioners did not amount to £18,000. Adding to this sum, in respect of dead work (apart from exploration) for establishment expenses at Newhouse, and for the carriage of the ore to the smelting house, a sum of £7,000, which the Commissioners believe to be a fair estimate, the total expenditure, apart from the cost of raising and washing the ore, the Commissioners understand that this part of the work is paid wholly by results, bargains being made with the men at various rates per bing of ore washed ready for smelting according to the assumed difficulty of raising such ore from the various veins; all the expenses incidental to the bringing out, crushing, and washing of the ore being in the first instance defrayed by Mr Beaumont, but afterwards deducted by him from the amount paid to the men when the bargains terminate. The Commissioners also understand that the rates paid vary from 8s to 10s per bing at the lowest to 45s and 54s at the highest, or say from £1 per ton to £6 15s per ton. The Commissioners believe that £3 2s 6d per ton will be found to be a fair average for the cost of raising and washing ore in that year. The cost therefore upon 8,000 tons will be £25,000, which added to the above mentioned sum of £25,000, make a total expenditure of £50,000 in respect of 8,000 tons of ore. The market value of lead ore for 1878 was about £10 10s per ton, or say £84,000 for the 8,000 tons; and assuming these estimates to approximate to the actual cost, it would leave a profit of £34,000 upon the years workings. If these estimates were extended to the years from 1872 to 1877, when the price of lead ore amounted on the average to £14 per ton the net profits in these years would be found to have been not less that between £50,000 and £60,000 per annum.

It has been a matter of some difficulty for the Commissioners to obtain the necessary information for making this estimate, and if Mr Beaumont is not prepared to accept the conclusions which the Commissioners are disposed to draw from the information they have obtained, it will be for him to refute them by producing his books and disclosing the actual figures.

The Commissioners feel bound to make public the correspondence which has passed between Mr Beaumont and themselves since January 11th.

I am Sirs, your obedient servant
George Pringle

Messrs Bell, Broderick, and Grey, 9 Bow Church Yard.

2nd March 1882 (Northern Echo)

LEAD MINING IN TEESDALE

A new company has taken over the lead works of the Pattersyke Lead mines, and it has been registered as the Pattersyke and Cargill Mining Co. (Limited). Its capital is £6,400 in 6,400 shares of £1 each. The main turnpike between the Market place of Alston and Middleton-in-Teesdale passes through the Company's grounds.

11th March 1882 (Hexham Herald)

ALLENDALE SMELT MILLS.

For a considerable time past the men employed in the above works have had good cause for being discontent at the amount received weekly by them as wages, and even now, although matters are much improved it cannot be said that their income will enable them to indulge in the smallest extravagance. The "separators," we are informed have received an advance of three pence per shift, there being four shifts in a week; while the "smelters" and "roasters" have received an advance of three pence per ton. We may state also that the washer lads in Weardale have received an advance of four pence to six pence per day, and it is hoped that those employed at Allenheads will get a similar advance.

18th March 1882 (Hexham Courant)

Deaths

At Alston, Whitehall, Nenthead, 9th inst., aged 21, Margaret *(Walton),* wife of Henry Barron.

In 1861, at White Hall, Nenthead, Robert Barron, lead ore miner, aged 59, his wife Elizabeth 55, children Elizabeth, house maid, aged 30, Hannah, house maid, aged 28, Robert, lead ore miner, aged 25, George, lead ore washer, aged 15, Cowper 13, grandson Henry 5, and granddaughter Elizabeth 3.
In 1871, Robert Barron, lead miner, aged 69, wife Elizabeth 65, children Betsy, domestic servant, aged 40, George, lead miner, aged 25, Cowper, lead miner, aged 23, grandson Henry, lead ore washer, aged 15, granddaughter Elizabeth 13, and granddaughter Margaret 2.
Robert Barron died 3rd quarter 1878, aged 76.
In 1881, at Whitehall, Henry Barron, lead miner, aged 25, his mother, Betsy Barron, unmarried, housekeeper, aged 50, sister Margaret, servant girl, domestic, aged 12, and Thomas Richardson, nurse child aged 4 years.
Henry Barron married Margaret Walton 2nd quarter of 1881.
In 1891, Henry Barron, aged 35, was living in Byker 103 Felton Street, working as a lead separator, with his wife Margaret (Nattrass married 3rd quarter of 1884 in Newcastle upon Tyne) aged 29, and their children, Florence 5, and Henry 8 months.
In 1901, at Chirton Street, Byker, Henry Barron, widow, lead worker, aged 45, children Florence 13, Henry 10, Mary E. 8, Elizabeth 4, and John A. 1.
Margaret died 2nd quarter of 1901 aged 39. In 1911, at Chirton Street, Henry Barron, widow, red lead furnaceman, shipbuilding, aged 55, children Henry, steam hammer driver, aged 20, Florence, housekeeper, aged 25, Mary Ethel, factory girl, aged 18, and Elizabeth Moor 14.
Henry Barron died 3rd quarter 1914, aged 57.

25th March 1882 (Hexham Herald)
Deaths
Matakana, Auckland, New Zealand, 14th January, aged 57, William Vipond, late of Green Hurth mine Durham.
William Vipond son of Thomas Vipond and Catherine Shield born 30 September 1825, he had two brothers Thomas born 1826, Joseph born 1830, and a sister Catherine born 1837.
Joseph married Sybil (Sibyl) Stout in 1860, his was Sybil's 2nd marriage, she had 5 children from her previous marriage, the1861 census shows she and Joseph had a 4 month old daughter Catherine.
William and Mary had seven children:
In the 1851 census William and his wife Mary are living at Lane Head Alston with their two children Edward Carr aged 3, and Catherine aged 1.
Edward Carr born 1848 (in 1861 family living at Dufton, Edward listed as lead ore washer).

7th April 1882 (Carlisle Journal)

ALSTON BOARD OF GUARDIANS

This Board met on Saturday under the presidency of the Rev O. James There was a fair attendance The Chairman referred to the cattle restrictions and said the counties of Cumberland, Westmorland, and Northumberland were all clear. A letter was read from the Local Government Board sanctioning the appointment of Dr, Carson, jnr., as medical officer of No. 1 (Alston) district, and as medical officer of the work house A letter was also read sanctioning the of Dr Pickworth for No. 2 (Nenthead and Garrigill) district. —The Clerk said he had prepared receipts to the amount of £1100 for the parish, and £450 for sanitary work, which also included the Highways making a total of £1,550. He further added that the full rate of 2s would be levied, but it would be collected in two instalments of 1s each.

17th April 1883 (Carlisle Journal)

ALSTON BOARD OF GUARDIANS

MEDICAL OFFICERS REPORTS.—At the Alston Board of Guardians on Saturday, the Rev O, James in the chair , the Clerk read Carson's quarterly report for No. 1 district which stated that 14 deaths had occurred during the

quarter, the death-rate being 6.1 per 1,000, The death-rate for the corresponding quarter last year was 3.1. Seven of the present quarter's deaths occurred during the month of March. The number of births was 13—4 males and 9 females, The birth-rate was 5.6 per 1,000, The sanitary condition of the district was generally satisfactory.

ALSTON WORKHOUSE.—At the Alston Board of Guardians, on Saturday, Mr. George Peart reported having visited the workhouse and found all satisfactory. There was a large accumulation of stones at the workhouse, and unless something was done they would shortly have to be stored in the gardens — it would be a good thing to sell them, but the Clerk pointed out it would render them liable to pay dues to the lords of the manor.—Some desultory conversation took place, and the matter dropped.

22nd April 1882 (Hexham Courant)

Deaths

At Alston, aged 5 months, Annie Isabella, daughter of Jonathan Woodmass, Alston. *See 19th March 1842, 27th May 1871*

15th May 1883 (Carlisle Journal)
THE SURVEYOR'S REPORT OF THE ALSTON ROADS.
At the meeting of the Alston Rural Sanitary Authority on Saturday, Mr. Walton in the chair, the surveyor's report of the condition of the main and district roads, together with the probable cost of repairing &c., from March 25, 1883, to March 25, 1884, was read by the clerk. The report stated the main roads and highways in the Alston district were in good order. The arch at Moscow had been re-built, and would now prevent any further damage to the roads, The usual quantity of metal and ditching would be sufficient to keep them in repair for the year. In the Nenthead district the roads were in fairly good condition. A little more metal was required between Foulard and Galligill and Nenthead and Garrigill. The worst portion, between Garrigill and Hartside, had been reformed. Some few more pieces required repairing and would be attended to during the summer Owing to other work occurring during the year, and the great expense entailed in cutting snow he had suspended the operations. The probable expenditure for the year on the main roads would be—manual labour, £240; team labour, £60; material, £160; tradesmen's bills, £5 total, £465 and on the district roads—manual labour, £105; team labour, £20; material, £40; tradesmen's bills, £5; ; salaries, £70; total, £240. On the motion of Mr. George Peart, the report was passed. In reference to a dangerous place in the road between Garrigill and Nenthead, the Board decided to divert the road and re-form it, provided the Dowgang Mining Company would purchase the land and build fences on each side.

20th May 1882 (Hexham Courant)
THE TEASDALE LEAD MINES
An influential deputation of South country gentlemen, shareholders of the London Lead Company have just paid a visit of inspection to their mines and works in Teesdale; and though nothing definite is known as to the import of the inspection it is thought that the event may have an important influence on the languishing lead industry. …

Marriages
At Alston, Independent Chapel, 29th ult. Robert Hope, Tynehead, to Margaret Storey of same place.
In 1891, at Benfieldside, Durham, Robert Hope, coal miner, aged 38, his wife Margaret 34, children John R 5, Emley 6 months, and visitor Mary A Hope 28. In 1901, at Benfieldside, Robert Hope, coal miner, aged 54, his wife Margaret, aged 42, and son John R, labourer at paper mill, aged 15. In 1911, at Cutlers Hall Road, Black Hill, Benfieldside, Robert Hope, coal miner, aged 64, his wife Margaret 53, and sister Mary Ann Swenson, widow, aged 48. Robert and Margaret Hope had 4 children of which 3 died before 1911.
Deaths
At Nenthead, 22nd ult., aged 21, Margaret *(Walton married 1st quarter of 1881)* wife of John Walton.

3rd June 1882 (Hexham Herald)
WEARDALE
We understand that the workmen employed at the Killhope and Burtree Pasture Lead Mines have unanimously resolved to take no further bargains under the present system, or under the present Chief Agents. A similar resolution was carried by a large majority at a meeting of the miners belonging to Greenlaws mine. The present bargains will expire at the end of June.
On Saturday night last, a public meeting was held in the Town Hall, St John's Chapel, the object of which was to present a testimonial to Mr Nathan Race, of Weardale, a miner, who has been for some time past, through sickness, unable to follow his employment. Mr Walter Beaumont (*W. B. Beaumont's brother, he spent a lot of time preaching, and encouraging the miners to fight for their betterment*) presented the testimonial, which consisted of a purse of £23 0s 6d, accompanied by a beautiful bouquet freshly pulled in Hexham that morning. ...

10th June 1882 (Hexham Herald)
Letters to the Editor
THE WEARDALE LEAD MINERS.
Sir, A lead miners meeting was held in the Town Hall, St John's Chapel, Weardale, on the 2nd inst., and unanimously passed the following resolutions:-
1st. That we protest against the New System of lead mining.
2nd. That we protest against the present agents, and do declare that we will take no more bargains under them. We do most humbly pray our employer, W. B. Beaumont Esq., MP., that he will change the New system back to the Old System of working the mines; also change the present agents, and we will do our very best for him as working men.
3rd. That we disapprove of the Ecclesiastical Commissioners letting a lease for one year only, because such a short period generally leads to the plundering of lead mines.
Lead mining is not like ironstone, limestone, or coal mining. It sometimes takes a trial of one, two, or even three years to cut a good vein. There is no return to the speculator until the vein is cut, and some lead ore is got, and a short lease, is therefore, detrimental both to the lessor and lessee. Men are not likely to sink money in trying to find a vein, because there is not time for a return of the money

expended. We would advise the Ecclesiastical Commissioners to let leases for long periods, so that the mining fields can be fully explored. The total number of pickmen now employed under Mr W. B. Beaumont, MP., in Weardale is 191, of whom 159 voted against the present system and agents, leaving a small number of 32 men in their favour.

I am &c.

Secretary for the miners

10th June 1882 (Hexham Herald)

Deaths

West Nenthead, 25th ult., aged 2 years, Frances Sarah Hetherington.

Loatburn, Nenthead, Alston, 2nd inst., aged 62, Jonathan Parmley.

Jonathan Parmley baptised 4th January 1794, son of John and Dorothy Parmley married Elizabeth Kindred in 1814.

In 1841, at Rotherhope, Elizabeth Parmley, farmer, aged 45, children John, lead miner, aged 25, William, lead miner, aged 20, Jonathan, lead miner, aged 15, Thomas, lead miner, aged 15, Richard, lead miner, aged 15, Dorothy 14, Robert 12, Milburn 11, and James 9.

In 1851, at Garrigill, Elizabeth Parmley, widow, farmer of 30 acres, 61, children John, lead miner, aged 37, Jonathan, lead miner, aged 29, Robert, lead miner, aged 22, Milburn, lead miner, aged 21, James, lead miner, aged 19, and house servant Eliza Bramwell 17.

Jonathan Parmley married Hannah Bell 4th quarter 1855.

In 1861, at Main Street, Jonathan Parmley, draper & grocer, aged 37, his wife Hannah aged 41, and servant, Elizabeth Bell aged 13.

In 1871, at Front Street, Jonathan Parmley, draper, aged 49, his wife Hannah aged 52, servant Mary Bell aged 13.

Hannah Parmley died 4th quarter 1871, aged 53.

In 1881, at Lotburn, Nenthead, Jonathan Parmley, farmer of 35 acres, aged 59, his wife Ann (Snowdon, married 28th May 1873, at Nenthead) aged 48, sons Thomas W. Snowdon draper & grocer, 19, and George Snowdon 17.

WEARDALE LEAD MINES CRISIS

Threat of a strike at WB Beaumont mines. Also W B Beaumont was in dispute with the Ecclesiastical Commission over Rent and Mine Leases.

Deaths

At Physic Hall, Alston, 30th ult., aged 17 years, Jane Ann Bainbridge *(Milliner, daughter of Joseph and Isabella Bainbridge, farmer, Joseph died in 1869 aged 62).*

8th July 1882 (Hexham Herald)

THE LEAD MINES

A crisis of a two fold character has come to the lead mining industry in Weardale. On Monday morning the miners under the employment of Mr W. B. Beaumont came out on strike, according to resolutions passed at their meetings, that they would take no more bargains under the present agents and the new system, their second quarter's bargains of the year having terminated at the end of June. In the meantime, Mr Beaumont and the Ecclesiastical Commissioners do not appear to have come to any settlement in respect to the further working of the mines from this date. The Board of Commissioners have submitted to Mr Beaumont a scale of rents and dues upon which to base a new lease, failing the acceptance of which the Board are willing to submit the whole question to arbitration by Mr D. Dale; or thirdly will accept an immediate surrender of the lease, taking at a valuation the machinery and movable plant. On the other hand, Mr Beaumont wishing to retire from mining has offered to sell out to the Board his leasehold mining interest in the Parish of Stanhope, or transfer it to a new company. The Commissioners are however, not prepared to negotiate for the purchase of such mining interest, and in respect of a new company a guarantee of financial strength would be required. As the scale of royalties submitted does not appear to commend itself to the present lessee, the position is critical, for should none of the terms offered by the Commissioners be accepted we are informed by them that the conditions of the present lease will have to be left undisturbed. It is however to be hoped that six months correspondence between the lessee and lessor will have brought negotiations so close as to result in a speedy and lasting settlement of the terms on which the mines may be worked in future.

Deaths

Durham North Bailey, 2nd inst., aged 83, Margaret Widow of Joseph Crawhall Esq., of Stagshaw, Close House, Corbridge, and St Ann's Newcastle upon Tyne.

10th July 1883 (Carlisle Journal)

DISCOVERY OF SILVER LEAD NEAR KESWICK.—The Thornthwaite Mine, near Keswick, one of the Cumberland Lead Mines Company's properties, has just added to the positive proof of the enormous mineral wealth of the north which may fairly be said to possess the greatest mineral producing strata of the United Kingdom, particularly that of lead and iron. A rich vein has just been cut into at Thornthwaite. The Company possess, by lease the whole manor of Thornthwaite and its four mines, having 13 miles in the aggregate of known lodes which are highly productive of lead and blends only awaiting the erection of dressing machinery to make the ores marketable. A limited liability company is being formed to provide means to lay down machinery to treat 100 tons per day.

ALSTON BOARD OF GUARDIANS

The usual meeting of this Board was held on Saturday.

Damage to a Road by a Mining Company.—A letter was read from Mr. Walton, agent for the Dowgang Mining Company, stating that he had received a letter from the Surveyor referring to the damage done by the company to the road between Nenthead and Garrigill. Seventy yards of wall were required to be removed into an adjoining allotment, the ground for which would have to be purchased to form the road; the mining company had ceased to work the mine but if the Board would permit the road men to form the road, &c., he would pay £7 towards the alterations. The Surveyor said he had seen Mr. Walton, who was willing, provided £7 would defray the expenses, to put up the fences and purchase the land. He thought £4 10s. would do the work, and the remaining £2 10s. was as much the land was worth.—On the motion of Mr. Isaac Walton, seconded by Mr. T. Dickinson, it was agreed that the road men should give their services if Mr. Walton would pay for the fencing and the land.

15th July 1882 (Hexham Courant)

MINERS DEMONSTRATION IN WEARDALE

The leases had not been renewed by Mr Beaumont from the Ecclesiastical Commission. The miners were not sure whether they were on strike or lock out. The miners wanted Mr Beaumont to seek arbitration with the Ecclesiastical Commission, or have another Company take over the mine leases.

15th July 1882 (Hexham Herald)

ALSTON

A case of smallpox has broken out during the past week at Physic Hall.

RURAL SANITARY AUTHORITY.

Dr Pickworth reported that an epidemic of Mumps had broken out at Garrigill, and there had been 19 deaths and 12 births in his district (No. 2).

Marriages

19th July 1882 (Teesdale Mercury)

PETITION TO HIS GRACE THE DUKE OF CLEVELAND. —The following is a copy of the petition (signed by nearly 400 lead miners, smelters, farmers, &c.,) recently presented to the Duke of Cleveland:

To His Grace the Duke of Cleveland, Lord of the Manor of the Teesdale Lead Mines. —The humble petition of the miners for many years employed in the above mines, and of other inhabitants of the district directly or indirectly interested in mining operations, respectfully showeth: That in times past, in Teesdale, most spirited explorations have been carried on by the London Lead Company; as well as by various other companies, all of which in the lower part of the dale, with the exception of the London Lead Co., have ceased to exist. That the London Lead Company's Mines have for a long period been in an ore-yielding condition; while experience has shown that few of the hitherto opened out mines in the Teesdale district here continued productive for long, but have in a comparatively short time, been exhausted. It has therefore always appeared to your petitioners, that in order to carry on wholesale mining; systematic explorations in virgin ground, they most be carried on simultaneously with the working of the opened mines. That the now working mines are, without exception, really poor mines, some of them nearly exhausted, and can only be carried on by good management and the strictest economy, so as to meet their attendant outlay, without leaving any margin for dead-work operations. That under the expenditure of dead-work operations the Lead Company’s mines have been kept in the condition of ore- producing mines, and have up to a recent period, afforded employment to a large portion of the population; whilst the price of lead remained above £20 per ton their dead works were spiritedly maintained, and the best mining opportunities were developed, and notwithstanding frequent occurring disappointments arising from the found veins proving barren, yet from time to time more happy discoveries kept the population employed. That under the most unfortunate prevailing average low price, £15 per ton and under, of lead, during the last four years, it has been too evident that even ore-yielding mines, like these of the Lead Company, cannot be worked with adequate profit. The upper and more easily worked, and in Teesdale invariably the most productive, portions of the veins having been extracted, while the deeper and harder, and consequently the more expensive, portions now working, are found less productive than in the higher strata. In several of the mines the ore having gone down below the free water level, recourse must be had to machinery for pumping the water and lifting the work, or to the costly operations of driving deeper levels to the submerged ore. That under these circumstances, and the excessively high rate of royalties paid to your Grace, and the absence of any prospects of improvement In the lead market in consequence of the increasing quantities of lead imported into England from Spain and other countries where it is produced at much less coat, owing to the cheapness of labour and a nominal royalty charged. That under the curtailment of employment and wages Teesdale has been suffering, though in a far less degree than the adjoining valley of Weardale, the condition whereof has been truly miserable. Your petitioners are sincerely apprehensive that if the present policy be pursued much longer, the position of Teesdale will be similar to Weardale, no longer affording employment to the natives, profits as in time past to the lessees, revenue to your Grace, and a contribution to the national welfare. That in Teesdale the employers and employed have already undergone their full share of the consequence of the lead market depression, and they have learned, with regret, that the royalties of your Grace's lead mines have not yet been reduced in favour of your suffering lessees, whose proportion of the market value of the ore-yield remains at the rate of six to one in the more

productive mines, —of eight to one in a poor vein in the north side of Wiregill, —and of nine to one at Ashgillhead. That your petitioners deem it their duty to bear testimony to the disinterested manner in which the London Lead Company have deported themselves towards the natives of Teesdale in times past—by their handsome donations to every local object calculated to advance the interests of the dale, —their outlay in making new roads, in erecting miners' cottages, and in providing gardens for the recreation and solid advantage of their workmen. That, with respect to their management of mining operations, your petitioners need only mention the satisfaction of your Grace's agent, Mr Scarth, evidenced by his public remarks made in 1878, on the occasion of the presentation of the testimonial to the company's present Superintendent, many of your petitioners being present. That in view of the disaster that has overtaken Weardale, a first class mining field, and where substantial returns have been made by the lessors towards dead-work explorations, as has been recently stated, mining operations cannot be carried on by the lessees with profit, your petitioners believe that it may reasonably be shown that but for the plucky perseverance of the said company, Teesdale would have gone first to the wall. Your petitioners beg to observe to your Grace that mining in Teesdale is very uncertain, from the extreme fluctuation in the ore deposits; and in order to keep mines in an ore-yielding condition it requires a constant outlay in dead-work explorations. Your petitioners believe that the Lead Company's outlay at various times must have been enormous; they would instance the period previous to the discovery and opening out of Little Eggleshope Mine in 1848, when the mines in Teesdale were exceptionally poor, and the lead market in a depressed state, yet, under these circumstances and a royalty of five to one, or 20 per cent, of the ore produced, with, as your petitioners understand, no return for exploration, the Lead Company persevered with their explorations and maintained their full complement of men; this could scarcely have bees done but for the profitable state of the Alston Moor Mines at the time. Your petitioners would observe that the Lead Company's Alston Moor and Teesdale Mines have seldom, if ever, been both poor at the same time, and being under the same Company, the one has, up to this present period, pulled through the other. That we, your petitioners, most earnestly beseech Your Grace, whose actions through life have been characterised by a noble disposition, will give this our most humble petition your kind consideration, and your petitioners will, as in duty bound, ever pray.
JOSEPH RICHARDSON, Secretary.
AAEON MORTON, Chairman to the Lead Miners Committee

22nd July 1882 (Hexham Courant)

SAD MINING ACCIDENT AT NENTHEAD.
FATHER AND SON KILLED

On Thursday, last a fatal mining accident occurred to two men at the London Lead Company mine Nenthead. The two deceased men Christopher Armstrong and James Armstrong were drilling for purpose of blasting when a rock ten feet in length and three in breadth, fell and killed them instantly. Two other men working along with them appear to have escaped.
Christopher aged 54, James aged 29.
Parish records show Christopher Armstrong married Tamar Walton at Alston, 10th October 1809, Children, John, Walton, Robert, Stephen, George, Sarah, I

have yet to find Christopher's baptism. Christopher senior died in 1828 aged 41, and his wife Tamar died in 1830 aged 41.
In 1841, Holmes Foot, Nenthead, Walton Armstrong, lead miner, aged 20, Robert Armstrong, lead miner aged 20, Stephen lead ore washer, aged 15, Christopher lead ore washer, aged 13, George lead ore washer, aged 11, Sarah 15, and Tamar 3.
In 1841, at West Nenthead, John Armstrong, lead miner, aged 25, his wife Mary (Armstrong, married 10th August 1837, Alston) aged 22, children Tamar 3, and Mary Ann 7 months.
In 1851, at Clog Hall, John Armstrong, lead miner aged 34, his wife Mary aged 32, children, Tamar 13, Mary Ann 10, William 6, John 3, and brother Christopher lead miner, aged 23.
In 1861, at Overwater, Christopher Armstrong, lead miner, aged 32, his wife Ann 29, children James 7, William 6, Jane A 4, and Sarah A 1.
In 1871, at Overwater, Nenthead, Christopher Armstrong, lead miner, aged 42, his wife Ann 39, children James lead ore washer, 17, William lead ore washer, 16, Jane 14, and Sarah Ann 11.
In 1881, at White Hall, Nenthead, Christopher Armstrong, lead miner, aged 52, his wife Ann 51, unmarried children James lead miner aged 27, Sarah A. 21, dumb from birth, Margaret 9, and granddaughter Jane Ann Barrow/Barron 4 years. In 1891, at Mawson Street, Byker, William Armstrong, single, Police Constable, aged 36, his mother Ann, widow, aged 62, sister Sarah Ann 32, paint factory labourer, aged 32, sister Maggie, paint factory labourer aged 19, Jane A, aged 13, Mary A Armstrong, aged 2, born Newcastle, married sister Jane Richardson, aged 33, and John Joseph Richardson aged 8 months. In 1901, at Dean Street, Newcastle, William Armstrong, police constable, aged 46, his wife Eliza 40, sister Sarah A Armstrong, deaf & dumb from birth, aged 42, and daughter Mary A Armstrong 12. See 29 July 1882

22nd July 1882 (Hexham Herald)
Deaths
Nenthead 16th inst., aged 54, Pearson Walton.
In 1841, at Market Place, Nenthead, Richard Walton (son of John & Ann Walton), lead miner, aged 50, his wife Ann aged 50, children Joshua, lead miner aged 20, Elizabeth 15, Pearson, carter, 10, John 10, and Alice 15. In 1851, at Nenthead, Richard Walton, lead miner aged 61, his wife Ann aged 62, son Pearson, lead miner aged 23, and nephew George Walton, lead miner aged 15.
Richard Walton died 2nd quarter 1851.
In 1861, at Holmes Foot, Nenthead, Ann Walton, widow, proprietor of houses, aged 73, son, Pearson, drawer in the lead mines with a horse, aged 33, and Susan Trathan, house servant, aged 17.
Ann Walton died 22nd December 1866, aged 78.
In 1871, at Foulard, Pearson Walton, farmer of 140 acres, aged 43, his wife Hannah (Watson, married 1st June 1862, at Nenthead, Hannah's place of birth Middleton) aged 42, children Joseph 9, Margaret 6, Alice 5, Ruth 3, Ann 2, and general servant Mary Dobson aged 16.
In 1881, at Wood Braes, Nenthead, Pearson Walton, farmer of 36 acres, aged 53, his wife Hannah aged 52, children Joseph 19, Margaret 16, Ruth 13, Ann 12, and Pearson 9 years. In 1891, at Wood Brae House, Hannah Walton,

widow, living on her own means, aged 62, and her unmarried daughters, Margaret 26, and Ann 22.

Garrigill, 7th inst, aged 30, Thomas Smith.
In 1861, at Low Houses, Garrigill, Joseph Smith, farmer of 202 acres, aged 38, his wife Mary (Gill married at Alston 19th February 1852) aged 33 children Thomas 9, Stephen 7, John 5, Ann 2, niece Margaret Peart, domestic servant, aged 20, nephew George Peart 11, and Elizabeth Shield, farm servant, aged 35.
In 1871, at Fausteads, Garrigill, Joseph Smith, retired farmer, aged 48, his wife Mary 44, children Thomas lead miner 19, Stephen lead miner 17, Ann 12, and Elizabeth 6.
Joseph Smith died in 1874, aged 51.
In 1881, at Garrigill Gate, Mary Smith, widow, retired farmer, aged 54, children Thomas retired grocer aged 29, Ann 22, and Elizabeth 16. Mary died in 1883.

26th July 1882 (Teesdale Mercury)

LEAD-MINING IN TEESDALE
THE LONDON LEAD COMPANY AND THE DUKE OF CLEVELAND'S ROYALTIES
IMPORTANT CONFERENCE AT MIDDLETON-IN-TEESDALE.

On Friday morning last, Mr W. T. Scarth, J.P., the Duke of Cleveland's Chief Agent, who was accompanied by Mr W. Watson (of the firm of W., W., and W. J. Watson. Barnard Castle, His Grace's solicitors), met a deputation of Teesdale lead miners at the office of the London Lead Company, at Middleton. Mr R. W, Bainbridge and Mr C. E. Bainbridge, the chief superintendents of the company, were also present. The conference had been arranged in consequence of a petition having been forwarded to Mr Scarth, at Raby, praying for a reduction of

dues, and which the petitioners hoped would be presented to the Duke of Cleveland. The conference was opened shortly after eleven o'clock, and the proceedings lasted several hours, the discussion being of a comprehensive and thoroughly exhaustive character.

Mr Scarth, at the commencement said the text of the petition having been printed in *extenso* in the columns of the Teesdale Mercury, and this, too, before the document itself had been presented to the Duke of Cleveland, he had asked the Proprietor of the Teesdale Mercury to lend a representative to that meeting. He went on to say that at the last interview when he met the deputation, he had suggested that they should have a meeting in the presence of Mr Bainbridge.

Mr Bainbridge said he favoured the idea of the men representing themselves. That was his wish, as be wanted the subject considered as an independent matter.

Mr A. Morton: Yes, Sir; you gave us to understand that.

Mr Scarth affirmed that the petition contained statements, which were not borne out by the facts.

Mr Bainbridge said he was prepared with the facts Mr Scarth: If you read the Teesdale Mercury you will find that it states that the lessor's dues are respectively one-sixth, one-eighth and one-ninth.

Mr Bainbridge: It is rather a round-about way of expressing it

Mr Scarth: The fact is the dues are one-seventh, one-ninth and one-tenth, which are paid to the Duke of Cleveland, and this requires some explanation which the public don't get.

Mr Bainbridge: I took the same view, and when I read it I said, "Here is an error;" but when we come closely to look at it, it is easy of explanation, as the respective proportions of the lessees and lessor are in fact at the rate of six to one in the more productive mines.

Mr Scarth: As it reads it would convey the idea that a duty of one-sixth was paid. It may be perfectly correct, but any person reading this petition would imagine that the Duke of Cleveland's royalty was actually according to that rate.

Reference having been made to a letter sent to Mr Scarth, on the 31st of August, 1878, wherein Mr Bainbridge said, "I am instructed at the approaching quarterly bargains to reduce 82 pickmen in the Teesdale district, about two-thirds whereof will be in the mines held under the Duke of Cleveland, and the remaining one-third within the poor mines of the Ecclesiastical Commissioners adjacent to Eggleston"— Mr Scarth said that, in 1878, the price per ton of lead sold by the Company was £l7 16s. 11d.

Mr Bainbridge: That was only for a small quantity,

I apprehend, which our people sold, and then they determined to hold out for a better market; and it so happened that the market came down, and down, and down still. I may take the opportunity of saying that several of these average sales for subsequent years were much within the avenge price throughout the kingdom. Mr Bainbridge went on to describe bow the Company accumulated lead, in the hope of a rising market.

Mr Scarth: Consequently you must take an average of years.

Mr Bainbridge said they might take the average of the Company's sales up to the end of 1881. He had always told Mr Scarth that the figure of the company's sales was higher than it would have been if they had gone on selling their products throughout the year.

Mr Scarth: Therefore, I say, you must take an average.

Mr Bainbridge: If you take an average up to 1881 I am quite prepared to adopt it.
Mr Scarth said he made it out to be £19 per tom Mr Bainbridge: I wish it bad been so.
Mr Scarth: In 1869, according to the company's sales, lead realised an average of £18 18s. 8d. per ton; in 1870. £19 1s. 5½d. per ton; in 1871, £18 17s. 5d. per ton; in 1872, £20 1s. 10½d. per ton; in 1873, £23 6s 6½d. per ton; in 1874, £21 12s. 9½d. per ton; in 1875, £22 18s. 2d. per ton; in 1876, £22 3s. 6d. per ton; in 1877, £20 9s. 5¼d. per ton; in 1878, £17 16s. 11¾d. per ton; in 1879, £14 8s. 3¼d. per ton; in 1880, £17 4s. 9¼d. per ton; and, in 1881, £14 0s. 9½d. per ton. Mr Scarth proceeded to explain what he termed was another fallacy in the petition, which set forth that the Duke of Cleveland, as lessor, received a fixed payment, whereas it varied with the fluctuating price or lead, at the rate of 5s. for every £1 per ton in the price of lead. The consequence was that the Duke of Cleveland suffered equally with the lessees, and that in point of fact His Grace's income from the royalties in question was reduced fully one-half last year. In proof of this Mr Scarth said that last year when lead averaged £14 0s. 9½d. per ton the Duke of Cleveland's income from the mines leased to the Lead Company was reduced to £3,873, as against £9,370 before. Again, in 1872, when the price of lead was £20 per ton, the Duke's income was £7,085 11s 8d.; and, in 1873, when lead was £23 6s 6 d. per ton, and the ore raised was only 9,100 binge, the sum paid to the Duke was £8,147. Clearly, then, the Duke participated in the bad times.
Mr W. Watson: The fallacy that runs through the memorial is that it implies that there is a fixed due paid without reference to the pries of lead. The idea seems to be conveyed that the Duke does not suffer in the same proportion as the lessees, whereas he certainly does in depressed times, according to the sliding scale.
Mr Bainbridge then entered at length into the history of the negotiations conducted with his predecessors and previous lessors, as to payment of rates and other matters, and be maintained with regard to the sliding-scale as then existing, that it was simply applicable as to what was to be the value of the Duke's royalty for the time being, and it did not, as a matter of fact, so fluctuate as to give the lessees the benefit in adverse times. Whatever might be the Duke's reduced revenues he contended that it put nothing into the company's pockets, inasmuch as when a depression existed the products of the mines were not of the same value. The sliding scale did not determine the value of ore in relation to the lead market.
In reply to Mr Scarth, Mr Bainbridge said the miners had received so average wage during the post year of 17s. per week, and in the course of the discussion he insisted that the render in kind, which was commuted to a money payment, should be lowered, adding that the sales had taken place at the top of the market. He proceeded to give statistics: — In 1876 there were raised 11,305 bings 6 cwt, at 14s. 5¾d. commuted royalty for one-seventh; and five bings 5 cwt., at a commuted royalty at 10s. 1¾d., on a basis of one-tenth. The total rent-yield from the bulk amounted to £8,192 15s. 9d. In 1877 there were 8,497 bings 5 cwt, at a commuted royalty of 13s. 2½d Per bing on a basis of one-sixth, and 170 bings 6 cwt. at 10s. 3¼d. per bing, on a commuted royalty of one- ninth. In 1879 they had a three-fold example.

10,279 bings 7 cwt, at 8s. 8d., based on one-seventh; 354 bings 6 cwt, at 6s 8¾d., based on one-ninth; and 55 bings at 6s 0½d., based on one-tenth.
Mr Scarth said that year £4,590 17s. 2d. was paid to the Duke, the number of men employed was 508, and the price of lead per ton as fixed by the company's sales amounted to £14 8s. 3¼d.
Mr Bainbridge continued: —In 1880 there were raised 9,715 bings 5 cwt, at 10s. 9¼d. per bing, based upon one-seventh, 268 bings at 8s. 6½d., based upon one-ninth, and 170 binge at 7s. 6½d. per bing, based upon one-tenth.
Mr Scarth: The duty-payment in money that year was £5,416 1s. 8d., the number of men and boys employed 492, and the price per ton £17 4s. 9¼d. In 1874 the price of lead was £21 12s. 9½d. and only 479 men and boys were employed, and in 1877 when the price of lead was £20 9s 5d. you had 691 men and boys employed. Mr Scarth further stated that £19 1s. per ton was the basis of the sliding-scale, whereas the average price of lead sold by the company, according to their own returns, during the 13 of the 42 years of the leases, was £19 6s. His impression was that the Teesdale mines, as a separate mining property, had paid uncommonly well, and he would remind them that after all, a bargain was a bargain, and whilst the London Lead Company could at any time terminate the leases, the lessor could not, so long as the covenants were observed.
Mr Bainbridge said it was entirely discretionary with the company as to the number of men they employed, and so it should be. He went on to say that certain items of expenditure had increased, and that they had paid a higher rate for timber. The principal ground of complaint, however, was that the Duke of Cleveland exacted one-seventh when he ought to exact less, and that was the real case as between landlord and tenant. When the lease was executed the incidence of local taxation had not been enlarged, but the parochial burden, when mines were rated, fell absolutely and exclusively upon the company and, as to making a bargain, and wanting to break the lease, he candidly asked Mr Scarth if anybody could have foreshadowed, when the leases were executed, the depression which had set in on the lead trade, and which would undoubtedly continue. They would have made no complaint if the higher sales had gone on, but when lead came down to £14 and £15 per ton the whole circumstances were altered.
Mr Scarth repeated that the Duke’s income from this source, in consequence, had been reduced one- half.
Mr Bainbridge: You look at it from a landlord’s point of view.
Mr Scarth asked if the Duke was to have nothing? Mr Bainbridge continued that owing to the extremely low price of lead they had been obliged to curtail their explorations for fresh veins to the minimum of their legal obligations under the terms of their leases. He might tell them that at Ashgill Head they had spent £6,127 7s. 6d.; in the north side plot, £7,940; and in the south side plot, £7,762, making an aggregate of £21,830 in trials alone in these plots, and that was a serious question for them to consider. He went into further statistics showing the aggregate outlay of the company for the past year. They paid £511 in poor-rates alone.
Mr Scarth said these uncertainties were peculiar to lead-mining.
Mr C. E. Bainbridge went into some calculations showing that the average cost of production of a ton of lead was, last year, including duty-ore and other expenses, £13 14s. 9d., exclusive of ore-carriage to mill, smelting costs, and

carriage of lead to shipping wharf, as against an average sale price of pig lead at £14 0s. 9½d. per ton. Hence some idea might be formed of their present difficulties.

Mr R. W. Bainbridge then went minutely over the map, and pointed out that at Little Eggleshope east and west ends, they had met nothing but barrenness, and the same results had attended the explorations of the company elsewhere.

Mr Bainbridge, jun., then compared the productive character of the Greenhurth mines—rich in silver, which was now worth 4s. 8d. per ounce—with the poverty of the existing workings held under the Duke by the company.

Mr Bainbridge, sen., followed by saying that the explorations in the north and south plots ought to have been bringing them in mines to take the place of the present ones, but they had not. He further submitted as a most important point the question of submerged ore, intimating that Mr Bowes's dues above water-level were one-twelfth, and under water-level one-fifteenth. They would be driven to work below water-level, and this at an enormously increased cost.

Mr Scarth reminded Mr Bainbridge that the London Lead Company had had the offer of the Green-hurth royalty. As the discussion proceeded be contended that the number of men employed did not at all depend on the price of lead, seeing that in 1875 when lead was upwards of £20 per ton, only 420 men and boys were employed, being the smallest number of any in the 13 years.

Mr Bainbridge said that certain of their mines would gradually diminish, and this fact was apparent to their men, and too much importance could not be placed upon the statement. The men saw that the open mines were being exhausted, and that new ones were not being opened out in Teesdale to take their place. The inevitable result would be a collapse of the mining industry in the dale. As the conversation went on Mr Bainbridge said be would like Mr Scarth's attention riveted to the question of the future of Teesdale, That in reality was the great question, for, whilst in prospecting they had buried in the bowels of the earth many thousands of pounds, and had sustained these losses, he submitted that they had acted in the most commiserating manner towards their workpeople. This would readily be admitted by everybody, and surely the company were entitled to some consideration. This, however, could not go on unless they had more favourable terms with regard to the dues, to encourage them to increase their explorations.

Mr Scarth maintained that the Duke of Cleveland's Teesdale mines, as a separate district, and disconnected from their Weardale and Alston Moor mines, had returned a fair profit to the lessees, in proof of which Mr C. E. Bainbridge had stated that the cost of producing a ton of lead last year was £13 14s, 9d., whereat the selling price that year was £14. He deduced from this that even in a year of extreme depression the price left a bare margin of profit, whilst in the years when the price was £20 and upwards the percentage of profit must have been very large,

Mr W. Watson suggested that in future the lessor's dues should be adjusted upon the basis of a double sliding-scale, which he explained to mean that the proportion of duty-ore to be rendered, as well as the price per ton, should be regulated by the average price of lead, and rise or fall accordingly, thereby encouraging the Lead Company to persevere in their explorations even in the worst of times, and at the same time securing to the lessor a fair share of the results, if successful.

Mr Bainbridge said he would be quite prepared to recommend this suggestion to his directors.
Mr Scarth said be was also in favour of its adoption; but, before the Duke of Cleveland could entertain the question, the receipts and payments of the London Lead Company, from the commencement of their present leases, would have to be examined by a professional accountant, with a view to shew the actual results of their operations, as it was utterly futile to lay before His Grace any statement which was not borne out by facts. He might tell them that the whole of the Duke's income from his landed property in Teesdale had been spent in building houses for the miners and other improvements, and His Grace, ever mindful of his obligations, had continuously contributed to the institutions of the dale and to the benefit of the inhabitants,
Mr Bainbridge said that the improvements in Tees-dale, as carried out by the Duke, in the formation of small holdings, had militated against the operations of the Lead Company, inasmuch as the dormitories were a considerable distance from the company's mines. The men, carrying their wallets, were exhausted before they reached their employment, and, moreover, they were anxious to get away from the mines to their work on the farms He himself had given many an aged miner a lift on the road to his work.
Mr Scarth said he was really surprised to hear that Mr Bainbridge held such a view, because it had always been understood that these little farm holdings were a great advantage to the miners. The district was much more healthy now than it formerly had been, and he would ask any miner whether he would not sooner go home to his rosy-cheeked children, with plenty of milk and dairy produce, than live in the confines of Middleton town.
Mr W. Watson remarked that the misers must surely be better off with their cottages and little farm holds, at easy rents, than if they had to depend wholly upon their earnings at the mines, and that, in point of fact, the Duke of Cleveland by this means largely aided his lessees to maintain the mining population of Teesdale, enabling them to work for a lower scale of wages than they could otherwise have done,
Mr C. E. Bainbridge said it was useless to deny the fact that unless the price of lead improved British lead-mining was a dead letter.
Mr Bainbridge remarked that since 1854 the London Lead Company had paid the Duke of Cleveland, in dues, £256,084—a quarter of a million of money.
Mr Scarth replied that the Company had taken away the back-bone of the Duke’s land, and that if the amount of the lessor's dues had been so large, the Company’s returns from the Teesdale mines must have been proportionately great.
After further discussion, in the course of which, Mr Bainbridge drew pointed attention to the American, Spanish, and Chinese competition with which the home industry had to contend,
Mr Scarth repeated that it would be necessary before the Duke of Cleveland could entertain the question in a tangible form that be should know the rate at which lead had been sold, the cost which had been incurred in raising the ore, together with all receipts and expenditure, in order that he might determine whether the undertaking had been remunerative or not.
Mr Bainbridge argued that the lease up to the present time was no criterion as to what the terms of the lease ought to be in the future. They were now arranging for the future—the past was gone.

Mr Watson suggested that the adjustment of the scale should abide the result of a private examination of the Lead Company's operations as shown by their books for the last thirteen years, to be made by a professional accountant appointed by the lessor.
The suggestion, together with the contemplated adoption or a second sliding-scale, was approved of, after some discussion, by all parties, as embodying a sound and equitable principle, and presenting a practical solution of the difficulty.
Mr A. Morton, one of the deputation, thanked Mr Scarth for the kind and courteous manner in which he had entertained the question, and, speaking in the name of the whole of the lead-miners in Teesdale, be expressed a conviction that the Duke of Cleveland's chief agent would act justly and conscientiously in the responsible and important position which he held.
The deputation then withdrew, it being understood that a corrected memorial would be prepared for presentation to the Duke of Cleveland.

29th July 1882 (Hexham Courant)

FATAL MINING ACCIDENT AT NENTHEAD.

An inquest was held on Friday last at the Miner's Arms Inn, Nenthead, before Mr Carrick, coroner for East Cumberland, on the death of two men, Christopher Armstrong and James Armstrong, aged respectively 53 and 29 years, who had been killed the previous day by a fall of rock in the Middlecleugh mine. The jury consisted of the following gentlemen:- Messrs W L Hornsby (foreman), John Latimer, Watson Wallace, George Hetherington, T Harrison, R Ward, T Swindle, J Blacklock, T W Snowdon, W Liverick, H Latimer, and H Liverick. The first witness called was William M Hetherington, who deposed that he and his son were working with the deceased men. - Coroner: What time of day was it? - Witness: Between one and half past one. - Coroner: What were you doing? - Witness: I was marking a hole for me and my son; the deceased men were drilling a hole together. The father was striking the hole and his son was turning it. - Coroner: What relative position was the piece they were striking to the piece that fell? - Witness: They were boring right beneath the piece that fell in another portion of rock. - Coroner: Did you hear it and see it give way? - Witness: No. - Coroner: On what portions of their bodies did it fall? - Witness: On their heads and shoulders. - Coroner: What weight might it be? - Mr Thompson (overman): The piece was 2 feet 2 inches wide, 9 feet long, 16 inches deep, and probably weighed one and a half tons. - Coroner: How far were you from the piece of rock that fell? - Witness (Hetherington): It didn't touch me, but it rubbed down my son's shirt sleeve. - Coroner: No one else was near? - Witness: No. - Coroner: What kind of seam is it? - Mr Thompson: It is a perpendicular vein about for feet wide. - Coroner: How long have you been working in this seam? - Witness (Hetherington): Six weeks, but about the same place for nearly two years. - Coroner: Could you tell the jury how this piece of rock gave way? What caused it to give way? - or could it result from the men working at this piece of rock? - Witness: No I don't think I could. - Coroner: What supports the roof? - Witness: The sides. - Coroner: Never saw an accident before? - Witness: No. - Coroner: The roof give way? - Witness: No. - Coroner: Every precaution taken for the working of it? - Witness: Yes. - Coroner: Was it impossible to foresee this? - Witness: Yes. - Coroner: You cannot account or explain to the jury any reason for the piece falling? - Witness: I cannot. - The next witness called was

Joseph Thompson, who deposed that he was overman at the mine, and knew the deceased men well. - Coroner: Were the deceased steady men? - Witness: Yes, steady men and good practical workmen. - Coroner: Have you seen the place since the accident? - Witness: Yes. - Coroner: What did you find? - Witness: We found the stone as the men had removed it from the bodies, and the place is now quite safe. The reason we give for its falling was that there had been a natural crack in it; the local term given would be a "back" or "lead". - Coroner: Do you mean that the crack would be above the piece that fell or through it? - Witness: The crack would be at one side. It is sometimes foreseen under particular circumstances but in this particular case, it could not be seen. - Coroner: Is there anything else you could suggest Mr Thompson? - Witness: Well I would like to add that Christopher Armstrong is a man that has worked consecutively in the mine for at least 35 years, and was a good predictable miner and quite able to work the mine in all its varied technicalities. - At this stage of the inquiry, the coroner stated that he had received a telegram from the Inspector of Mines, asking that the inquiry should be adjourned till Thursday, for his attendance. He did not see much use of adjourning the inquiry, but as the Inspector wished to be present they would have to do so, but in the meantime, the bodies of the men might be buried.

THE ADJOURNED INQUEST

The adjourned inquiry into the cause of the death of the two men Christopher and James Armstrong, who were killed the previous Thursday at Nenthead by a fall of stone, was resumed on Thursday, before J B Lee, coroner, and Mr J Willis, Mines Inspector. The jury returned a verdict of "Accidentally killed."

See 22 July 1882

29th July 1882 (Hexham Herald)

Deaths

Nenthead, 25th inst., aged 2 years and 11 months, John Hall, son of Henry Hall.

In 1871, at Overwater, Nenthead, William Hall, lead ore smelter, aged 59, his wife Hannah aged 47, children Henry lead ore smelter, aged 23, Emerson Carr lead miner, aged 20, Esther 19, William 17, John 12, Stephen 10, Jane 7, and Margaret Ann 5 years.

In 1881, at Overwater, Nenthead, Henry Hall, lead ore smelter, aged 33, his wife Sarah (Tatters, married 1874) aged 33, children Hannah L. aged 4 and John aged 1 year. Henry and his family emigrated to Canada.

See 22nd February 1873, 25th July 1874, 19th June 1880, 29th July 1882, 21st July 1888, 29th April 1893, and 11th November 1893.

Cowshill Weardale, 22nd inst., aged 28, Hannah Ridley.

In 1871, at Burtreeford, William Ridley, lead miner, aged 61, his wife Hannah 55, children Joseph, lead miner, aged 26, John, lead miner, aged 19, Hannah 17, and William, lead miner, aged 13.

In 1881, at Cows Hill, William Ridley, lead miner unemployed, aged 70, his wife Hannah aged 66, unmarried daughter Hannah aged 27, and unmarried son, William, lead ore dresser (miner), aged 23.

William Ridley died 1st quarter 1884, aged 72.

In 1891, at Cows Hill, Hannah Ridley, widow, aged 76, sons John, lead miner, aged 39, and William, general labourer, aged 34.

2nd August 1882 (Teesdale Mercury)

MIDDLETON-IN-TEESDALE.

From an advertisement in another column it will be seen that a temperance entertainment on a grand scale comes off in the Park ad joining Middleton House on Saturday afternoon next, and should the weather prove propitious, a large gathering may be looked for, and the efforts of its promoters successful, as they deserve to be.

THE LEAD MINERS' COMMITTEE have resolved, after due consideration of the remarks made by Mr Scarth (who met the deputation of the Lead Miners and the Superintendents of the Mines in so frank and open a manner at the recent conference held at Middleton-in-Teesdale), to alter their petition so as to make plain the dues of the lessor, as specified therein. They admit that though it might be easily understood by the practical mining population of the dale, yet they agree with Mr Scarth that, as the petition read, it might be misleading to general readers, and this the committee had not the slightest intention of: they, therefore, submit the following amended clauses:—" That in Teesdale the employers and employed have already undergone their full share of the consequence of the lead market depression; and whilst it must be obvious to all that your Grace's revenue from the Teesdale Mines has undergone heavy diminution—owing to the consequent reduced value of the royalty-bing, which your petitioners greatly regret,— yet they perceive that this does not afford any relief to your Grace's suffering lessees so long as their proportion of the ore-yield remains the same as in the departed period of prosperity, viz., at the rate of one- seventh in the more productive mines, one-ninth in a poor vein on the north aide of Wiregill, and one-tenth at Ashgillhead, the lessees in every case bearing the whole working cost and risk, and having no allowance for exploration. That your petitioners deem it their duty to bear their grateful testimony to the very great improvements effected in buildings, fences, drainage, and planting on your Grace's extensive Teesdale Estates, as well as to the manner in which the Lead Company have deported themselves towards the natives of Teesdale in times past—by their handsome donations to every local object calculated to advance the interests of the dale,—their outlay in making new roads, in erecting miners' cottages, and in providing gardens for the recreation and advantage of their workmen," (Signed)—Joseph Richardson, Secretary; Aaaron Morton, Chairman of the Committee.

5th August 1882 (Hexham Courant)

Marriages

At Newcastle, Blenheim Street Chapel, 22nd ult., John Slack Goodfellow, to Jessie Bell, both of Alston.

In 1881, at Front Street, Alston, Robert Goodfellow, woollen draper, aged 41, his wife Margaret (Slack, married 8th December 1859, Alston) aged 47, children John S. tailor, aged 21, born Kirkoswald, Joseph, tailor, aged 19, Thomas W. 14, Robert H. 12, and Mary 9. In 1891, at Cranworth St. Chorlton on Medlock, Manchester, John S Goodfellow, tailor, aged 31, his wife Janet 29, born Alston, children Wilfred L 4, Tom J E 1, Jessie L 5 months, and lodger Jane Vickers, dressmaker, aged 20. In 1901, at Callender St, Chorlton upon Medlock, John S Goodfellow, tailor, aged 41, his wife Janet 40, Wilfred T, office boy, aged 14, Jessie 9, William B 7, Allen V 2, and Percy H 7 months.

12th August 1882 (Hexham Herald)
Deaths
Nenthead, 29th ult., aged 66, Woodmass Thompson, lead miner.
In 1841, Mary Thompson, supported by sons, aged 70, John, lead miner aged 30, and Woodmass, lead miner aged 25 (son of Thomas Thompson & Mary, born 27th June 1815, Thomas Thompson married Mary Pattinson 24th March 1805).
In 1851, at Nenthead, John Thompson, lead miner, aged 42, his wife Sarah 30, children Mary 3, Thomas 1,Jane 7 months, and lodging with them Woodmass Thompson, lead ore miner, aged 36.
In 1881, at Nenthead, Woodmass Thompson, unmarried, retired lead miner, aged 65, and his brother Joseph Thompson, married, surface lead miner, aged 73.

19th August 1882 (Hexham Courant)
Marriages
At Newcastle, St Phillip's Church, 16th inst. James Smith of Newcastle to Sarah, 2nd daughter of the late Thomas Gill, Nenthall, Cumberland. At the same time & place Joshua Brown Anderson of Newcastle to Margaret 3rd daughter of the above late Thomas Gill.
See 11th July 1868, and 30th July 1870
Deaths
At Garrigill, 10th inst., aged 11 months, Mary Hannah daughter of John Vipond Spark, lead miner.
In 1841, at Loaning Head, Garrigill, Ann Spark, aged 50, Hugh Spark, lead miner, aged 20, Jonathan Spark, lead miner, aged 20, James Spark, lead miner, aged 15, John Spark13, Ann Spark10, and Vipond Spark 8.
Ann Spark of Loaning Head, was buried at Garrigill, 6th March 1843, aged 51.

DAUGHTER OF THE ABOVE
WHO DIED IN INFANCY

In 1851, at Lane Head, Garrigill, Hugh Spark, lead miner, aged 32, his wife Mary, (Vipond, married 6th February 1845, at St John, Garrigill) aged 26, children Ann 5, John Vipond 4, Jonothan 2, and brother Vipond Spark, lead miner, aged 15.
In 1861, at Loaning Head, Garrigill, Hugh Spark, lead miner, aged 42, his wife Mary aged 36, children Ann 15, J Vipond lead miner, aged 14, and Jonathan aged 11.
Hugh Spark was buried at Garrigill, 18th August 1866, aged 48.
In 1871, at Loaning Head, Mary Spark, widow, farmer of 6 acres, aged 46, sons John V. lead miner, aged 24, Jonathan, lead miner, aged 22, and Hugh aged 9.
In 1881, at Lane Head, Mary Spark, widow, farmer of 36 acres, aged 56, sons Jonathan, lead miner, aged 31, and Hugh, lead miner, aged 19.
In 1881, at Lane Head, John V Spark, lead miner, aged 34, his wife Hannah (Hutchinson, married 1877) aged 28, and daughter Ann Alice aged 3.
In 1891, at Garrigill, John V Spark, lead miner, aged 44, his wife Hannah 38, and daughter Ann A 13. In 1901, at Rose Cottage, Alston, John V Spark, watch maker & tax collector, aged 54, his wife Hannah 48, and daughter Ann Alice 23.
John Vipond Spark died 3rd quarter 1910, aged 63.
In 1911, at Rose Cottage, Hannah Spark, widow, private means, aged 58.
Mary Spark, was buried at Garrigill, 10th March1917, aged 93.

28th August 1882 (Northern Echo)

MINERS' MEETING IN WEARDALE.
WORKMEN LEAVING THE VALLEY.

On Saturday evening, a meeting of Weardale miners was held in the Town Hall, St. John's Chapel, Weardale, to consider the present condition of their affairs. The hall was crowded. Mr Wm. Robinson presided, and was supported by several prominent dalesmen. Mr Walter Beaumont arrived during the course of the proceedings and was received with welcoming cheers.

Mr THOMAS PEADON, who was the first speaker, said he hardly knew what to say that evening. He was very much against the holding of the meeting at that time, because it would do nothing to help their cause, and he believed it was useless to be continually agitate when they knew nothing of the new company.

He had felt for some time tint they should have a truce to agitation. It was neither wise nor patriotic to continue it at the present moment. They did not know who the new company were to be; they did not know the shareholders. They did not know the system, and they did not know who the agents were to be. He knew from his own feeling it was most distasteful to the people of Weardale to ask for charity, but necessity knew no law, and if there was no work to be had it must be done. Perhaps work was to be got elsewhere, but a number, and a great number of them could not go away and leave their countryside at that time. Something must be done for those who were not able or did not wish to leave their valley. It was a very great shame that they should, in a land flowing with milk and honey, have to appeal to the world for charity, or to beg, emigrate, or starve in the midst of plenty created by their own industry. But they must look facts in the face. They had tried the Commissioners, and they knew they were going to do little for them. If they knew what prospect there was of the mines being opened they would know what policy to take. The lessee, had never come

among them, and they might beg, borrow, or steal for anything be cured. It would not, as he said before, be wise to continue the agitation until they knew something more.
Mr JOHN EMMERSON, in an able speech, enlarged on the benefits of unionism, and urged the formation of a federation of all the workmen of Weardale.
Mr THOS. EMMERSON, secretary to the Miners' Association, said if any miner desired to leave the valley, they had thought it would be desirable that he should be helped to do so out of the funds. (Applause.) He knew that there were many of them who would rather hunger than ask for help, but if they would but give half a hint that they wanted money their case would be at once laid before the association. He hoped they would be friendly with one another and not be afraid of one another, and if any were badly off that they would speak out, and the association would help them so long as the money lasted. He would like all the miners to join the union. He was glad to hear that all Burtree Pasture men had done so already. (Applause.) He had written to the Commissioners asking them to receive a deputation of miners, at any time and place they might flx upon, and he had received a reply saying that his letter would be laid before the Commissioners after the recess.
The CHAIRMAN expressed some doubt as to whether the money subscribed by the public should be used for helping men away from the valley.
Mr W. MILBURN believed they were right in relieving the men and helping them away to get work. Many of them could not go any distance without help, and if the money was not for forth coming they could not go. The tradesmen had no doubt subscribed very liberally; but be could not see the difference between helping them away and having to help them at home.
Mr THOMAS DAWSON spoke of the unsafe character of Burtree Pasture Mine. He did not know why the mines were not inspected, or how it was the inspector never came to Burtree Mines, except it was that none of them were ever manly enough to write for him. God had placed the ore in the bowels of the earth, and He too had told them, “Thy bread shall be given thee, and thy water shall be sure." He put his trust, in the living God. He had often, when he got one new Jacket, wondered where he would get the next. The very first pay after he took a woman to be his wife he want homo with but sixpence in his pocket. He and they might have to go elsewhere. The Lord would open a door to them in His own good time, but they would always remember that Weardale was their home.
The CHAIRMAN said he believed in spending the money to carry on the agitation, but it any man took money for himself he would lower himself in the eyes of the people. He believed that if every man would seek work he would find it.
After a few words from Mr H. FEATHERSTONE
Mr WALTER BEAUMONT supported the view that men should be helped to find work elsewhere.
The CHAIRMAN then put the matter to the meeting, when the majority voted in favour of the men being helped away when necessary.
Mr BEAUMONT then offered to lend the committee £10 to be expended in assisting the miners to leave the valley. They could pay him when they were able, and if they never were able it could not be helped.

Mr W. MULBURN said Mr Beaumont always dealt with his money as though it was their own, but they ought not to take £10 from him so long as they had funds of their own.
The CHAIRMAN quite agreed, Mr Beaumont had done too much for them already.
A vote of confidence in Mr Beaumont was then unanimously and enthusiastically carried, and the proceedings ended.

9th September 1882 (Hexham Courant)

ALSTON

TWO MEN IMPRISONED FOR SIX HOURS.

On Thursday, evening considerable commotion was caused in the town when it became known that two men Joseph Cousin and Robert Bowman engaged in repairing Nent Force level, had not returned from their work. They were engaged some two and a half miles from the entrance, and were expected at their homes about three o'clock. Some three hours, however passed away, and a suspicion gained ground that all was not right, and a party of gentlemen (Mr A. Walton, Mr John Walton, Mr John Lowe, Mr John Haddon, Mr M. Pickering and Mr E. Ben) took the reserve boat kept at the mouth of the level and went in search of the men. About a mile and a half up the level they found the boat which had conveyed the men to their work in the morning and proceeded onwards another mile they found them sitting in darkness unable to make their way out owing to the boat having broken away from the moorings. A considerable number of people gathered around the entrance of the level, and were much relieved when the rescued and rescuers stepped into the open air all safe. The men had been prisoners upwards of six hours.
(*The rescuers were given 10s each as a reward, from Greenwich Hospital*)

9th September 1882 (Hexham Herald)
Alston
Rural Sanitary Authority
Dr Pickworth, Medical Officer of No. 2 district stated that a case of Smallpox had occurred at the Flatt. The infection had been derived from a similar case in Alston. The case in his district had been a mild one, the room had been disinfected and no other cases had occurred to his knowledge.
Deaths
Nenthead, 4th inst., aged 40, Thomas Brown, Stonemason.

RODDERUP FELL MINING COMPANY

On Monday morning, notice went up saying that from Friday 15th September 1882 that work will be suspended due to "depression in the lead trade" signed I Walton Manager. Rodderup mines are "High Level," "Middle Level," "Cleugh" and "Low Level." The three former of which, commenced some sixty or seventy years ago and have for some time been unworked. The latter " Low Level" commenced in 1835 it employs thirty five adults and eleven washer boys.

Marriages

At Alston Independent Chapel, 9th inst., Watson Smith *(lead miner),* Greenends to Mary Ann Fairless, Haggs, Nenthead.

In 1861, at Green Ends, George Smith, lead miner, aged 60, his wife Mary aged 58, children Mary 33, Thomas H, lead miner, aged 27, John, lead miner, aged 26, George, lead miner, aged 23, Jonathan, lead miner, aged 20, grandchildren Watson Smith 6, and Jane Smith 2.

In 1871, at Green Ends, George Smith, lead miner, aged 70, his wife Mary aged 68, daughter Mary 43, son George, lead miner, aged 33, grandchildren Watson Smith, lead miner, aged 16, Jane Smith 12, John Smith 9, and Dorothy Ann Smith 6.

In 1881, at Greenends, George Smith, farmer of 6 acres, aged 80, his wife Mary 78, daughter Mary 55, sons Watson, lead miner, aged 26, John, no occupation, aged 19, daughter Dorothy Ann, nurse domestic servant, aged 16. George Smith died 4th quarter 1884, aged 84.

In 1891, at High Galligill, Watson Smith, aged 36, his wife Mary Ann 27, children Minnie 8, and Joseph Henry 5.

In 1901, at Haggs Foot, Nenthead, Mary Ann Smith, married, dressmaker, aged 37, children Minnie, dressmaker, aged 18, and Joseph H, lead & zinc miner, aged 15. In 1911, at Hayring Cottages, Mary Ann Smith, married, aged 47, and son Joseph Henry, zinc miner, aged 25. Watson Smith was an inmate at Carlisle Mental Hospital in 1901 & 1911.

Watson Smith died 1st quarter 1923, aged 68, death registered at Carlisle.

Deaths

At Nenthead, 4th inst., aged 66, Isabella, widow of Thomas Thompson.

In 1851, at Wellgill, Nenthead, Isabella Thompson (Liverick, married 7th June 1834), lead miners widow (Thomas Liverick died 1848/9), aged 35, children Matthew 15, Ann 12, Thomas 9, Isabella 7, and Mary 4.

In 1881, at Wellgill, Nenthead, Isabella Thompson, widow, farmer of 7 acres, aged 65, her unmarried children, Matthew lead miner, aged 45, Mary domestic servant, aged 34, and grandson George Thompson, lead miner, aged 24.

20th September 1882 (Glasgow Herald)

COMMERCIAL NOTES

It is reported that a fine new vein of lead has been cut by the London Lead Company in the Lady's Rake Mine, Harwood, which is expected to yield 4 tons of lead ore to the fathom. The new vein is in what is called the Ashgill Lead lease, is near to Green Hurth Mine, and is in the same stratification as the Green

Hurth was first found in. Lead mining in Teesdale is rather improving in prospect, and prices, though very low, are better than they were.

22nd September 1882 (Hexham Herald)

STANHOPE

FATAL MINE ACCIDENT

On Saturday evening last Ralph Fairless, (38) Ironstone miner, Brother Lee, Weardale, died from the effects of injuries received on the head on the previous day, at Red Vein, Ironstone mine, Stanhope Burn whilst following his employment.

In 1841, at Westgate, Weardale, William Fairless, lead miner, aged 25, and his wife Hannah aged 20.

In 1851, at Brother Lee, William Fairless, lead miner, aged 34, his wife Hannah (Dawson, married 1840) dressmaker, aged 31, children Margaret 9, Ralph 6, Edward 5, William 3, and Mary 5 months.

30th September 1882 (Hexham Courant)

THE WEARDALE MINERS
MEETING AT ST JOHN'S CHAPEL
DISCUSSION TO REFUSE BARGAINS

A crowded and enthusiastic meeting of miners was held on Wednesday night at St John's Chapel. Mr Thomas Emmerson, secretary, was unanimously called to the chair. After the Lord's Prayer had been fervently offered.

The CHAIRMAN said he had been in the front of this movement, and intended to remain so if opportunity was to offer itself. There were always two sides to every question. He was of opinion they were right. (cheers) They did not expect to get through life without labour and persecution, but he hoped they were prepared to abide by the former resolutions to take no more bargains under the present agents and the "new system." (prolonged cheers)

MR JOHN ROBINSON, in moving the first resolution, said when he took a stand he always meant winning, and it would grieve him much if the miners gave way. Such gentlemen as Mr J V Walton, Mr Bainbridge, Dr Livingstone, and Mr Dawson has promised substantial support. He then moved the following resolutions.

"That this meeting is of opinion that the system of short agreements pursued by the lessors and lessees of the Weardale mines is detrimental to the mines and miners and as such prevents prospecting thus impoverishing public property." (Applause)

MR THOMAS PEADON had pleasure in seconding the resolution and it was carried amid cheers.

MR HENRY FEATHERSTONE moved the second resolution as follows:-

"That we adhere to the former resolution not to take any more bargains under the present agents and new system."

MR THOMAS DOWSON seconded, and MR THOMAS SMITH (Sunderland) urged them, after these terrible sufferings, which had gone forth to the world, to stand fast. They had the sympathy of all working men. Any who blacklegged deserved boycotting. Treat them as lepers. The speaker concluded an eloquent address amid enthusiastic cheering.

The resolution was carried with acclamation.

MR WILLIAM MILBURN moved MR JOHN WILSON seconded and MR WALTER BEAUMONT supported, a resolution that the committee be empowered to take all honourable means to inform the Ecclesiastical Commissioners and the Home Secretary to get the present state of things in Weardale remedied.

30th September 1882 (Hexham Courant)

WEARDALE
THE CRANSTON ROCK DRILL

Some very interesting experiments are at the present time being carried out at Messrs J W Pease and Co's Swinston Quarries, Weardale. The ordinary system of hand drilling has been adopted from the commencement until very recently, when a number of deep holes have been drilled by machine power. One of these holes, described and known by the quarrymen as the "jumbo" hole has been drilled to a depth of 18 feet by 2 inches in diameter, being completed within 5 hours. By an excellent system of charging the hole was blasted with 450 lbs of powder, whereby it is estimated that 3,000 tons of rock have been

economically removed; and it is considered to be the most effective blast of the kind ever known in the Weardale district. The machine employed at these extensive quarries is the well known “Cranston” patented rock drill.

Deaths

At Wellgill, Nenthead, 26th inst., aged 78, Mary Armstrong, widow of Walton Armstrong.

John Dryden married Mary Bell, 3rd June 1824, at West Allen, Ninebanks, John Dryden died in 1840.
In 1841, at Wellgill, Nenthead, Mary Dryden, widow, aged 35, children Jane 10, Catherine 5, and Elizabeth 2 years.
In 1851, at Wellgill, Dyke Heads, Nenthead, Walton Armstrong, lead miner, aged 32, his wife Mary 47, children Thomas 8, Mary 8, Sarah 5, Phebe 3, Margaret 1, step daughters, Jane Dryden, employed at home, aged 22, Catherine Dryden, washer woman, aged 16, Elizabeth Dryden 12, brother George Armstrong, lead miner, aged 21.
In 1861, at Dyke Heads, Nenthead, Walton Armstrong, lead miner, aged 42, his wife Mary 57, step daughter Elizabeth Dryden, dress maker, aged 22, children, William lead miner, aged 21, Mary dressmaker, aged 18, Sarah house maid aged15, and Phebe 13.
Walton Armstrong died 2nd quarter 1865.
In 1871, Mary and Phoebe were living at Wellgill.
In 1881, at Wellgill, Nenthead, Mary Armstrong, lead miners widow aged 77, and her unmarried daughter Phoebe aged 34, no occupation; in 1891 Phoebe was in receipt of Parish Relief.

THE WEARDALE MINERS

A Weardale correspondent writes:” —Mr J. C. Cain, chief agent attended Newhouse W. B. offices on Thursday to let bargains for Killhope and Burtree Pasture Mines, but no miners put in an appearance. The Miner’s Committee yesterday distributed £1 10s each to old miners who have not obtained temporary employment, which is to be continued every month until further notice. Much excitement prevails in the dale.

7th October 1882 (Hexham Courant)

WEARDALE LEAD MINES

On Monday, the Weardale lead mines were partly opened. At the end of June, the miners, numbering under 200, turned out on strike, on a resolution that they would take no more “bargains” under the present agents and the “new system” under which bargains had been taken. “Bargains” were consequently not offered for the September quarter, the formation of a new company for the working of the Weardale mines being anticipated. This company however, does not appear to have been yet finally formed, pending which a temporary reduction of royalties we understand has been made by the Ecclesiastical Commissioners so that the mines could be opened. “Bargains’ were consequently offered late last week, when about 30 persons entered into quarterly stipulations to commence on Monday. In the meantime, mass

meetings of the lead miners have been held, and resolutions passed confirming their resolution on which they acted at the close of June. The bulk of the miners are consequently still out, refusing to present themselves for bargains on the above ground.

Marriages

At Alston Wesleyan Chapel, 5th inst., Thomas Millican, Garrigill to Isabella Armstrong, Alston.

See 22nd February 1873, and 7th July 1877.

7th October 1882 (Hexham Herald)

Deaths

Beldy, Garrigill, 28th ult., aged 76, Elizabeth Coates widow of Matthew Coates.

Nenthead, 28th ult., aged 4 years, George Brown son of Thomas Brown.

See 9th September 1882.

14th October 1882 (Hexham Herald)

STANHOPE

FATAL QUARRY ACCIDENT

On Thursday a fatal accident occurred at Newlandside, Limestone Quarry. While a workman Robert Collingwood was tipping a tub of limestone, the tub slipped over the face and deceased with it falling 46 feet. The poor fellow was instantaneously killed. Deceased was about 26 years of age, was a well respected and steady young man, and son of Mr Wm. Collingwood of Stanhope.

William Collingwood married Margaret Dixon, 2nd quarter 1849, at Weardale.

In 1851, at Stanhope, William Collingwood, lead ore washer, aged 25, his wife Margaret, 25, and son John J, 9 months.

In 1861, at Stanhope, William Collingwood, lead ore washer & Wesleyan local preacher, aged 35, his wife Margaret aged 35, children John J, lead ore washer, aged 10, William 8, Elizabeth 6, Robert 4, and George A 10 months.

In 1871, at Stanhope, William Collingwood, mineral agent in Iron works, aged 45, his wife Margaret aged 45, children John J, labourer, aged 20, William, labourer, aged 18, Elizabeth 16, Robert, labourer, aged 14, George Alfred, errand boy at Iron works, aged 10, Thomas Dixon 9, Septimus 7, and Ann Mary aged 5.

Margaret Collingwood, died 2nd quarter 1878, aged 52, registered at Weardale.

In 1881, at Stanhope, William Collingwood, widower, coal agent, aged 55, children John J, quarryman, aged 30, Robert, quarryman, aged 25, Thomas, pupil teacher, aged 19, Septimus, pupil teacher, aged 17, and Annie Mary 15.

In 1891, at Front Street, Stanhope, William Collingwood, widower, retired coal agent, aged 65, son, John J, limestone quarry labourer, aged 40, daughter Elizabeth Gibson, married, aged 36, and granddaughter Annie aged 7 months.

William Collingwood, died 3rd quarter 1895, aged 70, registered at Weardale.

NENTHEAD

The Nenthead and Tynedale Lead and Zinc Company, Limited, according to the 'Investors Guardian,' propose to take over the London Lead Company and the Tindale Spelter Company. It was registered on the 28th ult., with a capital of £120,000 in £1 shares with the following first subscribers:-

T. Bell Barker, South Shirley	5,000
J. C. Swan, Newcastle, Spelter Manufacturer	5,000
J. Pattinson, Newcastle, Analytic Chemist	5,000

J. G. Cranston, Newcastle, Mining and C. E.	500
R. S. Watson, Newcastle, Solicitor	1,000
J. W. Swan, Coleman St, Chemical Manufacturer	5,000
J. J. Sellon, 78 Hatton Garden, Metallurgist	5,000

The number of directors is not to be less than five, nor more than eight; qualification, shares or stock to the nominal value of £250; the subscribers are to appoint the first and are to act ad interim; the company in general meeting will determine remuneration.

Deaths

Alston, 4th inst., aged 43, Teasdale Whitfield.

In 1871, at Edmunds Lane, Alston, Ann Whitfield, widow, formerly domestic servant, aged 66, unmarried children Mary domestic servant, aged 46, John, lead miner, aged 44, Teasdale lead miner, aged 30, grandson Ralph Whitfield, lead miner, aged 16.

In 1881, at 15 Edmunds Lane, Alston, John Whitfield, unmarried, coal miner, aged 52, his unmarried brother Teasdale coal miner, aged 42, sister Mary house keeper, aged 54, son Ralph lead miner, aged 22 (birth registered at Alston, 1855). In 1891, at Edmunds Lane, Mary Whitfield, single, aged 64, and son Ralph , masons labourer, aged 30. In 1901, at Grisedale Lane, Mary Whitfield, single, aged 77, and son Ralph, lead miner, aged 45. In 1911, at Wolsingham, Thomas Whitfield, house joiner, aged 71, his wife Anna 68, son Richard, steel works labourer, aged 33, daughter Mary Ellen 32, nephew Ralph Whitfield, steel works labourer, aged 60, and niece Honey Whitfield 8. Ralph Whitfield died 2nd quarter 1924, aged 69.

See 22nd June 1878

Garrigill 10th inst., aged 58, Mary Pearson wife of Joseph Pearson.

In 1881, at Garrigill Gate, Joseph Pearson, Cordwainer, aged 53, born Burgh by Sands, his wife, Mary 57, children Harriot dress maker, aged 21, John J. Cordwainer, aged 18, and James lead miner, aged 16. In 1891, at Garrigill, Joseph Pearson, widow, Cordwainer, aged 63, daughter Harriet 31, and son John J, Cordwainer, aged 28.

Joseph Pearson died 4th quarter 1904, aged 76.

21st October 1882 (Hexham Courant)

THE LONDON LEAD COMPANIES MINES.

The London Lead Company have now handed over their Alston Mines and plant to a new Company formed by Messrs Swan Bros. Newcastle. The other night the miners held a meeting of inquiry as to what was to be done with their fund a sick and burial and Pension Company. A deputation waited upon Mr Bainbridge, Newhouse Middleton, and he stated the money would stay in the hands of the old Company, and that Gentleman would be prepared to transact the Alston moor business and correspond with the Company as before. Some miners at Nenthead prefer to have their share of the capital so that they might break up the concern and some are trying to make out how much they would get.

27th October 1882 (Newcastle Courant)

THE TEESDALE LEAD TRADE

In conformity with arrangements entered into between Mr R. W. Bainbridge, the Superintendent of the London Lead Company, and Mr W. T. Scarth, J.P., the

chief agent of the Duke of Cleveland, the books of the Governor and Company, are being examined by professional accountants with a view of presenting to the lessor of the royalties a statement as to the receipts and expenditure of the company for the past 30 years. Contingent upon the character of the statement of facts submitted to the Duke of Cleveland will hinge a reduction of the royalty dues, and in fact, an answer to the prayer or memorial of the lead miners already presented. It is well known that during the past few years a very large expenditure of capital has been incurred by the London Lead Company in barren and futile explorations, but in the meantime comes the gratifying intelligence that a new and rich vein of lead has been struck by the workmen of the London Lead Company at the Ashgill Head Mine. There are other and independent workings in Teesdale, which are being carried on to profit, and notably the lead mine at Green Hurth, leased under the Duke of Cleveland, and which is rich in silver.

1st November 1882 (Teesdale Mercury)

HARWOOD.

Sad and Fatal Accident at the Greenhurth Lead Mine. —On Thursday last, whilst Mark Allinson and Nicholas Wearmouth were engaged at the forehead of the working, at the above mine, as pickmen, a heavy fail of stone suddenly came upon Allinson, crushing him to death instantly. The other partner, Wearmouth, barely escaped, most fortunately only sustaining a few slight bruises. The deceased leaves a wife and four young children to deplore his loss.

Mark Allinson married Margaret Walton, 2nd quarter 1876, at Teesdale.

In 1881, at Forest & Frith, Teesdale, Mark Allinson, labourer, aged 31, his wife Margaret 25, children, Thomas 7, William 4, Frederick 2, and Margaret Ann 0.

Margaret Allinson married Jonathan William Hutchinson, 2nd quarter 1885, at Teesdale.

In 1891, at Forest & Frith, Teesdale, Jonathan Wm Hutchinson, farmer & lead miner, aged 34, his wife, Margaret 35, children, Albert 5, Selinea 3, children in law, Thomas Allinson, lead miner, aged 17, William Allinson, lead ore dresser, aged 14, Frederick Allinson 12, and Margaret Ann Allinson 10.

11th November 1882 (Hexham Courant)

ROOKHOPE

Fatal Accident occurred at Grove Rake in Rookhope. Whilst John Joseph Roddam, lead ore washer was engaged at the ore washing place, (*Friday last*) he got one of his legs entangled in the washing machinery, and it was so severely crushed that he died from his injuries about six and a half hours after the accident. *In 1881, at Wolfcleugh, Stanhope, George Roddam, shepherd, aged 39, his wife Esther (Walton, married 1865, at Weardale) aged 38, children John Joseph, lead ore washer, aged 15, Thomas lead ore washer, aged 13, Robert P. 11, Leah 8, George W. 5, and lodger Mary Ann Walton, widow, aged 65.*

Deaths

At Nenthead, Brownley Hill, 5th inst., aged 38, Dinah, wife of James Rutherford.

See 5th April 1884

13th November 1882 (Northern Echo)
THE WEARDAL MINERS. —The wage men employed at Burtree Pasture Mine ceased work on Saturday, as a protest against the present agents and their system. The enginemen at Green Laws left work a few days ago.

25th November 1882 (Hexham Courant)
Deaths
At Nenthead, 19th inst., aged 34, John Trathan.
In 1871, at Donks Hall, Nenthead, Richard Trathan, lead miner, aged 59, his wife Catherine (Erwin, married 25th May 1837) aged 55, son James labourer, aged, 33, married daughter Jane Barkla labourers wife, aged 23, son John lead miner, aged 23, daughter Elizabeth dressmaker, aged 15, grandsons William 8, Walton 7, George 2, and grand daughter Ruth 4 years.
Richard died in 1879, aged 67.
In 1881, at Overwater, Nenthead Catherine Trathan, widow, aged 65, children, James cartman, aged 42, Thomas general labourer, aged 31, John farm servant, aged 32, William general labourer, aged 18, Walter lead ore washer, aged 17, Ruth dressmaker, aged 14.
See 5th May 1877, 3rd May 1879, and 7th August 1880.
At Nenthead, 2nd inst., aged 13 years, Elizabeth, daughter of Thomas Roddam.
In 1841, at Brown Gill, Joseph Roddam, lead miner, aged 51, his wife Margeret (Bell, married 11th June 1815, Alston), aged 45, children John 20, William 13, Elizabeth 10, Hannah 7, and Thomas 2.
In 1851, at Browngill, Margaret Roddam, widow, annuitant, aged 57, children Elizabeth 19, Hannah, dressmaker, aged 17, and Thomas 11.
In 1861, at Browngill, Margret Roddam, widow, annuitant, aged 65, and son Thomas, lead miner, aged 21.
In 1871, at High Nentsbury, Thomas Roddam, lead miner, aged 31, his wife Hannah 33, Joseph 9, Priscilla A.7, Margaret 5, John 3, and Elizabeth 2.
In 1881, at High Nentsbury, Nenthead, Thomas Roddam lead miner and farmer of 12¾ acres, aged 42, his wife Hannah aged 44, children, Joseph, general labourer, aged 19, Priscilla 18, Margaret 16, John general labourer, aged 13, Elizabeth 12, Sarah Jane 9, Norton 4, and Thomas 8 months. In 1891, at High Nentsbury, Thomas Roddam, lead miner, aged 51, his wife Hannah 53, children Joseph W, road surfaceman, aged 29, Norton C 14, and Thomas 10.
In 1901, at High Nentsbury, Thomas Roddam, grazing farmer, aged 61, his wife Hannah 64, children Joseph, highway worker, aged 39, Sarah Jane 28, Thomas 20, and Laura 2.
Thomas Roddam died 4th quarter 1901, aged 61.
In 1911, at Nentsbury, Hannah Roddam, widow, aged 73, son Joseph W. road surveyor, aged 49, daughter Sarah Jane 39, son Thomas, farm labourer, aged 30, grandchildren Laura Amelia Roddam 12, and Thomas Baty Roddam 9.
See 9th July 1870, & 6th September 1873.

1st December 1882 (Newcastle Courant)
GREEN HURTH LEAD MINE
This mine continues to give good returns; about 100 tons of lead ore per month. The Swan shaft is now sunk to 45 fathoms the ore continuing good to this depth, thus ensuring good returns for a long time to come. Not withstanding the low

price of lead, and the unusually heavy outlay for machinery, sinking the shaft &c., a dividend of 3s per share has been paid this month, being the third dividend this year of the same amount.

6th December 1882 (Teesdale Mercury)

Sir, —A subject of considerable local interest was discussed at the meeting of the Tees Conservancy Commissioners held at Darlington, on the 28th ult., and one which is ever and anon cropping up in the proceedings of the above authority. I allude to the pollution of the water of the river Tees, caused by the old and now almost obsolete mode of exploration for lead veins by the process of “hushing.” To those of your readers unacquainted with this method of “prospecting,” I may explain that in order to discover the vein or lode, a reservoir or dam of suitable dimensions is constructed on the side of the hill, on ground where it is supposed the metalliferous vein is hidden from view, such ground being usually “picked,” or otherwise partially broken up preparatory to the discharge of the large volume of water from the reservoir. The roughened and disturbed character of the surface of the ground allows the rushing waters to obtain a firmer grip of the portion to be bared, and the weight and force thus brought to bear on the area desired to be exposed, speedily carries away the alluvial deposit, which overlies the strata underneath. From the comparatively light nature of the soil and clay thus displaced, the finer particles are carried a considerable distance down the river, giving it a sort of yellow tinge, and the nearer the vicinity of the bushing operations the thicker does the muddy appearance of the water become. And it is this discolouration which is so an annoying to the angler who indulges in the art of fly fishing, bait fishing not being quite so much interfered with, as the fish will frequently take the latter when they cannot see the fly through the polluted water. The remedy for this vexatious and troublesome annoyance suggested at the above meeting of having pits in which to allow the muddy matter to settle, would be altogether impossible of application in the case of "hushing;” the only measure of an effective character would be an entire stoppage or disuse of this old-fashioned method of mining, which we understand is now only followed by a single party in Upper Teesdale. Reference was also made at the Darlington meeting to the extensive ore dressing arrangements of the London Lead Company. I can safely state that every precaution is taken by this old-established and enterprising firm of mining adventurers to secure the smallest particles of lead that may happen to pass from their dressing floors in the form of mud, and which is held in suspension by the water, by the erection at considerable expense, of thousands of feet of settling pits, where, as alluded to by one of the speakers, the water is allowed to stand until the muddy matter has subsided. And it may also be added, that in this Company’s Teesdale lease, a clause is inserted prohibiting the use of “hushing"—in the proper acceptation of the term —in their mining operations, which has hitherto been observed to the letter. The small quantity of discoloured water* from the ore-dressing floors being somewhat of a heavier specific gravity than those arising from “hushing," are soon lost in the larger volume of the Tees water when they reach that natural drainer of the valley, and are scarcely traceable beyond a few miles after their entry therein. The Lead Company have ever evinced their readiness to meet the wishes of the authorities in the important matter under consideration, and their efforts in this respect have been

praiseworthy. —I am, &c., AN INHABITANT OF UPPER TEESDALE. Dec. 4th. 1882.

9th December 1882 (Hexham Courant)

THE WEARDALE LEAD MINES

The Weardale Lead Mines announced with much regret that Mr Chadwicks efforts to form a company for working and developing the Weardale lead mines have been finally abandoned.

Marriages

At Alston Wesleyan Chapel, 4th inst. William Fawcett of Craig Shield, near Alston to Tamar 4th daughter of the late Matthew Robson of Low Farnberry near Alston.

See 8th June 1878, 7th February 1891, 4th March 1893, and 12th October 1895.

16th December 1882 (Hexham Courant)

Deaths

At Nenthead, 30th ult., aged 26, Elizabeth Ann, daughter of Caleb Walton, lead miner.

In 1841, at Bloomsbury Hall, Nenthead, Robert Walton, lead miner, aged 58, his wife Ann 50, children William 27, Robert 25, Caleb 15, Margaret 13, Sarah 12, and George 9 years.

In 1851, at Low Dykeheads, Ann Walton, lead miners widow, aged 58, children, William, lead miner, aged 37, Robert, lead miner, aged 35, Caleb, lead miner, aged 26, Margaret 24, Sarah, dressmaker, aged 22, and George, lead miner, aged 19. In 1861, at Overwater, Caleb Walton, lead miner, aged 36, his wife Mary aged 32, born Stanhope, children Robert 9, and Elizabeth A 5. In 1871, at Overwater, Caleb Walton, lead miner, aged 46, his wife Mary 42, children Robert, lead ore washer, aged 18, Elizabeth Ann 15, Mary Jane 6, and Bridget 4.

In 1881, at Overwater, Nenthead, Caleb Walton, lead miner, aged 54, his wife Mary (born Stanhope) aged 49, children Robert lead miner, aged 28, Elizabeth A. general servant, aged 25, Mary J. general servant, aged 15, and Bridget aged 13.

Caleb Walton died 1st quarter 1890, aged 62.

In 1891, at Overwater, Mary Walton, widow, aged 62, and daughter Bridget, dressmaker, aged 23.

At Alston Workhouse, 3rd inst., aged 78, Edward Percival, formerly lead miner.

In 1841, at West Nenthead, Hannah Percival, aged 70, Edward Percival, lead miner, aged 30, John Percival, lead miner aged 30, Robert Percival, apprentice shoemaker, aged 25, and Hannah Percival 9. In 1851, at Fair Hill, Hannah Percival, lead miners widow, aged 81, son John, lead ore miner, aged 42, and granddaughter Hannah aged 19.

In 1861, at Shield Hill Top, Garrigill, Nancy Shaw, widow, farmer of 76 acres, aged 67, unmarried sister Mary Percival, domestic servant aged 57, unmarried brother Edward Percival, carter, aged 55, and Isaac Thompson, lead miner, aged 45. Edward was living with his sisters in 1871, in 1881 his listed as being in the workhouse.

At Nenthall, 4th inst, aged 51, George Spark, lead miner.

In 1841, at Beldy, Ann Spark, widow, aged 40, John Spark (son of George Spark and Ann Pearson who married 3rd July 1817. George's burial is

recorded at Garrigill 9th October 1834, aged 44 years.), lead miner, aged 20, Jonathan lead miner, aged 15, Thomas 15, Jane 13, George 10, and Ruth 1.
In 1851, at Pasture House, Nanncy Spark, widow, domestic servant, aged 51, children, Jonathan lead miner, aged 28, Thomas lead miner, aged 25, Jane 23, George lead miner, aged 20, granddaughter Ruth Spark 11.
In 1861, at Pasture House, Jonathan Spark, lead miner, aged 38, sister Jane Spark, housekeeper, aged 33, brother George Spark, lead miner, aged 30, nephew William Spark, aged 6.
In 1851 at Nenthall, Elizabeth Lee, widow, grocer, aged 75, son Thomas, lead miner, aged 38, sons wife Ann (Spark, married 26th June 1845, Alston) aged 31, grandchildren Elizabeth 5, Anne 3, and William 1.
Thomas Lee died 3rd quarter 1856.
In 1861, at Nenthall, Ann Lee, widow, grocer, aged 41, children William 11, George 9, and Wallace 6.
In 1871, at Nenthall, Ann Lee, lead miners widow, aged 51, sons William Lee, lead miner, aged 21, George Lee, lead miner, aged 19, Wallace Lee, lead miner, aged 16, and boarder George Spark, lead miner, aged 40.
In 1881, at Nenthall, Ann Lee, lead miners widow, aged 62, and her brother George Spark, lead miner aged 50.

16th December 1882 (The Times)

NENTHEAD AND TYNEDALE LEAD AND ZINC COMPANY (LIMITED)

Comprising—1. The Lead Works and Silver Works at Nenthead; 2. The Spelter or Zinc Works at Tindale; 3. The Freehold Estate Mines, and Royalties of Priorsdale; 4. Leasehold Mines at Nenthead, Garrigill, and Alston Moor; 5. Freehold and Long Leasehold Properties at Nenthead and Garrigill. The whole being in the County of Cumberland.

CAPITAL £120,000, IN 120,000 SHARES OF £1 EACH,

Of which 40,000 have already been privately applied for. 2s. 6d. on application, 2s. 6d. on allotment, and the remainder as may be required.

OFFICES — 1, DEAN STREET, NEWCASTLE-ON-TYNE.

ABRIDGED PROSPECTUS.

This company is formed for the purpose of acquiring all the freehold and leasehold property, mines of lead ore and zinc ore, crushing, dressing, and other machinery; and smelting mills, situated in the valleys of the Tyne and Nent, and hitherto owned and worked by the London Lead Company, and by the Tindale Spelter Company.

Some idea of the great extent, value, and importance of the undertaking will be gathered from the brief statements following.

The freehold property of the company is extensive, and largely increases the value and solidity of the undertaking. The Priorsdale estate covers 3 square miles. It consists of sheep farms and grazing land, with suitable farmhouses and buildings, together with 400 acres of plantations. There are besides numerous parcels of land and many houses in Nenthead and Garrigill held for the residue of term of 1000 years. The rents amount to £677 yearly. There are other houses and buildings either reserved to the use of the company or to the public, on which no rental is charged. The growing timber on the Priorsdale estate is valued at upwards of £7000 (see Mr. Bewick's report). This property not being essential to the working of the mines could, if necessary, be sold, reserving royalties, roads, reservoirs, and water rights.

The lead smelting works are complete in every department, and fitted with modern appliances for economical working. They are now equal to a production of 2500 tons of market lead per annum, and are at present in nearly full work.

There is also an extensive manufacture of litharge, of a quality much appreciated, and there is a constant and strong demand for all that is turned out.

The extraction of silver is effected by the Rozan patent process at a great saving in cost. The make of the current year is calculated at above 12,000 ozs. The spelter or zinc works comprise crushing; mills, ore-dressing machinery, eight calcining furnaces, 14 smelting furnaces carrying 912 retorts, retort manufactory, kilns, 40 workmen’s' cottages, manager's house, and all accessories of a large spelter manufactory. The grinding mills and machinery are driven by waterpower; the situation is advantageous for cheap working, and there is good railway connection with the North Eastern system. These works have of: late been largely increased. In 1869 the out-

turn was 626 tons; last year it reached 1410 tons, and the present output is equal to 1600 tons per annum. The produce of these works meets a ready sale, as the metal is of high-class quality.

The zinc works are of exceptional importance. They secure the means of advantageously treating the immense reserves of zinc ore existing in the company's mines, and of making the working of the mines profitable, even in times like the present when the price of lead is extremely low.

The mines and mining property of the company are of the most extensive character, covering an area of nearly 13 square miles, and comprising some of the richest mining ground ever worked in the United Kingdom. Of this, 3 square miles are freehold, and the remainder leasehold.

There are 51 important veins and branches, besides others of less value. From 21 of these ores of lead and zinc are being raised, and in six veins work of exploration and development is being carried on. There is thus the certainty of a steady yield of ore. Much attention has lately been given to the development of the mines, and the production is increasing. Last year's produce exceeds 4000 bings lead ore and 1500 tons zinc ore, and is the largest since 1875. From the work already done it is seen that there will be a further increase during current year. There are 163 men raising ore, and 26 employed in exploration and development. The reserves, as set forth in the report of Mr. Bewick are computed at 12,000 to 15,000 tons of lead ore, and 40,000 tons of zinc ore.

The ore is cheaply extracted, for there are 43 miles of levels (of which 35 miles are laid with iron rails), and these effectively drain the mines, and by them the mineral is brought to the day, and direct to the various dressing-floors There is thus no cost for pumping nor for lifting the ore from shafts. This extensive system of levels, besides securing the cheap extraction of the ore, gives easy access to the great extent of valuable mining ground in which new developments and exploring works are being advantageously carried forward.

The Admiralty deep level driven from Alston up the Nent Valley unwaters a section of strata 40 fms. deeper than the present working levels.

All the machinery in connection with the ore-dressing and in the smelting works is of the latest and most complete description, and, except in the silver works, is worked by water-power, which is of unusual extent. The main storage reservoir, which is on the company's freehold, has an area of over 6 acres. Its cubic capacity is equal to 17,465,000 Imperial gallons.

Great advantage results from the combination of the lead and zinc industries. The company having their own mines of both lead |and zinc ores, and having smelting works for both metals, is, it is believed, the most extensive and complete of the kind in the United Kingdom.

The smelting works, both for lead and zinc, are very advantageously situated for the purchase and treatment of ores obtainable from the neighbouring mines of other companies.

The mines and works are taken over at a moment when the prices of lead and zinc are extremely low, and, in consequence, come into possession of the company on most favourable terms. It is calculated that even at present prices the undertaking will yield good returns on the capital invested, while an improvement in prices to a point much below the average of the last 30 years will make it largely profitable.

The transfer will be direct from the London Lead Company and the Tindale Spelter Company respectively, to the present company, the actual purchase-money being £66,000, but in addition there will be a sum of £2500 paid to cover cost of inspections, agency, and other expenses connected with the negotiations for sale to the company.
The purchase dates from Sept. 30,1882, and all profits from that date accrue to the company.
In the event of no allotment being made, the deposit paid on application for shares will be returned in full. Should the shares allotted to any applicant be less than the number applied for, the surplus paid on application will be credited in reduction of the amount payable on allotment.
Full Prospectuses and Forms of Application for shares can be obtained at the offices of the company, and from the Bankers, Brokers, and Auditors.

23rd December 1882 (Hexham Courant)
Deaths
At Whitehall, Nenthead, 20th inst., aged 52, Betsy daughter of the late Robert Barron, lead miner.
See 15th September 1877, 2nd March 1878 & 28th September 1878.

Deaths
Nenthead, 25th inst., George infant son of Ridley Graham.
In 1881, at Pry House Nenthead, Thomas Graham, farmer of 20 acres, aged 65, his wife Sarah (Cowing, married 13th June 1839) aged 64, children Agnes

38, Ridley lead ore smelter, aged 33, Sarah 28, Joseph general smith, aged 26, John farmers son, aged 24, and William, stoker at lead smelting works, aged 24.
Ridley Graham married Ann Armstrong 2nd quarter of 1882.
In 1891, at Whitehall, Nenthead, Ridley Graham, lead ore smelter, aged 43, and his wife Ann aged 42. See 30th December 1882, 10th September 1892, 7th June 1890, 15th May 1897, & 18th March 1909

6th January 1883 (Hexham Herald)

DEATH OF JOHN WEARMOUTH

It is with the greatest regret that I note the death of a friend and a true son of Weardale, John Wearmouth. It is said that some people are born to trouble. Truly it may be said that the brave fellow who has just passed away was one of these. He was for some time a Clerk at Allenheads W. B. office. About 13 years ago he removed to Newhouse W. B. offices. For some 3 years since, and he then removed to Gateshead, where on Saturday last he expired after an illness of some months duration. Since July, he has lost three of his family, John Wearmouth was a man of undoubted talent. He is the author of several stories and poems. A true friend and a jovial companion, many will be the expressions of regret at his being called away at the early age of 48 years.
In 1841, at Frog Hall, Stanhope, Richard Wearmouth, lead miner, aged 35, his wife Elizabeth (Watson, married 26th May 1827, Stanhope) aged 30, children Mary 12, Ann 10, John 7, and Frances 2.
In 1851, at St John's Chapel, Richard Wearmouth, lead miner, aged 46, his wife Elizabeth 41, children Mary 22, John lead miner, aged 17, Frances 11, Elizabeth 8, Joseph Walton 1, and lodger, Jos Bownas, surgeon, aged 42, born Allendale.

St John's Chapel

Sacred to the memory of
ANN DAUGHTER OF RICHARD
AND ELIZABETH WEARMOUTH
OF ST JOHN'S CHAPEL WHO DIED
SEPT. 27TH 1845 AGED 15 YEARS
ALSO FRANCES THEIR DAUGHTER
WHO DIED MARCH 22ND 1864
AGED 24 YEARS 11 MONTHS
ALSO ELIZABETH THEIR DAUGHTER
AND WIFE OF GEORGE SANDERSON WHO
DIED MAY 6TH 1867
AGED 24 YEARS 5 MONTHS
ALSO THE ABOVE RICHARD WEARMOUTH
WHO DIED DEC. 24TH 1875
AGED 71 YEARS

In 1861, at St John's Chapel, Richard Wearmouth, victualler, aged 56, his wife Elizabeth aged 55, children Frances aged 21, Elizabeth 18, and boarder Joseph Bownass, surgeon general practice, aged 51.
In 1871, at Hood, Stanhope, Richard Wearmouth, landowner, late lead miner, aged 66, his wife Elizabeth, son Joseph, lead miner, aged 21, and grandson John J Sanderson aged 8.
In 1881, at St John's Chapel, Elizabeth Wearmouth, widow, aged 75.
In 1861, at Lane Hill, St John's Chapel, Thomas Wearmouth, lead miner, aged 35, his brother John, lead miner, aged 25, and sister Margaret aged 21.
In 1871, at Parsonage House, Allenheads, John Wearmouth, clerk in lead mining office, aged 35, his wife Elizabeth (Moore, married 1st quarter 1862, Weardale) aged 32, children Sarah A 8, Maggie 6, Emily 2, and Clara 2 months. The sixth child was John William born 1873.
Elizabeth Wearmouth died January 1876, aged 37.
In 1881 at 83 Chichester Street, Gateshead, John Wearmouth, widow, timekeeper at an Iron Foundry, aged 46, children Maria 14, Emily 12, Clara 10, and Jno. Wm. 8. Maria, Clara & Sarah Ann, all died in 1882.
See 15th January 1876

THE WEARDALE LEAD MINES
THE MINES TO BE CARRIED ON FOR THREE MONTHS

The following letter was on Wednesday received by the miners secretary (Mr T. Emerson): -

Ecclesiastical Commissioners London.
S.W 1st January 1883
Weardale Lead Mines

Sir, In reply to your letter of the 25th ultimo, I am directed to state the Ecclesiastical Commissioners for England have agreed to accept a surrender of the lease of these mines held by Mr W. B. Beaumont, on end from 31st March 1883. It is understood that the working of the mines will be carried on by Mr Beaumont during the interval which must be occupied in making arrangements for the surrender. Mr Beaumont has I believe given notice that his agents will be prepared to let bargains in the usual way (to expire on the 31st March) to those miners who wish for employment. The Commissioners trust that it will be found practicable to make arrangements for the carrying on of the mines by other parties as from the date of the surrender by Mr Beaumont.

I am dear sir your very obedient servant George Pringle.

13th January 1883 (Hexham Courant)

WEARDALE
SAD DEATH BY FIRE

During Friday evening, an aged woman named Dorothy Heatherington, residing at Burnfoot, near St John's Chapel, Weardale, was accidentally burnt to death in her cottage. Her clothes it is supposed had accidentally caught fire.

In 1881, at Burn Foot, Stanhope, Dorothy Heatherington, unmarried, aged 80.

Marriages

At Newcastle Brunswick Place Chapel, 6th inst. Edward Vipond Armstrong to Frances 2nd daughter of the late Thomas Todd of Alston.

In 1881, at Clarence St, Newcastle, John Robinson, bread & biscuit baker, aged 52, his wife Hannah 57, nephew Edward V. Armstrong, printer compositor, aged 26, and nephew, Andrew Armstrong, printer compositor apprentice, aged 16.
In 1901, at Stanton St., Newcastle, Edward V Armstrong, printer compositor, aged 47, born Newcastle, his wife Frances 42, born Alston, children Florence Vipond 17, Mary H, saleswoman draper, aged 16, Thomas Robert, apprentice draper, aged 14, John A, 10, Edward S, 8, and Cecil 3.
In 1911, at 286 Wingrove Avenue, Newcastle, Edward Vipond Armstrong, printer compositor, aged 56, born Newcastle, his wife Frances 52, born Alston, children Florence Vipond 27, Mary Horsley, cashier at drapers, aged 26, Thomas Robert, assistant draper, aged 24, John Arthur, colliery clerk, aged 20, Edward Sidney, student teacher, aged 18, and Cecil 13.

13th January 1883 (Hexham Herald)
Deaths
Hay Ring, Nenthall, 8th inst., aged 73, Ann widow of Joseph Bainbridge.
In 1851, at Low Grassfield, Joseph Bainbridge, lead smelter, aged 39, his wife Ann 39, children William 10, Joseph 8, Isabella 6, Christopher 4, and Mary Ann aged 1. In 1861, at Low Grassfield, Joseph Bainbridge, lead crystalliser, aged 50, his wife Ann 50, children William, lead ore roaster, aged 20, Joseph lead miner, aged 18, Isabella 16, Christopher lead miner, aged 14, and John 9.
In 1871, at Low Grassfield, Joseph Bainbridge, lead ore smelter, aged 60, his wife Ann 60, children William, lead ore smelter, aged 30, Isabella 26, Christopher, blacksmith, aged 24, and John, lead ore smelter, aged 18. Joseph Bainbridge died 3rd quarter 1871.

27th January 1883 (Hexham Herald)
ALSTON
RURAL SANITARY AUTHORITY
Dr Pickworth's medical report for No. 2 district was read. It stated the number of deaths for the year to be 55, 27 males and 28 females. The sanitary condition of the district was satisfactory.

3rd February 1883 (Hexham Courant)
ALLENDALE
THE SINGULAR QUARRY ACCIDENT
THE INQUEST
An inquest was held on Saturday last, at the house of Mr Robert Henderson, Broad Gate Head, before Mr W. Brewis Elsdon, deputy coroner on view of the body of Wm. Parker who was killed on the preceding Thursday through falling over a precipice at Holmes Lane Quarry. The first witness called was Joseph Parker, who said he was a grocer and lead miner, and lived at Plantation House, Low Forest. The body lying dead within his house and viewed by the coroner was that of his son, William Parker aged twenty years. He was a stonemason and lived with him (witness) at Plantation House. Deceased was brought home dead about one o'clock on the afternoon of Thursday the 25th January last. He

saw him last alive at seven o'clock on the forenoon of the same day at which time he left the house to go to work.
Thomas Dodd said he was a stonemason and lived at Spring House, Allenheads. He knew and was well acquainted with Wm. Parker the deceased. The deceased and himself were for the time being employed at Holmes Lane Quarry, at Sinderhope. The quarry was situated on the face of a very steep hill. On Thursday there was a considerable of hewn trees lying on the hillside between a public footpath and the quarry. At ten o'clock in the forenoon of the day in question deceased and he left off work in the quarry and went to a lodging house attached to the Holmes Lane Lead Mine and had something to eat. They were both there about fifteen minutes and then left to return to work. They were perfectly sober having had nothing to drink except tea. They approached they approached the quarry by a footpath across which was lying the trunk of a hewn tree resting on some loose branches. There was a little snow on the ground, which was in a melting state. The ground was wet and slippery. In climbing this bank towards the quarry he (witness) went first and would be about three yards from the deceased, who of course was behind him. In stepping over the trunk of the tree across the footpath before mentioned he (witness) must have trod on one of the branches because the trunk itself was seen by him in motion just as he was in the act of stepping over it. The tree was in motion down the hill. It struck the deceased on the legs and threw him down. The trunk dragged him down the hill for a short distance and then passed over his body. When the tree trunk struck the deceased he was in the act of running away from it. The thick end of the trunk struck the deceased on the right leg. After deceased was struck as before mentioned he rolled down the hillside and over a steep precipice thirty feet high or thereabouts. Witness at once went to the assistance of the deceased and found him insensible and bleeding from the mouth and nose. Joseph Forster and Joseph Stoker came to the spot within a minute and they carried the deceased to his fathers house. He (witness) went for the doctor, and deceased was then alive. – By a juror: The footpath in question leads to the quarry and is only used by the workmen. - Deceased and he could have got to the quarry by another road where no timber was lying. They had passed over the same tree trunk several times previously and never suspected any danger.
Joseph Forster said he was a farmer and lived at Holmes, Sinderhope. He knew and was well acquainted with the deceased. About a quarter past ten o'clock on Thursday, he saw deceased lying near Holmes Lane Quarry, Thomas Dodd was beside him. The trunk of a hewn tree was also lying beside the deceased. He was bleeding from the mouth and nose. Thomas Dodd at once left for a doctor. He (witness) and two men carried the deceased into the shop attached to the Holme Lane Lead Mine, and he died there in his (witnesses) presence about half past ten o'clock in the forenoon of the same day. He was never conscious after he first saw him.
The jury returned a verdict "that William Parker died on the 25th of January, at Holmes Lane, Sinderhope, from injuries received through being thrown over a hill side and precipice by a trunk of a hewn tree which was accidentally set in motion by Thomas Dodd."
In 1871, at Sinderhope, John Woodmas, farmer of 40 acres, aged 64, his wife Isabella 65, son Thomas, stone mason, aged 30, adopted daughter Margaret Coats 21, and grandson William Parker 8.

In 1881, at Plantation House, Joseph Parker, lead miner, aged 45, his wife Rachael 48, unmarried sons, John, general labourer, aged 21, William, stone mason, aged 18, and Thomas, general labourer aged 17.

Deaths

At Nenthead, 18th ult., aged 7 years, Hannah, daughter of Jonathan Cousins, lead miner.

In1861, at Welgill, Jacob Richardson, lead miner, aged 49, his wife Jane aged 49, born Stanhope, children Francis, lead miner, aged 22, Jane19, Jacob, lead miner, aged 16, Mary 14, and William 11.
Jacob Richardson probably died 3rd quarter 1868.
In 1871, at Welgill, Jane Richardson miners widow, aged 59, son Jacob, lead miner, aged 26, son William lead miner, aged 21, and servant Sarah Patrick, dairymaid, aged 28.
In 1841, at Welgill Dykeheads, William Cousin, lead miner, aged 40, his wife Hannah (Todd, married 14th May 1825, Alston) aged 35, children Joseph 15, Hannah 13, Ann 12, Thomas 11, John 9, Mary 8, William 6, Matthew 5, Phebe 2, and Isaac 5 months.
In 1851, at Welgill Dykeheads, William Cousin, land owner, farming 12 acres, aged 51, born Allendale, his wife Hannah 46, born Alston, children Joseph, lead miner, aged 25, Thomas, lead miner, aged 21, John, lead miner, aged 19, Mary 18, William, lead miner, aged 16, Matthew, lead miner, aged 11, Phebe 12, Isaac 10, Jonathan 7, Henry 5, and Margaret 1.
In 1861, at Coldron Snout, Nenthead, William Cousin, farmer of 24 acres, aged 62, born Allendale, his wife Hannah aged 56, born Alston, children William, lead miner, aged 26, Isaac, lead miner, aged 20, Jonathan, lead miner, aged 17, Henry, labourer on farm, aged 15, and Margaret 11.
William Cousin died 2nd quarter 1861, Hannah died 4th quarter 1866, aged 62.
In 1871, at Dykeheads, Nenthead, Jonathan Cousin, lead miner, aged 27, his wife Mary (Richardson, married 28th April 1867, Nenthead) aged 24, children Jacob 4 and John 2 years.
In 1881, at Nenthead, Jonathan Cousin, farmer of 10 acres, aged 37, his wife Mary 34, children Jacob 14, John 12, Mary Jane 9, Hannah 5, and Jonathan 1 month. In 1891, at Nenthead, Jonathan Cousin, lead miner, aged 47, his wife Mary 44, children John, lead miner, aged 22, Mary J 20, and William 8.
In 1901, at Holme Foot, Jonathan Cousin, married, lead miner, aged 57, children Mary J 29, and William, lead miner, aged 15.
Jonathan Cousin died 13th April 1903, aged 59.
Probate gives: —Jonathan Cousin of Nenthead, Alston, Cumberland, retired miner died 13th April 1903. Probate Carlisle 8th May to Jacob Cousin fireman, William Cousin miner, and Mary Jane Cousin spinster. Effects £665 6s 4d.

At Hawthorne, Melbourne, Australia, 18th December, aged 50, William Walton, 3rd son of the late William Walton of Peasemeadows, Allendale.

The Argus (Melbourne)
Tuesday 19 December 1882

One of the oldest and most respected officers of the Railway department, Mr William Walton, died at his residence, Hawthorn, yesterday morning. His health of late years began to fail, and as his case became serious, he was about 18 months ago granted a years leave of absence. He went to England, and remained there during the greater part of his holiday, returning to the

colony about six months ago. On his again resuming work the illness returned and he gradually sank until his death. He was 52 or 53 years of age and he leaves a wife and two children. Mr Walton occupied the position of engineering surveyor and first entered upon his duties in the latter part of 1855 he was thus 27 years in the department, and was universally regarded as one of its most able and efficient officers. During his life, he was connected with some of the earliest railway undertakings in the colony. He was engaged under Mr Greene, engineer of existing lines, on the main lines and under Mr. Watson on the North Eastern system, the Gipps Land line and more recently on the lines in the North Western district, such as Boort and Charlton. *See 24th July 1875, 15th January 1881, and 14th June 1884*

At Garrigill, 27th ult. aged 1 year, Alfred son of Jacob Craig, lead mine agent. *See 11th June 1887*

NENTHEAD SCHOOL

On Tuesday evening last, the Nenthead school committee met at their monthly meeting. Mr Jonathan Walton, Donk's Villa, occupied the chair as appointed at the yearly meeting, the voting at which by ballot was as follows:- Messrs. R Bell (secretary), Bolton (treasurer), Jonathan Walton (president), Joseph Thompson, Walton Holmes, Dr Pickworth, Stephenson, T Harrison, and Hill, Mr Walton Holmes and Dr Pickworth not being on the last committee. The chief difficulty which this committee have to contend with is the irregular payment of school pence and irregular attendance of children. It was agreed that several parents and guardians of children be warned to attend the arrears, or they would be summoned at the next county court at Alston.

ACCIDENT AT THE LEAD MINES. —We regret to say that, on Monday sen., John Walton, a pickman at the Wiregill Mine, whilst at work, was severely hurt through a fall of stone. He had one leg broken, beside sustaining internal injuries.

24 March 1883 (Hexham Courant)
WEARDALE
DISTRESS IN WEARDALE
A Weardale correspondent writes:- "The effects of the present severe weather are being heartily felt in Weardale. The whole of the carts employed in the transit of the ironstone from the several mines to the depot at Westgate, which number nearly 100, have been suspended until the weather changes. This is a serious blow to the inhabitants as the carting is the principle source from which they gain a livelihood at present owing to the limited working of the lead mining industry. The dale is in an unprecedented depressed state throughout. A thaw has now set in.

CHILD OVERLAID

At Ireshopeburn, Weardale, on Tuesday morning an infant two months old was unfortunately overlaid by its mother and suffocated.

ALLENDALE

FATAL MINING ACCIDENT

On Thursday afternoon last, an inquest was held at the house of Mr Thos. Whitfield, Scotch Meadows, Allendale, by Mr W Brewis Elsdon, deputy coroner for South Northumberland, touching the death of John Philipson lead miner who was accidental killed on Tuesday evening while following his usual employment. - Thomas Dodd, stonemason, living at Spring House, near Allenheads, said he had seen the body viewed by the coroner and jury and identified the same as John Philipson, aged 42 years. He was a lead miner and lived at Scotch Meadows, and was his brother in law. - John McMillan, lead miner, living at Cupleshaw, said he knew and was well acquainted with John Philipson, who worked alongside him and other miners in Holmes Linn lead mine. About half past five o'clock on Tuesday evening Philipson and he were in the mine, and were occupied together in driving an 'end." Whilst occupied in filling the tub with refuse, which had been taken from the "forehead," a considerable portion of roof gave way. Philipson was struck down, and held beneath the stone. He at once set to work to release him; he would not be beneath the stone for more than two minutes. As soon as he was released he struggled slightly and gasped and then died. The accident took place in the Whiting vein level, and the stone that tell consisted of black shale. The stone fell in two pieces, and about a ton and a half or two tons would fall on the deceased. The stone struck the deceased on the head and then glided on to his shoulders, crushing his breast on to the tub. There were plenty of props where the accident occurred. The Whiting's vein level is six feet in height and perfectly dry. Before commencing to work on the spot where the accident took place, deceased and he together sounded the roof, but failed to discover any unsoundness. The roof was sounded immediately before they commenced filling the tubs: perhaps some twenty minutes before the accident happened. Deceased and he had worked four hours at the place. They did not think it necessary to put in extra timber up to the "forehead." The roof was timbered up within 10ft of the "forehead,' and there were plenty of props lying about the place. The mine belonged to W B Beaumont, Esq., MP. It was the duty of the deceased he to see that the roof was safe before commencing to work, and it was also their duty to keep themselves supplied with props. The stone that fell was thicker at one end than the other, and the thinnest side struck the deceased. It came away without any warning. He had worked for two years past in the mine, and a fall of stone had not taken place before during that period. He had lived for ten years past in the locality, and had never heard of a fall of stone in the mine during that time. The mine required good and careful timbering. He had never known any of the levels propped within 10ft of the "forehead" or "face" of the lead. A verdict to the effect that deceased was accidental killed was returned. The deceased leaves a wife and nine children, and what renders the case still more sad is that his wife is expected to be confined of her tenth child.

In 1871, at Scotch Meadows, Allenheads, John Philipson, lead ore miner, aged 29, his wife Jane (Dodd, married 19th December 1868, at St Peter's, Allendale) aged 25, children Joseph 2, and Elizabeth 1 year.

In 1881, at Scotch Meadows, Allenheads, John Philipson, lead ore miner, aged 38, his wife Jane 35, children Joseph 12, Elizabeth 11, Mary 9, Christopher 7, John 6, Levyah 4, Margaret 3, and Robson 1.
In 1891, at Scotch Meadows, Allenheads, Jane Philipson, widow, farmer, aged 45, children Joseph, lead ore miner, aged 22, Christopher lead ore dresser, aged 17, John lead ore dresser, aged 16, Levyah J. 14, Margaret 13, Robson 11, and Lucy 9 years.

Deaths
Stonecroft Menes near Newbrough, 22nd inst, aged 26 after a lingering illness Mar Ann Jackson, daughter of the late Mr Joseph Jackson.
Garrigill, 22nd inst., aged 58, Jane wife of Edward Rain.
In 1881, at Garrigill Gate, Edward Rain, farmer of 54 acres, aged 57, and his wife Jane aged 55.
Garrigill, 20th *(25th?)* inst aged 83, Mary widow of William Stout.
In 1851, at Gate, Garrigill, Wm Stout, lead miner, aged 56, his wife Mary 50, children John lead, miner, aged 26, Wm, miner, aged 18, and Utrick, miner, aged 15.
In 1861, Mary is listed as a widow (William died 1859), and proprietor of houses.
In 1881, at Garrigill Gate, Mary Stout, lead miners widow, aged 81. Also at Garrigill Gate, Utrick Stout, lead miner & grocer, aged 45, his wife Hannah aged 41, son William aged 12 and daughter Jane aged 12.
Donks Hall, Nenthead 18th inst aged 60, William Stout, Quarryman.
See 1st May 1869, 29th May 1869, and 11th April 1874.

7th April 1883 (Hexham Courant)
WEARDALE
THE LEAD MINES
The long pending Weardale lead mines question which was expected to culminate in a satisfactory arrangement on Saturday, as between the lessors and lessee, does not appear to have done so. In answer to an inquiry, the miners committee were three months ago informed by the Ecclesiastical Commission that they (the Commissioners) had "agreed to accept a surrender of the lease of these (the Weardale) mines held by Mr W B Beaumont, on and from the 31st March 1883." In the meantime, bargains could be let to terminate at this date. The Commissioners also expressed an opinion that they hoped to find it practicable to make arrangements for the carrying on of the mines by other parties from Saturday; but the three intervening months do not appear to have been sufficient to complete negotiations on all sides, according to a communication on Tuesday from the Commissioners to Mr Beaumont's solicitors stating that they (the Commissioners) held the leases "pledged to

deliver possession" on the 31st ultimo, and that they up to Friday had received no reply. The present position of affairs is consequently, not what was anticipated by the lead miners who have so long been in suspense and who anxiously await a settlement of the question. Mr Beaumont's present lease commenced in 1859, and in the ordinary course of events could terminate at his sole option in 1886 and 1897. Some years ago, the question of dues arose, the rent being £4,600. From 1879 to 1880, a temporary reduction of dues was made. From the close of the year 1881, a great deal of correspondence has taken place between lessor and lessee in respect to the terms of the lease. No terms being made as to dues the lessee intimated his intention of abandoning lead mining and the lessors offered to accept a surrender of various conditions where stated, but the present crisis appears to rest upon the communication above referred to. The Commissioners state that no difficulties arise with them and that they are willing to take current going plant. Further information in answer to the Commissioners is anxiously awaited and it is to be hoped that arrangements are so far advanced as to cause as little delay as possible. The Commissioners however, say they "cannot sanction offers of Bargains by Mr Beaumont," and after the date agreed upon must hold him responsible for the condition of the miners. We need not state that Mr Beaumont's answer to the Commissioner's communication is anxiously looked for.

Miners meeting

At a meeting at St John's Chapel on Saturday of the lead mines employed in that district, it was stated by Mr T Emmerson that he would like to see the following epitome of facts, to show the public that their servants (the Ecclesiastical Commission) were justified in demanding the surrender of the lease from the present lessee. Twenty five years ago twenty mines were in full work, giving employment to 1,200 pickmen, besides all other wage men, washers &c. In 1871, only nine mines were working and 722 pickmen, &c., whereas when the mines stopped in July 1882; only four mines were working and 191 pickmen.

Deaths

At Dykeheads, Nenthead, 31st ult. aged 64, Mary wife Isaac Armstrong.

WEARDALE LEAD MINES.

Also appeared in the Hexham Courant of the same date.

Weardale "Blacklegs."

Deaf to pity's tender pleadings,
Destitute of generous feelings,
Starving hosts by double dealings -
Scheming blacklegs.

Patriots freely give their gold
To feed and cloth miners old,
Whilst your hearts are basely cold -
Selfish blacklegs.

Sunk ye are in deeds of shame,
Cause of famine grief, and pain,
Dalesmen loath your very name -
Sneaking blacklegs.

Wrecking churches, mines and homes,
Filling earth with sighs and groans,
Crushing womens, hearts like stones -
Ruthless blacklegs.

Bound not of your vain resources,
Damning gold is in your purses,
Stained with bribes, and blood, and curses -
Woeful blacklegs.

May God the humble poor release,
And ghostly, hungry ruin cease,
And miners reap and honoured peace,
And brotherhood.

WEARDALE
WEARDALE MINES.

The following communications have been received from the Ecclesiastical Commissioners, Whitehall Place:-

"Gentlemen, The subjoined communications have passed between the Ecclesiastical Commissioners and Mr W. B. Beaumont, MP., relative to the Weardale mines, and the Board are desirous that the same should be made public at the earliest opportunity:"

Telegram from Messrs White, Borrett and Grey and Co., to Messrs Dees and Thompson dated April 2nd.

In the absence of any communication from you on behalf of Mr Beaumont, and before placing the papers in the hands of the Counsel, the Commissioners have authorised us to make the following offer, without prejudice, however, to the agreement to surrender on the 31st of March, or to their present position, and with a view, if possible to an amicable settlement of the matter, viz., 'provided possession is given to the Commissioners on or before Saturday next, the 7th April, the Commissioners will be prepared, on receiving possession, either (1) to pay Mr Beaumont the sum of £25,000 for the whole of the contents of the two schedules delivered by him, with the exception of the lead ore referred to in the miscellaneous schedule; or (2nd), to pay to Mr Beaumont the sum

of £20,00, and undertake to pay the balance which shall be found to remain when the valuation has been made by the umpire, together with the interest rate of 4 per cent per annum from the date upon which possession is given. Any question, which may arise in reference to the right of the lessee in regard to the various items in the schedule to be determined by a legal referee.

Copy of letter from Messrs Dees and Thompson, to Messrs White, Borrett and Co., dated Newcastle, 3rd April 1883.
We telegraphed today to state that the offer of the Commissioners made in your telegram of yesterday cannot be accepted. We venture to hold a view entirely different from that which you express yourselves as taking of the effect of the correspondence and the position of the parties.

"We are now anxiously waiting for another reply from Mr Beaumont. Nothing has been received up to this date."

4th May 1883 (Newcastle Courant)
THE TEESDALE LEAD TRADE
The books of the London Lead Company have been examined by professional accountants, and it is understood that the audit embraces a period of over thirty years. The action was taken on the suggestion of the Chief Agent of the Duke of Cleveland, who is the lord of the manor and lessor of the mines, in order to determine the grounds upon which the application of the workmen for a reduction in the dues, was based. No reply has yet been received and meanwhile, although a gloom still rests upon the lead mining industry, the new workings at Wiregill has proved rich in silver. Explorations, however, so far indeed, as the London Lead Company's operations are concerned are not being

extensively carried out. The price of pig lead remains exceedingly low, and in consequence, comparatively few sales are being effected.

12th May 1883 (Hexham Courant)

THE WEARDALE MINES

A letter to Mr T Emmerson (secretary to the Weardale miners committee) from the Ecclesiastical Commission secretary George Pringle.

Sir, I have to acknowledge on behalf of the Ecclesiastical Commission your letter of the 1st inst. asking for information respecting the probable date of the reopening of the mines, and in reply I am directed to state that the Commissioners did all in their power to bring about a settlement with their lessee on the agreed date of the 31st March last.

Other terms have been proposed by the lessee, and every effort is being made on the Commissioner's part to come to a final settlement, if possible before the 30th June.

The Commissioner's greatly regret the protracted delay, but as soon as they can obtain possession of the mines steps will be taken for reopening them so as to put an end to the state of uncertainty and anxiety, which has so long prevailed.

I am Sir

Your obedient servant

George Pringle

Deaths

At Nenthead 6th inst., aged 42 Joseph Millican, lead miner.

In 1881, at Greenends, Nenthead, Joseph Millican, unmarried, lead miner & farmer of 15 acres, aged 39, and his unmarried sister Frances, house keeper, aged 41.

See 21st Nov1868, 28th Sept1872, 8th July 1876, and 11th Oct1884

12th May 1883 (Hexham Herald)

ACCIDENT AT STANHOPE LEAD MILL.

A MAN IN THE CHIMNEYS. HAIR BREATH ESCAPE. HEROIC RESCUE.

Last Friday afternoon an accident occurred which might have been attended with fatal results, had it not been for the courage and prompt action of those present. It appears that 3 men were repairing the chimneys, when one of them stepped on the arch, which gave way and precipitated him into the chimneys a height of 25 feet, into about 4 feet of soot. The other 2 missed him but saw the hole, and at once divined the cause. Looking down the hole they saw him immersed among the soot. Having obtained a ladder they descended, and through several turns and windings forced their way to the unfortunate man, who was up to the breast in dry mill soot. On arriving at the spot in the flue where he had fallen in he could not be seen as he was then overhead among soot. The gallant fellows at last found him almost suffocated and blinded. … His name s Thomas Longstaff and he is one of the oldest hands at the lead mill having wrought there over 50 years. The names of his gallant rescuers are respectively, William Burns, and William Isaac Blades; both lead smelters.

18th May 1883 (Daily Gazette for Middlesbrough)
WEARDALE BALANCE SHEET. —For the half-year ending Lady Day the gross income from the rates of the four parishes of Stanhope, Wolsingham, Hunstanworth and Edmund Byers is £2,848 7s 7d. The total outlay is £2,366 0s 1d, made up of the following items: —Maintenance, £310 3s 4d; out relief, £1,366 4s 3d; lunatics in asylums, registered hospitals, or licensed houses, £232 8s 3d; salaries or other remuneration of officers, £193 11s 0d, officers' rations, £42 17s 6d; extra medical fees, £3 7s 10d; vaccination, £28 11s 0d; building expenses, £21 2s 5d; furniture and property, £49 1s 3d; establishment, £67 10s 10d; removal expenses, 10s. The rateable value of the Weardale mines has increased to the amount of £2,556. The liabilities show a decrease on the corresponding rate of last year. The expenditure of the present as compared with the corresponding half of last year shows a decrease of £403 2s 5d.

19th May 1883 (Hexham Courant)
Deaths
At Holme Foots, Nenthead, 15th inst., aged 32, Sarah Ann, wife of Christopher Armstrong, lead miner.
In 1841, at Holmfoots, Walton Armstrong, lead miner, aged 20, Robert Armstrong, lead miner, aged 20, Stephen Armstrong, lead ore washer, aged 15, Christopher Armstrong, lead ore washer, aged 13, George Armstrong 11, Sarah Armstrong 15, (all previous were the children of Christopher & Thamar Armstrong) and Tamar Armstrong 3 (daughter of John and Mary Armstrong, John Armstrong also being the son of Christopher & Thamar Armstrong).
In 1851, at Lane End, Nenthead, Robert Armstrong, lead miner, aged 30, his wife Ann aged 25, children Diana 7, and Christopher 11 months.
In 1861, at Holme Foots, Robert Armstrong, lead miner, aged 38, his wife Nanny 35, children Dianah 17, Christopher 11, and Mary J 1.
In 1871, at Holme Foots, Nenthead, Robert Armstrong, lead miner, aged 50, his wife Ann, aged 46, son Christopher, lead miner, aged 21, and daughter Mary Jane aged 12 (Mary Jane married John Stout a railway porter, in 1878, and in 1881, they are living at 6 Plummer Street, Elswick, and have a son Robert aged 2).
Ann Armstrong was buried at Nenthead, 2nd October 1878, aged 53.
Robert Armstrong was buried at Nenthead 13th November 1879, aged 57.
In 1881, at Holme Foots, Nenthead, Christopher Armstrong, lead miner, aged 30 and his wife Sarah Ann (Price married 17th December 1873, Nenthead), aged 31.
In Christopher remarried, to Frances Richardson at Alston 22nd May 1884.
In 1891, at Holmefoots, Nenthead, Christopher Armstrong, lead miner aged 40, his wife Frances, 29, son Robert 6, and daughter Ann Mary aged 2 months. In 1901, at Hillersdon Terrace, Christopher Armstrong, mining agent, aged 50, his wife Frances 39, children Robert, apprentice fitter, aged 16, Annie M 10, Salvin 7, John E 4, and Chris 1.
Christopher Armstrong died 1st quarter 1909, aged 58.
In 1911, at Hillersdon Terrace, Frances, widow, aged 49, Salvin, grocers apprentice, aged 17, Vernet, labourer at lead & zinc mines, aged 14, Malcolm 11, Frances 4, married son Robert, fitter at lead & zinc works, aged 26, and daughter in law Annie, 24, born Frosterley, Durham.
See 5th October 1878, 15th November 1879 & 24th May 1884

26th May 1883 (Hexham Courant)
Deaths
At Carrshield 14th inst., aged 71, Thomas Hetherington, lead ore miner.
In 1851, at Throstle Hall, Carrshield West Allen, Thomas Hetherington, lead ore miner & farmer of 10 acres, aged 39, his wife, Sarah (Lowes, married 12th July 1834, Alston) aged 40, children Caleb, lead ore washer, aged 15, William, lead ore washer, aged 12, Betsy 10, John 7, Sarah 2, and mother in law, Sarah Lowes, widow, aged 81.
In 1861, at Carrshield, Thomas Hetherington, lead miner & farmer, aged 49, his wife Sarah 50, children John, lead miner, aged 17, Sarah. 12, Thomas, lead ore dresser, aged 9, and Mary J. 6
In 1871, at Carrshield, Thomas Hetherington, farmer of 10 acres, aged 59, his wife Sarah, aged 60, son, Thomas, enginewright (apprentice) aged 19.
In 1881, at Carrshield, Thomas Hetherington, unemployed lead miner, aged 69, and his wife Sarah, aged 70.

2nd June 1883 (Hexham Courant)
WEARDALE
THE WEARDALE LEAD MINES
An announcement on Saturday that the long pending question between the Ecclesiastical Commissioner's and the lessee, Mr Beaumont, points to the beginning of a new era in the history of the old established lead mining industry in Weardale. For some years, the Weardale lead mining question has kept the dale in anxious suspense, and the news of the settlement was received with some excitement, and banners were displayed in various parts of the dale. Mr W B Beaumont retires from lead mining in Weardale with which district the Blackett and Beaumont families have been associated for a considerable period. The produce of the "W B mines" was at one time one-sixth of the produce of Great Britain, and about one-tenth of the produce of Europe, whilst the number of hands employed was at one time from two to three thousand, with a depending population on the industry of some ten or eleven thousand. The present employees will terminate their engagements on Saturday, and we understand, the tenant farmers under Mr Beaumont are under notice. The Commissioners it is said will take over the whole of Mr Beaumont's interests in the Weardale lead mining field. The miners feel grateful to the Commissioners who have done their utmost to bring matters to a close. The lessor's arrangements have not been disclosed, but the miners have been informed that as soon as they have obtained possession the Commissioner's would take steps to have them reopened, so as to put an end to the long prevailing uncertainty. These arrangements are supposed to be complete. The question being the all-absorbing topic, the probability has been discussed in the dale of the present companies figuring in the arrangements. The London Lead Company are now working the south side of Bolihope, and the company and the Stotfieldburn Lead Mining Company are supposed to be in the want of extension of royalty. The Weardale Iron and Coal Company is working at the Red vein Weardale that if the royalties held by Mr Beaumont were in the hands of some four or five companies it would be best for the interests of the valley.
ALSTON
A young man named W. A. Hutchinson, nephew to Mr William Philipson; Alston has just had, or is having a very successful career at Balmain, Sydney, New

South Wales. Mr Hutchinson served his apprenticeship at Alston as a joiner with Mr Grisdale and shortly afterwards emigrated to N.S.W. His father Mr Thomas Hutchinson who was a lead ore miner, and the remainder of the family followed their son to N.S.W. some few years after but the father is now deceased. The son W. A. Hutchinson was an alderman for some years and for two years mayor of Balmain, and has somewhat recently been elected one of the members of parliament for Balmain. … *See 31st July 1886*

6th June 1883 (Teesdale Mercury)

Mr William Lee of Holwick (a trusted servant of the London Lead Company), who died the other day, at the great age of 83 had, in his time, seen many of the vicissitudes attendant upon mining enterprise. Entering the Company's service in his boyhood, he was one of those who worked at Lodgesyke Mine—one of the richest mines ever opened, perhaps, in Teesdale, —and a few words concerning which may be here appropriately introduced. The ground at Lodgesyke had been previously tried by local speculators, to their serious loss, but when the Lead Company obtained the lease of the site they began operations with great vigour. A number of miners were engaged in the labour, who worked for more than a year without result, and it was at one time contemplated to abandon the undertaking. Fortunately, however, this idea was not carried out, and at length the vein of lead was struck. In six weeks the miners procured the astonishing quantity of 1,212 bings of ore, and in a subsequent year, from this mine, 16,000 bings were sent to the smelting-mill. It is stated that the Company, after receiving a liberal amount of interest for their outlay at Lodgesyke, invested the surplus—a princely sum— as a provision for contingencies; and it is probable that this store enabled them to prosecute their after-researches to a more successful issue than would have been the case had they had less command of capital. About forty-five years ago there was a depression in the Lead Mining of Teesdale. Lead was selling at a low price, and the yield to a certain degree had fallen off. Under these circumstances many of the miners sought employment in the adjoining coalfield, but the mines again became prolific, and most of the workmen returned. Middleton- in-Teesdale and the district generally have greatly benefitted through the instrumentality of the Lead Company. Schools have been built, reading-rooms established, and many other institutions founded for the welfare of the population. Agriculture has also profited through its connection with the Mining-industry of the locality, for there has always been a market for the produce of the soil. The lead trade of Teesdale is now said to be "under a cloud," but, as we have seen, it has had its alternate periods of good and ill fortune. Let us hope that it may soon again be in the full tide of prosperity, for permanent injury to its Lead Mining would he one of the greatest calamities that could befall the district.

HOLWICK.

The late Mr William Lee, of Holwick. —

Mr Lee died on the 17th ult., at the advanced age of 83, and was interred in Middleton churchyard on the 21st. A few particulars of this much-respected inhabitant of Upper Teesdale may fittingly find a place in our pages. Mr Lee's working days were spent as Master Washer in the lead-ore dressing floors of the London Lead Company, where he was considered a faithful and diligent servant. He dressed the produce of the mine at Lodgesyke, and worked there during its richest and best days, or up to the time when Little Eggleshope mine

was cut, whither be was removed, and where he continued up to the period of the Miners' strike, a few years ago, when he was handsomely pensioned off by the Company. Mr Lee was, in every sense of the word, a good man, to which all who knew him will testify. He was among the pioneers of Primitive Methodism in the district, and might almost he said to be the founder of that Society in Upper Teesdale. He was a local preacher and class-leader for more then sixty years, and travelled hundreds of miles to preach the Gospel, visit the sick, and administer consolation to the dying. He was one of the first to establish a Sunday-school and lending- library in the village, in behalf of which he took an active interest up to about four years ago, when he was disabled by paralysis. It was common for Mr Lee, when the circuit comprehended a part of Westmorland, to leave work on a Saturday, at noon, walk across the hills to Dufton, Gulham Holme, and other remote places, to preach, and be back home again in time to start work on Monday. He also occasionally preached at Dalton, Barningham, and other villages near Barnard Castle, always walking to and from those places. Among his intimate friends In the connexion, he numbered Mr Richard Peel and the late Mr Thomas Dalkin, of Barnard Cattle, and others, whose example has done much to forward the interests of Primitive Methodism in Teesdale. On the day of the funeral, at the house of the deceased, the Rev. W. Cuthbert, Primitive Methodist Minister, gave out the hymn, "There is a land of pure delight," which was sung most impressively, and the reverend gentleman then offered up prayer. The coffin was lifted at 2.30 p.m. and was followed to the graveyard by a large number of Mr Lee's descendants, down to the third generation, besides a host of relatives, friends, and acquaintances who had assembled from the neighbourhood. As the funeral procession passed through Middleton, it was joined by a number of the leading inhabitants of the town. The Rev. John Milner, Rector, read the beautiful burial-service in a truly affecting manner, and the grave closed over all that was mortal of the pious and venerable dalesman.

Possible marriage for William Lee to Mary Raine, 4th March 1821, at Middleton-in-Teesdale.

In 1851, at Teesdale, William Lee, lead miner, aged 51, his wife Mary 51, children, Elizabeth 27, William, lead miner, aged 25, Hannah 20, James, lead miner, aged 18, Isaac, lead miner, aged 16, Joseph, lead miner, aged 14, Mary 11, Thomas 9, Ann 6, Grandson John Longmire 5, John Lee 4, and James Lee aged 1.

In 1861, at Holwick, William Lee, aged 61, his wife Mary 61, children, Isaac, lead miner, aged 26, Thomas, lead miner, aged 19, Ann 16, and grandson John Lee, lead ore washer, aged 15.

In 1871, at Holwick, William Lee, lead miner, aged 71, his wife Mary 71, son Thomas, stonemason, aged 28, grandsons, John Longmires, lead miner, aged 24, granddaughters, Mary Lee 19, and Mary E Walton 4.

Mary Lee died 21st October, and was buried at St Mary the Virgin, 24th October 1874, aged 74.

In 1881, at Holwick, William Lee, widower, retired Lead Miner & Farmer, aged 81, sons, Isaac, slate gold miner, aged 46, Thomas, lead ore washer, aged 37, and granddaughter Margaret Cameron 19.

9th June 1883 (Hexham Courant)

NENTHEAD

NARROW ESCAPE AT THE NENTHEAD MINES

On Thursday, a miner named Robson Madgin had a narrow escape in one of the Nenthead lead mines. It appears that a "hole" had not exploded at the regulation time, and the miner in question had returned to ascertain the cause, when the charge exploded. Madgin is stated to have received no injury whatever.

The Alston marriage records show Leonard Madgen married Hannah Robson, 25th December 1827, at Alston.

In 1841, at West Nenthead, Leonard Madgin (son of Thomas Madgin and Margaret Dixon, of Armathwaite, Cumberland), lead miner, aged 35, Nancy 25, Mary 15, Stephen 13, Robson 11, Ann 7, Margaret 5, Thomas 3, John 2

In 1851, at Swalwell, cottage, Nenthead, Leonard Madgin, widow, lead miner, aged 47, children Stephen, lead miner, aged 23, Robson, lead miner, aged 20, Ann 16, Margaret 15, John 11, Leonard, 9, Hannah, 7, Robert 5, and granddaughter Hannah 6 years. In 1861, at Swalloway Cottage, Leonard Madgin, lead miner, aged 57, his wife Hannah (Cook, married 4th quarter 1859, Penrith) aged 38, children Hannah, dressmaker, aged 17, and Robert, lead miner, aged 15.

Leonard Madgin died 15th August 1864, probate awarded 30th September at Carlisle to his son Robson Madgen, lead Miner, and John Hill lead miner, of the Parish of Alston.

In 1861, at Overwater, Robson Madgen, lead miner, aged 30, his wife Phillis (Hall, daughter of William & Hannah Hall, lead ore smelter, of Nenthead) aged 23, children Leonard 4, and William 2.

In 1871, at West Nenthead, Robson Madgen, lead miner, aged 40, his wife Phillis 33, children William 12, Hannah 9, Stephen, 6, Joseph, 3, Robson 1 year.

In 1881, at Wardway Foot, Nenthead, Robson Madgen, lead miner & farmer of 6 acres, aged 50, his wife Phillis 43, children William farmers son, aged 22, Hannah dairy maid, aged 19, Stephen, lead ore dresser, aged 16, Joseph, lead ore dresser, aged 13, Robson 11, Jane 9, Thomas 7, Annie 5, and Phillis aged 3

In 1891, at West Nenthead, Robson Madgin, lead miner, aged 60, his wife Phyllis 53, children Robson, blacksmith, aged 21, Thomas, general labourer, 17, Annie 15, and Phyllis 12. In 1901, at West Nenthead, Robson Madgen, retired lead miner, aged 70, his wife Phillis 63, son Thomas, blacksmiths striker, aged 27, and daughter Annie 25.

Robson Madgen, died 3rd January 1904, aged 73. Probate awarded 7th March 1904, at Carlisle to Thomas Madgen, miner, and Ann Madgen spinster; effects £727 10s 72.

In 1911, at Nenthead, Phillis Madgen, widow, farmer, grazing, aged 73, and daughter Annie, dairy & domestic work, aged 35.

16th June 1883 (Hexham Herald)

Deaths

Holme Foot Nenthead, 7th inst, aged 61, Hannah wife of John Lattimer.

At Kings Head, Alston, John Lattimer, draper & farmer of 31acres, aged 62, his wife Hannah 60, Dianna, farmers daughter, 22, and Thomas, farmers son, 15.
See 26th January 1887, 2nd May 1885, 29th January 1887, and 7th June 1890
At Nenthead, 18th inst., aged 35, Ridley Robson, lead miner.
In 1881, at Hill Top, Nenthead, Ridley Robson, lead miner, aged 33, his sister Tamar aged 39, and niece Isabella aged 6 years. In 1891, at Overwater, Nenthead, Tamar Robson, charwoman, aged 48, and visitor, Isabella Robson, domestic servant, aged 16.
See 8th May 1875, & 5th April 1879.

16th June 1883 (Cumberland & Westmorland Herald)
Mr. George Peart, manager of the Alston Branch of the Carlisle and Cumberland Bank, died on Monday morning after an illness of a few weeks, aged 51 years. He was well known in the country, was an eloquent Wesleyan local preacher, and his loss to that body will be long felt. At the last contested election be was returned a member of the Alston Board of Guardians, and took an active interest in local matters.
Cuthbert born 28th June 1798, at St John, Garrigill, 4th Son, of George Peart, Tynehead, Miner, of Kirkhaugh, by his wife Nancy daughter of Thomas Peart, of Stanhope.

Cuthbert Peart married Catherine Hetherington (daughter of Joseph and Margaret Hetherington), on 23rd May 1821.
Catherine Peart, aged 35 was buried at Alston 21st December 1837.

In Memory of
George Peart
of Alston
who died on
11th June 1883
aged 52 years
Erected
by public subscription in
honour of his helpful and
benevolent character

In 1841, at Front Street, Alston Cuthbert Peart, miller, aged 40, children Ann aged 15 (baptised at Alston 28th November 1830), Margaret aged 14

(baptised at Alston 28th November 1830), George aged 10 (baptised at Alston 14th August 1831), and Thomas aged 3 (Thomas William was baptised at Alston 21st December 1837), Joseph Peart son of Cuthbert and Catherine Peart was (born 27th January 1822) baptised at Alston, 28th November 1830.
In 1851, at Easton Court, Gateshead, Joseph Peart, Timber Merchants clerk, aged 29, born Alston, his wife Ann aged 27, born Reeth, and son Cuthbert George aged 1, born Gateshead.
In 1851, at Hill House, Alston, Cuthbert Peart, widow, Mine Agent, aged 52, born Alston, children Ann, milliner aged 36, Margaret, Bonnet maker, aged 24, George, Pupil teacher, aged 19, and T W aged 13.
Cuthbert Peart married Jane Pattinson 2nd quarter 1852, registered at Alston.
In 1861, at Main St., Alston, Cuthbert Peart, Land Agent and Wesleyan Preacher, aged 62, his wife Jane 49, and son George, teacher and local Wesleyan preacher, aged 29.
Cuthbert Peart died 2nd quarter of 1862, at Alston.

In 1871, at Front Street, Alston, George Peart, High Bailiff to Alston County Court, aged 39, and his cousin, Ann Hetherington, housekeeper, aged 33.
In 1881, at 18 Front Street, Alston, George Peart, Bank Agent, Land Agent, High Bailiff to Alston County Court, aged 49, and his cousin, Ann Hetherington, housekeeper, aged 43.

23rd June 1883 (Hexham Courant)

WEARDALE

THE WEARDALE MINERS

We are glad to state that those extensive royalties lately held by Mr W B Beaumont MP., have been relet by the Ecclesiastical Commissioner's for England. The new lessees are a large and wealthy London mining company, the chairman of which is Mr Batters, London. We are also informed that the new company have power given to sub-let any portion they may desire. They have also taken the whole of the plant &c., off the hands of the lessors, and are busy making arrangements to commence operations about the beginning of next month, when they expect to be in a position to give employment to some hundreds of pickmen. Mr Blenkron has been offered the post of chief agent, with Mr Trulees as sub agent. What has been the great drawback to the thorough development of mining - a lent money system to the miners - will be again instituted.

30th June 1883 (Hexham Courant)

At Garrigill, 30th inst., aged 66, Thomas Walton, lead miner.
In 1861, at Turnings, Garrigill, Thomas Walton, lead miner, aged 43, his wife Mary (Watson? married 2nd quarter 1842, at Alston) aged 37, children Joseph, lead miner, aged 19, Sarah 14, and Guy 9.
In 1871, at High Snappers Gill, Garrigill, Thomas Walton, lead miner, aged 53, his wife Mary 47, children Joseph, lead miner, aged 29, Sarah 24, and Guy aged 19.
In 1881, at High Snappergill, Garrigill, Thomas Walton, lead miner aged 64, his wife Mary 57, children, Joseph, lead miner & taxidermist, aged 38, Sarah Hunter, married, ironstone miners wife, aged 32, Guy, lead miner, aged 28, grandson, Thomas Hunter, aged 5, born Frizington, and granddaughter, Elizabeth Hunter aged 3, born Ulverston.

27th June 1883 (Northern Echo)

WEARDALE LEADMINES.
A MINERS VIEW OF THE SITUATION.

[BY A PRACTICAL MAN.]

Out of the midst of the grossest official darkness and the direst mismanagement comes the welcome news of fresh lessees, which will be hailed with joy by the Weardale inhabitants. Leadmining is not like coal, ironstone, or limestone, always lying at the face, but it lies in pockets or ranges, hidden away, and has to be explored: therefore a monthly guarantee of lent cash is advantageous both to the employer and employed.

First, It enables the unfortunate miner to work on till he is more fortunate; second, it helps to find new “leads" of lead ore, and opens out a far wider mining field. A few facts of the past history of Weardale leadmining will show what the lent-money system has done as regards finding veins and lead ore. In I860 Cain Peart (six partners—that is, six men) was sent to the west end in the Whin sill, Burtree Pasture, and wrought for ten and a half years there, drove a length and slit. They sometimes made good money; other times little money. Other partnerships were sent, till at last the place was given up by the masters. The first partnership (Cain Peart) would not give it up, still kept working on the strength of their lent money, still having confidence that beyond the bad ground there would be some good ground. They drove on till at last they came to a rib of good ore ten inches wide; then other men were sent to drive and slit.

In 1872 there were above 100 men employed at this very place, which this partnership found through their own perseverance, working on the strength of their lent money, and the place yielded thousands of bings of lead ore. Grove Heads Mine was proposed by the men. They wrought nearly a year before they reached the old workings, and had nothing for it. By bargain, of course, they got their lent money to support them, and, contrary to the agent’s predictions, thousands of bings of lead ore in five or six years, and was the inducement or the cause of Craig's Level being driven; also led to the finding of the present mine, which has been vary rich with lead ore. Lodge Syke Mine was the result of the miners’ speculation. With the assistance of lent money they drove a level 100 fathoms for the sum of £30. It took over one year's labour, However, they succeeded in finding a good vein that produced thousands of bings of lead ore, sometimes working at 12s per bing. Green Laws Mine is due to a miner (viz., Walter Jackson) urging the masters to risk a little money, and the result of this trial is well known to every person in the dale. There have been hundreds of thousands of bings of lead ore got at this mine, and it is still open to the present day. Many more might be named, but let those be sufficient to show that the lent money system is quite preferable to any other system.

Leadmlning requires a great deal of thorough practical learning before the work can be managed, as it ought to be done. Alter a man has learned leadmining he is fit to manage any kind of underground work. Indeed a leadminer can turn his hand (after having had the advantage of due instruction from the veteran explorer and experienced old worker) to the most different kinds of work, more than any other workmen. Therefore we think it would be wisdom to train the young men up in the mines, and not leave them out till twenty-four or twenty-five years of age and then take thorn inside. By doing so, we get a bettor class of workmen. It would be preposterous to send an untrained soldier into the field

of battle to command an army, or an inexperienced man to superintend any kind of work.

30th June 1883 (Hexham Herald)
Deaths
Whitlow near Alston, 28th inst., aged 38, Hannah wife of Thomas Bramwell.
In 1871, at Church Croft Terrace, Alston, Thomas Bramwell, coal agent, aged 26 his wife Hannah aged 25, and son John J. 7 months.
In 1881, at Whitlow, Kirkhaugh, Thomas Bramwell, farmer of 360 acres, aged 36, his wife Hannah, children John Joseph 10, Emily Ann 8, Anthony Allen 5, Margaret 3, Edith Mary 4 months, brother Joseph Bramwell, farm servant, indoor, aged 47, Catherine Dodd, domestic servant, 18, and Lily Ann Walton, domestic servant, 14.
In 1891, at Front Street, Alston, Thomas Bramwell, widow, Coal agent & Farmer, aged 46, children, Emily A. 18, Anthony A. 15, Margaret 13, and Edith Mary, 10.

30th June 1883 (Northern Echo)
TEES SALMON FISHERY BOARD, POLLUTION OF THE RIVER. NECESSITY FOR WATCHING.
At the last meeting of the Tees Fishery Board, a deputation of the Tees Anglers' Association waited upon the Board and stated their views with respect to the present extent of “hushing” in the river, and also as to increasing the present number of watchers in the upper portion of the river; and a committee of nine was appointed to confer with the Anglers' Association upon the various matters brought before the Board. A meeting of this committee was hold yesterday (Friday) at the Police Court, Darlington. …
THE “HUSH” QUESTION. The Clerk having read the minutes of the Board authorising the conference, the Chairman requested the deputation to state the nature of their complaint with respect to the "hush.” —Mr Barron said they had ascertained that the "hush" came from Middleton-in-Teesdale, and was the outcome of the lead-workings; but the worst part was at Bowlees Beck, near Barnard Castle, and was caused by the lead washing of one individual. —The Chairman inquired if the deputation considered one person solely responsible for the state of the beck, because there was also the London Lead Company's works. —Mr Barron had understood the London Lead Company's workings were confined to Middleton-in-Teesdale. —The Chairman: Oh, no! They wash a considerable amount of ore that comes into Bowlees Beck. If the person they referred to was the sole cause, he (Mr Scarth) could at once remedy the matter by having it stopped. He understood that opposite Cauldron Snout there was a great deal of "hush" on the Yorkshire side towards Mickle Fell. They might apply to Mr Dent to remedy that, —After some further discussion, in the course of which it was stated that the quarries were blameable as well as the leadmines, Mr Wooler moved that Messrs. Scarth, Chaytor, Dent, Ball, and Captain Johnson be appointed as sub-committee to investigate the matter on the spot, and that Messrs Barron, Webster, Lear, Russell, and Ramsey, of the, of the Anglers Association, be invited to accompany them. —Mr Bell expressed the hope that the committee would have the pleasure of the Secretary's presence. —Capt. M. B. Dodds having duty at York could not promise. —Captain Johnson seconded the proposition, which was unanimously carried. …

WEARDALE

WEARDALE MINES

The New Company took possession on Saturday last, a joyous announcement to the Weardale miners. The following has appeared in the Mining Journal:-
Weardale Lead Company (Limited). Capital £200,000 in shares of £4. To take on lease, or otherwise acquire a certain mineral property known as the Weardale Lead Mines, together with the premises situated in the County of Durham, and with such plant, buildings, machinery, rights and powers as may be found requisite. To thoroughly develop and work this or any other similar property and to smelt and refine the products thereof.
The subscribers are:-

G. Richardson, 3 Lombard Court, merchant	2,000
B. Broughton, Bradford, no occupation	2,000
A. H. Lancaster, St Peter's Chambers, merchant	1,000
J. Maxfield, Sheffield, manufacturer	1,000
W. G. Woolston, Austin Friars, stockbroker	1,000
G. Hopkins, 30 Parliament Street, C.E.	2,000
T. Southgate, 7 Kings Bench Walk, solicitor	2,000

11th July 1883 (Northern Echo)

THE WEARDALE MINES.

On Monday, bargains were let for the Greenlaws and Daddry Mines at New House Offices, by the representatives of the new company, and yesterday for Killhope and Burtree Posture,
The agents lately employed by Mr Beaumont, who have been re-engaged, are Mr J. Thompson (Burtree Pasture), Mr Stephen Watson (Backdean), and Mr Philipson (Grove Rake). The mines will be opened to-day. The Chairman (accompanied by Mrs Richardson) and other directors were at the lettings, and Seemed very pleased with the attitude of the men and the terms on which bargains have been let have given great satisfaction to the miners. The directors give 50s "lent money," and have fixed three months' bargains, terminable at the option of the men at the end of one or two months, but stand good on the side of the company for three months. Sixty eight men will be placed in Killhope, thirty-six in Burtree Pasture, forty-four at Greenlaws Mine and about fifty will be employed at Rookhope. —Mr Hopkins addressed the men yesterday, and said that they wished to establish perfect confidence between the men and masters, and that the company intended setting on as many men as possible.

14th July 1883 (Hexham Courant)

THE WEARDALE LEAD MINES

The directors of the Weardale Lead Company, Limited are now staying at Stanhope Hall, and are active in arranging for a commencement of work. On Saturday a meeting of the Board took place, and also an inspection of the Killhope district. The Board considered and agreed several preliminary points in respect to the early commencement of mining operations. In the first place the directors met the representative of the Ecclesiastical Commissioners, Mr Linsey Wood, who handed over to the new company the mines and royalties,

plant, &c., which had been paid for prior to the directors coming down to the north. At the respective mines, several appointments were made of under-agents or local men, retaining as far as possible those who had been in the service of Mr Beaumont. The chief appointments of the company are under consideration by the Board. A Stanhope correspondent was informed on Saturday evening by the Board of Directors that they had agreed that the men should have monthly subsistence or "lent money," and that every encouragement would be given to the miners in respect to the working and developing the mines. On Monday the representatives or agents of the mines. on Monday the representatives or agents of the company went through the mines, for the purpose of setting as many bargains as possible, as the directors are anxious that the distress in the dale may be as early as possible relieved. Bargains will be let to the miners set to work as far as possible during the week. Whilst the Directors were at Cowshill on Saturday they were waited upon by a deputation of miners, and several points interesting to the men were laid before the Board and considered, and upon the whole the deputation were encouraged and satisfied with the interview. There is every prospect of the old mining field of Weardale again coming to the front.

Bolihope Lead Mines

The Bolihope royalty now in the hands of the London Lead Company has been extended. The operation in this vale have been limited to the south side of the stream of Bolihope. The royalty will now include the north side, bounded by an imaginary line running from Buddy Holm Bridge on the Wear and the corner of Rogetley Park to Westernhope Burn Head. This worked, and will be a great acquisition to the London Lead Company, who at present employs considerable number of men at their Bolihope mines.

OPENING OF THE WEARDALE MINES

On Wednesday the Weardale, lead mines under the new company were opened. On Monday and Tuesday the directors, Mr G Richardson (chairman), Mr George Hopkins, Mr Maxfield, and Mr B Broughton, accompanied by Mr Batters and the engineers, Mr Treleare and Mr Blenkiron, went through the mining fields and attended to the letting of bargains assisted by the local agents, Messrs Watson, Thompson, and Philipson. The chairman (accompanied by Mrs Richardson) and the other directors were very pleased with the attitude of the men, and the terms on which bargains have been let have given great satisfaction to the miners. The directors give the 50s "lent money," have fixed three months bargains which can be terminated at the option of the men at the end of one or two months, but stand good on the side of the company for three months. During Tuesday Messrs Richardson and Hopkins, and Mr Treleare and the agents Messrs Watson and Thompson, let bargains and placed 60 men in Killhope, and 36 in Burtree Pastures; and on the previous day Messrs Maxfield and Broughton attended at the offices at the letting of the bargains at Green laws mine. About 50 will be employed at Rookhope. Mr Hopkins addressed the men prior to taking bargains on Tuesday, and said that they wished to establish perfect confidence between men and masters, and the company intended setting on as many men as possible. A Stanhope correspondent in an interview with the directors was informed that the company were disposed to break virgin ground as early as possible, that instructions had been given to the mining engineers with that view, and that the company were not at present disposed to sublet any of this royalty. A large number of men

have returned to Weardale, and ultimately whole will no doubt be employed, as the company seem anxious to fully develop the resources of the dale. On Saturday, the Weardale miners held their second annual demonstration and gala on Ireshope Plains, near St John's Chapel.

14th July 1883 (Hexham Herald)

ALSTON

The clerk read the medical officers report for the Nenthead district, which stated that during the quarter no serious epidemic had occurred. Several cases of Measles had appeared, but they had now disappeared. With this exception the health and sanitary conditions were satisfactory. During the quarter there had been, 11 births and 11 deaths, which gave a death and birth rate of 4.71 per 1000.

Deaths

Settlingstones mines near Newbrough, 4th inst., aged 93, Hannah Ellison formerly of Studdon, Allendale.

27th July 1883 (Durham County Advertiser)

THE WEARDALE LEAD COMPANY (LIMITED).

A new era has commenced in Upper Weardale by opening of the lead mines under a limited liability company. These mines have figured nearly all through the varied history of the northern See of St. Cuthbert, whose early bishops drew their silvery revenues partly from the metalliferous rocks of western Durham. The Weardale lead industry has been of considerable importance for many centuries, and a source of wealth to the rich Bishopric of Durham. In later times the royalty has been in the hands of the Blackett and Beaumont families, the connection of the Blacketts with the mines dating as far back as the days of Charles II. The Blacketts were cradled at Woodcroft near Stanhope, in the far off ages when it was customary to distinguish men by, in some cases, personal appearance, as John the Blackhead. In more recent times the "W.B. Mines" which included those in the Allen dales, produced about a sixth of the lead ore raised in Great Britain, and whilst between two and three hundred hands were employed there was depending upon or interested in the industry a population of over ten thousand. Fourteen years ago Mr Beaumont's Weardale and Allendale mines produced over ten thousand tons of ore, so the mining field covering the mountainous sources of the Tees, Tyne and the Wear, is well known to the mining community. Prior to the transferring of the temporalities of the See of Durham to the Ecclesiastical Commissioners in1836, the lease of the Weardale mines was for three lives, and renewable. In lien of the ninth lot-ore, doe to the bishop, a rent of £5,000 was fixed in 1834, and a little later the tenth lot-ore, due to the rector of Stanhope, was fixed at £3,750, whilst a life cost about £6,000 renewing; the old rent for the Moormaster's Place being £150. The recent rent of these mines was £4,600, with exploration allowances, and the dues. The royalty has now been transferred to a new company. The Weardale Lead Company have been formed to work the mines in Weardale lately held of the Ecclesiastical Commissioners by Mr W. B. Beaumont. The nominal capital of the company is £200,000, divided into 50,000 shares of £4 each. The charges for the tenants' plant, stores, &c., namely, £25,000, have been paid, the royalty handed over to the directors, and the miners are now at

work. The lease, we are informed by the prospectus is for sixty years, commencing 1st of July last, is tithe-free, and on more favourable conditions as regards royalty, &c., than those of the former lessee, and no price is charged for the mines, conditions which will probably meet the present lead market. The area is about eighty-five square miles, being the parish of Stanhope, less Bolihope Vale, south of a line from Buddy Holm Bridge on the Wear at Rogerley Park to Westernhope Head. The directors are Mr George Richardson (chairman of the North Metropolitan Tramways Company), chairman; Mr Benjamin Broughton (deputy-chairman of the Richmond Consolidated Mining Company), Mr George Hopkins (chairman of the Richmond Consolidated Mining Company), Mr Joshua Maxfield, and Mr Tufnall Southgate (chairman of the Roman Gravels Lead Mining Company), gentlemen principally connected with other lead mining companies. The directors have all been down to Weardale, except Mr Southgate, who was unable to attend the directors* meeting in the north owing to ill-health. The above gentlemen were accompanied during their visit by Mr George Batters, the able promoter of the company. During their sojourn at Stanhope Hall, and in their various inspections of the mining field in the dale Mr Richardson, the chairman of the company, has been frequently accompanied by Mrs Richardson. This lady has been very much pleased with Stanhope, the dale of the Wear, and with the generally satisfactory appearance of the miners, their homes, their wives, and their children. The company have had the valuable services of the mining engineers Mr J. B. Stewart, of Wanlochead, mineral agent to the Duke of Buccleugh; Mr James Blenkiron, of Arkindale; and Capt. John Trelease, of Healeyfield. On Saturday, July 7th, Messrs Richardson, Broughton, and Max field, accompanied by Mr Batters and the engineers, Messrs Blenkiron and Trelease, went over Kilhope and several other portions of the mining field. They also met Mr Lindsay Wood, the representative of the Ecclesiastical Commissioners, who handed over to the directors the mines and plant. The directors engaged several of the under agents and mechanics, retaining those who had been in the service of Mr Beaumont, some of them for periods varying from eighteen to twenty-five years, and made other arrangements for commencing the working of the mines, the under agents, Mr Stephen Watson, Mr John Thompson, and Mr George Phillipson being engaged. On Monday and Tuesday the agents went through the mines, locally called “riding the mines,” fur the purpose of valuing the workings so as “bargains” could be let to the men. Captain Trelease went through Kilhope mine, and Mr Blenkiron Green Laws and the mines in Rookhope. On Monday Messrs Maxfield and Broughton and Mr Blenkiron, and the under agents let “bargains” at the company offices at Newhouse, and placed some forty-four men at Green Laws mine. On Tuesday Messrs Richardson and Hopkins, and Mr Trelease, and the agents, Messrs Thompson and Watson, let “bargains,” sixty-eight men for Kilhope Head mine, and some thirty-six or forty were placed at Burtree Pasture, whilst over fifty took bargains at Grove Rake, &c., in Rookhope, where Mr Blenkiron and Mr Phillipson attended. Some few miners have also been placed at Stanhope Burn. The total number of pickmen, or bargain-men, will be between two hundred and two hundred and fifty. In addition to which there are the wagemen, or company's daymen, and mechanics. The directors had an interview with a deputation of miners on Saturday, and on the two bargain days, the terms of engagement, and conditions of working appeared to be satisfactory on both sides. On Tuesday

Mr Hopkins addressed the men at the Newhouse offices, and in a few pointed remarks informed them that they, the directors, had invested their capital for the purpose of exploring and working the lead mines. That they would employ as many men as possible on fair terms, and that the directors hoped to establish confidence between man and master, with the hope of satisfactory results being obtained, not only for the shareholders, but for the miners they had in their employment. The directors have granted fifty shillings “lent money,” on which to subsist during the time the work (the excavated rock material consisting of metalliferous vein- stuff mixed with ore) is being washed, dressed, and the ore weighed and credited to the miners, when at the end of three months the mens’ accounts are made up and the balance paid over. In 1818 the miners had thirty shilling “lent money,” forty shillings were first “lent” in 1846, and fifty shillings first granted in 1872. The "bargains” are for three months, and may be terminated at the end of the first or second months by the men, but holds good on the side of the masters for the stipulated period. By this condition a partnership of men who have entered into a bad bargain, or if the rock or vein alters for the worse in the course of one or two mouths, a rearrangement of price or a new place will, we suppose, be taken into consideration. The general conditions appear to have given satisfaction to the men, and the directors expressed themselves pleased with the attitude, intelligence, and general bearing of the workmen. The mines known as Kilhope Head, Green Law, Grove Rake, and others will be put on regular work; that at Burtree Pasture, owing to some defect in ventilation, will probably not be worked full time at present. The head or top price per bing of ore for miners searching for themselves is forty-eight shilling; thus any set or partnership of men can, after all working places have been filled, search out a place for themselves, and the company will pay forty-eight shillings per bing, or £6 per ton for all the ore they find. The company as soon as possible purpose making new trials in the royalty, through which run two master reins, the Slitt and the Red Vein, with several cross veins. A large number of the men who had been working at the Stanhope limestone quarries hare found their old employment in Upper Weardale, and as the company purpose working the old and exploring the new ground, the whole of the old hands will ultimately no doubt find employment in the ancient industry of lead mining. The Blacketts were seated at Woodcroft Hall, near Stanhope, at a very early period. John of this name resided here 500 years ago, and Sir John Blackett, of that place, was one of the heroes of Agincourt. A descendant of the Woodcroft stock had a son William, who is supposed acquired considerable wealth by his mines and collieries. He was created a baronet in 1684 was a popular man, and distinguished as an orator in the Home of Commons. “Sir William Blackett, 1684,” is inscribed on one of the Allendale lead mines. Sir W. C. Blackett became owner of the Weardale mines. He was Mayor of Newcastle, High Sheriff of Northumberland, M.P. for Newcastle, and was a very popular and a charitable gentleman. With the assistance of £50 given by the Rector of Stanhope he rebuilt St. John's Church, in Weardale, now undergoing restoration. Sir Walter died in London in 1777 aged 68 years, and without surviving issue, hence the lead mines came into the hands of his cousin, Thomas Wentworth, who, assuming the name of Blackett, became Sir Thomas Wentworth Blackett, Bart., having inherited the title from his father. Upon the death of Sir Thomas in 1792, an only daughter succeeded to the manor of Bretton Park, Abbey of Hexham, and to the Weardale lead mines. This lady

married Thomas Richard Beaumont, Esq., of the Oaks, and thus the mines came into the hands of the Beaumont family. T. R. Beaumont, Esq., represented the county of Northumberland in five successive Parliaments. Colonel Beaumont, whose, death occurred in 1829, was succeeded by his son, and the celebration of the majority of T. W. Beaumont, Esq., of Bywell Hall and of Bretton Hall, took place November 5, 1813, and was an event well remembered by the oldest miners, and some of the mugs imprinted with the date of the event may yet be found in some of the miners' cottages. Mr Beaumont represented Northumberland in 1818 and 1820. He was defeated in 1826, and on this occasion fought a duel on the sands at Bamborough with Mr Lambton, afterwards Earl of Durham. Mr Beaumont represented Stafford in 1822, and afterwards Northumberland. He was one of the chief originators of the *Westminster Review* and was a gentleman of wit and intelligence, and has secured for himself the attachment of a large body of friends. He died in 1848, and was succeeded by his eldest son, who now retires from the lead mining industry in Weardale.

28th July 1883 (Hexham Courant)

ALSTON CASHWELL MINE

Alston readers will be glad to hear that there has been of late a great improvement in the ore bearing prospects of Cashwell mine, there being now, we understand a splendid vein of ore something like 6 feet in width.

1st August 1883 (Teesdale Mercury)

"HUSHING" IN THE RIVER TEES.

At a meeting of the Tees Fishery Board, held at Darlington, on Monday, the report of the committee on the subject of ''hushing" was read. From this report it appeared that on the 10th July, the committee assembled at the High Force Hotel, whence, under the kind direction of Mr Scarth, they proceeded to inspect the comparatively new workings of the Lady's Rake Vein, and also the operations at Green Hurth Mine, There was no "hushing," as the term is understood, at either of these mines. On the 11th inst., the inquiry was continued, and it was observed that decidedly the most injurious and wasteful use of water was that at Pike Law. Here the party witnessed the whole process of baring the ore by means of "hushing" from a reservoir at the head of the dale, the whole accumulation of a pent-up stream through a narrow gorge, which was many yean ago the universal practice, and gave rise to the term "hushing." Mr Collinson and his assistants were induced to discharge the water from the reservoir at the head of the valley, and it was noticed that the stream carried away a vast amount of debris, being for the most part of the consistency of diluted clay and mud. Mr Collinson was strongly of opinion that no injury whatever to the fish resulted from this process, but the committee were certain that the degree of discolouration that every such discharge must impart to the stream was calculated to make successful angling In the Tees impossible. A settling reservoir at the lower end of the valley could be easily constructed, the Chief Agent (Mr Scarth) being quite willing to give the material for the purpose, and Mr Collinson was not unwilling to contribute the labour. The committee were of opinion that some such expedient should be tried rather than that this industry should be permanently interfered with. The committee, on the whole, were inclined to think that where ore washing was a regular daily operation, it was

safer to let foul water pass off daily, rather than incur the risk of a sudden discharge, down one of the smaller streams, under the impetus of a partially local flood, of a vast quantity of impurity into the main channel of the Tees. — On the motion of the Chairman.it (Colonel Scurfield) seconded by Mr Morritt, it was resolved to have the report printed and circulated amongst the members, so that they might have time to give it their full consideration.

4th August 1883 (Hexham Courant)
Marriages
At Newcastle, Nelson Street Chapel, 28th ult. Henry Jackson, Newcastle, to Isabella Erwin of Nenthead.
In 1891, at Waller Street, Byker, Henry Jackson, printer compositor, aged 31, born Newcastle, and his wife Isabella 28, born Alston.
At Gateshead St Mary's Church, 1st inst. Harold Olsen of Leith, to Mary, 3rd daughter of Whitfield Martindale of Gateshead, formerly of Weardale.

7th August 1883 (Carlisle Journal)
ALSTON BOARD OF GUARDIANS
This Board met in the Town Hall, the Rev. O. James in the chair. There were only three members present, and they had the following business before them:—
Vaccination Returns.— The local vaccination return for the half year ending Dec., 1882, showed the number of births to have been 55 ; successfully vaccinated 48; died unvaccinated 4; postponed by medical certificate 2; removed to other districts of which the medical officer had been appraised, 1.
ALSTON RURAL SANITARY AND HIGHWAY BOARD.—The following business was before this Board, which met at Alston on Saturday:—
The Cholera.—In reference to the cholera the Clerk said he had read a circular from the Local Board last Board day as he thought it was very necessary the medical officers should have the circular as soon as possible. He had received a letter from Dr. Pickworth, Nenthead, with a public notice which had been issued by the medical officer of the Haltwhistle Sanitary Authority, and the Doctor suggested that a few similar ones should be printed for distribution at Alston.— On the motion Mr. J. G. Millican it was agreed to have a few similar ones printed and posted at Alston.
Medical Officer's Report of No. 1 District. — Dr. Carson's report for the quarter ending June showed the deaths to be 6, the death-rate being 2.66. The number of births was 17. The district was free from all zymotic disease and in a very satisfactory condition,
The Damage to a Road by a Mining Company. —The Surveyor reported that the party owning the land which was required to be purchased in order to re-form the road at Dowgang Mine refused to take 2d. per yard, but she would take 2½d. per yard. He thought that at the latter price, the sum which Mr. Walton had offered to the Board would be sufficient to meet the expence.—On the motion of Mr. A. Walton it was agreed to give the 2½d.

Deaths

At Townfoot, Alston, 1st inst., aged 86, Elizabeth, widow of Joseph Redshaw.

Joseph Redshaw married Elizabeth Moffat, 5th February 1820, Joseph died 1829 aged 43.

In 1841, at Aimshaugh, Alston, Elizabeth Redshaw, agricultural labourer, aged 40, children John, lead miner, aged 15, Adah 15, Sarah 15, and Elizabeth 12.

In 1861, at Main Street, Alston, Elizabeth Redshaw, lead miners widow, aged 65, son John, lead miner, aged 35, daughter, Adah, dressmaker aged 33, and granddaughter Elizabeth aged 5.

In 1871, at Town Foot, Alston, Elizabeth Redshaw, formerly domestic servant, aged 74, and son John Redshaw, agricultural labourer, aged 48.

In 1881, at Front Street, Elizabeth Redshaw, lead miners widow, aged 84.

18th August 1883 (Hexham Herald)

ALSTON

CHILD SCALDED TO DEATH.

On Wednesday week a child named Phoebe Spottiswood aged one year and 7 months, daughter of James Spottiswood, Blaygill, received injuries from scalding which resulted fatally on the following day. It appears that the child had, in the absence of its parents, pulled a pot of boiling coffee off a table, the contents of which went over its head and breast.

In 1841, at Middle Skelgill, James Spotswood, lead miner, aged 51, his wife Ann (Litel, married 4th April 1818, at Alston) aged 54, children Hugh, lead miner, aged 22, Margaret 20, James, lead miner, aged 15, Nicholas, lead miner, aged 12.

In 1851, at Middle Skelgill, James Spottswood, widow, lead miner, aged 61, son Nicholas, lead miner, aged 21, and servant Agnes Armstrong, housekeeper, aged 23.

James Spotswood snr. died in 4th quarter 1860 or 2nd quarter 1861.

In 1851, at Middle Park, Alston, James Spottswood, lead miner, aged 24, his wife Phebe aged 23, son James 1 month (died before the 1861 census, see above). In 1861, at Middle Skelgill, James Spottswood, lead miner, aged 34, his wife Phebe 33, daughters Mary Ann 8, and Jane 7 months. In 1871, at High Skelgill, James Spottswood, lead miner, aged 44, his wife Phoebe 43, children Jane 10, James 8, William 3, and Hugh 2. In 1881, at Blaygill Head, James Spottiswood, farmer of 40 acres, aged 54, his wife Phoebe 53, sons James, coal miner, aged 18, William, coal miner, aged 13, Hugh 12, and John J. 9. In 1891, at Milestone House, Melmerby, James Spottiswood, farmer & innkeeper, aged 64, his wife Phebe 63, sons William, farmers son, aged 23, Hugh, farmers son, aged 22, John, farmers son, aged 19, and domestic servant Fanny Reed 13. See 19th April 1884, 20th January 1894.

Deaths

Garrigill, 10th inst., aged 55, Jane, widow of John Watson.

In 1871, at Pasture Houses, Garrigill, John Watson, lead miner, aged 47, his wife Jane (Spark, married 27th April 1867) aged 43, stepsons, William Spark, lead miner, aged 16, and Thomas Spark 7.

John Watson died 27th October 1871.

In 1881, at Garrigill Gate, Jane, lead miners widow, aged 53, and son, Thomas Watson, shoemaker aged 17.
See 4th November 1871, 22nd December 1883, & 30th September 1893

24th August 1883 (The Times)
THE WILL OF MISS ISABELLA BEWICK, late of 19, West street, Gateshead, who died on June 8 last, was proved at the Durham district; registry on the 21st ult., by Joseph Crawhall and John Wheeldon Barnes, the executors, the value of the personal estate amounting to over £12,000. The testatrix bequeaths £1,000 to the National Lifeboat Institution, Adelphi, to build and maintain a lifeboat to be called the "Thomas Bewick," in respect to the memory of her late father, to be stationed at Tynemouth, or some other part of the coast of Northumberland; £200 to the Newcastle-on-Tyne Museum; £100 each to the Abbot Memorial School, Gateshead, and the Newcastle-on-Tyne Refuge for Destitute Boys; her paintings, water-colour drawings, prints, engravings, and the bust with pedestal of her late father, to her executors absolutely, in confidence that they will present or dispose of them to such institution or institutions as will best perpetuate and keep alive the memory of Thomas Bewick and his ability; and many legacies to relatives and others. The residue of her property is to go to the children of Ralph Ward, a relative of her late mother.

25th August 1883 (Hexham Courant)
Deaths
At Leadgate, Alston, 19th inst. aged 80, Elizabeth widow of Daniel Thompson.
In 1841, at Skelgill Plain, Daniel Thompson, lead miner, aged 40, wife Elizabeth (Goodfellow, married 3rd October 1825, Alston) aged 35, children Hannah 15, Joseph, lead miner, aged 14, Thomas, lead miner, aged 11, John 8, and Daniel 5.
Daniel Thompson snr. died at Leadgate 22nd November 1849, aged 52.
In 1851, at Leadgate, Elizabeth Thompson, widow, aged 46, children Joseph, lead miner, aged 23, Thomas, lead miner, aged 21, John, lead miner, aged 18, Daniel, lead miner, aged 15, Mary 9, and Ann 6. In 1861, at Leadgate, Elizabeth Thompson, masons widow, aged 57, children Joseph, widow, stone waller, aged 33, Daniel, lead miner, aged 25, Ann 16, and grandson Daniel Thompson 6.
In 1871, at Leadgate, Joseph Thompson, widow, mason & farmer of 6 acres, aged 43, son Daniel, lead ore washer, aged 16, mother Elizabeth Thompson, widow, aged 68, and brother John, lead miner, aged 38.
In 1881, at Leadgate, Joseph Thompson, widow, farmer of 28 acres & dry Waller, aged 53, his mother Elizabeth Thompson, widow, aged 78, brother John, lead miner, aged 44, general domestic servant, Jane Armstrong aged 21.
In 1891, at Leadgate, Joseph Thompson, farmer, aged 63, brother John, lead miner, aged 58, and servant Sarah A Parkes, housekeeper, aged 22.
John Thompson died 3rd quarter 1897, aged 65, Joseph Thompson died 2nd quarter 1900, aged 72
At Butts, Alston, 20th inst. aged 59, Thomas Burn.

In 1851, at Front Street, Alston, Thomas Burn, shoemaker, aged 71, (probable death 1st quarter 1859) his wife Mary aged 69 (died 4th quarter 1858), daughter Catharine 28, and son Thomas, lead miner, aged 26.
In 1861, at Butts, Thomas Burn, single, lead ore miner, aged 36, sister Catharine, housekeeper, aged 38, and niece Elizabeth Burn aged 7.
In 1871, at Butts, Thomas Burn, single, lead ore miner, aged 46, sister Catharine, housekeeper, aged 48, and niece Elizabeth Burn, domestic servant, aged 17
In 1881, at Butts, Thomas Burn, single, lead miner, aged 56, sister Catherine, housekeeper aged 59.

1st September 1883 (Hexham Herald)

STANHOPE

FATAL QUARRY ACCIDENT.

On Monday, a quarry man named Philipson, the elder of two brothers employed at the Ashes Limestone quarry Stanhope, fell over the face of the quarry there and received injuries from the effect of which he died 2 hours after the accident. Deceased belonged to Allendale and was a much respected young man.
Harland Philipson born 1862 at Allendale, son of John (Farmer of 33 acres) and Elizabeth living at White Ridge, Allendale.
The 1881 census has him as one of 6 children, the others being, Hindmarch 17, Jasper 16, Demanda 13, Plestonia 11, and Naaman 9. In 1881 he and his brother Hindmarch are listed as Bricklayers labourers.

1st September 1883 (Northern Echo)

LEAD MINING IN TEESDALE.

Something over a year ago the workmen employed in the mines of the London Lead Company made a respectful approach to the Duke of Cleveland. They had a petition to deliver upon a matter of vital interest, to them and their families, being, in brief, their daily bread With pathetic urgency they proffered their request—first in writing and subsequently to Mr SCARTH, the Dukes chief agent, by word of mouth, in a conference arranged by that gentleman, and held in the offices of the Company. Weeks, months have passed, and no reply has yet been received. Need to say that there has been sickening of heart by reason of the long-deferred hope. It cannot but be that the grave facts upon which the appeal was based have been long since weighed and estimated: why so much delay in communicating the results
The circumstances under which this presentation of a memorial took place are extremely interesting. Lead mining is one of our oldest industries; and it has been carried on for a great while in an exceptionally methodical and persevering way by the London Lead Company. For more than a century — how much more we are unable at the moment to say—their mines have been open in Teesdale. They have thus found work for the dalesmen; and. more than work, for being inspired by a lofty regard for the well being in all respects of their dependents, they have provided education, instituted facilities for thrift, and exerted themselves generally in a spirit of enlightened philanthropy.
Middleton, the district headquarters of the Company, is, with its several institutions, a fairly good proof of the beneficence of their operations; but the best evidence is to be found in the character of the population. There is not in England, or out of it, a more intelligent or a more virtuous people than those

located in the mining district of Teesdale. It is reasonable to presume that the London Lead Company have made money by their enterprise. But the money-making, whatever may have been its extent, is a thing of the past evil times have come uponn the lead trade. The price was unremunerated to the British producer a year ago and it is worse now. Lead was sold a few days ago in Newcastle at £12 2s. 6d., a ton, which is several pounds under the bare cost, with average luck, of getting it, and not much more than half the price current nine or ten years ago. The chief cause of this tremendous fall in the value of the product is, unfortunately for the producer, one likely to last. Lead mining has been taken to by capitalists in America, who are now sending into the market not only enough to meet local wants, but a surplus for export. America, consequently, which used to take from 40,000 to 50,000 tons of British lead, has ceased to be a customer; and is, moreover, actually competing with our producers, in China and elsewhere. This, we say, is the chief cause. America does not need our lead, and takes particular care, by the imposition of a high protective duty, to keep it at a distance. It does not get the article cheap for its own use—it is content to pay a big price for the satisfaction of obtaining the native article; but it can afford to sell it cheap to the foreigner, partly because it pays the difference out of its own pocket, and partly because its ore is unusually rich in its yield of silver. But besides the change we have mentioned—pre-eminently, and, there is reason to believe, permanently, adverse to any considerable recovery there are other causes in operation similarly effective and similarly discouraging. Spain is an old competitor, and is as vigorous as over, while other European countries, notably Germany and Sardinia, have been cultivating the business with increased energy and success.

The London Lead Company have had a long run of bad experience; and the shareholders who by this time must have forgotten the sensation incident to the receipt of a dividend, are fairly entitled to the sympathy we freely give to all who suffer by the remorseless vicissitudes of trade. It is not, however, of thorn we have to speak, except in so far as their case is typical, and explanatory of the action of the miners in their appeal to the Duke of Cleveland. In lead mining it is necessary, while extracting the treasure of one mine, to be exploring and opening out; another. If this is neglected, the work comes speedily to an end; But a Company, which is not earning dividend, cannot be expected to spend money except upon what is likely to be immediately productive. The London Lead Company have lately, confined themselves, almost if not altogether, to their working of the mines already open. There has been little or no prospecting, and little or no excavation of fresh levels for now developments of the industry. It was this fact, menacing to their future, which the miners had in view when they resolved upon the course of action we have specified. Why go to the DUKE? Mr Scarth, we think, asked the question; and, if he asked it, others may. They went to the DUKE because he is the owner of most of the country where the mining operations of the Company are carried on, and because he is, even in these bad times, netting a large sum, in the shape of royalty dues, by the working of the mines. Their prayer was for a reduction of these dues, the men sagaciously reasoning that by this means their employers would be placed in a position to deal liberally with them in respect to the remuneration for their labour, and at the same time to take the steps, and incur the outlay needful to keep the industry alive in the district.

There was, as will be perceived, an element of novelty in the request. It does not, however, follow that it was one, which should not have been preferred. About a seventh part of the gross product of the mines goes to the Duke. He has nothing to do for it—no risk. When lead was at £20 a ton, or upwards, capitalists and labourers in the trade could bear to be handicapped by the imposition of these exorbitant dues, but not now. It is a hard and unpromising race they have to run with their foreign rivals and if they are to have anything like a chance, they must be put upon something like equal terms. It would be too much to claim from the Duke of Cleveland a total remission of the dues, though possibly, by-and-bye, it may be considered right, not in his ease alone, but generally, to revise the rights of ownership, peculiar to this country, upon which such dues, a heavy tax upon-brains and sinews, are exacted. It is not, however, too much to ask for a reduction; and we venture to hope that, the prolonged silence will be early broken with words of good cheer. It was not to be expected that the decision upon such a matter would be arrived at in a moment; but twelve months—thirteen, to be more exact, reckoning from the date of the conference—could scarcely be required. The miners are wearily waiting for their answer; it will surely not now be much longer withheld.

THE WEARDALE LEAD AND IRON MINES.

Our Weardale correspondent writes: —A very important feature in the economical working of the Weardale lead and Iron Mines has been under consideration for sum time by the two companies now working the Upper Weardale minerals—the Weardale Lead Company and the Weardale Iron and Coal Company—and is about to be if it has not already been, satisfactorily settled. Where metalliferous veins traverse the limestone frequently, both ores are to be found in close proximity; hence one company, in getting their-special minerals, may win also that of the other company's, and the arrangement is for the companies to exchange minerals not their own at given prices, as in former years, the iron company won quantity of lead ore at some of their mines. This arrangement is important in the working of iron, for when lead ore is won in the pursuit of iron, it will cheapen the cost of winning the iron, a great desideratum in the working of the minerals in Weardale. These minerals are rich in quality, but carriage, particularly in iron, is considerable; hence anything done to lessen the expense in bringing the ores to market will help the dale. The iron company is working fairly well at present, but the stock on hand checks any extra demand. The mints, however, are on about full lime, and the Old Slitt Pasture mine will probably, be soon, opened.

The lead Company's mines in Kilhope, we understand, are promising. Preparations for further development are progressing. Upon the whole, the iron and lead industries and the limestone quarries at Stanhope, are fairly steady.

14th September 1883 (Daily Gazette for Middlesbrough)

MINING PROSPECTS IN WEARDALE.

On Thursday the directors of the Weardale Lead Company, Messrs Richardson (chairman), Hopkins, and Maxfield, accompanied by the manager, Mr Blenkiron, made a special survey of the Rookhope mining field. The Stotsfield Burn mine, lately worked by the Northern Lead Company, was first inspected, and the Weardale Company, having the royalties of this field, are negotiating for the machinery and plant with a view to opening this mine, and also the adjoining one of Brandon Walls. At Grove Rake, now in work, several improvements were

arranged for the comfort of the bargain men lodging there. At Bolts Burn the mine is being repaired with the view of opening ore workings. When these matters are completed a good number of men will no doubt find employment here. The Lead Smelting Mills were also visited. These mills are expected to be vacated in a few weeks by Mr Beaumont, and when Green Laws washing floors, &c., are handed over to the new Company they will have possession of the whole, or nearly so, of the plant and stores on the royalty. The other mines in Weardale have been inspected, and preparations are being made for opening some of the old mines, after which some new trials are in view. Considering the several points which have been settled during the sojourn of the Church Estates Commissioners, it may be expected that in a given time the whole of the dales people will find work at their old industry. The question of removing the workshops at Newhouse down to the flat by the Wear is one of the questions under consideration as being more convenient for the Lead Company. The directors left Weardale on Thursday night.

15th September 1883 (Hexham Herald)

THE TEESDALE LEAD TRADE

The annual visit of a deputation of directors of the London Lead Company to their extensive mines in Upper Teesdale is expected to take place this week. It is currently rumoured that a number of the Company's miners and other workmen will shortly be dispensed with until some satisfactory rearrangement of the Royalty question is made.

Deaths

Holme Foots, Nenthead, 8th inst., aged 67 Mary wife of Thomas Price.

In 1851, at Holme Foot, Thomas Price, lead miner, aged 28, his wife Mary (Tatters, married 7th October 1843) aged 35, children John George 7, Elizabeth 4, and Sarah Ann 1.

See 14th October 1843, 14th April 1865, 3rd August 1872, 9th October 1880, 19th December 1885.

22nd September 1883 (Hexham Herald)

BLANCHLAND

FATAL ACCIDENT

On Thursday week about 10 o'clock in the forenoon, a fatal accident happened at the Derwent mines, Blanchland, by which a miner named John White, residing in Blanchland lost his life. White and another workman called Adam Murray, with the underground agent Mr Jonathan Morpeth, were engaged in repairing the 144 fathoms shaft known as "Taylor's Shaft," they having reached the 60 fathom stage or landing termed in mining phrase a "bunning," when a portion of wood on which they were standing suddenly fell and the unfortunate man was precipitated to the next stage a fall of about 20 fathoms. The other two men fortunately seized hold of some of the side timber, to which they most tenaciously clung, and ultimately succeeded in safely ascending the shaft, having had a very narrow escape with their lives. ...

John White was 41 years of age he had worked for the Derwent Mining and Smelting Company Limited for some time as a timber man.

In 1881, at Baybridge, Shotley High Quarter, John White, born Blanchland, lead miner, aged 37, his wife Elizabeth, 39, children, Thomas, lead miner, aged 17, Mary, 12, Ellen 10, John 14, and Parker 5 years.

Deaths
Nenthead, 22nd inst., aged 20 Robert William Barron.
George Angus married Sarah Barron, (daughter of Robert & Elizabeth Barron), 29th January 1865, at Nenthead.
Robert William Barron was born 4th quarter 1862.
In 1871, at Whitehall, Nenthead, George Angus, lead ore smelter, aged 29, his wife Sarah 29, children Robert William 8, Hannah 6, and John 2. In 1881, at Hill Top, George Angus, lead ore smelter, aged 39, his wife Sarah 39, children Robert W. lead ore smelter, aged 18, Hannah 16, John, lead ore washer, aged 12, Sarah A. 9, Elizabeth 7, Mary J. 5, and George 3.
In 1891, at Byker Street, Byker, George Angus, lead ore smelter, aged 49, his wife Sarah 49, children John, railway porter, aged 22, Sarah A. dressmaker, aged 19, Elizabeth 17, Mary J 16, George, grocers errand boy, aged 13, Joseph 9, and Esther A 6.
George Angus died 3rd quarter 1891, aged 49.
In 1901, at Algernon Street, Heaton, Sarah Angus, widow, aged 59, children Elizabeth 27, George, postman, aged 22, Joseph, general labourer, aged 19, and Esther A 16.
Sarah Angus died 1st quarter 1910, aged 67.
See 15th September 1877, 2nd March 1878, & 28th September 1878
Greenends, 23rd inst., aged 10 months, Mary Hilda daughter of Robert Nevin Heslop. *See 8th May 1880*

6th October 1883 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

Dr Pickworth reported the sanitary condition of Nenthead and Garrigill was very satisfactory, and that during the past quarter the health of the people had been good. A single case of German Measles had occurred at Nenthead.
In reference to the damage done to the highway between Garrigill and Nenthead by the Dowgang Mining Company the Surveyor stated the road had been repaired to his entire satisfaction. The sum which Mr Walton the mine agent had offered had been quite sufficient, as after paying for labour 2s 5½d remained.
Marriages
Alston, St Augustine's Church, 1st inst., Robert, 2nd son of the late Robert Varty, Alston, to Sarah Elizabeth, 3rd daughter of Joseph Dawson, Alston.
In 1891, at Denmark Street, Byker, Robert Varty, butcher, aged 33, his wife Sarah E 29, daughter Isabella 4, Kate 1 month, and visitor Mary J Dawson 31.
See 13th January 1877.
Deaths
Clitheroe, Alston, 1st inst., aged 11 years, Annie daughter of the late John Barron. *In 1871, at Clitheroe, Alston, John Barron, coal miner, aged 35, his wife Ann 32, children Mary J. 11, Hannah, Joseph W. 6, Frances E. 5, and John J. 2. John Barron senior died in the first quarter of 1875 aged 39.*
In 1881, at No. 10 Clitheroe, Alston, Ann Barron, widow, aged 42, children, Joseph W. piecer in woollen mill, John L. 12, Annie 9, Louisa 6, and grandson Herbert aged 1 year.

13th October 1883 (Hexham Courant)

NENTHEAD

ACCIDENT TO A LAD AT NENTHEAD

A lad named Dryden, aged 8 years, whilst alighting from one of the Lead Company's empty wagons which was returning from the "pier," fell under the wagon and was run over. The accident took place just where the rails cross the road, and opposite the clock known by the name Peter. Several persons were attracted by the lad's cries, and he was speedily conveyed to a house where his injuries were attended to by Dr Pickworth. He was afterwards conveyed to his own house. Both of his legs were run over and bruised, but we understand no bones were broken.

27th October 1883 (Hexham Herald)

WEARDALE

BURTREE PASTURE MINE. NARROW ESCAPE.

As a partnership of miners were coming out of the Old Bottom level on a "bogey" the foremost man Mr Featherstone, observed a support "creep", and heard a cracking noise. With great presence of mind, he shouted to back the "bogey", which was no sooner done than down came a great quantity of roof, sufficient to have buried the lot if they had not gone back.

Deaths

Nenthead, 23rd inst., aged 1 year, Joseph, son of Robert Armstrong.

See 7th September 1878

3rd November 1883 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

Dr Pickworth medical officer for Nenthead reported that during the quarter ending 30th September there had been 17 births in his district, 8 males and 9 females; and 9 deaths, 1 male and 8 females. The birth rate was 7.28 per thousand, and the death rate 3.25. The district was in a very satisfactory condition.

10th November 1883 (Hexham Courant)

Deaths

At Winnipeg, Canada, 16th October, aged 11 months and 14 days, Cecil Albert, son of W. T. Dalton, late of Nenthead, Alston.

See 10th October 1874, and 10th December 1881.

10th November 1883 (Hexham Herald)

Marriages

Weardale, High House Wesleyan Chapel, 4th inst., Mr John Thompson, Burtree Pasture to Jane Ann Hewitson, Allendale.

Deaths

Green Pit, Allendale, 4th inst., aged 57, Frances wife of Thomas Varty.

In 1861, at Green Pits, Allendale, Thomas Varty, lead miner aged 35, his sister Elizabeth, housekeeper, and brother Joseph, shepherd aged 32.
In 1864, Thomas Varty married Frances Ashman, the unmarried sister of John Ashman, lead miner of Middlehope, Allendale.

In 1871, at Green Pits, Allendale, Thomas Varty, retired miner, aged 45, his wife Frances 44, and nephew E A Robson aged 13. In addition, at Green Pits, Joseph Varty, farmer of 10 acres, aged 42, his sister Elizabeth, 47, and nephew John J. P. Varty aged 6 years.
In 1881, at Green Pits, Thomas Varty, farmer of 10 acres, aged 55, his wife Frances aged 54. See 9th November 1864 & 2nd August 1884.

17th November 1883 (Hexham Herald)
Deaths
Dyke Heads, Nenthead, 11th inst., aged 4 months, Agnes daughter of Sarah Ann Pattinson.

1st December 1883 (Hexham Courant)
Marriages
At Alston, Congregational Chapel, 24th ult. Robert Robson to Margaret Spottiswood, both of Clitheroe.
In 1871, at Clitheroe, Hugh Spotswood, lead miner, aged 52, his wife Ann aged 44, children James, lead miner, aged 23, Hugh, lead miner, aged 21, Mary A 17
John, apprentice carpet weaver, aged 14, Leah 11, Margaret 8, Miles 5, and Matthew 2. In 1881, at Bridge End, Wardew, Northumberland, Margaret Spottiswood, aged 18, was working as a domestic servant for Edward, Turnbull, road maker & rate collector, aged 29, and his mother Elizabeth, widow, aged 69.
The nearest fit for this couple is as follows:
In 1891, at Scotts Close, Selkirk, Margaret Robson, fireman's wife, aged 28, children, Ann aged 7, born England, Robert aged 3, born Selkirk, and Mary H. aged 1, born Selkirk. In 1901, at Wilton Cres, Howick, Roxburghshire, Robert Robson, labourer, aged 40, born Denholm, Roxburgh, his wife Margaret 39, children Annie 17, Robert 13, Mary E 11, Hugh 9, James 6, Elizabeth 3, and Margaret 2.
See 19th April 1884, and 20th December 1884

7th December 1883 (Northern Echo)
DERWENT MINES
It is not, we understand, correct, as reported, that a new company has been formed for the working of these mines. They have been purchased, together with the plant, by the owners of the adjoining Hunstanworth and Newbiggen Estates, who have taken advice from Mr Cain as to the disposal of some of the plant; but there is no intention at present to work them.

21st December 1883 (Durham County Advertiser)
THE WEARDALE MINES. —During the week Mr Richardson (chairman of the Weardale Lead Company) accompanied by Mr Maxfield, another of the directors, has been busy looking through the mines and plant, with the object of considering the projected exploration. Their main attention is centred in the Killhope and Burtree Pasture Mines. The last named is the largest the company have. Air shafts are, we hear, to be sunk to ventilate it.

22nd December 1883 (Hexham Herald)

ALSTON

FATAL PIT ACCIDENT

Inquest held on the body of Joseph Forster *(of Mohope 31 years of age, unmarried)* who had been killed on Thursday whilst working in one of the pits belonging the Alston Lime Works. John Thompson, Deputy at the pit deposed that he inspected the pit every morning before the men went to work. On Thursday morning he had told the deceased to remove some loose stones and afterwards to pull down the stone, which eventually fell and killed him. Deceased moved the loose stone, but instead of pulling down the dangerous stone he commenced to hew coal. He warned the deceased, but he could not stand over him and see him do the work. Deceased was a very careless man, and he had told him that morning to pull down the stone, but he had taken no notice. Hugh Spottiswood, a putter lad, corroborated the above evidence and the jury returned a verdict of accidental death.

Marriages

Garrigill Wesleyan Chapel, 15th inst., Thomas Anderson Millican to Elizabeth Lancaster both of Garrigill.

In 1881, at Garrigill Gate, Henry Millican, farmer of 90 acres, aged 47, his wife Hannah 47, children Thomas A. farmers son, 23, Sarah 20, John W. farmers son, 18, Elizabeth E. 14, Mary H. 9, and George N. 6.

In 1891, at Red Brow, Garrigill, Thomas A Millican, carter, aged 33, his wife Elisabeth 33, children Joseph H 7, Herbert 5, Caroline M 3, and Thomas E 11 months.

In 1901, at Brinkburn Ave, Gateshead, Thomas Anderson Millican, general labourer, iron works, aged 43, his wife Elizabeth 43, children Joseph Henry, drapers assistant, aged 17, Herbert, wine merchants clerk, aged 15, Caroline Maud 13, Thomas Earnest 10, Isa Mary 8, and Jenney 3.

In 1911, at Eastbourne Ave, Gateshead, Thomas Anderson Millican, cartman mineral water trade, aged 54, his wife Elizabeth 53, children Herbert, clerk wine & spirits merchant, 26, Caroline Maud, shop assistant drapers, aged 23, Thomas Ernest, bootmakers assistant, aged 20, Isa Mary, factory hand electrical, aged 18, Jane 13, visitors Emily Watson, married, aged 36, Cyril Doncaster Watson 10, and Norman Watson 3.

Thomas Anderson Millican died 4th quarter 1941, aged 83.

See 24th November 1917

Deaths

Garrigill, Redwing, 11th inst., aged 4 years, Elizabeth Ann, daughter of Matthew Bramwell.

In 1861, at Red Wing, Garrigill, Matthew Bramwell, farmer, aged 50, his wife Jane 51, children Robert, lead miner, aged 26, Ann house maid, aged 24, Thomas, lead miner, aged 22, Matthew, lead miner, aged 14, Margaret 12, and Robert 6.

See13th December 1870, & 24th May 1873.

In 1881, at Red Wing, Garrigill, Mathew Bramwell, farmer of 70 acres, aged 35, his wife Mary (Mason, married 9th September 1876, at St John, Garrigill) aged 24, mother Jane Bramwell, widow aged 70, children Sarah J. 4, Elizabeth A.1, Mathew H. 2 weeks, and nephew Robert Bramwell, labourer lead mine, aged 25.

In 1891, at Low Redwing, Mathew Bramwell, farmer, aged 44, his wife Mary 36, children Sarah J 14, Mathew 10, Frances 8, Maggy 5, Hannah 3, Lillie 2, and Thomas 4 months.
In 1901, at Redwing, Matthew Bramwell, farmer, aged 54, his wife Mary 45, children Matt Henry, lead miner, aged 20, Frances Mary 18, Lily 12, Thomas 10, Joseph 8, Jessie 6, and Elizabeth 1.
In 1911, at Redwing, Matthew Bramwell, farmer, aged 64, his wife Mary 55, children Lily 22, Thomas, lead ore miner, aged 20, Joseph, lead ore miner, aged 18, Jessie 16, and Lizzie 11. Matthew & Mary had 11 children, of which 2 died before the 1911 census.
Matthew Bramwell died 3rd quarter 1918, aged 71.
Garrigill 13th inst, aged 69, Tamar Slack, widow of John Slack.
In 1841, at Garrigill Gate John Slack, lead miner aged 20, his wife Tamar, (Watson, married 17th October 1839, Garrigill) aged 20, and their daughter Mary 8 months.
John Slack died 1st quarter 1846, aged about 29.
In 1851, Tamar Slack, widow, annuitant, aged 35, daughter Mary Ann aged 10, and son Ralph aged 5. John Slack aged 7, is at Snappersgill, Garrigill, listed as a grandson: - John Watson, retired lead miner, aged 67, his wife Jane aged 60, sons, John, lead miner, aged 27, Isaac, lead miner aged 20, Christopher age 17, and John Slack, grandson, aged 7.
In 1861, at Garrigill Gate Head, Tamar Slack, widow, aged 46, sons John, lead miner aged 17, and Ralph, lead miner aged 15.
In 1871, at High Crossgill, Garrigill, Tamar Slack, farmer of 245 acres, aged 56, her sons John, farmers son, aged 27, Ralph, farmers son, aged 25, and farm servant Mary Ann Holmes, aged 16.
In 1881, at Garrigill Gate, Tamar Slack, lead miners widow, aged 66, and her unmarried son Ralph, retired farmer, aged 35.
See 4th November 1871, 18th August 1883, & 30th September 1893

4th January 1884 (Northern Echo)

THE TEESDALE LEAD MINES
THE LONDON LEAD COMPANY RECONSTITUTED.

Presiding at a holiday gathering at Middleton in Teesdale, Mr R. W. Bainbridge, widely known and esteemed as the chief agent of the old established London Lead Company in Teesdale, remarked that during the last six years the lead mining industries in the dale had been labouring under a heavy depression, owing to the low price of lead compared with what it was say 10 years ago when it was selling at £20 per ton; whereas recently the London Lead Company had disposed of a large quantity of lead at £12 10s. per ton. The mines had been worked at a loss during the last six years, which loss has been most keenly felt by the weaker shareholders, and consequently the industries during that time had been considerably curtailed. He was glad however, to say that negotiations) a Northern Echo report on the matter being quoted to the meeting) were now being carried on with a view to the reduction of the royalty dues, and which might tend to the further development of the mining industries in the dale; and the company being to a large extent re-formed; many of the smaller shareholders retiring; would enable the new company; composed principally of large capitalists; to carry on the enterprise in a more spirited manner. He only trusted that those who might succeed him in directing the affairs of the company

might emulate that kindly spirit which had always hitherto prevailed. (Cheers) Being in his seventy-eighth year, he must now think of retiring (having laboured amongst them for the last 40 years) so as to enable him, during the remainder of his life, to apply himself more devotedly to the nobler and higher purposes of life. (Cheers)

5th January 1884 (Hexham Herald)

WEARDALE

THE WEARDALE LEAD MINES.

A Company has been found to take over the property and recommence the mining enterprise in Weardale. "The W.B. Lead Company Limited," was registered on the 24th ult., and its purpose is stated to be, "to acquire and work lead and other mines in Northumberland and Durham or elsewhere in the United Kingdom." The capital is fixed at £75,000 in 750 £400 shares and the first subscribers are :-

W. B. Beaumont, MP., J. C. Cain, mining engineer, Gateshead; J. M. Fothergill, agent, W. B. Lead office Newcastle; John Ridley, mining engineer, Allenheads; Joseph Coats, civil engineer, Allenheads; R. R. Dees, solicitor, Newcastle; and T. W. Thompson, solicitor, Newcastle.

12th January 1884 (Hexham Courant)

LEAD MINING IN TEESDALE

It is now certain that the London Lead Company is to be reconstituted and that new and additional capital will shortly be introduced into the concern. The affairs of the Company under the recent arrangements will also be under new and independent management. The mines have been worked at a considerable loss during the past six years, which have been keenly felt by the weaker shareholders as marketed lead has barely reached £12 10s per ton. The new Company will be composed principally of large capitalists and contemporaneously with the announcement comes the fact that application for a reduction in royalty dues on lead mining is in a fair way of being settled in the interests both of the lessor and lessees. The chief lessor of the Company's workings in Teesdale is the Duke of Cleveland, who for some time past has been considering the question.

19th January 1884 (Hexham Herald)

FALLOWFIELD

SERIOUS ACCIDENT

On Thursday while a number of men were getting their "bait" in that part of the mine called the Dene, a considerable fall of stone took place by which a young man named Hugh Pattinson, Alma Cottages, Acomb, had his collar bone broken, and another man named Richard Mews, St Oswald's was seriously injured about the head and back. The stone fell without any warning, and Robert Mews, a son of the above had also a narrow escape, being almost covered with gravel. On the same morning in another part of the mines, Codlaw Dene, about half a mile distant a stone one and a half tons in weight fell within a foot of a man named William Moore, belonging to Acomb. His legs were injured by the gravel, which was brought down by the stone.

WEARDALE

The price of the Weardale Company's lead is £12 15s. The mines are rather dull, though lead is firmer.

25th January 1884 (Durham County Advertiser)

SUDDEN DEATH IN WEARDALE

On Thursday morning Mr John Coulthard, Laneside, near Wearhead,died suddenly. The deceased had been in his usual health, and at work at Burtree Pasture Lead Mine. Mr Coulthard was an "old standard" in the dale, and universally respected.

John Coulthard married Mary Peadon, 31st January 1807, at Stanhope.
Children of John and Mary Coulthard:
Thomas born 18th May 1807, baptised 7th May 1808, at Stanhope
John, born 22nd March 1809, baptised 6th October 1809, at Stanhope.
William born 8th October 1811, baptised 13th October 1811, at Stanhope
John Coulthard married Frances Coatsworth 28th March 1835, at Heathery Cleugh.
In 1841, at Haliwell House, Heathery Cleugh, Stanhope, John Coulthard, lead miner, aged 25, his wife Frances 25, children, Frances 8, William 5, Mary 3, Margaret 11 months.
In 1851, at Hallywell House, Heathery Cleugh, Stanhope, John Coulthard, lead miner, aged 41, his wife Frances 35, children, William, lead miner, aged 15, Mary 13, Margaret 10, John 7, Jane 5, Ann 3, and Phebe 1.
Frances Coulthard died 1st quarter 1858
In 1861, at Sedling, Heathercleugh, Stanhope,John Coulthard, widower, lead miner, aged 52, Children, John, lead miner, aged 17, Jane 15, Anney 13, Phebe 11, Sarah 9, and Joseph 3.
In 1871, at Lane Side, Heathery Cleugh, Stanhope, John Coulthard, widower, lead miner and farmer of 15 acres, aged 61, children, John, lead miner, aged 27, Ann 23, Phebe 21, Joseph 13, and grandson, Thomas Coulthard, aged 1.
In 1881, at Lane Side, Heathery Cleugh, Stanhope, John Coulthard, widower, lead miner, aged 71, son Joseph, limestone quarryman, aged 22, and grandson, Thomas Coulthard, aged 11.

26th January 1884 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

The annual report of Dr Pickworth (No. 2 district) was read. The births during the year had been 52, 25 females and 27 males. Deaths 38, 24 females and 14 males. The birth rate was 22 per 1000 and death rate 16 per 1000 per annum.

WEARDALE LEAD MINES

Price of lead £12 17s 6d, an advance of 2s 6d on previous week; they run from one eighth to one quarter premium. This company was only established six months ago, and during this period have raised over 1,100 tons of ore. Last week they sold their first parcel of lead (100 tons) which realised £12 10s per ton. Monthly sales will now take place, and from developments already made the company hopes to make a profit notwithstanding the low price of lead. Mining Journal 19th January.

Deaths
Red Wing Garrigill, 17th inst aged 72, Ann widow of Joseph Ward.
In 1881, at Red Wing, Garrigill, Ann Ward, widow, farmer of 61 acres, aged 69, unmarried daughter Martha, farmers daughter, aged 44, and unmarried son Thomas, farmers son, aged 28.
See 5th November 1879.

2nd February 1884 (Hexham Herald)
BLANCHLAND
DERWENT MINING AND SMELTING COMPANY LIMITED
The above mines have been almost idle during the last 18 months, with the exception of about 18 or 20 men engaged in driving drifts and washing up refuse ore. But on 1st December 1883, the mines, mineral, and material, or plant, together with the horses, houses, and all the props, &c., of the above company were bought and came into the possession of James Joicey Esq., of Gateshead, and up to Tuesday night, the above 20 men have been employed clearing the mine of rails, machinery, and everything of value, preparatory to laying the mines in for an indefinite period. … The engine whose stroke could have been heard at night for miles round, and which has been at work day and night for the last 25 years, and which wrought three sets of pumps, Taylors shaft, 1444 fathoms, the Presser, 110 fathoms, and also another set from the Sun veins, by means of spear rods over half a mile in length, is now lying idle.
Deaths
Sparty Lea Allendale, 6th ult., aged 65, Thomas Archer.
In 1841, at High Round Hill, Allendale, Joseph Archer, lead miner, aged 55, his wife Tamer (Roddam, married 11th October 1809) aged 50, children Joseph 25, Thomas 20, Robert 15, Bettsy 14, and Jane 11.
Joseph Archer died 1st quarter 1848.
In 1851, at Stobb, Allendale, Tamar Archer, widow, annuitant, aged 60, children, Joseph 36, Thomas, lead ore miner, aged 33, Elizabeth aged 24, and Jane aged 22.
In 1861, at Stobb, Allendale, Tamar Archer, widow, proprietor of land, aged 70, son Thomas, farmer, aged 43, and daughter Elizabeth aged 34.
In 1871, at Low Stobb, Thomas Archer, landowner, aged 53, and general servant, Mary Farbridge (daughter of Thomas Farbridge, listed as widow agricultural labourer aged 45 in the 1851 census, Tamar Archer, was working as a domestic servant, for Thomas, she was the daughter of Joseph & Tamar Archer), aged 33.
In the last quarter of 1871, Thomas Archer married Mary Hewitson, of High Water House, Allendale, a dressmaker.
In 1881, at Sparty Lea, Thomas Archer, retired farmer, aged 63, his wife Mary aged 56.

9th February 1884 (Hexham Herald)
ALLENDALE TOWN SMELT MILL
We understand that 19 of the men employed at this mill have received notice that their services will no longer be required after the 22nd March. There are about 50 men employed at the mill at present.

WEARDALE

In the Mining Journal, James Blenkiron (manager for the Weardale Co.) reports under the date of 26th January.

Killhope: There is not any change to note in general appearance in Killhope Head vein and workings. In Old Moss, the East Level is being pushed forward by eight men; stope above looks very promising. Ore in top worth 3 tons to the fathom solid in some parts, and 10 to 12 in. wide. West End tributer's work is not yet cleared out; end standing, consequently pushing all we can. Having arranged for 8 men to cut out Whimsey Ring with labourers to assist.

Greenlaws: In Watson's drift, Middle level, the ends are a little more kindly, and slight improvement for ore. The Quarry level West is stopped for the present, and men set to rise to communicate with Lowe's drift 10 fathoms above; when this communication is made it will considerably improve ventilation, and open out a large area of stoping ground. Bowe's rise in Dent's level, the vein is kindly but narrow; ground compact and slow to work; will undoubtedly open some good stoping ground and ventilation drift.

Grove Rake: There is no change worth naming in this mine, we are pushing the ends or points in Middle drift to open the ground for stoping and ventilation; the various drifts are on the centre lode. We expect better ore to be found when stoping commences.

Burtree Pasture: In Donaldsons level the end is very hard, but a strong powerful vein; we have not got all the strength up from the North side yet. I trust soon to report a good mine at this point. The men have met with little ore in a new rise. I trust this will open out some payable ground. There is no other change. The air has been very bad in all the mines last week on account of unsettled and strong weather, and the men have not been able to work their full time.

Marriages

St John's Chapel, Weardale, James Sparke, jun., of Wearhead, eldest son of Wm. Sparke of Allenheads Corn Mill, to Miss H. Fleming of Level Gate.

Deaths

Nenthead, 31st ult., aged 71, John Atkinson.

William Armstrong married Nanny Pearson, 2nd September 1809, at Alston, William, (Bill) died 1819, buried 28th June 1819. In 1841, Nanny Atkinson, carrier aged 50, John lead miner aged 25, James lead miner aged 20, and Elizabeth Pearson aged 40. James Atkinson married Hannah Carr in June 1841 his wife died in October 1842, leaving a son, his mother Nanny died 3 weeks after his wife.

He married Jane Winskill 3rd quarter of 1845.

In 1851, at overwater, Nenthead, James Atkinson, lead ore washing foreman, aged 33, his wife Jane 27, children, William 9, John James 4, Alfred 1 month, and brother John, lead miner, aged 38.

In 1861, at Overwater, Nenthead, James Atkinson, lead ore washing foreman, aged 43, his wife Jane 36, children John J. 14, Alfred 10, Hannah 8, Ralph W. 6, brother John Atkinson, cartman, aged 48, house servant Jane Coats, aged 16.

In 1871, at Overwater, Nenthead, James Atkinson, lead ore washer & land owner, aged 53, his wife Jane 46, children John G. lead ore washer, aged 24, Hannah 18, Ralph W. lead ore washer, aged 16, Pearson 2, and brother John Atkinson, blacksmith labourer and landowner, aged 58

In 1881 at Overwater, Nenthead, James Atkinson, manager of lead ore washing, aged 63, his wife Jane 57, children John James, foreman of lead ore washing, aged 34, Hannah 28, Pearson 12, grandson John James Atkinson 2, unmarried brother John Atkinson, formerly lead miner, aged 68.
See 2nd September 1843, 4th November 1893, 15th December 1894, & 15th July 1905.
Clitheroe, 3rd inst., aged 1 year, Matthew Spottiswood.

16th February 1884 (Hexham Courant)
Deaths
At Nenthead, 12th inst. aged 41, Henry Wailes.
See 5th August 1876, 12th January 1878, 1st July 1882, & 6th December 1884.
At Fairhill, Nenthead, 13th inst. aged 79, Thomas Hutchinson.
See 23rd April 1870

16th February 1884 (Hexham Herald)
THE DERWENT LEAD MINES in West Durham, as intimated some time ago, have been closed, partly owing to the low price of lead and partly on account of the veins getting poorer in depth. These mines have been worked for many generations, and a large number of men employed. The late proprietors worked the mines 40 years. Some years ago, a number of Cornish miners were brought here, but all have now left, the works being entirely closed. The Royalties of the mines and the plant, materials &c., were purchased by the executors of J and E Joicey, who are also owners of an extensive estate in district. ... *Mining Journal*.

23rd February 1884 (Hexham Herald)
WEARDALE
Lead stands this week at £12 10s. It still continues very low, which makes lead mining very depressed. The following is a report by James Blenkiron, Esq., head agent to the Weardale Company. February 9th.
Killhope: The Trent level west continues extremely hard and consequently only slow progress is made. We expect to get to easier ground shortly. The Sills are rising. The Coal drift or stope, East has improved a little ore to save. The Firestone rise in plate above the Firestone, the vein appears to have hitched to the South. Two stopes in flats. Killhope Head: Milburn's Low, and Dalton's High flats have both improved for ore; worth 2 tons per fathom each. There is no change to note in any other part of Killhope Head vein or flats. Nine sets of workings are tribute in ground worth from 16 to 40 cwt of ore per fathom.
Old Moss vein: The East level end is looking more kindly still in plate, but vein shewing more mineral matrix and yielding ore to save. Stope over said level East from cross cut worth 3 tons of ore per fathom. West in Old Moss, Elliott's bouse now all cleared out, and four men commenced to drive main level or End west at 95s per fathom. Elliott's stope worth 2 tons per fathom. Five sets of tributer's at work in Old Moss, in ground worth 16 to 60 cwt per fathom; three of the above sets stoping in Old Moss. In the new Whimsey ring the men have cut through the central part of the ground and will now make rapid progress in blasting the outsides and roof, there is no other change in this mine.
Burtree Pasture: In Milburn's or 75-fathom level, there is no change to report. We have 10 sets of men stopping on tribute above the said level in Nattrass Gill

Hazle, and 4-fathom limestone; in ground worth from 20 to 30 cwt per fathom. Donaldson's or 103-fathom level East in Wetsone sill the vein is 5 feet wide, composed of flour-spar and quartz and extremely hard; part of the vein is still to the North, set at £10 per fathom and worth 16 cwt of ore per fathom. One set of tributer's above said level worth 30 cwt of ore per fathom.

Greenlaws: In Jackson's drift the top level is suspended on account of an intersection by a cross vein, which has thrown beds or sills down on the West sides about 4 fathoms. We have set men to drive in the South vein, which we think has not been fairly tried or proved. There is no change in Watson's drift in West or Middle level; the air is very bad. We have set four men to push forward the air course and we expect this to open out some payable stopping ground. Lowes drift East has considerably improved. The vein is 4 feet wide composed of kindly flour-spar and worth 16 cwt of ore per fathom. Fosters rise above the quarry level is looking more promising; the bottom is in Slatey Hazle, a strong spary vein, worth 12 cwt per fathom, and indications of improvement as we near the 5-yard limestone. We have 21 tribute pitches working in Greenlaws in ground worth from 16 to 35 cwt per fathom. Dent's level: Bowes rise near top of Scar limestone, we are just entering plate under the Slatey Hazle we have about 7 fathoms to rise yet to reach the Middle drift. Four partnerships are raising ore in tribute ground worth from 13 to 20 cwt per fathom.

Grove Rake: In the Middle drift, 8 fathoms above Rake level a communication has been made between Hill's and Robson's rises, which has ventilated this part of the ground, and laid it open for stoping. We have 5 partnerships stoping on tribute above Middle drift in ground worth from 12 to 20 cwt per fathom. The new stope above Rake level is considerably poorer, not worth more than 12 cwt per fathom, but we think it will soon open out again. We have commenced enlarging the Winne for £9 (4 firms) and let the contract to eight men to sink Kidd's sump at £16 per fathom, the company to pay for pumping water; and have set four strong youths to prove Firestone Sills.

Mining Journal.

1st March 1884 (Hexham Herald)

THE WEARDALE LEAD COMPANY

The directors of the Weardale Lead Company are now in Weardale visiting their works. The Company has just acquired the property of the Northern Lead Company (in liquidation) at Stotsfield Burn, Rookhope, and by arrangement with the Ecclesiastical Commissioners the Weardale Lead Company have undertaken to pay the wages due to the miners and workmen of the Northern Lead Company.

ALSTON

In Alston the only mines working at all briskly, with the exception perhaps of some small ventures, are Nenthead and Cashwell, and at Nenthead Spelter rather than lead ore is depended upon for the mine being profitable.

1st March 1884 (Carlisle Express and Examiner)

ALSTON. —St Augustine's Church: A meeting of gentlemen interested in the completion of this church was held in the Town Hall, on Friday afternoon, under the presidency of the vicar, the Rev. F. L. Bowman, to consider what steps were to be taken to complete the building by the erection of a tower or a spire. It was stated that towards the object to be attained there was about £300 in hand, and

it was roughly estimated that tower might cost £1,000, or a spire £2,000. The Chairman considered there was no probability of raising the latter sum. and favoured the erection of a tower, which, he thought, might be proceeded with during the present summer, himself and the churchwardens giving security for the amount still required. Mr. Crawhall-Wilson proposed that the work be deferred for few years, by which time perhaps the trade of the district might have sufficiently revived to enable them to raise the larger sum and erect a spire. This proposal was not seconded, and it was decided to take steps to carry out the vicar's suggestion.

Commercial Depression: Never in living memory, and probably never since lead mining commenced, has the stagnation in that branch of industry been so great at present, both in Alston Moor and in the upper dales of the Allen and the Tees. In Alston, the only mines working at all briskly—with the exception, perhaps, of some small ventures—are Nenthead and Cashwell, and at Nenthead, Spelter, rather than lead ore, is depended on for the mine being profitable. As a consequence, employment in this district is very difficult to obtain. A number of hands from Alston have lately been employed the Coanwood Collieries, and also the Lambley and Midgholme Collieries of Messrs. Thompson. Coanwood, however, has lately been affected the Lock-out at the ironworks in West Cumberland, so that their coke deliveries not leach half their normal quantities, and though the pit is being pretty regularly worked, most of the coals are banked, and the coke hands are not employed more than half time. At Midgholme, owing to an accident to the pumping engine, little work has been done for three weeks, and most of the hands are idle. To make matters worse, on Thursday a quantity of water was tapped in Colliery, and the pit is now rapidly filling, so that work is discontinued. It is hoped the inflow may shortly slacken and admit of the water being pumped out and work recommenced.

5th March 1884 (Northern Echo)

THE WEARDALE MINES

Our Weardale correspondent writes that the visit of the directors has been watched with keenest interest by the inhabitants of the dale. The company have purchased the Stotsfield Burn Company's mine in Rookhope, adjacent to the royalty of Grove Rake Mine already in their possession. The above company having become insolvent, and unable to disburse the miners then in their employ their earnings, orders have been issued for the latter to send in their claims to the Rookhope offices of the Weardale Company. The directors, accompanied by Mr Blenkiron and Captain Trelease have overhauled the various mines, plant, workshops &c. When at Killhope Mine, Mr Batters addressed the workmen, lamenting the present state of the lead trade. The workmen were intimate with the difficulties they had to contend with, and he, as well as his brother directors, hailed the harmonious and reciprocal feeling manifested by the Weardale men under the present depression with satisfaction, and trusted to see the time when circumstances would allow them to be able to better remunerate their employees. During his forty years' experience he had never seen trade at such a low ebb. Let them work together, and do their best to tide over the present crisis. Several practical suggestions as to future development have been noted, and will be considered by the Board of Directors in London.

8th March 1884 (Hexham Herald)

WEARDALE

The Weardale Lead Company directors have devoted the past week to an inspection of their extensive group of mines at Stanhope, and are still pursuing their investigations. The distress in the valley has been greatly ameliorated by the amount of labour employed already employed, amounting in the aggregate to upwards of 570 men, which means the support of a population of about 3,000 souls. As this extensive property is developed, more will of necessity be employed. A movement in this direction has to be recorded in the fact that this enterprising company has purchased the plant and mines, late of the property of the Northern Lead Company (Limited) in liquidation and paid the miner's wages, which have been long outstanding, and intend commencing operations at one portion of the mines, where water power is available, and where good ore is known to exist. In the driving in Dent's Level, at Greenlaws mine, which is the important pioneer level, the lode has improved to two and a half tons per fathom and easy ground. At Burtree Pasture mine, in the deepest level, a change has taken place in the lode which was left by Mr Beaumont poor and in twitch, and it is now easier for driving, having a leader of 2 feet of spar and producing good lead.

15th March 1884 (Hexham Courant)

ALSTON

Prime examples of lead ore have lately been raised from Craig Green Mine, some three miles from Alston, and it is understood that prospects at this mine are very encouraging.

Deaths

At Hill Top, Nenthead, 7th inst., aged 57, Joseph Erwine.

In 1871, at Burn Foot, Nenthead, Joseph Erwine, lead ore smelter, aged 42, his wife Margaret 42, children John, lead ore washer, aged 16, Robert, lead ore smelter, aged 14, Margaret A. 11, George E. 9, Joseph W. 5, and Polly 1. In 1881, at Hill Top, Nenthead, Joseph Erwine, lead ore smelter, not able to work, aged 53, his wife Margaret 52, children John engineman, aged 26, Robert lead ore smelter, aged 24, Margaret 21, George lead miner, aged 18, Joseph W. lead ore washer 15, Polly Erwine 11.

In 1891, the family are at Birkett Field, Threlkeld, near Keswick, Margaret Erwine, widow aged 64, children, Margaret A. aged 31, George, labourer at lead mine, aged 29, Joseph W. labourer at lead mine, aged 24, Polly, dressmaker, aged 21, married son Robert, labourer at lead mine, aged 33, his wife Elizabeth aged 26, and their daughter Alice aged 5 years.

At Fawside House Allenheads, 6th inst, aged 33 Robert Heslop, storekeeper, W. B. Lead mines.

In 1871, at Rose Hill, Allendale, Thomas Heslop, lead ore miner, aged 52, his wife Mary 46, children Robert lead ore miner, aged 20, John S. lead ore washer, aged 16, Thomas, lead ore washer, aged 14, Sarah 10, William E. 8, Mary H. 6, and Elizabeth 2. In 1881, at High Dirtpot Shield, Thomas Heslop, lead miner, aged 61, his wife Mary 56, children John S. barytes miner, aged 26, Thomas, surface labourer, lead mines, unemployed, aged 24, Sarah 20, William P. , surface labourer, lead mines, aged 18, and Elizabeth 12.

Thomas Heslop died 1st quarter 1887, aged 67.

In 1881, at Fawside House Allendale, Robert Heslop, storekeeper, aged 30, his wife Mary Anne (Curry, married 1879) aged 30.
In 1891, at Thornley Leazes, Allendale, Mary Curry, widow, aged 68, daughter, Mary A. Heslop, widow, aged 41, grandson Matthew Lee, age 10, granddaughter Winifred M. Lee aged 4, and granddaughter Gladys E. Lee.
At Alston, 9th inst, aged 71, Margaret Haldon.
See 26th October 1872, 30th January 1875, & 18th December 1875.

22nd March 1884 (Hexham Courant)
Deaths
At Townend, Alston, 16th Frederick son of Mr Thomas Spark. *(born 1884)*
At Physic Hall, Alston, 18th inst. aged 77, Elizabeth Cousin.
See 20th October 1877

22nd March 1884 (Carlisle Express and Examiner)
KESWICK
LEAD MINING: A vein of lead, about 18 inches thick, was reached at a depth of about 20 fathoms, at the Barrow side mine, on Monday. There was great rejoicing at the event, as the mine is likely to open out a lucrative industry in the district of Keswick, Braithwaite, Thornthwaite, and Newlands.

29th March 1884 (Hexham Courant)
NENTHEAD
Walter Spence Norman Jefferies, Esq., MD., CM., of Barton on Trent, has been appointed and accepted the post of medical officer to the Nenthead and Garrigill Miners Union.

FATAL ACCIDENT
A sad accident, attended by fatal results, happened to a young man named Thomas Rutherford, aged 20 years, belonging to Dykeheads, on Thursday morning about 10 o'clock. The young man named was employed as a driver at Longcleugh lead mine, Nenthead, and had charge of a horse to which was attached four wagons. He had loaded the wagons where three men were working in the mine, and was on his way out sitting, as usual, on the fore part of the first wagon, when by some reason unknown, the wagon had left the rails and overturned, falling on the deceased young man's head, and in this position he was found by a miner named Richard Hetherington, who at once got assistance and had the wagons removed, but before this could be done life was extinct.

THE GREEN HURTH MINING COMPANY
The annual meeting of the shareholders of this company were held on Tuesday afternoon at the office, Westgate Road, Newcastle. Mr J C Swan presided. The balance sheet and reports were adopted. The chairman said that during the past year they had been able, not only to maintain their dividends, but also to somewhat improve their financial position and to carry over a larger balance than they did in the previous year. They had during the year raised, speaking roughly, 100 tons of lead more than in the previous year. The cost of raising the lead had been £890 less; and in fact, they had made a considerable reduction in the cost of production per ton. They had opened No 1 vein, which promised to be very rich; and they had also begun to open out a drift near the old workings. In reply to a question the chairman said that at the end of 1882

£406 11s 6d was carried forward, which balance of profit of £5,669 18s. Their capital was only £1,920, and for certain repairs and renewals and improvements they had had drawn upon the revenue. They had divided £4,800 in dividends during the year. Effects were being made to obtain a reduction in royalty; and taking into consideration the terms of the concession, he had hopes of succeeding. Messrs T Sheldon, T B Barker and Lieut. Colonel Monks were re-elected directors. It was resolved that in future the directors should each be paid 290 guineas per annum for their services. The meeting closed with a vote of thanks to the chairman.

Deaths

At Physic Hall, Alston, 21st inst. aged 40 Frances the beloved wife of John Kirsopp, surface man.

In 1871, at Clay Hall, John Kirsop, road surfaceman, aged 33, wife Frances aged 27, and son John Wm. 2. In 1881, at 11 Physic Hall, Bank Foot, John Kirsopp, road surface labourer, aged 42, wife Frances 37, children John William 12, Annie 9, and Phillis Hannah 6. In 1891, at Physic Hall, John Kirsopp, widow, road surveyor, aged 51, John W. road surfaceman, aged 22, Annie 19, Phillis H. schoolteacher, aged 16, and Emily 9.

John Kirsopp died 3rd quarter 1895, aged 55.

5th April 1884 (Hexham Courant)

NENTHEAD

INQUEST

Mr J B Lee deputy coroner, held an inquest at Nenthead on Saturday last, on the body of Thomas Rutherford, a driver in the Longcleugh Mine, who was killed as reported in our columns last week. From the evidence it appeared that one of the wagons of a set of four laden with lead ore which deceased was driving, had got off the rails and in attempting to replace it the wagon had overturned upon the deceased, crushing his head and breast. The jury, of which the Rev C Berry was foreman, returned a verdict of "Accidental death." Mr Allinson inspector of mines was present at the inquiry.

George Rutherford married Rachael Edgar 4th January 1815, at Alston, Rachael died in 1836, her burial is recorded at Alston as 2nd August 1836, aged 43.

In 1841, at Dyke Heads, Nenthead, George Rutherford, lead miner, aged 50, his wife Jane (Vickers, married 25th November 1837) aged 40, Elizabeth 20, William 20, George 18 (The census of 1851 shows George married to Ann with 3 children), Ann 16, Jane 14, Isaac 12 (Isaac died at Williamsburg, Franklin Co., North America, 14th January 1880, aged 50; see 14th February 1880), Thomas 10, Jonathan 8, Joseph 4, and Hannah 2 years.

In 1851, at Dyke Heads, Nenthead, George Rutherford, lead miner washer, aged 60, children Jane aged 50, Isaac, lead miner, aged 22, Thomas, lead miner, aged 20, Hannah 12, James 9, step daughter Jane Vickers 27, and step son Jonathan Vickers, lead miner, aged 20.

George Rutherford died 2nd quarter of 1857

In 1861, at Bloomsbury Hall, Nenthead, William Rutherford, lead miner, aged 42, his wife Jane aged 37, son Jonathan 4, sister Hannah Rutherford, general servant, aged 22, brother James Rutherford, lead miner aged 19. In 1871, at Bloomsbury, William Rutherford, lead miner aged 52, his wife Jane aged 47, and son Jonathan aged 14. Jane Died 1st March 1876; see 11th March 1876.

In 1881, at Bloomsbury, William Rutherford, lead ore mining foreman, aged 62, son Jonathan, joiner, and local Methodist preacher, aged 24, and daughter (sister?) Hannah, housekeeper, aged 42.
William died 12th February 1891, aged 72

Jonathan Rutherford married Jane Hill 4th quarter of 1882, Jane died the first quarter of 1889.
In 1891, at Bloomsbury, Nenthead, Jonathan Rutherford, widow, joiner, and local preacher, aged 36, children William 8, Elizabeth 6, Jane 5, Florence 4, John J. 2, servant Hannah Vickers, house keeper domestic, aged 41, and servant Liddia Teasdale, nurse, aged 17.
Jonathan Rutherford Elizabeth Stephenson 7th May 1891. See 9th May 1891.
In 1901, at West Nenthead, Jonathan Rutherford, builder, aged 44, his wife Elizabeth 36, children William, joiner, carpenter, aged 18, Elizabeth 16, Jane 15, Florence 14, John 12, Mary 5, and Jefferson 5 months. In 1911, at Nenthead, Jonathan Rutherford, joiner, builder, aged 54, his wife Elizabeth Rutherford 44, children Jane 24, John James, joiner, builder, aged 22, Mary 15, and Annie 6.
Jonathan Rutherford died 4th quarter 1916, aged 60.

James Rutherford married Dinah Armstrong 2nd quarter of 1867, in 1871, at Wellgill, Nenthead, James Rutherford, lead miner, aged 29, his wife Dinah 27, and daughter Jane aged 1 year. In 1881, at Brownley Hill, Nenthead, James Rutherford, lead ore washer, aged 39, his wife Dinah 37, children Jane 11, Geo. Wm. 8, Annie 6, Dinah 4, and Hannah 1 year. James wife Dinah died 5th November 1882. See 11th November 1882.In 1891, at Newbrough, James Rutherford, widow, lead ore dresser, aged 48, children Jane 21, George W. lead ore washer, aged 18, Dina 14, Hannah 11, and granddaughter Lucy Rutherford 7 months. In 1901, at Acomb, James Rutherford, barytes and lead ore dresser, aged 58, his wife Hannah (Vickers, married August 1891, see 29th August 1891) aged 51, children Jane 31, George W., barytes and lead ore dresser, aged 28, Lucy 10, and Ernest 2.
James Rutherford died 3rd quarter 1907, aged 65.
In 1911, at Hotel Terrace, Acomb, Hannah Rutherford, widow, aged 61, stepchildren Jane 40, George William, fireman stationary engine, aged 38, and Ernest 12.
In 1861, at Dyke Heads, Nenthead, Thomas Rutherford, widow, lead miner, aged 30, children Robert 9, Rachel 4, Joseph 3, and Isaac 2. (First wife Dinah? A Dinah Rutherford died at Alston, 4th quarter of 1860)
In 1871, at Dyke Heads, Nenthead, Thomas Rutherford, lead miner, aged 41, his wife Hannah (Armstrong, married at Nenthead 23rd March 1862) aged 35, children Robert, miner, aged 19, Rachel 14, Joseph, labourer, aged 12, John 8, Thomas 7, and Elizabeth 3 years (died aged 20, 22nd March 1888).
Hannah died 3rd quarter of 1880, aged 44.
Thomas died 22nd July 1875, aged 44, and his wife Hannah died in the 3rd quarter of 1880. See 31st July 1875.
Rachael married Watson Wallace (son of John Wallace lead miner & Ann Watson, married 20th March 1828) in the 1st quarter of 1878, this was his second marriage his first being to Hannah Greenwell, in 1871, Hannah died 23rd July 1874, aged 32. The census of 1881 gives, at Holme Foots, Nenthead, Watson Wallace, blacksmith, aged 37, his wife Rachael 24,

children Sarah 11, Joe 8, Thomas 3, William 1, and mother Ann Wallace, widow, annuitant, aged 76.
See 25th July 1874, 24th October 1874, and 29th July 1882
Joseph Rutherford Married Sarah Jane Armstrong of Dykeheads 11th October 1878. The 1891 census shows them living at Dykeheads, Joseph Rutherford, lead miner, aged 32, his wife Sarah J. aged 31, children, Dinah 12, John 10, Ethel 8, Thomas A. 5 and Alfred 3 years.
In 1881, at Dykeheads, Nenthead, Robert Rutherford, lead miner, aged 29, his wife Hannah 29, children Thos. Will. 2 years, Dinah 7 months, brothers John, lead ore washer, aged 18, Thomas lead ore washer, aged 17, sisters Elizabeth 13, Mary Ann 9, and Harriet 6.
In 1891 both Mary Ann and Harriet were living and working at St John's, Stanhope, Harriet aged 16, working as a general servant for Joseph Dalton, widow, lead miner and farmer, aged 39, and his family 5 children. 12th April 1884 (Hexham Herald)

WEARDALE

The quarterly bargain day of the lead company was held on Tuesday. It had been generally talked that the prices would be lowered, therefore when miners were offered bargains at 4s a bing less it was quietly accepted, having no alternative but to accept or leave. The average is said to be under 12s 6d per week.

Deaths

Alston, 4th inst., aged 64 Phoebe Dobson.
At 1 Bruntley Syke, Alston, Phoebe Dobson, widow, retired draper aged 61.
St Peter's Corn Mill, Allendale, 9th inst aged 71, James Philipson.
In 1881, at St Peter's, James Philipson, stone waller aged 68, his wife Jane aged 73.

19th April 1884 (Hexham Courant)

Marriages

At Alston, Independent Chapel, 17th inst. Job Wilkinson to Jane Spottiswood, Blaygill, Alston.
In 1871, there are two Jane Spotswood's, Jane aged 12, daughter of Nicholas and Sarah, and Jane aged 10 daughter of James and Phoebe. In 1881, both girls were working as domestic servants in the Haltwhistle area. I believe it probable that the wife of Job Wilkinson was Jane Spottiswood born 1860 to James and Phoebe Spottiswood, also in 1883, James Spotswood and family were living at Blaygill.
In 1871, at High Skelgill, Alston, James Spottswood, lead miner & farmer of 7 acres, aged 44, his wife, Phoebe aged 43, children Jane 10, James 8, William 3, and Hugh 2. In 1861, at Low Green Dyke, Allendale, John Wilkinson,

farmer of 30 acres & lead miner, aged 35, his wife Elizabeth (Pears, married, 28th May 1853, Allendale) aged 31, children Robert 7, Jane 5, Job 5, Mary 1, and John 2 weeks.
In 1871, at Coanwood, John Wilkinson, widow, coal miner, aged 45, children Robert, coal miner, aged 17, Jane, house keeper, aged 15, Mary 11, Job 13, John 10, Elizabeth 7, and Margaret 4.
John Wilkinson died 2nd quarter 1879, aged 53.
In 1881, at Brownside, Alston, Robert Wilkinson, farmer of 23 acres, aged 27, brother Job, lead miner, aged 24, brother John, lead miner, aged 20, and sister Mary, house keeper, aged 21.
In 1891, at Chapel Terrace, Benwell, Job Wilkinson, coal miner, aged 33, his wife Jane 30, children John 6, James 4, Job 3, and Phoebe E 1.
Job Wilkinson died 1st quarter 1900, aged 43.
In 1901, at Scotswood, Newcastle, Jane Wilkinson, widow, aged 39, children John, coal miner, aged 16, James, coal miner, aged 14, Job, coal miner, aged 13, Phoebe 11, Albert 8, Robert 5, Hugh 3, and Mary J 1.
In 1911, at Delaval Street, Benwell, James Barton, coal miner, aged 34, born Gosforth, Northumberland, his wife Jane (Wilkinson, married 2nd quarter 1902) aged 46, step children Robert, Wilkinson, coal miner, aged 15, Hugh Wilkinson 13, Mary Jane Wilkinson 11, and son Thomas Barton 8.
See 18th August 1883, 20th January 1894.

Deaths

At Clitheroe, Alston, 13th inst., aged 58, Ann Spottiswood, wife of Hugh Spottiswood.
In 1841, at Middle Skelgill, James Spotswood, lead miner, aged 51, his wife Ann (Litel, married 4th April 1818, at Alston) aged 54, children Hugh, lead miner, aged 22, Margaret 20, James, lead miner, aged 15, Nicholas, lead miner, aged 12.
In 1851, at Skelgill Plains, Hugh Spottswood, lead ore miner, aged 32; his wife Ann (born Durham) aged 24, children James 3, and Hugh 1 year.
In 1861, at Clitheroe, Hugh Spotswood, lead miner, aged 42, his wife Ann 34, children James, lead ore washer, aged 13, Hugh, lead ore washer, aged 11, Mary A 7, John 4, and Leah 1.
In 1871, at Clitheroe, Alston, Hugh Spotswood, leads miner, aged 52, his wife Ann 44, children James, lead miner, aged 23, Hugh, lead miner, aged 21, Mary A 17, John, apprentice to a carpet weaver, aged 14, Leah 11, Margaret 8, Miles 5, and Matthew 2 years.
In 1881, at No. 12 Clitheroe, Hugh Spottiswoode, lead miner, aged 62, his wife Ann 54 (born Durham, Hamsterly), and son Miles, coal miner, aged15.
See 1st December 1883, 3rd December 1887, 20th December 1884, & 23rd May 1908

At Lovelady Shield, Alston, 17th inst. aged 69, Rowland Walton.
In 1841, at Dykeheads, Nenthead, Rowland Walton, lead miner, aged 26, Matthew, lead miner, aged 20, Joseph, lead miner, aged 17, Amy Walton 15, and Mary Walton 30.
Rowland Walton (son of Rowland & Nancy) married Martha Stephenson, 9th June 1842, at Alston.
In 1851, at Dykeheads, Rowland Walton, lead miner, farmer of 16 acres, aged 36, his wife Martha 28, children John 8, Ann 6, and Joseph 4.

In 1861, at Lovelady Shield, Rowland Walton, lead miner, aged 46, his wife Martha 38, children John, lead miner, aged 18, Ann, housemaid, aged 16, Joseph, lead miner, aged 14, and Henry 10.
In 1871, at Lovelady Shield, Rowland Walton, lead miner, aged 56, his wife Martha 48, children Ann, servant, aged 26, Joseph, lead miner, aged 24, and Henry, joiner, aged 19.
In 1881, at Lovelady Shield, Roland Walton, farmer of 18 acres, aged 66, his wife Martha, aged 58, and widowed daughter, Ann Kindred (Ann had married Joseph Kindred the 4th quarter of 1871), general servant domestic, aged 36. Joseph Kindred son of Thomas, a farmer of 170 acres and Elizabeth Kindred died 11th December 1874. See 19th December 1874, and 29th April 1882.
At Nest, Alston, 19th inst. aged 5 months, Sarah Hannah, daughter of Friend Herdman.
See 8th July 1876.

19th April 1884 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

Dr Pickworth (No. 2 district) said there had been 8 deaths and 12 births giving a death rate of 3.4 per thousand per quarter and a birth rate of 5.1.

WEARHEAD, WEARDALE

The Rev. William Bee a native of the Vale of Derwent, now of Manitoba, America preached in the primitive Methodist Chapel at the above place on Wednesday night. It is above 28 years since he left the district.

Deaths

Settlingstones mines, 5th inst., age 50, Ann the beloved wife of Joseph Ellison.
In 1871, at Allendale Town, Ann Cresswell, single, housekeeper, aged, 37, married brother James Cresswell, tailor, aged 23, brother Joseph Cresswell, lead ore washer, aged 21, son John Cresswell 10, son William Cresswell 10, visitor sister Isabella Ellison, miners wife, aged 43, visitor sister Jane Lowe, miners wife, aged 32, sister in law Elizabeth M Cresswell, tailors wife, aged 22, and nephew James Cresswell, aged 9 months. In 1871, at Studdon, Hannah Ellison, widow, aged 79, and son Joseph, lead miner, aged 43.
In 1881, at West Shaft, Newbrough, Joseph Ellison, lead miner, aged 53, wife Annie (Cresswell, married 3rd quarter of 1873) aged 47, son in law William Cresswell, general labourer, aged 20, son in law John Cresswell, lead miner, aged 18, and mother Hannah Ellison, widow, aged 88.
In 1891, at West Shaft Cottages, Newbrough, William Creswell, 30, his wife Isabella 37, children Mary A 5, John J 3, Lily 1, boarder William Lee, barytes washer, aged 16, and father Joseph Ellison, widow, living on his own means, aged 65.
Hayrake, Swinhope, Allendale, 12th inst., aged 42, Paul Wilkinson.
In 1871, at Hay Rake, John Wilkinson, retired lead ore miner, aged 68, his wife Jane 64, son Paul lead ore miner, aged 29, daughter Jane 21, and grandson Cain Wilkinson aged 4. In 1881, at Hay Rake, Paul Wilkinson, iron stone miner, aged 39, his wife Mary Ann (Lee, married 1877) aged 31, nephew Cain Wilkinson, lead ore washer, aged 14, and daughter Mary Ann aged 1 year. In 1881, at West End, Allendale, Leah Lee, widow 61, son Matthew Lee, mining blacksmith, aged 26, Joseph P. Lee, lead ore washer out

of employment, aged 19, Thompson Lee, lead ore washer, aged 17, and granddaughter Leah J. Wilkinson aged 2 years.
In 1891, at Low Hay Rake, Mary A. Wilkinson, widow, farmer, aged 43, daughter Leah Jane aged 12, and son John T aged 9.
See 9th January 1875.

25th April 1884 (Hexham Courant)

BOLLIHOPE MINES

At Bollihope mines the property of the London Lead Company the employees have been ordered to remain their full number of days weekly, and are not allowed as hitherto to work a specific number of shifts as quick as they liked. The order has caused much dissatisfaction.

26th April 1884 (Hexham Courant)

ALLENHEADS
SAD CASE OF SUICIDE

An inquest was held on Tuesday last by Mr J. R. D. Lynn, coroner for South Northumberland, at the house of Mr Thomas Hunter Dawson, Allenheads, touching on the death of Joseph Williamson Dixon, who shot himself with a rifle on Saturday. The first witness examined was Stephen Dixon, who stated he was a joiner and resided at Newhouses, Allenheads. Witness lodged with the deceased and was a member of the Allenheads section of the Allendale rifle corps. He had his rifle and some ammunition for gun practice at his brothers house. Witness left home on Monday when deceased appeared in his usual way; he had been ill for some weeks but there was nothing unusual in his manner. He (witness) returned home at half past two o'clock on Saturday last and found that his brother was dead. The rifle and ammunition produced to the jury belonged to the deceased's stepson Thomas Millican Pearson, who was also a member of the Allendale Rifle Corps. The rifle was kept in the kitchen and the ammunition was kept upstairs in a draw in his room.
Elizabeth Dixon said she resided at Newhouses near to the deceased. On Saturday last, between twelve an one o'clock Mrs Dixon the deceased's wife came into her house, and told her she was much pleased that the deceased was so much better. She knew that the deceased had been ill for some time, and the time Mrs Dixon was talking to her Thomas Millican Pearson came and called his mother out, and from what he told her witness ran with Mrs Dixon into her house and found the deceased lying on the floor on his back. He was fully dressed except his boots, which were off. The rifle was lying on his arm at his side. The house was full of smoke, and there was a smell of powder; his head was lying in a pool of blood, and he was bleeding about the face and head; he was quite dead. Mrs Dixon had only been in her (witness's) house a few minutes before she was called out. She was of opinion that the deceased shot himself with the rifle she saw near him.
Thomas M. Pearson said that the deceased was his stepfather. He resided with him. He added, I am a member of the Allendale Rifle Corps, and keep my rifle in the house. I also had some ammunition in a draw upstairs. The rifle was kept in the kitchen. I was at home last Saturday I thought the deceased rather melancholy, but apparently in other respects just in his usual way. I had my dinner with the deceased and my mother and little sister in the house. I came out of the garden and went into the barn I heard the report of a gun, and shortly

afterwards my little sister came to me and asked what was the matter with Da-da. I went into the house and found the deceased lying on his back on the kitchen floor. There was smoke in the room and my rifle was lying at his side. I immediately ran to seek my mother and found her in Elizabeth Dixon's and we all ran back and found the deceased was dead. His head was lying in a pool of blood. I immediately ran for the doctor. I examined the rifle yesterday and found an empty cartridge in the breechblock, cartridge similar to the ammunition I had upstairs. I cleaned the rifle on Saturday last, and put nothing in the barrel. I am of opinion that the deceased and shot himself with my rifle and that he had discharged the gun with his toe. He was shot in the face. There had been no domestic unpleasantness or anything to annoy and distress the deceased to my knowledge.

Richard Bright said that about twenty five minutes past one o'clock on Saturday last he was called into the house of the deceased by the last witness. He found the deceased lying dead as discovered by the previous witness. He was present when the doctor examined the body of the deceased. There was a strong smell of powder about the face, and a wound by the side of the nose and a hole in the back of the head. He was of opinion that the deceased shot himself with the rifle, and that he had discharged the piece with his foot. There was nothing to lead him to suppose that any one else had shot the deceased. He had noticed that the deceased had become dull and melancholy during the past fortnight. A verdict was returned by the jury to the effect that the deceased had committed suicide while in a state of temporary insanity by shooting himself with a rifle.

In 1881, at 39 Newhouses, Joseph Dixon, lead ore miner, aged 49, his wife Mary 42, step son Thomas M. Pearson lead ore washer, aged 16, daughter Mary A. Dixon, aged 1 year, and brother Stephen Dixon, joiner, aged 47.

Marriages

At the Primitive Methodist Chapel, Alston, 21st inst. Mr Joseph Davidson, Blaygill, to Miss Elizabeth Richardson, Ashgill, Alston.

In 1891, at Blagill, Joseph Davidson, farmer, aged 48, his wife Elizabeth 41, children Isabel 7, and Jonathan 5.

Joseph Davidson, died 3rd quarter 1893, aged 51.

In 1901, at Market Square, Alston, Elizabeth Davidson, widow, grocer & boarding house, aged 51, children Isabel 17, Jonathan 15, and boarder Henry B Dolland, clergyman Church of England, aged 41, born Islington.

3rd May 1884 (Hexham Herald)

WEARDALE

One of the richest beds of ironstone in Weardale has been found by Mr Joshua Turner, St John's Chapel, resident agent to the Weardale Iron Company, in a pasture belonging to Mr William Vickers of Westgate, situate in Middlehope. Mr Turner has just concluded boring operations, which show a vein of ore upwards of 100 feet thick, which has been tested to be first class quality.

In 1881, at Crawleyside, Stanhope, Weardale, Joshua turner, general clerk, born Gateshead, aged 34, his wife Mary (Harrison, married 7th July 1877, at Stanhope) aged 29, born Crawleyside, children Elizabeth A 2, and Lucy 7 months. In 1891, at St John's Chapel, Weardale, Joshua Turner, ironstone mining agent, aged 44, his wife Mary aged 37, children Elizabeth A. 12, John J. 8, and Maggie 6.

In 1901, at St John's Chapel, Weardale, Joshua Turner, Mine & Limestone quarry manager, aged 54, his wife Mary 49, children, Elizabeth 22, William H 8, and visitor Dorothy Watson aged 57.
In 1911, at 13 Osnourne Terrace, Gosforth, Newcastle upon Tyne Mary Turner, widow, aged 59, children, Maggie 26, John J, Iron steel trade Clerk, aged 28, and William H, Insurance Clerk, aged 18.

10th May 1884 (Hexham Courant)
Deaths
At Snoddy's Mill, Fountain County, Indiana, North America, 10th ult., aged 1 year, Jane Ann, daughter of Joseph & Isabella Brown, late of Allerwash, Fourstones.

17th May 1884 (Hexham Courant)
ALSTON
FOUNDERING OF A BOAT AT ALSTON
No small stir was created in our small town on Friday afternoon last by the news that three miners named William Hindmarsh, Joseph Cousin, and Robert Bowman had not returned from work. The three men named are employed by the Lords of the Admiralty, and work up the Nent Force Level, which is situated close to the Alston Woollen Mill. Unlike other miners in this district, they have to row a boat for some four miles before they can commence work. Their usual time for returning home is three o'clock, but as they had not put in an appearance by four o'clock their friends began to get anxious for their safety. News was soon spread over the town and as time wore on the inhabitants began to get interested, and a great many made their way to the outlet of the level, and much speculation was indulged in respecting the non appearance of the men. At last, about six o'clock, the reserve boat was launched and manned

by a crew from the Woollen Mill, and preceded in search of the missing workmen. After having been about five hours, it returned with the objects of the search on board, at which time the crowd at the outlet must have numbered several hundreds, every person being glad that no accident had happened. It appears that the boat which the workmen used in the morning had sunk, and thus cut off their only means of exit, they having to conduct themselves as best they could until rescued. (*The rescuers were each given a reward of 5s from Greenwich Hospital*)

Deaths

At Bankfoot Nenthead, 3rd inst., aged 21, Frances Elizabeth Thompson daughter of Thomas Thompson deceased.

In 1861, at Nenthead, Thomas Thompson, lead ore miner, aged 31, and his wife Ann (Nicholson, married 1861, daughter of Robert and Frances [Stephenson, married 4th March 1841, at Alston], Robert a lead miner) aged 18.

In 1871, at Nentsbury, Nenthead, Thomas Thompson, lead miner, aged 41, his wife Ann aged 28, children Francis Elizabeth 8, Mary Jane 7, Anne 4, and Thomas Nicholson 3 years.

In 1881, at West Nenthead, Thomas Thompson, lead miner, aged 51, his wife Ann 39, children Frances 18, Thomas N. 13, Robert W. 6, born Middleton (died Alston 1882), Harriet 4, born Middleton, and John J. 8 months. Mary Jane was working as a domestic servant for the Walton family, living at 92 Bishopgate, London, the connection being Henry Walton, aged 52, Carpet manufacturer, born Middleton in Teasdale, and his Wife Sarah born Nenthead, aged 47.

Thomas Thompson aged 52, and his wife Ann aged 39, both died in 1881.

In 1891, John Joseph Thompson was a pupil, at Northern Counties Institution for the Deaf and Dumb, in Jesmond, Newcastle. In 1901 John Joseph, is a boarder at 45 Albert Street, Middlesbrough, working as a french polisher.

In 1891, Thomas Nicholson Thompson was a boarder with the Percival family at Dykelands, Nenthead, working as a lead ore washer.

17th May 1884 (Hexham Herald)

WEARDALE

From the weekly report of the managers it appears the various mines at work are giving promising indications and results. A valuable lode has been cut in Bolt's Burn mine.

24th May 1884 (Hexham Courant)

NENTHEAD

SIGNS OF THE TIMES

Since the "New Company" commenced operations at Nenthead many and varied have been the changes made by them. What has not been done for the past half century will come to pass in a few days, that is the letting by contract all drawing, cartage &c., belonging to the mines, proposals for the same being received at Nenthead office on the 24th inst. Blacksmiths and woodmen have also had to submit to a reduction in wages recently. Miners report that no new trials are being preceded with inside, and the places where ore is being raised are besieged by as many men as can conveniently get elbowroom. If the lead

market does not improve there is every probability of there being still “harder times” in our dale.

24th May 1884 (Hexham Courant)
Marriages
At the Primitive Methodist Chapel Alston, 22nd inst., Mr Chris Armstrong, Holmefoots, Nenthead, to Miss Francis Richardson, Wellgill Cottages, Nenthead.

31st May 1884 (Hexham Herald)
FALLOWFIELD
In consequence of the slackness of trade the management has decided to reduce the number of hands employed at these mines and notice has been given to nine engaged in the workings and to four on the bank making a total of 13 men and boys who will be thrown out of employment.

3rd June 1884 (Penrith Observer)
BOY DROWNED NEAR NENTHEAD.
On Thursday last a boy named Stephen Madgin, of Nenthead, was drowned in the river Tyne. At about four o'clock deceased and two of his brothers, aged 14 and 10 respectively, went to the river to bathe. Deceased took off his clothes while the other boys left him and went down the river. On their return shortly afterwards they found their brother lying in a pool of water about six feet deep, and quite dead and naked. No blame was attached to anyone. An inquest was held on Saturday morning last, when a verdict of accidentally drowned was returned.
Robson Magen baptised 23rd January 1831, son of Leonard and Hannah Madgen married Phillis Hall?
In 1861, at Overwater, Nenthead, Robson Madgen, lead miner, aged 30, his wife Phillis aged 23, children, Leonard 4, and William 2. In 1871, at West Nenthead, Robson Madgen, lead miner, aged 40, his wife Phillis aged 33, children, William 12, Hannah 9, Stephen 6, Joseph 3, and Robson 1.
In 1881, at Wardway Cottage, West Nenthead, Robson Madgen, lead miner & farmer of 6 acres, aged 50, his wife Phillis 43, children, William 22, Hannah, dairy maid, aged 19, Stephen, lead ore dresser, aged 16, Joseph, lead ore dresser, aged 13, Robson 11, Jane 9, Thomas 7, Annie 5, and Phillis 3.
In 1891, at West Nenthead, Robson Madgen, lead miner, aged 60, his wife Phillis 53, children, Robson, Blacksmith 21, Thomas, general labourer, aged 17, Annie 15, and Phillis 12.
In 1901, at West Nenthead, Robson Madgen, retired lead miner, aged 70, his wife Phillis 63, children, Thomas, blacksmiths striker, aged 27, and Annie 25.
Robson Madgen died 3rd January 1904, at West Nenthead, aged 73 years
Phillis Madgen died 22nd August 1916 at West Nenthead, aged 79 years.

7th June 1884 (Hexham Courant)

NENTHEAD

As a young man named John Walton, aged 19 years, son of Mr John Walton, White Hall, Nenthead, was preparing to wash on Thursday morning last, about nine o'clock he suddenly became ill and died in a few moments choked with blood. *See 14th June 1884*

ALLENDALE

LEAD PROSPECTS

A further instalment of men, to the number of sixteen employed at Allendale smelt mills have received notice to terminate their engagements, on the second of August. The prospects in this staple industry of the district, are, indeed, not reassuring.

7th June 1884 (Hexham Herald)

WEARDALE

Mr Thomas Dalton of High Allers who happened an accident some time ago in the employ of W. B. Beaumont Esq., a gift of £2 10s.

ALLENDALE

SERIOUS ACCIDENT

A lamentable accident occurred at Allen Smelt Mills on Wednesday last John Rutherford, who lives at The Throstle, near Studdon, and worked at the mill as a separator, had just stepped on to the top of one of the posts to trim his lamp which was standing there when he stepped backwards, evidently forgetting there was molten lead in the pot, and went into it. There was a depth of about two and a half feet of boiling lead in the pot at the time, but a ladle in it fortunately prevented his foot reaching the bottom. His foot and lower part of the leg were severely scalded and he was at once taken home in a cart where he was attended by Dr Arnison.

ALLEN SMELT MILL

We understand that there is to be a further reduction in staff at the mill, about a dozen smelters having received notice that their services will not be required after the lapse of two months. When these men have worked their notice, there will remain about 24 hands employed at the mills, at which about six years ago 100 men found employment and that more regular and lucrative than at the present time.

John Rutherford married Jane Graham, 4th quarter 1860, registered at Weardale.

In 1861, at West Blackdean, John Rutherford, lead miner, aged 20, and his wife Jane aged 18.

In 1871, at Whitestones, St John's, Stanhope, John Rutherford, lead miner, aged 30, his wife Jane 28, children, Martha 7, Joseph 5, Elizabeth 3, and Anne 1 year.

In 1881, at West Studdon, Allendale, John Rutherford, separator of lead ore, and farmer of 8½ acres, aged 40, his wife Jane aged 38, children, Martha H, dressmaker, aged 17, Joseph, lead ore washer, aged 15, Annie 11, Helena 8, Emily 6, Margaret 4, and Herman 3 (the last 3 children born in Allendale, all others in Stanhope).

John Rutherford died 3rd quarter 1884, aged 44, registered at Hexham. In 1891, at 6 Hardwick St, Gateshead, Jane Rutherford, widow, aged 48, children, Martha H, dressmaker aged 27, Joseph, clerk, aged 25, Annie, school teacher,

aged 21, Helena, dressmaker aged 18, Margaret 14, Herman 13, William 8, and Ethel 7.
Jane Rutherford died at Gateshead 2nd quarter 1910, aged 68.
See 12th July 1884

14th June 1884 (Hexham Courant)
Deaths
At Whitehouse, Clargill, 6th inst. aged 20, Mary Jane daughter of Joseph and Ann Walton.
In 1861, at High Galligill, Joseph Walton, lead miner, aged 27, his wife Ann (Fawcett, married 26th June 1856, at Nenthead) aged 23, children William Edward 3, Margaret Ann 1, and house servant, Esther Smith, aged 13.

John Walton died 3rd quarter 1904, aged 73.
See 16th November 1866, 22nd January 1870, 3rd June 1871, & 7th June 1884.

21st June 1884 (Hexham Courant)
NENTHEAD
QUARTERLY BARGAINS
These bargains were let to the men on Friday last by J C Swan, Esq., of Newcastle. Rumours were afloat that number of the men's services would be dispensed with, but happily, all got a bargain of some sort. There being no change in the lead market the prices given were as usual.
WEARDALE
DEPARTURE OF A WEARDALE FARMER FOR QUEENSLAND. On Sunday night Mr Jacob Dent, with his wife and family left St John's Chapel, Weardale, on route for Queensland. He was accompanied to Stanhope by many friends from the dale.
In 1851, at East Black Dean, St John's Chapel, Frances Dent (husband Thomas Dent died 1846), widow, landed proprietor, children 37, Sarah 16, Thomas 12, Wm 8, and Jacob 6 years.
In 1861, the children were all living together at East Black Dean, Sarah, house keeper, and the 3 boys all lead miners, their mother Frances had died in 1860.

In 1881, at East Black Dean, St John's Chapel, Jacob Dent, lead ore dresser & farmer of 16 acres, aged 36, his wife Ann (Clarkson, married 1877) aged 22, and daughter Minnie R. aged 10 months.

27th June 1884 (Newcastle Courant)
IT IS STATED THAT THE DUKE OF CLEVELAND has agreed to waive the royalty dues for six months from his lead mines in Teesdale, which are leased to the London Lead Company. This temporary relief will enable the company to resume a portion of the prospecting operations some time ago abandoned, without which the continuous working of the mines for any lengthened period cannot be carried on.

28th June 1884 (Hexham Herald)

WEARDALE

DEATH OF MR AND MRS RUMNEY.

We regret to have to record the death of Mr Thomas Rumney (*aged 64 years*), Mr W. B. Beaumont's Weardale agent, which took place at Earn Well on Saturday (*21st*) last. ...
Mrs Jane Rumney died aged 57 on the following Wednesday (25th) after suffering a fit of apoplexy, they left 3 daughters, Anne L. born 1859, Elizabeth H. born 1863, and Mary J. born 1865.
The 1881 census gives, at Newhouse, St John's, Thomas Rumney, inspector of mines (lead), aged 61, his wife Jane 54, children Anne L. 22, Elizabeth H. 20, Mary J. 16, and daily governess, Annie Oliver, aged 30.
The girls all married in 1885, Anne Leah married John Waugh, Elizabeth Hannah married William Richardson and Mary Jane married John Thomas Carr.

FOR EVER WITH THE LORD

WHO DIED JUNE 25TH 1884 AGED 57 YEARS
St John the Baptist Churchyard
St John's Chapel

FOR EVER WITH THE LORD
In Loving Memory
OF THOMAS RUMNEY
OF EARN WELL, WEARDALE
FOR 24 YEARS INSPECTOR OF THE W. B. LEADMINES
WHO DIED JUNE 21ST 1884 AGED 64 YEARS
ALSO OF JANE
THE BELOVED WIFE OF THE ABOVE
WHO DIED JUNE 25TH 1884 AGED 57 YEARS.

Thomas was born at Ireshope Burn and started his mining career as a washer boy, soon progressing to being a successful lead miner. He also became a

Wesleyan preacher. He was appointed as Inspector of mines about 1860. During the unrest and strikes he and the other Agents came under verbal attack this coming from fellow Wesleyans was too much for Thomas and he resigned his positions in the Wesleyan Church and turned to the Church of England, and attended the church at St John's Chapel.

Joseph Walton died 3rd quarter 1911, aged 73.

5th July 1884 (Hexham Herald)

WEST ALLENDALE
MELANCHOLY SUICIDE.

Yesterday (Friday) a man named John Proud, Mason, Black Cleugh, West Allendale, committed suicide by blowing his brains out with a gun. Deceased was about 50 years of age and had we understand been ailing for some time past. *John Proud Farmer & Stone Mason aged 56, he was found by his wife Jane, he had been receiving medical attention since September 1883, he had also recently been "dejected mentally".*

12th July 1884

ALLENDALE
INQUEST AT STUDDON

On Monday last Mr W. B. Elson, deputy coroner for South Northumberland held an inquest at the house of Mr Jos. Watson, Studdon Farm, Allendale touching the death of John Rutherford, who died on Saturday morning from burns accidentally whilst at work at Allendale Smelt Mills on the 4th June last. The following evidence was given:
Jane Rutherford deposed that she was a widow, and living at West Studdon. The body lying dead in her house and viewed by the jury was that of her husband John Rutherford, 44 years of age. He was a lead ore smelter and worked at Mr W. B. Beaumont's smelt mills near Allendale Town known as the Allen Smelt Mills. On Wednesday, the 4th June, he was brought home about six o'clock in the morning, suffering from severe burns on his right leg and foot.

He died on Saturday morning last in her presence. He was attended by Dr Arnison of Allendale Town. During his illness deceased told her that whilst he was at work in the above named smelt mills on the 4th ult., he had slipped his foot into a tempering pot filled with red hot lead. He did not find fault with anybody or anything as the cause of his slipping his foot into the tempering pot. He left the impression on her mind that it was a pure accident. Deceased died at half past eight o'clock on Saturday morning last. For three weeks before his death, deceased showed signs of lock jaw and was fed from a feeding cup. He had worked at the smelt mills for four years past or thereabouts.
John Shield stated that he was a lead ore smelter and lived at Catton. He knew and was well acquainted with the deceased. Deceased, witness and other workmen went to work in Mr Beaumont's smelt mills about 10 o'clock on the night of the 3rd ult. Deceased during his shift (which lasted for seven hours) had to work three crystallizing pots and one tempering pot. His lamp was hanging on a lamp stand, resting on his crystallizing pot No. 1. The tempering pot was between that and pot No. 2. His pot No. 3 lay beyond. Pot No. 1 was crystallizing, and the other two smaller pots were being got ready. Deceased was assisted by a mate named Henry Dixon. About 2 o'clock on the following (Wednesday) morning June 4th, he saw the deceased sitting on the pot edge with his back against the pots. He was close to the tempering pot. His attention was directed to the deceased by his calling "Oh! dear," twice. He went at once to him and found him shaking his right leg and foot, which was covered with molten lead. He took off Rutherford's clog and found that the leg and foot were much burnt. He did not notice him before that got to his lamp. After he got off the deceased's clog and stocking, the deceased said to him in the presence and hearing of John Nevin, Joseph Parker, and another, who were working in the mills at the same time. "This is a bad job lads; I don't know what I was thinking about." Deceased further said, "In stepping back I put my foot into the tempering pot." The tempering pot was full of molten lead at the time. The tempering pot was only a resting place for the separating ladle, in order to keep the ladle hot and free from lead. The heat of the tempering pot was a great deal hotter than that of the crystallizing pots. The deceased was a careful, steady workman. After the accident the deceased was carried into the barracks attached to the mills, where oils were applied to the deceased's leg by his fellow workmen. He saw the oils applied to the right leg and foot of the deceased. The foot was severely burnt and so was the leg up to about five inches from the knee joint. Deceased was afterwards conveyed to his home. Each set or pair of men attended to its own lamp. The men can place the lamp where they think proper. When he first saw deceased his ladle was in the tempering pot and the outer end was resting on the opposite wall.
A verdict was returned to the effect that deceased died on the 5th July from burns received on the 4th June by accidentally stepping into a pot of Molten lead whilst at work at Allen Smelt Mills. *See 7th June 1884*

Marriages

At the Primitive Chapel, Alston, 10th inst. Jacob Swindle, Garrigill to Miss Jane Craig, High Shield Hill, Garrigill.

In 1881, at High Lee House, Joseph Craig, farmer of 160 acres, aged 38, his wife Susannah 35, daughter Annie Mary 1, and sister Jane Craig 24.
Jacob Swindle died 4th July 1890, aged 32.

In 1891, at High Lee House, Garrigill, Jane Swindle, widow, retired farmer, aged 34, sons George 5, Isaac Craig 4, and Vipond 3. In 1901, at Low Lee House, Jane Swindle, widow, farmer, aged 45, sons George, farmers son, aged 15, Isaac C 14, and Vipond 13.
See 17th November 1866 & 12th July 1890.

Deaths

At Alston, 9th inst. aged 65, Janet Bell, widow.

In 1861, at Main Street, Thomas Bell, grocer, aged 44, wife Janet (Mcadam, married 2nd quarter of 1858, at Alston, Janet was the sister of Robert McAdam) aged 44, born Scotland, and son Thomas 13.
In 1871, at Main Street, Thomas Bell, grocer, aged 44, his wife Janet Bell, aged 44, son Thomas 13. In 1881, at Front Street, Janet Bell, widow, grocer, aged 62. See 8th December 1854.

15th July 1884 (Northern Echo)

MAN KILLED IN WEARDALE

A Cartman named Matthew Robson, in the employ of Mr John Watson, Earnwell, Weardale, and residing at the latter place, was killed near Grove Rake Mine, Rookhope, yesterday, while unloading wood, being struck with a log as it came off the waggon. The deceased leaves a wife and three children. He was a native of Allendale. *Aged 36*

Matthew Robson married Barbara Ann Lowery, 4th quarter of 1877.
In 1881, at Bridge End, Allendale, Matthew Robson, Cartman, aged 32, his wife Barbara, aged 32, children Thomasine 3, and John 1.
In 1891, at Stanhope Workhouse, Barbra Robson, widow, aged 41, Thomasine Robson aged 13, John Robson aged 11, and Joseph W Robson aged 8.
Barbara Robson, died 3rd quarter 1892, at Weardale, aged 41.

18th July 1884 (Durham County Advertiser)

GREAT FLOOD IN THE WEAR. —On Thursday evening a tremendous heavy rain fell at Stanhope, Wolsingham, and Weardale, causing streams of Water to run in all directions, the result of which was a very sudden rising of the Wear to an alarming flood height. Rain commenced at about three o'clock, and at six the Wear began to rise, whilst at eight there was a considerable flood, and about a dozen barrels, a harrow, several planks, tenoned timber, and other wreckage were carried down the stream in a very short time, showing the ravages of the flood. Stanhope Burn presented a raging torrent, which rushed right through the Stanhope Burn Lead Smelting Mills belonging to the London Lead Company, putting out the fires, drowning the pots, one of which was said to be five feet in water. A boarded road over the stream appears to have given away, and a huge iron melting pot had fallen into the stream, diverting its course through the mill, where considerable damage has consequently been done. The stream running through the pothouse is reported by the millmen to have been four feet deep. Some sheep are said to have been washed down the burn. Other tributaries were flooded, and a great amount of damage has been done over a considerable area in the Wear Valley. Some timber was carried away from Eastgate, where a new stone bridge is building at Hag Ford, over the Wear. A quantity of barrels, planks, and other wreckage was carried down Stanhope Burn to the Wear.

19th July 1884 (Hexham Courant)

NENTHEAD

The "Jiggers" at Nenthead were set a going at two o'clock on Monday morning last, and have been in constant motion ever since. The reason assigned for this unusual occurrence is that the long drought of the past interfered with the water supply, and laid off the washing machinery for several days. Water being now plentiful it has been determined to keep pace with the men and have all washed up, to meet any emergency in the future.

19th July 1884 (Hexham Herald)

Deaths

Allenheads Corn Mill, 13th inst aged 63, William Sparke, *miller & farmer*.
The Loaning, Alston, 12th inst., aged 72, Hannah daughter of the late Thomas Dickinson of Spency Croft.
In 1841, at Spency Croft, Thomas Dickinson, mining agent, aged 60, wife Sarah 57, and daughter Hannah 29.

26th July 1884 (Hexham Courant)

WEARDALE

LEAD MINING

On Saturday afternoon the miners and general public assembled in the playground of the New House school, to hear an address by Mr G Batters, of London, one of the directors of the company. Mr Batters was accompanied by Mr Joseph Richardson, J P., chairman of directors, Mr Maxfield, Mr Blenkiron, Mr S Watson, Mr J Thompson, Mr Treleare, Mr Philipson, &c., Mr Batters took as the basis of his address, "personal observations in the United States and Canada, and the labour market."
After a few introductory sentences, the lecturer, said in referring to their own dale, that in 1873 handsome profits were made out of mining, but now things were in the most downward tendency ever experienced; alluding to the recent pays said the company had to forward to the local management £2,000 over-lent money. They had sold last week lead ore at £10 5s per ton, a price unknown foe 105 years, and even then the price was 10s in excess. Lead at that price in those days was equivalent to £20 of money now. This condition of affairs was a terrible drag upon all concerned- employers and employed, but they must do their best. One company in Germany alone by means of cheap labour and badly housed workmen were able to pay dividends ranging from 13 to 20 percent on the subscribed capital. In Spain the produce were rich in silver. Notwithstanding this we could have, beat them all but the railways had developed mines in America, a country which formerly also had all the surplus

lead produced in Europe. He believed however, the mines over the Atlantic would not long continue to supply the present drain, while he was confident the Weardale mines would last at least their lifetime. (Hear, hear) Nowhere could lead be produced cheaper than Weardale. The industry of the valley be with themselves. Do honestly by themselves in the labour market, fulfilling all obligations and bargains though it is at a sacrifice, and the directors would do their part. (Loud cheers) Their hills were yet rich in mineral wealth. Let them therefore stand by each other in these times of adversity - soon he trusted to be the advent of prosperity. (Loud applause) Mr Richardson spoke a few words. Let them he said, do their level best to tide over the present depression. Director, shareholder, and workmen, must work shoulder to shoulder. The directors did not want to plunder workmen to augment their capital, but would rather sacrifice their own interests to keep them going. (Prolonged cheering) Mr Nathan Race moved a vote of thanks on behalf of the miners. This was seconded by Mr Natrass and heartily carried, the mover pledging that the miners would abide by strict forbearance in the present crisis.

Deaths

At Alston, 21st inst., aged 62, Matthew Hindmarsh, head mine engineman at Cashwell.

In 1861, at Clitheroe, Alston, Matthew Hindmarch (born Durham, Weardale), lead miner, aged 38, his wife Margaret (Spotswood, daughter of James & Ann, married 11th May 1845, at Alston) 40, children Ann 15, Elizabeth 13, William 10, James 5, and Matthew 8 months.

In 1871, at Front Street Alston, Matthew Hindmarch, lead ore mine engineer, aged 48, his wife Margaret 50, children Elizabeth, domestic servant, aged 23, William, lead ore miner, aged 20, and James, lead ore dresser, aged 15.

In 1881, Matthew Hindmarch, Mining Engineer, aged 58, is at Cashwell, his wife is at Front Street, Alston, with her daughter Elizabeth, aged 33, and grandsons, Matthew 9, and Robert 3.

In 1891, at Wortley, near Leeds, Elizabeth Hindmarch, single, aged 43, sons Matthew stationary engine stoker, aged 19, and Robert 13.

26th July 1884 (Hexham Herald)

HAYDON BRIDGE

BEWICK AND PARTNERS MINES

The whole of the men employed at the mines of Messrs Bewick and partners at Honeycrook have received notice that their services will be no longer required after the lapse of a month. About 200 men and boys are employed at the mines.

2nd August 1884 (Hexham Herald)

Deaths

Green Pits, Allendale, 27th ult., Thomas Varty, farmer *(58)*.

See 10th November 1883.

9th August 1884 (Hexham Courant)

WEARDALE

BOLIHOPE LEAD MINES WEARDALE

The whole of the employees of the London Lead Mining Company at Bolihope mines Weardale, have received fourteen days notice, the reason assigned being the refusal of the lessors, the Ecclesiastical Commissioners, to lower the

royalty dues, which the lessee assert the present state of the lead market necessitates. The above company have worked steadily for many years, and have spared nothing in procuring all the modern scientific appliances for the development of the mining industry, while every comfort is assiduously attended to render their workmen assistance. The notice has cast a gloom over the district, as it is feared other important lessees may follow the example of the London Company, should the Ecclesiastical Commissioners persist in refusal.

Deaths

At Nenthead, 31st ult., aged 54, William Liverick.

In 1881, at Nenthead, William Liverick, unmarried, lead miner, aged 51.
See 19th July 1861, and 12th January 1878.

At Alston, 6th inst., Maude infant daughter of Jonathan and Elizabeth Ann Walton.

9th August 1884 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

For No. 2 district there had been 20 deaths (in last quarter) and 30 births. Bronchitis had been the most fatal complaint.

Deaths

Dipton 6th inst., aged 62, Roger Walton formerly of Nenthead.

In 1871, at Tanfield, Roger Walton, coal miner, aged 48, his wife Isabella 41, John, coal miner, aged 18, Joseph, coal miner, aged 16, Hannah 11, Jane 8, and Isabella 1 year.
In 1881, at Delight Road, Dipton, Rodger Walton, green grocer, aged 58, his wife, Isabella 52, daughters, Jane 18, Isabella 11, Hannah Stobbs 21, and son in law David Martin Stobbs, coal miner, aged 24.

23rd August 1884 (Carlisle Express and Examiner)

FATAL ACCIDENT IN PATTERDALE.

On Wednesday Mr. Thomas Wilson, of Westmorland, held inquest at the Traveller's Rest Inn, in pariah of Barton, on the body of Daniel Pattinson, miner, who was killed at Greenside lead mines on the previous Monday. The deceased, who was about 50 years of age, left home on the morning of the day named and about eleven o'clock was in the act of placing some stones to support a ladder on which he intended to go to a rock above, but before he had completed his task the rock came down upon him without the slightest warning, and buried him under it. About 20 men went to his assistance; and in about quarter of an hour his dead body was got out much bruised. A verdict of "Accidental death" was returned.

26th August 1884 (Northern Echo)

AT THE "BARGAINS" OF THE BOLLIHOPE MINES ON FRIDAY, the chief agent, Mr C. Bainbridge, informed the men that arrangements had fallen through between the Ecclesiastical Commissioners, respecting royalty dues, his first instructions were to close the company's works forthwith which had lately been carried on at a loss, but on his representations a greatly diminished number of miners would be employed for five weeks longer, and the remainder, he regretted would be discharged.

30th August 1884 (Hexham Courant)

STONECROFT MINES
MINERS WAGES

Three weeks ago, the miners employed at the above mines received notices for a reduction of 10 percent, in their wages. Immediately on receipt of their notices, the men held a meeting to consider what steps to take with reference to these notices. At this meeting, it was unanimously resolved not to accept the reduction and a deputation was appointed to wait upon the masters to confer with them, with reference thereto. The men refused to take their "bargains" under the proposed reduction last week until they had an opportunity of consulting the masters. An opportunity occurred on Thursday last, when the masters offered to meet the men half way, allowing them a fortnight to consider the situation. At a full meeting of the men yesterday, on considering the report of the deputation, it was unanimously decided to accept the masters terms. Hence the reduction will be 5 percent instead of 10 percent, with a prospect of an advance as soon as the lead trade briskness up a bit, and the price of lead rises.

1st September 1884 (Northern Echo)

A YEAR'S OUTPUT AT NORTH COUNTRY LEAD MINES.

During 1883, the Teesdale mines, worked by the London Lead Company, produced 3,365 tons dressed lead ore; Green Hurth, 1,049 tons; the W. B. Beaumont mines, 1,721 tons. Of all the lead counties in England and Wales, Durham headed the tonnage with 7,606 tons 6 cwt. dressed lead ore, 5,796 tons 11 cwt. amount of lead in the ore, 40,360 oz. amount of silver in the ore, and £62,839 was the total value of the ore in the mines. The Arkengarthdale (North York) mines produced 1,879 tons, and Greenside (Westmorland) 1,100.

6th September 1884 (Hexham Courant)

Deaths

At Holm Foot, Nenthead, 2nd inst., aged 67, Sarah, widow of John Angus, lead ore smelter. *See 24th April 1864.*

At Overwater, Nenthead, 1st inst., aged 64, Thomas Irwine.

See 5th June 1886

4th October 1884 (Hexham Herald)

BURNHOPE
LEAD MINING COMPANY LIMITED

The first general meeting of shareholders of the above company was held on the 24th ult. The director's report to the shareholders was of a very satisfactory character. It will be remembered that at the opening of this mine a very rich vein of lead ore was met with, estimated to yield in some parts of the extraordinary quantity of 16 to 20 tons per fathom of pure galena ore; and about seven thousand pounds worth of ore has been raised from the top sills, but not having pumping machinery, the mine got flooded with water, stopping operations for a time. A pumping engine has been put down and a main shaft sunk 200 feet deep, and at this depth fine lead ore has been found in the same vein, immediately under where the rich course of ore was in the higher sills; and the ore is still going down deeper, proving the mine is holding out in depth. A vast quantity of productive ground is being laid open, and new crushing and

dressing machinery of the most improved principle is being erected. The lowest level is being pushed forward in a strong north and south vein from 5 to 6 feet wide, and in a few weeks a powerful east and west vein will be cut, and as the ground on both sides of this vein has been productive, this is causing a good deal of excitement in the district; and as the mine only requires more efficient machinery to keep pace with the output of which it is capable, the shareholders may be congratulated on the possession of a most valuable royalty, which promises when developed to be second to none in the North of England.

11th October 1884 (Hexham Courant)

NENTHEAD

BROWNLEY HILL MINES

These mines the property of Messrs Walton, Dinning, Shaw, and Co., which have been closed a short time, no doubt owing to the depressed state of the lead market, have we are glad to learn, been reopened and the old staff of miners (many who have worked in the mines for upwards of fifty years) have all been reengaged

Deaths

At Greenends, 8th inst., aged 84, George Smith, lead miner.

In 1871, at Greenends, Nenthead, George Smith, lead miner, aged 70, born Allendale, his wife Mary 68, unmarried children, Mary 43, George 33, grandchildren Watson 16, Jane 12, John 9, and Dorothy Ann 6 years.

In 1881, George Smith, farmer of 6 acres, aged 80, his wife Mary 78, daughter Mary 55, grandchildren Watson, lead miner, aged 26, John 19, and Dorothy Ann, nurse, domestic servant, aged 16.

See 21st November 1868, 28th September 1872, 8th July 1876, & 12th May 1883.

At Dykeheads, Nenthead, 6th inst., aged 1 year, Norah daughter of Mr John Percival, lead miner.

See 1st July 1876, 10th July 1875, and 15th July 1876.

At Dykeheads, Nenthead, 2nd inst., aged 54, George Armstrong, lead miner.

William Armstrong married Mary Harbutle, 24th January 1815, at St Augustine's, Alston.

William Armstrong was buried at Alston 26th May 1834, aged 47.

In 1841, at West Nenthead, Mary Armstrong, aged 50, John, lead miner, aged 25, Ralph, lead miner, aged 20, William, lead miner, aged 15, Elizabeth 14, Jane 12, and George, lead ore washer aged 10.

In 1851, at Swalwell Cottage, Nenthead, Mary Armstrong, miners widow, parish relief, aged 60, children, Jane 22, and George, lead miner, aged 20.

Mary Armstrong was buried at Nenthead 17th January, 1852, aged 62.

In 1861, at Overwater, Ann Shield, lead miners widow, aged 60, daughter Mary, seamstress, aged 40, and boarder, George Armstrong, lead miner, aged 30. John George Johnson, married Mary Shield, 4th quarter 1864, registered, at Alston.

In 1871, at Overwater, John George Johnson, boot & shoe maker, aged 42, his wife Mary 50, mother in law, Ann Shield, widow, formerly domestic servant, aged 74, and lodger, George Armstrong, pedler, aged 40.

In 1881, at Overwater, John G Johnson, boot & shoe maker, aged 52, his wife Mary 60, mother in law, Ann Shield, widow, formerly house keeper, aged 84, and lodger, George Armstrong, lead miner, aged 50.

Ann Shield, died 1st quarter 1894, aged 98, registered at Alston.
At Hill Top, Nenthead, 30th ult., aged 54, Thomas Havelock, painter.
In 1881, at Fair Hill, Nenthead, Thomas Havelock, unmarried, unemployed lead miner, aged 52, his unmarried sister Elizabeth aged 50, and niece 10.
See 14th August 1875, 9th January 1875, and 22nd April 1882.

11th October 1884 (Hexham Herald)

ALSTON

NENTHEAD AND TYNEDALE LEAD ORE AND ZINC COMPANY LTD.

The quarterly bargains in connection with these mines were re-let to the workmen on Friday; the 3rd inst., by J. C. Swan, Esq., of Newcastle upon Tyne. All the men were retained and got a bargain of some description, although the prices given were very low.

18th October 1884 (Hexham Herald)

ALSTON

NARROW ESCAPE AT GREENHURTH LEAD MINES.

An accident, which might have terminated fatally, occurred in the mines of Greenhurth on Thursday, 9th inst. It appears that a miner named John Potts, of Garrigill, along with his partner, had prepared a hole for blasting purposes, and after igniting the fuse ascended a shaft until the shot was fired. On descending again to commence work, Potts, on reaching forward to step into the cage, slipped and fell to the bottom of the shaft a distance of 36 feet. On being removed home, the injured man was found to have received comparatively slight injuries beyond having his shoulder dislocated, and a slight fracture of the right hand, but otherwise little worse.

Marriages

Alston Parish Church, Joseph Watson, farmer, Dryburn, to Mary only daughter of the late Hugh Kearton, Rodderupside, Alston.
Thomas Kirton married Mary Shaw, 23rd January 1800, Alston.
Hugh Kearton son of Thomas and Mary Kearton baptised 19th December 1813.
In 1841, at Flowedge, John Walton, Lead miner, aged 30, Mary Walton aged 30, Tamar Walton 5, Jane Walton 4, Christopher Walton 2, Thomas Walton 5 months, Mary Whitfield aged 14, and Hugh Kearton, lead miner, aged 25.
In 1851, Roderupside, Hugh Kearton, farmer and carrier aged 37, his wife Jane aged 37, daughter Mary 1 month, nephews Thomas Walton 10, William Walton 7, John Walton 5, wife's daughter Mary Vipond aged 6, and house servant Mary Little, widow, aged 28.
In 1861, at Rotherhopeside, Hugh, farmer, aged 47, his wife Jane aged 47, children Mary 16, Thomas 8, Hugh 8, Jane 3, nephew William Walton, stone fence waller, aged 17, and nephew John Walton, lead miner, aged 15.
In 1871, at Low House, Hugh Kearton, farmer of 178 acres, aged 57, his wife Jane aged 57, children Hugh, joiners apprentice, aged 18, Thomas, lead ore washer, aged 18, and Jane 13.
In 1881, at Low House, Rotherhopeside, Hugh Kearton, farmer of 180 acres, aged 67, his wife Jane 67, children Mary 34, Thomas, farmers son, aged 28, and Hugh, joiner, aged 28.
Hugh Kearton died 1st quarter 1882, aged 68

In 1891, at Low Brownside, Alston, Joseph Watson, retired farmer, aged 60, and his wife Mary aged 46.
Joseph Watson, died 5th June 1898, probate shows effects of £2750 11s 4d.
In 1901, at Chapel Terrace, Alston, Mary Watson, widow, living on own means, aged 56.

Deaths

Sparty Lee, Allendale, 23rd ult., aged 59, John Dickinson.

John Dickinson married Mary Shield 18th July 1846, at St Peter's, Allendale.
In 1851, at Peasemeadows, John Dickenson, lead and silver separator, aged 25, his wife Mary 32, children Isabella 4 and Ann 1.
In 1861, at High Swinhope Shield, John Dickinson, lead silver separator, aged 35, his wife Mary 42, children Ann 11, Mary J 9, and Elizabeth 3. Isabella aged 14, is working as a general house servant, at Black Bank for her grandparents, Fenwick Shield, farmer, retired lead miner aged 74, and his wife Ann aged 69.
In 1871, at Water House, Sparty Lee, John Dickinson, lead ore smelter, aged 44, his wife Mary 53, children Jane 19, Elizabeth 13, sister Isabella Coats, grocer & draper, aged 24, her children Sarah Coats 3, and John Coats 10 months.
In 1881, at Oakey Dean, Allendale, John Dickinson (born Slaley), stone waller, aged 55, his wife Mary 63, grandson John Dickinson 9, granddaughter Annie Dickinson 6, boarder, son in law, John Dixon, lead ore miner, aged 23, his wife Elizabeth Dixon 23, their son John Wm. Dixon aged 4 months.

1st November 1884. (Hexham Herald)

WEARDALE

A RICH FIND IN WEARDALE.

An important discovery of a lead ore vein in the royalties leased by the Weardale Mining Company has been made to the South West of the village of Wearhead, in the hamlet of Burnhope. Two miners, Mr E. Dowson and Mr J. Rutherford, acting under the guidance of Mr J. Watson of Ling Riggs, an ex-mining agent, and one of the cleverest of mining experts in the district, proceeded to a syke or dry ditch on the hillside, cut the sod to only a moderate depth, and there found the vein, which Mr Blenkiron, Mr Watson, and Mr Thompson, and the directors of the Company believe to be one of the largest and richest yet found. During the recent visit of the directors, Mr Maxfield cut the first sod of a new level (which has been surveyed and marked out to reach the full resources of mineral which all are sanguine will be found) and christened it Lynn Syke View. This valuable acquisition to the Company's working will, it is expected, give an impetus to their explorations, and additional employment to those miners who are yet in quest of work.

STANHOPE

FATAL QUARRY ACCIDENT

Inquiry into the death of George Heatherington of Crawleyside aged 19 years, who died on Friday from injuries received on the previous Saturday from an explosion of powder at the Ashes Limestone Quarry. The deceased's father Thomas Heatherington is now lying in a dangerous condition from injuries received by the same explosion. The father and son worked together and whilst a hole in the limestone rock was being charged a second time from a barrel containing a large quantity of powder an explosion took place, when father and

son were blown against the face of the rock behind, their clothes set on fire, and the unfortunate men were otherwise injured.

In 1881, at Crawleyside, Stanhope, Co. Durham, Thomas Heatherington, limestone quarryman, aged 38, his wife Isabella (Hewitson, married 30th December 1865) aged 36, children George, railway labourer, aged 16, Mary 13, Jane A. 10, Thomas 8, and Phoebe 7.

In 1891, at Crawleyside, Stanhope, Co. Durham, Thomas Heatherington, limestone quarryman, aged 48, his wife Isabella 46, children Mary 24, Thomas, limestone quarryman, aged 18, and Phoebe 17. Thomas died 5th May 1912, aged 69, and his wife Isabella died 19th September 1909 aged 65.

Marriages

Alston Wesleyan Chapel, 30th ult., John Teasdale, Nether Park to Margaret Routledge, Flatt, Alston.

In 1861, at Herring Well, West Allendale, Robert Routledge, lead miner, aged 44, his wife Mary 41, children William, boot & shoe maker, aged 22, Joseph, lead miner, aged 20, John, lead miner, aged 18, Thomas, lead ore washer, aged 16, Jane 13, Mary A 11, Sarah 8, Robert 6, Thirlwell 3, and Margaret 3 months.

In 1871, at Shield Ridge, West Allen, Robert Routledge, quarryman, stone breaker, and farmer of 6 acres, aged 54, his wife Mary 51, children William, post messenger & boot maker, aged 32, Thomas, lead ore miner, aged 26, Sarah 18, Thirlwell, lead ore dresser, aged 13, Margaret 10, Elizabeth 7, and Hannah 2.

In 1881, at Far Flatt, Robert Routledge, widow, farmer of 113 acres, aged 64, sons William, boot maker, aged 42, Thomas, lead miner, aged 35, daughters, Margaret 20, Elizabeth 17, and Hannah 12.

Robert Routledge died 2nd quarter 1886, aged 69

In 1861, at Low Greenends, Isaac Teasdale, lead miner, aged 36, his wife Mary 35, children John 8, Isaac 6, Eleanor 3, and Robert 2.

In 1871, at Park, Isaac Teasdale, lead miner & landowner farming 51 acres, aged 45, his wife Mary 44, children John, lead miner, aged 18, Isaac, lead miner, aged 16, Elenor 13, Robert 12, Thomas 8, George 5 and nurse child John Coats 1.

Isaac Teasdale died 1st quarter 1873, aged 48.

In 1881, at High Park, John Teasdale, single, farmer of 47 acres & lead miner, aged 28, brothers Isaac, farm servant, aged 26, Thomas, tailor & draper, aged 18, George 16, and domestic servant Hannah Ellen Robson 20.

In 1891, at High Lovelady, John Teasdale, farmer, aged 37, his wife Margaret 30, and son John Frederick 4. In 1901, at High Lovelady Shield, John Teasdale, lead miner, aged 48, his wife Margaret 40, and son John F 14. In 1911, at Acomb Terrace, Acomb, John Teasdale, coal miner, aged 58, and his wife Margaret aged 50. In 1911 at Morrison Terrace, Acomb, John Frederick Teasdale, coal miner, aged 24, and his wife Emily 26.

8th November 1884 (Hexham Herald)

SETTLINGSTONES

A NARROW ESCAPE.

On Monday night a serious accident occurred at the Settlingstones mines attended with a very narrow escape. A young man named Edward Reed, belonging to Swinhope, Allendale, had made preparations for blasting a piece

of rock with dynamite, and retired to a safe distance till the charge should have exploded. After waiting a longer time than usual without hearing the explosion he came to the conclusion that the fuse had failed and prepared another one. He then went forward to where he had been working, and found everything the same as when he left. Being confident that the shot had missed fire, he inserted a "pricker" in the hole to enable him to insert a second fuse, and just at that moment the charge, which had only been hanging fire, exploded. Fortunately the hole had been drilled in a sloping direction and the shot threw the bulk of the stone &c. from the young man. Some fragments of stone however, flew up and cut his face very severely, small pieces of stone remaining in the flesh and penetrating bone. His hands, too were much injured. A cart was at once procured and e was taken to his lodgings. … For some time the young man was blind, but Dr Murray having extracted the small stones from his face, he recovered his sight. His injuries, though not dangerous, were of a serious nature, and would have been more so had he not attempted to protect his face with his hands.

In 1881, at Pry Field House, Swinhope, Allendale, Robson Reed, lead ore washer, aged 52, wife Jane (Phillipson, married 12th June 1858, St Peter, Allenheads) aged 49, children Phillis 21, Matt. H., lead ore washer, aged 17, Edward R., lead ore washer, aged 15, Thomas 13, Mary Ann 10, Joseph P. 9, Nicholas S. 7, and Sarah Jane H. 3. Edward Robson Reed died, 3rd quarter of 1887, aged 21 years. In 1891, at Lane Side, Allendale, Robson Reed, farmer, aged 62, wife Jane 59, children Matthew, barytes miner, aged 27, Thomas, barytes miner, aged 23, Mary A. 20, Sarah J. 13, and grandson Joseph Reed 1 year.

13th November 1884 (Northern Echo)

FATAL LEAD MINING ACCIDENT

An inquest was held at the Commercial Inn, Bolts Burn, Weardale, before Mr J. T. Proud, deputy coroner; touching the death of a miner named Joseph William Gardiner, who was crushed by a fall of stone from the roof whilst at work in Grove Rake Mine, last March (25th), and who had never since been able to leave his bed. A verdict of "Accidental death" was returned. *In 1871, at Hylton Terrace, Bolts Burn William Gardiner, iron miner, aged 44, wife Elizabeth (Price, married 23rd June 1849, Hunstanworth) aged 44, children John, iron miner, aged 21, Joseph W. 7, and Mary A. 5. In 1881, at Bolts Burn, William Gardiner, lead miner, aged 54, wife Elizabeth , son Joseph W. Gardiner, railway labourer, aged 18, and daughter Mary A. 15.*

29th November 1884 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

Dr Walton's report for No. 2 district for the three months August, September and October was read. During the month of August, September, and October we had respectively, 2, 4, and 6 deaths, 10 cases occurred in people over 50 years of age, and 2 infants. Consumption in each of the months secured one victim. In September one case of English Cholera manifested itself, but by the precautions taken there was no further spread of the disease. The epidemic of Whooping Cough in October spread from Alston to Garrigill, appearing, however in the latter place of a milder type and showing less signs of

interference with the lungs, the reason of this I am certain being due in great measure to the better ventilation of the houses in which the cases appeared in Garrigill. The births numbered 14, females 9 males 5.

Marriages

Alston, St Augustine's Church, 18th inst., Thomas Lee to Miss Mary Wailes, both of Alston.

In 1891, at Front Street, Thomas Lee, coal miner, aged 40, and his wife Mary aged 39.

Deaths

Alston, 21st inst., aged 84 Mary Ann, widow of Thomas Pattinson.

Thomas Pattinson married Eleanor Robson 1st September 1845, at St Augustine's, Alston.

In 1841, at Town Foot, Alston, Thomas Pattinson, cart driver, aged 35, his wife Eleanor 40, children, William, labourer, aged 15, Eleanor 9, John 5, and Mary aged 3. In 1851, at Town Foot, Thomas Pattinson, lead miner, aged 50, his wife Eleanor, 55, children, Eleanor 19, and John, lead miner, aged 15.

Eleanor Pattinson, died 9th June 1853, aged 56, at Alston.

Thomas Pattinson, married Mary Ann Gray, 2nd quarter 1855, at Alston.

In 1861, at Thirlwalls Lane, Alston, Thomas Pattinson coal merchant's labourer, aged 59, his wife Mary Ann 62, children Eleanor, housemaid, aged 29, John, stonemason, aged 25, and granddaughter Elizabeth 6 years.

In 1871, at Town Foot, Alston, Thomas Pattinson coal salesman, aged 67, his wife Mary Ann 70, children Eleanor, aged 39, John, stone mason, aged 35, and granddaughter Elizabeth, domestic servant, aged 16.

Thomas Pattinson died 4th quarter 1873, aged 69.

In 1881, at Front Street, Alston, Mary Pattinson 80, daughter in law Eleanor, aged 49, son in law John, master mason employing 2 men, aged 45, and granddaughter in law Elizabeth, domestic servant, aged 26.

In 1891, at Bank House, Alston, John Pattinson, unmarried, stone mason, aged 55, sister Eleanor, house keeper, aged 59, and niece, Elizabeth Pattinson, domestic servant, aged 36.

3rd December 1884 (Shields Gazette)

ACCIDENT IN A LEADMINE. —On Tuesday afternoon, a leadminer named John Dawson, residing at the Hole, Ireshopeburn had his leg broken by a fall of stone while at work in Greenlaws Leadmine.

In 1841, at St John's, Stanhope, Isaac Dawson, butcher, aged 55, children Isaac, lead miner, aged 25, and Ann 20.

Isaac Dawson married Elizabeth Rumney at St John's Chapel, 16th November 1841.

In 1851, at Ireshopeburn, Isaac Dawson, lead miner aged 35, his wife Elizabeth aged 36, children, John 12, Mary 11, Isaac 8, William 4, and Thomas aged 1.

In 1861, at Brier Hill, Ireshopeburn, William Rumney, lead miner, aged 70, and his wife Ann aged 72. The next entry at Brier Hill, Isaac Dawson, lead miner, aged 45, his wife Elizabeth 47, children, John, lead miner, aged 22, Mar A 20, Isaac, lead miner, aged 18, William, lead miner, aged 14, Thomas 11, Jonathan 7, and Elizabeth 5.

John Dawson married Hannah Wilson 1st quarter 1862, at Weardale.

In 1871, at Hole, Ireshopeburn, John Rumney, lead miner and farmer, aged 31, his wife Hannah aged 29, daughter, Mary A Wilson, 9, Elizabeth H 7, Anne 5, Isaac W 3, and Rosanna 3 months.

NENTHEAD

PAINFUL ACCIDENT AT HANSOMES WASHING WORKS.

A very sad accident happened to Mr Thomas Irwin master washer at the above works on Monday afternoon last. It appears that after dinner he was engaged in oiling the machinery, when by some means or other his overcoat became entangled in the cog wheels and in endeavouring to extract himself by cutting away the cloth his right arm was drawn in and fearfully emaciated. Mr Irwin was extracted with all possible speed and conveyed home. Dr Masterton was quickly in attendance and found it necessary to amputate the injured limb above the elbow. A great deal of sympathy is expressed for Mr Irwin who has been

employed at the place where the accident occurred for upwards of 50 years, he being both an experienced and valued workman.

See 28th January 1888 and 27th October 1900

WEARDALE

On Wednesday, the ordinary general meeting of the shareholders of the Weardale lead Company was held at Dashwood House, London, when the directors report and statement of accounts was presented. The report stated that the 'cost of mining and smelting during the year ending June, including the cost of opening up, repairing &c., and reinstating the mines is £31,337, of which sum upwards of £21,000 has been paid in wages, the number of men employed being 600. As it is difficult to say how much of this expenditure is fairly chargeable to revenue and how much is capital, the directors have not attempted any "revenue account," or to declare any dividend this year, but to let the whole account received for sales of lead and the value of the ore in hand £18,925, go in reduction of the cost of opening the mines, and to commence the revenue account with the 1st of July this year. The directors have before them the very important question of royalties, and they propose to urge upon the lessors the desirability and fairness of having a sliding scale instead of a fixed charge, so that while in prosperous times lessors, tenants, and workmen, will all participate in the increased profits; on the other hand, in times of depression all parties will feel that they have been met fairly by the lessors in this important matter.

Deaths

Nenthead, 4th inst., aged 65, Ann wife of Edward Wailes.

IN MEMORY OF
EDWARD WAILES
WHO DEPARTED THIS LIFE
DECEMBER 14TH 1890
AGED 74 YEARS
AND WAS INTERRED AT
CARLISLE
ALSO OF ANNE HIS WIFE
WHO DIED DEC. 4TH 1884
AGED 64 YEARS
ALSO OF HENRY THEIR SON
WHO DIED FEB. 13TH 1884
AGED 41 YEARS

Thomas Wailes married Isabella Milburn 13th May 1809, at St Augustine's, Alston.
In 1841, at Low Galligill, Thomas Wailes, lead miner, aged 55, his wife Elizabeth (sic) aged 50, children Edward, lead miner, aged 25, Isaac, lead miner, aged 23, William, lead miner, aged 20, Isabella 18, Margaret 15, Thomas, lead miner, aged 12, and John 9.
In 1851, at Low Galligill, Thomas Wailes, lead miner, aged 66, his wife Isabella (born Bishop Auckland, Co. Durham) aged 62, children Isabella 29, Thomas, lead miner, aged 23.
In 1851, at Haggs Foot, Edward Wailes, lead miner, aged 33, his wife Ann aged 31, and son Henry aged 8.
In 1871, at Foulard, Nenthead, Edward Wailes, lead miner, aged 55, his wife Ann aged 51, and son Henry, joiner aged 28.
In 1881, at Overwater, Nenthead, Edward Wailes, lead miner, aged 65, and his wife Ann aged 61. Edward died 14th December 1890, aged 74, his death was registered at Carlisle.
The 1881 census shows Henry married to Ruth Blacklock (married January 1878), the widow of Joseph Blacklock, see 5th August 1876.
In 1881, at Overwater, Nenthead, Henry Wailes (died 13th February 1884, aged 41), grocer, aged 38, his wife Ruth 47 (died 27th June 1882), step children Jacob 21, Nancy 21, F. Ruth 14, J. Hayton 9, T. Hall 7, and domestic servant, Agness Archer aged 20.
See 11th June 1842, 8th June 1844, 12th April 1845, 5th August 1876, 12th January 1878, 1st July 1882, 16th February 1884 & 29th November 1890

WEARDALE

THE WEARDALE MINES

Speaking at the General meeting of the shareholders last week, Mr George Batters said it would be impossible to take out our unless the work of development went on at the same time that they were raising ore. He attached much more importance to developments then to returns, and in the present state of the lead market it was most important in the interests of the company that they should develop the mine rather than that they should take the whole of the reserve away; because the greater the discoveries which were now made the greater would be the facilities for making returns when the opportune moment arrived. He did not know a lead mine in the county (and he knew every one of them) which could make larger profits, with lead at the present low prices. The Weardale Mine now had 130 men employed on dead or tut work, which was a fair proportion compared with the force employed in the mine. Referring to the Boltsburn mine, he said that mine had been left in a derelict condition because nothing had been done in the way of getting lead from it for some time before this company took it over. What had been done there? Why simply they had been driving into the whole ground on a course of ore for the whole distance and the result was they had laid open at least £5,000 worth of ore, and no returns had been made the this company from that mine, and no ore from that mine had been sent to the smelting mill. Mr Batters then went into some further detail regarding the position of the mine, and again impressed upon the meeting the absolute necessity of keeping the work of development well ahead of the stoping. It was stated that the price for the last 100 tons of lead sold on 11th

December was £11 8s 9d. A resolution was passed that the Board urge on the Ecclesiastical Commissioners the necessity of reducing the royalties from 1/12th to 1/24th, whilst lead remains at the present low price.

ALSTON

ALARMING ACCIDENT AT BLAGILL

A somewhat serious accident occurred at Blagill near Alston, on Monday last. From accounts it appears a number of workmen had returned to a blacksmiths shop to partake of dinner when one of the number, named Anthony Martindale, living at Leadgate, reached a bottle out amongst a number of others, thinking that it contained coffee, and placed it on the fire for the purpose of warming the contents preparatory to commencing dinner. It had not remained on the fire many minutes before a loud explosion took place, when it was discovered that instead of coffee it proved to have been a bottle containing above one pound of blasting powder. The result may be easier imagined than describing. Martindale's face was severely burnt, and a young man and a lad named Dixon who were standing by suffered severely about the face also. We are glad, however, that no serious effects are likely to occur from the unfortunate mishap.

In 1851, at West Foreshield, Anthony Martindale, lead miner, aged 44, his wife Nancy (Shield, married 25th December 1834, at Alston) aged 43, children Mary 13, Thomas 10, Elizabeth 7, Hannah 5, and Anthony 7 months.
Anthony Martindale died 20th January 1857, aged 50.
See 24th January 1857, & 26th February 1870
In 1861, at Newshield Gate, Nancy Martindale, widow, toll collector, aged 53, children Thomas, lead miner, aged 20, Hannah 15, and Anthony 10.
Nancy Martindale, died 1st qtr., 1863, registered at Alston.
In 1871, at Black Burn Banks, Thomas Martindale, single, engineman, aged 30, his brother Anthony, lead miner, aged 20, and domestic servant Mary Walton 47, born Scotland.
In 1881, at Leadgate, Anthony Martindale, engineman at lead mine, aged 30, and his wife Hannah (Dixon, married 1st quarter of 1880) aged 21. In 1891, at Leadgate, Anthony Martindale, lead ore miner, aged 40, wife Hannah 31, children John W. 9, Thomas A. 7, Annie 5, Elizabeth 3, and A Stanley 1 year.
In 1891, at Leadgate, Anthony Martindale, lead ore miner, aged 40, his wife Hannah 31, children John W 9, Thomas A 7, Annie 5, Elizabeth 3, and A Stanley 1. In 1901, at Leadgate, Anthony Martindale, washing foreman, leadmining, aged 50, his wife Hannah 41, children John Wm, assistant grocer, aged 19, Thomas A., blacksmith, aged 17, Annie, school teacher, aged 15, Lizzie 13, A Stanley 11, and Daisy 5.
Anthony Martindale died 2nd quarter 1902, aged 51.
In 1911, at The School House, Leadgate, Hannah Martindale, widow, aged 51, children Annie, head teacher, aged 25, Elizabeth 23, Anthony Stanley, blacksmith for lead co., aged 21, and Daisie 15.

NENTHEAD

Mr John Hall has been appointed Sub-Postmaster, at Edge Lane, Liverpool. Mr Hall is the son of the late Mr Wm. Hall of Nenthead.

Marriages

Alston Primitive Methodist Chapel, 8th inst., Mr Joseph B. Lattimer, draper to Miss Alice Mabb, schoolmistress, both of Nenthead.

In 1891, at store houses, Holywell, Northumberland, Joseph B Lattimer, managing draper, aged 30, his wife Alice 28, sons James 4, and John 1.

Alston Primitive Methodist Chapel, 9th inst John Wilkinson to Agnes Thompson both of Alston.
In 1891, at Victoria Terrace, Benwell, John Wilkinson, coal miner, aged 30, born Allendale, his wife Agnes 27, and son Albert 3.

Deaths

Garrigill, Bunker Hill, 7th inst, very suddenly, John Joseph, son of Jonathan and Sarah Carr.
In 1881, at Bunker Hill, Jonathan Carr farmer of 85 acres, and carrier, employing 1 man, aged 66, his wife Sarah 53, Sarah, domestic & dairy work, aged 22, Jonathan, cartman, aged 18, William, farmers assistant, aged 15, John J. 12, Matthew 10, and Annie 8. See 28th April 1877.

20th December 1884 (Hexham Courant)

Deaths

At Clitheroe, Alston, 17th inst., aged 66 Hugh Spottiswood lead miner.
See 19th April 1884.

ALSTON

This Board met on Saturday, the Rev. O. James presiding. —The Local Government Board signified their approval of the appointment of Dr. Masterton as medical and vaccination officer for Nenthead district and their appointment of Mr. Norreys as poor law inspector in place of the late Mr. Basil Caine. —A number of applications for relief from the Fairhill Charity Funds were to hand, but consideration of these was deferred until next meeting, on the understanding that Langhorn's Charity would be distributed in the meantime. —The CLERK said they had less charity money available for Alston this year than last. They had paid £40 6s., and had a balance of £27 19s. 11d. on hand. Their receipts would be about £47, considerably less than of late, owing to a reduction in rents. Of the Garrigill money only £7 10s. had yet been distributed, and they had a balance of £15 5s. 10d., with some £16 yet to receive.

2nd January 1885 (Northern Echo)

SERIOUS ACCIDENT IN WEARDALE

On Wednesday, a lead miner named Ralph Walton, Broken Way, was seriously injured at Green Laws mine. He along with his partnership of miners, was conveying some wood, necessary for their workings. One of the planks becoming loose, caught the side of the level along which the wagon containing all was being drawn, causing it to recoil and strike the above miner in the side, seriously injuring him. But for the horse stopping he would have been killed outright. He was speedily attended by Dr Hewitson, St John's, and lies in a precarious state.
Hannah Watson married Ralph Walton, 1st quarter 1851, registered at Weardale.
In 1851, at Broken Way, St John's, Weardale, Ralph Walton, lead miner, aged 55, his wife Hannah 39, step children, Phebe Watson, 16 (married Joshua Teasdale 4th qtr 1855, at Weardale, died 21st March 1865), Jane Watson 13, George 11, William 9, and John 6.
In 1861, at Woodbine Cottage, St John's, Weardale, Ralph Walton, lead miner, aged 66, his wife Hannah 50, son Ralph 9, step sons, George Watson, lead

miner, aged 22, William Watson, lead miner, aged 20, and John Watson, lead miner, aged 18.
Ralph Walton snr died in 1862 or 1864
In 1871, at Broken Way, St John's, Weardale, Hannah Walton, widow, aged 59, and her son Ralph, lead miner, aged 19.
In 1881, at Doctors Cottage, St John's, Weardale, Hannah Walton, widow, aged 68, and her son Ralph, lead miner, aged 28.
Hannah Walton, died 1st quarter 1886, aged 73.
Ralph Walton, married Jane Peadon, 3rd quarter 1886, at Weardale.
In 1891, at Broken Way, St John's, Weardale, Ralph Walton, farmer, aged 39, and his wife Jane 32.
In 1901, at Broken Way, Ralph Walton, farmer, aged 49, his wife Jane 42, boarders, George Watson, coachman, aged 30, Joseph R Watson, draper & grocers assistant 24, and nephew, Elliott Peadon, breaking stones for roads, aged 13.

3rd January 1885 (Hexham Courant)
Marriages
At the Primitive Methodist Chapel Alston, 28th ult., John Joe Armstrong to Miss Annie Walton, both of Nenthead.
In 1861, at Wellhope, William Armstrong, lead miner, aged 34, his wife Ann 22, and son John Joseph 1.
William Armstrong died 3rd quarter 1870, aged 42.
In 1871, at Coalcleugh, Ann Armstrong, widow, pauper charwoman, aged 32, children John J 11, Mary E 9, Maria A 7, and Thomas W 1. In 1881, at Coalcleugh, Ann Armstrong, widow, aged 42, sons John J. driver in the lead mines, aged 21, Thomas W. 11, and Robert A. 5.
In 1891, at Esh, Durham, John J Armstrong, coal miner, aged 31, born Allendale, his wife Annie 27, born Alston, children Mary E 5, Isaac W 4, and Herbert W 6 months. In 1911, at Malton Colliery, Esh, John Joseph Armstrong, coal miner & master shifter, aged 51, his wife Annie 47, Joseph, coal miner, aged 16, and Norman, coal miner, driver, aged 14.
Deaths
At Alston, How Burn, 30th ult., in her 90th year, Margaret, wife of the late William Walton of Leazes House.
In 1841, at Clargill, Alston, William Walton, farmer, aged 46, his wife Margaret 46, children Henry 19, Elizabeth 17, Thomas 15, John 13, William 11, Isaac 9, Samuel 5, and Ann 2.
In 1851, at Leazes House, Kirkhaugh, William Walton, farmer of 34 acres, aged 56, his wife Margaret (Lee, married 13th May 1821, at Kirkhaugh) aged 56, son, Samuel, aged 15, and daughter Ann aged 12 years.
In 1861, at Leazes House, Kirkhaugh, William Walton, landed proprietor, 16 acres, aged 64, his wife Margret 66, daughter Ann 22, visitors, daughter in law Jane 26, and grandson, George 6.
William Walton died 1st quarter 1865.
In 1871, at Leazes House, Kirkhaugh, Margaret Walton, widow, aged 76, and daughter Ann aged 32.
In 1881, at Howburn, Henry Walton, farmer of 5700 acres, aged 59, his wife Jessie 60, children Thomas 28, John H. 26, Jessie 23, Mary J. 20, Elizabeth

A. 16, his mother Margaret Walton, annuitant, age 86, and John Parmley, farm servant, indoors, aged 20.

3rd January 1885 (Hexham Herald)

NENTHEAD

The price of lead has during the past year reached the lowest figure that has been known during the experience of the oldest miners, the result of which has been severely felt amongst the miners in the Dale. We learn that at the quarter pays held on December 19th that between £300 and £400 less was paid than the case in 1883. ...

10th January 1885 (Hexham Herald)

STANHOPE FATAL QUARRY ACCIDENT

On Monday a fatal accident occurred at the Parsons Byres limestone quarry, Stanhope. Whilst Thomas Bell a young man aged 15 years, was with others following his employment at the above quarry a large stone half a ton or more fell from the face of the quarry upon Bell who was at work below and crushed him severely about the body and his legs were broken causing almost instantaneous death. Deceased was a son of Mrs Bell of Crosshill, Stanhope.
In 1871, at Stanhope, Fairless Bell, limestone quarryman, aged 33, wife Jane (Coulthard, married 2nd quarter of 1862) aged 33, children John George 8, Matthew 4, and Thomas 2. Fairless Bell died 4th quarter of 1880, aged 47.
In 1881, at Crop Hill, Stanhope, Jane Bell, widow, aged 44, children John Geo., limestone quarryman, aged 16, Matthew, limestone quarryman, aged

14, Thomas 11, and Mary Ellen 5. In 1891, at Cross Hill, Stanhope, Jane Bell, widow, aged 54, children John Geo, limestone quarryman, aged 26, Matthew, limestone quarryman, aged 24, and Mary 15.

WEARDALE

Spanish lead in December sold for £10 17s 6d up to £11 per ton.
Weardale lead stood at £11 12s 6d to £11 15s this week.

23rd January 1885 (Northern Echo)

LONDON LEAD COMPANY

Mr Bolton, of Stanhope and Mr Pinkney, of Egglestone, both agents of the London Lead Company, are about to exchange positions. Both gentlemen are very popular, and are old and trusted agents of the company.

31st January 1885 (Hexham Herald)

WEARDALE

The half yearly pays were held at Newhouse offices on Saturday, and there was never known such melancholy pays before. Weardale at present is in a very depressed state, and likely to be worse. Many of the miners have only got a month's bargains, and a great number have got none at all. How to account for this we do not know. When the Company took the mines they could make them pay, and now lead is £2 to £3 more per ton that it was when they took the mines and yet it is said they are loosing.

THE LEAD TRADE AND ITS PROSPECTS. (from the Mining Journal)

... the decrease between 1871 and 1881 of the population engaged in the lead mining industry in this part of the country. The six parishes of Allendale, Blanchland, Middleton in Teesdale, Muggleswick, Hunstonworth and Stanhope had fallen to 18,871 a decrease of 4,224, or 18 per cent ...

20th February 1885 (Carlisle Patriot)

ALSTON RURAL SANITARY AUTHORITY.

The usual meeting of this Board was held on Saturday, Mr MILLICAN presiding. —The Medical OFFICER for Nenthead and Garrigill district presented his annual report, which showed that 55 births and 41 deaths had occurred during the year. No deaths had occurred in November; the highest number of deaths was registered in June. —Notice was given that at next meeting the Board proceed to appoint medical officers and an inspector of nuisances, and it was decided to inform the Local Government Board that the guardians desired to retain the two districts, and that in the case of Alston it was desirable that one man should be eligible for the offices of inspector and medical officer. —The SURVEYOR stated that the owners of the lime works had staked out the ground where it was proposed to divert the road at Mount Healy, but it was not in accordance with the wishes of the committee, and the County Surveyor would decline to sanction the division.

21st February 1885 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

Dr Walker's annual report was read. The births numbered 55, deaths at all ages 41. The highest mortality occurred in people over 60 years. Of diseases, consumption has been the most fatal. The month of June is credited with largest number of deaths; viz. 8 while November was totally free, a fact curious in the extreme hilly district. February was the most injurious month to old people. Of infectious diseases, we have been singularly clear. Whooping cough did show itself but of a mild kind, and so extremely localised as to be of little moment. One case of English Cholera was successfully treated. Pneumonia appeared in one patient, also successfully treated and without any spread of disease. The sanitary condition of the district is good.

24th February 1885 (Northern Echo)

Mr Matthew Byers Lowes and Mr Joseph Jackson, jun., of St John's Chapel, leave Weardale today for Queensland.

Matthew Byers Lowes, baptised 23rd August 1835, at Middleton in Teesdale, parents Robert and Susannah Lowes. Robert Lowes married Susanna Byers 17th August 1820, at Middleton in Teesdale.
Matthew Byers Lowes married Phoebe Coatsworth 2nd quarter 1856, at Teesdale.
In 1861, at Travelers Rest, Heathercleugh, Weardale, Matthew Byers Lowes, lead miner, aged 26, his wife Phebe, and son Robert, aged 2.
In 1871, at Rough Rigg House, Forest & Frith, Teesdale, Matthew Byers Lowes, lead miner, and small farmer, aged 36, his wife Phoebe 35, children, Robert 12, Matthew Byers 7, and Mary Elizabeth 4.
In 1881, at Rough Rigg, Forest & Frith, Teesdale, Matthew Byers Lowes, lead miner, and small farmer, aged 46, his wife Phoebe 44, children, Robert, lead miner, aged 21, John lead miner, aged 19, Matthew B, blacksmith aged 17, and Mary E aged 14.
In 1891, at Ireshopeburn, Weardale, Matthew B. Lowes, butter dealer, aged 55, his wife Phoebe aged 54, son, Robert, farmer, aged 31, daughter, Mary E Johnson, married aged 24, and granddaughter, Sarah E Johnson, aged 4.
Phoebe Lowes died 4th quarter 1896, aged 60, at Weardale.
In 1901, at Ireshopeburn, Weardale, Matthew B. Lowes, widower, farmer, aged 66, his son, Robert, breaking Whinstone, aged 41, daughter, Mary E Johnson, married aged 34, and granddaughter, Edith Johnson, aged 14.
Matthew Byers Lowes 25th April 1903, aged 68, at Weardale.
Probate 1904: Matthew Byers Lowes of Ireshopeburn, Stanhope, Durham died 25th April 1903 Probate Durham 8 March to William Watson rate collector. Effects £815.

28th February 1885 (Hexham Courant)

WEARDALE
THE LEAD TRADE

The conditions of the lead trade in Weardale, as elsewhere, is far from encouraging. When we find that lead imported and lead obtained from imported ores rose from 74,351 tons in 1874 to 119,521 in 1883 the state of the home trade is alarming. In 1883, lead produced from British ores amounted to 39,190

tons; in the same year Spain sent us pig and sheet lead, 80,855 tons. With the extremely low rates of shipping and the comparatively high railway rates, Weardale like other North of England mining fields, is placed at a great disadvantage. The Weardale Lead Company commenced in July 1883 with about 200 men, the full compliment being 600. The state of the market, however, has caused them to recently withdraw certain mining operations, which have laid off some 100 miners. The Ecclesiastical Commissioners have been petitioned about the dues, and representatives of the men have had an interview with the directors, and which brought out this not very satisfactory fact that through the guaranteed lent money system, and other encumbrances the men were some £3,000 in arrears. The lead trade has certainly fallen to a low ebb, and if it has to keep at all a trade, something will have to be done in the way of cheap transits, or other means to keep pace with foreign markets. As far as Weardale is concerned, both the lead and Iron trade may expect some little help from the projected Weardale railway, which in due course will be brought before the public. It is the intention of Mr Hopkins to survey the line this spring, and the Lead Company having the interests of the mines in view will undertake to manipulate the preliminaries. It is the intention to survey a branch line from Eastgate to Rookhope, so as, if practicable, the Weardale lead could be transmitted by rail to their Rookhope smelting mills; and in all probability a branch line will be surveyed to Killhope mines. In surveying the line, the object of the transit of lead to the mills and markets from the mines will be kept in view. The transit of iron would no doubt greatly help the iron trade. The Weardale Iron and Coal Company's iron mines are well known in the locality, and owing to the great expense of transit to their furnaces at Tow Law and Tudhoe, the mines would not be worked but for the excellent quality of the iron.

28th February 1885 (Hexham Herald)

WEARDALE

The following is a report of the Weardale mines by James Blenkiron Esq., head agent:

Grove Rake: The tribute pitches in this mine are looking prominent throughout, and a decided improvement has taken place since the beginning of the quarter; the stope below Wallace level is worth fully 2½ tons per fathom. We have arranged with four men to make a rise from Wallace level to surface where we hope to lay open some payable stoping ground. In Red vein we are making better progress, having six more men in end to keep level going constantly. **Brandon Walls and Nattrass Gill drift** is without change, end hard and vein narrow.

Killhope: A little better progress has been made last week at Killhope Head Sump. We have now increased partnership to 12 men.

Green Laws: In the cross vein of Jacksons level the men have completed their contract in main level, we have set them two fathoms more to drive then to rise to top drift; this will ventilate same and prove Quarry Hazel, and Great Limestone sills, in which we hope to meet some payable ore. Lowe's drift, West end is looking more kindly, more spar and rider *(un-mineralised rock),* and I hope soon to report an improvement of ore. Craig's and Bowe's pitches in said sill at a higher random and looking well; the former is worth 25, the other 30 cwt of ore per fathom.

Burtree Pasture: Burnhope the main level is now driven 20 fathoms; we have now a well defined vein with 2 feet slip or throw; the end is in plate *(Black shale; a slaty rock).* strong hazel, in roof of vein, about 12 inches wide, chiefly donk *(Donk Clay or soft earth, found in cross veins and flats)*, in which are nice pieces or stones of lead ore, and a little kindly spar. We purpose driving forward a few fathoms then sinking as the vein is strongest. In level sole we have a limestone sill a few fathoms below; indications promising. Lead is rather weaker, and there is scarce anything doing in shares which remain at nominal quotations. Weardale is quoted one to one eighth and the mines owned by the company are looking well.

7th March 1885 (Hexham Courant)

NENTHEAD

WORKMEN'S SUPPER

The Nenthead and Tynedale Lead and Zinc Company evinced their perfect appreciation of the faithful integrity of their workmen under their employ, and their deep interest in their happiness and welfare on the 20th inst., by inviting the workmen and their wives, tenants, and boys employed on the washing floors to a knife and fork supper provided in the Lead Company's school room.

... The perfect arrangements were carried out by Messrs Holmes, Bell, Goodburn, Bolton, Thompson and Raisbeck, who found that there had been enough and to spare, after upwards of 600 had done ample justice to the good things provided.

At the parish church, Flint, 7th inst., Mr J. W. Carr late of Cowshill to Miss Monkhouse, Heathery Cleugh, Weardale.

21st March 1885 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

Doctor Wallace's report (No 2 district) for the past two months showed that there had been 11 births and 3 deaths. Scarlet Fever of a mild type was prevailing at the present time in one or two houses; disinfectant had been freely used and he did not predict any further spread of the disease.

Dr Masterton of Nenthead appointed Medical Officer of No. 2 district after the next year. *(This choice was made as Dr Wallace lived in Alston rather than Nenthead)*

Deaths

At Overwater, Nenthead, 18th inst, aged 25, Mary Ann Walton.

In 1841, at Bloomsbury, Nenthead, Robert Walton, lead miner, aged 58, his wife Ann 50, children William, lead miner, aged 27, Robert, lead miner, aged 25, Caleb 15, Margaret 13, Sarah 12, and George 9.

In 1851, at Low Dykeheads, Ann Walton, lead miners widow, aged 58, children William, lead miner, aged 37, Robert, lead miner, aged 35, Caleb, lead miner, aged 26, Margaret 24, Sarah, dressmaker, aged 22, and George, lead miner, aged 19. In 1861, at Low Dykeheads, Ann Walton, widow, aged 69, son William, lead miner, aged 47, daughter Sarah, dressmaker, aged 33, and grandson John Erwine 6. In 1871, at Overwater, Nenthead, George

Walton, lead miner, aged 39, his wife Ann (Ridley, born Allendale, married 13th May 1858, at Ninebanks) aged 48, children Mary Ann 11, Elizabeth 9, and Robert Ridley 5.
Ann Walton died in 1879, aged 56.
In 1881, at Overwater, Nenthead, George Walton, widow, lead miner, aged 49, children Mary Ann, house maid, aged 21, Elizabeth, general servant domestic, aged 19, and Robert Ridley, lead ore washer, aged 15.
George Walton died 2nd quarter 1884, aged 52.

11th April 1885 (Hexham Herald)

WEARDALE

The marriage of Mr John Waugh, Aller Cleugh to Miss Annie Leah Rumney, eldest daughter of the late Mr Rumney, for many years Mr Beaumont's agent at Newhouse took place at St John's Chapel on Sunday morning last. Miss M. J. Rumney being the bridesmaid.

The Weardale miners took their quarters bargains at Newhouse on Monday, some of them at a reduction.

STANHOPE, FATAL ACCIDENT

On Monday last an accident occurred at the Jack Craig limestone quarries of Bell Brothers, whereby a young man named Jonathan Dodds lost his life. It appears he had got off the engine when in motion for the purpose of turning the points and crossed in before the engine to do so. The points however, did not go close, and he took his foot to make them do so, when his trouser bottom caught the points and became entangled. He threw himself down in order to clear the engine, which was coming upon him rapidly, but in doing so his leg was across the metals. The engine driver seeing his perilous position at once reversed his engine, but it was too late, and the wheel passed over his leg crushing and mangling it fearfully. He was at once conveyed home and Dr Livingstone, of Stanhope and Hood, of Tow Law, amputated the mangled limb below the knee. The poor fellow died the same evening from loss of blood and shock to the system. Deceased was the son of Mr Jonathan Dodd, clock and watch cleaner, Front Street, Stanhope, (22 years of age).

14th April 1885 (London Gazette)

HAREHOPE GILL MINING COMPANY LIMITED.

AT an Extraordinary General Meeting of the Members of the above-named Company, duly convened and held at the Douglas Hotel, Grainger street, Newcastle-upon-Tyne, in the county of Northumberland, on the 11th day of March, 1885, the following Special Resolutions were duly passed; and at a subsequent Extraordinary General Meeting of the Members of the said Company, also duly convened and held at No. 9, Dean-street, Newcastle-upon-Tyne, on the 26th day of March, 1885, the following Special Resolutions were duly confirmed

1. "That this Company be wound up voluntarily.
2. "That Mr. G. E. Macarthy be appointed Liquidator; that the powers of the Liquidator be such as are included in the Limited Liability Act, 1862, except as to section 161, and that the remuneration of the Liquidator shall be at the rate of twenty per cent, on the amount which may be returned to the Shareholders, exclusive of all costs, charges, and expenses properly incurred."

Henry Wilson, Chairman

18th April 1885 (Hexham Herald)
Deaths
Bridge End, Allendale Town, 12th inst., aged 49, John Martin, Blacksmith.
Rice Head, near Alston, 12th inst., aged 84, Robert Blair, *farmer,* formerly of Allendale.

24th April 1885 (Newcastle Courant)
THE BURNHOPE LEAD MINE
The report from the Burnhope lead mine, is of a cheering character. The north and south vein has been cut rich this week in new ground, and, as far as worked upon has every appearance of opening into a large course of rich ore, as was the case in the top sills further south. The low level has been driven in the same vein through sixty fathoms of ore ground during the time the dressing machinery has been in the course of erection, and which is now complete and works splendidly; and large reserves of productive ground will at once be taken away, and increased returns of lead ore sent to market.

25th April 1885 (Hexham Courant)
THE GREEN HURTH LEAD MINING COMPANY
The annual general meeting of the shareholders of the Green Hurth Lead mining Company Limited, was held at the company's offices, 25 Westgate Road, Newcastle on Tuesday, Mr J. C. Swan presiding. The report stated: "The accounts show a profit on the year's workings of £3,288 15s 5d. This together with the balance, £869 18s. brought forward from last year's account shows a sum of £4,153 13s 5d to credit of profit and loss. Of this £3,200 had been absorbed in payment of dividends. It is proposed to appropriate £88 15s 5d to depreciation, and to again carry forward £869 18s to next years account. In view of the extremely low prices of lead, which have ruled throughout the year, the shareholders will doubtless consider the financial results satisfactory. The mine continues good, the production of lead ore during the year having been somewhat in excess of the output during the previous year. A fair amount has been expended in works of exploration, and some good ore ground has been opened in the northern portion of the mine. An opening level is also being driven eastward with the object of reaching, under favourable circumstances, the vein known as the Bodder Men Vein, and which was rich in some workings, some time ago abandoned in consequence, as is reported, of deficient ventilation. As soon as a convenient point is reached a trial in the Whin will be made from the 47 fathom level, but until this trial is made it is impossible to say what prospects there may be of finding the lode to carry ore in this sill." The Chairman, in moving to adoption of the report said with regard to green Hurth it was very pleasant to be able to express satisfaction especially in times like present. They had every reason to be satisfied with their operations during the year. They had made a profit of £3,288 15s 5d and had disposed of £3,2090 in dividends. The dividend which had been paid was less by about 5s per share than previous year, but the reason of that was, as they all knew, that the price of lead had fallen considerably. In order that they might see exactly how that affected them, he would take the average prices during 1882 - 3 – 4. In 1882, they had sold their ore at £10 2s per ton; in 1883, £9 14s; and last year, £7 7s per ton, selling it at the mine. The difference between last year and the year before on the quantity actually sold, 1,198, or in round numbers, 1,200 tons, was really

£2,918, which was equivalent to about 9s per share, so that in respect to the general success of the company apart from the changes in value, they could not but say that the last year of the company had been probably the most successful they had had. The chairman explained some special features of the balance sheet, and then went on to speak of the present position of the company. He said the comments had been offered by people who had very little interest in the concern, and also by persons who had no interest in it whatever. Of the latter, he should take no notice, but regarding the former, he thought they were bound to give all the explanation they could, and justify their action, whatever it might be. They had to some extent pledged their production; a smelting company with which he had had to do had been quite willing in some cases to make an engagement with this company to take a certain proportion of their ore, and give them money and acceptance in advance, sometimes the one and sometimes the other; before they actually got it. Persons outside had supposed that this must be done at some cost to the company, but that had not been so, It had been of considerable advantage to the company, and had enabled them to force the prices up very considerably when they were selling to other people, and from his own knowledge, he was quite sure that they had on an average got 5s per ton more for the ore sold from Green Hurth. Sometimes they had forced the price up 10s per ton. The policy they were pursuing had been criticised and they had been told that they were taking all the ore out of the mine, and were leaving nothing but poverty for the future. That was an extraordinary statement, but it was also absolutely untrue. No later than last Friday he went through every working of the mine except one (No. 3 stope), and took with him the principle mining agent to the Nenthead Company, a man of great reliability and experience. He asked that gentleman to value each working, and whereas Mr Polglase gave them 17 tons, Mr Raisbecks' valuation came to 22 tons; so that at least they had the satisfaction of knowing that their agent was not overvaluing the workings, and that the workings themselves were rich and valuable. He had been to Green Hurth many a time and he did not think he had ever seen a richer working than No. 3 stope. Mr Polglase put it down at six tons per fathom, and Mr Raisbeck eight to nine tons to the fathom, and said it was as fine a mine as anyone could possibly desire to see. It might be supposed from the way in which they had been commenced upon that they were doing nothing in the ay of development. They had thirty-five pickmen employed, and ten of these were working on exploration. That was not a small proportion of the labour employed in extraction. Their development was in three directions. They had a development to the northeastward, in very rich ground, and they had another working to the nature of a development in the Whin below their feet. The third development was from a point known as Robinsons Sump, which had been thought barren; but Captain Polglase had now investigated the district with success. It looked as if they were going to add another to what was originally their mining ground.

The report seconded by Mr Mitford was adopted, after several questions put by Mr Winship, Mr Pritchard and others had been answered. Captain Polglase said he would advise them not to be cajoled out of their shares; they should stick to the mine, because he believed it could do well.

The retiring directors (Messrs J. C. Swan and D. Fraser) and the auditors (Messrs Holmes, Spence, & Co.) were re-elected, and a vote of thanks to the chairman for presiding, terminated the meeting.

25th April 1885 (Hexham Herald)

ALLENDALE

Death of Mr John Shield Dickenson, the well-known local artist which took place on Wednesday night at Allendale Town. … had achieved for himself a high reputation as a portrait painter. He was 32 years of age he leaves a widow and one child. *(Died 22nd April).*

WEARDALE

The trade in Weardale is now at unprecedentedly low ebb, the mines being very poor and necessitating the lessees to withhold the guarantee of lent money. Upwards of 100 miners are now exploring on their own responsibility. Hence, much poverty exists. Unfortunately, the new trials at Burnhope and Groveheads are also failures. Ironstone is in very poor demand Wearhead being laid in, and the company's other mines working half time.

2nd May 1885 (Hexham Courant)

Deaths

At North Orillia, America, 5th ult., aged 35, Sarah the wife of Thomas Swindle and daughter of John Lattimer of Nenthead.

Matthew Lattimore married Sarah Havelock 28th June 1818, at St Augustines, Alston. Matthew Lattimer died 2nd quarter 1839, registered at Alston.

Marriages

At Alston Primitive Chapel, 2nd inst. Henry Ridley of Newcastle to Frances M. Hetherington, Nenthead.

Deaths

At Alston, 5th inst., aged 72, Barnfather Phillipson, miner.

Parents Jane Barnfather, and John Phillipson, married 22nd December 1791, at Alston.

In 1851, at Kate's Lane, Alston, Barnfather (George crossed out) Phillipson, lead miner, aged 37, his wife Ann aged 43, daughters, Mary 4, and Jane 2.

In 1861, at Crown Lane, Alston, George Phillipson, lead miner, aged 48, and daughter Jane, aged 13.

In 1871, at Butts, Alston, Barnfather Philipson, coal miner, aged 58, his wife Sarah (Beadle, married 1868) aged 42, and step daughter Mary H. Beadle, aged 13. In 1881, at Butts, Alston, Barnfather Philipson, coal miner, unemployed, aged 68, and his wife Sarah aged 52. See 4th August 1888.

13th May 1885 (Teesdale Mercury)

LONDON LEAD (COMPANY'S MINES IN TEESDALE. — We are glad to say that the new system introduced by this company amongst their workmen some time ago, and which may he said now to have had a fair trial, is giving general satisfaction. The men are paid in total, monthly, instead of, as before, giving "sub" each month to the end of the quarter, when they were paid in full. The bargains, as a matter of expediency, are still let quarterly to the miners.

NEWBIGGIN, TEESDALE.

Terrible Accident at a Wedding. —On Saturday, a sad accident occurred during wedding festivities at Newbiggin, near Middleton-in-Teesdale. A couple belonging the village had been to Barnard Castle to be married, and returned during the afternoon, when the neighbours, as is usual in country districts, turned out to give them a welcome. During the course of this a miner, named William Temple, fired a dynamite cartridge, when by some means another one he held in his hand caught fire and exploded, completely taking off his hand and setting fire to some other cartridges in his pocket, which also exploded, mutilating him in a frightful manner, Dr. Horsfield was immediately in attendance, and did all that was possible for the relief of the sufferer. Great sympathy is manifested for the young man, who is esteemed for his kind and genial disposition. He remains in a very precarious state, we are sorry to say, and not much hope is entertained of his recovery.

16th May 1885 (Hexham Courant)

STANHOPE

On Saturday a fatal quarry accident occurred at Parson Byres Limestone quarry at Stanhope. Whilst William Hodgson was engaged in working a fly-tip, where boring was brought from the top of the quarry by horse and waggon he appears to have fallen when near the tip end, and the wheel of the laden waggon had

caught his arm on the metal and had run up the arm to the shoulder crushing it fearfully. Medical aid was procured but the unfortunate man died a few minutes after Dr Livingstone arrived. Deceased was a strong young man aged 26 years and son of Mr John Hodgson of Parson Byers, formerly of Westgate, Weardale.

WEARDALE

THE WEARDALE LEAD MINING INDUSTRY

Lead mining in the valley shows signs of increasing development, especially in the Rookhope district, where many additional workmen have been placed; while overtures are being made to the Weardale Iron Company by the mining company for the purchase of an old building to be immediately renovated for the reception of a further contingent of nearly 100 men and boys.

20th May 1885 (Teesdale Mercury)

THE FATALITY AT A TEESDALE WEDDING. —On Friday, in the school-room, Newbiggin, an inquest was held into the circumstances attending the death of William Temple, lead miner, who died from injuries inflicted by the explosion of dynamite cartridges on Saturday. After formal evidence had been taken, to allow of the burial of the body, the inquest was adjourned until the 22nd inst., so that in the meantime the Home Secretary could be communicated with on the subject. The interment took place on Friday last, when the mortal remains of the deceased were followed to the churchyard at Middleton-in-Teesdale, by a large number of sorrowing relatives, friends, and fellow workmen, the burial service being gone through in a most solemn and impressive manner by the Rev, J, Milner.

Deaths

Allendale Sipton Terrace, 14th inst aged 9 years Laura Ann Bright.

See 2nd June 1888

27th May 1885 (Teesdale Mercury)

THE FATALITY AT NEWBIGGIN.

The adjourned inquest upon the death of William Temple (particulars of which melancholy event we published last week) was held on Friday, before Mr Coroner Dean. At the outset the Coroner read a letter, which he had received, from the Home Secretary, who had considered the case, and did not, under the circumstances, think there was any necessity for the attendance of one of Her Majesty's inspectors of explosives. Mr Dean, therefore, continued the inquiry.

William Gibson, blacksmith, the first witness called, said that on the 9th inst. he saw the deceased standing on the bridge with two balls of dynamite in his right hand. He noticed him put the balls in his left hand, strike a match, and light the fuse of one ball. He then threw it into a field, placing at the same time his left hand, containing the other dynamite ball, on his left side. The dynamite that had beer thrown into the field exploded first, and was followed immediately by another explosion. Witness then saw deceased fall to the ground, and afterwards to partly raise himself up and shout, "Oh, man; oh, man." He rushed up to him, but noticing his hand blown off, and the terrible injuries to the side, he "could not, bear the sight, and returned to the shop. A young man named Joseph Cameron was near to deceased when the explosion occurred, and he, too, was thrown to the ground by the force of the explosion, but was not injured.

Other people went at once to deceased's assistance, and had him removed home. Witness saw him twice after the accident, and he told him he did not fire both balls by the match, and could not say how the accident occurred. It had been the custom for fifty years to fire explosives at a wedding. Deceased was perfectly sober.
Joseph Cameron, leadminer, said he was within two yards of deceased when the explosion occurred, and by its force was himself hurled to the ground. He was not hurt, but frightened at the time, so he got up and ran off to give an alarm.
Jacob Temple, brother of the deceased man, said his brother had been accustomed to use dynamite for ten or twelve years in the mines, and well knew the dangerous nature of the explosive.
The Coroner then read over the Medical Officer's deposition, showing that the unfortunate man's left hand had been blown off, besides the left side and a portion of the hip hone blown completely away, was conscious up to the time of his death. As to cause of death, the Coroner said there could be no doubt but that it was due to the terrible injuries he had received by the explosion. He expressed condemnation of a custom carried on with so great a risk to life, and hoped it would be discountenanced in the future.
The Jury, without any deliberation, returnee verdict of "Accidentally killed."—Superintend, Thompson, of Barnard Castle, conducted the case on behalf of the police.
William Temple was buried at St Mary the Virgin, Middleton, 15th May 1885.
Henry Temple married Jane Beadle (father William) 8th July 1848, at Middleton-in-Teesdale.
In 1861, at Newbiggin, Henry Temple, lead miner, aged 39, his wife Jane 34, children, John, lead ore washer, aged 11, Sarah 9, Jacob 7, William 6, Henry 3, and Annie 2.

Henry Temple was buried 26th May 1869, aged 48, at St Mary the Virgin, Middleton.

In 1871, at Newbiggin, Jane Temple, widow, aged 44, children, John, lead miner, aged 21, Sarah 19, Jacob, lead ore dresser, 17, William, lead ore dresser, aged 16, Henry, lead ore dresser, aged 13, Annie 11, Joseph 9, Leonard 7, and Margret 5.
In 1881, at Newbiggin, Jane Temple, widow, aged 55, children, John, lead miner, aged 31, William, coal miner, aged 26, Annie 21, Joseph, Joiners apprentice, aged 19, Leonard, lead miner, aged 17, and Margret 15.
In 1891, at Newbiggin, Jane Temple, widow, aged 64, sons John, farmer, aged 40, and Henry, lead miner, aged 32.
In 1901, at Newbiggin, Jane Temple, widow, aged 74, sons John, whinstone quarryman, aged 50, Jacob, whinstone quarryman, aged 47, and Henry, General Cartman, aged 43.

30th May 1885 (Hexham Courant)
Marriages
At Alston Primitive Methodist Chapel, 16th inst., Julian Spencer Bell to Miss Sarah Millican both of Garrigill.
In 1841, at Beldy, Albany Bell, lead miner, aged 35, his wife Hannah aged 35, children Hannah 12, James 10, Albany 6, John 4, and Isaac 1.

Albany Bell died 3rd quarter 1841.
In 1851, at Lane Head, Hannah Bell, widow, aged 45, children James, lead miner, aged 20, Albany, lead miner, aged 16, John, lead miner, aged 14, and Margaret 9.
In 1861, at Loaning Head, Mary Shield, lead miners widow, aged 65, son in law James Bell, lead miner, aged 30, married daughter Hannah (Shield, married 22nd October 1857, St John, Garrigill) aged 27, and grandsons Julian S Bell 2, and Havelock Bell 7 months.
In 1871, at Loaning Head, Mary Shield, lead miners widow, aged 76, married daughter Hannah Bell, lead miners wife, aged 36, grandsons Julien S Bell, lead ore washer, aged 12, and Havelock Bell 10.
James Bell died 1st quarter 1881, aged 49.
In 1881, at Lane Head, Hannah Bell, widow, farmer of 35 acres, aged 48, sons Julien S. lead miner, aged 2, Havelock, lead miner, aged 20, daughter Annie E. 7, and mother Mary Shield, widow, aged 85.
In 1881, at Garrigill Gate, Henry Millican, farmer of 90 acres, aged 47, his wife Hannah 47, children Thomas A. 23, Sarah 20, John W. 18, Elizabeth E. 14, Mary H. 9, and George N. 6.
In 1891, at Bridge End, Garrigill, Julian S Bell, lead miner, aged 32, his wife Sarah 30, sons James S 4, and Alvin E 4 months.
In 1901, at Bridge End, Garrigill, Julian Spencer Bell, lead miner, aged 42, his wife Sarah 40, sons James Stanley 14, and Alvin Emile 10.
In 1911, at Wearhead, Stanhope, Jullien S Bell, retired lead miner, aged 52, his wife Sarah 50, and son James Stanley, bootmaker, aged 24.
In 1911, Alvin Emile Bell, aged 20, working as a labourer at NER depot, is boarding at Bell Street, Bishop Auckland.
Julien S Bell died 2nd quarter 1911, aged 52.

Deaths

At Physic Hall, Alston, 22nd inst., aged 50, Edward White, miner.
In 1841, at Butts, Alston, Samuel White, lead miner, aged 41, his wife Elizabeth 38, children Nancy 18, Fenwick 13, John 12, Elizabeth 10, Samuel 8, Edward 6, Hannah 4, and Matthew 1 year.
In 1851, at Kate's Lane, Alston, Samuel White, lead miner, aged 51, his wife Elizabeth 49, children Fenwick, lead miner, aged 23, John, lead miner, aged 22, Samuel, lead miner, aged 18, Edward, lead miner, aged 16, Hannah 14, Matthew 11, Thomas 9, Sarah 9, and Charlton 7.
See 14th January 1870
In 1861, at Butts, Alston, Edward White, lead miner, aged 26, his wife Sarah (Coats, married 1st quarter of 1859) aged 21, son John E. 1 year, and servant Ann Coates, aged 25.
In 1871, at Snowdon's Buildings, Alston, Edward White, lead miner, aged 37, his wife Sarah 31, children John E. 11, Lewis F. 3, and Naomi 1 year.
Sarah died 3rd quarter 1873, aged 34.
In 1881, at Physic Hall, Alston, Edward White, lead miner, aged 46, his wife Mary (Millican, married 1876) aged 52, sons John E. lead miner, aged 21, and Lewis F. 13 years.

30th May 1885 (Hexham Herald)

WEARDALE

During the present week the directors of the Weardale Lead Company visited each of their mines. The works at Grove Rake, Rookhope are going on very briskly and in the course of a few weeks there will be quite a change in the lead mining industry of that neighbourhood.

ALSTON

Death of the Market Keeper.

Mr Edward White who for a number of years acted as collector of tolls on market and fair days at Alston died somewhat suddenly at his house at Physic Hall on Friday evening the 22nd inst.

See 30th May 1885 above & 25th November 1876

1st June 1885 (Northern Echo)

SUPPOSED DEATH FROM THE USE OF DYNAMITE. —On Saturday, a miner named John Dawson, Wearhead, died of apoplexy. A few days ago deceased who had often complained of faintness arising from inhaling the fumes of dynamite used in the lead mines, was seized with a fit, which completely prostrated him rendering him unconscious. In that state he lingered till death ensued. The medical men in the district are unanimous in their opinion that the use of dynamite tends to produce this malady, which has carried off several miners.

Emerson Dawson married Mary Featherstone 1st May 1828, at Heathery Cleugh
In 1841, at Burnhope, Stanhope, Emerson Dawson, lead miner, aged 40, his wife Mary 30, children, John, lead miner, aged 12, Jane, 10, Emerson 6, Mary 4 and Hannah 1. Emerson Dawson died 4th quarter 1849, at Weardale.
In 1851, at White Hills, Heathery Cleugh, Mary Dawson, widow, aged 40, children, John, lead miner, aged 22, Jane 20, Emerson, lead miner, aged 16, Mary 15, Deborah 9, and Stephen 7.
In 1851, at Stonedrass, Wearhead, John Dawson, lead miner, aged 23, his wife Mary (Harrison, married 2nd quarter 1850) 24, children, Joseph 4 months, and Phebe Emerson, 1.
In 1861, at High Green, Heatherycleugh, John Dawson, lead miner, aged 33, his wife Mary 34, children, Pheobe Emerson 11, and Ralph 2.
In 1871, at Wearhead, Stanhope, John Dawson, lead miner, aged 43, his wife Mary aged 44, and son Ralph 12.
In 1881, at Wearhead, Stanhope, John Dawson, lead miner, aged 55, his wife Mary 56, and granddaughter Lavinia Emerson, aged 5.
Mary Dawson died 3rd quarter 1882, aged 56.

Dynamite Fume characteristics

The gases produced by the detonation of an explosive consist mostly of non-toxic carbon dioxide, nitrogen and steam. However, small amounts of toxic gases are also produced, the main ones being carbon monoxide and oxides of nitrogen.

a) Carbon monoxide (CO)

Carbon monoxide is produced by incomplete combustion of carbonaceous material. Some properties are:

- *extremely toxic - 0.1% collapse, 1% immediate death*
- *colourless, odourless, tasteless*

b) Oxides of nitrogen

The oxides of nitrogen are nitric oxide (NO), nitrous oxide (N2O) and nitrogen dioxide (NO2). Of these, nitrogen dioxide is the most toxic. The gas dissolves readily in the water in eyes and lungs to form both nitrous and nitric acids which cause irritation and, at higher concentration, corrosion of the eyes and respiratory system. At a concentration in the air of 100 ppm, coughing may commence and a concentration of 200 ppm is likely to be fatal. (McPherson, M. J., Subsurface Ventilation and Environmental Engineering, Chapman and Hall,1993.)
Source: EXPLOSIVES: PARTHA DAS SHARMA
http://miningandblasting.wordpress.com/

Exposure to Dynamite may cause:

- *Headache*
- *Decreased blood pressure*
- *Dizziness*
- *Nausea*
- *Palpitations*
- *Cramp*
- *Dilation of pupils*
- *Profuse sweating*
- *Disorientation*
- *Vision disorders*
- *Methemoglobinemia, which decreases the blood's ability to release oxygen to the tissue cells, this can give the blood a bluish or chocolate-brown colour; and results in symptoms such as dizziness, drowsiness, headache, seizures, shortness of breath, blue skin and lips, rapid heart rate, unconsciousness, and possibly death.*

Nitroglycerin is a vasodilator and has been associated with acute episodes of angina pectoris, myocardial infraction, and sudden death.

6th June 1885 (Hexham Courant)
Deaths
At Donk Hall, Nenthead, 2nd inst., aged 9 months, John son of Robert Doyle, lead miner.
In 1871, at Whitehall, Nenthead, John Doyle, lead miner, and Methodist local preacher, aged 38, his wife, Rachel (Elliott, married 1st quarter of 1857) aged 37, children Robert, lead ore washer, aged 14, Henry 8, Hugh 1, and visitor Thomas Indian, shoe maker, aged 14.
In 1881, at Whitehall, Nenthead, Robert Doyle, lead miner, aged 24, and his wife Ann (Graham, married 1st quarter of 1881) aged 25.
In 1901, at Donks Hall, Nenthead, Robert Doyle, lead miner aged 44, his wife Ann 45, daughters Rachel, dressmaker, aged 20, and Jane 18.
At Overwater, Nenthead, aged 1 year, Roddam, son of James Dickinson, lead miner.
In 1871, at Fair View, Nenthead, James Dickinson, lead miner, aged 53, his wife Maria 60, children William, lead miner, aged 28, James, lead miner, aged 24, John, lead miner, aged 22, and servant Isabella Gray aged 20.
In 1881, at Overwater, Nenthead, James Dickinson, lead miner, aged 34, his wife Ann (Ann Watson married Barron Dryden 5th February 1871, Barron Dryden died 26th April 1876; Ann Dryden married James 3rd quarter of 1878)

aged 31, son James Dickinson 1, step sons Caleb Dryden 9, and Robinson W. Dryden 6.
In 1891, at Overwater, Nenthead, James Dickenson, lead miner, aged 44, his wife Ann 41, step sons Caleb Dryden, lead miner, aged 19, Robinson Watson Dickenson, lead ore washer, aged 16, children James Dickenson, 11, Maria Dickenson, 9, Sarah Jane Dickenson 4, and Mary Ann Dickenson 7 months.
In 1901, at Overwater, Nenthead, James Dickinson, widow, lead miner aged 54, daughters, Maria, 19, Sarah J. 14, and Mar A. aged 10.
Ann had died in the first quarter of 1901, James died in the 2nd quarter of 1911.
In 1901, Caleb Dryden, aged 29 is living at 10 Winship Terrace, Byker, with his wife Mary J. (Thompson married 4th quarter 1897 at Alston) aged 23, and their daughter Jane A. aged 2, Caleb is working as a platelayer, railway. In 1901 Robinson W. Dryden, aged 26, is working as a coal miner, (hewer), at Red Grove, Ryton with his wife Elizabeth aged 34.
In 1901 James Dickenson junior, aged 21, is unmarried and living at East Thickley, New Shildon, working as a joiner for North Eastern Railway.
See 17th November 1868, 11th February 1871, 29th April 1876, 3rd August 1878 and 20th June 1885.

6th June 1885 (Hexham Herald)

WEARDALE

A painful sudden death occurred this week at Wearhead namely that of Mr John Dawson Lead Miner, in the employ of the Weardale Lead Company. On Monday, last Mr Dawson was at work in his usual health, but on Tuesday complained of a headache, and took to his bed on Wednesday. On Friday morning he had severe apoplectic fits and expired about three o'clock on Saturday morning, not withstanding all that medical skill could do. It appears that the air in the mine where he worked had been very bad and hot.
In 1851, at Heathery Cleugh, John Dawson, lead miner, aged 23, wife Mary 24, son Joseph 4 months, and Phebe Emerson 1.
In 1861, at High Green, Heathery Cleugh, John Dawson, lead miner, aged 33, wife Mary 34, daughter Phoebe Emerson 11, and son Ralph 2.
In 1871, at Wearhead, John Dawson, lead miner, aged 43, his wife Mary 44 and son Ralph 12.
In 1881, at Wearhead, John Dawson, lead miner, aged 55, his wife Mary 56, and granddaughter Lavinia Emerson 5. In 1881 Phoebe was working as a domestic servant for Tinniswood Dawson and his family (Draper, aged 36) at St John's Chapel.

WEARDALE LEAD

Satisfactory progress is being made here, with encouraging indications lead is from £11 7s 6d to £11 12s 6d.
The War Office bought 1,000 tons of pig lead this week at £11 5s per ton in lots of 250 tons from the London Lead Company, Pontifex, Wood and Co, Enthoven and Co., and Lock and Co.

Deaths

Stonecroft Mines, near Newbrough, 1st inst. aged 27, John Waugh youngest and beloved son of Nicholas Waugh.
In 1871, at Wentworth Place, Allendale, Hannah Waugh, labourers wife, (Fairlamb, married 7th August 1847, at Allendale) aged 41, children Ann 21,

John 13, Mary J 10, Hannah 7, Margaret 1, and grandson Abraham S Waugh 5. Nicholas Waugh was at Leadgate, Durham, labourer, aged 53.
In 1881, at High Stonecroft, Nicholas Waugh, cartman, aged 64, wife Hannah 50, children John, winding engineman, aged 23, Hannah, dressmaker, aged 17, Margaret 11, Rachel 9, and grandson Adam S. Waugh, general cartman, aged 15.
Pendleton, Manchester, Fitzwarren Street, 30th ult. aged 58 Margaret wife of James Richardson third daughter of the late Mr James Dixon of Alston, Cumberland.
In 1871, at Kirkoswald, James Richardson, engine driver at bobbin mill, aged 43, his wife Margaret 44 (daughter of James & Ruth Dixon, James a Merchant Tailor), children Mary Ann 11, Ruth 9, Frances M 7, Agnes S 4, and William H 1 year.
In 1881, at 23 Knightley St., Manchester James Richardson, born Kirkoswald, Engine tester, aged 52, his wife Margaret aged 53, and daughter Hilda H. aged 8 years, born Kirkoswald. In 1891, at Town End, Kirkoswald, James Richardson, widower, aged 62, no occupation listed.

20th June 1885 (Hexham Courant)
Deaths
At Holme Foots, Nenthead, 15th inst., aged 48, Ann, wife of John Dryden, lead miner.
Caleb Dryden married Mary Watson 21st October 1819.
In 1841, at West Nenthead, Caleb Dryden, lead miner, aged 40, his wife Mary 35, children Nanny 20, Watson, lead ore washer, aged 15, Caleb, lead ore washer, aged 15, Mary 12, John 9, Jane 6, Barron 3, and Agness 5 months.
Caleb Dryden died 4th quarter 1844.
In 1851, at Donks Hall, Nenthead, Mary Dryden, lead miners widow, aged 51, children, Mary 30, Watson, lead miner, aged 28, John, lead miner, aged 19, Jane 16, Barron, lead miner, aged 14, and Agnes aged 10 years.
In 1861, at Overwater, Nenthead, John Dryden, lead miner, aged 28, his wife Ann 22, children Jonathan 3, and Barron 6 months.
In 1871, at Overwater, Nenthead, John Dryden, lead miner, aged 38, his wife Ann 33, children Jonathan, lead ore washer, aged 13, Barron 10, Mary 8, and Robinson 8 months.
In 1881, at Holme Foots, John Dryden, lead miner, aged 48, his wife Ann 44, children Jonathan 23, Mary 18, and mother Ann Thompson, lead miners widow, aged 78.
In 1891, at Overwater, John Dryden, widow, lead miner, aged 59.
John Dryden died 4th quarter 1896, aged 64.
See 23rd November 1844, 17th November 1868, 11th February 1871, 29th April 1876, and 6th June 1885.
At Holme Foots, Nenthead, 13th inst., aged 16 months John, son of Barron Dryden, lead miner.
In 1881, at Holme Foots, Nenthead, Barron Dryden (son of John & Ann, see above), aged 20, his wife Hannah (Barron, married 1879) aged 22, children Mary A. 1, and Jane 3 months.
In 1891, at West Nenthead, Barron Dryden, lead miner, aged 30, his wife Hannah aged 32, children Mary Ann 11, John 3, and Agnes 1.

In 1901, at Strellas Cottage, Barron Dryden, lead miner, aged 41, his wife Hannah 42, children John, lead ore washer, aged 13, Agnes 11, Barron 9, and Watson 3.
See 23rd November 1844, 17th November 1868, 11th February 1871, 29th April 1876, and 6th June 1885

20th June 1885 (Hexham Herald)

WEARDALE

The negotiations, which have been long going on between the Ecclesiastical Commissioner and Jas. Sparke Esq., have resulted in successful terms and the Iron mine at Wearhead will again resume work this week.
Report of J Blenkiron Esq. agent Weardale Lead Company:
Grove Rake: The tribute pitches are looking well, worth 32 cwt, 40 cwt, and 60 cwt per fathom; prospects promising.
Bolts Burn: There was no change in the Little limestone drift. The Coal sill drift is a little more kindly work 20 cwt per fathom.
Burtree Pasture: The tribute pitches in this mines are not payable. The prospects are a little brighter in Nattrass Gill drift east. Foremost length looking better our best workings are above.
Green Laws: There is not much change to note in general appearance of the tribute pitch. Our best workings are above Middle drift in Slatey Hazel sill. We have also discovered ore in an old working east where there is considerable length of whole ground. We purpose putting a rise in the same; this pitch is worth at present 25 cwt per fathom, the remaining pitches vary from 16 cwt to 22 cwt per fathom.

Deaths

Blagill Alston, aged 9 years Phoebe daughter of John Lowe, Coal miner.
In 1851, at Low Farnberry, Alston, Teasdale Lowe, lead miner, aged 52, his wife Margaret (Walton, married 23rd September 1832) aged 35, children Susan 12, Teasdale 9, Phebe 7, Thompson 4, and John 1.
In 1861, at Low Farnberry, Alston, Teasdale Lowe, lead miner, aged 65, his wife Margaret aged 47, children Eunice 23, Teasdale, lead miner, aged 18, Thomas, lead miner, aged 13, John, lead miner, aged 11, and William 5.

Teasdale Lowe senior died 1st quarter of 1867 aged 70.

In 1871, at Clitheroe, Alston, Margaret Lowe, widow, farmer, aged 59, children Teasdale, cart driver, aged 29, Thomas T. lead miner, aged 27, Phoebe, farmers daughter, aged 25, John, lead miner, aged 22, Joseph, cartman, aged 19, William 16, Sarah A. 8, and Thomas W. 6.
In 1881, at Middle Skelgill, Alston, John Lowe, carter, aged 30, his wife Mary A. (Spotswood, married 2nd quarter of 1873) aged 28, children Margaret 6, Phoebe 5, James T. 3, and Mary A. 1.
In 1891, at Skelgill, Alston, John Lowe, pitman and farmer, aged 40, his wife Mary Ann 34, children Margaret 16, James S. driver of pit pony, aged 13, Mary Jane 11, Minnie 9, John 7, Willis 4, Hugh 2, and Thompson 1 month.

See 21st August 1841, 4th June 1852, 17th November 1868, 28th June 1873, 25th March 1876, 27th May 1882, 4th April 1891, 3rd February 1894 and 29th August 1896.

26th June 1885 (Newcastle Courant)

ALSTON CHURCH BELLS,

The Alston Church bells are three in number, one in the parish church at Alston, one in the chapel at Garrigill, and one in the district church at Nenthead, The last being of recent date and small in size, will not require further notice. The history of the Alston Church bell takes us back to the year 1714, and to the mansion of the Earls of Derwent water at Dilston. Those earls were Lords of the Manor of Alston, and owners of a considerable property in that parish. When James, the third earl, succeeded to the estates of his ancestors he made some addition to Dilston. Hall. Among the fittings of the new portion of the hall was a bell, which bore the date 1714. In the year 1715 James took up arms against George I., the reigning Sovereign, and on the 24th February 1716, he suffered the penalty of death tor his rebellion. The Derwentwater estates were declared forfeited, and in 1734 they were settled upon the Greenwich Hospital, to which they now belong. Dilston Hall forthwith fell into a state of ruin, and in 1768 it was dismantled by the orders of Smeaton, the engineer who designed the Eddystone Lighthouse, and who was a member of the Commission appointed to manage the Greenwich Hospital estates. In 1767 the people of Alston resolved to rebuild the parish church. The old church, built probably when the parish was formed in 1154, was not only too small for the congregation, but was fallen into a bad condition. The times were favourable for rebuilding. The lead, mines were rich and the population was increasing. The yield of lead ore, the staple product of Alston Moor, was larger in 1767 than it had ever been before, amounting to 24,500 bings, which were sold for £77,160. The flourishing condition of the chief industry, the growth of population, and the need of more accommodation in the old church were no doubt the circumstances which led to the erection of the new and larger church which was re-opened for public worship in 1770, that is two years after the dismantling of Dilston Hall. A local tradition says that the Dilston Hall bell was sent to Alston and hung in the belfry of this new church. Several circumstances tend to show that this was the case. The bell now in use at Alston Church bears two dates, “1714, recast 1845.” The first of these dates coincides with the date of the addition made to Dilston Hall by James, the third Earl of Derwentwater. There are now lying on the second landing of the present church tower the remains of a clock which belonged to the Ratciiffes. Smeaton, the commissioner, by whose authority Dilston Hall was dismantled, was the architect for the church which was built in 1799-1770. He was also the chief mining engineer in Alston. The Nent Force Level—a work which cost £90,000—was designed by him. It seems highly probable then that he authorised the removal of the Dilston bell to Alston, Nothing is heard of the bell between the years 1770 and 1844. The 20th of June in the latter year was the wedding day of William Ewart, solicitor* (*sic*) of Wigton, Cumberland, and Hannah Bainbridge, daughter of Robert Bainbridge, solicitor, of the Loaning House, Alston. There were great rejoicings. The church bell was not only rung vigorously, but was struck with a hammer or hammers until it cracked. In 1845, it was sent to Newcastle by Mr Jacob Wilson of Alston House, where it was recast. This bell is 23 inches in diameter at the mouth and weighs 17 stone. In its present low position the sound is much deadened by the surrounding walls. When the tower shall have been completed and a proper belfry constructed it will again no doubt ring out as in the older time. It is rung at 8:30 on Sunday morning and before every service. It is also rung occasionally on wedding days.

It is tolled for deaths and at funerals. Age is indicated by the length of the “toll” sex by “knells ” quickly repeated after the “toll;” nine knells being for a man, six for a woman, and three for a child.
The Garrigill Chapel bell is 16 inches in diameter, and should, therefore, weigh about 1 cwt. It bears the dale 1764. It is hung in a cot on the western gable, and used for the same purposes as the Alston bell Garrigill is situated in the highest part of Upper Tynedale, where the dale is narrow and deep. Under favourable atmospherical (*sic*) conditions the sound of the church bell is borne on the breezy to a considerable distance, having been frequently heard by the shepherds on Tynehead Fell.
** William Ewart was a surgeon (Licentiate of the Royal College of Surgeons Edinburgh) not a solicitor.*

11th July 1885 (Hexham Herald)

WEARDALE

During the last week lead advanced from £12 10s to £12 15s and was excessively firm, and up to £12 was paid for immediate delivery of Spanish. At this price however, there are sellers over for early arrival...
The quarterly bargains were held at the Newhouse offices on Friday last, many being removed to Rookhope, as the work at that place is very flourishing.

11th July 1885 (Cumberland & Westmorland Herald)

THE POLLUTION OF LONGMARTON BECK.

The following report of the committee appointed to examine the works of the Dufton Fell Lead, Ore, and Barytes Company, Limited, was read by the clerk:—
"We, the undersigned guardians, having been deputed to inspect the Barytes Company’s Works on Dufton Fell, and to report thereon with reference to the alleged pollution of Longmarton Beck have to report that we visited the Works on the 25th June last. We examined ten settling pits through which the water, after its passage through the washing Mill runs before again joining the beck. We found the pits in good order. The water which at one time ran into and dirtied the stream is now diverted in another direction about 800 yards from the Works, sinks into limestone and does not again form a connection with the stream. We are satisfied that so long as the settling tanks are kept in the state in which we found them, no harm can arise from the water afterwards passing into the beck.
—(Signed), Henry Burns, John Irving, George Atkinson.
4th July, 1885.
—The CHAIRMAN considered the report a very satisfactory one, and this expression of opinion was endorsed by the members of the Authority who were present.

18th July 1885 (Hexham Herald)

WEARDALE

During the past week, a vein was cut in the cross at Killhope. It looks very well, with 9 inches of solid ore in top part of the hazel and plate, and the prospects are very good, and exceedingly promising. Lead which a short time ago, had fallen to £10 has likely been rising, and is now £13, with a further rise in anticipation. Ere long, there may probably be more doing in shares. Spanish supplies are checked, as the production in Spain in interfered with by the prevalence of Cholera in that country, and deeply as every one must deplore

the epidemic that is raging, and notwithstanding all the precautions adopted to stay the spread of the disease, we cannot reasonable expect that for the summer months, at least, supplies will come forward in the regular course from the Spanish mines. Lead is, so far, the only metal that has been influenced at all from this cause; but it is well to bear in mind that we look to Spain for supplies of other metals as well.

1st August 1885 (Hexham Courant)
Deaths
At Wellgill, Nenthead, 25th ult., aged 59, Mary wife of J. Richardson.
See 31st July 1886

8th August 1885 (Hexham Courant)
Deaths
At Yorkville, Toronto, America, 3rd July, aged 82, Rev James Wallace, Wesleyan Minister, late of Alston.
The only record for this period that is close to this information is the registration of deaths for York Co., Toronto which gives, James Wallis, died 7th July 1885, 78 years of age, gentleman, born Cumberland England, died of old age, religion Methodist, interred 13th July 1885.
In 1871, at Yorkville, Toronto, James Wallis, 64, born England, Wesleyan Methodist, Blacksmith, his wife Esther aged 51, born Quebec, Wesleyan Methodist, and Sarah 21.
In 1881 census gives, at Yorkville, James Wallis 73, his wife Esther Wallis 61.

8th August 1885 (Hexham Herald)

WEARDALE
THE DISCOVERY AT KILLHOPE

An engine is to be fixed with all possible speed, and arrangements have been entered into with Messrs Teasdale, engineers to have everything in working order in a few weeks time. The ground so far taken away and brought to surface seems nearly all lead, and it is expected by the old hands that this mine will again be one of the foremost in the Weardale group.

ALSTON
RURAL SANITARY AUTHORITY

The Medical Officers quarterly report for No. 2 District was read. 15 births and 15 deaths have been registered during the quarter ending June 30th on an estimated population of 2333; 15 deaths give a rate of 25.7 per 1000 per annum. Of the 15 deaths 9 were males and 6 were females, and of the 15 births 9 were males and 6 were females. Ages of death, one was under one year, 7 were at or under 5 years, none between 5 and 40 years, 2 were 40 and under 50 years, 1 was 50 and under 60 years, 2 were 60 and under 80 years, a 1 80 and under 90 years. Causes of death 5 died from Whooping cough with brain complications, 1 suddenly from convulsions, 2 from wasting diseases of children, 1 from pulmonary inflammation, 2 from diseases of the nervous system, 3 from decay and 1 from cancer of the stomach. Whooping cough has prevailed generally and with much severity. During the three months 5 have died from it alone, and this fact accounts for the high death rate. Scarlet fever of a mild type had broken out in Nenthead previous to my appointment. There were 3 houses affected, and the number of cases was eight. Since that time

the disease has spread chiefly through indirect communication to other five houses and there have been in all eighteen cases. Fortunately, no deaths have taken place all the cases having now fully recovered, and no fresh cases have been reported for more than two months, it may be verily hoped that the epidemic had ceased in the district. The affected houses had been thoroughly cleaned and disinfected. The houses in which the first cases occurred were so scant of accommodation that a system of isolation could not be carried out and consequently all susceptible to the virus were attacked. Were there some house provided in the district, which could be used as a hospital for isolating these infectious diseases at the beginning much could be accomplished in stopping the progress and spread.
The Clerk: I am informed that Scarlet Fever has again broken out at Nenthead.
The Relieving Officer: Yes there are two families have it at present.

ALLENHEADS

SUICIDE OF A MINER. John Bell a miner about 60 years of age residing at Dudley Place, Allenheads, committed suicide by drowning himself in a small brook in Middlehope in the Parish of Allendale on Thursday morning.

15th August 1885 (Hexham Courant)
Deaths
At Foulard, Nenthead, 2nd inst., Nora Isabel, and the 5th inst., Margaret, daughters of William and Elizabeth Bainbridge aged respectively 3 and 5 years, Scarlet Fever.
In 1871, at Low Grassfield, Joseph Bainbridge, lead ore smelter, aged 60, his wife Ann (Jackson, married 8th June 1839) aged 60, children William, lead ore smelter, aged 30, Isabella 26, Christopher, blacksmith, aged 24, and John, lead ore smelter, aged 18.
Joseph Bainbridge died 3rd quarter 1871, aged 60.
In 1861, at Wellgill, Richard Dawson, plate layer, aged 41, his wife Mary 40, children Elizabeth 14, James 9, Jane 6, Mary 2, and nurse child Isabella Millican 2 years.
In 1871, at White Hall, Nenthead, Richard Dawson, lead miner, aged 51, his wife Mary 50, children James, lead miner, aged 19, Jane 17, Mary 12, Ann 7, grandson John Joseph 2, and boarder, Isabella Millican, scholar, aged 12. Their daughter Elizabeth was working as a domestic servant in Alston.
Richard Dawson died 2nd quarter 1895, aged 75.
In 1881, at Low Grassfield, Nenthead, William Bainbridge, lead ore smelter, aged 40, his wife Elizabeth (Dawson, married 1872) aged 34, children John J. lead ore washer, aged 12, James 7, Mary A. 6, William 4, Elizabeth 2, and Margaret 1 year. In 1891, at West Nenthead, William Bainbridge, lead ore smelter, aged 50, his wife Elizabeth 44, children John Joseph, lead ore smelter, aged 22, James, lead ore smelter, aged 17, William, lead ore washer, aged 14, Elizabeth Jane 12, Christopher 7, and Ralph 5. In 1901, at West Nenthead, William Bainbridge, farmer, aged 61, his wife Elizabeth 54, children James, lead miner, aged 27, William, lead miner, aged 24, Christopher, lead ore dresser, aged 17, and Ralph, drapers assistant, aged 15. In 1911, at Nenthead, William Bainbridge, retired lead miner, aged 70, and his wife Elizabeth 64.
See 11th April 1874
At Nenthead, 11th inst. aged 42, Hannah wife of John Harrison.

In 1871, at Nenthead, William Harrison, lead ore smelter, aged 49, his wife Sarah (Liverick, married 3rd January 1847) aged 52, children Thomas, lead ore smelter, aged 22, and John, lead ore washer, aged 18.
William Harrison died 1st November 1889, aged 68.
In 1881, at Nenthead, John Harrison, lead ore smelter, aged 29, his wife Hannah (Pearson, married 1879) aged 36, and son William L. 1 year.
In 1891, at Pleasant Houses, Nenthead, John Harrison, widow, farmer & lead ore smelter, aged 38, and his son William L. aged 11. In 1901, John Harrison, at the Row Nenthead, John Harrison, lead miner, aged 48, his wife Hannah aged 42, and son Herbert aged 5.
John Harrison died 4th quarter 1909, aged 57.
In 1911, at Nenthead, Hannah Harrison, widow, aged 52, son Herbert, lead & zinc miner, aged 15, and boarder Thomas Coates, lead & zinc miner, aged 37.
See 5th December 1874, & 9th November 1889.

15th August 1885 (Hexham Herald)

ALSTON

Jos. Walton mining agent, Alston, was granted a draft licence to store 10 tons of dynamite at Galligill.

NENTHEAD

SCARLET FEVER.

This epidemic is now very prevalent in the village; there is at present upwards of a dozen cases. Two deaths have occurred during the past fortnight and fears are entertained that this contagious disease will spread still further. Up to the present, no one has been attacked above 15 years of age.

22nd August 1885 (Hexham Herald)

WEARDALE

The mines are opening up well. The Grove Rake section has cut rich, especially in Greenclough vein. A new lode has been cut in the 20-yard level in driving it in the Red mine.

12th September 1885 (Hexham Herald)

ALSTON

We observe from the Manitoban Newspapers … that Mr Charles A. Millican, son of Mr John Millican, who departed this neighbourhood some two years ago for Canada, whilst shooting in the competition at the Stoney Mountain Ranges, has brought himself well to the front. … Sergeant Millican's *(He had joined the 90th Regiment of Volunteers, Winnipeg)* score was ruled the best and he accordingly received the Associations silver badge. … he also made 26 in the Bankers and Lawyers competition.
See 6th March 1886, 21st April 1888, & 22nd February 1889

Deaths

Town Foot, Alston, 8th inst. 68 Joseph Spark.
In 1851, at Town Foot, Alston, Joseph Spark, lead miner, aged 32, his wife Agnes aged 32, and his wife's brother John Dickinson, lead miner, aged 30.
In 1871, at Town Foot, Alston, Joseph Spark, lead miner, aged 53, and his wife Agnes aged 53. In 1881, Alston, Joseph Spark, woodman, aged 64, and wife Agnes 64.

Marriages
At St Mark's Church, Ninebanks, 12th inst. Robert Bramwell of Garrigill to Mary (Polly) eldest daughter of the late Vipond Clementson of Chatt Hill, West Allendale.

26th September 1885 (Hexham Courant)
Marriages
At St Peter's Allendale, 22nd inst. William Henry, son of the late William Sparke of Allenheads Corn Mill to Margaret (Meggie) daughter of Joseph Coats of Allenheads.

26th September 1885 (Hexham Herald)
THE WEARDALE MINES
The gloom which has for sometime surrounded the enterprise of the Weardale Lead Company now shows signs of disappearing. In the hamlet of Rookhope, the main vein of ore, so long worked with success by the late lessee Mr W. B. Beaumont MP. at Grove Rake still yields fairly well, while recently another vein of zig zag formation, running almost parallel, has been tapped, and is now being worked. A large contingent of miners from the Company's other mines of Burtree Pasture, and Killhope have been drafted thither. At the last named mine (Killhope) the vein found by the sinking of the "sump" awaits the fixing of a powerful pumping and winding engine for developments. A similar successful mining experiment has been affected at Green Laws. During the late lessees tenure of these royalties a "sump" having been sunk out of the scar limestone, into another deeper bed of limestone, the vein was cut revealing an excellent sample of fluorspar mixed with ore.

30th September 1885 (Teesdale Mercury)
LEAD IN TEESDALE. —An important discovery of lead ore was made a few days ago at the "Hardshins" mine which adjoins the celebrated old mine called "Nether Hearth," on the river Tees. There are such a cluster of veins at this place that it cannot yet be said to a certainty which one it is called; but it is probably one of the veins formerly so rich at the Teeside mine. The vein is discovered in the Whin Rock, and is best setting down in the sole; it is worth *five* tons of ore per fathom, and is well mixed with the mineral called fluorspar—the true home of lead ore. —*Mining Journal.*

3rd October 1885 (Hexham Herald)
WEARDALE
James Blenkiron, Esq., reports: Killhope - There is not any change in the tribute pitches. We hope to get suspended stopes below Trent Level to work shortly. Greenlaws: - We have just pricked South cheek of vein, cut through 1ft thick of donk and rider, and broken into a kindly vein of good fluorspar, well mixed with ore of rich quality. I think the sinking under Quarry level when laid open will make Greenlaws a new mine. Grove Rake: - The end in middle drift East has proved a strong kindly vein, worth 20 cwts of ore per fathom. The Cross Cut (Middle drift) is down 21/2 fathoms; we have just struck another vein in the end, which we are not yet through, composed of strong fluorspar, worth, as far as proved 16 cwts of ore per fathom. From the present appearance this vein runs

by the side of Grove Rake vein, which we have been working, and I trust will open out considerable stoping ground. This is an important discovery. The tribute pitches are looking better than ever I have seen them, especially in the North Branch of Greencleugh Vein East, worth from 30 to 40 cwts per fathom.

10th October 1885 (Hexham Herald)

WEARDALE
LEAD MINES

The chief directors of the Weardale mines attended from London on Tuesday afternoon at Newhouse offices, and let the miners quarterly bargains on an increased basis of wages, also giving most of the men the full discharge of all arrears of lent money, in some cases £10 per man.
Messrs G. Richardson, Hopkins and Maxfield have visited each of the different mines. The engine at Killhope is now in full operation, drawing water very rapidly. The contractor (Mr Teasdale) left this locality this week. ...
Lead continues firm at £11 5s buyers of Spanish, and sellers at £11 7s 6d, but there is not much offering, and we quote English Pigs at £11 12s 6d to £11 15s per ton. ...

17th October 1885 (Hexham Courant)

Marriages

At the Wesleyan Chapel Nenthead, 7th inst., Garthwaite Hornsby to Sarah Jane Pattinson both of Nenthead.
See 24th April 1830, 19th December 1835, 13th February 1869, 1st May 1869, 31st December 1870, 6th September 1880, 1st April 1882, and 23rd February 1901.

Deaths

At Greenside, Ryton (at the residence of his sister), 7th inst., aged 30, suddenly William Walton of Bellinghurst, Sussex, the beloved husband of Lottie Walton, and only son of William Walton, formerly of Hudgill, Alston.
In 1851, at Whigelty, William Walton, lead miner, aged 47, wife Elizabeth (Parker, married 31st December 1829, Kirkhaugh) aged 44, children Hugh, lead miner, aged 24, Dorothy 15, Mary Ann 9, and William 7. In 1861, at Hudgill, William Walton, farmer of 40 acres, aged 59, wife Elizabeth 57, daughters Dorothy 23, Mary A. milliner, aged 19, and granddaughter Isabel Walton 2 years. In 1871, at Hudgill, William Walton, farmer of 39 Acres, aged 78, wife Elizabeth 67, daughters Dorothy 29, and Mary A 27.
In 1881, at Billinghurst, Sussex, William Walton, boot and shoe salesman, aged 38, his wife Charlotte aged 34, born Storrington, Sussex, and sister Eliza D'almaine, widow, aged 40, born Storrington, Sussex.
At Hundy Bridge, Garrigill, 13th inst. aged 2, Thomas Vipond, son of Lewis Joshua Herdman, miner.
In 1861, at Middle Houses, Garrigill, Thomas Herdman, lead miner, aged 39, his wife Hannah (Bell, married 26th February 1843, at St John, Garrigill) aged 36, children Mary 12, Friend 9, Thomas 7, Elizabeth 5, Lewis J. 2, and Margaret Z. 1 month.
In 1871, at Middle Houses, Thomas Herdman, lead ore miner, aged 50, his wife Hannah 46, children Isabella, dress maker, aged 24, Friend lead ore miner, aged 19, Thomas, lead ore miner, aged 17, Elizabeth, general servant, aged 15, Lewis J. 12, Margaret Z. 10, William E. 7, and Joseph W. 4.

In 1881, at Middle Houses, Thomas Herdman, widow, lead miner, aged 60, children Elizabeth, house keeper, aged 25, Lewis J. lead miner, aged 22, William E. lead ore washer, aged 17, Joseph W. lead ore washer, aged 14, and grandson Joseph W. Herdman 2.
Thomas Herdman died 2nd quarter 1890, aged 69.
In 1891, at Howgill Syke, Garrigill, Lewis Joshua Herdman, farmer, aged 32, his wife Mary (Swindle, married 1882) aged 27, children Johnie Friend 7, William 5, Alice 3, Sarah Hannah 9 months, brothers William Edwin Herdman, lead miner, aged 27, Joseph Walter Herdman, lead miner, aged 24, and domestic servant Frances Shield, aged 18.
See 8th July, 1876, 19th April 1884, & 23rd January 1892.

31st October 1885 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

Medical Officers report for No. 2 district was read. There were 7 births and 6 deaths during the quarter ending September 30th. The 6 deaths were all females and of the seven births, 5 were males and 2 were females. Ages at death, 3 were under 5 years, 1 between 40 and 50, 1 between 50 and 60, and 1 between 70 and 80. Causes of death, 2 were from Scarlet Fever, 3 from diseases of the respiratory organs, and 1 from heart disease. I regret to report the spread of Scarlet fever in the district during the past quarter. At the time of my last report there had been one case during the three months, and hopes were entertained that the disease had abated, but coincident with the very hot weather at the end of July, it broke out with renewed vigour, and showed itself almost simultaneously in four different houses. Since then 11 houses have been infected in which there have been 37 cases. With the 18 previously reported the number for the Nenthead district from the beginning of the outbreak amounts to 55 cases. Out of that number there have been 2 deaths, 1 aged one year and the other three years, so that on the whole the fever has maintained a mild type. Unfortunately the infection has now reached Garrigill and shown itself in two houses in each of which there are two cases. The houses stand isolated from the village, but the poison of this fever is so subtle and readily communicated, that if more than ordinary care is not taken thee is all probability if its further spread in that district.
It had spread to Garrigill due to a person from an infected house at Nenthead visiting friends in Garrigill.

Deaths

Garrigill 27th inst. aged 87 Elizabeth Holmes, widow.
In 1841, at Middle Craig, John Holmes, lead miner, aged 40, his wife Elizabeth (Wallas, married 22nd November 1821) aged 40, children Thomas 15, Elizabeth 14, John 12, Isaac 9, George 5, Isabella 4, and William 3.
In 1851, at Dodberry, Garrigill, John Holmes, lead miner, aged 52, his wife Elizabeth aged 52, children John, lead miner, aged 22, Isaac, lead miner, aged 19, George, lead miner, aged 16, Isabella 14, William 12, and Ann 8.
John Holmes died 1853 or 1854.
In 1861, at Dodberry, Garrigill, Elizabeth Holmes, widow, farmer of 28 acres, aged 62, children Isaac, lead miner, aged 29, George, lead miner, aged 26, William, lead miner, aged 22, Mary Craig, widow, domestic servant, aged 36, Hannah 14, and grandson, William Craig 11. Mary Holmes daughter of John

& Elizabeth christened at St John Garrigill, 6th February 1825; married William Craig 21st June 1849, at St John Garrigill. William Craig died 2nd quarter of 1852. In 1871,at Low Nest, Mary Craig, widow, seamstress, aged 44.
In 1871, at Dodberry, Garrigill, Elizabeth Holmes, formerly a farmer, aged 72, children George, lead miner, aged 36, William, lead miner, aged 32, and Hannah, general servant, aged 19.
In 1881, at Garrigill, Gate, Elizabeth Holmes, lead miners widow, aged 82, children, George boot & clog maker, aged 45, William, lead miner, aged 41, Isabella, domestic servant, aged 20.
Weardale Howl John Farm, 24th inst aged 95, Joseph Vickers, farmer.
In 1861, at Howl John, Joseph Vickers, farmer of 130 acres, aged 70, wife Elizabeth 60, children George, farmer, aged 37, Thomas, draper & grocer shop man, aged 32, John, farmer 29, William 12, Mary 26, Margaret 23, Elizabeth 19, and servant Stephen Robinson, carter, aged 19.
In 1871, at Howl John, Joseph Vickers, farmer of 132 acres, aged 80, his wife Elisabeth 70, son William 22, daughter Elisabeth 29, domestic servant Hannah Lee 24, and farm servant John Storey 23.
In 1881, at Howl John, Joseph Vickers, married, farmer, aged 90, (his wife Elizabeth aged 79, was visiting Joseph & Elizabeth Walton, at Albert Terrace, Stanhope, Joseph an auctioneer, & grocer aged 43, and his wife Elizabeth aged 39) son William, married, farmer, aged 31, daughter in law Margaret 25, granddaughter Emily Edith 8 months, domestic servant Margaret Hewitson 21, farm servant John Forster 17, and farm servant Thos Armstrong 16. In 1891, at Thornley Hall, Joseph Walton, farmer, aged 53, wife Elizabeth 49, son Joseph W. 9, mother in law, Elizabeth Vickers, widow, aged 89, visitor Lawrence W Vickers 9, farm servant Thomas Coulthard 25, and domestic servant Mary Fawcett 20.
See 17th December 1892

6th November 1885 (Newcastle Courant)
Below Eshgill the Tyne runs through the Crossgill estate, once the property of a lady whose name is at familiar as a household word in Alston Moor. Tradition says that Fanny Morrison (such was her name after marriage) was in her youth a "servant lass," and that a relative left her a share in the Hudgill Burn Lead Mine. A share in a mine which yields no ore is like the proverbial white elephant. Hudgill Burn was a “trial”, and all trials in mines are expensive. Fanny is said to have shared in the hopes and fears of other shareholders. She was often told that the signs were promising, that another yard or fathom might reach the ore, and then her fortune would be made, that the next " buck up” might be the last if she were only able to meet it. Fanny held on to her share, paid the call, and made her fortune. A rich deposit of ore was found, the richest, perhaps, that has ever been found in Alston Moor, which at that time was the richest lead mining district in the world. When Fanny became wealthy, her hand was sought by gentleman whose name was Humphrey Morrison. Humphrey and Fanny acquired Crossgill estate, and other property in Alston Moor. Though humbly born and meanly brought up, Fanny filled her new position with ease and dignity, and not only commanded the respect, but won the esteem of her neighbours, Moreover, she endeared herself to the poor generally, and to her poor relations especially by her kindness, She lived to a great age, and died universally respected. *See 22nd August 1818*

7th November 1885 (Hexham Herald)

WEARDALE

The Weardale Mining Company have this week sold 207 tons of lead at £11 per ton. The returns are now over 200 tons a month, and are leaving a profit.

14th November 1885

Deaths

At Alston, 11th inst. aged 87, Timothy Welsh.

In 1851, at Bridge End, Alston, Timothy Welsh, farmer & Miller, aged 52, wife Jane 48, children William, farmers son and cartman, aged 20, Jane 16, John P 13, visitor Isaac Welsh, annuitant, aged 41 and servant Mary Walton aged 20. In 1861, at Bridge End House, Timothy Welsh, miller & farmer of 60 acres, aged 62, wife Jane 58, daughter Jane 26, servant Jacob Welsh, carter, aged 51, and domestic servant Ann Langstaff aged 20. Timothy's wife Jane died 4th quarter of 1861, and in 1871, he was living with his daughter Mary Welsh, draper & milliner.

In 1881, at Front Street, Alston, Mary Welsh, draper & milliner, aged 53, father Timothy Welsh, widow, retired farmer, aged 82, sister, married, Jane Graves, assistant draper, aged 45, niece Elizabeth J. Welsh, milliner, aged 20, and niece Agnes Welsh, dressmaker, aged 19.

21st November 1885 (Hexham Courant)

Deaths

11th December 1885 (Newcastle Courant)
HEALEYFIELD LEAD MINE
Since the starting of the Cornish pumping engine at this mine a month ago, sinking operations have been steadily carried forward in the Whitewell Shaft; and the engineer writes that the sinkers have now reached the plate bed lying under the slate sills. The upper and lower slate sills are together, forming one fine sold stratum 54 feet thick. As soon as the necessary sump for the pumps has been cut, a cross cut will be driven in the plate to the vein, which is lying a few fathoms east of the shaft. The trial of this old mine, in the limestone rocks will be watched with great interest in the district.

12th December 1885 (Hexham Courant)
Deaths
At Alston, 8th inst, aged 65, Leonard Hardy.
In 1841, at Butts, Alston, John Hardy, lead miner, aged 70, wife Hannah aged 70, daughter Mary aged 25, sons Robert, lead miner, aged 20, and Leonard, lead miner, aged 20. In 1881, at Butts, Alston, Mary Hardy, single, land seller, aged 65, brother Leonard Hardy, single, stonebreaker, unemployed, aged 59.
At Holme Foots, Nenthead, 9th inst. aged 25, John Jos. Moore.
In 1861, at Hill Top, Nenthead, John Moor, lead ore miner, aged 48, wife Elizabeth 36, children George, lead ore washer, aged 16, Margaret, house maid, aged 14, Vickers 10, Sarah 8, Isaac 5, and John J. 1 year.
John Moore senior died 13th February 1866, aged 53.
In 1881, at Rough Side, Vickers Moore, lead miner & farmer of 105 acres, aged 30, mother Elizabeth Moore, widow, aged 56, brother, George, lead miner, aged 36, sister Margaret 34, brothers Isaac G., lead miner, aged 25, John J., lead miner, aged 21, William, lead miner, aged 18, and John 11.
See 23rd February 1866

12th December 1885 (Hexham Herald)

WEARDALE

THE WEARDALE LEAD COMPANY (LIMITED)

The Annual report of the directors for the year ending June 30, states that mining operations have been actively carried on throughout the year on a large scale, about 700 men having been employed regularly by the company; £31,118 has been expended during the year, £8,118 of which has been on opening up, repairing, and timbering mines, the construction of reservoirs, additional machinery, buildings &c. The result of this outlay has been the raising of 3,165 tons of ore, the further development and improvement of the mines, and putting them into better working order and repair. ...

DEATH OF MR C. BAINBRIDGE.

The death of Mr Cuthbert Bainbridge (On 6th inst) of Leazes Houses, Wolsingham … Mr Bainbridge was 81 years of age, was twice married and is survived by his widow. … His only surviving brother is Mr Emerson Bainbridge of Eshott Hall, Northumberland, head of the firm Bainbridge & Co. of Newcastle.

19th December 1885 (Hexham Courant)

WEARDALE

LEAD MINING

As a proof of the healthy state of the lead market, the London Lead Company have reinstated a number of their old workmen in the Bolihope Mines which are yielding exceptionally at present.

ALLENDALE

THE LEAD TRADE

It is cheering to learn in the middle of a general depression which prevails, that the approach of the new year brings with it somewhat brighter prospects in this, staple industry in Allendale, which has been so long in a state of stagnation. On Monday, at Mr W B Beaumont's smelt mills, near Allendale Town, eight fresh men started work, and there is hope held out of others being yet set on. The better tone noted in the lead trade has resulted in the large quantity of lead which has been standing in the yards for some time at these mills being all sold; and we understand that orders for further supplies of lead are awaiting execution. The greater part of the lead we believe has been sent to China.

Deaths

At Holme Foots, Nenthead, 14th inst. aged 64 Thomas Price, lead miner.

See 14th October 1843, 14th April 1865, 3rd August 1872, 9th October 1880, 15th September 1883

19th December 1885 (Hexham Herald)

LEAD MINING IN WEARDALE.

THE ORDINARY GENERAL MEETING OF THE WEARDALE LEAD MINING CO. LTD.

... I must refer now to the Ecclesiastical Commissioners, they have met us fairly, and have adopted a sliding scale, by which the royalty is arranged according to the price of lead. When lead is £13 to £14 we pay a twelfth, when it is £11 to £12 we pay a fifteenth only. You may record £12 to £13 as the chronic figure, which you will have to look at in the time to come. That will be a good price for your lead, and you would pay one fourteenth royalty only for that. They do not insist upon us working up to the full quantity 1883-4 was £1,000; next year

£2,000; and the next four years, £3,000; after that £4,000. When we entered the mines, after the first year, it was £4,000. I think these concessions are fair and reasonable, and we have to thank the Commissioners for what they have done. ... there is a small balance in our favour of £587 16s 10d and I think, under the circumstances in which we have worked, that we have done fairly.

DEATH OF AN OLD PRIMITIVE

On Monday last the death of Mr John Spark took place at his residence at the ripe age of 71. Deceased was well known in Stanhope and neighbourhood as a workingman who had been successful in life, being possessed of considerable house property. He was a lead miner, and had also a small farm under the Walton family of Aller Gill, which he wrought and farmed with great success for a number of years. Mr Spark also brought up a large family all of whom are doing well. Deceased was a Primitive Methodist of old standing, and held office under the body as class leader for between 20 and 30 years, and was much respected. He was interred in Stanhope cemetery.

COPTHILL WEARDALE

We have to announce the death on Saturday last of Mr Joseph Dalton, whose illness has been of a lingering nature. He was much respected and had reached the age of three score and ten. The deceased was interred on Tuesday in the Heathery Cleugh churchyard.

26th December 1885 (Hexham Courant)

ALLENDALE TOWN

SERIOUS ACCIDENT AT THE SMELT MILLS.

On Thursday week, a very serious and painful accident befell one of the workmen engaged at the Allen Smelt Mills named Robert Fairlamb, who has been employed at these mills for many years. It appears that Fairlamb is a "Separator" at these works, and on the morning of the day in question he had been standing on the top of his "pot" stirring the molten lead which it contained, when he accidentally slipped and plunged into the scalding liquid with both feet. He flung himself out, and was immediately attended to by his comrades, and conveyed home, where medical aid was soon procured. The most serious injuries of the unfortunate man are principally below the knee, his face having wonderfully escaped. Much sympathy is expressed for the poor fellow, who lies in a somewhat critical condition.

See 30th January 1886

26th December 1885 (Hexham Herald)

ACCIDENT AT FALLOWFIELD LEAD MINES.

Whilst engaged at the bottom of a "sump" at these mines on Tuesday morning Mr John Henderson the leader of the famous Acomb band was struck by a fall of stone from the "Plate sill", which injured him severely about the face and back. We are glad to learn that to all appearances Mr Henderson is not likely to be incapacitated either permanently or for a longer period.

WEARDALE

MR JAMES BLENKIRON REPORT ON DEC. 12.

Killhope Engine Sump: We are down 6 fathoms into Quarry Hazel, and have struck Grey beds, with ground easier to work, five feet sunk last week. WE hope soon to open up a profitable mine here. Tribute pitches: Flat east of engine sump in Great Limestone is looking well, worth 40 cwt per fathom, the

remainder stopes in flats are valued as follows: Three worth 16, one 18, and one 20 cwt per fathom

Burtree Pasture: The Nattrass Gill end is a little easier to drive, vein 2 ½ feet wide comprised chiefly of flour-spar, worth for ore 14 cwt per fathom. The tribute pitches are without change, worth from 16 to 18 cwt of ore per fathom. We have been carting the loose ore from Burnhope to Burtree Pasture this week to dress.

Grove Rake: The operations at this mine have been making steady progress with encouraging results. The different ends maintain about the same value as last reported.

Green Laws: Under the Quarry level we sunk 8 feet last week in flat. We may reach the Tynebottom limestone any day in this sinking. The tribute pitches have not much change if anything they are a shade better than last week. We purpose at the end of the month rising from Lowe's to Watson's drift where we expect to lay open some good stoping ground.

8th January 1886 (Carlisle Patriot)

ALSTON BOARDS.

The ordinary meeting of these Boards was held on Saturday last: the Rev. O. James in the chair. —At last meeting it was suggested that the Charity Allotment Quarry be opened out so as to find employment for people. The Clerk then expressed the opinion that the Board could not legally do so, and now stated that he had obtained further information, which confirmed him in that opinion. —Mr Henry Walton: Some persons did employ persons in that manner. —The Clerk said that by an order of 1862 certain Boards had power conferred upon them under stringent regulations as to supervision, but Alston was not one of the places on the list. In taking step like that now proposed, the Sunderland Board of Guardians had got into hobble, and he observed that it was probable they would be surcharged.—Mr Walton gave notice that at next meeting he would move that the Surveyor bare and open the quarry and fence it properly. —The Surveyor reported that alongside the Nenthead and Garrigill Road, there was deep ravine, some 50 or 60 feet deep, caused by mining operations. At several places the fence had fallen into the ravine, rendering the road exceedingly dangerous. —The Surveyor, having complained without avail to the lessee, Mr W. Dickinson, Newcastle, was now directed to lay the matter before the lessors, the Lords the Admiralty.

9th January 1886 (Hexham Herald)

WEARDALE

THE LEAD TRADE

The change in this market during the past year have not been important, the principal feature which has been brought to bear upon the market being the Cholera in Spain, and which at times tended to implant strength to the tons, and this enabled sellers to realise better prices than what were obtainable when the year began. In January the market opened firm at £11 for Spanish and some parcels of common English pigs were also obtainable there at, but the demand being dull the price of Spanish very soon eased off to £10 17s 6d whilst in the middle of January the flat state of the market induced the sellers of English also to accept that figure and suppliers of Spanish put down their prices to £10 15s. After fluctuating considerably the price is now much improved. In early November the market remained steady at £11 5s but after the first week or so

had expired sellers were quoting a further advance of 2s 6d though buyers were not at first ready to pay these advanced rates; nevertheless as the month progressed greater firmness pervaded the market, and at the close £12 5s was being quoted for Spanish and £12 10s for English; and at the beginning of December a further 2s 6d rise was realised but soon afterwards the market quoted down and prices were easier at £12 2s 6d for Spanish at about which price it closed for the year.

Two articles from the British Medical Journal give a good indication of the severity of the Cholera outbreak in Spain:

The British Medical Journal July 4th, 1885

Death Rate During the Present Epidemic of Cholera in Spain

The official returns issued by the Spanish Government are admittedly incomplete, the severity of the epidemic in certain provinces having thrown public business into great confusion; an inspection of the returns issued, however, seems to show that the death rate is not far below the average of all epidemics, which is put don at about 50 percent. During five days of 24 hours between June 25th and 30th, the number of cases reported was 5,689 and the number of deaths was 2,663; representing a death rate of nearly 47 percent.

British Medical Journal; July 1, 1893

CHOLERA: WHERE IT COMES FROM AND HOW IT IS PROPAGATED. Ernest Hart.

In1885 Spain was the scene of a cholera out break of exceptional ferocity. Introduced into Alicante on the south eastern coast in spite of quarantine, in August, 1884,the disease slumbered through the following winter, and in April, 1885,burst into an epidemic at Jativa and Alcira, when, evading sanitary cordons it was soon carried far and wide by the dispersing labourer's. Between February 5th and December 31st, 1885, 2,247 local governments, having an aggregate population of 6,576,641, had been invaded, and 338,685 cases and 119,624 deaths had occurred.

9th January 1886 (Daily Gazette for Middlesbrough)

PERILOUS PREDICAMENT OF A TEESDALE MINER

Much excitement has existed throughout Teesdale since Thursday last, when the news spread that a miner named Thomas Bellas had been buried in the workings at **Lunehead Lead mines**, which are situated ten miles from Middleton-in-Teesdale. It appears that on Thursday morning Bellas and a mate were working together in the farthest point of the mine, when they heard a creaking of the tunnelled roof, which runs along the main workings. They at once set about making preparations for their own safety, Bellas mate going for some wood close by to prop the roof. On his return within a few minutes, he found that the roof had given way, a large mass of rubbish blocking up the workings. Bellas was entombed at the furthest end of the fall. The workmen about the mine at once commenced to remove the debris it being thought possible to reach Bellas by means of a hopper. After working with this object all day on Thursday, it was found that Bellas could not reach the hopper. Help was sent for to Middleton, several men immediately leaving that place on a sleigh for the mine. Mr Bainbridge, manager of the London Lead Company's mines also sent valuable assistance. Most luckily for Bellas, the working in which he was imprisoned was fitted with air pipes, which were not damaged by the fall, consequently the ventilation remained good, whilst, better still it was

found practicable to convey to him that means plenty of food, and candles so that he might have light. The entombed miner could be heard distinctly when shouting, and heard working his end of the fall trying to extricate himself. He was warned to be cautious, lest any more falls should take place. Last night strenuous efforts were made to pierce the fall and reach Bellas, and at about nine o'clock he was safely got out.

14th January 1886 (Hartlepool Northern Daily Mail)
A TERRIBLE DEATH. A miner named Thomas Millican has been accidentally killed at Threlkeld Lead Mines, near Keswick, by the sudden explosion of a shot. As soon as possible the man was extricated, but he had received frightful injury. His left arm was completely shattered, and a large hole made in his side. He was partly conscious when removed, but died before he could be taken off the premises. *Died 12th January 1886, aged 45.*

15th January 1886 (Durham County Advertiser)
A SERIOUS AFFAIR HAS TAKEN PLACE NENTHEAD, a mining village adjacent to Weardale, the other side of Killhope. Two boys had been breaking stones, and quarrelled over some trivial matter, when the elder of the two thrashed his companion, the father of whom repaired to the house of the former. There the mother named Hinds, is alleged to have seized the coalrake and struck him on the head, felling him, and while he was on the floor, repeating the blows until he was unconscious. He was conveyed to his home and attended by a doctor, who deemed it so serious as to have the man's depositions taken.

16th January 1886 (Hexham Herald)

WEARDALE

The first quarters bargains for this year have just been let at the Newhouse offices, under the agents Messrs Blenkiron, Watson, and Thompson. Many more hands have been employed, but they are still working on the non-paying system.

WEARDALE IRON TRADE

The condition of the Iron trade in Weardale is anything but cheering, as the men employed under the Weardale Iron and Coal Company in this dale are under notice, which terminates on the 25th inst. The men employed number about 300, and about 50 or 60 horses are required in the transit of the stone from the iron stone quarries of Wearhead, &c., to the Westgate railway depots. The cause of the evident stoppage is want of orders and overstocked yards.

Deaths
Alston, 10th inst., aged 75 years, Margaret, wife of Thomas Thompson, bonesetter.
In 1881, at Thirlwalls Lane, Alston, Thomas Thompson, bonesetter, aged 54, and his wife Margaret aged 65.

16th January 1886 (Hartlepool Northern Daily Mail)

FATAL ACCIDENT IN TEESDALE

Henry Robinson (22) of High Dike, Middleton-in-Teesdale, died yesterday from injuries caused by a fall of stone, received whilst working in the Coldberry Lead Mine on the previous day.

Henry Robinson, aged 27, was buried at St Mary the Virgin, Middleton, 18th January 1886.
James Robinson married Mary Parkin 4th quarter 1858, at Teesdale.
In 1861, at High Reading, Newbiggin, Durham, George Robinson, lead miner & farmer, aged 68, his wife Margaret aged 55, sons, David, lead miner, aged 21, James, lead miner, aged 26, daughter in law Mary Robinson 24, grandson, Henry Robinson, 2, and Elizabeth Parkin 18.
In 1871, at Newbiggin, Teesdale, James Robinson, lead miner, aged 36, his wife Mary 34, children. Henry 12, Mary 5.
In 1881, at Middleton in Teesdale, James Robinson, lead miner, aged 46, his wife Mary 45, children, Henry, lead miner, aged 22, Mary 15, and Robert Parkin 9.
James Robinson aged 48, was buried at St Mary the Virgin, Middleton, 23rd June 1882.
In 1891, at The Hill, Middleton, Mary Robinson, widow, aged 54, and son Robert P, quarryman, aged 19.
Mary Robinson, aged 64, was buried at St Mary the Virgin, Middleton, 28th March 1901.

20th January 1886 (Teesdale Mercury)
LOST IN A LEAD MINE. —A Correspondent says, “The recent accident at the Lunehead Mine, and the fortunate rescue of one of the workmen, reminds me of a somewhat similar incident that occurred at a mine in Upper Teesdale, about forty years ago. The mine in question is situate in a wild ravine, about two miles north of the hostelry at Langdon Beck—midway, I should think, between the Tees and the Wear. It is an ancient mine, supposed to have been worked by the 'old man,' long before there were any historical records of mining in Teesdale. There are miles of passages underground, interspersed with vast caves; and the enormous heaps of waste to be found everywhere on the surface, show the extent of the old excavations. Up to the early part of the present century the mine had been worked in true primitive fashion, by shafts or perpendicular sinking’s, and the ‘bouse,’ water, &c., drawn to the surface by the old-fashioned 'Whimsey,’ or horse-engine. There are evidences, both inside and out, that the mine has once been exceedingly rich. It seems that a period had at length come when operations had been stopped, probably by an accumulation of water, for tradition says that a partnership of miners had an escape from drowning, after driving their draining-level to a point where the ‘old man’s’ workings were tapped. They had apprehended danger, for they had effected arrangements for their speedy exit, and when the water burst upon them, they had time to get into their waggon and make their safe retreat. An extraordinary volume of water poured from the level, and the snow that was lying in the ravine at the time was dyed blood-red with the solution of iron contained in the water. The geological conformation, here, may be said to comprehend the strata between the tufa and the feldspar; and great boulders of the latter are scattered on the surface as far as the summit of Harts- hope. About forty years ago (as I have said at the commencement of this notice), two miners, named respectively, Jeremiah Cameron, of Newbiggin, and Thomas Watson, of Weardale, resolved to explore the old mine. They supplied themselves with candles, entered the mine early in the morning, and wended their way along the passages. Sometimes they had to climb over a heap of waste, at other times

they squeezed through narrow apertures, and again emerged into spacious caverns. Occasionally they ascended the decaying ‘stemples’ (pieces of round timber fixed between the vein-cheeks to prevent a collapse after extracting the ore) to reach higher chambers, which led away from the sides of the vein, and where a slip, or a breaking of the timber, would have entailed certain death. Again they were in the flats or caves, of the twelve-fathom limestone, where neither end, side, nor roof could be discerned. It was while resting in one of these caves that the terrible idea of their being lost came suddenly upon them. They were Wesleyans, and they cheered themselves by singing a hymn, the tones of which, they remarked, echoed with thrilling music, through the long and lofty passages. They now began to retrace their steps, but difficulties surrounded them, and, worse than all, their candles were burnt out. Stumbling painfully along, on their labyrinthine way, they did not lose hope or courage, and again they stopped and sung a hymn, which singularly revived them. Watson now cut his tape-line into small pieces, which were dropped here and there, as they advanced, or were placed conspicuously, so as to attract the attention of any party who might come in search of the missing miners. Worn out with fatigue, for they had been wandering for hours, they yet' put their trust in God, end once more they uplifted their voices in a hymn. Then they stretched their weary frames upon the earth, awaiting succour from outside, if haply it might come. There they were found, early in the morning, by a number of their friends who bad anxiously sought for them in the mine. It is unnecessary to say how joyful all were at that moment, and what a fervent prayer was offered up to the Almighty for their deliverance. The two explorers suffered no permanent harm from their perilous adventure, and both, it may please your readers to know, are alive at this day. It was the opinion of Messrs. Cameron and Watson that some of the flats they traversed in the mine, had at one time been literally fall of lead-ore. There were good evidences of this, end they must have contained hundreds of tons of ore. The general method of working the vein had been by sinking a shaft, connected with a Whimsey. Drifting had been conducted from the bottom of the shaft with slitting of the vein, or the best part of it, leaving supports only for the sides, and the ground behind was all empty. On the vein cheeks, initials had been carved by former miner, and in one instance the date 1637 was observed.”

23rd January 1886 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY.

The Medical Officers (Dr John Masterton) yearly report for the Nenthead district was read. He reported that there had been 54 births, 29 males and 24 females, which gives an average of 23.14 per thousand on an estimated population of 2333. The deaths number 37, 16 being males and 21 females giving a death rate of 15.8 per thousand. The most noteworthy events of the year had been two epidemics one of Whooping Cough and the other of Scarlet Fever. The houses of the working class especially in that part of Nenthead known as Overwater where the fever first showed itself, have too scant accommodation for ordinary purposes, and less so for an invasion of Scarlet Fever. There have been 50 cases in all in 14 houses and out of that number there have only been three deaths, so that the fever on the whole has been of a comparatively mild type. I am glad to be able to state that there has been no further spread in

Garrigill and only two houses have been infected with four cases. It is satisfactory to note the entire absence of a diarrhoea or typhoid fever epidemic during the autumnal months, which speaks well of the water supply of the district.

STANHOPE
A CHILD SCALDED TO DEATH.

On Saturday last the child of Mr Thomas Slack of Crawleyside, fell into a bucket of boiling water and was so severely scalded that it died on Sunday. It was one year and 10 months old.

27th January 1886 (Teesdale Mercury)

In the County Court of Durham, holden at Barnard Castle, between WILLIAM WILLIAMS, of BROUGH, in the County of Westmoreland, Mining Agent, Plaintiff; and JOHN SLACK, of North Road, in the City or Durham, Bookseller, Defendant.

PURSUANT to an Order made in the above action this day, NOTICE IS HEREBY GIVES that the Partnership heretofore subsisting between the above named Plaintiff and Defendant, for the purpose of working the **Lead Mines called LUNEHEAD MINES, near Mickleton,** in the North Riding of the County of York, is DISSOLVED as and from this day.
Dated this 18th day of January, 1886,
WM. WATSON, Registrar.

30th January 1886 (Hexham Courant)

SHOCKING FATAL ACCIDENT AT ALLEN SMELT MILL: THE INQUEST: -

On Monday afternoon Mr W. B. Elsdon, the deputy coroner, held an inquest at the Kings Head Inn, Allendale Town, touching the death of Robert Fairlamb, a lead ore smelter, who fell into a pot containing molten lead, on the 18th December last. Mr M. Stephenson was appointed foreman of the jury.

Ann Fairlamb said: I am a widow and live at Leadgate, Allendale Town. The body of the man lying dead in my house, and viewed there today in my presence by the coroner and jury, is that of my husband Robert Fairlamb aged 65 years. He was a lead ore smelter, and worked at Allen Smelt Mills, the property of W. B. Beaumont Esq. Deceased lived at Leadgate and died in my presence in his house at Leadgate, Allendale Town, about four o'clock in the afternoon of Saturday last, the 23rd January. Deceased has been ill since the 18th December 1885. On that day, he was at work at the Allen Smelt Mill. He went to work at six o'clock in the morning, and about eight o'clock the same morning he was brought home in a cart by William Ridley. Deceased was much injured about the legs by burns. Deceased afterwards said to me on the same day, "I was on the top stirring and felt as if I was going in with my head first. I gave a turn and jumped in feet first." He did not blame anyone for the accident and never done so since. Deceased during his illness was attended by Dr Arnison.

John Henderson said: I am a lead ore smelter and live at Low Mill, Allendale Town. I know and was well acquainted with the deceased man, Robert Fairlamb. He and I worked together at the Allen Smelt Mill at Allendale Town. I was in the mill at six o'clock on the morning of Friday, the 18th day of December last, and commenced my work at that hour. Deceased was there also, and commenced his work at that time. He and I had charge of a separating pot which are kept going with lead ore in a molten state. Our pot was about half

filled with molten lead, about 3 tons, when I saw him get on the top, that is to say on the edge of the pot; and go towards the back of it. I did not then know what he intended doing. I was busy ladling the pot into another, and deceased was helping me. When he got on to the edge of the pot, he staggered and seemed likely to fall head first into the pot adjoining into which I was ladling. He thereupon jumped into the molten lead, nearly up to his knees. If he had not jumped in, he would have fallen in headfirst. This occurred about half an hour after commencing work. I and other workmen about the place at once got him out of the pot. He was much burnt about the ankles and heels with the lead. His legs were also burnt, the molten lead having attached itself to his trousers nearly up to the knees. He was immediately afterwards conveyed home to Leadgate, in a cart by Wm. Ridley. Deceased had no business up on the edge of the pot, but he had a habit of getting onto the pot edges, and he had been cautioned not to do so.
The Foreman: Can you stir these pots without getting on to the top of them?
Witness: Yes.
Foreman: Is there a rule prohibiting men getting on to the top of the pot?
Witness: Yes.
The coroner remarked that they would never get those accidents prevented until they got men to think of themselves, and those they leave behind them.
The jury returned a verdict that the deceased died from burns accidentally received while at work in the Allen Smelt Mill, on the 18th December 1885, by falling into a separating pot containing molten lead.
In 1871, at Lead Gate, Allendale, Robert Fairlamb, separator of lead, aged 51, his wife Ann (Whaley, married 16th November 1844) aged 50, children Mary, servant, 21 (deaf & dumb from birth), John 16, Nicholas 12, and boarder William L. Parmley, draper & grocers assistant, aged 45
In 1881, at Leadgate, Allendale, Robert Fairlamb, lead ore smelter, unemployed, aged 61, his wife Ann 60, daughter Mary 31, John, joiner, aged 26, and Nicholas 22.
In 1891, at Alms Houses, Allendale, Ann Fairlamb, widow, aged 71, daughter Mary, 41, and son Nicholas, general labourer, aged 31.
Ann died the 3rd quarter of 1899, aged 79. See 5th August 1899
In 1901, at Alms Houses, Allendale, Mary Fairlamb, house keeper, aged 49 (deaf & dumb), and her brother Nicholas, labourer looking after a horse, groom (feeble minded).

30th January 1886 (Hexham Herald)

WEARDALE

Ore dressing almost at a standstill at all mines on account of severe snowstorms and frost.

Deaths

Alston, Town Head, 24th inst., aged 62, Isabella Pearson, same place 28th inst, aged 61, Thomas Pearson, husband and wife.
See 6th February 1886.

5th February 1886 (Carlisle Patriot)

ALSTON BOARD OF GUARDIANS.

At the usual meeting of this Board on Saturday, the Rev. O. James presiding, the balance sheet of the Fairhill Charity for the past year was presented, and

showed that there was a balance available for the Alston Poor, of £15 4s 7d; and for the Garrigill poor of £7 9s 5d. —The Clerk stated that Board had in addition the sum of £12 6s 6d in the savings bank, damages by the working of the mine in the Charity field.

ALSTON HIGHWAY BOARD.

The usual meeting this Board was held Saturday. The Rev. O. James presided. —The Clerk stated there was £50 due to extra hands employed in snow cutting. The main roads from Alston to Garrigill and Alston to Nenthead had been cut, but the roads over Killhope and Yadmoss were yet closed, and so were most of the highways. —The Surveyor observed that the drift had not yet ceased, and there were no signs settled weather; and probably if cut the roads would be blocked in a short time. He wanted to know if he should leave the outlying roads for the present. —It was agreed that the Surveyor proceed with the cutting of the lower roads, and to leave others the meantime.

6th February 1886 (Hexham Courant)

NENTHEAD

THE STORM AND ITS EFFECTS

... The depth of snow is calculated to be at least five feet all round, although in some places it reaches an enormous depth. The road between Nenthead and Alston have been open and reopen three times within the past two weeks and were blocked from end to end. The washing material in connection with the mines and a considerable number of hands have been thrown idle, and, if a thaw does not soon take place, the smelt mill will cease performing its share of the lead manufacturing. The effects of the storm will no doubt, be keenly felt by the labourers &c.

DEATH OF MR THOMAS PEARSON OF ALSTON.

Primitive Methodism in the Alston circuit has just sustained a great loss in the death of the venerable Mr Thomas Pearson, which occurred at his residence at Alston on January 25th, in his 60th year. Mr Pearson was born at Westgate Weardale, September 27, 1825. His father dying when he was very young and the family being in humble circumstances, he was deprived of many of the advantages of early education, he being sent to work when about ten years of age, in order to add to the income of the family. While but in his teens, he manifested a decided religious trait of character and he decided for Christ when about eighteen years of age, when the Rev. John Burroughs travelled in the station. When about twenty being one Saturday afternoon in company with one of the local preachers of the station he was asked if he had any thought of trying to speak in public, to which he did not object being wishful to try and do good, and the next quarter his name appeared on the circuit plan as an exhorter, with two appointments, Hayring (now Nentsbury), and Coalcleugh. Soon afterwards he was raised up on full plan, and since then he laboured faithfully in that sphere travelling to Penrith, and preaching once or twice, and returning the same day, and then going to work on the Monday. In 1855, he entered the marriage state with Miss Errington, with whom he lived happily until her death, which only occurred a few days before his own decease. After their marriage, they went to reside in Nenthead, and being careful and industrious, they managed to save a little to maintain them in after years. In 1883, they retired from active life and came back to Alston. In the latter part of the same year, Mr Pearson went to conduct some special services in the Allendale circuit, and whilst there he

caught a cold and it fixed on his chest and from then he gradually sunk until his end came. Twice Mr Pearson was appointed to the office of Circuit steward, which office he filled very creditably, and twice he represented the Circuit in district meeting, the latter time in 1884, when he was urged to represent his district at conference, but owing to his ill state of health he declined... In private Mr Pearson was a jovial companion, and would tell some interesting stories of the early preachers. He loved the work of preaching, and often we have heard him say, "That he owed all his circumstances in life to being on the plan." He tried to live a consistent God fearing life, and also for the benefit of his fellow men, and often when following him to his appointments, he has told me "that he tried to live that he might be missed when he was gone," and we think he has so done, we miss him in the prayer meeting, in the class meeting, in the Sunday School, in the ordinary services of the sanctuary, and in the pulpit, but we believe he has gone to be with Christ, which is far better. The earnest prayer of the writer is that we may with him at last.

Thomas married Isabella Errington 4th quarter) of 1855, in 1861 they were living at Ivy Cottage, Nenthead, Thomas 35, a farm servant, and his wife Isabella 37. In 1871 Thomas is listed, as a farm servant living at Fair Hill, Nenthead, and Isabella's their Thomas Errington 12, is living with them. In 1881, Thomas is listed as a Blacksmiths labourer, and his nephew Thomas a lead mine labourer, living at Nenthead House.

I believe some of the family details to be incorrect in the article above. All census information gives his place of birth as Alston, and there is a record of a Thomas Pearson baptised 1st May 1825, at Alston, son of Robert (a lead miner) and Hannah, Robert his father died aged 55 in 1827, which fits with the story above. The 1841 census gives the following:

Hannah 40, a farmer, children, John 20, Robert 18, Thomas 15, Catharine 14 Jonathan 11, William 9, Hannah 7; the three eldest all working at the lead mines. In 1851, they are living at Benks Alston, John and Catherine no longer living at home, Jonathan working as a lead miner and William as a Cartman.

6th February 1886 (Hexham Herald)

WEARDALE

The strong weather that has prevailed in Weardale these last few weeks has been such as has not been known for many years.

... The miners who had to go to Rookhope from Weardale have had a very dangerous journey. Four of them were lost on Wednesday in going from Killhope, crossing the moor with the intention to arrive at Grove Rake, but found themselves at Burnhope, Allenheads. Had it not been daylight it would have been a serious case with the miners.

20th February 1886 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

A letter was read from the Green Hurth Mining Company asking that the road leading thither might be opened with as little delay as possible as the engines were standing idle for want of coal.

Mr Holmes: The Nenthead Mills are standing as well for want of ore, and the men are thrown out of work. It was doing badly for them. He would like to know when it was intended to cut the snow and make the roads passable. .. It was

decided to give the surveyor instructions to get the roads open so that traffic would not be impeded.

25th February 1886 (Northern Echo)
LEAD MINE ACCIDENT. —A Mickleton lead miner named Parkin, employed at Wiregill Mine, fell from a hopper, sustaining such severe injuries that his removal home in a cart was necessary, Dr. Horsfield is in attendance.

27th February 1886 (Hexham Herald)

WEARDALE

Lead is advancing, and a great rise in price is anticipated by many, as it is rumoured that the American Government have a Bill on the tapis to do away with duty. If true, a considerable rise may be expected. Shares in several mines have advanced in consequence. The market price for this lead is now from £13 10s to £13 15s.

6th March1886 (Hexham Courant)

FARM LANDS IN MANITOBA

An extract from a letter sent to the Hexham Courant from Charles A Millican, dated Alston, February 22nd, 1886 on a visit home from Manitoba, Canada, where he had been living for 4 years.

… I have been four years in Manitoba and the Great North West Territories of Canada, and I cannot speak too highly of it as a farming country. Essentially prairie land, there is not the labour of clearing every yard of it from timber as was the case in Ontario, where hundreds of people have farms which are valuable and remunerative, though there are here and there patches of wood of various sizes from 100 acres downwards-enough to furnish wood for building purposes, and fencing and firewood.

The soil is rich black loam, about 18 or 20 inches deep, then a clay sub-soil. Water is either close at hand on the surface, or may be had in abundance by sinking a well ten or fifteen feet. The soil is so rich that it will bear a wheat crop for 15 years without being manured or the crop being lighter. I know of land that has been cropped for over 25 years and never manured, though I do not commend such style of farming. The land is easily worked, and the soil is so light that one cannot compare ploughing here and there.

The Canadian Government give 160 acres to anyone wishing to take it stipulating of course for its cultivation. The only cost of this 160 acres is about £2 for defraying official expenses in making an entry for such land-generally called “the entry fee.” The settler has also the privilege of taking up an adjoining 160 acres (if it is vacant) for the sum of not less than 10s an acre, so that a man may become the actual owner of 320 acres of some of the finest farmland in the world from £85 to £120 say. The title or deeds of such land must be earned by the settler living not less than six months of the year for three years on his farm breaking and cropping 15 acres yearly, so that in his third and last year of probation he shall have 45 acres under crop, and also that there shall be a house and stable on such land. No man could dream of farming without fulfilling these requirements, even if they had not been required by law. At the end of three years, should the law be carried out, the Government will give deeds for the property, and then it becomes out and out the Man’s own to do with as he

may please. Should the settler go in for mixed or stock farming certain modifications are made as to the ploughing.
What can be more satisfactory to a farmer than owning the land he farms, and when it is to be had so cheaply and can be worked with so much less capital than a farm in this country it seems that it would be a great pity to allow an opportunity to pass without drawing the attention of young farmers to such a fine country.
The country is settling up, and every year sees increased facilities for marketing, &c., and year by year the land increases in value, and instead of absorbing the strength of the land to pay rent, and gradually making it poorer, a man becomes his own landlord and everything he does increases the value of his land. The climate is healthy, the summer is hot, and the winter is cold, but so healthy and invigorating, owing to the dry atmosphere, that it is more enjoyable than an English winter….
See 12th September 1885

6th March 1886 (Hexham Herald)
Deaths
Stanhope, The Square, 27th ult. aged 14 weeks, Francis John son of John and Isabella Crawhall.
In 1871, at Stanhope, Thomas Crawhall (died aged 75, March 1891), accountant, Iron Stone Mining, aged 55, his wife Esther 59 (died 1882), son John, accountant, iron stone mining, 21, father Thomas, formerly woodman, aged 84.
John Crawhall married Annie Currah in the 3rd quarter of 1874, she died aged 25, 27th August 1875, their son Thomas Currah Crawhall was born the 1st quarter of 1875.
In 1881, Quakers Square, Stanhope, John Crawhall, clerk & actuary savings bank, aged 31, his wife, Isabella (Vickers, married 1878) aged 25, and son Charles Edward 1 year. Isabella died aged 32, 28th July 1888, and Charles Edward died in the first quarter of 1888. In 1881, Thomas Currah aged 6, is staying with his grandparents, Thomas & Esther Crawhall, at Quaker Square.
In 1891, at Quaker Square, Stanhope, John Crawhall, cashier at iron works, aged 41, his wife Annie Dixon (Moore, married 1890) aged 35, son Thomas 16, and daughter, Judith M. 9.
In 1901, at the Square, Stanhope, John Crawhall, cashier at iron works, aged 51, his wife Anne D. 45, children Judith M. 19, Mary 17, John 8, and Annie 6 years. John's son Thomas Currah, drug, chemist, shopkeeper aged 26, is living at 70 Station Parade, Harrogate with his wife Maria Louisa (Waterston, married 1898, at Newcastle), aged 28, they have a son Thomas Carrel, aged 1 year.
John Crawhall died 2nd quarter 1919, aged 69
Alston, Dykeheads, 21st ult., aged 5 years (Scarlet Fever) Elizabeth daughter of John Hind.
In 1851, at Bank House, Nenthead, Thomas Whitfield (died 1852), lead miner, aged 62, his wife Mary (died 1858/60) aged 55, Rachel 18, John, lead ore washer, aged 16, and Elizabeth 12.
In 1861, at Pipers Row, Nenthead, John Whitfield, lead ore miner, unmarried, aged 26, sister Rachel, unmarried, house keeper aged 28, sister Elizabeth, dressmaker aged 22, and son Thomas 3 months.

In 1841, at Wellgill, Dykeheads, William Hind, lead miner, aged 48, his wife Sarah 47, Esther 20, William 20, Hannah 15, James 15, Elizabeth 10, Mary 7, John 3.
In 1851, at Pry House, Nenthead William Hind, lead miner, aged 57, his wife Sarah 57, children James lead miner, aged 26, Elizabeth 20, and grandson John Hind, lead ore washer aged 13.
William Hind died 2nd quarter of either 1851, or 1857.
In 1861, at Overwater, Nenthead, James Hind, lead ore miner, aged 36, his wife Phillis 34, daughter Sarah A. 5 months, and boarder, John, lead miner, aged 23.
In 1871, at Dykeheads, John Hind, lead miner, aged 33, his wife Elizabeth 31, daughter Mary 3, servant Rachel Whitfield, dairymaid, aged 40, and nephew Thomas Whitfield 8.
In 1881, at Dykeheads, John Hind, lead miner, aged 43, his wife Elizabeth (Whitfield, married 26 September 1867, at Nenthead) aged 42, children Mary 12, Thos. W. 10, John Jas. 6, Annie 3, sister in law, Rachel Whitfield, widow, general servant, aged 48, nephew Thomas Whitfield, lead ore washer, aged 18. Elizabeth was born 2nd quarter of 1881.
In 1891, at Broad House, Patterdale, Westmorland, John Hind, leads miner, aged 53, his wife Elizabeth 52, children Thomas M. lead miner, aged 20, John J. lead ore dresser aged 16, Annie 13, and sister in law Rachel Whitfield, widow, aged 59.
John Hind Senior died the 2nd quarter of 1891, aged 53.
In 1901, at 12 Halton Terrace, Patterdale, Elizabeth Hind, widow, aged 64, children, Thomas W. lead miner, aged 29, Mary 32, and aunt Rachel Whitfield, widow, aged 69.
Workington, Warrington Road, 27th ult. aged 68 years Isaac Vipond, late of Rodderupside, Alston. *A retired farmer, his wife Mary died 13th December 1903, aged 68, at Workington.*

13th March 1886 (Hexham Herald)

ALSTON

Acting on the advice of Dr Carson, the Medical Officer for Alston, the managers of the High and Salvin schools have decided to close the respective places for a fortnight in consequence of the spread of Scarlet fever in the town.

Deaths

At Dykeheads, Alston, 8th inst., aged 77, Thomas Wilkinson, miner.
In 1851 Thomas Wilkinson lead miner 44, his wife Jane 42, children Margaret 22, Anthony 12, Thomas 9, Mary 6, and Elizabeth 4. In 1871 Thomas Wilkinson lead miner 62, his wife Jane 62, children Anthony 32, Thomas 28, Jane 19, and granddaughter Mary Ann Wilkinson 9 months.
In 1861, at Dykeheads, Nenthead, Thomas Wilkinson, lead miner, aged 52, his wife Jane 52, children Anthony, lead miner, aged 22, Thomas, lead miner aged 18, Mary Ann 16, Elizabeth, dressmaker, aged 14, and Jane 9.
In 1871 at Dykeheads, Nenthead, Thomas Wilkinson, lead miner, aged 62, his wife Jane 62, children Anthony, lead miner, aged 32, Thomas, lead miner aged 28, Jane, dress maker, aged 19, and granddaughter Mary Ann Wilkinson aged 9 months. Jane died aged 66, 11th August 1875.
In 1881, at Dykeheads, Nenthead, Thomas Wilkinson, widow, lead miner, aged 72, son Anthony, lead miner, aged 40, daughter Jane, house keeper,

aged 27, granddaughter Mary Ann Wilkinson 10, and grandson Robert William Wilkinson 7.
In 1881, at White Hall, Nenthead, Thomas Wilkinson, lead miner, aged 37, and his wife Jane (Dawson/Dowson, married 1874) aged 26. In 1891, at Oakley Terrace, West Auckland, Thomas Wilkinson, coal miner, aged 46, his wife Jane aged 36, and niece Mary Jane Dawson.
In 1891, at Dykeheads, Anthony Wilkinson, single, lead miner, aged 50, sister Jane 38, and nephew Robert W. Wilkinson, lead miner aged 16.

19th March 1886 (Carlisle Patriot)

ALSTON BOARDS.

The usual meetings of the Alston Boards were held on Saturday, the Rev. O. James presiding. The Guardians agreed to support the Whitehaven Guardians in taking steps to induce the Government to adopt a system of state-aided emigration. —The Clerk intimated that the Treasurer had received from the Treasury a cheque for £107 5s 10d in repayment of their proportion of the cost of disturnpiked roads.—Mr Henry Walton laid on the table the Surveyor's estimate of stores required for the ensuing year. The quantity required for the main roads was 1210 yards as against 1536 for last year, and for highways 470 as against 490 yards.—The Surveyor said that about £300 had been expended in snow-cutting; but the Nenthall and Greenside, the Nenthead and Coal Cleugh, the Nenthead and Garrigill, and the Tynehead and Yadmoss roads were still blocked.—The Board gave orders that the work should be continued.—Dr Carson report'd that there had been fourteen cases of scarlatina in the locality, but most of them were of a mild type. All the schools had been closed with the exception of the Grammar School, and he did not think it necessary to close it, as none of the pupils were from infected localities.

The Board agreed that a representation should be made to the Governors as to the desirability of closing the school. — Dr Carson and Dr Masterton were re-appointed medical officers, and Mr Joseph Walton was again elected sanitary inspector.

WINTER IN THE CUMBERLAND FELL DISTRICTS.

A correspondent, writing from Alston on Tuesday, says—"There has to-day been further fall of snow in this locality to the extent of four to six inches. Little of the previous snow had been removed by the sun, owing to the intense frost each night, and day by day the outlook for the sheep farmers becomes more serious. All the fences are drifted level, and owing to their wanderings in search of food the flocks are hopelessly mixed. Hay is being consumed at unprecedented rate, and many farmers have already exhausted their stocks. There have been large arrivals, during the past week, of hay and straw at the stations on the Alston Branch Railway, and seeing that these are purchased at something like famine prices the drain on the hill farmers' purses may imagined. Flockmasters know, moreover, that their darkest days are yet in store, for the ewes are emaciated that there cannot, by any possibility, sufficient supply of milk for the lambs when the season comes. It wants still a fortnight or three weeks until the lambing season on the hills becomes general, but this time is insufficient for the ewes to recuperate to the necessary extent; indeed, such is their condition now that it is a question with farmers, if rapid thaw and a quick grow the spring grass will not prove more deleterious to their stocks than will a continuance of the present temperature, if only the overwhelming weight of snow were removed. As it is,

however, the prospects of being speedily disencumbered from our white winding-sheet are not evident; for the snow is now falling sullenly and ceaselessly. Though the length of road is comparatively small, the Alston Highway Board have already expended £300 in cutting the roads, and many of these are still blocked—notably the Nenthead and Garrigill, Nenthead and Coalcleugh, Nenthall and Greenends, Tynehead and roads; and many of these have been blocked since the first week in January. The grouse have nearly all disappeared from their usual feeding grounds, and there no doubt that many have perished. At the mines all washing operations ceased several weeks ago, owing to the continued snow and frost, and, except that work on the roads has generally been obtainable, there must have been much distress."

27th March 1886 (Hexham Courant)
Deaths
At Nentsbury, Alston, 12th inst., aged 62, Thomas Carr, lead ore miner.
Matthew Carr married Elizabeth Parmaly, 25th August 1804, at St Augustine's, Alston.
Matthew Carr of Croft, was buried at Garrigill, 1st April 1832, aged 56.
In 1841, at Croft, Nenthead, Elizabeth Carr, widow, aged 60, children, Matthew, lead miner, aged 24, Dorothy 20, and Thomas, lead miner, aged 15.
In 1851, at Croft, Nenthead, Elizabeth Carr, miners widow, aged 71, children, Matthew, lead miner, aged 33, Thomas, lead miner, aged 27, Dorothy 29, and visitor, Matthew Brown, lead miner, aged 14.
Thomas Carr married Elizabeth Hind, 13th November 1851, at Nenthead.
In 1861, at Croft, Nenthead, Thomas Carr, lead miner, aged 36, his wife Elizabeth 29, children, Mary 9, Matthew 6, Elizabeth 3, Sarah 11 months, and Mother Elizabeth Carr, miners widow, aged 80.
Elizabeth Carr was buried at Garrigill, 19th December 1867, aged 88.
See 24th December 1867
In 1871, at Croft, Nenthead, Thomas Carr, lead miner, aged 46, wife Elizabeth 39, children Matthew 16, Elizabeth 13, Sarah 10, Ann Alice 4.
In 1881, at Hayring Cottage, Nenthead, Thomas Carr, lead miner, aged 56, his wife Elizabeth aged 49, and daughter Dorothy H. Carr aged 9 years.
In 1881, at Alma Terrace, Byker, Henry Cowling, engine man, aged 62, his wife Elizabeth 58, and boarder, Matthew Carr, lead ore smelter, aged 26, born Alston Moor.
Thomas Carr died 12th March 1886, aged 62.
In 1891, at Hayring Cottage, Nenthead, Elizabeth Carr, widow, aged 59, and granddaughter Ellen Davidson aged 2 years.
At Bloomsbury Cottages, Nenthead, 24th inst, aged 76, John Percival, head ore washer.
In 1841, at West Nenthead, Hannah Percival, aged 70, Edward, lead miner, aged 30, John, lead miner, aged 30, Robert, apprentice shoemaker, aged 25, Hannah 9 years (granddaughter).
In 1881, at Overwater, Nenthead, John Percival, unmarried, lead ore washing foreman, aged 72, his unmarried sister Mary, house keeper, aged 78, niece Hannah, house keeper aged 49, nephew Robert, lead ore washer, aged 28, and nephew John, lead ore washer, aged 18.

3rd April 1886 (Hexham Herald)

WEARDALE

DEATH OF ONE OF THE WEARDALE LEAD MINES DIRECTORS

With very much regret we have announced the death on the 21st ult., at Cecil House, Waltham Cross, of Mr George Batters in his 63rd year. ... During the past 30 years Mr Batters took a prominent part in promoting metal mining not only on Great Britain but in North America and other parts of the world. …

10th April 1886 (Hexham Courant)

WEARDALE

AN EMIGRANT FROM WEARDALE

On Sunday a large number of friends assembled at Stanhope station to bid farewell to Mr James Hornsby on his departure to Australia … He left with his wife and family.

In 1881, at Cow Garth Hill, Stanhope, James Hornsby (born Longnewton, Durham, son of John & Margaret Hornsby, John a stone quarryman) limestone quarryman, aged 32, his wife Hannah (born Wallsend) aged 34, and daughter Mary May aged 4 years.

Australian immigration records show James Hornsby, quarryman, aged 37, his wife Hannah aged 39, Children Isabella aged 4 and Mary M. aged 9, left Plymouth on the Energia, and arrived at Sydney 4th June 1886.

In 1901, at Browns Houses, Frosterley, Stanhope, James Hornsby, agent limestone quarry, aged 52, his wife Hannah aged 54, and daughter Mary May, dressmaker aged 24.

10th April 1886 (Hexham Herald)

Deaths

Coal Valley, Rock Island, Illinois, America, 22nd of March aged 31 years, Elizabeth wife of Rev. Wm. Todd and daughter of the late Thompson and Isabella Yeats of Hill House near Alston.

In 1851, at Low Brownside, Alston, Thompson Yeats, lead miner & farmer, aged 29, his wife Isabella (Kindred, married 18th June 1846) aged 28, children George 3, Thomas 2, Joseph 9 months, lodger, George Yeats, lead miner, aged 23, lodger, John, lead miner, aged 19, lodger, Stark, lead miner aged 16, servant, Ann Yeats, house servant, aged 13.

In 1861, at Hill House, Thompson Yeats, farmer of 65 acres, 39, his wife Isabella 38, children George, lead ore miner, aged 13, Thomas 12, Joseph 10, Thompson 8, Elizabeth 6, John H. 4, and brother George Yeats, lead miner, aged 33.

Thompson Yeats died 18th January 1864.

In 1881, ay Hill House, Joseph Yeates, farmer of 144 acres, aged 30, his wife Elizabeth 35, children William 9, John Jos. 7, Isabella 5, Thomas 10 months, uncle George Yeates, unmarried, lead miner, aged 53, visitors William Todd, coal miner, aged 32, his wife Elizabeth Todd 26, children Margaret Ann Todd 9, George Todd 1, and visitor John Yeates, stone mason, aged 24.

New York Passenger lists show the Todd family travelled, steerage, from Newcastle, on the Roxburgh Castle arriving at New York on the 4th May 1881.

See 18th September 1841, 22nd March 1845, 22nd January 1864, 13th January 1877, and 1st May 1886.

14th April 1886 (Teesdale Mercury)

I am informed that some “prospecting” is now going on at the **Spanham Lead-mine, near Bowes,** with the view of re-discovering the vein (which is supposed to go through the hill to the Arkendale side of the range), and re-opening the works. Lead-mining here is of ancient date, and, in the immediate vicinity of the modern excavations, there is evidence of operations the history of which is entirely forgotten. These workings have been of singular extent and importance; and the numerous springs of water have been utilized in a remarkable degree for the purpose of “hushing,” that being the mode by which the metal has been brought to light. With much toil and patient assiduity the water has been conveyed in winding channels, from the highest summits, for the formation of the reservoirs by which the hushing has been accomplished. On the very top of some of the lower hills, a thousand feet above the level of the sea, these dams or reservoirs have been constructed, which is shewn by the remains of the embankments; and the force of the water is exhibited in the chasms in the hillsides, from which hundreds of tons of stone and soil have been washed into the valley, and lie spread over a great extent of ground. A huge trench has also been dug across the moor by the old adventurers, in the expectation of “baring" the vein, and the excavated earth, together with the now half-filled trench, have been overgrown with heath for centuries. On the heights bordering the Ellerbeck—a stream running a tortuous course amidst the hills—are a number of shallow pits, which have been used for smelting purposes, and "slag” has been found near them. Pits of this description were employed universally for the smelting of metals when dense forests covered the face of the land, and when luxuriant woods grew where now are desolate moors. …

17th April 1886 (Hexham Courant)

WEARDALE MINES

Those royalties recently leased by the Weardale Mining Company continue to develop most favourably. Quarterly “bargains” were let on Saturday to a supplementary staff of nearly 700 men, the wage basis being fair and satisfactory.

17th April 1886 (Hexham Herald)

WEARDALE

The reports of Killhope, Greenlaws and Groverake mines this week seem to be very satisfactory. Lead is steady and little offering. We quote Spanish at £13 7s 6d to £13 10s and English at £13 15s.

On Friday and Saturday, the quarterly bargains were let at Newhouse offices. The company gave employment to a large number of extra hands, also putting the miners more strictly to their time of working.

Deaths

Garrigill, High Windy Hall, 9th inst., aged 8 years, Percival, son of Adam Archer.

In 1851, at Priorsdale House, Garrigill, John Archer, lead miner, aged 53, his wife Hannah (Storey, married 12th February 1820) aged 51, children Mary 30, Wm, lead miner, aged 28, Joshua, lead miner, aged 20, Isaac, lead miner, aged 18, Edward, lead miner, aged 16, Adam, shepherd, aged 14, Hannah 11, James Octavious 5, and Elliot 3 years. John Walton died in 1860.

In 1861, at Garrigill, Hannah Archer, widow, farmer of 1500 acres, aged 61, children Mary 40, William mason, aged 30, Isaac, mason and farm manager, aged 28, James, mason, aged 15, and Elliott, shepherd, aged 13.
In 1861, at Welgill, Nenthead, Adam Archer, stonemason aged 24, and his wife Sarah aged 22. See 7th December 1860, 1st July 1871, 8th June 1878

21st April 1886 (Teesdale Mercury)

MIDDLETON-IN TEESDALE.

LEAD COMPANY'S PAY.—On Saturday evening last, our little town assumed quite a lively aspect, the London Lead Company's monthly pays having been made on that day. The Old Brass Band (under the able leadership of Mr A. Grieve) who have attained to considerable proficiency, gave a choice selection of music in the Market Place, which was most eagerly listened to by a large number of people, notwithstanding the coldness of the evening.

Last week I named the Spanham lead-mine, and I am now informed that another of our Yorkshire lead mines—that at Lunehead—which has been intermittently worked for a great number of years, is once more the scene of busy labour, the lessee being Mr John Slack, of Durham, who, it is to be hoped, will be amply rewarded for his pains and his expenditure. It was on a fine hot summer day, more than twenty years ago, that I first saw the Lunehead Mine, I was accompanied by a friend, and, as there was then no Tees Valley Railway, we drove the whole of the distance from Barnard Castle. We started early in the morning, and, our route lying through the most picturesque part of north-west Yorkshire, it is unnecessary to say that the journey was pleasant and enjoyable in the highest degree. We left our conveyance at the Grains-o'-Beck inn, and walked forward to the mine, which is situated in a ravine almost under the shade of Mickle Fell. A "beck," one of the grains of the Lune, watered the glen, and on one side was the manager's house, a neat building, in the midst of a garden. The mine was then worked by the London Lead Company, and on making our wish known to the manager, leave was politely given, and several of the workmen were appointed lo accompany us. A cave, out of which ran a stream of water, was, we were told, the entrance to the mine, or, as it was termed, the "level;" and, on the floor of this entrance, iron rails were laid for the passage of the diminutive waggons used in bringing out the ore. One of our attendants, remarking that we should want some "different claes to what we had on," dived into a storehouse, whence he emerged with a quantity of the miners' clothing, from which he invited us to make a selection. Accepting the invitation we laid aside our hat and coat, assuming in their stead a rusty cloth cap and a linen " kitle;" whilst our friend encased himself in a voluminous fustian shooting-jacket, the property of a gigantic miner, and completed his costume by the addition of an ancient straw-hat. Having thus propitiated the Genius of the mine, we were ready for our explorations. While we were at our toilet, an active young fellow had harnessed a pony to a string of the waggons, into one of which we got, while the others were filled by the workmen, each passenger with a lighted candle in his right hand our driver cracked his whip, and away we rumbled into the "level," the pony splashing at every step. The ventilation of the mine was faultless, and our first sensation was that of a delightful coolness as contrasted with the great heat outside. The passage, cut in the limestone rock, was very low, and we sat tightly squeezed in our narrow vehicle, compressing our elbows into the smallest possible space, and bending our heads to avoid striking the

ceiling. Thus we proceeded for a considerable distance, until we reached the "dry level," when we alighted and walked. Suddenly the passage expanded, and we found ourselves in a vast natural cavern. It was impossible to guess how far it extended around us, and the united light of our candles failed to pierce the profound darkness overhead. We made a short circuit, and found that the cavern had boundaries, the walls and floor being of solid limestone. From every point, however, the roof was invisible, and our voices echoed high up in its dim recesses. There were also several smaller caves, which served as receptacles for loose stones and earth. Following our conductors we arrived in time to hear, but not see, the operation of "blasting," for, during the explosion, we were directed to place ourselves behind a rock, where, nevertheless, a shower of small splinters reached us, accompanied by the dense sulphurous fumes of the powder. On examining the scene of the blast, we observed that the vein had been laid bare, and the ore was glittering in all its native brightness. A perpendicular ''shaft" above our heads, from whence proceeded the sound of blows and the muttering of voices, attracted our attention, and we learned from our guides that the miners were here leaving the vein we had seen, and were working upwards to a parallel vein. We could dimly discern the wooden ladders and the landings upon which the men stood as they wielded their pickaxes. Having noticed all the wonders of the mine, we re-entered our waggons, and returned to the light of day, much gratified with our underground excursion, and pleased with the civility and intelligence of our attendants. We dined well at the inn, after which we again took a ramble, and, climbing the hill behind the hostelry, were soon among the heather, which was here knee- deep. Still ascending, we reached the base of a precipice, upon the summit of which were several huge upright stones, giving the place its name of the "Seven Standards." Near this was a fine sheet of water, with boathouse and boat, which we were told was the fishpond appertaining to Wemmergill Hall. Silence was supreme, and saving the occasional whir of a grouse, as it rose startled from the heather, there was no sound to break the stillness. There was a magnificent view of the surrounding bills: — Mickle Fell, clothed in purple, shone resplendent in the afternoon sun; whilst the neighbouring ranges displayed every variety of colour, from golden brown to azure, as they stretched away to the far horizon. The "grains " of the Lune were everywhere visible, as they dashed down the slopes, or ran merrily between grassy banks in the depths of the valley. Half the time we had taken to ascend conducted us again to the inn, and we set out on our homeward journey, which was safely accomplished, our visit to the Lune-head Mine surviving as a pleasant remembrance to this day. ONLOOKER.

24th April 1886 (Hexham Courant)
Marriages
At Alston Primitive Methodist Chapel, 17th inst., Caleb Milburn, Weardale to Phoebe Hill, Nenthead.
In 1871, at Law Head, Stanhope, Robert Milburn, lead miner, aged 38, his wife Sarah 39, step son Caleb Peart, lead miner, aged 16, son, Jacob, lead miner, aged 16, son, Emerson, lead ore washer, aged 12, and daughter, Mary Hannah, aged 9. In 1881, Caleb was lodging at Tow Law, working as a coal miner.
In 1891, at Mount Pleasant, Heathercleugh, Caleb Milburn, lead miner, aged 36, his wife Phoebe, aged 34, and son Arthur Edwin 2.

Phoebe Milburn, died at Weardale 2nd quarter 1898.
In 1901, at Campbell St., Towlaw, Caleb Milburn, widow, coal miner, aged 46, children Arthur E 12, Sarah E 8, Phoebe J 6, Robert A 5, and servant, Annie Johnson 56.
In 1911, at Thornly Rd, Towlaw, Caleb Milburn, widow, coal miner, aged 56, children, Arthur Edwin, colliery labourer, age 22, Sarah Elizabeth 17, and Robert Allan, colliery labourer, aged 15.
At Alston Primitive Methodist Chapel, 17th inst., Emmerson Fairless, Weardale to Tamar Hetherington, Nenthead.
In 1891, at Wellgill Villa, Nenthead, Emerson Fairless (born Stagshaw, Hexham), travelling draper, aged 40, his wife Tamar (born Middleton in Teesdale), milliner & dressmaker, aged 35.

24th April 1886 (Hexham Herald)

STANHOPE

DEATH OF MR JOSEPH VIPOND.

We regret to record the death of an old Parishioner of Stanhope. Mr Joseph Vipond, who died at Stanhope on Tuesday last at the age of 65 years. In early life the subject of our notice worked at the Stanhope Burn lead mine and by close attention to study he by self-help was soon able to take up the position of schoolmaster, a calling he was however compelled to relinquish owing to losing his eyesight. Mr Vipond was consequently blind for some 40 years of his life, but this infirmity did not prevent him from making rapid progress in acquiring knowledge. For many years he was engaged and successfully, in a drapery and grocery business at Stanhope. … Deceased leaves no children but leaves a wife to mourn the loss of a gentle kind and good husband.
In 1841, Joseph Vipond, lead miner aged 40, Mary aged 40, Joseph, lead miner, aged 20, John lead miner aged 15, and Isaac 10. In 1851, at Crawleyside, Mary Vipond, widow, aged 52, sons, Joseph, formerly schoolmaster, aged 30, blind, John, lead miner, aged 24, and Isaac, masons apprentice, aged 19. Joseph married Mary Todd, in 1877.
In 1881, at Quaker Square, Stanhope, Joseph Vipond, retired grocer, aged 60, his wife Mary 51, and brother Isaac Vipond, stonemason, aged 49.
Deaths
Alston, Physic Hall, 17th inst., aged 28, Elizabeth wife of John Place, surfaceman.
In 1861, at Loaning Head, Alston, Phillis Kirsop, farmer of 15 acres, aged 53, children Mary 30, Thomas, lead miner, aged 26, Lancelot, lead miner, aged 24, John, lead miner, aged 22, Joseph, masons labourer, aged 20, granddaughter Jane 9, and grandson John 6.
In 1871, at Loaning Head, Alston, Phillis Kirsopp, widow, formerly farm servant, aged 65, sons Thomas, lead miner, aged 36, Lancelot, agricultural labourer, aged 33, granddaughter Jane Kirsopp, house maid, aged 20, grandsons John Place, stone breaker, aged 16, and Alfred Kirsopp 1 year.
In 1871, at Physic Hall, Bank Top, Isabella Bainbridge, widow, retired farmer 38, children Peter 15, Elizabeth R. 13, Thomas W. 10, Jonathan W. 8, Jane A. 6, Joseph 3, and Frances M. 1 year.
In 1881, at No. 2 Physic Hall, John Place, general labourer, aged 25, his wife Elizabeth R. (Bainbridge, married 12th December 1878) aged 23, and daughter Elizabeth 1 year.

In 1891, at Physic Hall, Isabella Bainbridge (husband Joseph farmer of 120 acres in 1861, Joseph died in 1869 aged 62), widow 58, son Peter railway worker, aged 35, son Thomas W. General labourer, aged 30, grandson Herbert J. Bainbridge, aged 15, granddaughter Phillis M Place 9, and granddaughter Isabella Place 7 years.

12th June 1886 (Hexham Courant)

WEARDALE

A WEARDALE MINING STORY

The inherent sagacity in mining matters said to exist in many northern dalesmen has just been illustrated in Weardale. On the hill adjacent to Irishope, burn is a disused ironstone quarry (Grove Heads), which was worked by the Weardale Iron Company some half dozen years ago, at which time a rich bed of silver lead ore was laid bare during operations. The Company having no claim to the lead or any reciprocal understanding with the late lessee Mr W B Beaumont, were debarred from touching this mineral wealth, which however, had not escaped the notice of a little boy prior to its being covered up with refuse, who shrewdly marked the spot and kept the secret of its whereabouts until he had completed his term of years at school recently. Being in want of work, he applied to the present Weardale mining Company's manager, and secured a "bargain" of £2 per bing (8cwts) for all the silver lead ore he could find. He then accordingly proceeded to the aforesaid spot, and speedily clearing away the dirt, he ploddingly filled his little wooden dish with nuggets carrying them to the top of the quarry - a work he still may be seen doing daily. His last consignment to the smelt mill was the large amount of 47 bings, for which the sum of £95 stands to the credit of this boy of fifteen years in the Company's books. In order to satisfy the most sceptic, it may be stated the lad's name is John W. Robinson, Greenwell - a homestead adjoining the source of his lucrative labours.
In 1871, at Wear Side House, Stanhope, Thomas Robinson, lead miner & farmer of 19 acres, aged 34, his wife, Hannah 32, children Mary A. 10, George 8, Adah 6, and John W. 9 months. Hannah died in 1880 aged 41.
In 1881, at Whitestones, St John's, Weardale, Thomas Robinson, widow, lead miner, aged 44, children Adah Robinson, housekeeper, aged 16, John W. 10, and Phebe H. 7., and Amelia 4.
In 1891, at Greenwell, St John's, Weardale, John W. Robinson, farmer, aged 20, his sisters, Phebe, housekeeper aged 17, and Amelia, housekeeper, aged 15. In 1901, at Greenwell, Ireshopeburn, John W. Robinson, Ironstone miner, aged 30, his wife Phoebe (Lee, married 1897) aged 28, daughter Hannah, aged 1, and domestic servant, Ann Emerson aged 15.

19th June 1886 (Daily Gazette for Middlesbrough)

DYNAMITE STORES IN WEARDALE.

At Stanhope Town Hall Captain Bainbridge, the responsible chief agent of the London Lead Company, was yesterday charged on a summons for that he did unlawfully keep a quantity of dynamite and gunpowder—75lbs, of the former and 30lbs., of the latter—in an unauthorised place—to wit, at a store situate at Cornish Hush, Bolihope, which was not duly licensed under the Explosives Act. —It transpired that for the convenience of the lead miners the explosive store at Whitfield Brow had been removed to Cornish Hush, Bolihope; and Superintendent Liddell's complaint was that no plan of the new store had been submitted, that no license had been obtained, and that the building wad unfit and insecure for such a purpose. —Captain Bainbridge said that Her Majesty's Chief Inspectors of Explosives had commended the Company's ten or fifteen stores as the best they had seen, Captain Bainbridge also understood the old license would cover the new store when the old one was discontinued. —A long discussion seemed to lead the Bench to a belief that there had been a misunderstanding, and the case was dismissed on payment of the costs.

21st June 1886 (Hartlepool Northern Daily Mail)

A GOOD FIND IN WEARDALE. —On Friday, the employees of the Weardale Mining Company cut another rich vein of ore in Rookhope Mine. The vein is calculated to be about seven feet thick and likely to yield nine tons of solid lead to the fathom.

25th June 1886 (Durham County Advertiser)

ATTEMPTED SUICIDE IN WEARDALE. —On Saturday, a widow, named Barbara Robson, whose husband was killed some time ago, attempted to commit suicide by hanging herself in her own house in Weardale. The poor woman was put under restraint, and will be removed to the asylum.

26th June 1886 (Hexham Herald)

Marriages

Alston

SAD ACCIDENT AT GARRIGILL.

On Friday evening 25th ult., a very melancholy accident befell a young man named Walter Millican son of Mr George Millican, now resident at Pasture House. It appears that the above named left Garrigill Village to proceed home, about ten o'clock when in passing along the footpath past what are locally termed "The Straits", it is conjectured that he must have been resting on the fence which unfortunately gave way and precipitated him to the bed of the river Tyne a distance of some 60 feet with a direct fall of 10 feet.

In 1871, at Hill House, Garrigill, George Millican, farmer and lead ore mine agent, aged 60, his wife Mary 53, Thomas, lead ore miner, aged 24, Mary 22, Hannah 20, George Alfred, lead ore miner, aged 17, Walter, shepherd, aged 14, Cresswell Friend 12, and Emily 9.
In 1881, at Mid Lee House, Garrigill, George Millican, Moor Master & farmer of 47 acres, aged 70, his wife Mary, aged 63, children Thomas, game keeper, aged 34, Walter, lead miner, aged 24, and Emily aged 19.
George Millican senior died 22nd January 1890, aged 79, his wife Mary predeceased him in the first quarter of 1884, aged 66.
See 18th October 1861, 3rd May 1880, 25th January 1890

ACCIDENT WITH A DYNAMITE CAP.

On Wednesday last a young man named Elliott Archer of Garrigill was picking the centre of a dynamite cap with a pin when it exploded and blew off his left thumb and more or less seriously damaged both hands.

In 1891, at High Windy Hall, Garrigill, Thomas Archer, farmer, aged 64, his wife Isabella 60, children John, lead miner, aged 42, Elliott, lead miner, aged 24, Elizabeth J. 20, Frances 14, and grandson, Allan Archer 2.

10th July 1886 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

Dr Masterton's quarterly report for No. 2 Nenthead district was read as follows. Nenthead July 2nd 1886. 13 births and 13 deaths have been registered during the quarter ending 30th June. On an estimated population of 2333, 13 deaths gives give a death rate of 22.4 per 1000 per annum, of the 13 deaths 7 were males and 6 were females, and of the 13 births, 5 were males and 8 were females. Ages at death, 1 year and under 5, 2; 5 years and under 15, 2; 15 years and under 25, 1; 25 years and under 60, 3; 60 and upwards 5, total 13. Cause of death; three died from Scarlatinal Dropsy, one from Putrid sore throat following Scarlet Fever, one from miners Asthma, one from Heart Disease, three from natural decay, one from Phthisis, two from diseases of Nervous system, and one killed by an accident. In my report for last quarter at the beginning of April, I intimated that a fresh outbreak of Scarlet Fever had begun at Overwater and Wellgill. The fever had lain dormant during the winter months but appeared again with renewed energy at the approach of spring. Within a very short time, 13 houses were infected and there have been 34 cases during the three months. No deaths have resulted from the fever itself but diseases following the fever have proved fatal in four cases. At present, the district is again clear but it is doubtful whether we have as yet seen the last case of this epidemic, as there are still a few houses liable to become infected. Instructions

have been given for a thorough cleansing and disinfection of the houses in which the fever has appeared, and these have in most cases been effectually carried out.

Marriages

Primitive Methodist Chapel Stanhope, 4th inst., Thomas Watson, Stanhope, to Jenny only daughter of John Sparke of High House, Newlandside.

Deaths

Alston 7th inst., aged 62, Henry son of the late Toward Walton.

He married Barbara T. Steel, at Newcastle in 1861, The Sydney Morning Herald of 29th July 1861 records:

July 23rd, by license, by the Rev. W. Hill, at the residence of the bride's father, Mr. William Alston, son of Mr. Thomas Hutchinson, of Alston, Cumberland, to Miss Barbara Telena, daughter of Mr. James Steel, engineer, of Newcastle.
On 28th October 1861, the following advertisement was placed in the Sydney Morning Herald

> "Grocers Assistant wanted, one of good references and business habits. Apply by letter, stating age, where last employed, and what salary will be expected. W. A. Hutchinson & Co., Newcastle."

Sydney Morning Herald Tuesday 8th May 1877
THE FRIENDS of Mr. W. A. HUTCHINSON, proprietor of Alston Soap Works, are respectfully invited to attend the Funeral of his deceased SON. William Ashton; to move from his residence, Abattoir Road, Balmain, THIS (Tuesday) MORNING, at a quarter to 10, to Balmain Cemetery.

Sydney Morning Herald Saturday 12th February 1881
MUNICIPAL ELECTIONS.
BALMAIN. -Alderman W. A. Hutchinson has been elected Mayor of the borough of Balmain.

The Sydney Morning Herald, Saturday 25th February 1888
Marriages
HUTCHINSON-MANNIX, January 31, at St. Mary's Cathedral, Sydney, by the Rev. J. Byrne, James Steel, eldest son of W. A. Hutchinson, Esq., Globe Point, to Emily, second daughter of the late P. Mannix, Esq., Klng-street, and Mrs. J. F. Liddy, George-street, Sydney.
Sydney Morning Herald, Friday 17th January 1896
Hetton Coal Company
At the half yearly general meeting of the Hetton Coal Company held to day, the Chairman (Mr W A Hutchinson) stated that the company had been very successful in its attempt to establish a foreign trade. The profit tor the half year was £20, 418, out of which the directors proposed to pay a dividend at the rate of 6 percent per annum and carry forward £16,243. The report and balance sheet were adopted.

Sydney Morning Herald Wednesday 23rd June 1897
THE LATE ALDERMAN W. A. HUTCHINSON.
THE FUNERAL.
The funeral of the late Alderman W. A Hutchinson, J.P., of the Globe Council, took place yesterday morning The cortege moved from the late residence of the deceased gentleman, Alston, Globe Point, at 10 o'clock, prior to which a short service was conducted in the house by the Revs J Dixon, H T. Holliday, and J. Woodhouse. The procession, fully half a. mile in length, was then formed. The
fact that Mr Hutchinson was held in general respect was fully borne out by those who attended the funeral. Many of the shops and other places on route were partially closed, and there was everywhere evidences of the esteem in which the deceased gentleman was held. Waverley Cemetery was reached about noon The interment took place in the Church of England portion.

Sydney Morning Herald Thursday 24th June 1897

Newcastle City Council.

It was decided to forward a letter of condolence to the widow and orphans of the late Mr. W. A. Hutchinson, formerly a resident of Newcastle and president of the Municipal Association.

In 1871 at Bank Top House, Margaret Philipson, widowm grocer & provisions dealer, aged 66, and daughter Sarah aged 44.

11th September 1886 (Hexham Courant)

THE LEAD TRADE IN TEASDALE

The lead trade in Teasdale, associated with the pursuit of agriculture, is the staple industry of the neighbourhood; and for a number of years past lead mining has been much depressed, although it is satisfactory to note that a favourable turn has now taken place. The London Lead Company employ the great bulk of the workmen, and are lessees of the chief royalties, the Duke of Cleveland being lord of the manor, and the owner of the mineral wealth of the dale. A short time ago the lessor acting on the suggestion of his legal advisors

and his chief agent (Mr W T Scarth) entered into an arrangement whereby the royalties or dues should rise and fall with the fluctuating price of pig lead, and at the same time the lessor signified his intention to forego between £1,500 and £2,000 in dues in order that an impetus might be given to fresh exploration, which so far have proved successful. The new arrangements have worked satisfactorily, and the general depression which has no longer overshadowed this industry show signs of improvement, and the change is heartily welcomed by the inhabitants throughout Teesdale. The Governor and Company have facilitated important alterations in the management and working of the vast undertakings all of which are resulting in the well being of the concern, and the prosperity of the working population of Teesdale.

Deaths

Clarghyll, 6th inst, aged 22, Annie daughter of the late Walton Wilson

William Wilson, married Jane Bell, 29th June 1816, at St Augustine's, Alston.

In 1841, at Clarghyll, Alston, William Wilson, lead miner, aged 50, his wife Jane 50, children, George, lead miner, aged 20, William, lead miner, aged 19, Mary 15, Thomas 13, John 10, Henry 7, and Walton, 5.

William Wilson died 13th June 1850

In 1851, at Clarghyll, Alston, Jane Wilson, widow, farmer of 50 acres, aged 59, born Allendale, children, Jane 26, Mary 25, Henry 17, and Walton 15.

Jane Wilson, married Edward Robson, 4th quarter 1852, at Alston.

Edward Robson died 3rd quarter 1860, registered, at Alston.

In 1861, at Ayle, Kirkhaugh, Jane Robson, widow, farmer of 16 acres, aged 36, and visitor, Jane Wilson, widow, retired farmer, aged 71.
Jane Wilson, senior, died 3rd quarter 1868, aged 76, registered at Haltwhistle.

Walton Wilson married Ann Cawthorn, 8th March 1859, at Alston.

In 1861, at Clarghyl House, Alston, Walton Wilson, stonemason, aged 25, his wife Ann aged 26, born Durham and son William 1.
In 1871, at Clarghyl House, Alston, Walton Wilson, stonemason & landowner, aged 35, his wife Ann aged 37, children William 11, Mary 9, Ann 6, Jane 3, and Michael 1 year.

Walton Wilson died 2nd quarter of 1880 aged 44.

In 1881, at Clarghyl House, Alston, Ann Wilson, widow, farmer of 54 acres, aged 48, children William, farmers son, aged 21, Mary, farmers daughter, aged 19, Annie 16, Jane 13, and Michael 11.
In 1891, at Clarghyll, Alston, Ann Wilson, widow, farmer, aged 57, born Winlaton, Durham, children, William, Mason, aged 31, Jane 23, and Michael aged 21, probable death, 4th quarter 1894, registered at Carlisle.
Possible death of Ann Wilson, 2nd quarter 1895, aged 62, registered at Carlisle.
See 21st June 1850, 31st August 1889.

At Town Head, Alston, 2nd inst. aged 60, Mary wife of Richard Dixon.

In 1881, at Alston workhouse, Richard Dixon, master of workhouse, wife Mary, matron of workhouse, aged 54, daughters Emily I., assistant to matron, aged 21, Margaret, assistant to matron, aged 20, and visitor Sarah A. Hetherington, dressmaker, aged 21.

25th September 1886 (Hexham Herald)

STANHOPE

23rd October 1886 (Hexham Courant)

WEARDALE
EMIGRANTS

On Wednesday morning, a batch of emigrants left Stanhope station on route for Ontario, Canada. A number of friends were at the station to see them off and wish them God speed, and wish their welfare. They were:- Mr George Watson snr. (quarry man) Mr George Watson jnr., Mr John*?* William Watson, Miss Isabella Jane Watson. ...

In 1871, at Stanhope, George Watson, limestone quarryman & Primitive Methodist local preacher, aged 31, his wife Eleanor (Kidd, married 1864) aged 28, children Isabella Jane 6, Thomas Wm 4, George 4, and Margaret 1. Eleanor died the first quarter of 1872, aged 29. In 1881, at Butts Head, Stanhope, George Watson, widow, quarryman, aged 41, children Isabella Jane 16, Thos. William 14, and George 13. See 25th September 1886. It is unlikely to be coincidence that following a visit from his wife's brothers, Thomas decides to take his family to Ontario.
The Canadian 1891 census shows, at Mersea, Essex South, Ontario, George Watson, widow, Methodist, farmer, aged 51, Thos William Watson, Methodist, farmer, aged 24, George Watson, Methodist, farmer, aged 23, Isabella Watson, Methodist, aged 26.

27th October 1886 (Teesdale Mercury)

A MINER'S HOLIDAY. —On the 15th inst., the employees of the Tees-side and Hood Crag Mining Companies were given a day's holiday and an excursion to Edinburgh. These companies are not of long standing, but, despite the low price of lead and the heavy royalties, they have, through skilful management, been able to keep their mines working, and have thus afforded employment for a large number of the dales people. The mines are situate at the foot of Crossfell, near to where the river Tees takes its rise, and ten miles from Alston station, the nearest and most available station for the majority of the men, consequently the employers arranged for the excursion to leave this place. All the workmen availed themselves of the opportunity of visiting the "land o' cakes," and all enjoyed themselves immensely. Many of the men had read the History of Scotland, and knew something about the bitter persecutions of the Covenanters during the former part of the 17th century; and it was quite a treat to have the privilege of taking a stroll through the Grass Market, the scene of so many notable events for centuries, and the place where hundreds of the Covenanters sealed their faith with their blood. Greyfriars Church, a very old- looking building, excited considerable interest, as it was here that John Knox bid defiance to persecuting papists, and in their own church preached "Christ's blessed evangel." The old graveyard attached to Greyfriars was next visited, where so many of the Covenanters are buried who suffered martyrdom during the reigns of Charles II and James II, and where "bluidy Mackenzie" lies buried. The Regent Morton and Allan Ramsay, the poet, with many more illustrious Scots, have found a last resting-place in this graveyard. Cowgate was once one of the most fashionable parts of Old Edinburgh, but is now one of the dirtiest, lowest, and worst quarters; and many more places of interest, on account of their

historic associations, were visited during the day. New Edinburgh also was not without its attractions to these hardy toilers. The buildings are splendid, whilst several graceful monuments add to the beauty of the scene. The miners stood in groups admiring the monuments erected in memory of Robert Burns, the Scottish bard, Sir Walter Scott, the novelist, and Chalmers, the theologian. The majority of the visitors had read the works of these great men, and it was a source of pleasure to them to visit their country and see their monuments. The excursion train, which left Alston at 5 a.m., returned at 11.30 p.m., all the passengers having thoroughly enjoyed their day's outing. They unite in wishing success to the Companies and to their manager, J. H. Robinson, Esq. The most remarkable thing about this excursion was the fact that a father and his son, the latter about thirty years of ago, had neither of them till that day ever had a ride in a railway train! —*Correspondent.*

30th October 1886 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY.

The Medical Officers report of No. 2 district for the quarter ending 30th September was read. 22 births and 9 deaths have been registered. Of the births, 15 were males and 7 females and of the deaths, 3 were males and 6 were females. On the estimated population of 2333, 9 deaths give a death rate of 15.42 per 1000 per annum. Ages at death, 3 were under one year, 1 was 5 and under 15 years, one was 15 and under 25, three were 25 and under 60, one was 60 and under 70. Causes of death, 3 died in infancy from debility, one from Scarlet Fever, one from Heart Disease and dropsy, three from disease of the lungs, and one from disease of the nervous system. During the quarter Scarlet Fever occurred in 6 houses, and in these there were 23 cases. One case, that of a girl of 7 proved fatal on the 5th day, the fever being of a more malignant type than has prevailed during the epidemic. The other cases made good recovery. No fresh case has occurred during the past six weeks, the district at present being entirely clear. Recently an epidemic of catarrh, bronchial, and intestinal disorders has prevailed extensively among the inhabitants of the Nenthead district. The bronchial variety has told most severely on the health of the youngest children, and although there have been no fatal cases, yet several of them have come through a very critical illness. Intestinal catarrh has also been very prevalent both among children and adults, diarrhoea being the result. I think it is worthy of note that last year there was an entire absence of autumnal diarrhoea in this district while this year it has been the reverse. Its prevalence during the present autumn, along with the catarrh epidemic is no doubt attributed to injurious atmospheric influences. Two cases of Typhoid fever were reported from Garrigill, both in men whose occupation lies in Harwood where several cases of this fever have occurred presumably from drinking impure water. There has been no further spread of this disease. My attention was directed to the fact that the flushing of the main sewer in Garrigill has been much neglected during the summer. I went over the watercourse with the Lead Company's agent and ascertained this to be the case, the reason being an objection to the water supply having its course through a certain field. I understand this matter has already been dealt with by the Authority, but as it is of the utmost importance for the health's sake, that all sewage and excreta should be got rid of, I may here be allowed to urge the

necessity of having the regular flushing of the main strictly enforced. The Inspector of Nuisances and myself made the usual visit of the district and found the sanitary state of the district satisfactory. John Masterton.

3rd November 1886 (Northern Echo)

SHOCKING ACCIDENT IN WEARDALE

A fearful accident occurred in the village of Rookhope, Weardale, om Monday, to a young man named William Coulthard, son of Mr J. Coulthard, Saugh Shields, St. John's Chapel. Coulthard, who is in the employ of the Weardale Mining Company, with a few companions was proceeding to spend the night in the adjoining village of Boltsburn. Having uncoupled two waggons belonging the Iron Company, whose line is adjacent, they essayed to descend the incline, Coulthard being on the front of the second one. This waggon collided with the first, causing him to fall between the two, the last passing over both legs. Drs. Hewitson and Robinson were called, and found it necessary to amputate the right leg, with but small hopes of saving the other.

6th November 1886 (Hexham Herald)

ALLENDALE

THE LEAD INDUSTRY

In presence of the prevailing rumour in Allendale that it is Mr W. B. Beaumont's intention to resume, at the commencement of next year, those mining and smelting operations which unfortunately have been so long on the decline, and latterly all but suspended, ...

The past few years has, however, brought matters to a climax (*the decline in the lead industry and the resulting unemployment and poverty*) with the natural result of a general exodus from the district, and our readers will be surprised to learn that the population of the Parish of Allendale has decreased during the past 25 years by some 2,500 inhabitants. The district of West Allendale, which a few years ago contained a working population of over 500, is now a desolate wilderness, painful to behold, with not a dozen workmen in employment. Allendale fares little better, the residue of the working population seeking employment many mile away from home, whilst Allendale town, once the centre of a thriving trade, is estimated to have a population of 600 or less than it had not so many years ago, is still rapidly declining, and at the present moment is fast becoming a purely agricultural village. The direct cause of the above lamentable state of affairs is the almost total closing of the lead mines, and the consequent decrease in the manufacture of lead at the smelt mills. A few statistics on this point will serve to show the actual extent of this decrease, and the great loss of wealth that necessarily follows. Commencing with the fact that at one time the Allendale mines produced one seventh of the lead ore raised in the kingdom, we may state that five years ago the output of lead ore was 2,000 bings whilst the annual output usually ranged at one time from 8,000 to 10,000 bings. It ought also to be noted that at one time the following lead mills were in full operation receiving their lead ore from the Allendale and Weardale mines, viz: Allen Mill, Allenheads Mill, Dukesfield Mill, and Blaydon Mill. The only one in existence now, doing the work formerly done by those mills, is Allen Mill. ... the Allendale mines were until 1883, leased by Mr Beaumont, the greater part of the lead ore from which was smelted at Allen Mill, and the total quantity of

lead manufactured from the Weardale and Allendale ores 20 years ago amounted to something like 10,000 tons. In the Allendale mines Mr Beaumont is now associated with a limited liability company, with a capital of £75,000, in £100 shares, under the title of the "W. B. Lead Mining Company, Limited." Since this took place, however, no perceptible change for the better has occurred in the working of the mines, so that the outlook has been very gloomy indeed ...

Population of Allendale Parish (from Bulmer's Directory 1887)

EXTRACT FROM THE WEARDALE LEAD COMPANY, DIRECTORS REPORT TO BE SUBMITTED ON 16TH NOVEMBER 1886, FOR THE YEAR ENDING 30TH JUNE 1886
At Watson's Drift a number of tributers have been placed on the soles, which were formerly thought to be of little value, but which have since turned out to be the richest workings in this mine, and there is now new ground opened here (Greenlaws) for nearly 490 fathoms in length. Seeing that this drift proved so rich in the soles, Lowes Drift has been driven 57 fathoms, and a rise put up to Watson's Drift above. This has ventilated and laid open the ground for stoping, which is now being carried on with favorable results. The new pumping and winding shaft from the old workings in the "Great Limestone" (Kilhope) has been sunk through the Plate, and the "Quarry Hazel" down to the top of the "Four Fathoms Limestone." Drifts which have been run east and west on the Kilhope Head vein for a distance of 58 fathoms have opened up ground in the "Quarry Hazel" producing from two to six tons of ore per fathom. In this part of the mine there is a stretch of ground more than a mile in length, with the vein untouched below the "Great Limestone." This discovery is of great importance, inasmuch as it assures the continuance of the famous Kilhope Mine. At Groverake important developments continue to be made in the upper workings, and this mine is turning out a large quantity of ore. Boltsburn has improved since last report, but the ground is very hard, and opens out slowly. The "Coal Sill" drift has been driven 31 fathoms on the vein, and in places is very rich. It has taken the directors more than three yeas of personal supervision to bring the mines into their present promising condition, and the outlook for leadmining in Weardale is more favorable now than it has been for some years. Notwithstanding the low price of lead, which makes the profitable working of lead mines in this country difficult, and in many cases impossible, the directors congratulate the shareholders on the fact that this property is now in such a position that the payment of permanent dividends on the invested capital is in all probability assured. The efforts of the directors to open out and develop this great property have been ably seconded by the manager, Mr Jas, Blenkiron, and by the mine agents, Messrs. Phillipson, Thompson, and Watson, as well as by the mill agents, Messrs. Maddison and Bowman. Mr Tuffnell Southgate has retired from the Board, and it is with much regret the directors have to announce the death, in March last, of their esteemed colleague. Mr George Batters. All the directors retire, but offer themselves for re-election. The auditors, Mr George Broom and Mr James Fraser, also retire, and offer themselves for re-election. The directors propose that the dividend be made payable on and after the 30th instant.

11th November 1886 (Northern Echo)
THE ACCIDENT IN WEARDALE. —INQUEST. —Yesterday, an inquest was held at Rookhope on the body of Mr Wm. Coulthard, striker, in the employ of the Weardale Mining Company, who died on Monday night from injuries received a week since, and which we reported at the time.

A verdict of “Accidental death through misadventure” was returned.
In 1841, at Saugh Shields, St John’s, Stanhope, William Roddam, lead miner, aged 45, his wife Mary (Potts, married 24th April 1819) aged 40, Children, John, lead miner, aged 20, Hannah 15, Mary 10, Jane 10, William 8, Dinah 6, Whitfield 4, and Elizabeth 8 months.
In 1841, at Dalehead, Park, Stanhope, Henry Coulthard, lead miner, aged 35, his wife Hannah (Bell, married 8th June 1822, at Stanhope) aged 35, Children, John, lead miner, aged 18, Ralph, lead miner, aged 15, William, lead miner, aged 14, Mary 10, and Henry 8.
John Coulthard married Hannah Roddam 4th quarter 1846, at Weardale.
In 1851, at Westgate, Stanhope, John Coulthard, lead miner, aged 28, his wife Hannah 27, and daughter, Mary A 1 year. In 1861, at Island House, St John’s, Stanhope, John Coulthard, lead miner, aged 38, his wife Hannah 37, children, Mary A 12, Hannah 8, Henry 6, Jane 4, William 1.
In 1871, at Island House, St John’s, Stanhope, John Coulthard, lead ore washer, aged 48, his wife Hannah 47, children, Mary A 22, Henry, lead ore washer, aged 16, Jane 14, William, lead ore dresser, aged 11, Elizabeth 8, Anna 6, John 4, and Charlotte 2.
In 1881, at Shaugh Shield, St John’s, Stanhope, John Coulthard, lead ore dresser, aged 58, his wife Hannah 57, children, William, lead ore washer, aged 21, Anna 16, John 14, and Charlotte 12.
In 1891, at Saugh Shield, St John’s, Stanhope, John Coulthard,farmer, aged 68, his wife Hannah 67, children, Elizabeth 28, John, lead miner, aged 24, Charlotte 22, granddaughters, Mary J Lee 12, and Zillah S Lee 10, (both born in Yorkshire).
Probate 1891: The will of John Coulthard late of Saugh Shields in the parish of Stanhope in the county of Durham Farmer who died 11th May 1891 at Saugh Shields was proved at Durham by John Coulthard of Saugh Shields Farmer the son one of the Executors. Personal Estate £110.
Hannah Coulthard died 4th quarter 1896, aged 73, registered at Weardale.
See 3rd November 1886

13th November 1886 (Hexham Courant)

THE WEARDALE LEAD COMPANY LIMITED

The following is an abstract of the report of the directors for the year ending June 30th 1886:- The revenue account after payment of debenture interest, show a net profit for the year of £4,150 4s 5d, which with £587 16s 10d brought forward from last amount makes a total of £4,738 1s 3d. Deducting from this amount the interest dividend of 1s per share, paid on the 24 April last, amounting top £2,012 9s and £236 18s 1d, the directors remunerations, a balance of £2,489 14s 2d is left to be dealt with. The directors recommend that a further dividend of 1s per share be paid making a total distribution for the year of 2s per share or 8 percent per annum free of income tax. This will absorb £2,012 9s and leave a balance of £477 5s 2d to be carried forward to the next account. The 9,751 shares issued in February do not participate in this dividend. As will be seen from the balance sheet £10,000 of debentures have been issued carrying interest at the rate of 6 percent per annum. £7,730 has been expended during the year in opening up new ground, in the construction of reservoirs, and in providing additional machinery, buildings &c., &c. Mining drawing, and smelting have been carried on throughout the year, with the

exception of 6 weeks in the winter, when in consequence of the severe frost and deep snow, dressing and smelting were stopped altogether, and mining seriously interfered with. The mines, with one or two exceptions, have greatly improved during the year, and are now in good producing conditions. It has taken the directors more than three years of personal supervision to bring the mines into their present promising condition, and the outlook for lead mining in Weardale is more favourable now than it has been for some years. Notwithstanding the low price of lead, which makes the profitable working of lead mines in this country difficult, and in many cases impossible, the directors congratulate the shareholders on the fact that the property is now in such a position that the payment of permanent dividends on the invested capital is in all probability assured.

ALSTON

EMIGRATION

In furnishing the following account of the recent emigrations that have taken place from Alston and neighbourhood it may be remarked that the inhabitants of the same have always manifested a great spirit and inclination for emigration. It has been calculated by a person who has made notes of local events that about 594 people have left their native homes in the neighbourhood for the Antipodes and other parts of the British dominions, being a great number considering the sparcity of the population. These emigrations of course have taken place at different periods and extend over a great number of years.

Without, however referring further to those who emigrated some time ago, the following brief account of emigration of recent date that have taken place will not, it is hoped, be uninteresting to a portion of our readers: - On the 26th April three years ago, John P. Haldon and his wife left Alston for America. On the 30th November 1885, James Keenleyside, watchmaker, and William Dixon, druggist's assistant, left Alston for Queensland. On the 5th January last, John Walton, tinsmith, left Alston and arrived at Sydney. On the 20th March last, John Storey, jun., and his wife (son of John Storey of Tynehead House near Alston), left home for Queensland. All the above parties have arrived safely at their respective destinations and have succeeded in finding employment.

The last on my list are a young man of the name of Thomas Errington, a nephew of the late Thomas Pearson, of Alston, and his cousin, Jane Robinson, who left home on the 2nd inst., their destination being Port Elliot, Adelaide. These two young persons may be said to have a home to go to, as they go out to Thomas Robinson, who left Nentwater a long time ago, and who is uncle to the young man and father of the young woman. – May God speed them well.

Deaths

At Hillersdon Terrace, Nenthead, 10th inst., aged 30, Jane wife of Joseph Vickers, lead ore washer.

Matthew Vickers married Hannah Coulson, 5th August 1802, at St Augustine's, Alston.

Children of Matthew and Hannah Vickers:

Emerson, born 10th June 1803, 1st son of Matthew Vickers of Nenthead (no Weardale) by his wife Hannah daughter of Joseph Coulson.

Joseph born 25th August 1805, 2nd son of Matthew Vickers of Nenthead (no Weardale) by his wife Hannah daughter of Joseph Coulson.

John born 6th January 1808, 3rd son of Matthew Vickers of Nenthead (no Weardale) by his wife Hannah daughter of Joseph Coulson.

Matthew born 27th December 1810, th Son of Matthew Vickers of Overwater (no Weardale) by his wife Hannah daughter of Joseph Coulson.
Hannah baptised 27th August 1814
Jonathan baptised22nd January 1820
Matthew Vickers of West Nenthead, was buried 31st December 1836, aged 58, at Alston.

Joseph Vickers married Hannah Stephenson, 4th February 1832, at St Augustine's, Alston. Hannah Vickers died 2nd quarter 1839.

In 1841, at West Nenthead, Joseph Vickers, lead miner, aged 35, children, Ann 9, Hannah 6, Thomas 3, Mother, Hannah Vickers 60, and brother Jonathan 20.
Joseph Vickers died 3rd qtr 1841.

Jonathan Vickers married Ann Hind 6th March 1845, at Alston.
In 1851, at Overwater, Hannah Vickers, widow, pauper formerly lead miners, wife, aged 73, son, Jonathan, lead miner, aged 33, daughter in law, Ann32, grandchildren, Matthew 5, Joseph 3, Hannah 1, and grandson, Thomas Vickers, lead ore washer aged 13.
Hannah Vickers was buried at Nenthead 20th September 1853, aged 73.

In 1861, at Overwater, Alston, Jonathan Vickers, lead miner, aged 43, his wife Ann, aged 42, children, Matthew, lead ore washer, aged 15, Joseph, lead ore washer, aged 13,Hannah 11, Isabella 9, Jonathan 7, Ann 5, Elizabeth 4, John 2, and brother, Thomas, lead miner, aged 23.

Matthew Vickers, died 11th July 1867, and was buried at Nenthead, 14th July 1867, aged 21. See 23rd July 1867.
In 1871, at Low Dyke Heads, Nenthead, Jonathan Vickers, lead miner, aged 53, his wife Ann aged 52, children Joseph, lead miner, aged 23, Hannah 21, Jonathan, lead ore washer, aged 17, Elizabeth 13, and Johnny 12.
Ann Vickers was buried at Nenthead, 7th January 1880, aged 61.

In 1881, at Bloomsberry Hall, Jonathan Vickers, widower, lead miner, aged 63, children, Hannah, house keeper, aged 31, Elizabeth, dressmaker, aged 24, and John, lead miner, aged 22.
Jonathan Vickers was buried at Nenthead, 15th April 1883, aged 65.

In 1881, at Hillersdon Terrace, Nenthead, Joseph Vickers, lead ore washer, aged 32, his wife Jane (Graham, married 2nd December 1875) aged 26, children Tom 4, William 2 (this is an error the birth was registered as Matthew), and Mary A. 1 month (buried at Nenthead, 26th June 1887, aged 6).
Joseph Vickers died 23rd April 1890, aged 42, buried at Nenthead on the 26th.

In 1891, at Hill Top, Nenthead, John Vickers, single, lead washing overman, aged 32, his unmarried sister Hannah, housekeeper, aged 41, nephew Tom Vickers, out of employment, aged 14, nephew Matthew aged 12, and niece Hannah Florence aged 5.
See 11th December 1875, 10th January 1880 & 3rd May 1890.

20th November 1886 (Hexham Courant)

LOST ON THE WEARDALE MOORS

On Saturday evening last two men left St John's Chapel about 7 p.m. for Teesdale. The night was very wet, and one of them, Thomas Horn, became exhausted and could proceed no further. His mate struggled on with him for some time, and at last left him and went for assistance to the nearest home

some distance off. On returning with help the poor fellow could nowhere be found until next day. Search parties were organised when they found him dead in Langdon Beck. He was only a young man of some 18 or 20 years of age and was well respected in upper Teesdale.

In 1851, at Frog Hall, Teesdale, Joseph Horn, lead miner, aged 38, his wife Elizabeth (Watson, married 1837) aged 33, children Mary A. 11, Sarah 9, Elizabeth 6, Joseph 4, and John 1.

In 1861, at Frog Hall, Teesdale, Joseph Horn, (died 1865) lead miner & farmer of 15 acres, aged 49, his wife Elizabeth aged 43, children Joseph, lead ore washer, aged 14, John 11, Margaret 8, Rebecca 6, and George 2 years.

In 1871, at Frog Hole, Elizabeth Horn, widow, aged 52, children Elizabeth, general servant, aged 26, Joseph, lead miner, aged 24, John, lead miner, aged 21, Rebecca 16, George 12, grandson Thomas Horn 2, grandson Joshua Horn 3 months. In 1881, at Frog Hall, Teesdale, Elizabeth Horn, widow, aged 62, sons, Joseph, lead miner, aged 34, John, land drainer, aged 31, George, lead miner, aged 22, daughter Rebecca 25, grandsons, Thomas Horn 12, and Joshua Horn 10.

WEARDALE LEAD

The following is a report sent out on Nov. 6th by the agents of the Weardale Lead Company:

Groverake: Cross Cut north from Rake level has struck a nice vein worth 10 cwt per fathom. 40 Fathom level, vein improved, ground in lead firmer. Greenwell and Mill levels unchanged.

Boltsburn: The two branches of the Coal Gill drift are coming nearer each other, now about 3 feet apart. The main level is 2 feet wide, worth 20 cwt per fathom; north branch 12 inches wide worth 10 cwt per fathom. Red Vein level; the end has improved vein easier, and more kindly spar, worth 6 cwt per fathom. A strong east and west vein has crossed the Red vein, which we intend proving westward.

Greenlaws: Lowes Drift West; vein 2 ½ feet wide, chiefly rider and carbonate of iron, a little spar and spotted with ore, ground firm. In the foremost rise we have reached the south cheek of Scar limestone, vein 2 ½ feet wide, showing better indications of ore. Rise from Watson's drift, vein four wide, firmer spar, worth 12 cwt per fathom. Our best workings are under Watson's drift and above Lowe's Drift. Egglestone's sump is now clear of water, and work will soon be commenced in the new part of the mine.

Killhope: In Engine sump sinking in Four Fathom Limestone, the ground is very compact; 2 feet sunk last week. Quarry Hazel drift, East forehead is worth 20 cwt per fathom. Pear's West stope is worth 6 cwt per fathom. West forehead improved; vein 3 feet wide worth 30 cwt per fathom.

Middle Grove: We are driving east to find intersection of branches of vein. Reservoirs well supplied with water. Ore dressed during the week 116 tons. Ore raised during the week equal to 108 tons of dressed ore.

THE LEAD MINING IN WEARDALE

The smelting operations during the year had given every satisfaction. The average price for the year was £12 5s 4d per ton net, after paying all expenses. Their late sale price was equivalent to £12 13s a ton, showing an advance on the last previously quoted prices.

They showed a net profit for the year of £4,150 4s 6d (after payment of Debenture interest) which with the £587 16s 10d brought forward from the last

account made a total of £4,738 1s 3d. After they had paid the interim dividend of 1s per share in April last, and the directors remuneration a balance of £2,458 14s 2d remained. The directors recommended a further dividend of 1s per share should be paid. This would absorb £2012 5s, leaving a balance of £476 3s 2d.

20th November 1886 (Hexham Herald)

ALSTON

Death of Mr Thos. Lee. We are sorry to record the death of Thomas Lee son of William Lee, Randal Holme, who died at Assiniboine, Canada on the 25th October last. Mr Lee left New Shield Farm 6 months ago for the above place and had succeeded in getting a farm and was in a fair way of settling down when he contracted the epidemic of Typhoid fever. From this he was recovering, but on rising from his bed on the date, given above, he burst a blood vessel, which caused his death to ensue in a very short time. The deceased, who was well known around the neighbourhood, was only 26 years of age and much sympathy is expressed for his wife and young family.

In 1881, at Randel Holm, Alston, William Lee, farmer of 1000 acres, aged 52, his wife Catherine J. 43, children Annie 23, Thomas 20, Annie M. 18, Margaret 18, Samuel 16, Caroline 14, Catherine 13, Elizabeth 10, Emily 10, William 8, Robina 6, John 4, Wilhelmina 3, Joseph 1, and grandson George 4.

Marriages

Nentsbury Primitive Methodist Chapel, 18th inst, Edward Gill, Physic Hall, Alston, to Phyllis Hind, Greenends.

In 1881, at Physic Hall, John Gill, lead miner, aged 48, his wife Dorothy 38, children Mary 18, Edward, lead miner, aged 16, Annie E. 14, Thomas 12, John G. 10, William 6, Henry G. 4, Dora J. 2, and Robert F. 3 months.

In 1891, at Wellgill, Edward Gill, coal miner, aged 28, his wife Phyllis 25, children John J 3, and Sarah A 1. In 1901, at Wellgill, Edward Gill, lead miner, aged 36, his wife Phyllis 35, children John Jas 13, Sarah Ann 11, Robert 9, Phyllis D M 3, and George Allen 1.

See 5th April 1870, 29th June 1872, and 8th November 1890

25th November 1886 (Northern Echo)

DISTRESSING ACCIDENT AT TEESDALE

A youth named Allison, son of Thomas Allinson, of High Bowbank, Lunerdale, lead miner, sustained a shocking accident at Manor Gill Mine; situate ten miles above Middleton, and the property of the London Lead Company. The lad was at a lead washing machine in which he became entangled, with the result that both legs and an arm were broken. The lad is one of sixteen children, all living, and had to be carried twelve miles to his home.

In 1871, at Cross Houses, Holwick, Yorkshire, Thomas Allinson, lead miner, aged 27, born Middleton, his wife Margaret 26, born Romaldkirk, Yorkshire, children John 5, Margaret Ann 3, and Mary J. 1.

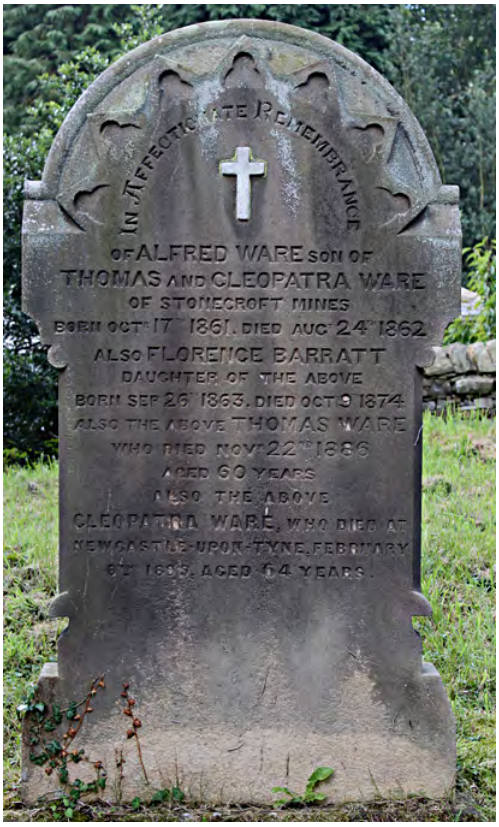
In 1881, at No. 4 Bowbank, Lunedale, Thomas Allinson, lead miner, aged 38, his wife Margaret 37, children John, lead miner, aged 15, Margaret Ann 13, Mary Jane 11, Thomas 9, Alice 8, Hannah 6, Ada 4, Agnes 2, Frederick Wm. 1, and Joseph Henry 2 months.

In 1891, at Bowbank, Thomas Allinson, lead miner, aged 48, wife Margaret 47children Agnes 12, Frederic W. 11, Joseph H. 10, Ralph 8, Minnie 7, Beatrice E. 4, and Dorothy A. 2.

27th November 1886 (Hexham Herald)

STONECROFT

Death of Mr Thomas Ware. After a protracted illness of some months which originated in spring of the year we regret to record the death of Mr Ware Manager of Stonecroft mines, which took place at his residence early on Monday morning at the comparatively early age of 60 years. Deceased was manager of Stonecroft and Greyside mines for the long period of nearly 30 years. Deceased interred at Newbrough churchyard by the side of his daughter.



IN AFFECTIONATE REMEMBRANCE
OF ALFRED WARE SON OF
THOMAS AND CLEOPATRA WARE
OF STONECROFT MINES
BORN OCT 17 1861. DIED AUG 24 1862
ALSO FLORENCE BARRATT
DAUGHTER OF THE ABOVE
BORN SEP 26 1863. DIED OCT 9 1874
ALSO THE ABOVE THOMAS WARE
WHO DIED NOV 22 1886
AGED 60 YEARS
ALSO THE ABOVE
CLEOPATRA WARE, WHO DIED AT
NEWCASTLE-UPON-TYNE, FEBRUARY
6TH 1895, AGED 64 YEARS.

St Peter's, Newbrough

In 1841, at Petertavy village, Devon, Thomas Ware, Inn Keeper, aged 39, Thomas Ware, copper miner aged 16, James, copper miner aged 15, Henry 12, and George 11.
In 1861, at Greyside Farm, Thomas Ware, born Petertavy, Devon, lead mining agent, aged 34, his wife Cleopatra (Bennetts, married 1857, registration district Tavistock), born Marytavy, Devon aged 29, son Francis Thomas aged 1, and brother George Ware, accountant, aged 31.
In 1871, at Thomas Ware, lead mine agent, aged 43, his wife Cleopatra aged 39, children Francis Thos. 11, Florence 7 (died 1874), Harold 5, Laura 2, Maria 11 days, nurse Alice Lee, widow, aged 45, and servant Mary J Chicken, aged 19.
In 1881, at Stonecroft Mines, Newbrough, Thomas Ware, mining engineer, aged 55, his wife Cleopatra, aged 49, children Laura 12, Emily 10, Norman 7, and servant Isabel Turnbull, age 17.

In 1891, at 10 Haldane Terrace, Jesmond, Cleopatra Ware, widow, living on her own means, aged 59, children Harold, chartering clerk and cashier, aged 25, Laura 22, Emily 20, and Norman, office boy, aged 17. See 7th February 1866, 29th November 1873, 15th September 1888, & 11th February 1895.

1st December 1886 (Teesdale Mercury)

MIDDLETON-in-TEESDALE.

Serious Accident to a Washer Boy at the Wire Gill Mine Ore Dressing Floods. On Monday, the 22nd ult., Thomas Allinson, who is about 15 years of age (and son of Mr T. Allinson, of the Mount, Bowbank, Lunedale, a lead miner with a large family), sustained very serious injuries by being drawn in by some pinions of the machinery at the above place, whereby he was crushed in a most fearful manner, so much so, that at first his life was despaired of. A messenger was quickly dispatched for Dr. J. C. Neligan and Sergt. Catterick, who were promptly in attendance, notwithstanding the mine is distant about 5 miles from this town on the Stanhope road. It was found on examination that the boy's thighs were broken, and also one of his arms, besides an ugly wound on the body. The little fellow was taken to his home in one of the Company's conveyances, and every necessary attention was paid to him by Drs. Atkinson and Neligan; but he is still in a very precarious condition.

Possible marriage for Thomas Allinson, to Margaret Shield 4th quarter 1862, registered at Teesdale.

In 1871, at Holwick, Durham, Thomas Allinson, lead miner, aged 27, his wife Margaret, 26, children, Sarah 7, John 5, Margaret 3, and Mary J 1.

In 1881, at Bowbank, Lunedale, Teesdale, Thomas Allinson, lead miner, aged 38, his wife Margaret aged 37, children, John, lead miner, aged 15, Margaret Ann 13, Mary Jane 11, Thomas 9, Alice 8, Hannah 6, Ada 4, Agnes 2, Frederick Wm 1, and Joseph Henry 0.

In 1891, at Bowbank, Lunedale, Thomas Allinson, lead miner, aged 48, his wife Margaret 42, children, Agnes 12, Frederick W 11, Joseph H 10, Ralph 8, Minnie 7, Beatrice E 4, and Dorothy A 2. In 1891, Thomas Allinson, aged 19, was working as a farm servant, for Thomas Porter, at Bowbank Lunedale.

4th December 1886 (Hexham Herald)

ALLENDALE TOWN

Inquest … respecting the death of a miner named Wilson Forster aged 59 who died very suddenly at his residence, Moor House Gate on Sunday night last. It appeared from the evidence that the deceased who has been employed at Settlingstones near Haydon Bridge, had been ailing during the past week, but his ill health was not of a nature to cause alarm. On Sunday evening however he expired quite suddenly. Dr Arnison ascribing heart disease as the cause. Verdict, "Death from natural causes".

In 1861, at Low Custley, Allendale, Wilson Forster, lead ore smelter, aged 34, his wife Mary Ann 29, children George 11, John 7, Wilson 5, and Ridley 1.

In 1871, at Couperhaugh, Allendale, Wilson Forster, lead ore miner, aged 44, his wife Mary Ann 39, children George, miner, aged 20, Wilson, labourer, aged 15, Ridley 11, Joseph 9, and Mary Ann 2 years.

In 1881, at Juniper, Allendale, Wilson Forster, coal miner, aged 52, his wife Mary A. 49, children Joseph, labourer general, aged 19, children Mary A. 12, and Elizabeth E. 8.

15th December 1886 (Teesdale Mercury)

LEADMINING IN SWALEDALE.
DISCOVERY OF A NEW VEIN.

For many years the lead mining industry of Swaledale has been declining. It is therefore gratifying to hear that at length there are prospects of a revival of the industry, for the men employed at the Hurst mines, which are backed up by some enterprising gentlemen, have struck a most valuable vein. It is said to be the largest and richest ever discovered since the commencement of the Hurst mines.

The boy, Thomas Allinson, who recently sustained such serious injuries at the lead mine, is (we are glad to say) progressing most favourably towards recovery.

18th December 1886 (Hexham Courant)

DEATH OF MR GEO. RACE Sen.

Our obituary columns of today contain the announcement of the death of George Race, the elder of Westgate, Weardale which took place on Saturday at the age of 76 years. Mr Race was a man of no common range. He was an accomplished local geologist a powerful local preacher in connection with the Primitive Methodists, and one of the most trusted men in Weardale. Throughout his native dale, throughout the Primitive Methodist churches of the North, and amongst a large circle of scholastic friends, the intelligence of his death will be very sad news… The family of Race's has been located in Weardale for centuries. Anthony Race mentioned in the records, as one of John Wesley's converts was grandfather of the deceased. This Anthony after preaching the gospel of Christ for almost forty years in the Northern dales, died in 1818, leaving a large family, one of whom was Nathan Race, father of the deceased born August 15, 1810. In early life, George Race was a lead miner. The theory and practice of lead mining he perfectly understood and his experience in this work greatly aided him in after life in his geological studies. Mr Race afterwards carried on the present business of the family, that of drapers and general merchants. It was during this period he found time at home for intellectual pursuits. From the first introduction of Primitive Methodism into Weardale George Race figured as a local preacher. … As a local geologist, Mr Race was second to none on the record having made this a lifelong special study. … In 1873, he published a pamphlet on the "Formation of Valleys", being a testimony to the Yoredale rocks as to their form and mode of stratification. … Deceased leaves a son Mr Geo. Race, builder, and a daughter Mrs Moore, and a wide circle of friends to mourn his loss.

In 1841, at Westgate, George Race, merchant, aged 30, his wife Martha 25, and daughter Mary aged 4. Martha died the 4th quarter of 1845. In 1841, George Race junior aged 7 is staying with Martha Coulthard, widow, & family at Swinhope Burn, St John's, Stanhope. The 1851 census has George junior still staying with Marth at Swinhope burn: Martha Coulthard, widow, house keeper, aged 78, son Thomas lead mine agent, aged 34, and grandson George Race, joiner aged 17.

In 1851, at Westgate, George Race, widow, grocer & draper, aged 40, and daughter Mary Ann aged 15.

In 1861, at Westgate, George Race, widow, grocer, aged 50, daughter Mary Ann aged 23, and granddaughter, Martha aged 2. Also at Westgate George

Race, Joiner aged 27, his wife Phoebe (Watson, married 1857) aged 26, and son George 9 months.
In 1871, at Westgate, George Race senior, widow, draper & grocer, aged 60, his married daughter Mary Ann Moor (married Joseph Moore in 1861), aged 33, grandson George Moor 9, granddaughter Annie Moor 8, and grandson George Race 10. Also at Westgate, George Race junior, joiner employing 5 men and 1 boy, aged 37, his wife Phebe, aged 36, children Martha 12, Anne 8, William 5, and Lizzie 1 month.
In 1881, at Westgate, George Race, widow, draper & grocer, aged 70, his widowed daughter Mary Ann Moor, aged 43, grandson George Race Moor, joiner aged 18, and granddaughter Annie Moor 18. Emerson, clerk in printing office, aged 15, grandson Joseph Short 13, and granddaughter Hannah E Short 7. See 8th January 1887.

ALSTON
MEASLES EPIDEMIC

In consequence of the prevalence of Measles in this town all the day schools, as well as the Sunday schools have been closed for the past fortnight, and will remain so until the New Year. There have been as many as 150 cases in one day. They are however principally of a mild type, no deaths having been as yet reported from any of the attacks.

31st December 1886 (Carlisle Patriot)

SINGULAR LOCAL CHARITY. —Amongst the various charities which are distributed at Alston at this season is one with a somewhat curious history. **Charles Langhorn**, formerly of Nenthead, by his will dated the 25th June, 1802, bequeathed the interest of £777 2s 1d, which he directed to be divided on Christmas Eve in every year, amongst "such poor persons having legal settlements in the parish of Alston shall not have received parochial relief within one year then next preceding," such poor people to reside at or near Nenthead. In consequence, however, of Langhorn being of illegitimate birth, his will was ineffectual until about the year 1818. A petition was sent to, and "Royal warrant"

granted from, the then Prince Regent, empowering the trustees to distribute the money according to the will. The money thus distributed this year was upwards of £20. It may be added that the testator came into Alston Moor at some period between the middle and the end the last century as poor workman in search of employment, which he obtained at the Nenthead Lead Mines.

1st January 1887 (Hexham Herald)
Deaths
Alston, Physic Hall, 16th inst., aged 1 year and 10 months, Thomas William son of Thomas and Sarah Spark.
In 1851, at Low Farnberry, Alston George Spark, lead ore miner, aged 35, his wife Ann 27, children John 6, Mary 5, Thomas 2, and Ann 11 months.
In 1861, at Low Farnberry, Alston, George Spark, lead miner, aged 44, his wife Ann 35, children John, lead miner, aged 16, Mary 14, Thomas, lead ore washer, aged 12, Ann 10, Sarah J. 9, Hannah 6, George 4, and Joseph 1 year.

George Spark senior died in 1870 aged 53.

In 1871, at Ropery, Alston, Ann Spark, widow, aged 46, children John, lead miner, aged 26, Thomas, lead miner, aged 22, Hannah, reeler at woollen factory, aged 16, George, winder at woollen factory 14, Maggie 9, William 7, James 4, and Henry 2 years.
In 1881 at Physic Hall, Bank Foot, Thomas Spark, coal miner, aged 32, his wife Sarah (Wilkinson, married 24th August 1871) aged 29, children Mary Jane 10, Margaret A. 6, Sarah E. 4, and George 1.
In 1891, at Physic Hall, Alston, Thomas Spark, coal miner, aged 43, his wife Sarah aged 40, children Mary J. stocking knitter, aged 20, Margaret A. stocking knitter, aged 16, Sarah L. domestic servant, aged 14, George 11, and Matthew W. 9 years.
In 1901, at Physic Hall, Thomas Spark, coal mine hewer, aged 52, his wife Sarah 49, daughter Margaret A. drapers assistant, aged 26, and son Matthew W. railway engine stoker, aged 19.

Thomas Spark died 4th quarter 1908, aged 60.

In 1911, at Hampstead Rd, Newcastle, John Nicholson, glass warehouseman, aged 44, his wife Mary Jane (Spark, married 3rd quarter 1899, Alston) aged 40, children Sarah 9, Mary Gertrude 7, boarder Hugh Kearton plumber, aged 20, and visitor Sarah Spark, widow, aged 59.

ALLENHEADS
DEATH OF AN ALLENHEADS MAN AT AMBLESIDE
Death of Mr Thomas Short at the above place. It seems he was at work with another man named Crossland in Birk Hag tunnel, Rydal Park, when quite unaccountably as they were preparing a blast the charge exploded and blew Short across the tunnel which at the place they were working was 9 feet wide and dashed him against the opposite side, injuring him so much he soon died. Crossland was also severely hurt. Deceased was buried at St Mary's Ambleside. Deceased was 29 years of age. *See 18th December 1886*

11th January 1887 (London Gazette)

THE COMPANIES ACTS, 1862 TO 1880.
THE GREEN HURTH LEAD MINING COMPANY
LIMITED.

AT an Extraordinary General Meeting of the Members of the above-named. Company, duly convened and held at the offices of the said Company, No. 25, Westgate-road, in the city and county of Newcastle-upon-Tyne, on the 7th day of December, 1886, the following Special Resolutions were duly passed; and at a subsequent Extraordinary General Meeting of the Members of the said Company, also duly convened and held at same place, on the 30th day of December, 1886, the said Special Resolutions were duly confirmed: —

1. " That the Company's property having greatly increased in value, it is desirable that the Company should be reconstructed, so that the amount of its capital may be made more nearly to correspond with the value of its property.
2. "That the Company be wound up voluntary; and that Charles Webster Harrison, of 25, Westgate-road, Newcastle-upon-Tyne, Agent, be and is hereby appointed Liquidator for the purposes of such winding up.
3. "That the said Liquidator be and he is hereby authorized to consent to the registration of a new Company, to be named the Green Hurth Lead Mining Company Limited, with a Memorandum and Articles of Association which have already been prepared with the privity and approval of the Directors of tins Company.
4. " That the draft agreement submitted to this meeting, and expressed to be made between this Company and its Liquidator of the one part, and the Green Hurth Lead Mining Company Limited (being the intended new Company) of the other part, be and the same is hereby approved; and that the said Liquidator be and he is hereby authorized to enter into an agreement with such new Company, when incorporated, in the terms of the said draft, and to carry the same into effect."

Jas. Monks, Chairman,

14th January 1887 (Carlisle Patriot)

Marriages

At the Parish Church, Nenthead, on the 30th ult., by licence, by the Rev. W. Berry, John Stamper, headman for Mr Potter, Barron Wood, to Catherine, third daughter of Archibald Dodd, Ashgill New House, Nenthead.

22nd January 1887 (Hexham Herald)

WEARDALE

Mr Ralph Walton. Weardale has lost another of its worthy sons by death, Ralph Walton Stone House, Stanhope, aged 59. … As a euphonium player, he was at one time second to none in England. For a long time he had been connected with the Stanhope Saxhorn Band and was, up to his death its respected conductor.

In 1841, at Newfield, Stanhope, George Walton lead miner, aged 45, his wife Mary 45, children Thomas, lead miner, aged 20, Margaret 15, Elizabeth 15, Ralph 13, Mary 11, Jane 8, and Hannah 5.
In 1851, at Newfield, Stanhope, Mary Walton, widow, aged 57, children Ralph, iron stone miner, aged 23, Jane, dressmaker, aged 17, and Hannah, farm servant, aged 15.
In 1861, at Stanhope, Ralph Walton, lead miner, aged 33, daughter Mary 7, son George 5, mother Mary Walton, widow aged 68, servant Jane Proud, aged 25.
In1871, at Stanhope, Ralph Walton, lead worker, aged 43, his wife Elizabeth (Wallace, married 1862) aged 45, children Mary 17, George, labourer, aged 15, William 8, Tom 6, and Frederick 3.
In 1881, at Stone House Stanhope, Ralph Walton, engine driver at lead mills, aged 53, his wife Elizabeth 56, children Mary, dressmaker, aged 27, William, grocer, aged 18, and Frederick W. 13.

ALSTON
RURAL SANITARY AUTHORITY

Dr Masterton in his annual report for No. 2 district stated that there had been 40 deaths, equal to 17.14 per 1000 of the population and 60 births. Scarlet Fever had been very prevalent, and there were no facilities for isolation. There had been in two years 111 cases of which 9 had proved fatal. There had also been an epidemic of Measles. The prevalence of these epidemics in the autumn of this year I can only attribute to injurious atmospheric influences, the season being notable for its mildness and extensive rain. In the Garrigill, district two cases of Typhoid Fever occurred both men work in the Harewood district, where they had been infected with this disease along with others, the drinking of impure water being assigned as the cause. The neglect of the flushing of the main sewer in Garrigill during the summer was also brought before your notice and received your attention. Towards the end of the year, an epidemic of Measles broke out in Garrigill, which spread so rapidly among the children as to necessitate the closing of the school. I have been unable to ascertain the exact number of cases, but it has been so general that scarcely a house in which there are children escaped. I have visited the district regularly with the Sanitary Inspector and directed the removal of nuisances where they existed and our requests have been complied with.

Deaths

Alston Town Head, 18th inst., aged 53, Margaret wife of Robert Goodfellow, tailor. In 1881, at Butts, 14th inst., aged 4 years 10 months Sarah Jane daughter of William and Hannah Featherstone.
In 1881, at Butts, Alston, William Featherstone, coal miner, aged 23, wife Hannah aged 23, and son John 9 months.
In 1891, at Butts, Alston, William Featherstone, coal miner, aged 33, wife Hannah 33, children John 10, William 7, Alice 5, Thomas 3, and George D. 2.

26th January 1887 (Newcastle Daily Chronicle)

In 1891, at Side Foot, John Gardiner, lead miner aged 61, wife Frances aged 59, children, Thomas, lead miner, aged 26, George, lead miner, aged 24, and Mary 18.

24th February 1887 (Northern Echo)
ANOTHER MINE DISCOVERED IN TEESDALE. —The men engaged in sinking the "sump" at Wiregill have opened into a rich deposit of lead ore in the coal sills, and the mine agents have pronounced the vein very hopeful and good. If the vein bears down, which is probable, it means work their for several years.

5th March 1887 (Hexham Herald)

WEARDALE

Report of the different lead mines opened by the Weardale Lead Company.
Groverake: Rake level driving resumed in a strong vein, Douglas Drift East vein improving, 50 East vein, easier to work, 40 East vein worth 10 cwt per fathom. Greenwell's level suspended on account of bad air. Mid level in plate and grey beds under the coal sills.
Boltsburn: Coal sill drift vein more mixed with stone rider, five feet wide, very firm, ventilation bad. Red vein, North end, more kindly, Spar cross cut, south east end chiefly iron rider, level north west of Foulwood no change.
Greenlaws: In Jackson's level the vein 2½ feet wide composed of spar and hazel rider. In Rowell's rise, Lowe's drift east, the vein is showing more strength, 2½ feet wide of spar and rider spotted with ore. Egglestone's sump under Quarry level 11 fathoms drift west, strong vein in single post limestone; 4 feet wide and chiefly spar. Tynebottom drift east, under Tynebottom Lime vein 2½ feet wide, chiefly rider. West vein 2 feet wide slightly improved, ground very hard and firm. Loop level by side of crushed ground, 5 fathoms driven last week.
Burtree Pasture: Drift from Dawson's rise above Donaldson's level in firm plate. Nattrass Gill drift east, and extremely hard and poor.
Killhope: Engine sump, quarry hazel, west forehead, end narrower vein 2½ feet wide worth 3 tons per fathom. East forehead vein 3 feet wide worth 3 tons per fathom. Cross cut south under 4 fathom limestone; south cheek of the vein not yet cut. Vein chiefly composed of rider, some spar and good stones of ore. Firestone drift, vein 2 feet wide, chiefly flour-spar, ground broken and loose. Middle Grove, a cross cut has been commenced to the south to prove spar leads. Water has been scarce this week owing to frosts. Ore dressed, 119 tons. Ore raised equal to 103 tons of dressed ore.
Lead is steady, but inactive at £12 12s 6d to £12 13s 9d for Spanish and £12 17s 6d to £13 for English.

Deaths

Durham, Ontario, Canada, February 7th aged 36, Mary Jane Teasdale wife of Mr Joseph Teasdale, formerly of Nenthead Alston.
In 1851, at Pasture House, Nenthead, Ralph Teasdale, lead miner, aged 39, his wife Isabella 38, Lidia 13, Frances 11, Isabella 8, Mary 6, Elizabeth 3, and Joseph 1 year. In 1861, at Elba, Nenthead, Isabella Teasdale, (stone masons?) widow, aged 47, children Elizabeth 13, Joseph 11, Ralph 9, nurse child Margaret A Bramwell 4, and nurse child May J Bramwell, 8 months.
In 1881, at Pasture House, Nenthead, Joseph Teasdale, lead miner, aged 31; his wife Jane (Tatters, married 24th August 1872) aged 30, children Ralph 6

and Isabella 1 year. The death of their daughter Annie Lizzie at the age of one month, occurred 29th April 1877, see 12th May 1877.
The family travelled on the Polynesian (three masts, single screw, built 1872), arrived Quebec 14th June 1882, port of departure Liverpool, Joseph listed as a labourer.
In 1891, at Bentinck, Grey South, Ontario, Joseph Teasdale, farmer, aged 41, his wife Isabella 29, children Ralph 16, Isabella 11, John 7, Herald 5, and Margret 6 months. The Record of Josephs second marriage show that at the age of 38, he married Isabella Robinson, born, England aged 26, father Anthony Robinson, mother Esther Robinson on the 25th December 1888, at Bruce.
The 1901 census has at Bruce East, Brant, Ontario, Ralph Teasdale, born England, 31st March 1874; Farmer aged 26, his wife Matilda born Ontario, aged 27, and son Joseph born 16th March 1901. Also in 1901 at Bruce East, Brant, Ontario, Isabella Teesdale, born 7th February 1880, working as a servant, the census contradicts itself stating she in English but born Ontario!
Ontario marriage records give Joseph Teasdale, born England, about 1876, aged 24, father Joseph Teasdale, mother Mary Jane Tatters Teasdale, spouse aged 25, born Canada, father Joseph Stancil mother Jane Campell Stancil, marriage date 4th March 1900 at Bruce County.
In 1911, at Bentinck, Grey South, Ontario, Joseph Teasdale, farmer, aged 61, his wife Isabell 49, children Lizzie 19, Francis 15, Linda 10, Newton 11, Stafford 7, and Stewart 4
Isabella, father Joseph Teasdale, mother Mary Jane Tatters married John Wall, aged 41, son of the late Henry Wall, mother Elizabeth Hills, married at Grey County 19th December 1911. Isabella died 1858, at Bruce, Ontario.
See 27th February 1869, 31st August 1872, 28th March 1874, 19th February 1876, 29thJuly 1876, 12th May 1877, 14th June 1884, & 20th August 1887.

12th March 1887 (Hexham Herald)

WEARDALE

Mr Edward Baty, of Wellhope, died on Thursday week after a brief illness. He was only 56 years of age, and was much respected. For a number of years he had acted as foreman at the Killhope mines, ...
In 1851, at Wellhope, John Baty, lead miner, aged 57, his wife Hannah 51, children Joseph, lead miner, aged 29, Ann 23, Edward, lead miner, aged 20, Margaret 13, and Elizabeth 10.
In 1861, at Pudding Thorn, St John's, Edward Baty, lead miner, aged 31, his wife Elizabeth 38, children John Joseph 7, and Esther 5.
In 1871, at Pudding Thorn, St John's, Edward Baty, engine keeper, aged 40, his wife Elizabeth 48, children John Joseph, lead ore washer, aged 17, Esther 11, Thos Edward 7, and Hannah 5 years.
In 1881, at Wellhope, Edward Baty, farmer of 27 acres, aged 59, his wife Elizabeth aged 58, children John Joseph, lead miner, aged 27, Esther 25, Thos. Edwd. pupil teacher, aged 17, and Hannah 15.
In 1891, at Front Street, Stanhope, Elizabeth Baty, widow, aged 72, and grandson, John F. Baty, gardener & domestic servant, aged 19.
In 1901, at Front Street, Alston, John Roddam, lead miner aged 33, his wife Hannah (Baty, married, 2nd quarter of 1899) aged 35, and mother Elizabeth Baty, widow, aged 78.

16th March 1887 (Teesdale Mercury)

MIDDLETON-IN-TEESDALE.

A deputation from the London Lead Company's Court of Directors, composed of F. H. Ianson, Esq., governor, and Messrs Foskett and Mennell, assistants, recently paid a visit to their extensive mines and smelting works in Teesdale, and Bollyhope in Weardale. The newly cut lead veins at their Coldberry and Wiregill mines are quick and of a hopeful character, and it is confidently expected will fully justify the large amount of capital expended in making the explorations, and afford employment to a large number of workmen for many years.

17th March 1887 (Northern Echo)

THE WEST DURHAM LEAD MINES

A deputation of the London Lead Company, including the governor and assistants, have just concluded an inspection of their extensive mines in Teesdale and Bolihope. The newly cut veins at the Coldberry and Wiregill mines are “quick” and of a hopeful character, and are expected to fully justify the large outlay of capital expended on their explorations, and to afford employment for a large body of men for many years.

SAD OCCURRENCE IN WEARDALE.

A FATAL WRESTLING BOUT.

Yesterday, an inquest into the cause of death of a young leadminer—Obadiah Featherstone—took place at the Queen’s Head Inn, Wearhead, Weardale, before Mr Coroner Dean. It appears that deceased had been at a practice, on the 5th inst., of the string band, of which he was a member, as he was of the Athletic Club, which had the final contest for the All-Weight Cup on that night. Featherstone was walking with nine of his companions on the highway near the above village in the bright moonlight after ten o’clock, and proposed to Tom Whitefield, son of Mr Henry Whitefield, Irestone—both being very clever light-weight wrestlers—that they should go over into the field and have a bout, which was agreed to. After a merrily contested “hold." Whitefield fell uppermost, and it was alleged in so doing injured his young friend so as to ultimately cause death on Monday last—a week after. The conflicting rumoured causes of death and public opinion rendered it imperative for the local constable, J. Sidgwick, to lay the matter before the authorities, who wisely ordered an inquiry. Owing to the limited time to warn the witnesses—two of the principal ones, who were in Rookhope working, having to travel through the snowstorm—the Coroner dispersed the jury, pending their arrival in the afternoon. On reassembling. Sergeant George watched the case in the absence of Sergeant Liddle. The first witness called was

Tom Whitefield, who wrestled with deceased, and who was visibly affected. He described the bout as above. He threw Featherstone. He did not think his head struck the ground. He walked home, but complained of being hurt. There was no malice. He went to see deceased twice after he was laid up. Deceased never blamed him. —Sergeant George: Is it true that you've wrestled with this man before, and broke his leg? Yes, sir. —You were companions and friends, and bore no malice? No sir. None at all.

Thos. Whitfield, a cousin of the former witness, was the other witness. He was present on the 5th of March with his cousin and deceased, and saw the last-named two wrestle. It was a fair and square friendly hold.

Dr. Wm. A. Hewitson, Jun., who represented his uncle at St. John's Chapel, and who is M.R.C.S, and L.R.C.P., London and Edinburgh, said he was called to deceased early on Sunday morning, and found him suffering from pain in the testicle and swelling up of the adjacent right parts. He also complained of pain in the bowels. He attended him with his (witness's) uncle till his death, which was caused by general shock to the nervous system from the result of the fall. He grew gradually weaker. Deceased was only a weak man, else he would have pulled through.
The CORONER (addressing the jury): Wed, gentlemen. I think of wrestling as I do of football—that it is somewhat of a dangerous pastime, if not a brutal one, and though both may be lawful, it is certainly fraught With sad consequences.
The FOREMAN of the Jury endorsed the remarks of the Coroner, and added that though he didn't say they (the young dalesmen) hadn't to wrestle yet in these weekly contests they should be very cautious. —The Jury at once returned a verdict, under the guidance of the Coroner, of "Accidental death through misadventure."

19th March 1887 (Hexham Courant)

EMIGRATION

On Wednesday morning last by ten o'clock passenger train, Percy son of Mr John Millican, Alston; Messrs Philipson Millican, Tynehead, and Peter Potts of Garrigill left Alston railway station, their destination being Winnipeg. It is understood that each of these three young men have left their native dale for the purpose of commencing farming pursuits on their arrival in Canada.
Philipson Millican returned, the 1891 census shows him living at Hillhouse, Garrigill aged 25, a farmer, with his mother Elizabeth, widow aged 70, also Bridget Ann Currah, aged 17, general servant, Philipson married Bridget at St John's Garrigill, 20th September 1891. See 26th September 1891, he and his family emigrated to Australia in 1895.

DEATH OF MR ADAM WALTON

We regret to announce the death of Mr Adam Walton of Loaning Foot House, which event occurred at his residence on Sunday afternoon (*13th March. He was 63 years of age*.), …
As Moor Master to the Lords' of the Admiralty, Mr Walton occupied a prominent position in connection with the mining district.
In 1841, at Red Burn, Joseph Walton, lead mine agent, aged 40, his wife Mary aged 30, children Adam, lead miner, aged 15, Anne 7, Joseph 3, and John 11 months.
In 1851, Adam Walton aged 27, was lodging with Anthony Armstrong, lead miner & his family at Overwater, Nenthead, Adam was working as lead mine overman and clerk.
In 1861, at Manor House, Alston, Adam Walton, clerk of ore deliveries to the Lords Commissioners of the Admiralty, aged 37, his wife Lydia (Stephens married 24th September 1853) aged 34, children Marian C. 6, James S. 4, Florence E. 2, house servant Ann Cousin, aged 25, and nurse Hannah Teasdale, aged 14.
In 1871, at Manor House, Alston, Adam Walton, clerk of ore deliveries to the Lords Commissioners of the Admiralty, aged 47, his wife Lydia aged 44 children, Marian 16, James S. stationer, aged 14, Florence E. 12, Rosa B. 7, Clara 5, Herbert 3, Constance L. 1 year.

In 1881, at Loanning House, Blagill, Alston, Adam Walton, mining engineer, aged 57, daughters, Clara 15, Constance L. 11, and domestic servant Phoebe Richardson, aged 20.
In 1891, at North Loanning, Lydia Walton, widow, living on her own means, aged 64. See 23rd September 1853, 19th June 1875, & 11th June 1892

2nd April 1887 (Hexham Herald)

ALLENDALE

Last week four men employed at the Allendale Smelt Mills received a month's notice to terminate their engagement at these works.

A man named Dixon Bell residing at Catton, Allendale, was severely burnt last week at the Allenheads Smelt Mills, whilst engaged in extracting roasted soot from a furnace. A fellow workman named Edward Parker, who was standing near at the time, was also slightly burnt.

Marriages

Alston Primitive Methodist Chapel, 26th ult., Thomas Walton Thompson, Blagill to Annie third daughter of the late William Watson, Corby Gates, Alston.

In 1841, at Wellgill, Thomas Thompson, lead miner, aged 30, his wife Isabella, (Liverick, married 7th June 1834, Alston) aged 25, children, Matthew 5, Ann 3, and Thomas 2 months.
Thomas Thompson died 1st quarter 1848 or 4th quarter 1849.
In 1851, at Wellgill, Isabella Thompson, lead miners, widow, aged 35, children Matthew, lead ore washer, aged 15, Ann 2, Thomas 9, Isabella 7, and Mary 4.
In 1861, at Wellgill, Isabella Thompson, widow, aged 45, children Matthew, lead ore miner, aged 25, Thomas, lead ore miner, aged 19, Mary 14, and George 4.
In 1871, at Blagill, Thomas Thompson, lead miner, and farmer, aged 29, his wife Jane (Walton, married 3rd quarter 1864) aged 33, children Thomas H 5, John 4, Isabella 2, and uncle Jonathan Walton, single, stone waller, aged 47.
In 1881, at Blagill, Thomas Thompson, farmer of 36 acres, aged 39, his wife Jane 43, children Thomas W. 15, John 14, Isabella 12, and lodger Jonathan Walton, single general labourer, aged 51.
In 1891, at Behind Burn, Alston, Thomas W Thompson, coal miner, aged 26, his wife Annie 30, children Mable 2, and Thomas Wm. 3 months. In 1901, at Blagill, Thomas W. coal miner aged 34, his wife Annie 41, children Mabel 12, Thomas W 9, and John W 7. In 1911, at Blagill, Thomas Walton Thompson, miner, aged 45, his wife Annie 51, sons Thomas, quarryman, aged 20, and John, saddler, aged 18.
See 19th April 1890

Deaths

Alston Church, Croft Terrace, 31st ult., aged 76 George Shield, late Master Washerman. *See 1st October 1836*

6th April 1887 (Teesdale Mercury)

THE PROJECTED RAILWAY FROM MIDDLETON-IN-TEESDALE TO ALSTON.

From time to time during the last twenty years, public attention has been excited by reports relating to two projected lines of railway. It has been said that the people of Weardale, and others interested in that dale, were endeavouring to promote a line from Stanhope to Alston, and that the people of Teesdale,

together with their friends, wished to connect the Tees Valley Branch with the Alston Branch. It is generally understood that the Alstonians would co-operate most heartily with the promoters of either line, though they regard the Teesdale connection with most favour. The Weardale project is now again before the public, and is, we understand, being powerfully supported. We earnestly wish that its promoters may meet with success. The Weardale route presents great difficulties to the engineer; but as a set off against these difficulties there is the possibility that valuable deposits of ore might be discovered in the cuttings, and other works that would be necessary for its construction. Kilhope Law has, in the past, yielded a vast amount of mineral wealth, and may yet yield more. A line from Stanhope to Alston would, in any case, greatly facilitate the carriage of mining requisites and ore to and from the Nenthead and Kilhope mines. The case for the Weardale route has however been already placed before the public, and does not need to be discussed here. We shall, therefore, turn our attention to the alternative route through Teesdale.

There is no barrier like Kilhope Law between Middleton-in-Teesdale and Alston. The configuration of the land is here as favourable for the construction of a railway as it could well be in any mountainous district. The valleys of the Tees and the Tyne are connected by means of a pass through the mountains, which, at the highest point, is probably 300 feet below the summit of Kilhope Law, and 600 feel below Burnhope Seat. The two valleys lead into each other. An examination of the rocks on both sides of the mountain reveals some interesting facts. The Tynebottom Limestone—a stratum which has derived its name from the fact that it forms the bed of the Tyne for many miles—found on Teesside; and not only so, but it lies near the surface over the whole of the district between Tynehead and Teesdale. The Whin Sill bassets at Tyne-head, and has been sunk into at Garrigill and Rodderup Fell, near Alston. It bassets also in the Tees in several places between here and Middleton-in-Teesdale. The Providence Shaft on the Tees pierces this sheet of igneous rock quite through, and other shifts at Hardshins and Green Hurth penetrate it to some depth. According to the latest information, the Green Hurth vein continues to bear ore in great abundance in the Whin Sill.

These facts show that Upper Teesdale and Upper Tynedale are, geologically, on the same horizon, the water-shed being formed by an anticlinal curve, the crest of which is near Lady's Vein mine. The towns of Middleton-in-Teesdale and Alston stand upon the same strata, and are about equally distant from the crest of that curve. We venture then to affirm what has already been said, that, considering the character of the district, the configuration of the land is favourable for the construction of a line of railway between those two towns. This statement seems paradoxical, but it is not really so. A flat surface is of course, much more favourable for the building of a railroad than a curved one, but such a surface is only found in flat districts. But assuming that the Teesdale route presents to the engineer no difficulties of an insuperable character, there yet remains for consideration the vital question “Would the projected railway pay”? The answer to this question depends upon several considerations, such as the cost of labour, the price of materials, and the produce of the district through which the line would pass. No attempt will be made here to answer the question fully, because the writer is conscious of his inability to deal with the matters, which it involves. His efforts will be restricted to the consideration of the mineral resources of that part of Teesdale which is situated above the High

Force, and of that part of Tynedale which lies above the village of Garrigill, or, in other words, of the district through which the proposed line would pass.
The remainder of this paper is, in fact, simply a continuation of the Rambles in Teesdale," which, as the reader is perhaps aware, practically terminated at Langdon. Of the ten beds of limestone which occur in the Lead Measures, eight basset in Langdon Beck and its tributary Harthope Beck. The Single Post appears in the former beck, very near Langdon Bridge, and the Cockle Shell Limestone crops out between Langdon Inn and Valence Lodge. At the latter place the Scar Limestone (of the Lead Measures, which must not be confounded with the Scar Limestone below the Whin Sill) becomes visible, and above it appear, in rapid succession, the Five Yards, Three Yards, Four Fathom, and in Harthope Beck, at the distance of a mile from Langdon, the Great Limestone. The Little Limestone bassets near the crest of the mountain. Harthope Beck was at one time the scene of a busy lead-mining industry. According to a tradition, which still lingers in the dale, a colony of Cornish miners were the first to commence operations. In more recent times the mines were carried on by a Mr Hopper, who is said to have raised large quantities of ore, mainly from the lower flat of the Great Limestone. Hopper's level is still in existence, its mouth being still open at a distance of about three- quarters of a mile above the confluence of the Langdon and Harthope Becks. This level is said to have been driven forward to the crest of the mountain. Another level, apparently older than it, has been driven in the same vein, but at a lower random (in the deeper strata). Besides these levels, there are numerous shafts in and near Harthope Beck, some of them penetrating the strata to a great depth, but all now abandoned. Would the construction of a railroad within a short distance of Langdon lead to the revival of this extinct industry? Under more favourable conditions of trade, a revival would be not only possible, but very probable. The geologist will be interested to learn that the great. Burtreeford Dyke crosses the mountain to the north-west of the Langdon Mine, upheaving the strata on the west side of its course to the extent of 480 feet.

GRASS HILL AND ASHGILL HEAD, IN HARWOOD.

Grass Hill, which is situated at the distance of three miles above Langdon, is now, or was recently, an abandoned mining field. The history of this place is very similar to that of the Harthope mine, and, indeed, of most of the lead mines in Britain. It has experienced the usual vicissitudes, being at one time rich, and at another time poor, then rich again, and lastly given up as a bad speculation. It is a coincidence worth noticing that this Grass Hill is underlaid by the Five Yards Limestone, the stratum which also underlies the town of Middleton. The distance between Grass Hill and the Ashgill Head Mine is only half-a-mile. The operations carried on here have been very extensive. The ramifications from the Ashgill Head main level are numerous, and large deposits of ore were found in them, first, by the Earl of Darlington, Lord of the Manor, and subsequently by the London Lead Company. The Great Limestone was especially rich in ore.
The geology of Harwood is extremely puzzling. Many of the strata, which are found in the ordinary sections of the lead measures, are either entirely wanting, or else very much attenuated, in a Harwood section. In Forster's and other sections of the strata, the Whin Sill is 600 feet below the top of the Great Limestone; but in Harwood this 600 feet of strata is represented by only 300 feet. Many attempts have been made to explain the cause, or causes, of the difference, but not one of them seems to us to be entirely satisfactory. An

enquiry into the condition of the strata in Harwood is not, however, pertinent to our purpose. Ashgill Head Mine is situated at some distance from the route of the projected railroad, but the presence of such a mine should be taken into account when an estimate of the mineral resources of Teesdale is made. With bare mention of Willey Hole Mine, which largely added to the fortune of the late Mr Sherlock our account of the Harwood district must close.

THE TEES VALLEY PROPER

The Pencil Mill near Cronkley, which formerly gave employment to a few hands, is now closed, the little industry having been killed by the cost of carriage. The Cronkley pencils were of excellent quality and vastly superior to the hard gritty stones, which are now used in our schools. Under more favourable conditions as to carriage, the pencil industry would probably revive, and not only revive, but assume larger proportions. Widdy Bank, a farm house which stands on the left bank of the Tees above Cronkley has derived its name from the pencil mill, the stone from which the pencils were made being called Widdy. In the estimation of a Teesdale school-boy the Widdy pencil ranks in value with the pocket knife and the marbles.

To be continued

9th April 1887 (Hexham Courant)

Deaths

At Nenthead, 1st inst., aged 62, John Hill, miner.

In 1861, at Nenthead, John Hill, lead miner, aged 35, his wife Elizabeth 29, children John 9, Hannah 7, Phebe 5, Thomas V. 3, and Jane 1.

In 1871, at Nenthead, John Hill, lead miner, aged 45, his wife Elizabeth 39, children John, lead ore washer, aged 19, Hannah, domestic maid, aged 17, Phebe, domestic maid, aged 15, Thomas Vipond Hill 13, Jane 11, Jacob 9, William E. 6, Joseph 4, and Matthew H. 2.

In 1881, at Nenthead, John Hill, lead miner, aged 55, his wife Elizabeth (died 29th June 1883, aged 51) aged 49, children, John lead miner & Primitive local preacher, aged 29. Phoebe house maid, aged 25, Jane house maid, aged 21, Thomas lead miner, aged 23, Jacob lead miner out of employment, aged 19, Joseph lead ore washer, aged 14, Matthew H. 12, James 9, and William 3.

At Redwing, Garrigill, 31st ult. aged 76, Jane widow of Matthew Bramwell.

In 1881, at Redwing, Mathew Bramwell, farmer of 70 acres, aged 35, his wife Mary 24, children Sarah J. 4, Elizabeth A. 1, Mathew H. 2 weeks, mother Jane Bramwell, farmers widow, aged 70 (her husband Matthew died in 1873, aged 63), and nephew Robert Bramwell, labourer lead mines, aged 25.

16th April 1887 (Hexham Herald)

ALSTON RURAL SANITARY AUTHORITY

The Medical Officer for No. 2 district submitted his quarterly report for the quarter ending March 31st. Registered 7 deaths and 4 births. Fever has shown itself recently in a mild form at Skydes, Rotherhope, where three cases occurred.

22nd April 1887(Carlisle Patriot)

On Friday night last a fire broke out in shop Nenthead, Alston, tenanted by Mr Utric Yeats, grocer and innkeeper, and before it could be extinguished damage

was done to the extent of between £30 and £40. The damage is covered by insurance. It is not known how the fire originated.

23rd April 1887 (Hexham Herald)

ALSTON

SUPPOSED DROWNING OF ALSTON MAN IN THE ATLANTIC.

On board the steam ship Cranbrook of Newcastle which left Newport on the 30th November last, on a voyage to New York was Mr George Shield a native of Alston who was acting in the capacity of 2nd engineer.
Thought to have foundered during the gales at the beginning of December last. Deceased was 36 years of age.
The only George shield I can find for this period is: —
In 1851, at Swidick, Alston, George Shield, lead miner, aged 39, his wife Sarah (Walton, married 22nd September 1836, Alston) aged 37, children Ann 14, Mary 11, Sarah Jane 8, Elizabeth 4, and John James 1.
In 1861, at Main Street, Alston, George Shield, lead miner, aged 50, his wife Sarah aged 47, sons John James 11, and George 8. In 1871, at Town Foot, George, lead miner, aged 60, his wife Sarah 57, sons John James, lead miner, aged 21, and George, black & white smith, aged 18. In 1881, at Front Street West, George Shield, lead miner, aged 70, his wife Sarah 67, and son John James, butcher & lead miner, aged 31.
George Shield senior, died 2nd May 1887, aged 76.

The official wreck report is as follows: —
"CRANBROOK" (S.S.)
The Merchant Shipping Acts, 1854 to 1876.
IN the matter of the formal Investigation held at Westminster, on the 4th of April 1887, before H. C. ROTHERY, Esquire, Wreck Commissioner, assisted by Captains RONALDSON and KIDDLE, R.N., as Assessors, into the circumstances attending the supposed loss of the steamship "CRANBROOK," of North Shields, with a crew of 23 hands, whilst on a voyage from Newport to New York.
Report of Court.
The Court, having carefully inquired into the circumstances of the above mentioned shipping casualty, finds, for the reasons annexed, that when the said vessel left Newport on her last voyage she was in all respects in a good and seaworthy condition; that she was not overladen; that her cargo was properly stowed; and that there is nothing to shew how she was lost.
Dated this 4th day of April 1887.
(Signed) H. C. ROTHERY, Wreck Commissioner.

30th April 1887 (Hexham Courant)
Deaths
At Richmond, Victoria, Australia, on the 5th March 1887, Joseph Bownas, formerly of Dukesfield Hall, in the parish of Slaley, and the last surviving member of the family of the late John Bownas senior of Allenheads.
In 1851, at Dukesfield Hall, Joseph Bownas, farmer of 380 acres employing 3 labourers, aged 40, his wife, Cicely (Cook, married 25th December 1838, at Slaley), aged 34, children John 5, William 3, George 6 months, and Thomas Bownes, contractor of carriages for a lead mine, aged 37.

In 1871, at Hutton Mulgrave, Yorkshire, Joseph Bownas, born Allendale, farmer of 130 acres, employing 3 labourers, aged 58, his wife Cicely born Slaley, aged 53, and son William A. born Dukesfield, farmers son, aged 23. The Victoria Passenger lists state, Cicely Bownas, born abt. 1819, John Bownas born abt. 1847, W. A. Bownas born abt. 1849, Rachel Bownas born abt. 1853, John C Bownas born abt. 1875, George W. Bownas born abt. 1877, and George W. Bownas born abt. 1878, sailed from London on the John Elder which was destined for Adelaide, Melbourne & Sydney, Australia, they arrived 28th February 1880. There is a record of a Joseph Boonas born abt. 1822, sailing from London on the North American, for Melbourne, arriving 24th October 1878.

The Argus (Melbourne)
Monday 29 April 1895

DEATHS.

BOWNAS: - On the 27th inst., at her son's residence, No. 243 Church-street, Richmond, Cicely, relict of the late Joseph Bownas, aged 67 years.

5th May 1887 (Daily Gazette for Middlesbrough)

ACTION AGAINST THE WEARDALE LEAD COMPANY. —Yesterday afternoon at the Consett County Court, before his Honour Judge Meynell, Mrs Isabella Lowden, of White Lees Farm. Hunstanworth, near Blanchland, sought to recover from the Weardale Lead Company the sum of £45 compensation for damage to her crops by noxious fumes arising from the defendants' works. —Mr Meynell, barrister, appeared for the plaintiff, while Mr Strachan, barrister, defended. —His Honour, in summing up the evidence, pointed out that it was exceedingly difficult to assess the actual damage done to plaintiff s farm by the Weardale Lead Company. He awarded plaintiff, £25 with costs.

13th May 1887 (Teesdale Mercury)

PROJECTED LOCAL RAILWAY EXTENSION.
CAULDRON SNOUT.

The supporters of the Ambleside Railway Bill contended that the projected extension from Windermere to Ambleside would be a great boon to the working classes of Lancashire, inasmuch as it would enable them to visit the Lake District, from which they were then practically excluded. Keswick and Bassenthwaite are now accessible from the North, and thousands of people from Tyneside and Sunderland visit them every year. The proposed extension would, it was said, render the lakes easy of access from the South also, and thus bring them within the reach of the Lancashire people. The fine waterfall at High Force, and the beautiful cataract, for such it really is, at Cauldron Snout, attract, at present, a considerable number of visitors to Upper Teesdale, chiefly from the East Coast. Can there be any doubt that a through line from the East to the West, passing within a very short distance of the Fall and the Cataract, would be the means of largely increasing the number of visitors? We think not. The presumption that the people of West Cumberland would avail themselves in large numbers of the opportunity afforded by the new line for seeing two natural objects so widely known as the High Force and Cauldron Snout is a reasonable one. We do not think, however, that this presumption will be taken

into account by practical men, or, if taken into account at all, will be allowed to have much weight. They will attach much more importance to the fact that the Lodge Gill lead mine is only about two miles distant from Cauldron Snout, and not half that distance from the route of the proposed line. The Lodge Gill vein yielded lead-ore in the Tyne-bottom limestone.

The Force Burn and Green Burn mingle their waters with the Tees above Lodge Gill, without, however, adding much to the volume of the river. Between the points of confluence, the Whin Sill is visible in the bed of the river, the lead measures having been entirely swept away by denuding agencies.

GREEN HURTH LEAD MINE.

Mining operations were at one time carried on by the London Lead Company in the Green Burn, but they led to no useful results, the Dow Green vein, which crosses the Burn, and which was the objective of their trial, being found to be unprofitable. The uncertainty, which attends metalliferous mining, is as we have already said, very great. Whilst the London Company were spending money freely and vainly in exploring the south bank of the Tees, a local company, with little capital, had the good fortune to strike a rich lode on the north bank, which has yielded ore in large quantities. Greenhurth mine promised to continue rich for some time to come. The vein is said to bear well, in the Whin Sill—a fact which is of great importance, inasmuch as it shows that the deposit of ore is not one of those “bellies” for which the Tees head and Tyne head districts are so noted, but regular and continuous, not only in a vertical but also in a longitudinal direction. The existence of such a mine as Green Hurth, about midway between Middleton-in-Teesdale and Alston, and almost on the route of the proposed railway, could not at the time fail to exercise considerable influence over practical men. The ore was conveyed at considerable cost to the Alston railway station. The distance between the mine and the station is ten miles, and the road over one half of that distance is not- good. During the winter of 1885-6, communication by means of carts was for a considerable time absolutely cut off by the snow, which blocked the road over Yad Moss. This gives some idea of the outlandish character of the district.

THE TEES-SIDE MINES.

Of all the tributaries of the Upper Tees, Crookburn is the one best known. It constitutes the boundary between the counties of Durham and Cumberland, between the manors of the Greenwich Hospital and Lord Barnard, and also between the manors of Lord Hothfield and Colonel Byng of that day. In pre-reformation times it formed a portion of the southern boundary of the Manor of Priors Dale, which belonged to the Priory of Hexham. The junction of the Crookburn with the Tees is an interesting geographical point. Here the counties of York, Durham and Cumberland come together, and Westmorland is not a mile distant. The Metal Band Lead Mine is situated at the foot of Crook Burn. It is an old mine, having been first opened by the Derwent Company, who put down a shaft into the Whin Sill. The Tyne-bottom Limestone, Single Post, Cockle Shell, Scar, Five Yards, Three Yards and Great Limestone, with their associated sandstones and shale’s, in the immediate neighbourhood. A short walk from Metal Band towards the source of the Tees brings the traveller to the Tees-side mines, once the seat of a considerable industry, but now almost abandoned. An Alston gentleman is said to have opened those mines, first by sinking a shaft into the Whin Sill, in the Providence Vein, and subsequently by driving levels in the vein. His efforts were rewarded by the discovery of about

1000 bings of lead ore, for which he probably obtained a good price. The mine, after having been in the possession, of various companies, was closed some years ago. We think that if the Teesdale and Alston line should ever be made, the Tees-side mines would probably be re-opened. The Hardshins Mine is situated on the right bank of the Tees, and only about 200 yards above the Providence shaft. The London Lead Company raised some ore in the Hardshins vein, but probably not sufficient to pay expenses. The vein is indeed very poor. The Lady's Vein is half a mile above Hardshins, on the north east bank of the Tees. Small quantities of ore have been obtained from this vein in the Tyne-bottom Limestone, but not sufficient, we think, to remunerate the miners. It is at a point near Lady's Vein mine that the route of the new line would leave Teesdale and pass into Tynedale. But before closing our account of the former dale, it may be well to notice one or two mines situated near Tees-head, which, if they should ever be re-opened, would become a source of revenue to the railway company. Swathbeck mine is up wards of a mile above Lady's Vein. It was at one time a profitable concern, yielding excellent ore in the Great Limestone. The other strata, above and below, have not, we believe, been tried, notwithstanding that the configuration of the land affords unusual facilities for the driving of a level under the Four Fathom Limestone. The ruins of the old mines are found still nearer the source of the Tees, but they are not worthy of particular notice. The Trout Beck mine derives its name from a small stream, which rises in Dun Fell, and joins the Tees near the Tees side mines. It is simply a continuation of the Hardshins Mine. A north and south vein, which was cut by the miners at the distance of a mile from the Hardshins level mouth, yielded some or, and might yield more if opened out in a southerly direction. A level driven south in this vein to the foot of the mountain would cut the Nether Hurth, east and west veins, and probably others, which have not yet been discovered. Such a level, driven in the Whetstone bed would not entail a large expenditure. The Nether Hurth veins have been worked for upwards of a century, at intervals, and have yielded ore in the Tynebottom limestone. Mining operations on a small scale have been carried on in many other places in the basin of the Trout Beck, but our space would not suffice for an account of them. Some of them might be resumed if greater facilities for the conveyance of ore and mining materials were created. All the Trout Beck mines, with the exception of Over Hurth, are within the distance of two miles from the route of the proposed line. The old mines in Maize Beck and Stake Beck are practically inaccessible for any other means of transport than ponies. Whether, under any circumstances, they would prove to be remunerative is a matter upon which we express no opinion.

To be continued

18th May 1887 (Teesdale Mercury)

THE PROJECTED RAILWAY FROM MIDDLETON-IN-TEESDALE TO ALSTON.

(Concluded).

It may be well to explain here that in our last paper we assumed that the projected railway would follow the left bank of the Tees, the only divergence being at Widdy Bank, where there is a sharp bend in the course of the river. We are, however, aware that the route staked out by the surveyors, now many years ago, followed the Middleton and Alston turnpike to the southern edge of Yad Moss, and thence across the moor to a point which is a short distance to the

east of Lady's Vein Mine, entering Tynedale at Tyne Green. We do not understand that there is any difference of opinion as to the route from Middleton to the Forest and Frith, or from Lady's Vein Mine to Alston, that is to say, for three-quarters of the whole length of the line. The route by the bank of the Tees obviously presents greater difficulties to the engineer than that by the turnpike road, but it has the advantage of being more central with regard to the lead mines, laying very near to the Green Hurth, Metal Band, and Hardshins mines. The turnpike route passes Ashgill Head, but it leaves one of the most romantic and interesting portions of the Tees Valley far to the west.

TYNE HEAD.

For the purpose of this paper it will be convenient to resume our account of the district through which the railway route lies at Lady's Vein Mine. The Tyne Green, in which the Tyne takes its rise, is situated to the north of Lady's Vein. The appearance of the Green indicates that the rock which lies beneath it is limestone, and an examination of the old mining ruins shows that, the limestone is the one known as the Tyne- bottom Limestone. The Tyne Green formerly belonged to the Priory of Hexham, but is now, we believe, the property of Colonel Byng. It is crossed in a direction from east to west by two mineral veins, known respectively as the High Tyne Green and the Tyne Green Veins, both of which have been tried by means of shafts, and have yielded some lead ore. The Green lies at the top of the pass, 12 miles from Middleton-in-Teesdale, and 10 miles from Alston. It is approached on both sides by gradients, which are undoubtedly heavy, but not very much heavier than the gradients on the Alston branch, and certainly much lighter than those on the Hexham and Allendale brunch. We have no data at hand on which to found a comparison between the gradients on this route and those on Shap Fell, but from an inspection of the two routes we inter that the latter are steeper than the former. We have travelled over some portions of the Highland Railway, and have received an impression that there are, on that line, gradients much heavier than the heaviest on the Teesdale and Alston route. The gradients are, however, matters for the consideration of the engineer. We resume our account of the mineral resources of the district. The Doosey Mine is situate at the north-end of Tyne Green, and the Calvert Mine is still further north. Both these mines are closed.

THE GREAT SULPHER VEIN OR BACKBONE.

All North-country geologists and most lead miners have heard of the Great Sulphur Vein, or Backbone, which traverses Tyne Head from the north-west to the south-east, and disappears in a mysterious manner on Tyne Head Fell. The course of this vein is easily traced. It appears at the north-end of Yad Moss, near the confluence of the Darngill and Clarghyll Burns, and again to the south-west of this point in the river Tyne, where it displaces the Whin sill to the extent of 180 feet. It presents a grand appearance on Noon Stones and in Crossgill Burn, and it forms the cascade known as the Cash Bum Force. It is seen again in Smittergill and on Hart side, and finally disappears in the Pennine Fault. No vein has been the subject of more anxious speculation and more trials than this Great Sulphur Vein. On Yad Moss it was tried by the late Mr Jacob Walton, of Alston, who found that it was divided into a number of weak veins, which were unproductive. A little to the west of Yad Moss, and near the confluence of the Darngill Burn with the Tyne, a level was commenced and driven forward so as to cut, first, Sir John's Vein, and then the Sulphur Vein. Ore was found, but not in sufficient quantities to pay the cost of extraction. In Crossgill Burn, which is

three miles further to the west, mining operations on a considerable scale were conducted in the Sulphur Vein in 1815-25, first, by a private company, and subsequently by the Commissioners for Greenwich Hospital, but nothing valuable was discovered. Copper ore, in small quantities, was obtained, but we are not aware that any lead-ore was found. Forster says that a collateral string, on the north side of the principal vein, wan cut in Crossgill, which yielded some very fine specimens of copper pyrites, or yellow copper ore, blended with malachite, which is a strong indication of the presence of ore. The indication in this case was deceptive, for no ore was found. The veinstone consists of a mixture of quartz in the amorphous state, with rider and pyrites. Sir John's Vein, which has just been mentioned, runs from north to south, and interacts the Sulphur Vein at Tyne Head. It is a remarkable fact that the only valuable deposit of copper, which has yet been found in Alston Moor, occurred in Sir John's Vein, and at a point, which is not far from its intersection with the Sulphur Vein. A Whin Dyke of great thickness, but unaccompanied by any dislocation of the strata, runs almost parallel with the Sulphur Vein, though nearly 400 yards to the south-west, and, like the vein, disappears in the Pennine Fault on the west, and in Yad Moss on the east. The parallelism between the Dyke and the Backbone, the proximity of the one to the other, and the disappearance of both on Yad Moss, are facts, which seem to indicate a relationship between the two. We have said that the trials in the Sulphur Vein or Backbone have thus far proved abortive. We do not, however, conclude that these trials have shown that this great vein has no economic value. We are aware that some minerals, which were once regarded as worthless and were buried without the least reluctance in the dead heaps, are now in considerable request. Black Jack (blende) and red clay (umber) are now marketable commodities, and the pyrites, iron, and copper of the Sulphur Vein may become so in the future. Moreover, the occurrence of a rich deposit of copper ore in Sir John's Vein, and the discovery of copper in the Backbone itself, are matters, which deserve, and will, we believe, some day receive serious consideration. The Backbone is of immense strength, and should it ever acquire a commercial value it will supply the means of employment for hundreds of men for a long time.

The route of the proposed line crosses the Vein at Tyne Head, and is only a few hundred yards distant from it; where are the works, at Crossgill Burn, which were abandoned more than half-a-century ago by the Commissioners for the Greenwich Hospital because the yield of ore was not sufficient to pay ordinary expenses.

OTHER VEINS IN TYNE HEAD.

Sir John's Vein is also of great strength, and traverses Alston Moor from north to south, crossing most of the east and west veins, and throwing the strata up on the west side of its course. In Tyne Head, and almost on the route of the railway, this vein intersects two other veins, which have yielded large quantities of lead-ore, —the one being known as the Ashgill Field Vein, rich, and the other as the Potato Garth Vein. Both traverse the Ashgill Plantation, a place which is well- known to travellers from Middleton-in-Teesdale to Alston. The Potato Garth Vein intersects the Ashgill Field Vein on the east side of Ashgill Burn, and near the point of intersection a deposit of ore, containing a few thousand bings, was found by the miners. The other veins in Tyne Head and Ashgill are of minor importance, and can only be mentioned here. The Windy Brae Vein has yielded lead-ore in the Great and Scar Limestones; the Clargill Vein has yielded silver

ore in the strata below the Scar Lime, Lee House Vein is said to have yielded copper ore in the Copper Hazel and other sills.

CASHWELL AND CROSS FELL MINES.

The Cashwell and Cross Fell mines lie to the west of the Tyne Valley proper, the former being four miles, and the latter upwards of five miles from the village of Garrigill. The produce of these mines is taken to the Alston station, which is situated at a distance of four miles beyond Garrigill. The Cross Fell mine was at one time very rich. Tradition says that the deposit was discovered accidentally by the pawing of it horse. As a matter of fact, the ore was found immediately under the moss, and therefore, very near the surface. For a few years this mine yielded 5,000 bings of ore per annum, and as the average price per bing was £5 10s. the gross revenue from the mine was £27,500 (Forster's Strata, page 149). The deposit was exhausted long ago, and the mine is now being worked on a very small scale, if not abandoned altogether. The Cashwell Mine has experienced many vicissitudes of fortune, being at one time rich, at another time poor, but always, we believe, in working order. A deposit of ore was discovered there quite recently, sufficiently extensive to have enriched the larger shareholders if the price of lead had been as high us it was twenty-five years ago. Besides the Cashwell and Cross Fell Mines there are many small concerns in the Cross Fell district, but all, or nearly all, are now closed. The cost of carriage to and from Alston Station was, no doubt, a heavy item in the mining accounts, for the road over one-half the distance is not only in a bad condition, but very steep. The proposed line passes at one point within two miles- and-a-half of the Cashwell Mine, and would, therefore when made, reduce the cost of carriage very considerably; and would thus, perhaps, enable the shareholders to carry on the mines with profit. The principal mines in Garrigill are situated on the east side of the Tyne, and would not, therefore, be greatly benefited by the railway. The Nenthead mines are separated from the Valley of the Tyne, at Garrigill, by a mountain barrier scarcely less formidable than Killhope, but the access to them from Alston, by the valley of the Nent, is comparatively easy. The Rodderup Fell Mine, now closed, is only three miles from Alston, and would not, therefore, be much affected by the new line.

GENERAL REMARKS.

This rapid sketch of the district through which the line from Middleton-in-Teesdale to Alston will necessarily pass, shews (1) That the route presents no extraordinary difficulties, and (2) That it lies almost wholly in a mining field. True it is that, the lead mining industry is now in a depressed condition, and that a large majority of the mines are closed, but there is another side to this dark picture. With the decline of the old industries, new ones are springing up. We have already referred to the spelter and umber industries, which are both things of yesterday when compared with lead-mining. With these should be mentioned the limestone and basalt industries. Lime is now being sent from Alston as far north, we are informed, as Aberdeen, and from Weardale into Cleveland; and the road metal prepared from basalt by Maddison & Co., in Teesdale, commands a ready market. The Pennines abound in other minerals besides blende, umber, limestone, and basalt. The Backbone, as we have already seen, contains some copper and an immense quantity of sulphur. Is there not a possibility that some use may, in the future, be found for this last mentioned mineral.

Again, the crow coal of the lead measures will almost certainly rise in value with the exhaustion of the Northumbrian and Durham coalfields. Even at present crow coal is extensively used in the limekilns. Iron-stone, of poor quality, building-stone, and sulphate of barytes, are also found in abundance in Upper Teesdale and Tynedale.

STANHOPE

On Tuesday an accident of a deplorable nature took place at Broadwood Limestone Quarries, Frosterley, the property of Messrs Peas & Co., to a young man named Joseph Temperley. A huge stone fell on his foot while at work, completely smashing it. Medical aid was summoned from Stanhope and the foot was amputated.

24th June 1887 (Carlisle Journal)

ALSTON RURAL

At an informal meeting of this Authority on Saturday, the Rev. O. James presiding, Messrs. Holmes and Harrison, who were appointed at a previous meeting to report on the water at Nenthead, stated that at the present time there was an absolute water famine. The water from the pipes supplying the wells in the village had been diverted by drains in an adjoining field apparently tapping the spring. After considerable discussion it was decided to connect the pipes with the main drain for the present. Afterwards a spring in an adjoining meadow might also be connected when the grass was cut.

Government Inspectors of Mines Reports

Report of Mr Bell 1887. 24th June 1887, Burtree Pasture, Weardale, Weardale Lead Co. Fatal Incident report concerning the death of Thomas Rutherford aged 45

Died from natural causes whilst walking along the level to his work.

In 1881, at West Fall, Heathery Cleugh, Stanhope, Thomas Rutherford, lead miner, aged 38, his wife Esther 29, and son Joseph 3 months. In 1891, at Castle Bank, Tow Law, Esther Rutherford, widow, aged 39, sons Joseph 10, Walter 8, and boarder John G Lawson, manager of boot shop, aged 20.

ALSTON
RURAL SANITARY AUTHORITY

The Medical Officers report for the No. 2 District was read, and showed for the quarter ending June 30th, 1887, 13 births and 7 deaths had been registered. The deaths were equal to about a rate of 12 per 1000 per annum. During the quarter, there were 7 deaths against 12 during the corresponding period last year and in the month of May, no death was registered. There is an entire absence of infectious disease in the district, which could not be in a more healthy condition than at present.

6th August 1887 (Hexham Courant)
Deaths
At The Raise, Alston, 3rd inst., aged 47, Mary Ann the beloved wife of Joseph Dickinson junior, solicitor and eldest daughter of the late John Lee of West Hill, Brampton. *In 1881, at Raise House, Joseph Dickinson, junior, solicitor, aged 40, his wife Mary Ann, (Lee, married at Brampton, 29th June 1880) aged 40, and domestic servant Sarah Carr aged 20. In 1891, at Raise, Joseph Dickinson, widow, solicitor, Elizabeth I. Lee, sister in law, aged 48, Emma H. Lee, sister in law, aged 37, and domestic servant Annie R. Ridley, aged 26.*
At Australia, at Bathurst, Sydney, June 5th aged 47, Mary Jane wife of Michael Askew and youngest daughter of the late Joseph Ritson of Ninebanks, Allendale.
In 1851, at Ninebanks, Joseph Ritson, cartwright & joiner, aged 42, his wife Jane 42, children Thomas, cartwright & joiner, aged 17, Elizabeth 16, John 14, Ann 12, Mary Jane 5, visitor Joseph Wilson, Primitive Methodist minister 25, and servant John Hymers, cartwright & joiner, aged 26.

In 1861, at Ninebanks, Joseph Ritson, cartwright, builder, and cabinet maker aged, 52, his wife Jane 52, children John, cartwright & builder, aged 24, Mary J. 15, Joseph 9, and apprentice Robert Stobart, cartwright & builder, aged 19.
Mary Jane Ritson married Michael Askew 9th September 1864, at Hexham.

13th August 1887 (Hexham Courant)
Deaths
At Durham, Leasingthorne Colliery, 8th inst. suddenly, Teasdale Stephenson, eldest son of the late William Stephenson of Alston.
In 1841, at Town Head, Alston, William Stephenson, lead miner, aged 35, his wife Mary (Liddle, married 1st March 1831) aged 30, children Teasdale 9, Mary 6, and Hannah 4.
William Stephenson died 3rd quarter 1845.
In 1851, at Town Head, Alston, Mary Stephenson, widow, confectioner, aged 42, children Teasdale, lead miner, aged 19, Mary, factory girl, aged 16, Hannah, factory girl, aged 14, Joseph 8, and John 6.
Teasdale Stephenson married Rebecca Cooper Young 2nd quarter of 1864, at Durham.
In 1871, at Carrville, Durham, Teasdale Stephenson, coal miner, aged 38, his wife Rebecca C. 38, children George W. 2, and Jane Y. 1 month.
In 1881, at Leasingthorne, Middlestone, Durham, Teesdale Stephenson, coal miner, aged 48, his wife Rebecca 48, children George William, driver, aged 12, Jane Young 10, and Teesdale 7 years.

20th August 1887 (Hexham Courant)
Deaths
At the Post Office, Nenthead, 13th inst., aged 77, Elizabeth Tatters, relict of the late John Tatters.
In 1851, John Tatters, at West Nenthead, lead miner, aged 39, his wife Elizabeth (Cousin, married 25th June 1840) aged 41, children Isabella 10, Sarah 7 (married Henry Hall, in 3rd quarter of 1874; emigrated to Ontario), Elizabeth 4, and Mary Jane 3 months.
In 1861, at Bank Foot, Nenthead, John Tatters, lead miner, aged 49, his wife Elizabeth 51, children Elizabeth, dress maker, aged 14, and Mary Jane 10
In 1871, at Nenthead post office, John Tatters, lead miner, aged 59, his wife Elizabeth 61, children Elizabeth, dress maker, aged 24, and Mary J. milliner, aged 20, Also at the post office, Thomas Roddam, lead miner aged 29, and his wife Isabella aged 30, Isabella Tatters married Thomas Roddam 25th February 1869.
John Tatters died 27th October 1872, aged 61.
John Tatters, mine washing Overman, Nenthead, will dated 23rd October 1872, proved at Carlisle 1st August 1874, effects under £450. Names mentioned in the will: —
Wife Elizabeth Tatters, brother Walton Tatters, clerk, Alston, Sophia Wilson and Isabella Anne Wilson, children of the late Ann Wilson late of Carlisle, deceased. His children Isabella wife of Thomas Roddam, Sarah Tatters, Elizabeth Tatters, and Mary Jane wife of Joseph Teasdale.
Thomas Roddam husband of Isabella died 28th January 1879, Isabella died 6th August 1879.

At Mishawake, US America, 6th inst., aged 74, William Milburn, formerly of Alston
Cumberland.
In 1850, William Milburn (son of Thomas Milburn, and Ann (Nancy) Dickinson, born 5th August 1813, baptised at Redwing Methodist Chapel, Garrigill, Alston, 24th February 1814) sawyer, value of real estate $5000, aged 36, his wife Sarah (Chandler) aged 30, born Kentucky, children all born Indiana, Elizabeth 9, Martha 6, George 3, Hannah 2, sisters Hannah Milburn 28, and Jane Milburn 17.
In 1860, USA Federal Census, Penn, Saint Joseph, post office district Mishawake, Indiana, William Milburn, farmer, value of real estate $4250, value of personal estate $4210, aged 46, Sarah, born Kentucky, children all born in Indiana, Elizabeth 20, Martha, 16, George 14, Hannah 12, William 10, Cora 8, Sarah 6, Frank Edward (Eddy) 3, and Mary 1.

In 1870, USA Federal Census, Penn, Saint Joseph, post office district Mishawake, Indiana, William Milburn, farmer, value of real estate $25000, value of personal estate $16000, aged 56, Sarah, born Kentucky, keeping house aged 48, Mary 11, born Indiana, Bessi, born Indiana, 6, and Frank, born Indiana, 13.
Sarah died 26th November 1870, William married 25th April 1872 Jane Eldest daughter of William Dickinson Esq., of Spency Croft, at Alston. See 4th May 1872.
In 1880, USA Federal Census, Penn, Saint Joseph, post office district Mishawake, Indiana, William Milburn, farmer aged 67, his wife Jane born England, parents also born in England, aged 48, son Eddy, farmer, born Indiana, aged 23, father born England mother born Kentucky, daughter Bessie aged 17, and mother in law Elizabeth Chandler, born Kentucky, aged 90. See 10th May 1879, 6th July 1889, & 23rd April 1892

24th August 1887 (Teesdale Mercury)
LEAD MINING IN TEESDALE. —The discovery of a lead ore vein at Blea Gill, near Newbiggin, is reassuring. The London Lead Company, who have been exploring for some time past, and have been at considerable outlay at the above place, have now cut a quick vein which gives fair promise of developing into a good mine. The vein has been cut into at the bottom, or low flat, in the great limestone, and there being a good section of sills overhead, and, besides, the whole being virgin ground, with the exception of what has been done by hushing operations on the surface, there is every prospect of a new mining field being opened out, which we may say is being regarded both by the employers and employed in the dale as most opportune.

27th August 1887 (Carlisle Express and Examiner)
KESWICK.—SATURDAY, AUGUST 20
CASES UNDER THE EMPLOYERS AND WORKMEN ACT. — Joseph Bay, and Edward Edwards, lead miners, employed by the Barrow, or Braithwaite, Lead Mining Company, sued the Company for wages due to them, to the amount £2 9s 6d, each.—Mr. J. Broatch appeared for the complainants, and the Company were unrepresented, an effort having been made to evade the service of the summonses. —Police-constable Garnett deposed to serving the summonses on the person in charge of the works Monday last. His name was Davis. On the following day he returned the summonses stating that his employers said he had nothing to do with taking them.—Mr. Bruatch explained that the Company had no registered office, therefore they could only serve them upon the person in charge the works. —The Bench decided that the summonses had been properly served, and heard the cases. —Mr. Broatch then produced the due pay bill made out by the company, showing that the complainants were entitled to the amounts claimed. —The complainants having given evidence the time they had worked and when the money was due, an order for payment with costs was made. —
Thomas Lancaster, lead miner, Thornthwaite, made claim against the Cumberland (Thornthwaite) Lead Mining Company for £1 wages and the return of fine of 5s. which had been imposed open him. The company brought counter claim of £3 alleged to have been paid on account of the complainants negligent work.—Mr. J. Broatch for the complainant, and Mr. I. Lowthian for defendant

company.—Mr. Broatch stated that complainant was one of a gang six men who had a contract under the Company to certain work in the getting out of ore £2 per fathom. —Mr. Lobb, the manager, admitted that they would not have brought any claim for damage by negligence if complainant had not summoned the company for his wages.—The Bench considered that the counter claim was out of court by this statement of Mr. Lobb's and made on order for the payment £l, and the return of the fine.

27th August 1887 (Hexham Herald)

WEARDALE

DISCOVERY OF A NEW VEIN

The London Lead Company have discovered a valuable vein of lead ore at Blea Gill, where exploring operations have been going on for some time. The men have cut a quick vein, which gives fair promise of developing into a good mine. The vein has been cut at the bottom of Low Flat, in the Great Limestone stratum, and there is a good section of sills overhead, the whole being virgin ground.

Deaths

Alston Town Foot, 21st inst., aged 48, Elizabeth eldest daughter of the late John Woodmass, land surveyor.

In 1841, at Callington, Liskeard, Cornwall, John Woodmas, land surveyor, aged 25, his wife Margaret (Dickinson, married 6th December 1835) aged 25, children Jonathan 4, and Elizabeth 1 year.

In 1851, at Town Foot, Alston, John Woodmass, Auctioneer, & mine agent, born Alston, aged 39, his wife Margaret 38, children Jonah 14, Eliz 11, Jas H 9, T W 5, and Hannah 8 months.

John Woodmass probably died 2nd quarter 1865, at Alston

In 1871, at Town Foot, Alston, Margaret Woodmass, widow, dressmaker, born Knaresdale, Northumberland, aged 59, children Jonathan, surveyor, born Alston, aged 34, Elizabeth, milliner, born, Thorncombe, Devon aged 32, John Henry, joiner, born Callington, Cornwall, 29, Thomas William, joiner, born Alston, aged 25, and grandson, Herbert W Woodmass 1 year.

See 20th June 1868, & 17th January 1914

Alston, Town Head 25th inst aged 86, Sarah relict of Joseph Pearson

In 1841, at Town Foot, Alston, Joseph Pearson (born Durham), dealer in earthenware, aged 40, his wife Sarah (Pearson, married 7th December 1823, Alston) born Alston, aged 40, Isabella 15, Sarah 14, Elizabeth 9, Adam 7, Jonathan 4, Lucy 1, and Mary Pearson 45.

In 1851, at Front Street, Alston, Joseph Pearson, letter carrier, aged 54 Sarah, school mistress, aged 53, children Adam, labourer, woollen manufactory, aged 16, Jonathan, labourer, woollen manufactory, aged 14, Joseph 3, son in law, Levi Salkeld, lead miner, aged 25, daughter Sarah Salkeld, domestic duties 24, grandson Wm Salkeld 4 months.

In 1861, at Main Street, Alston, Joseph Pearson, Alston letter carrier, aged 64, his wife Sarah 62, and son Joseph 13.

In 1871, at Main Street, Alston, Joseph Pearson, formerly letter deliverer, aged 74, his wife Sarah 70. Joseph Pearson died 2nd quarter 1872, aged 75.

In 1881, at Front Street, Alston, Sarah Pearson, widow, earthenware dealer, aged 80, and unmarried daughter Isabella, earthenware dealer, aged 56.

Stanhope Croft House, 20th inst., Susan wife of Richardson Robinson.

In 1881, at Quaker Square, Stanhope, Richardson Robinson, master mason, aged 61, his wife Susan, born Scotland, aged 56, niece Elizabeth Jeffrey 24, granddaughter Annie Adamson 5 years.

3rd September 1887 (Hexham Courant)
Deaths
At Leadgate, Alston, 24th ult., aged 32, Mary Jane, wife of Thomas Parmley, lead miner.
In 1871, at High Aimshaugh, Alston, Elizabeth Parmley, widow (her husband William a farmer, died 1871, aged 51), farmer of 100 acres, aged 47, children Hannah, dress maker, aged 22, Thomas, lead miner, aged 18, John, lead miner, aged 16, Margaret 13, William10, Elizabeth 8, and niece Mary Jane Hetherington 4 years.

Alston Market Place 16th inst., aged 2, Lawrence son of James and Phoebe Ann Walton. *James Walton married Phoebe Ann Dawson, 4th quarter of 1884, registered Alston; on the death register their son was registered as James Lawrence.*

1st October 1887 (Hexham Courant)
WEARDALE REPORT OF THE LEAD MINES
Groverake: The 50 fathom level under the great limestone and continues strong. Vein chiefly fluorspar. Rise from the 50 fathom level now up 10 fathoms to the top of great limestone. This rise when through to the 30 fathom level will open up both great limestone and coal sills. Rise from the 30 fathom level to random of Rake level, a cross cut to communicate with the same will be made at once. - Mill Level: Have reached far cheek of vein, which is 12 to 14 feet wide; donk caulk, and sulphur. Vein barren looking; suspended for the present. - Boltsburn: Coal sill drift, vein 2 feet wide, extremely hard and firm, end poor. - Red Vein Level: Rise from Mary's vein in clay and tumblers; east drift chiefly iron rider; no ore to value. - Greenlaws: Bowes rise and stopes between Watson's and Lowe's drifts looking better for ore. Slaley hazel drift, east vein 3 feet wide work 12 cwts per fathom. Egglestone's sump, 11 fathoms drift east, vein 3 feet wide work 16 cwts per fathom. West string, sparry vein, 4 feet wide of spar and rider. Tynebottom limestone west end continues poor, east end better quality of vein, more strength, 3 feet wide chiefly spar. - Killhope: Engine sump, quarry hazel, west forehead, vein shows a little more strength, 3 feet wide, chiefly spar mixed with ore. South lead retains its value. East end, sinking in down 10 feet below drift, strong kindly vein, 3 to 4 feet wide, worth 3 tons per fathom. Main shaft making fair progress in strong hand post, 2 feet sunk last week. - Wellhope: Handsome new vein has been cut, but indications are not promising for top sills; vein 2 to 3 feet wide; matrix chiefly donk. Water supply is abundant. The ore dressing during the week was 143 tons. Ore raised during the week equal to 60 tons of dressed ore. The lead trade is quiet and business is reported at £11 17s 6d to £12 for Spanish and £12 5s for English.

1st October 1887 (Hexham Herald)

ALSTON

MINERS TREAT

On Friday, last the workmen employed at the Cashwell Mine were treated with a trip to Newcastle. Leaving Alston by the 7.20 excursion train, Newcastle was reached at 10 o'clock; and the day was most pleasantly spent in visiting the Royal Industrial Exhibition.

15th October 1887 (Hexham Herald)

ROOKHOPE

SERIOUS ACCIDENT

On Tuesday morning, while some workmen employed at the Smelt Mill, at Bolts Burn, Rookhope, were engaged washing the soot down the flue connected with the mill, a large accumulation of soot and water, running about three feet deep, burnt away down the flue, which is very steep. Four men were working a little further down the flue, and seeing the flood coming ran for their lives. One poor fellow, however, named, John Parker, was caught by the stream and carried about a mile in the nasty fluid. When rescued he was quite insensible, and his recovery is despaired of. A man named Oliver had a very narrow escape from a similar fate.

22nd October 1887 (Hexham Herald)

WEARDALE

THE WEARDALE LEAD MINES

Twenty Allendale men, principally residing in the upper reaches of the dale, employed at the Rookhope lead mines have received notice to terminate their engagements at these mines, which belong to the London Lead Company.

THE SAD ACCIDENT AT ROOKHOPE.

The young man named John Parker, who was carried down a flue connected with the Rookhope Smelt Mill on Tuesday week by a flood of water and soot which had burst away, as previously reported died of his injuries on Saturday.
Parker and Oliver were engaged doing the periodical cleaning out of the soot, and which is facilitated by the use of water, which finds its way in from the surface. Large air ventilators, which are always opened prior to beginning operations are placed at short intervals, with doors for egress at the side of the flue, which is seven by four feet in size, so that there is ample space to move in. Fortunately five of the men had just passed out one of the said doors, when it is supposed that from the recent heavy rains after the long drought a terrific "hush" rushed down the flue catching deceased. ... Dr William Robinson, Stanhope, ... found him (Parker) suffering from concussion of the brain, and there were four lacerated wounds on the head exposing much of the skull. He treated him accordingly. He was covered with the lead fume; it was also rubbed into the wounds. He attended him up to the day of his death. ... They had let in no water to carry away the heap which swept deceased away, and where it came from he could not tell, as there was more fume than he had seen before.
Verdict of inquest accidental death.

In 1851, at Chestergarth House, Rookhope, Stanhope, Thomas Parker, lead ore viewer, aged 49, his wife Isabella (Bowman, married 27th June 1830) aged 44, children James, lead ore washer, aged 21, Thomas, lead ore washer,

aged 16, Jane, house maid, aged 14, Isabella 11, Mary 9, George 7, Hannah 5, and Joseph 4 months.
In 1861, at Bolts Burn, Rookhope, James Parker, lead ore washer, aged 30, his wife Mary A. (Hodgson, married 1855) aged 29, children Elizabeth 6, Thomas 5, John 2, visitors Hannah Watson 23, and Mary A Rutherford 20.
In 1871, at Bolts Burn, Rookhope, James Parker), lead ore washer, aged 42, his wife Mary A. aged 40, children Elizabeth, servant domestic, aged 16, Thomas, lead ore washer, aged 15, John P12, Mary I. 6, and James 3 years.
In 1881, at Bank Foot, Rookhope, Stanhope, James Parker, lead miner, aged 51, his wife Mary A. 50, children John, lead smelter, aged 22, Mary I. 16, James 13, and mother in law, Mary Hodgson, aged 74.
In 1891, at Bank Foot, Rookhope, James Parker, lead ore dresser, aged 61, his wife Mary Ann, aged 60, and son James, lead ore smelter, aged 23.
In 1901, at Bank Foot, Rookhope, James Hodgson, stone mason, aged 38, his wife Mary Isabella, aged 36, children, John P. 13, James E. 11, Annie. E. 9 months, and father in law James Parker aged 70.

Deaths

Allendale Moor House, 17th inst., aged 51, Jane daughter of the late John and Hannah Chatt.

In 1851, at Moor House, John Chatt, lead ore smelter, and farmer of 72 acres, aged 58, his wife Hannah (Smith, married 26th June 1826) aged 54, children Sarah 24, Thomasine 20, Jane 14, John 12, Thomas 9, niece Elizabeth Sanderson 10, and niece Frances Stobbs 5 years.
In 1861, at Moor House, John Chatt, farmer of 72 acres, & lead ore smelter, aged 67, his wife Hannah, aged 63, children, Sarah 34, Thomasine, dress maker aged 30, Jane aged 24, John aged 21, and grandson John aged 1.
In 1871, at Moor House, John Chatt, farmer of 72 acres aged 77, his wife Hannah aged 73, children John farmer of 50 acres, aged 32, Thomasine, dress maker, aged 39, and Jane, dress maker, aged 34.
John Chatt died, 2nd quarter 1874, aged 80.
In 1881, at Moor House, Hannah Chatt, widow, farmer of 26 acres, aged 84, daughter Jane 44, and farmers son John 42.

29th October 1887 (Hexham Herald)

ALSTON RURAL SANITARY AUTHORITY

Dr Masterton's report for No. 2 district for the quarter ending Sept 30th stated that during the quarter, the general health of the inhabitants of the district had been remarkably good; and with the single exception of a case of Typhoid Fever in a mild form, there has been an entire absence of other Zymotic diseases.

WEARDALE

RE-OPENING OF MINES OF WEARHEAD.

The re-opening of the iron mines of Wearhead by the Weardale Iron & Coal Company after being closed for Two years will be regarded with widespread feelings of satisfaction throughout the district it being estimated that the resumption of the operations will bring about a thousand pounds per week to the vale and give employment to all who have been without work so long.

ALLENDALE

DEATH OF CAPTAIN HOLMES

We record the death of Captain Holmes (*Volunteer Corps)*, which took place at his residence, Dawson Place, Allendale Town on Saturday last. As native of the dale, the deceased was well known and respected. He was for many years engaged as Agent for Mr Beaumont. In fact, he held but one situation during his life a fact, which testified to his trustworthiness as a businessman. Five or six years ago when the Smelt Mills ceased to work on such an extensive scale as they previously had done the deceased retired from the post he had held so long and so worthily. … In May 1886, he was attacked by a severe paralytic stroke, from which he can scarcely be said to have recovered, although he was afterwards able to move about.
He was interred on Wednesday afternoon in the Church yard at Allendale Town.

Family at the funeral, Mr C Holmes Felling, Mrs Errington = Brother & Sister Mr & Mrs Dixon nephew & niece, Mrs Winter niece, Mr W Holmes & Mr J Holmes Nephews, Mr C Spark Holmes Nephew.
In 1851, at Allendale Town, William Holmes, innkeeper, aged 58, his wife Elizabeth 55, children, William, smelting agent clerk, aged 32, Jane 28, James 23, Christy, 15, granddaughter Anna 8, daughter Elizabeth Richards, inland revenue officers wife, aged 30, and granddaughter Mary Elizabeth 7 months.
William never married and in 1871, he is employed at the lead smelting works, in 1881 the census records at Dawson Place, Allendale, William Holmes, Clerk (out of employment) aged 61.

10th December 1887 (Hexham Herald)
Deaths
Nenthead Alston, Hare & Hounds Inn, 3rd inst., aged 53, William Cousin.
In 1861, at Coldron Snout, Nenthead, William Cousin, farmer of 24 acres, (previously lead miner), aged 62, his wife Hannah (Todd, married 14th May 1825) aged 56, children William, lead miner, aged 26, Isaac, lead miner, aged 20, Jonathan, lead miner, aged 17, Henry, labourer at farm, aged 15, and Margaret 11 years.

William Cousin was buried at Nenthead 30th April 1861, aged 62.
Hannah Cousin was buried at Nenthead 26th June 1864, aged 58.

In 1871, at Strellas, Nenthead, William Cousin, lead miner, aged 35, his wife Jane (Richardson, married 21st May 1863, at Nenthead) aged 27, children Hannah 3, and Jacob 7 months.

LANGHORN CHARITY

Applications will be received for this charity on the 14th inst., at Nentsbury. The distribution will take place on the 24th inst., in the boardroom, Town Hall, Alston, instead from the Parish Church as heretofore.

17th December 1887 (Hexham Herald)

WEARDALE

A healthy recovery is said to be now manifest in the iron and lead mining industries of Weardale. The demand by the Weardale Iron Company for the stone quite exceeds the supply. The ordinary number of leaders to cart the mineral from the quarries to the depot at Westgate has been found to be inadequate, and will be increased forth with from Alston to Tow Law; in addition to which a large number of Allendale men have been employed at the new venture in Middlehope. The greatest activity prevails at the dressing works of the lead company in getting ore ready for market.

24th December 1887 (Hexham Courant)

Marriages

At Ninebanks, St Mark's Church, 8th inst. G. W. Storey of Alston, to Mary Elizabeth, eldest daughter of Mr Bell, Nether House, Allendale.

31st December 1887 (Hexham Courant)

Deaths

At Whitehall, Nenthead, 18th inst. after a long and painful illness, George Hutchinson *aged 42*.

See 25th February 1843, 25th December 1867, and 7th August 1880

At Park House, Alston, 24th inst. aged 80, Elizabeth relict of Thomas Smith.

In 1881, at Park House, Alston, Thomas Smith, retired farmer, aged 78, and his wife Elizabeth aged 73.

Thomas Smith died 3rd quarter 1882, aged 80, or 2nd quarter 1887, aged 85.

7th January 1888 (Hexham Herald)

LANGLEY

CLOSING OF LANGLEY SMELT MILLS

Langley Lead Smelting mills which have been established for considerably over a century, though latterly only giving employment to a small number of hands, have now been closed, and are to be speedily dismantled, and the machinery and plant sold … of Langley mills it may be mentioned that they were commenced upwards of a century ago and carried on by the Commissioners of Greenwich Hospital, until 1833, since which time they have been carried on by private enterprise. For many years, these extensive smelting mills were in the hands of Messrs Jos. Dinning and Co., and under their management gave employment to a good number of workmen.

14th January 1888 (Hexham Herald)

WEARDALE

FATAL ACCIDENT TO A WEARDALE MINER IN AMERICA.

Saturdays mail brought news to Weardale of the death of a young man named George Carrick, aged 23, who was killed at Huntsville, Missouri, US, on the 20th December. Carrick who emigrated only about four months ago was ascending

the Pit shaft after working his shift with his mate Dunn, belonging to Sunnyside, Tow Law, when by some means, he was caught between the cage and the side of the shaft. Dunn clung to him, thus jammed until they reached the bank, when the poor fellow expired. Deceased was a fine young fellow and was the recipient of a testimonial from his fellow teachers and scholars at High House Wesleyan Chapel prior to his departure.

In 1871, at Dog Hill, Stanhope, Thomas Carrick, lead miner, and farmer of 5 acres, aged 37, his wife Mary 31, children George 6, John 3, and Philis 11 months. Thomas Carrick died 2nd quarter 1874, aged 40.

In 1881, at Irishope Plain, Stanhope, Mary Carrick, widow, aged 41, children, George, cartman, aged 16, John, 13, Philis 13, and Thomas 7.

In 1891, at Irishope Plain, Stanhope, Mary Carrick, widow, aged 51, sons John, lead miner, aged 23, and Thomas, horse driver, aged 17.

Deaths

Nenthall School House, Alston, 7th inst., aged 52, William Lee, gamekeeper. Alston Workhouse, 3rd inst., aged 54, Ruth Richardson; on the 6th inst., aged 70, Sarah Winskell.

17th January 1888 (Carlisle Journal)

DEATH OF MR. CARSON, SURGEON, ALSTON.—The death is announced of Mr Carson, surgeon, of Salvin Lodge, Alston. Mr. Carson was a professional gentleman of good attainments who had built up an extensive practice in the Alston and Nenthead districts. A Scotchman by Mr birth, Carson's first connection with the North of England was as the assistant of Dr Byres, of Middleton, From there he came to Nenthead, and eventually to Alston. Mr Carson held several public and parochial medical appointments. Some few years ago owing to advancing years, Mr Carson resigned his practice to his son, Mr Stuart Carson, junr. *(Aged 79)*

21st January 1888 (Newcastle Daily Chronicle)

Deaths

At Pity Me, 20th inst., aged 45, William Armstrong, formerly of Nenthead. To be interred on Monday.

28th January 1888 (Hexham Herald)

ALSTON

LONGEVITY

The oldest female in the parish of Alston, Mrs Ruth Irwin died at Nenthead on the 19th inst., her age being 96 years. Up to a very short period prior to her death she was hale and hearty.

In 1851, at High House, Nenthead, John Erwine, lead ore washer, aged 61, his wife Ruth (Bales, married 7th December 1815) aged 57, children Thomas, lead ore washer, aged 32, John, lead miner, aged 27, Mary 20, Ruth 17, Ann 15, Hannah 12, Anthony 9, and Jane 8.

John Irwin died 1st quarter 1854, or 3rd quarter 1855.

In 1861, at Whitehall, Nenthead, Ruth Erwine, lead ore washing foreman's widow, aged 67, son Thomas, washing foreman, aged 42, son John, lead ore miner, aged 39, daughter Ann, dressmaker, aged 25, granddaughter Elizabeth Brown 14, grandson Thomas Brown 11, and grandson John A Erwine 1 year.

In 1871, at Whitehall, Nenthead, Ruth Erwine, widow, housekeeper, aged 78, son Thomas, lead ore washing foreman, aged 52, Elizabeth Brown, domestic servant, 24, and grandson John Anthony Erwine, aged 2.
In 1881, at Whitehall, Nenthead, Thomas Erwine, unmarried, lead ore washing foreman, aged 62, his mother Ruth, aged 87, and nephew John A. aged 12 years.
In 1891, at Whitehall, Nenthead, Thomas Erwin, retired washing foreman, aged 72, nephew John Anthony Erwin, lead ore smelter, aged 22, and general servant (domestic) Leah Armstrong aged 28.
See 6th December 1884, & 27th October 1900

4th February 1888 (Hexham Courant)
Deaths
At Loaning Head, Garrigill, Alston, 30th ult., aged 82, Elizabeth, relict of James Slack, lead ore washer.
In 1881, at Garrigill Gate, Elizabeth Slack, widow, grocer, aged 75.
See 3rd April 1875

7th February 1888 (Northern Echo)
MINING HITCH IN WEARDALE
Considerable disappointment and feeling was prevalent when it became known that the men engaged by the Weardale Iron Company to develop the new ironstone mine at Grove Heads, Ireshopeburn, could not start owing to some hitch between the above company and the Lead Company whose level was to be used to reach the mineral. Rumour says that the Lead Company are dissatisfied at the exodus of their workmen to the revived ironstone industry.

14th February 1888 (Northern Echo)
THE IRONSTONE INDUSTRY IN WEARDALE
The hitch we recorded has been removed at the Grove Head Mine, Ireshopeburn, and all is now in full swing, large numbers of men having been placed. These are supplemented by daily arrivals of teams of carts to convey ironstone to the depot at Westgate. Every available house and stable is occupied in the villages of Westgate, St John's, and Ireshopeburn. In the last-named accommodation for the influx is very scarce, and property owners are doing their best to find room.

18th February 1888 (Hexham Herald)
ALSTON
RURAL SANITARY AUTHORITY
Dr Masterton's report (for the past year) showed 25 deaths, at the rate of 13.5 per 1000, and 36 births. There was a remarkable decrease of births and deaths from the previous ear, when they stood at 60 and 40 respectively. He estimated the present population of 1900 as compared with 2333 at last census. There was now an abundant supply of water at Nenthead.
Deaths
At West Nenthead, Alston, 10th inst., aged 23, Mary Jane, daughter of the late Thos. Thompson, lead miner.
See 17th May 1884

25th February 1888 (Hexham Herald)

WEARDALE

3rd March 1888 (Lancaster Gazette)
SHOCKING DEATH NEAR PATTERDALE. — A lead miner, named Robert Gibson Bell, has met with a shocking death at the Greenside mines, near Patterdale. He was walking along a level, when about a ton of rock fell from the roof, and, breaking through the timber across the top of the level, it instantly crushed him to death. At the inquest the jury returned a verdict of "Accidental death,"

3rd March 1888 (Hexham Herald)
WEARDALE
ROOKHOPE
The village of Rookhope was alarmed on Wednesday evening by a serious and somewhat singular accident. One of the lead miners in his forgetfulness, after blasting the rock, brought home in his pocket the remaining charge. On arrival at his cottage his wet trousers were hung over the oven door to dry, and having attained the necessary heat, the charge exploded, breaking the iron work of the oven and grate to atoms. A weekly young man, a lodger named George Middleton stood near the fire and was fearfully burnt about the lower part of his body. Having cut off his clothes, his friends discovered that a piece of iron had been driven into his knee, and that the kneecap was smashed; other injuries were also visible. Remedial applications were adopted for the burns, and Drs Robinson and Livingstone from Stanhope, after administering Chloroform, amputated the limb, but the sufferer rapidly sank under the shock, even before the operation was completed. One of the miner's children was also injured. Great sympathy is shown by the inhabitants both for the deceased as well as for the unfortunate miner.
In 1881, George Middleton aged 20, was an inmate at the workhouse, Stanhope.
Deaths
At Kate's Lane, Alston, 27th ult., aged 65 Margaret widow of Matthew Hetherington, lead miner.
In 1861 living at the Butts Alston, Matthew Hetherington lead miner aged 40, his wife Margaret 39, children Thomas 13, Matthew 11, Sarah A 9, Jane 7, John 4, Margaret H. 2, William 4 months.

In 1871, at Kate's Lane, Alston, Matthews Hetherington, lead miner, aged 50, his wife Margaret 48, children Thomas, lead miner, aged 23, Matthew, lead miner, aged 21, Sarah A. domestic servant, aged 19, John, lead miner, aged 14, Margaret H. 12, William 10, Emily 4, Susannah 2, and Elizabeth J. 2 months.
Matthew Hetherington died 1st quarter 1873, aged 53.
In 1881, at 16 Kate's Lane, Alston, Margaret Hetherington, a lead miners widow, aged 59, children Matthew, lead miner, aged 31, John, a packer, aged 24, Emily 14, and Susannah 12. PAYDAY

The Weardale lead miners half yearly payday was held on Saturday last.

17th March 1888 (Hexham Herald)

WEARDALE
SERIOUS ACCIDENT TO A MINER.

A serious accident occurred on Friday night at Greenlaws lead mine, near St John's Chapel, to a miner named John Walton, of Westgate. It appears Walton had been preparing to fire a charge of dynamite, and was cleaning a detonator, when it suddenly exploded, shattering his hand in a frightful manner, severing two fingers and part of his thumb, also injuring other parts of his body. Dr Hewitson was quickly in attendance and pronounced his wounds to be of a serious nature.

24th March 1888 (Hexham Herald)

ALSTON

On Saturday, last the remains of Mary Watson of Nenthead were interred in the church of that village. The above was one of the old school, and for some time previous the deceased had been a sufferer of bronchitis. Although only of diminutive stature, her constitution has borne many fierce conflicts with its relentless enemy, but at last at the ripe age of four score and eight had to succumb to its effects. For 66 years Mary as she was familiarly known by, visited Alston market weekly acting as a sort of agent for her neighbours in the purchase of different household commodities as well as to stock her own little shop. … On the sign above her place of business, which was as follows: - "Hot tea and coffee, bread and beer sold here."
John Watson & Mary Hutchinson married at Alston, 29th June 1822, the IGI, shows two children baptised at the Primitive Methodist Chapel, Nenthead, Ann 13th February 1831, and Jane 4th August 1828. There is a record of an Ann Hutchinson, aged 4 buried at Alston 8th December 1835. There is a burial at Alston 6th December 1832, John Watson, aged 38; could these be Mary Watson's family?

In 1841, at West Nenthead, Mary Watson aged 40, Mary Watson aged 18, Robinson Watson, lead miner, aged 16 (married Mary Ann Peart, 24th November 1849), and Jane Watson aged 13.
In 1851, at Overwater, John Robson, lead miner, aged 25, his wife Jane 23, son Thomas 1 month, and mother in law, Mary Watson, widow, confectioner, aged 51. In 1861, at Overwater, Mary Watson, lead ore miners widow, aged 61, her widowed daughter, Jane Robson, aged 33, grandsons, Thomas Robson 10, John Robson 8, and Liddle Robson aged 6.
In 1871, at Overwater, Mary Watson, Confectioner, aged 71, her widowed daughter, Jane Robson, House Keeper, aged 43, grandsons, Thomas, lead miner, aged 20, John, lead ore washer, aged 18, and Liddle, lead ore washer, aged 16. In 1881, at Overwater, Mary Watson, grocer, aged 81, her widowed daughter, Jane Robson, grocer, aged 53, and grandson Liddle Robson, lead miner, aged 26.
See 11th February 1871, 3rd January 1880, 6th July 1895, 12th October 1895, and 3rd May 1902

ALLENDALE

On Wednesday, a rather serious accident befell a man named Thomas Keenleyside, whilst working in Longcleugh mine, Ninebanks, Allendale. It appears that he was engaged in blasting operations and had prepared a shot, which exploded before he had time to get away. The unfortunate man was badly burned about the face and left arm and medical aid was at once procured.
In 1861, at Ninebanks, Martha Keenleyside, widow, charwoman, aged 47, born Whitfield, and son Thomas, lead miner, aged 28, born Canada.
In 1871, at Ninebanks, Martha Keenleyside, widow, aged 57. Also Thomas Keenleyside, lead miner, born North America, aged 38, his wife Hannah (Armstrong, married 25th June 1868, Ninebanks) aged 25, and daughter Jane 4 months.
In 1881, at Ninebanks, Thomas Keenlyside, Ag. Labourer, aged 48, born North America, Toronto, his wife, Hannah aged 35, children Jane 10, and John 8.
In 1891, at Ninebanks, Thomas Keenleyside, lead miner, aged 58, born, Canada, his wife Hannah 45, children Jane 20, John Wm., general labourer, aged 18, Emma E. 9, and father in law, John Armstrong, parish relief, aged 79.
In 1901, at Ninebanks, Thomas Keenleyside, postmaster, aged 68, his wife Hannah, 55, and son John William, lead miner, aged 28.
Thomas Keenleyside died 1st quarter 1902, aged 69.

Deaths

Alston, Kate's Lane, 16th inst., aged 8 months, Elizabeth daughter of John Thomas Walton, shoemaker.

31st March 1888 (Hexham Herald)

Deaths

Alston Town Foot, 23rd inst., aged 61, Hugh Walton, blacksmith.
Temple Croft, 25th inst., aged 75, Ann widow of Isaac Craig, late of Wanwood side.
In 1851, at Sheep Rigg, Wanwood Side, Alston, Isaac Craig, lead miner, aged 36, his wife Ann 36, children Elizabeth 7, Phillis 5, Thomas 3, and Mary Ann 10 months.

ALSTON
RURAL SANITARY AUTHORITY
Medical Officers report for No. 2 or Nenthead district was read. During the quarter ended March 31st there had been 16 births and 16 deaths registered. The death rate was 33.22, on the estimated population of 1900. The district has been free from epidemic disease.

21st April 1888 (Hexham Herald)
WEARDALE
FEARFUL ACCIDENT TO A WASHER BOY.
A boy aged 15 named William Thompson of High House Farm, near St John's Chapel employed as a washer boy at Quarry level mine Daddry Shield, met with a most shocking accident on Monday morning. It appears that whilst the bay was engaged in oiling some parts of the crushing mill, the machinery unexpectedly moved off and he was caught by the merciless wheels. The boys right arm, was almost severed from the shoulder, and the toes of the left foot severely crushed. As soon as the boy arrived home, Dr Hewitson and his nephew were immediately in attendance, and amputated the arm of the unfortunate lad. On Wednesday when the report was posted some hopes of the boys recovery were entertained.
ALSTON
EMIGRATION
On Thursday morning last by the 10 am passenger train, Fred, son of John Millican, Alston, left Alston station, his destination being Winnipeg. On arrival, it is understood that he will commence farming pursuits. This makes the third of Mr Millican's sons that have recently left their homes to seek their fortune in Canada. *See 22nd March 1879.*

28th April 1888 (Hexham Herald)
Marriages
Alston Congregational Church, 24th inst., Henry Swinburn Kindred, Cromwell Street, Newcastle, to Mary, daughter of Jos. Craig, Flatt, Alston. Same time and place, Jos. Henry Pickering, Alston to Margaret daughter of Jos. Craig, Flatt, Alston.
In 1871, at Town Foot, Joseph Craig, lead miner, aged 48, his wife Maria aged 51, children Jane 25, Joseph, lead miner, aged 22, Sarah 19, William, waggoner, aged 16, Maria 13, Mary 10, and Margaret 7. In 1881, at Flatt, Joseph Craig, farmer of 40 acres, aged 58, his wife Maria 61, daughters Jane 35, Maria 23, Mary 20, and granddaughter Elizabeth Evans 9. In 1881, Margaret Craig, aged 17, was working as a telegraphist, at Alston post office. In 1891, at Flatt, Joseph Craig, farmer, aged 68, his wife Maria 71, daughter Jane 45, and granddaughter Elizabeth Evans 19.

In 1891, at the Gas House, Alston, Joseph H Pickering, gas manager, aged 27, his wife Margaret 27, children Ruth 2, Margaret 5 months, and mother, Ruth Pickering 58.
In 1891, at Heaton, Newcastle, Henry S Kindred, railway vanman, aged 29, and his wife Mary 30.

5th May 1888 (Hexham Courant)
ALSTON
MINING PROSPECTS
It is understood that a new mining firm will shortly commence operations on what is locally known as the “Backbone”, or Great Sulphur vein. An analysis of material taken from this vein at Crossgill shows 1.76 percent copper. The vein line is something like 100 fathoms wide, but is divided into strings. At Tynehead the vein is less broken into strings, and the width is reduced to 24 fathoms at the intersection with the St John’s vein. An analysis of the mineral here has shown 1.97 percent of copper, and 35 percent sulphur. Lead and lime have both advanced in price from the ratio riding a few days ago, and possibly better times are in store for Alston miners.

12th May 1888 (Newcastle Chronicle)
NENTHEAD ALSTON.
TO BE LET, with immediate possession, the comfortable family residence known as DONK'S VILLA. situated about 4½ miles from Alston, and formerly occupied by the late Mr. Jonathan Walton. The House contains Drawing Room, Dining Room, 5 bedrooms, Kitchens, &c.—The outbuildings comprise Stable with 2 stalls, Coach-house, Wash-house, and an office.
Further particulars may be obtained of J. C. Walton. Writhlington, via Bath, and the premises can be viewed on application to Mr. Thomas Harrison, Nenthead.

ALSTON
AMBULANCE
The class which for the past few months has been receiving instruction from the hands of Dr Carson of this town met in the town hall on the 12th inst., to undergo

examination by Dr Ledyard of Carlisle. Twenty one candidates were presented, and those who have been successful will receive certificates from the St John Ambulance Association. *All passed and were awarded certificates on 28th June*.

NEW MINING COMPANY

"The Investors Guardian", states that the South Green Hurth and Nether Hurth Head Mines Ltd., was registered on the 3rd inst with a capital of £30,000 in £1 shares, to acquire a leasehold mineral property known as the Nether Hurth Mine and Grant, situate at Nether Hurth in the County of Westmorland.

30th May 1888 (Teesdale Mercury)

GREEN- HURTH LEAD MINING COMPANY.

The annual meeting of the Green Hurth Lead Mining Company Limited was held yesterday afternoon at the offices of the company, 23. Westgate Road, Newcastle. Mr J. G. Swan, chairman of the directors, presided, and there was a good attendance of shareholders. The auditors (Messrs. Holmes, Spence, and Co.) reported that the profit for the year amounted to £2,233 18s. 10d., out of which a dividend had been paid, for the year 1887, of £1,600, leaving a surplus of £633 18s. 10d. This amount, added to £1,252 4s. 8d., the amount of undivided profit already standing to the credit of profit and loss made a credit balance of £1,886 3s.6d. Of the undivided profit, they recommended that £1,000 be appropriated to depreciation of plant, &c., as shown in the balance sheet, and the balance (£886 3s. 6d.) carried forward to next account.

31st May 1888 (Northern Echo)

WATER SUPPLY IN UPPER TEESDALE. —Sharp Strictures. —Some cottages at Harwood, leased by the Duke of Cleveland to the Green Hurth Lead mining Company, were the subject of severe comment at yesterday's meeting of the Teesdale Sanitary Authority.—Discussion showed that for a long period fever had lingered about that property, as the result largely of bad water. — Mr Scarth, J.P., trusted sharp measures would be taken with the company, and suggested the closing of the houses. The Duke of Cleveland's offer to bear half the coat of furnishing healthful water had been made known, but they were too greedy to do anything. Mr Scarth also said he had, an appointment with Mr J. G. Swan, of Newcastle, the chairman of the company, and would press the matter upon that gentleman, The Authority will also issue a notice to the company to provide water. —Dr. Atkinson reported his recommendation to close the school, and to suspend some proposed sales of work, as a means of checking the spread of fever in the locality in question.

2nd June 1888 (Hexham Courant)

GREEN HURTH LEAD MINES

The annual general meeting of the directors and shareholders, of the Green Hurth Lead Mining Company Limited, was held on Tuesday afternoon, at the company's office, Westgate Road, Newcastle. Mr J Cameron Swan, chairman of directors presided, and there was a large attendance of shareholders. The director's and auditor's report stated that the profit for the year was £2,233 18s 10d out of which a dividend had been paid for the year 1887 of £1,600, leaving a surplus of £633 18s 10d. This sum added to £1,252 4s 8d the amount of undivided profit already standing to the credit of profit and loss, made a credit balance of £1,886 3s 6d. Of the undivided profit it was recommended that

£1,000 be appropriated to depreciation of plant &c., and the balance £886 3s 6d carried forward to next account. Operations it was stated, in so hard a rock, as the Whin, had necessarily been slow, and it had taken somewhat longer to open the rich ore ground in this stratum than was at first anticipated. As a consequence the production of ore had been smaller and the profit less than the preceding year. The scheme of working, however, had been attended with the most complete success, a considerable extent of ground had been opened up, the production had of late much increased, and there was a good reason to expect the continuance of a large output. The operations which were being carried on with the object of further proving the lode below the present deepest level showed a deposit of ore as rich as that which exists in the company's present workings. The prospect was therefore excellent.
The Chairman, at the opening of the meeting said he wished to make a few remarks concerning the works at North Green Hurth. It would be in the recollection of those who were present at the last meeting of the directors that it was decided to suspend operations in that mine. Since then the directors after taking the best advice at their disposal had entered into negotiations to have work at the mine resumed, but certain difficulties had arisen to their negotiations with the Duke's agent, which had prevented the resumption of work, although it was expected that these difficulties would be soon favourably settled. The directors wished to obtain more favourable terms in regard to royalty, terms of lease, and other modifications, and had been in negotiation with the Duke's agent to obtain them, but had not as yet succeeded. There was every prospect, however for favourable terms being come to shortly, and the mine would then again be in working order. With this explanation to shareholders who might be anxious for information on the point, the chairman moved the adoption of the directors and auditors reports and balance sheet.

Deaths
At Nenthead, 2nd inst, aged 60, Jonathan Thompson, lead miner.
In 1851, at Fidler Street, Jonathan Thompson, lead miner, aged 46, his wife Ann 46, children Williams, lead miner, aged 26, Jonathan, lead miner, aged 23, Thomas, lead miner, aged 31, John, lead miner, aged 19, Mary 17, Jane aged 15
Ann 14, Joseph, lead miner, aged 12, Elizabeth 10, Daniel 8, James 7, and Vickers 8.
In 1861, at Foulard, Ann Thompson, lead miners widow, aged 56, John, lead miner, aged 29, Elizabeth, house servant, aged 20, Dan, lead miner, aged 18, and Vickers 12. In 1871, at Holm Foots, Ann Thompson, widow, housekeeper, aged 66, and son Vickers, lead miner, aged 22.
In 1881, at Hillersdon Terrace, Jonathan Thompson, lead miner, aged 53, his wife Hannah (Irwin, married 7th June 1860, at Nenthead) aged 41, children John, lead miner, aged 19, Ruth A. domestic servant, aged 17, Jonathan, lead ore washer, aged 14, Tom 12, Erwine 9, lodger Margaret Purdon, assistant mistress of un-denominational school, aged 21, and lodger Elsie Knight, assistant mistress of un-denominational school, aged 21.

9th June 1888 (Lancaster Gazette)
A FATAL BLASTING ACCIDENT. — On Monday, Mr J. C. Wannop, deputy coroner for Carlisle, held an adjourned inquest at the Cumberland Infirmary, as to the death of William Clark, 65, lead miner, who, while employed at the Greenside Lead Mines, Patterdale, received so severe injuries from an explosion that he died in the Infirmary. The deceased had been engaged in charging a boring with gunpowder, when from some unexplained cause an explosion occurred. The fuse had not been applied, and only a copper pricker had been used. — Mr Taylor, manager of the mines, who represented the company, stated that he had on rare occasions known a copper pricker to produce a spark. The ground at the place where the accident occurred was very flinty, and it was just possible a spark might have been produced in that way. The deceased was a careless workman, and in putting the copper pricker into the hole he might have allowed it to go in a slanting direction and strike the flint at the side of the boring. The boring was twenty inches long, and contained three ounces of gunpowder. In twenty-four years there had only been four Serious accidents at the mines, although they employed 250 men. — The jury returned a verdict of "Accidental death."

ALSTON

SUDDEN DEATH

Mr John Graham, High House, Nenthead died suddenly on Saturday last. About nine o'clock am he left the house and half an hour later was found dead in the yard adjoining. He was 67 years of age and heart disease is attributed as the cause of the sudden demise.

Children of Thomas Graham & Margaret Sanderson, Ann baptised 5th July 1806, William & Mary baptised, 22nd July 1810, Adah & Thomas baptised 27th July 1815, Joseph, Margaret & Mary baptised 6th May 1827.

Ann Graham (daughter of Thomas Graham & Margaret Sanderson born 2nd June 1806, at Allendale) married Joseph Stephenson 18th December 1828, at Alston.

In 1841, Ann Stephenson, washerwoman, aged 35, and John aged 10 years.

In 1841, at Pry House, Nenthead, Thomas Graham (father William), wood cutter, aged 60, his wife Margaret (Sanderson, married 9th December 1805, at Allendale) aged 55, children John smelter of lead ore, aged 20, and Margaret aged 15.

In 1851, at Pry House, Nenthead, Margaret Graham, born Allendale, farmer of 12 acres, aged 66, son John, born Allendale, smelter of lead ore, aged 30, son Joseph, born Allendale, widow, wood cutter, aged 27, granddaughter Adah Stephenson, errand girl, aged 10, and grandson John Stephenson, lead miner, aged 21.
In 1861, at High House, Nenthead, John Graham, lead smelter, aged 40, his wife Martha 34, children Thomas 4, Margaret 2, Robert 1, and servant Adah Stephenson (married Hugh Doyle, 11th February 1866, at Nenthead), house servant, aged 20. Also at High House John Stephenson lead ore miner, aged 31, his wife Elizabeth 31, children Henry 8 and Ann 1 year.
In 1871, at High House, Nenthead, John Graham, lead ore smelter & farmer of 65 acres, aged 50, his wife Martha 44, children Thomas, leads ore washer, aged 14, Margaret 12, Robert 11, John 8, George 6, and William 3. Also at High House, John Stephenson lead miner, aged 41, his wife Elizabeth 41, children Henry, lead ore washer, aged 18, Thomas, lead ore washer, aged 14, Ann 11, Mary 6, Elizabeth 4, and Mary 2 years.
In 1881, at High House, Nenthead, John Graham, farmer of 65 acres, aged 60, his wife Martha 53, children Thomas 24, Margaret 22, Robert 21, John 18, George 16, and William 13. Also at High House, Henry Stephenson, lead miner aged 28, his wife Ellen 29, children Joseph 5, and Mary 3.
In 1881, at Pasture House, Nenthead, John Stephenson, lead miner & farmer of 23 acres, aged 51, his wife Elizabeth 51, children Thomas, lead miner 24, Margaret, dairy maid, aged 16, Elizabeth 14, and John 6 years.

21st July 1888 (Hexham Courant)

DIARY OF A VOYAGE FROM ENGLAND TO CANADA

Sir,- It may prove to be of interest to many of your readers to have a narrative of a voyage across the Atlantic. We left Nenthead, Alston, Cumberland, on the morning of the 13th June. Quite a host of friends and acquaintances had gathered to bid us adieu. After the process of separation from friends and cutting our residence of 40 years inhabiting in the district to try our luck in the new land, your readers may naturally conclude of the pain it cost us. However the step had been taken and we only had to keep our eyes and expectations on the journey before us, and the anticipation of a new home awaiting us.
The officials at Alston station received us with courtesy and kindness, and then, after the whistle of the engine we steamed off for Carlisle. Arriving safely at “the merrie citie,” and getting our luggage transferred from the North Eastern to the London and North Western Railway, we spent a few hours in Carlisle and saw a few acquaintances. We left Carlisle at 1 p.m., and arrived at Lime Street, Liverpool about 5 o’clock, and then went to Hirst’s Temperance Hotel, had tea and were there joined by my brother, John Hall of Edge Lane, Liverpool. Directly we went to 24 James Street, the office of the Dominion Line, paid the balance of passage money, and got our railway certificate from Quebec to Durham, County Grey, Ontario, on Grand Trunk Railway. After we had spent a few hours in Liverpool we retired to rest. On the morning of the 14th, after breakfast we went to top of Lime Street, took the trams and went to No. 1 Alexandra Dock, where the S.S. Oregon was anchored for passengers, a vessel of 4000 tons, 500 horse power, under the command of Captain Williams. All passed the doctor at 12, noon, and a few preparatory things attended to, the vessel was

loosed from her moorings and went down the Mersey as gently as a summer breeze. Immediately the bell went for dinner, and here the foreigners quite matched the British passengers, and we had to wait for No. 2 table, which learned us a lesson to waken up. We had Germans, Swedes, Norwegians, Polish Jews, Italians, and Americans returning from a trip to England. These latter generally travelled in the 2nd cabin. We had a nice sail through the Irish Channel had a fine view of the Welsh coast and the Isle of Man, and reached Londonderry about 6 o'clock on Friday morning, and waited till 8 o'clock for the tender with the mails to Canada. As soon as the mails were transferred from the tender to the S.S. Oregon, steam being ready, we soon got off again. After we left Ireland the vessel began to rock a little and by 7 o'clock there was quite a number sea-sick. By this time the waves began to dance a little but no great storm arose. They put the engines on the spur to make up for lost time. Saturday morning, June 16, promised well at 6 o'clock a.m., and we were a little puzzled whether we were going East, West, North, or South; however we soon discovered it; as the sun rises in the East we were soon put right in that direction; we had a fine day, all the passengers were on deck excepting those who could not leave their berths for sickness. By a law of etiquette the "saloon" passengers are prohibited from mingling with the other classes. The vessel made fair speed today. Sunday, June 17th-The morning opened fine and bid fair for a fine day, which was realised and we enjoyed ourselves on deck. It was quite a change, a Sunday on board a vessel, and at 9 o'clock the Sunday School came vividly in our mind's happy reminiscences. At a quarter to eleven the bell went for church service, which was held in the saloon. The Captain read the prayers of the Episcopal Church, read the lessons, and gave a short discourse from Job. 87th chap., 5th verse. On account of the diversity of creed he kept clear of doctrine and based his remarks on nature an its analogies. The singing was conducted by one of the saloon passengers on the pianoforte and prettily sung. We had tea on deck and it was a sort of family picnic; the sun shone brilliantly all day. The few British and American passengers collected together and sang a few hymns from Silver Songs, Sankey, and "Jesus, Lover of my soul," &c.
Monday did not promise well, but by the afternoon the sun gleamed out and we spent the day principally on deck. Tuesday morning was thick with fog, the fog warner was brought into requisition to give warning to other vessels, so that we might avoid collisions. This is a very wise arrangement. By 2 o'clock the rain began to fall, and it was a miserable time. Passengers huddled in the passages, engine sheds, and stokers room. The wind began to blow, and kept up till Wednesday afternoon, then we were in mid-Atlantic. The afternoon kept getting worse and worse and made the vessel rock from centre to circumference. The storm kept on till Thursday morning and then abated. It was both awful and grand to see the waves and spray landing over the deck, and sometimes down the hatchway till the doors had to be closed. The sailors don't consider it a storm till it reaches the ventilators, they reaching about 8 feet from the floor of the deck. Thursday, 21st opened better, the storm having abated, and at 7 o'clock in the morning we discovered the icebergs in the distance, it was intensely cold, we suppose it arising from the ice. During the day the sun got more brilliant, the sick passengers got upon deck, and things assumed a more pleasant aspect. Through the course of the day huge pieces of ice were seen floating detached from their "parents," some large ones appeared nearly as large as the vessel. After dinner all was buoyant with the prospect of seeing land again.

By 4 o'clock we reached Belle Isle, quietly passed through the straits, saw the lighthouse, which is occupied by a father, son, and daughter, which must be very lonely, as the Oregon is the first vessel that has come the northerly route to Quebec this season. In the evening a concert was given in the Intermediate apartments presided over by Captain Robinson, who is in the merchant service on the Mediterranean Sea, and who was going to see his mother after an absence of six years, at her residence at Halifax, Nova Scotia. Friday, June 22nd, -The morning opened bright, all the passengers appearing on deck, the atmosphere was a little warmer. However, by ten o'clock we were enveloped in a dense fog, so much so that the fog warner was brought into requisition. After dinner the rain began to fall and continued all the day. Another concert was given in the same apartments as the previous evening, Captain Robinson again presiding. Most of the English speaking tongues are invited, and here English, Scotch, and Irish are on an equality, granting Home Rule with a vengeance, without a measure going through either Houses of Parliament. Saturday morning, June 23rd: - All are up in good time, and by 5 o'clock the mainland is reached, leading us into the Lawrence Gulf. The scenery is magnificent, clothed with grass and timber, beautiful landscape scenery seldom surpassed is seen as we go along. Here and there in small plateau's are small fishing villages with wooden houses; plenty of fish abound in the gulf, and the forest provides abundance of
game for ardent sportsmen. The settlers are mostly French-Canadians, and call them the French Allotments. As we passed through the gulf the sun shone brightly and makes us feel that we are nearing the "sunny land." The shades of evening and the anticipation of reaching our destination creates a liveliness among the passengers. Dancing is going on both among the British and foreigners, and if we have to give the palm the foreigners put the British in the shade. Dutch, German, Swedes are all good dancers and card players.
By ten o'clock in the evening we reach Rimouski, a Russian name, supposed to have been settled by a Russian of that name Here the tender comes and takes the mails and parcel post boxes to be dispersed through various parts of the Dominion. Here our children are tickled with the bags and boxes, and know what they mean by the seals upon them. The day closes with a splendid sunset; by this time the moon makes her appearance, with her silvery gleams on the placid waters of the gulf. Shortly after we leave Rimouski the vessel enters the River St Lawrence, a splendid river, and goes up slowly, having the pilot on board, who frequently takes soundings as he goes along, so that we may arrive all right.
Sunday morning, June 24th. -Had breakfast on deck, and shortly commenced to pack, before the throng commenced. As we proceed along on both sides of the river are beautiful residences and holdings; the inhabitants are in much better positions than those on the mainland. As we steamed quietly into Quebec the bells were going for church and numbers were on the road riding in their "buggys." By 10:35 we are slided into dock, and then the announcement is made that those who are ticketed for the Canadian Pacific Railway will leave first, and those ticketed for the Grand Trunk after. After the process of getting luggage, we are transferred to Point Levi, and there get our certificates exchanged for railway tickets. A special train met the boat and by two o'clock we were on an inland journey. A mass of woodland is still in its pristine form, as planted by the creator between Point Levi and Montreal. At Montreal our car is put on with a

luggage van and only travels at a slow pace, having so many stops. The country grows better and better as we proceed along and within 150 miles of Toronto there are splendid holdings, large fruit orchards, good houses and out buildings. We arrived in Toronto, the Queen of western cities, situated on Lake Ontario, 25 miles wide. The conductor told us we should arrive at the place by 5 a.m. on Monday morning, but we did not reach until 6 p.m. Too late for the train for Durham, and went on as far as Guelph, that evening; a beautiful city and surrounded by good country. The Americans are not very punctual in their railway arrangements, or else we ought to have reached our destination that evening. Stayed at an hotel in Guelph, got refreshed and good beds. Got the train at Noon for Durham and arrived at 3:30, and was met at the station by my brother in law Joseph Teasdale, who left Nenthead in 1882 *(see 20th August 1887)*.

Got to his residence and all enjoyed a good cup of Nenthead tea in Canada. The question may be asked what are our impressions of Canada? Our stay has only been limited, but no doubt it is a grand country and destined to play a very important part in British affairs.

Most of the farmers have their own holdings, have no landlords to face every half year. They sell their produce well, butter is 14 cents or 7d per pound; eggs 13 cents per doz., fat steers $25; dairy cows $30; pure breed $50 to $100; houses $100; yearlings $25 to $40.

Improved farms range from $6,000 to $12,000; young pigs $8. One thing particularly strikes us in Canada is the stretch of railway and the complete network through the country. There is one striking difference between the old Country and Canada, they don't spend all their money on railway stations, but extend the line up the country. Here the Railway Co.'s of England might learn a lesson and help to develop the resources of the country. A line is now being constructed from Lake Huron to Owen's sound on the Georgian Bay. I must now conclude and may give your readers some more information after I have obtained more experience of any part of Canada.

I am

Henry Hall. June 30th, 1888, Silver Creek Farm,

Bentinck Township, County Grey, Ontario.

Deaths
At Skytmyr mines, Norway *(Froland, South East Norway, NE of Kristiansand, copper, lead, silver),* 14th inst., Robert William, youngest son of Henry and Ellen *Milburn late of Stonecroft.*
In 1901, at Newbrough, Henry Milburn, born Allendale, limestone quarry contractor, employer, aged 64, his wife Ellen (Forster, married 4th quarter of 1871, at Haltwhistle), born Haltwhistle, aged 52, and daughter Lizzie A. N. born Norway, aged 18.
At Mangawhare, Wairoa, New Zealand, May 20th found drowned, Mrs Mary J Mackenzie, eldest daughter of Mr Wm. Nixon, Stonecroft mines.

Marlborough Express 23rd May 1888
A MYSTERIOUS AFFAIR.
(United Press Association)
Auckland, May 22. The dead body of a woman named Mrs Mary Mackenzie, a dressmaker living at Mangawhare, Dargaville, was found yesterday afternoon on the banks of the Mangawhare River, at ebb tide. There was a severe wound on the mouth, apparently from a blow, the front teeth of deceased having penetrated the lip. Mrs Mackenzie was at church on Sunday evening,

accompanied by two gentlemen friends. About 9 o'clock screams of a woman proceeding from the direction of the river were heard, but no one was seen. The case has created considerable excitement, as circumstances' point to murder or suicide. Deceased, on returning from Church on a Sunday in March last, found some men in her house, and she had since been in great fear. Her husband is said to be working at the gum fields.

In 1861, at Newbrough, William Nixon, lead ore dresser, aged 37, his wife Mary 33, children Mary Jane 9, Hugh 5, John Reed 2, Ann 8 months, and Mary Nixon, miners widow, aged 78.

In 1871, at Stonecroft mine, Newbrough, William Nixon, lead ore dresser, aged 47, his wife Mary 42, children Hugh, fireman at lead mine, aged15, John R, lead ore washer, aged 12, Annie 10, Bessy 8, Emma 6, and William 3.

In 1881, at Stonecroft mine, William Nixon, widow, lead ore dresser, aged 57, children Annie, house keeper, aged 20, Emma, pupil teacher, aged 16, and William 13.

In 1891, at Stonecroft Mine, William Nixon, widow, lead ore dresser, aged 67, daughter Anne 30, and son William, engine driver, stationary, aged 23.

See 11th November 1876, 13th May 1882, & 17th December 1898.

28th July 1888 (Hexham Herald)

WEARDALE

On account of the Hay harvest, lead mining operations have to be stopped for a month, with the exception of one or two “foreheads” &c. which have to be kept working, and also the dressing of lead ore will have no stoppage.

4th August 1888 (Hexham Herald)

ALSTON

WEARDALE

Mr James Sparke jun. has been appointed postmaster of Wearhead, Weardale.

17th November 1888 (Hexham Courant)

ALSTON

LEAD TRADE

Alstonians are at present much concerned at the drop in the price of lead. For a series of years, the price had been miserably low ranging from £11 to £13 per ton, as compared with £18 to £20, the normal range sixteen to twenty years ago. A month or two since, however, the price moved upwards until it touched, or very nearly touched £16; and high hopes were entertained that the lead mining industry was entering an era of comparative prosperity. These hopes however, have been doomed to disappointment, for the price has now fallen to £13 10s. The operations of an American ring are stated to be responsible for the rise, and its collapse for the fall of prices.

24th November 1888 (Hexham Courant)

Marriages

At Nenthead Primitive Methodist Chapel, 22nd inst., Robert Walton, Overwater to Susannah Pattinson, Whitehall.

In 1881, at Overwater, Caleb Walton, lead miner, aged 54, his wife Mary 49, children Robert, lead miner, aged 28, Elizabeth A. 25, Mary J. 15, and Bridget aged 13.

1st December 1888 (Hexham Herald)

WEARDALE

Mr R. Bright the well-known host of Cowshill Hotel has taken the King's Arms together with the farm and shooting rights of Harthope Moor. It is understood that the first named hostelry will be retained under the control of Mrs Bright's daughter Mrs O. Monkhouse, the Allers.

John Egglestone death took place on Monday last at the ripe age of 83 years. In his younger days he was well known as a very expert lead miner and during his declining years his geological knowledge brought men of considerable ability to ask his advice on knotty problems concerning the rich lead ore veins of the district. He was also considerably skilled in the use of the violin. … He leaves behind his two sons, one daughter, and a goodly number of grand and great grandchildren.

8th December 1888 (Hexham Herald)

WEARDALE

LEAD MINING WAGE DISPUTE.

There were down for hearing at the Stanhope Police Court on Friday week about thirty cases in which workmen sued the principle of **Harehope Gill Mine**, Weardale for wages due to them. Half the amount claimed has been paid, and the cases were adjourned until the regular court day, before which time it is hoped matters will be amicably adjusted.

15th December 1888 (Hexham Herald)

WEARDALE

See 3rd June 1876, 17th September 1881, 27th January 1912

29th December 1888 (Hexham Herald)
WEARDALE
A MINE OWNER AND HIS MEN.
At Stanhope Police Court on Friday week, Mr J. T. Proud, solicitor, appeared in support of 32 summonses issued by the workmen employed at **Harehope Gill** Mine, Frosterley, claiming from their employer, Mr George Underwood, of Wimbledon, the sum of £179 15s 7d for wages. Mr Proud explained that the

summonses had been adjourned from the last court at the request of the defendant, who had since paid £103 16s 7d, and he now proposed to prove the cases and ask for an order from the bench for the payment of the balance of cash. The case of J. J. Watson having been taken, Mr Barnes, defendants' agent, was called and consented to the other cases being decided by it. The bench made an order for payment of the amount due to the men, allowing them two days for attending at court, and £5 solicitors costs.

WEARDALE

ALLEGED POLLUTION OF A STREAM

The "work" brought out of Harehope Gill Lead Mine is said to be polluting water which the cattle of a neighbouring farm drink. The water running from the mine according to the Nuisance Inspector is "puddle;" and at Friday's meeting of Weardale Sanitary Authority, orders were issued to stay further pollution.

11th January 1889 (Carlisle Patriot)

NENTHEAD LEAD AND ZINC CO. —The annual meeting of the Nenthead and Tynedale Lead and Zinc Company, Limited, was held on Friday, Mr J. C. Swan presiding. The report showed profit on mining and manufacturing account of £7317, from which interest charges and proportion of formation expenses are paid, debit balance extinguished, and £1888 carried forward to the credit of the present year's account. The production of ore has been maintained, and improvements in the mines and machinery have been carried out at the cost of revenue. The report was adopted.

KESWICK AND THE LAKES.

A MINER KILLED AT THORNTHWAITE.

On Tuesday, Edward Brown, *(aged 45)* of Keswick, lost his life at the Thornthwaite mines' of the Cumberland Lead Mining Company. He was engaged in repairing some woodwork to prevent a fall of debris, when rush took place, and buried him. Accidents have been very rare in these mines, and the occurrence caused some consternation among the miners.

12th January 1889 (Hexham Courant)

2nd February 1889 (Hexham Courant)

SAD END OF ALSTON MAN IN NOVA SCOTIA

Mr Errington Gibson a native of Alston, Cumberland, who many years ago emigrated to Halifax, Nova Scotia, has recently died from injuries accidentally received. By trade a joiner. He engaged in the timber trade one way or another during his long residence in Halifax and on the 11th ult., he was engaged in working a moulding machine in the mill of which he was one of the proprietors, and when in the act of adjusting a screw, by some means or other there was a slip and one of the knives coming in contact with his left hand severed the three centre fingers close by their roots, and left the little finger and thumb terribly cut and bruised. He was at once removed to his residence and two doctors were soon in attendance. On examination they recommended the use of Chloroform in connection with the necessary operation. This was administered and in a few minutes he passed away. He leaves a widow and three children to mourn his loss; a daughter and two sons. Deceased was 50 years of age.

In 1851, at Beldy, Garrigill, John Gibson, house carpenter, aged 37, his wife Jane 37, children Errington, lead mine labourer, aged 13, James, lead mine labourer, aged 10, John 8, and Elizabeth 6.

WEARDALE

ABOUT TO EMIGRATE

It appears that a number of Weardale men including mechanics, miners and others, at an early date intend emigrating to South Africa to try to better themselves as Workmen.

A number of commercial travellers wishing to show their respect to the late Mrs Parkin, Phoenix Inn, Stanhope, are promoting a subscription for her daughter who is left homeless and has a desire to learn some business by which she may maintain herself.

ALSTON

RURAL SANITARY AUTHORITY

Dr Masterton's quarterly report for Nenthead district was read, testifying to there having been 8 deaths and 8 births, the death rate being equal to 16.84 per 1000 per annum. One death from Colic was recorded, whilst special attention was

drawn to the prevalence of Acute Bronchitis or Quincy, combined in many cases with Rheumatic fever.

15th April 1889 (Newcastle Journal)
BAZAAR NENTSBURY, ALSTON. —In connection with the thorough renovation of the Wesleyan Chapel at Nentsbury, a bazaar was held in the Nenthead School Room on Friday and Saturday.—Mr J. Reed Newcastle opened the bazaar. In short and excellent speech Mr Reed referred to the men of sterling worth that were sent from country places to the great centres —and of such Nentsbury had sent not a few. —Mr J. Hind of Newcastle—a Nentsbury lad—spoke very happily, chiefly referring to his early life Nentsbury.—Mr Reed then, wishing them every success, declared the bazaar open. Mr Reed emphasised his good wish by extensively patronising the various stalls. Besides the hearty co-operation of the friends in and around the immediate district, valuable help was rendered by Miss Teasdale and Miss Hind from Newcastle. The bazaar reflected considerable credit upon the ladies who had the work of collecting and preparing the excellent show made on the stalls. We are not able to state the financial result, but it is hoped that it was most successful.

20th April 1889 (Hexham Herald)
Marriages
In this town, 11th inst., James Mulcaster of Allendale Town to Annie Robinson of Haydon Bridge.

In 1881, at Middle Ashgill, Thomas Thomason, unmarried, farmer of 12 ¾ acres, aged 57, Nephew Emerson Thomason, lead miner, aged 29, servant Ann Swindle aged 38, and her son Elliott T. Swindle aged 3 (no relation to Thomason family).
See 22nd January 1864, 10th June 1864, 19th December 1874, 13th May 1876, & 30th May 1891.
At the Workhouse Alston, 18th inst., aged 52, John Nattrass, formerly of Nenthead.
In 1841, at Foulard, John Nattrass, leads miner, aged 45, wife Mary 34, children Thomas 10, Mary 7, John 4, and Peggy 1.
John Nattrass snr. died 1st quarter of 1848.

In 1851, at Foulard, Mary Nattrass, lead miners widow, aged 43, sons Thomas, lead miner, aged 19, John, lead miner, aged 16, Emanuel 6, and lodger George Moor, lead miner, aged 41
In 1861, at Kings Head, Mary Nattrass, lead miners widow, aged 54, children Mary, dressmaker, aged 26, John, lead miner, aged 24, Emanuel, lead miner, aged 16, and boarder George Moor, lead miner, aged 53
In 1871, at Holme Foots, Mary Nattrass, widow, housekeeper, aged 64, son John, lead miner aged 33, and granddaughter Mary L. 1 year.
In 1881, at Kings Head, Nenthead, Emanuel Nattrass, lead miner, aged 36, his wife Isabella 32, children Mary L. 11, Ellen 6, Christopher I. 3, George W. 6 months, and unmarried brother John Nattrass, lead ore washer, aged 45.

27th April 1889 (Hexham Courant)
Deaths
At Hermitage, Garrigill, Alston, 19th Inst., aged 24, Paul, son of John and Phoebe Jackson.
At Alston, Salvin Lodge, 21st inst., aged 37, Sarah daughter of the late Stewart Carson, surgeon.
At Knaresdale, Burnstones Inn, 20th inst., aged 51, Mr William Hymers, formerly of Alston.
In 1851, at High Galligill, Robert Hymers, lead minet & farmer, aged 46, his wife Frances (Wilkinson, married 28th June 1827, at Alston) aged 43, children, Thomas, lead miner, aged 22, Margaret 20, John, lead miner, aged 17, and William, lead miner, aged 13.
Robert Hymers died 22nd June 1857,aged 53, at High Galligill, Alston
In 1861, at Galligill Syke, Nenthead, Frances Hymers, lead miners widow, aged 53, sons, John, lead miner, aged 27, William, lead miner, aged 23, servent, Hannah Wallace, 17, and lodger, William Wilkinson, lead miner, aged 48.
Frances Hymers died 6th April 1866, aged 59, at Alston.
In 1871, at the Black Bull Inn, William Hymers, Innkeeper aged 38, and his wife Ann (daughter of Gilbert Graham of Nenthall, Innkeeper, married 13th June 1865, at Alston) aged 32.
In 1881, at the Golden Lion Hotel, Alston, William Hymers, farmer of 25 acres & innkeeper, aged 43, his wife Ann 42, (born Catton, Allendale), William Bayne, farm servent, aged 21, and general servent Hannah Johnston 19.
In 1891, at the Burnstones Inn, Knaresdale, Anne Hymers, widow, Innkeeper, aged 52, and servent Emily Wray 20.
Anne Hymers, of Burnstones, Knaresdale died 3rd March 1904.

8th May 1889 (Teesdale Mercury)
Deaths
An inquest was held on the 3rd inst., at Primrose Hill, Baldersdale, by Mr John Stamford Walton, coroner for Yorkshire, on the body of Mr Henry Bainbridge, aged 57 years, who was found dead at Wiregill leadmine, on the 1st inst. His partner had only left him for about 2 hours, and when he returned he was found dead. Verdict, “death from natural causes.”
In 1871, at Mickleton, Durham, Henry Bainbridge, Miner farmer, aged 39, his wife Phoebe 42, and daughter Elizabeth A 9.

In 1881, at Egglestone, Durham, Henry Bainbridge, leadman mason, aged 50, his wife Phoeby 52, and son John Henry 9.
In 1891, at Quakers Square, Stanhope, Phoebe Bainbridge, widow, aged 60.

11th May 1889 (Hexham Courant)
Deaths
At Healeyfield Mine, 5th inst. aged 50, Lavinia Dight, wife of John Trelease.

Captain John Trelease

John Trelease married Lavinia Dight Warren in the first quarter of 1863. Lavinia was the daughter of James Warren and Mary Marie Dight who married on 6th February 1825 at Falmouth. Lavinia was born 23rd April 1835, and christened at the Wesleyan Chapel Falmouth on 1st January 1837. Between then and 1841 both her parents died. The 1841 census has Lavinia and her sister Henrietta as residents in the workhouse at Falmouth. In 1851 & 1861, the census records that she was working as a house servant in Falmouth. Her mother died in 1838, there is a record of a James Warren dying the same year but his death may have been later.
In 1971, John Trelease does not appear on the census, but his wife and first child John H. aged 3 months are living with Lavinia's sister Henrietta and her family. Henrietta aged 35 and her husband George Hitchens aged 30 a sailor her children Lavinia 2 and Henrietta 7 months. The Mining Journal of 9th September 1876 had the following advertisement.

> ***CAPTAIN TRELEASE,*** *now in London, is OPEN to ENGAGEMENTS to INSPECT and REPORT ON ANY CLASS of MINES in all PARTS of the WORLD. Knows Spanish, Portuguese, a little French and Italian. Goes to Cornwall in a few days. Address, 26 Lansmere Terrace, Victoria Park, E.; or West End, Redruth, Cornwall.*

In 1881 John Trelease and his family are living at Healeyfield, Durham: -

John Trelease	*39*	*Perranarworthal, Cornwall*
Lavina Trelease	*42*	*Falmouth, Cornwall*
John H. Trelease	*10*	*Perranarworthal, Cornwall died at Fulham, London aged 77, 2nd quarter of 1948*
Letitia Trelease	*6*	*St Ives, Cornwall*
Henrietta E. Trelease	*5*	*St Ives, Cornwall*
Charles R. Trelease	*3*	*St Ives, Cornwall*

In 1891 following the death of his wife and leaving Healeyfield in 1889 the 1891 census has John and his family living with Lavinia's sister Henrietta at Charlestown, Cornwall: -

Henrietta Hitchens	*52*
Lavinia T Hitchens	*22*
Henrietta Hitchens	*20*
Henry Hitchens	*18*
John Trelease,	*49*
Letitia Trelease	*16*
Henrietta E Trelease	*15*
Richard C Trelease	*13*

Richard C. Trelease death registered 4th quarter 1918 aged 40, Totnes, Devon.

23rd May 1889 (Newcastle Daily Chronicle)
Marriages
At Newcastle, Bainbridge Memorial Wesleyan Chapel, Heaton, 22nd inst., by the Rev. D. Rowe, Wm. Thompson, of Newcastle, to Elizabeth, eldest daughter of the late Samuel Teasdale, of Nenthead, Cumberland.

31st May 1889 (Newcastle Daily Chronicle)
AN OLD DURHAM INDUSTRY. THE HEALEYFIELD LEAD MINE.
To-day, Captain John Trelease, who has had the entire management of the Healeyfield Lead Mine for nine years, will practically sever his connection with that place. Two years out of the nine were spent in the service of former proprietors of the mine, and seven years have been spent by him as manager for the Healeyfield Mining Company, Limited, which has its offices in Newcastle. The captain is a popular man in the Castleside district, and advantage is to be taken of his departure to present him with a testimonial of the regard in which he is held. His obliging son, Mr. Henry Trelease, will also be the recipient of a small testimonial from the members of the neighbouring church choir, and at the interesting proceedings, some of the directors and shareholders of the Healeyfield Mining Company are expected to be present. The mine over which Capt. Trelease has exercised a vigilant control during the past nine years has a great local interest on account of its age, for its history dates back to a period long before the extensive iron works at Consett were dreamt of, and ante-dates many of the other prominent industries to be found at that part of the county of Durham. It is situate in one of the loveliest parts o£ the County Palatine: within a stone's throw of the picturesque valley of Castleside, and distant three or four miles west of Consett, the Healeyfield Lead Mine is situate almost in the centre of a wood. At any rate, heavily wooded banks are to be found on the south, west, and northern sides of it, and the approach from the east is through a small thicket until the open valley has been reached. Here the timbered huts of the miners, with two or three more substantial dwellings, stand beneath the tall trees of as pretty a district as Durham can boast of, and here the most striking object that meets the gaze is an enormous wheel, rapidly revolving at the end of a gangway, while further on the grey shale of what may be termed the pit heap forms a not unpleasing contrast to the green background nature has formed. How long the old mine has remained in this picturesque spot is a matter largely for conjecture. Some of the best known gazetteers state that the lead mines in Durham were principally begun at the time of Edward VI. But a still greater antiquity is claimed for the Healeyfield Mine, some asserting that its origin as a mine in one form or another must go back as far as eight centuries ago. Be that as it may, it is quite certain that in past times a good deal of ore has been taken from the Royalty, which belongs to the Ecclesiastical Commissioners.
An interesting fact connected with the old mine lies in the circumstance that it has been entirely worked during the past centuries in the millstone grit, which is the dividing line between the coal measures and the lead measures. The speculation that the Healeyfield Mining Company took in hand, when it was commenced seven years ago, was to sink a shaft 60 fathoms deep and drive underneath the old ore ground, the old ore having been worked out down to the water level. The company have now sunk an engine shaft 60 fathoms deep, and after driving along, they have got a continuation of the ore in depth. The

ore they have had for the last 30 fathoms in driving is very rich in silver, and they believe that this is the beginning of a long line of ore ground.
The mine is worked at present by both a shaft and a drift from the hillside, and from 30 to 40 men are employed. The ore is removed in tubs to the smelting furnace, the vicinity of which is indicated by a very tall chimney about half a mile away. The Healeyfield Lead Mine, as the remarks above will have shown, is now in a promising state, and the prospect before the company is believed to be much better than ever it has been. How much of this is due to Captain Trelease's exertions it is not for us to say, but it is quite clear from the respect that is being paid to the departing manager that the company value highly his past services and regret deeply the severance that is about to take place.
Captain Trelease leaves the district to take the control and the entire management of the La Manche Mining Grant of 100 square miles in Newfoundland and in his task as discoverer of minerals there, he will bear with him the warmest wishes for success from his many friends and admirers in the North of England.

1st June 1889 (Newcastle Daily Chronicle)

THE PRESENTATION AT HEALEYFIELD.

Yesterday afternoon, at an open-air gathering held in the dell where the mine is situated, the presentation of a testimonial to Capt. John Trelease, the retiring manager of the Healeyfield Lead Mine was made. Ald. Hindmarsh, Gateshead, one of the directors, presided, and there were present Mr. J. V. Walton, Witton-le Wear, Mr. Reid, Newcastle; Mr. J. W. Davison and Mr. W. Davison, Consett; Mr. Robert Robson, Castleside; Mr. T. J. Muse, Castleside House; the Rev. G. J. Walker, Castleside; several ladies, the workmen of the mine, and others.
Mr. C. W. HARRISON, Newcastle, secretary of the Company, read an interesting history of the mine, stating that it had been worked for 800 years. The present company, he stated, had come into possession in 1882, and had spent in plant and in developing the mine over £25,000.
The CHAIRMAN said the Healeyfield mine was in a beautiful situation, and it was a pleasure to be at an open-air meeting of that kind. He had to congratulate alike the workmen the shareholders, and the directors with the prospect that was before them with reference to that mine. He was assured by Capt. Trelease that the mine had never looked better than it did now. There was an excellent account given of the mine that morning in one of the local papers---the Daily Chronicle - which he was very glad to see. The mine was an old one, and if they went back in its history, they would find that a gentleman who once figured in that district as a very important individual used to visit it. He alluded to the unfortunate Earl of Derwentwater who was beheaded. The Earl was then the owner of the mine, and when he visited it, he used to dine; he was informed, with a farmer in the neighbourhood. The mine, he was now glad to know, was likely to be a financial success. They had had a great deal to contend with, and had spent a great deal of money to carry on their work so far, but they had now got to the end of their difficulties in that direction. He trusted they would soon be able to raise as much ore as would pay for working the mine, and that afterwards they would be able to have excellent dividends. (Applause.)
They had met that day on both a pleasant and a sad occasion--it was pleasant because they were going to give to Capt. Trelease an acknowledgement of their respect and esteem for his character. He was sure there was not one there or

one amongst the shareholders but would speak with the utmost respect and regard of the Captain, and he was certain that he possessed the full confidence of the directors in the management of that mine. (Cheers.) The occasion was sad because Captain Trelease was about to part from them. He was going to a more important and lucrative position in Newfoundland, and he hoped that his future would be bright, prosperous and successful. (Cheers.)
Mr. T. J. MUSE, in a warm-hearted speech, in which he spoke of Captain Trelease's integrity of character, then presented Captain Trelease with a handsome gold watch and Albert, subscribed for by a few friends, and the directors and workmen of the mine.
The watch, which was supplied by Messrs. Reid and Sons, Newcastle, bore a suitable inscription. Captain Trelease, who was received with cheers, thanked all who had subscribed for the handsome present. He felt satisfied that his employers and workmen appreciated the manner in which he had done his duty, and he would prize their gift for the sake of those who gave it, as it appeared to have a genuine ring about it. He would never forget the kindness, which he and his family had received from the workmen, neighbours and friends in that part of the county of Durham. (Cheers.)
Mr. WALTON and Mr. DAVISON having addressed the meeting, Messrs. D. DALKIN and THOS. WILKINSON spoke on behalf of the men and expressed the regret the workmen felt at losing so kind-hearted and so respected a manager. The Rev. G. J. WALKER presented Mr. Henry Trelease with a gold appendage, subscribed for by the church choir and the young people of Castleside.
The proceedings terminated with votes of thanks.
In 1897 Letitia married James M Williams of Consett, at Lanchester Durham. In 1901, they were living at South East Rotherham, 21 Sherwood Cres James a stock taker in the steel works, they have a son, Charles H. J. aged 2. Henrietta Elizabeth in 1901 was living with Letitia in Rotherham, single living on her own means.

The Cornishman 27th December 1894:
Deaths
TRELEASE—Dec. 23, at Charlestown, after years of patient suffering, John Trelease, late mine manager, 53.

The history of mining in the La Manche area is not a good one, many companies tried to take advantage of the mineral deposits but all ended in failure and insolvency. I have yet not found any record of John leaving for Newfoundland or returning to England. This makes me suspect that he may not have gone, especially considering the recent failures of companies in this region. The most successful venture around the time 1890 was the mining activity at Tilt Cove, Newfoundland and I have not found him mentioned in the few records I have come across for that region.

At The Holmes, Alston, 20th inst., aged 51, William Looney, late manager of Alston Lime Works.

25th May 1889 (Hexham Herald)
FATAL ACCIDENT AT GARRIGILL
A fatal accident occurred at Darngill Quarry, Garrigill, on Tuesday, to a labourer named Matthew Coates residing at Lane Head, Garrigill. Deceased was found about 6 pm quite dead and stiff by a neighbour named Thos. Storey, a shepherd at Tynehead who was passing. He was lying on his face in a pool of blood in the bottom of the quarry. He had been working on a breast six feet high. He had drilled a hole and had evidently put in a charge of powder. It is surmised that whilst ramming it home the powder exploded. Coates was 24 years of age, unmarried and lived with his uncle Mr Thomas Slack, at Garrigill.

WEARDALE
A LIST OF LEAD MINES WORKING IN WEARDALE IN 1809: —
North side of the Wear:
Frosterley, Robert Wright owner, William Bell & Co.; Crow Lane Side, Bishop of Durham, Col. Beaumont; Stanhope Burn, Cuthbert Rippon, Quakers Co.; Brandon Wells and Stotsfield Burn, Dean and Chapter, Jobling & Co.; Linz Garth, Rishly, Wolf Cleugh, Groove Rake, White's Level, Slitt, Middlehope, Level Gate, West Fall Level, Black Dene, Breckon Syke, Pasture Groove, Sedling, Pudding Thorn, Killhope.
South side of the Wear:
Scraith Head, Cow Hurst, Langty Head, and Burnhope, Bishop of Durham, Col. Beaumont; Barberry, Quaker Co. owners and occupiers; Coldberry, Hawkwell

Head, Chapel Pasture, Bishop of Durham, Col. Beaumont; Newlandside, John Walton, Jonathan Vickers; Softly Side and Quarry Hill, Messrs Tweddle & Co., Henry Walton & Co.; Bollihope, Rector of Wolsingham, Henry Walton & Co.; Coves; Messrs Leaten, C. Emerson & Co.; Dryburn, John Harrison, Harrison & Co.

Derwent:

Healy Field, Dean and Chapter, Elliot & Co.; White Heap and Ramshaw, William Ord Esq., Monkhouse & Co., Jeffrey's Rake, William Scott, Easterby Hall & Co.

Mines Working to profit:

Jeffrey's Rake, Wolfcleugh, Breckon Syke, Brandon Wells, Pasture Groove, Sedling, Hawkewell head, Chapel Pasture, and Coves.

Deaths

At Dykeheads, Nenthead, 18th inst., aged 81, Ann widow of John Erwin, lead miner.

In 1851, at Wellgill, Dykeheads, John Erwin, lead miner, aged 43, his wife Ann aged 43, children Miles, lead miner, aged 17, Sarah, employed at home, aged 15, Jacob, lead ore washer, aged 13, John 11, Ann 8, Jane 5, Stephenson 3, and Matthew 1 month.

In 1861, at Dyke Head, John Erwin, lead miner, aged 53, his wife Ann 53, children Miles, lead miner, aged 27, Jacob, lead miner, aged 23, John, lead miner, aged 21 Ann, house servant, aged 18, Jane, dressmaker, aged 15, Stephenson 13, Matthew 11, and nephew Jacob Blacklock 7.

John Erwin died 2nd quarter of 1861.

In 1871, at Dyke Heads, Ann Erwin, widow, housekeeper, aged 63, daughter Jane, general servant, aged 25, son Mathew, lead miner, aged 20, nephew Jacob Blacklock, lead miner, aged 17, and grandson John Erwin 2.

In 1881, at Dykeheads, Ann Erwin, lead miners widow, aged 73, daughter Jane, charwoman, aged 35, grandson John Erwin, lead ore washer, aged 12, and granddaughter Lizzie Ann Erwin 6.

At Orchard House, Alston, 19th inst., aged 54, Sarah wife of Joseph Walton, mining agent.

See 30th March 1889

Lane Head, Garrigill, 21st inst., aged 23, Matthew Coats, labourer.

1st June 1889 (Hexham Courant)

ALSTON

SALE. —The largest sale that has ever taken place in this district was held on Friday last, when Messrs Walmsley and Sons, Leeds, brought to the hammer all the machinery and other effects connected with the **Alston Woollen Mills**. The building, which is a commodious structure, was erected by Messrs Akerigg Bros., some seven or eight years ago, but that firm having liquidated in September, 1884, since then it has remained inactive. being held by a local Banking Co. Any offers that were made to restart the concern seem to have proved futile, and consequently after remaining in charge of a caretaker five years every saleable item about the place was sold, the last piece of material to attract the auctioneer's attention being the mill bell, which was Lot 347 and brought the vendors the sum of 3s 3d. There was a large gathering of manufacture is from Leeds, Bradford, Hawick, Galashiels, &c., present, and there was some spirited competition, the nett proceeds of the sale being several hundred pounds more than was anticipated. The machinery was all modern,

and in that department Mr Hirst, Cleckheaton, Yorkshire, and Mr Perrott, Leeds, were the principal purchasers. In the spinning
room, 460ft. of 2in. wrought iron steam piping to mark with brass valve, brought £16. A 60in. iron scribbler, with two parts breast and licker-in by Tatham (1879), realised £49; another brought £50. A 72in. ditto brought £100. A horizontal condensing engine, with 20in. cylinder, 42in. stroke, with 12ft. fly wheel, 10½in. rim, 6½in. face, with all necessary fittings, by Petrie and Co., Rochdale (new), also piping from engine up to valves on boiler, and water piping to valves, with the engine bed, was bought by Mr Johnson, Wigan, for £112 10s (the original cost being £1100.)

1st June 1889 (Hexham Herald)
Marriages
Newcastle Brunswick Place, Wesleyan Methodist Chapel, 30th ult., J. W. Stobbart of Hallbankgate, to Maggie, third daughter of the late Thomas Yeats Walton, Alston. *See 28th October 1871, 26th October 1872, 6th July 1889, & 10th July 1920*

8th June 1889 (Hexham Herald)
WEARDALE
FATAL ACCIDENT
On Thursday night, Mr Thomas Fairless, Farmer, Mount Pleasant, Westgate, received injuries in Middlehope mine, which terminated fatally. Deceased who assisted in superintending the mine, was being pushed out in a waggon, when it is supposed, his head came into contact with some projection, which struck him on the temple. He died a few minutes after reaching bank. Deceased who was a prominent member of the primitive Methodist body in Weardale, was much respected, and leaves a widow and large family.

ALSTON

Yesterday at the petty sessions,Teasdale Lowe was summoned for an assault upon his mother, Mrs Margaret Lowe, of Clitheroe, Alston, and fined 40s and costs.

NOTICE

TEASDALE LOWE, of Clitheroe, Alston, is no longer my Manager, and has NO AUTHORITY to Sell my Stock or Crop. MARGARET LOWE, Clitheroe, Alston

A WEARDALE EMIGRANT'S VISIT
THE EX MAYOR OF EMERALD HILL, MELBOURNE

For many years the scant population in the valley, and more especially those who have gone forth to woo fortune, have been stimulated by the success long known to have been achieved by Mr John Philipson who is just in Weardale after having graduated through Victorian municipal life, and filled the highest civic office in the city of Melbourne. The ex dalesman, in the company with his brother and host Mr Ralph Philipson, East Blackdean visited Mr Thomas Pentland, Ireshopeburn (whose wife is a cousin of his ex worship), a few nights ago. To Mr Pentland we are indebted for a sketch of the interview. The mining industries of the Weardale and neighbouring valleys are so much in harmony with those of sunny climes far "ayont the sea" which Mr Philipson knows so well that, proportional numbers considered, it is not to be wondered at that our northern hills men who migrate make preference for the latter "when seeking "a home far over the deep". … "John Philipson, of Emerald Hill (says the Victorian Men of the Time, published 1877), is the second son of Ralph Philipson, of East Blackdean, Weardale, County Durham, England. His family have been in the

building trade for many generations, and leading men in their own district. Mr Philipson was educated at the local schools, and brought up to his fathers business. He started for Victoria in 1857, began business in his own trade at North Melbourne, and soon became connected in building matters with Emerald Hill. When the Port Curtis rush took place Mr Philipson started for it, but only reached Sydney as he met the return of the disheartened miners. He took a turn up to Mudgee and other places in New South Wales, returned to Victoria in 1859 and for the last eighteen years has been a resident at Emerald Hill, as architect and builder. Having received a good education, and being endowed with natural aptitude for designing and drawing, he set to work to perfect himself inn the higher branches of the building trade and architecture, and is now regarded as a high authority in these matters, and is often consulted as to design for local public buildings. Was elected Councillor for Emerald Hill in 1871, and Harbour Commissioner, and Mayor for the first time in 1877."
On his present visit Mr Philipson is accompanied by his wife, a born Australian, being the daughter of English parents settled in Queensland. Amiable courteous, and well educated she has a large fund of intelligence, and is a welcome consort to her husband by whom she has four children. The family of the former wife are grown up and settled in Victoria. Two sons carry on the extensive business from which the father some time ago retired. …

15th June 1889 (Hexham Courant)

ASSAULT. —A SON ASSAULTS HIS MOTHER.

Teasdale Love, farmer, Clitheroe, was summoned by his mother, Margaret Lowe, for an assault alleged to have been committed on 31st March last. —Mr Welford, Hexham, appeared for complainant; and stated that his client, it would appear, was a widow, and mother of defendant, her husband haring died 22 years ago. On Sunday, the 31st March, they were in the house by themselves. There was some dispute between them, when the defendant, in a most unnaturally cruel manner, took hold of his mother and whipped her, tore off her apron strings, seized her by the arms and gripped them till they were black and blue, and at last threw her out at the door. Witnesses would be produced who saw the old lady just after she had been put out. There could be no possible denying that the defendant had been guilty of a most uncommon assault on his mother, who was 78 years of age, and he hoped that the bench would either inflict a heavy fine or commit defendant to prison. —Margaret Lowe, complainant, was called, and said that on Sunday, the 3lst March, about 2 o'clock in the afternoon, she and her son Teasdale were in the house by themselves, when without any provocation he clicked her by the arm, threw her down seized hold of her end kicked her about the house, striking her against a cupboard door. At last he put her out, and she stood beside the door for some time, although she was scarcely able to stand by herself. Another son and some neighbours then came and took her away. She had never been able to go back to her house, and, in fact, dare not, as she was frightened of defendant, he having threatened her many a time —Thompson Lowe, son of complainant, said on the above date he went to Clitheroe and saw his mother, whose arms were black and blue. She complained that Teasdale had assaulted her, and was crying. He (witness) had only been married recently, but previous to that had assisted to carrying on the farm, and had paid his mother £1 a week for 22

years.—Accused: He often gave her nothing at all, sometimes 8s per week. He had not slept in the house for 10 years. —The Bench thought they had better keep to the assault charge.—Ellen Robinson, 12 years old, said she knew the nature of an oath, and was then sworn. She remembered Sunday, the 31st March, when she came from Sunday school in the afternoon. Mrs Lowe was standing near the doorway crying. Her arms were discoloured, and she said Teasdale had done it. She then went and told her mother. —Mary Robinson, Clitheroe, stated she remembered Sunday, the 31st March. When her little girl came in she went out and saw complainant standing near her own door. Her arms were discoloured, and she said Teasdale had done it. —Mary Walker, Clitheroe, also deposed that she saw the complainant near her own door crying. Her arms were blackened, she said her son had done it. Witness could not say positively that there had been only the complainant and defendant in the house, but she thought so.—The accused, in defence, gave a flat denial to everything, and stated that his mother had discoloured her arms with sitting down on a chair. He had been a good friend to her, and had worked and slaved all his life. He had her to keep, all the other members of the family had left, and did nothing for her. He did not so much blame her as the company she had about her. They put all the bad into her. He declared he never laid hands on her at all, never.—Mr Dickinson: Do you mean to say you never touched her? - Accused: I never touched her at all sir.—The Beach retired to consider the case, and after an absence of about 20 minutes returned, and said they found the accused guilty of having committed an aggravated assault on his mother. They inflicted a fine of £2 2s and costs, or in default one mouth's imprisonment. The fine was paid.

SHOCKING FATALITY IN WEARDALE

Inquest & Verdict

On Monday the exhaustive inquiry into the death of Mr Thomas Fairless, Mount Pleasant, was conducted before Mr J. T. Proud, deputy coroner, at Mr R. Bright's King's Arms, St John's Chapel. Thomas Wilkinson said on Thursday, he was coming out of the Middlehope Mine with Thomas Smith and deceased. Witness was walking and shoving the waggon with Smith and deceased in it, the first named riding first. They had got to a curve coming into the main level from the west end, and he heard a groan as if deceased was going into a fit, and stopped the waggon, and, looking up, saw deceased's head touching the roof. He drew the waggon back, and Smith asked if he'd got hit and he said "Yes, on the head," and shortly after asked Smith to rub his legs, which he at once did, but deceased said all power had gone out of them. He then asked them to rub his hands, as they were similar in feeling. They then asked him to move his head, and he did so; and he consented to be moved forward to get him out. On reaching outside he asked to be carried into the "shop", where we took him, and having said Dr Hewitson was his doctor, never spoke more and died in about twenty minutes, showing no symptoms of suffering.

Coroner: Do you think it is likely that deceased might have taken ill and lost his sense of care to keep his head down to keep from coming in contact with the roof? Yes, that's my conviction. – Thomas Smith, the other witness corroborated, adding, in reply to Mr Plummer, that he did not notice anything at all the matter with him during the shift.

Coroner: Were you allowed to ride in and one to shove the waggon on coming out? Witness: Well there were no laws about it in any way. – Mr Plummer: I believe it's quite customary.

A Juryman: Deceased had taken fits before; at least once.
Coroner (to witness): Do you think his neck was broke? No. – Coroner and Inspector also thought he could not have talked and retained his senses as long if he had.
Coroner (to witness): Was a doctor called? Yes, but he never saw him, as he was dead, and we stopped him on the road after we knew he was no use.
Foreman of the Jury (Mr T. G. Watson): There's a witness who'll prove his neck was broken.
Coroner: Call him at once, then. Ralph Watson, Island House, engineman, said he was at deceased's house when they brought him home, and he examined the body and laid it out. There were two straight scratches on the left temple, and a slight bruise on the crown of the head. When moving the body his (deceased's) head fell forward, showing a lump below the neck on the spinal cord, with a flat place above it. He reported the fact to Dr Hewitson, who said that deceased must have died from dislocation of the neck, which would account for the loss of feeling in the extremities of the body, as recorded by the witnesses. A verdict of "Accidental death" was returned.

John Atkinson died 1st quarter 1895, aged 64.
See 20th September 1890, and 16th June 1894

5th July 1889 (Carlisle Patriot)
It is proposed to convert the company which works the **GREENSIDE SILVER AND LEAD MINES**, **AT PATTERDALE**, into a company under the Limited Liability Acts. This has been one of the most prosperous concerns of the kind in the country—at one time, it is said, as much as 100 per cent, of clear profit was paid annually —but there being need of more capital to develop the resources of the mines, it is intended, in the conversion. to invite the public to subscribe additional capital which will raise the total up to £76,000.

SUCCESS OF AN ALLENDALE MAN
Twenty years ago Mr Jos. Nattrass, Allendale, started from Alston Station with his wife and family for Australia. On their arrival he commenced farming

pursuits and has been very successful. Mr Nattrass seems to have taken great interest in local matters around Kalkee and has been elected a member of the council for that district, which assembles at Victoria. As a Wesleyan Methodist, Mr J. W. Nattrass, son of the above is engaged as a missionary and on leaving Drouin, for another district was presented with a suitable testimonial as a token of esteem by the members and friends.

Deaths

Alston, Park House, 16th inst., aged 83 years, Hannah, relict of John Lathern, Newshield.

In 1841, at Newshield, John Lathern, mine agent, 36, his wife Hannah 35, children Margaret 11, John 9, Ann 7, Mary 5, Stephen 2, and Hannah 2 months.

Also at Newshield in 1841, Stephen Lathern, lead miner, aged 60, and Margaret Larthern aged 30, father & sister of John Lathern. The 1851 census shows Margaret Lathern, at Corby Gates, Alston, unmarried, knitter of stockings, aged 40. Margaret Lathern died 1st quarter 1865, at Alston.

In 1851, at Newshield, Alston, John Lathern, lead mine agent, 46, wife Hannah (Walton, married 25th December 1828, at Alston) 44, children Margaret 21, John, lead miner, aged 19, Ann 17, Mary 14, Stephen 12, Hannah 10, Benjamin 7, Rebecca 5, and Sarah 2.

John Lathern died 9th June 1859, he had been manager & part owner of Blagill Lead Mine. See 8th September 1848

In 1861, at Newshield, Hannah Lathern, widow, farmer of 80 acres, aged 54, children Margaret 31, Stephen, lead mine agent, aged 22, Benjamin, farmers son, aged 18, Rebecca 15, and Sarah 12.

In 1871, at Newshield, Hannah Lathern, widow, farmer of 130 acres, aged 64, children Stephen, colliery agent, aged 32, Benjamin, farmers son, aged 27, and Sarah, farmers daughter, aged 22.

In 1881, at Galgate, Barnard Castle, Mary L. Brady, widow, boarding house keeper, aged 44, sons William F. wages clerk in iron works, aged 19, Albert P. 9, and mother Hannah Lathern, widow, annuitant, aged 74.
See 17th June 1859

> *Canadian Biography Online 1901-1910 (volume 13) gives the following information regarding John Lathern jnr, born 31st July 1831, at Newshield House, Alston, died 8th January 1905, Halifax.*
>
> *John Lathern [Jr 1832-1905] was born in a mining district near the Cumberland-Northumberland border. His father [John Lathern (1805-1859)], who was descended from an old Northumberland family, was manager and part-proprietor of a lead mine. Mining communities in the north of England had been strongly influenced by Methodism in the 18th and early 19th centuries, and the Latherns had been among those converted. John received an educational upbringing that was both pietistic and sound, in accordance with his family's religious convictions and social standing. The family business dictated that he be trained as a mining engineer. He soon realized, however, that he felt drawn to the Methodist ministry, and by 1855 he had joined the British Wesleyan Conference as a probationer. He approached the Wesleyan Methodist Missionary Society with the idea of serving in Africa, but he was assigned to eastern British North America.*
>
> *Following four years as a preacher at Fredericton, Cornwallis Township, N.S., and Saint John, N.B., Lathern was ordained and received into the Wesleyan Methodist Conference of Eastern British America in 1859. That same year he married the eldest daughter of New Brunswick's Queen's printer (Mary Elizabeth Simpson, they had 2 daughters and 1 son). The marriage provided Lathern with a special reason for a long-term commitment to the Maritimes, in effect changing him from missionary to immigrant. …*

ALLENDALE
SUDDEN DEATH

Robert Heslop, Dove Pool, High Shield, Allendale, who died suddenly, a lead miner aged 62 years, while working in the hay field on the 8th inst., he was suddenly taken ill and died shortly afterwards.
In 1861, at Black Cleugh, Allendale, Robert Heslop, lead ore miner, aged 34, wife Mary 39, children Hannah 5, Mary E. 3, and Hannah 7.
In 1871, at West End, Allendale, Robert Heslop, lead ore miner, aged 44, wife, Mary 39, children Mary E. 13, Sarah I. 9, Peart 4, and Robert W 2.
In 1881, at West End, Allendale, Robert Heslop, lead ore miner, aged 54, his wife Mary 49, children Sarah I., domestic servant, aged 18, Peart, lead ore washer, aged 14, Robert W. 12, John 9, and grandson Herbert 9 months.
In 1891, at High Dirt Pot, Mary Heslop, widow, farmer, aged 59, son John, lead ore miner, aged 19, grandson Herbert Heslop10, boarder George Gardner, draper, aged 39.

3rd August 1889 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

Dr Masterton's quarterly report for No. 2 District showed 16 deaths and 8 births, the former being at the rate of 27.43 per 1000. The excessive death rate took place in ordinary course. Measles however had been prevalent at Garrigill. There had been four cases of mild Scarlet Fever at Ashgill, 6 cases resembling Argue or Intermittent fever, and a case of pneumonia. These complaints seemed to point to a vitiated state of the atmosphere.

10th August 1889 (Hexham Courant)

STRIKE AT NENTHEAD

An extraordinary scene was witnessed at this village on Tuesday at noon, when all the lads and young men employed at the washing operations of the Nenthead and Tynedale Lead and Zinc Company left work and came out on strike. The chief cause of the grievance seems to be that the lads insist on an increase of wages and a diminution of night work. As the washing of ore is of vital importance, considerable inconvenience was experienced. Men had to be draw from the mines, and outside labourers were set on to the work. The strikers marched in procession through the village on Wednesday, and booed and jeered the men who were engaged in their work. Sods and other materials were brought into play, and the men were driven away. On Thursday morning at nine o'clock, the strikers were met and consulted with by the managing director, Mr J C Swan, Newcastle, but no arrangements were come to. The cases of the washer lads was pleaded by the Rev C Berry, the Vicar of Nenthead. Late in the day, a telegram had to be dispatched to Alston for police assistance on account of the threatening aspect of affairs.

10th August 1889 (Hexham Courant)

Deaths

West Allendale, Carrshield, 1st inst., aged 79, Sarah relict of Thomas Hetherington.

In 1851, at Throssel Hall, West Allen High, Thomas Hetherington, lead ore miner and farmer of 10 acres, aged 39, wife Sarah (Lowes, married 12th July 1834, Alston) aged 40, children Caleb, lead ore washer, aged 15, William, lead ore washer, aged 12, Betsy 10, John 7, Sarah 2, and mother in law Sarah Lowes, widow, aged 81.
In 1861, at Carrshield, Thomas Hetherington, farmer, aged 49, wife Sarah 50, children John, farmers son, aged 17, Sarah 12, Thomas, lead ore dresser, aged 9, and Mary J. 6.
In 1871, at Carrshield, Thomas Hetherington, farmer of 10 acres, aged 59, his wife Sarah 61, and son Thomas, enginewright, apprentice, aged 19.
In 1881, at Carrshield, Thomas Hetherington, lead ore miner, unemployed, aged 69, and his wife Sarah 70. Thomas died 2nd quarter of 1883, aged 71.

17th August 1889 (Hexham Courant)

NENTHEAD
STRIKE OF WASHER BOYS

Last week the washer boys employed by the Nenthead and Tynedale Lead and Zinc Co. at Nenthead presented themselves at the Nenthead office, and asked

the officials for an advance of 3d per day and exemption from night work. The resident manager refused to give them any satisfaction on the matter. The boys returned home in an orderly manner. The Overman of the mines then drew out some of the miners, who very reluctantly consented, and when they did were not at all aware of the existing circumstances under which the request or command was made. One man with more pluck and courage than the rest gave a positive denial, consequently the Overman refused him any more work, and ordered him to bring out his gear (tools), to which he very politely replied, "All right sir, not to-night perhaps morning will do." The few men who did go were subjected to the missiles of the boys. The managing director, Mr J C Swan, being informed of matters soon made his appearance, and although it was past nightfall the only evidence of excitement was a good hearty cheer after he passed through the village to the office. On Thursday, Mr Swan addressed the parents and workmen. He could not see his way clear to grant the advance demanded, nor yet a cessation of night work, but offered a shift and a half for the latter; an ordinary shift is ten hours. The boys have, when water has been plentiful, been working right through night and day in two sets, consequently working 12 hours per day, for which extra two hours they receive a quarter shift, making the offer of Mr Swan only a quarter shift. He further intimated that unless the terms offered were accepted, the only alternative was to close the mines. The workmen and parents met on Friday night, and unanimously rejected the offer. The mines are now closed, and washing and smelting operations are at a standstill.

17th August 1889 (Hexham Herald)

NENTHEAD
STRIKE

A general lockout is now prevailing at the Nenthead lead mines in consequence of the action taken by the washer lads the week previous. Miners, washers, blacksmiths, joiners, cartmen, together with the other employees, are at present walking about, and of course, the main topic of conversation is the strike, when and how it will end. The request of the washer lads is held by many to be perfectly justifiable, viz., an advance of 3d per day and to be freed from night work. But the manner in which they made the demand is also held to be open to censure. Generally due notice is given to the masters when any advance is wanted by the workmen, but in this case, the demand was made to the foreman, who had no power to give any advance without consulting his managers. It seems because this demand was not complied with at once, all the lads left work. If due notice had been handed in that they would strike if their request was not complied with after the usual 14 days notice, matters might, or might not have been different; as it is, there have been several meetings of the men and washer boys. Whilst a meeting was in progress on Wednesday evening, a telegram was handed in from Mr Swan, Newcastle, asking the washers to return to work until the directors met. This they declined to do, and so the matter at present stands.

WEARDALE
ANOTHER EMIGRATION FOR SOUTH AFRICA

On Monday morning, Mr Joseph Hodgson of Westgate House (Late London) brother to Mr G. W. Hodgson, solicitor, of Stanhope, left his native dale en route for Cape Town, South Africa, where he will be employed as draper or outfitter.

Deaths
Alston, Clitheroe, 9th inst., aged 71, Frederick Hall Woodmass, lead miner.

NENTHEAD
THE NENTHEAD STRIKE
The strike and lockout at the works of the Nenthead Lead and Zinc Company still continues. Negotiations have been kept up between the masters and men during the last week, but without any definite result and a number of young men and boys have left the locality.
Marriages
At the parish church Allendale, 18th inst., J. W. Richardson, Buenos Ayres, to Henrietta, youngest daughter of the late John Curry Esq. of Allenheads
At New Zealand, Inglewood, 6th July, Mr Tom Drake to Miss Bessie Nixon, fourth daughter of Mr William Nixon of Stonecroft Mines, Fourstones

24th August 1889 (Hexham Herald)
ALSTON
NENTHEAD STRIKE.
The Smelt Mill men in the employ of the Nenthead and Tynedale Lead and Zinc Company struck work on Monday last. The washer boys had previously struck and owing to their determination not to resume work, the miners were locked out. The whole of the works are thus at a standstill. During the past week a number of the younger men and boys have left the locality to seek work elsewhere. The boys seek an advance of wages, and the abolition of night work. Boys of 13 to 15 receive 7d to 9d per day for a ten-hour shift by night or day, or in any state of weather. Young men 17 to 18 are receiving 1s to 1s 4d, and in rare cases 1s 6d per shift. The great objection the boys have, however is night work.
SOUTH AFRICA NOT SO GOOD AS REPORTED FOR ARTISANS
A communication has been received by the friends of Mr Madgen who recently left St John's, Weardale, for Johannesburg, stating that he had found great difficulty in getting employment at his trade, a joiner, and things are by no means as good as reported for artisans. Messrs George Race jun. Westgate and Mr J. F. Featherstone, ex postmaster, Daddry Shield, who also went and remain at Cape Town

31st August 1889 (Hexham Courant)
NENTHEAD
NENTHEAD STRIKE
Work was resumed at Nenthead on Monday morning last, but no amicable settlement has been arrived at, and the washer lads, it is understood, only commenced work with a view to completing a fortnights notice, when if the

masters do not deem it advisable to make some overtures towards meeting the demands of the washers, they will again come out. The wolf was no doubt beginning to look in at some of the doors, judging from the number of lads from Nenthead who were canvassing the town, soliciting subscriptions on Friday last. As all the works were at a stand still, the men not sheltered by a friendly society or in the Company's funds, would be beginning to feel the effects of the lockout. A good number of the workmen had this allowance secured, but there are numbers who were without it, and it is these who would feel the pinch, although the strike had lasted no time to cause any distress worth noticing.

31st August 1889 (Hexham Herald)

WEARDALE

AN ANNUITY FOR AN AGED MINER.

On the 24th of March 1887 a terrible colliery explosion took place at Bulli, in the colony of New South Wales. Amongst others who perished in the disaster was John Adamson, a young man 28 years of age, a native of Rookhope, in the parish of Stanhope, whose father Ed. Adamson, is still living and now works in the limestone quarries of Stanhope, for which work he is very unfitted, not only by age and infirmity, but also by the fact that he had been a lead miner in his younger days. Only two or three weeks before the disaster John Adamson had written to his father telling him he would return in a very short time, and the old man had been looking forward to his son coming home, and to his being a comfort and support to him in his old age, when he received news of the accident. A substantial fund was nobly raised and set aside by the owners of the colliery and others, for the relief of the surviving and the aid of those whose "bread winner" had been taken away. The Rev. J. P. Sheppard, kindly interested himself in Edward Adamson's behalf and through his kind offices and the persevering exertions of Mr John Thompson, solicitor at Stanhope, a sum of £110 5s to be paid at once out of the fund and an annuity of £20 a year for life has been secured to Adamson.

Marriage

Alston, Wesleyan Methodist Chapel, 27th inst., Hugh Bell, Alston to Amelia, daughter of Wm. Walton, Bruntly Syke, Alston.

In 1881, at Front Street, Hannah Bell, widow, grocer, aged 56, son Hugh, joiner & Wesleyan lay preacher, aged 24, born Knaresdale.

In 1861, at Annatwalls, William Walton, lead miner, aged 31, his wife Hannah (Bell, married 25th June 1854, Alston) aged 28, children Sarah 6, Joseph 4, and Amelia 1. See 14th February 1871

In 1871, at Low Annatwalls, William Walton, farmer of 11 acres, aged 41, his wife Hannah 38, children Joseph, lead miner, aged 14, Amelia 11, and Thomas 8. In 1881, at Annatwalls, William Walton, farmer of 23 acres, aged 51, his wife Hannah 49, children Joseph, farmers son, aged 24, Amelia, dressmaker, aged 21, Thomas, grocers apprentice, aged 18, and John W. 8.

In 1891, at Bruntley Syke, William Walton, grocer & farmer, aged 61, his wife Hannah 58, sons Joseph, farmers son, aged 24, and John W. drapers apprentice, aged 18.

William Walton died 2nd quarter 1895, aged 65.

Hannah Walton died 1st quarter 1893, aged 60.

In 1891, at Front Street, Alston, Hugh Bell, joiner, aged 34, his wife Amelia, aged 31, and Son William H., 8 months. In 1901, at Front Street, Hugh Bell,

assistant overseer, and collector of local rates, aged 44, his wife Amelia 41, children William H 10, Florence H 8, Amelia S 5, and George W 3. In 1911, at Town Foot, Hugh Bell assistant overseer, and collector of rates, aged 54, his wife Amelia 51, children William Hugh, railway clerk, aged 20, Florence Hannah, cashier, aged 18, Amelia Sarah 15, George Walton 13, and nephew William Dawson Walton, school, & newsboy, aged 14, born Kirkby Stephen. Hugh Bell died 3rd quarter 1924, aged 68.

Deaths

At Clarghyll, Alston, 25th inst., Mary Robinson, eldest daughter of the late Walton Wilson, farmer.

14th September 1889 (Hexham Courant)

THE NENTHEAD STRIKE

Now that the washers have resumed their duties, this village has settled down into its normal state, and the works generally are now in full swing. The strikers have had the works generally are now in full swing. The strikers have had their demands partly met by the masters and possibly some good has been attained through the sudden stoppage of the mines. It was stated that both life and property was in danger, whether this was ever really the case is a matter of great doubt, and the honest indignation of the inhabitants in general was thoroughly aroused that such should have been sent abroad. Perhaps there never was a strike and lockout, in which such a number of hands were involved that was conducted with greater decorum and strict civility.

ALSTON PETTY SESSIONS

FRIDAY, SEPT. 6th

(Before John Dickinson, Esq., chairman, and J. P. Walton, Esq.)

CAUGHT IN THE CELLAR

William Varty, labourer, Butts, Alston, and Jas Spottiswood, labourer, Millstone House, were charged with being on the licensed premises of the Sportsman Inn, now occupied by Mr J Goodfellow, on Sunday, the 14th August. —Sergeant Johnstone stated he was watching the house for illegal trading, he saw the defendants enter at 4.9 p.m. At 5.10 he sent P.C. Bell to enter the house by the back door, whilst he made his way to the front. The constable entered before he could get up, but whilst making for the front door the innkeepers daughter ran into the room shouting “Here’s the bobby coming.” On getting into the premises no one was there but the landlord and the constable. He asked the former where the men were who came into the house an hour previous, when he began to curse, swearing there was no one in the house. After searching through the bedrooms, parlour, &c., he found the defendants huddled up in a corner of the cellar, both being in an intoxicated state. On getting into the passage Spottiswood danced and sung, and said it was a “clean cop,” but they had only called to see the landlord. —Fined 5s each and costs.

21st September 1889 (Hexham Courant)

Deaths

At Garrigill, 19th inst., aged 28, Catherine wife of Thomas Potts, mining agent.

In 1881, at Garrigill Gate, Fox Inn, Thomas Potts, stonemason, aged 30, wife Catherine (Vipond, married 3rd quarter of 1880, Alston) aged 20, daughter Alice 1 month. In 1891, at Barow House, Thirlwall, Haltwhistle, visitor, Dorothy

Potts, widow, aged 61, and boarder Thomas Potts, widow, stone mason, aged 40. In 1901, Alice Potts, born Garrigill, aged 20, is working as a general servant for the Wallace family, at Manchester House, Haltwhistle.
At Alston, Workhouse, 18th inst., aged 2 years, Margaret daughter of Ann Dowson.
At Ivy Cottage, Garrigill, 17th inst., aged 31, George Varty, farmer and stone mason.
At Allendale Town, 18th inst., Ann, widow of the late William Sparke, of Allenheads Corn Mill.

21st September 1889 (Hexham Courant)

NENTHEAD

FLORAL AND HORTICULTURAL SOCIETY.—The annual exhibition in connection with the above was held on Saturday, the 7th last., in the large and spacious schools of the Lead & Zinc Co. The weather was most agreeable and a good attendance was secured in the evening. Owing to the early season the exhibits in several classes did not come up to the usual standard. There was a good show of cut flowers, and window plants were quite beyond the mark. Vegetables quite exceeded previous years in size and quality. Pansies were exceptionally good, being one of the finest collection that has been seen for some years. The special prizes for bread, sewing, writing, and skipping, were interesting items, while the butter prizes were keenly contested. … Music and dancing were freely indulged in during the evening. …
NENTHEAD CATTLE SHOW.—This show was held on Saturday last in a field at Overwater. In spite of the weather, which was a little unpropitious in the early part of the day the allow was quite a success. The day is observed as a general holiday in the village, and one which the inhabitants make a special point of inviting their friends, and acquaintances particularly former residents the village. Therefore, in the forenoon, when the open trotting competition commenced, there were a large number of visitors, along with the villagers gathered together to witness the event. After splendid contest the first prize was won by Mr James Hutchinson of Kirkoswald, and the second by Mr James Hutchinson of Garrigill. Judges and the officials then proceeded to the show field, preceded by the celebrated Weardale Brass band. This band did good service in the afternoon and evening, by rendering choice sections of music in a most efficient manner, to the gratification of the goodly number of visitors who assembled on the ground in the afternoon, and to the young people in the evening who gathered together in goodly numbers to enjoy the usual dance. The stock shown was described as being one the best and largest that has been exhibited since the formation of the show, the classes being especially fine. The receipts taken were in excess of previous years. …
Marriage
At St Augustine's Church, Alston, 14th inst., by the Rev Wm. Nall, M.A., Wm. Forsyth, schoolmaster, Heaton, Newcastle, to Sarah Ann Tyerman, school mistress, Alston.

31st September 1889 (Newcastle Courant)

ALSTON

FATAL GUN ACCIDENT. —A sad gun accident occurred on Cashburn Moor, some six miles from Alston, about one in the afternoon on Tuesday last,

resulting in the death of George Varty, a mason, who was employed as a loader for one of the sportsmen on the moor. An inquest was held on Wednesday at the George and Dragon Inn, Garrigill, before Mr J. B. Lee, deputy coroner for East Cumberland. —Joseph Varty said he was the brother of the deceased, who was 31 years of age, and married. — James Potts, Bridge End, Garrigill said he was engaged as a driver to Mr Rose, who leased the moor. On the day in question, there were six guns on the moor and a number of, loaders and drivers. Witness superintended the drivers. Mr Cave, deceased, and himself were looking for a bird, which had fallen. Witness and Mr Cave were close to deceased at the time; the others were some little distance away awaiting the commencement of another drive. The ground was very broken at the place. There were deep "breaks" in the moss. Mr Cave, in searching for the bird, essayed to cross one of those. His gun was over his shoulder. The "break" was about six feet deep, and the sides very slippery. Mr Cave slipped and fell on his back. The charge in the gun exploded. It was still ever Mr Cave's shoulder. Deceased was close behind, and above Mr Cave. He stood for a moment and then fell, saying, "Oh, he has shot me." Witness turned him on his back, but nothing could be done to stay the flow of blood. He was shot in the right shoulder. He breathed for about ten minutes. Mr Cave was carrying his gun in a proper and sportsmanlike manner. The jury returned a verdict of "Accidental death," with en expression of sympathy with Mr Cave, who has been terribly affected by the unfortunate occurrence.

Deaths
At Front Street, Alston, 8th inst., aged 11 years, Annie daughter of John Pickering, butcher

18th October 1889 (Carlisle Patriot)
LABOUR DISPUTE AT SPELTER WORKS. —The calciners, about 16 in number, employed at the Spelter Works, near Hallbankgate, belonging to the Nenthead and Tindale Lead and Zinc Co., have received fourteen days' notice that their services will not be required from and after the 24th inst., in consequence of some dispute to the amount work allotted them and the time allowed for its performance. It appears that shortly before the late manager's death a charge of blend ore was raised from 8 cwt. to 10 cwt., the men working four changes in the twenty-four hours. It is now proposed to add other two hundredweight, with addition of seven or eight per cent, for moisture, bringing the charge up to nearly 13 cwts. This the men strongly resent, as it is sought to have the work done in six shifts, instead of seven as at present, with the Sunday included. The rate of wages is 4s 1d a shift, so that a considerable reduction in the men's wages would result. The men have had one or two interviews with the manager, but so far without any satisfactory result. It is alleged that similar work is done in the time in the South and in parts of Wales, but it is pointed out that the kilns in Wales are of a different size, which tells greatly the advantage of the latter, the Welsh kilns being 50 feet by 8 feet, whilst those at Spelter Works are 30 feet by 9 feet. The notice expires next Thursday, and it is hoped in the district that some compromise satisfactory to both parties may arrived at before then.

19th October 1889 (Hexham Courant)
Marriages
At Alston Primitive Methodist Chapel, Thomas Wm. Lowe, Clitheroe to Sarah Jane, daughter of the late John Pearson, Fourdargue.

30th November 1889 (Hexham Herald)
WEARDALE
MINING ACCIDENT A NARROW ESCAPE FROM DEATH BY SUFFOCATION.
On Tuesday, Mr John Emerson, of Wham, Upper Weardale, whilst at work in the Middle Level Lead mine, near St John's Chapel, narrowly escaped death by suffocation by the firing of a quantity of powder in one of the workings. It appears that a dynamite "shot" had thrown its fuse to a distance, which accidentally falling upon some powder set it in fire.
In 1881, at Wham, Heathery Cleugh, Weardale, Hannah Emerson, widow, farmer, aged 53, children, Mary Hannah 22, John, lead miner, aged 20, daughter Elizabeth 19, and granddaughter, Minnie Fairless 5.
In 1891, at Wham, Heathery Cleugh, Weardale, John Emerson, lead miner, aged 30, his mother Hannah Emerson, widow, aged 63, sister Mary H, dress maker, aged 32, and niece, Minnie Fairless aged 15.
30th November 1889 (Hexham Courant)
Deaths

In 1891, at Front Street, Alston, Thirlwell Storey, widower, chemist & dentist, aged 67.
Thirlwall Storey died 1st quarter 1901, aged 77, registered at Carlisle.

7th December 1889 (Hexham Courant)

WEARDALE

THE END OF THE RICHEST LEAD MINE IN ENGLAND

BURTREE PASTURE MINE, Cowshill, is being denuded of its plant by the instructions of the Lead Company, the rails, wagons, &c., being brought out preparatory to closing. This mine which has yielded by far the most ore of any ever known, a few years ago gave employment to 450 pickmen, exclusive of wagemen &c. It is proposed to work the strata from Rookhope, the feasibility of which is much questioned by local authorities.

Marriages

At the Registrar's office, Hexham, 3rd inst. Thomas Lowrey, Allenheads to Mrs Jane Coats, Hammershields, Allenheads.

See 21st July 1888, wrong age?

21st December 1889 (Hexham Herald)

WEARDALE

THE WEARDALE LEAD COMPANY

The annual meeting of the Weardale lead Company,...
In building and machinery, new shaft at Grove Rake, new mill at Ripsey House, &c., there had been expended £3,958, bringing the amount expended under capital account to £74,468. The Board borrowed during the year £12,000 on second mortgage debentures, which would expire in June next, at the same time as the first mortgage debentures, after which both series would be merged. Turning to the revenue account, the lead sales had reached £46,424. On the other hand the stock, including pig lead, and ore stores as per last balance sheet came to £23,668, wages and salaries at the mines, £24,967; stores, timber, materials, carriage, &c., £7,373. Regarding general matters, he (*Chairman*)

said that various communications had passed between the Board and the Ecclesiastical Commissioners, the result being that, instead of charging the company, as hitherto, upon the price obtained at Newcastle, they would in future be charged on the basis of the average price which the company got for their lead at Parkhead. The lead sales had averaged £12 19s 7d per ton net, after deducting trade charges and discount. ... as there was less lead coming from Spain than hitherto, the present remunerative prices would he believed, be maintained for some time to come.

28th December 1889 (Hexham Courant)
Deaths
At Newcastle, 5 Ridley Street, 22nd inst., aged 32, Isabella Carr, widow of the late George Carr, and eldest daughter the late Joseph Maughan, formerly of Alston.

4th January 1890 (Hexham Courant)
Marriages
At the Primitive Methodist Chapel, Stanhope, 25th inst. Mr G. Furnace to Miss Annie Walton, both of Westgate.

11th January 1890 (Hexham Courant)

WEARDALE

DEATH OF A WELL KNOWN WEARDALE MINING AGENT

On Tuesday evening, Mr Thomas Watson, Ling Riggs, Ireshopeburn, breathed his last in the paternal homestead at the age of 64, after a fortnight's illness of typhoid fever and congestion of the lungs. Since the demise of Mr George Race, Westgate, common consent voted Mr Watson – or "Owd Thomas ed Riggs," as he was familiarly called, the premier dalesman extant. Deceased was the son of the "Sammy Hicks," of Weardale Methodism (Mr George Watson), a member of that ilk who formed the yeomen of John Wesley, and who have since fostered his teachings in the venerated sanctuary of High House. While yet young the inherent ability of Mr Watson secured him the position of chief agent of the Upper Teesdale Mines at Langdon Beck, a position he filled with such marked acceptance that, although of late years the mines had to be abandoned, he was largely consulted in all enterprises of mining promoted by those who then consulted his employers, and it is to be hoped that the MSS. of his geological knowledge are preserved to supplement existing guides to strata and lodes of the Northern Dales. Although a versatile genius and a giant intellect, the gift of pulpit oratory, possessed by his father and many relatives in the Wesleyan and Primitive Methodist ministry merged into music. Fond of angling and grouse shooting, his naturalist pursuits were thus enlivened, and in a somewhat chequered decay of life, the disciples of Isaac Walton commissioned him as tutor and tackle maker. Ten years ago he started a business as a joiner in the village, in which vocation he was at the time of his death. It will be seen from our obituary column that the interment of this humorous and distinguished dalesman, who was a staunch Liberal, took place yesterday afternoon.

In Memory of
GEORGE WATSON
OF LING RIGGS

25th January 1890 (Hexham Herald)

WEARDALE

News was received at Stanhope on Monday of the death of Jacob Thomas Butcher, son of Mr Horace Butcher of Cherry Tree House, Stanhope, which took place on December 4th at Glenn Innes. He was the only son of Mr Butcher and on account of failing health he went out to Australia 16 years ago where his health for a time improved. He married well and succeeded in life but consumption (that scourge of the English race) has marked him for its own. Died at the age of 38, and had been living in Sydney.
In 1861, at Stanhope, Horace Butcher, solicitors, general clerk, aged 36, his wife Mary 35, children Mary 13, Jacob 9, Horace 6, Frances 3, and Eleanora 1. In 1871, Jacob aged 19, was living at Market Street, Newcastle, a drapers apprentice.

Deaths

15th February 1890 (Hexham Herald)

ALSTON

EPIDEMIC.

An epidemic is at present raging in Alston and nearly every house is more or less affected with the disorder. Whether it has any connection with the Influenza disease or not is an open question but there is no doubt that it is contagious and as many as four in a family have been laid up. Utter prostration, severe headache, accompanied by violent sickness are the symptoms in many cases. Thirty employees of the Alston Stocking factory were from work on Thursday owing to the prevailing illness.

RURAL SANITARY AUTHORITY

The Medical officers yearly report for Nenthead district was read showing that for the year ending December 31st 1889, 36 deaths and 27 births had been registered. Of the births 19 were females and 8 were males, giving an average birth rate of 14.21 per 1000 on an estimated population of 1900. Of the deaths 18 were males and 18 were females, which gives the average death rate of 18.94 per 1000. The causes of death had been Diarrhoea 1, Pyaemia 1, Scrofulous disease 2, Phythisis 7, disease of the nervous system 4, Circulatory system 3, Respiratory system 5, disease of the stomach 1, Urinary system 2, Ulcers of the leg and general debility 1, Lead Colic 1. After mentioning that, Acute Tonsilitis, thirty cases Measles, four cases of mild Scarlet fever, 6 cases of the "Sweating fever", and various cases of the epidemic which occurred at Carlisle in the Autumn had been dealt with. The medical officer went on to say that why the district should have had such a visitation during one year of different epidemics of so uncommon a nature could only be explained by a vitiated state of the atmosphere, containing micro organisms or specific poisons, which were not yet fully investigated. They did not come under the class of preventable diseases. He concluded by stating that good sanitary work had been done in connection with the main sewer in Garrigill by the insertion of suitable traps for its better ventilation and also that a purer water supply had been given to the village. Nothing of much importance had been required at Nenthead.

WEARDALE

The Influenza is still very prevalent at Stanhope, Frosterley, and Wolsingham. No one can ever remember so many workmen on the sick list. The sick benefit societies of these places have suffered much in consequence of the extra drain on the funds. … No fatal case has occurred.

Deaths

Tynehead, 11th inst., Violet Hannah, infant daughter of Nicholas Anderson.
Nicholas Anderson, son of John & Elizabeth Anderson, born Middleton in Teesdale, married Sibyl Stout 15th April 1869, at Garrigill.

miner, aged 22, Nicholas, lead miner, aged 18, and house servant Frances Thompson, aged 20.
In 1891, at Garrigill, Ivy House, Nicholas Anderson, farmer, aged 48, wife Sibyl 43, children John A. 19, Mary M. 17, Thomas 15, Nicholas 13, Joseph V. 10, Mark 8, William 6, and farm servant Mary A Cousin aged16. See 1st May 1869, & 12th March 1892.

21st February 1890 (Carlisle Patriot)

KESWICK AND THE LAKES.
PRESENTATION AT THORNTHWAITE.

Yesterday week Mr J. B. Lobb, late manager of the Cumberland Lead Mines, Thornthwaite, and Mrs Lobb, were presented by the workmen of the mines with marble clock and side ornaments, and a silver biscuit box. The presentation was made at the Swan Hotel, where the company dined together, and the proceedings were followed by a concert. Mr Lobb has recently removed to Hilton, Penrith, where he and his father have purchased some mines. He is succeeded in the management of the Thornthwaite mine by Captain John Nichol and Capt. Cornish.

22nd February 1890 (Hexham Courant)
Deaths
At Hay Ring, Alston, 18th inst., aged 26, Thomas Armstrong, lead miner.
In 1881, at High Hermitage, Garrigill, Ralph Armstrong, lead miner, aged 41, wife Anne (Bramwell, married 28th July 1861, St John, Garrigill) aged 44, children Matthew, lead miner, aged 19, Thomas, lead ore dresser, aged 17, Joseph H., lead ore dresser, aged 15, and Annie 12.

22nd February 1890 (Newc Courant)

WEARDALE

SNOWSTORM IN WEARDALE. —A heavy fall of snow took place in Weardale on Saturday. The hills around the dale were all covered to a depth of six or seven inches, and in some places it drifted considerably.

ACCIDENT TO A WEARDALE FARMER—On Saturday an accident happened to Mr John Watson of Earn Well, Weardale, as he was returning from Alston to Weardale in a gig in company with a friend. In the blinding snowstorm the horse got too near the edge on Killhope, causing the occupants of the gig to be thrown out. Mr Watson sustained a fracture of the ribs and shoulder.

INFLUENZA IS VERY PREVALENT IN UPPER WEARDALE.

The schools at the St. John's Chapel are closed on account of it. It has even reached the breezy uplands of Killhope, Wellhope, and Burnhope. It seems abating a little at Stanhope, Frosterly, and Wolsingham. On account of the influenza being so prevalent both in Wearhead and St. John's Chapel, Board Schools have had to be closed, so many of the children being; affected, teachers and masters as well.

1st March 1890 (Hexham Herald)

WEARDALE

The remains of Joseph Nattrass, brother to Miss M. Nattrass, the well known revivalist of Wearhead were interred in the Burtreeford cemetery on Saturday afternoon last. … The deceased was 44 years of age.

At Island Cottage, Nentsbury, Alston, 28th ult. aged 35, Mary Lowe.
See 17th September 1892

15th March 1890 (Carlisle Express and Examiner)
ALSTON RURAL.
This Authority met on Saturday, Mr. Henry Walton presiding. The Inspector who had instructions to report on the matter said the only satisfactory way in which to deal with the middens in the town was to require them to be entirely removed or covered in. He thought the Authority should provide places of deposit for ashes, &c. —The CLERK: We have no ground. —Mr. Joseph Walton was re-elected sanitary inspector for the ensuing year and Dr. Carson medical officer for No. 1 (Alston) district. For the No. 2 (Nenthead and Garrigill) appointment there were two candidates viz., Dr. Masterton, who has resided at Nenthead and held this appointment for some years but has recently commenced practice at Alston, and Dr Short who has commenced practice at Nenthead. Mr. HARRISON pleaded that the appointment ought to go to the medical resident at Nenthead, otherwise they were not enabled to keep a doctor there, and they had a precedent for this in former appointments. After a somewhat warm discussion Dr Short was appointed by seven votes to four.

29th March 1890 (Hexham Herald)
WEARDALE
THE WEARDALE IRONSTONE MINES have been started this week as far as the securing a quantity of sample stone is concerned, and some hopes are being entertained that the mines may be fully opened out this spring.
The inability of the Weardale Iron Co. to blend satisfactorily ironstone so as to make steel has necessitated the building of a special furnace at Tudhoe, which is to be lit this week with 40 tons of ironstone from the several mines of the

company in Weardale upon the result of which the resumption of this almost staple industry of Upper Weardale at present depends.

Deaths

At Haggs, Alston, 26th inst., John Clementson, lead miner.

In 1841, at Hudgill, Pry House, Mary Clementson, widow farmer, aged 55, John Clementson, lead miner, aged 25, Jonathan Clementson lead miner, aged 20, Mary Clementson 17, Vipond Clementson, lead miner, aged 15, and Ann Clementson 10.

In 1871, at Whigelty, John Clementson, single, lead miner, aged 55. In 1881, at Whigelty, John Clementson, lead miner, unemployed, aged 65.

5th April 1890 (Hexham Courant)

NENTHEAD

A most popular and important character has been and will be missed daily from making his appearance in this place, Mr John Place of Alston who has for a period of 40 years travelled between Nenthead and Alston as Carrier. Mr Place has retired from the roads and gone to a large farm.

17th April 1890 (Newcastle Daily Chronicle)

FOR SALE, the DOWPOT SYKE and GUTTERGILL MINE. This mine is 1½ miles south of the Alston Railway Station, Cumberland, with a good road all the way. The plot contains four east and west veins, all of which have raised a large quantity of Lead Ore, with a great extent of the whole ground on each vein, and bounded on the east by the Hudgill Burn mining plot. There is a crushing mill and dressing floors all in working order. The mine is held by a lease from the Admiralty for 21 years, commencing in 1875, renewable. For particulars apply to Mr. John Peart, Agent. Alston. April 12, 1890.

19th April 1890 (Hexham Courant)

WEARDALE

In 1871, at Black Burn Mill, Robert Richardson, lead miner & farmer of 16 acres, aged 35, wife Hannah (Richardson, married 16th June 1861, Alston) aged 34, children William 8, Joseph 7, George 5, Frances 3, and Robert 2.
In 1881, at High Park, Robert Richardson, farmer of 28 acres & lead miner, aged 45, wife Hannah 44, children William, lead miner, aged 18, Joseph, game keepers assistant, aged 17, George, lead ore washer, aged 15, Frances 13, Robert 12, John 9, and Nora 7.
In 1891, at High Park, Robert Richardson, lead miner & farmer, aged 55, wife Hannah 54, children William, lead miner, aged 28, Joseph, farm labourer, aged 26, Robert, farm labourer, aged 21, John 19, and Nora 17.
In 1901, at High Park, Robert Richardson, farmer, aged 65, his wife Hannah 64, children Joseph, game keeper, aged 37, John, saddler?, aged 29, and Nora 27.
In 1911, at High Park, Alston, Robert Richardson, farmer, aged 75, his wife Hannah 74, son Joseph, gamekeeper, aged 48, and daughter Nora, dairy worker, aged 37.
Robert Richardson, died 4th quarter 1919, aged 84.

17th May 1890 (Hexham Herald)
Deaths
Fairhill, Nenthead, 15th inst., aged 36, John Hetherington, book canvasser.
In 1841, John Hetherington, mine agent, aged 65, wife Alice aged 50, Thomas, smelter lead ore, aged 25, Christopher, apprentice shoemaker, aged 15, Ann, apprentice dressmaker, aged 14, and Robert 10.
In 1851, at High Fair Hill, Thomas Hetherington, lead ore smelter, aged 39, sister Ann, housekeeper, aged 24, and brother Robert, joiner, aged19.
In 1861, at Fair Hill, Thomas Hetherington, smelting overman, aged 49, wife Mary 38, children John 7, Alice J. 3.
In 1871, at Nenthead, Thomas Hetherington, overman at smelt mill, aged 59, wife Mary 49, and son John, scholar, aged 17.
In 1881, at Nenthead, Thomas Hetherington, lead works overman, aged 69, wife Mary 59, and son John, theological student, aged 27.

30th May 1890 (Carlisle Patriot)
REMARKABLE MINERAL HUNTING ON THE FELLS.
—The people of Dufton and the district are much engrossed, as they well may be, over the sensational character of recent discoveries of mineral veins on Dufton Fell and the range of hills among which it is situated, in Westmorland. The Dufton Fell Lead Ore and Barytes Company, Limited, of which Mr William Gibson is the manager, having a desire to make further investigations as to the mineral wealth of the fells, and hearing of the wonderful discoveries in this direction which have been made in other parts of the country by a mere boy, Francis Rodwell, through his extraordinary magnetic powers, determined to invite him to the locality, and put him to the test. The result of the visit has been little short of amazing. Veins of ore have been discovered in apparently the simplest, and yet the most marvellous manner. A succinct account of Rodwell and his discoveries has been furnished us by Mr Gibson, who says:—
“It is quite correct that we have had the boy Frederick Rodwell on our fells searching for mineral veins, and also quite correct that be can find them. He can find water either. So far as I can understand the affair, mineral veins and water have a very strong magnetic attraction for him. The boy is just 15 years of age, and of ordinary weight; but if he stands in a small quantity of water it takes a very strong man to lift him. It is not at all necessary for him to carry a stick. All he requires to do is to walk over the ground with his hands clasped, and he can immediately tell you if he steps upon a vein. He can give you the direction of the vein, and say whether it is weak or strong, he can also (simply by walking ever it) tell you if another vein crosses or comes into it. When he came here, we were all sceptical, so we took him on to a portion of the hills where we knew veins to exist, but where no outside trace of them was visible, and he correctly gave us the direction of each. In his researches he came upon a very large and strong vein, quite unknown to us. He gave us its direction and strength, and as we have since put a shaft down in this vein we have proved that he was exactly right as to its position. He does not profess to tell whether the vein carries lead ore or not all he can do is to find the vein for you, and say what size or strength it is. In the vein he found for us we have not yet come upon lead ore, but it carries rich mineral soil, and promises well."
Rodwell, who in the district is known as “the lad,” is accompanied by a medical man, whoso services, we understand, are frequently required as the work of

discovery proceeds, in consequence of repeated magnetic shocks which he receives from contact with minerals or water. We hear that Rodwell Intends shortly to proceed to Australia.

31st May 1890 (Hexham Herald)

WEARDALE

Mr Ralph Wilson for several years connected with the St John's Chapel, Post Office, and Mr Thomas Gardiner of Stone Heap, a Bollihope lead miner left the dale on Monday en route for South Africa.

4th June 1890 (Teesdale Mercury)

A GLIMPSE AT LEAD-MINING OPERATIONS CONDUCTED IN TEESDALE

is at all times interesting, because, in conjunction with farming, the inhabitants are chiefly supported by the pursuit of mining. The London Lead Company are at present working six mines in Teesdale, as follows: —Lady's Rake in Harwood; Coldberry, Hudeshopehead, Wiregill, Little Eggleshope, Sharnberry, and in Bollyhope, near Frosterley, Bollyhopeburn and Whitfield Brow. The most productive mines are Wiregill, Little Eggleshope, Coldberry, and Lady's Rake. The Greenhurth mine is the plot adjoining that of the London Lead Company, in Harwood, and is worked by the only other mining company in Teesdale. The Greenhurth mine has been a very remunerative concern for many years. The importations of lead are chiefly from Spain, Germany, Greece and Australia. Enormous quantities of lead are now sent to England from Australia. This lead contains a large percentage of silver. The London Lead Company have recently been buyers of two or three parcels of one hundred tons each of Australian ore, containing from two hundred to three hundred ounces of silver per ton. The same company, a short time ago, got some lead ore from the Isle of Man Mines, which is fairly rich in silver. It is not likely that the English lead market, however, is ever destined to reach the high rates, which were realised a dozen, or fifteen years ago, owing principally to the abundant supplies from abroad. The present value of lead is about £13 per ton, and it will readily be conceived that mines in this country must be of considerable richness in order to pay; more especially if the royalties are at all excessive.

6th June 1891 (Cumberland & Westmorland Herald)

Deaths

At the house of Mrs Wilson, Scales, Threlkeld, on the 28th ult., John Hutchinson, miner, late of Nenthead, aged 59.

In 1891, at Scales, near Threlkeld, Mary Wilson, widow, aged 51, son William, lead miner, aged 18, and boarder, John Hutchinson, lead miner aged 56.

7th June 1890 (Carlisle Express and Examiner)

ALSTON RURAL.

This Authority met on Saturday. Mr. Henry Walton presided, and there was an exceptionally large attendance, owing to a notice of motion by the Chairman.

An Important Question.—The CHAIRMAN moved "That subject to the approval of the Local Government Board the town of Alston be made a special drainage district charged with the cost of sewerage and water supply." He remarked that at present sewerage and water were chiefly paid for by those in no way benefitting. They would all have seen that the County Council were taking action in regard to the appointment county sanitary officer. Such officer would have

supervision over the local officers, and no doubt an effect of the appointment would be increased expenditure for sanitary purposes. No public Health Act ever contemplated that lands and farms should he rated for those purposes, as houses and scores of places of less importance than Alston had been separated from the county and made contributory districts.—Mr. VIPOND seconded the motion.—Mr. SIMPSON moved that no such resolution be sent to the Local Government Board. The town had contributed to all the country expenditure and the Contagious Diseases Rate time out of mind, and now when they wanted a supply of pure water the country tarried round and wanted to sever the connection.—Mr. RICHARDSON seconded the amendment According to the Act 1875 this resolution previously to being moved, required the sanction of the Local Government Board. Then, again, there should have been a defined area, and before a rateable area could be defined the requisition of 20 ratepayers must be had. This had not been done, nor had the inhabitants been consulted in any way. The town was necessary to the country and the country was necessary to the town. The town contributed about one-seventh of the total rate. If divided as proposed, and Nenthead and Garrigill required sanitary works, they could not call on Alston to contribute. If the place were divided who would direct? The country Guardians could not deal with the town affairs. Much of the money for the proposed water works was already voted, and if Chairman wanted division he should have made the motion when this matter first cropped up. He saw no ground for making the town a separate rateable area, and if the interference of the Local Government Board was once sought they would put the parish to an expenditure little contemplated.—Mr. CRAWHALL-WILSON said he endorsed all Mr. Richardson had said. He could only regard the grounds of Chairman's motion as selfish. They amounted to this—you are going spend more for sanitary purposes than contemplated, therefore we will divide. The logical conclusion to this argument would be that every house might claim to manage for itself. Were there a separation for one purpose, why not separation for others. The country roads for instance were of comparatively small importance to the town ratepayers, yet they contributed to them, and it struck him that those who chiefly benefited by the tramway in the street were the country carriers. Each division, town country, stood in need of each other, and must stand by each other.—Mr. LEE spoke in favour of the motion, and Mr. John DICKINSON and Mr. John MILLICAN in favour of the amendment.—Mr. HARRISON repudiated the charge of selfishness made against country Guardians.— The CHAIRMAN said that in view the opposition to his motion, seeing that it would be ineffective for its purpose if it went before the Local Government Board on a bare majority he would withdraw it.

7th June 1890 (Hexham Courant)

MINES INSPECTORS REPORT FOR 1889

In Northumberland, Cumberland, and a detached part of North Lancashire there were employed in Metalliferous mines 86 boys from 13 to 16 and 7,354 males above 16. Above ground six boys from 10 to 13, 577 boys and 3 females from 13 to 18, and 2,264 males above 18 were employed, a total of 10,290 under and above ground. Ten falls of ground occasioned as many deaths; one was caused by falling part of the way down a shaft, two from causes not defined and three on the surface, the total number of deaths being 16.

Marriages

At the Wesleyan Methodist Church Alston, 5th inst., Joseph Graham, Pry House, Nenthead, to Diana, youngest daughter of the late John Lattimer, Holmfoot, Nenthead.

In 1881, at Holmefoot, John Lattimer, draper & farmer of 31 acres, aged 62, his wife Hannah 60, children Dianna 22, Thomas, farmers son, aged 15, grandson Robert Nicholson 7, and domestic servant Mary Robson aged 24.

In 1881, at Pry House, Nenthead, Thomas Graham, farmer of 20 acres, aged 65, his wife Sarah 64, children Agnes 38, Ridley, lead ore smelter, aged 33, Sarah 28, Joseph, general smith, aged 26, John, farmers son, aged 24, William, stoker at lead smelting works, aged 24.

In 1891, at Holmefoot, Joseph Graham, blacksmith, aged 36, his wife Diana 31, daughter Bertha 2 months, and boarder Thomas Lathmer, grocer, aged 25.

In 1901, at Holmefoot, Joseph Graham, blacksmith at lead mines, aged 46, his wife Diana 42, children Bertha 10, and Rupert E D 4.

Joseph Graham died of blood poisoning see 18th March 1909.

In 1911, at Kings Head, Cottage, Nenthead, Diana Graham, widow, aged 52, children Bertha, post office worker, aged 20, and Rupert Edmund Oswald 14.

See 30th December 1882, 16th June 1883, 2nd May 1885, 29th January 1887, 10th September 1892, and 18th March 1909.

Deaths

At Clog Hall, Nenthead, 18th ult., aged 74, Thomas Renwick, lead miner, formerly of Coalcleugh.

In 1851, at Whetstone Mea, West Allen, John Renwick, lead miner & farmer 8 acres, aged 66, his wife Mary aged 61, children Thomas, lead miner, aged 35, Jane, dressmaker, aged 23, William, lead miner, aged 19, and David, lead miner, aged 17.

John Renwick died 1st quarter 1854.

In 1861, at Coalcleugh, Thomas Renwick, lead miner, aged 45, his wife Mary (Henderson, married 15th November 1851, Ninebanks) aged 40, children John 11, Thomas 8, Mary S. 6, Joseph 4, and Hannah 4 months.

In 1871, at Shield Ridge, Thomas Renwick, lead ore miner, aged 55, his wife Mary 50, children Tom, lead ore miner, aged 18, Mary T. 15, Joseph, lead ore dresser, aged 13, Hannah 10, and step son John Henderson, lead ore miner, aged 21. In 1881, at Greenends, Thomas Renwick, lead miner, aged 65, born Allendale, his wife Mary 59 (died 2nd quarter of 1885, aged 64), children Mary, domestic servant, aged 24, Joseph, lead miner, aged 22, and grandson George H. 4. See 22nd November 1890, & 15th December 1894.

At Garrigill, 5th inst., aged 53, John Armstrong, lead miner.

In 1871, at Garrigill Gate, John Armstrong, lead miner, aged 33, wife Sarah (Jackson, married 2nd quarter of 1861) aged 29 (died 4th quarter of 1876, aged 35), and daughter Elizabeth A. 3 (died 3rd quarter of 1871, aged 3). In 1881, John Armstrong, farmer of 9 acres, aged 42, wife Jane (Bramwell, married 2nd quarter of 1878) aged 36, daughter Sarah A. 7, boarder Joe Moffatt 9, and visitor Elizabeth Potts 12.

In 1891, at 21 Copthorn Road, Bradford, Jane Armstrong, widow, aged 47, son John J Bramwell, music warehouseman, aged 25, daughter Sarah A Armstrong, domestic servant, aged 17, and nephew Joseph Moffat, warehouseman, aged 20

7th June 1890 (Hexham Herald)

WEARDALE

FATAL QUARRY ACCIDENT AT STANHOPE.

A sad fatal accident occurred at the Newlandside Limestone Quarry on Tuesday. Whilst John Robinson a young man aged 20, was running a tub of rubbish on bearing along the "gearing" he slipped through an opening between the rails used as a stone tip and fell 50 feet upon some stones below. The unfortunate man was conveyed home by ambulance men and Dr Livingstone and Robinson were in attendance, but he succumbed to internal injuries and died a few hours after he was brought home.

In 1881, at Frosterley, John Robinson, labourer in limestone quarry, aged 42, wife Sarah 39, sons George, labourer in limestone quarry, aged 14, and John, labourer in limestone quarry, aged 13.

14th June 1890 (Hexham Herald)

Marriages

Alston Wesleyan Methodist Chapel, 12th inst., John Joseph White, Bayles, Alston to Jane Ann Bramwell, Whitlow.

In 1871, at Leadgate, William Bramwell, lead miner & farmer of 15 acres, aged 29, his wife Nancy (Nicholson, married 2nd quarter 1870, Alston) aged 26, brother Joseph, lead miner, aged 39, sister Mary 32, niece Annie Bramwell 15, nephew Joseph Bramwell 12, and niece Jane Ann Bramwell 5.

Nancy Bramwell died 3rd October 1873, aged 29. See 11th October 1873

In1881, at Annatwalls, William Bramwell, widow farmer of 80 acres, aged 39, daughter Margaret 9, sister Mary, single, housekeeper, aged 42, niece Jane A. Bramwell 15, niece Margaret Bramwell 3, and nephew Joseph Bramwell, coal merchant, aged 23.

In 1891, at Whitlow, Kirkhaugh, William Bramwell, widow, farmer, aged 49, daughter Margaret, aged 19, brother Joseph, farmers cartman, aged 59, sister Mary, housekeeper, aged 52. In 1911, at Whitlow, Kirkhaugh, William Bramwell, widow, farmer grazing, aged 69, son in law William Craig, manager of cooperative society, grocery, aged 40, daughter Margaret Craig 39, grandchildren Percy Craig 4, Joseph William Craig 2, and George Henry Craig, 6 months. At Dodbury, Garrigill, 11th inst. aged 53, Elizabeth the beloved wife of Hugh Jackson.

In 1861, at Kirkhaugh, Hugh Jackson, labourer, aged 33, born Knaresdale, his wife Elizabeth (Walton, married 18th December 1858, at Kirkhaugh) aged 26, born Alston, children Hugh 2, and Samuel 5 months.

In 1871, at Dodberry, Hugh Jackson, farmer of 65 acres, aged 43, wife Elizabeth 36, children Samuel 10, Ann 8, and Thomas 6.

In 1881, at Dodberry, Hugh Jackson, farmer of 75 acres, aged 53, wife Elisabeth 45, children Thomas, farmers son, aged 16, Mary 9, and Margaret E. 7.

In 1891, at Dodberry, Hugh Jackson, widow, farmer, aged 63, daughters Mary 19, Margaret E. 17, and grandson Percy E. 5 years.

At Leadgate, Alston, 17th inst. aged 83, Thomas Hardy.

In 1881, at Aimshaugh, Leadgate, Thomas Hardy, retired gamekeeper, aged 72, and his wife Jane 69.

28th June 1890 (Hexham Herald)

WEARDALE

It is announced that the ironstone mines of the Weardale Iron and Coal Company, which have been closed for over a year, are to be restarted in the course of a few days.

Marriages

Garrigill Wesleyan Methodist Chapel, 24th inst., T. W. Ward, grocer to Bessie Alice daughter of Matthew Millican, Joiner.

In 1891, at Garrigill, Thomas W Ward, grocer and farmer, aged 26, his wife Bessie A 26, visitors Mary J Spark, married, aged 32, born Morpeth, Frances A Smith, single, aged 21, born Allendale, and Edith A Spark, 11 months, born Gateshead. In 1901, at Donkin Terrace, Tynemouth, Thomas W Ward, grocers assistant, aged 36, his wife Bessie A 36, and daughters Ethel 9, and Minnie 3.

Deaths

Allenheads, 22nd inst., aged 48, Mary Jane, wife of Joseph Coats.

See 2nd October 1867.

Garrigill, 23rd inst., aged 73, Thomas Wilkinson, blacksmith.

In 1881, at Garrigill Gate, Thomas Wilkinson, blacksmith, aged 64, and his wife Hannah aged 64. Hannah Wilkinson died 3rd quarter 1896, aged 79.

See 9th December 1871

5th July 1890

WEARDALE

THE IRONSTONE MINES.

The Weardale ironstone mines situated chiefly west or north of St John's Chapel which have been closed for about a year and four months were restarted on Monday morning.

Death of well known Innkeeper

After a somewhat prolonged affliction, Mr John Emerson, landlord of the Kings Head Inn, St John's Chapel died on Monday afternoon, in his 50th year.

Probably deceased never thoroughly recovered from the effects of a severe mining accident, which he received some eight or nine years ago.

IN LOVING MEMORY OF
JOHN EMERSON
OF ST JOHN'S CHAPEL
WHO DIED JUNE 30TH 1890
AGED 49 YEARS

In 1871, at Hood, John Emerson, lead miner, aged 30, and his wife Jane (married 3rd quarter of 1868, Weardale) aged 28.
In 1881, at St John's Chapel, Jane Emerson, married, aged 39, daughter Elizabeth, aged 9.
In 1891, at the Queens Head, St John's Chapel, Jane Emerson, widow, Innkeeper, aged 47, daughter Elizabeth 19, mother Elizabeth Dawson, widow, aged 77.
See 17th June 1882.

12th July 1890 (Hexham Herald)
Marriages
At the Primitive Methodist Chapel Alston, 29th ult., Thomas Wm. Teasdale, Hudgill, to Mary Jane Vipond, Alston.
In 1861, at Loaning Head, Garrigill, Isaac Vipond, unmarried, lead miner, aged 38, servant Joseph Skelton, carter, aged 25, and domestic servant, Ann Vipond aged 25. Ann Vipond married Isaac Vipond, 17th April 1862, at Alston.
In 1871, at Town Head, Alston, Ann Vipond, married, aged 36, daughters Ann A 4, Mary J 2, and Hannah 2 months.
In 1881, at Front Street, West, Alston, Anne Vipond, widow, charwoman, aged 46, children Anne Alice, wool winder, aged 14, Mary Jane 12, Hannah 10, and Thomas William 5. In 1891, at Front Street, Ann Vipond, unmarried, aged 56, daughter Hannah, stocking knitter, aged 19, and son Thomas W, living with mother, aged 16.
In 1871, at Hudgill, John Teasdale, lead miner, aged 41, his wife Eleanor 38, children Phillis, domestic servant, aged 13, Mary A. 11, Walter 11, John 5, Thomas W. 4, and George 1. In 1881, at Hudgill, John Teasdale, farmer of 30 acres & lead miner, aged 50, his wife Ellen aged 49, children Phillis 23, Walton, coal miner, aged 19, John, farm servant, aged15, Thomas W. shoemakers apprentice, aged 13, George 11, Joseph W. 9, Isaac 5, and

Sarah J. 4. In 1891, at Hudgill, John Teasdale, lead miner & farmer, aged 61, his wife Nelly 59, children Phillis 33, George, lead miner, aged 21, Joseph F, lead miner, aged 19, Sarah Jane 14, John James 9, and visitor Elizabeth Ann Scott 12. In 1901, at Hudgill, John Teasdale, farmer, aged 71, his wife Nellie 60, children George, farm help, aged 31, Joseph, lead miner, aged 29, Sarah 24, John 19, and niece Phyllis Teasdale 16.
John Teasdale died 1st quarter 1910, aged 80.
In 1891, at Front Street, Alston, Thomas W Teasdale, coal man, collier, aged 24, and his wife Mary J aged 22. In 1901, at Leadgate, Durham, Thomas W Teasdale, labourer coke ovens, aged 34, his wife Mary J 31, children Annie 8, John G 7, Thomas A 4, and Alice 1. In 1911, at Nelson Street, Consett, Thomas William Teasdale, coke drawer iron works, aged 44, his wife Mary Jane 42, children Annie 18, John George, brick layers labourer, aged 17, Thomas Arthur, labourer iron works, aged 14, Alice 11, Joseph Fenwick 9, Robert William 5, and Sydney Walton 1.
See 18th April 1862, and 14th March 1891

Deaths

Nenthead, Hillersdon Terrace, 4th inst., aged 32, Jacob Swindle, farmer.
See 17th November 1866 & 12th July 1884.

19th July 1890 (Hexham Herald)

WEARDALE

On Monday evening Mr Thomas Robinson, Greenwell, Upper Weardale died very suddenly, being choked by an unexpected flow of blood from a ruptured blood vessel, which he broke a few days ago.
In 1871, at Wear Side House, Thomas Robinson, lead miner & farmer of 19 acres, aged 34, wife Hannah 32, children Mary A. 10, George 8, Adah 6, and John W 9 months.
In 1881, at White Stones, Thomas Robinson, widow, lead miner, aged 44, children Adah, housekeeper, aged 16, John W. 10, Phoebe H. 7, and Amelia aged 4. In 1891, at Greenwell, John W Robinson, farmer, aged 20, sisters Phebe R. housekeeper, aged 17, and Amelia, housekeeper, aged 15.

26th July 1890 (Hexham Courant)

Deaths

At Wardway Foot, Nenthead, 24th inst., aged 55, Joseph Dixon, lead miner.
In 1851, at Croft, Jonathan Dixon, lead miner, and farmer, aged 39, born Haltwhistle, his wife Mary 38, born Haltwhistle, children Robert, lead miner, aged 17, born Haltwhistle, Joseph, lead miner, aged 16, born Haltwhistle, Elizabeth 14, born Haltwhistle, Margaret 12, born Haltwhistle, John 10, born Haltwhistle, Mary 8, born Alston, William 6, born Alston, Ann 3, born Alston, and Jonathan 9 months, born Alston.
In 1861, at Croft, Mary Dixon, lead miners widow, aged 47, children Robert, waggoner, aged 27, Joseph, waggoner, aged 25, Mary, house servant, aged 18, William, waggoner, aged 15, Ann 13, and Jane 7.

In 1881, at Fair Hill, Joseph Dixon, lead miner, aged 43, his wife Tamer (Armstrong, married 2nd quarter of 1865, Alston) aged 38, children Mary Margaret 16, Joseph 12, Jane 10, Walton 8, Sarah 4, and mother Mary Dixon, lead miners widow, aged 71.

In 1891, at Wardway Foot, Tamar Dixon, widow, aged 48, children Joseph, general labourer, aged 22, Jane, dressmakers apprentice, aged 20, Walton, lead ore washer, aged 18, Sarah 14, Annie Eliz 4, and mother in law Mary Dixon, widow, aged 83.
See 17th March 1894 & 14th April 1894.

26th July 1890 (Hexham Herald)

WEARDALE

Matilda Parkin, widow residing at Martin Street, Stanhope died very suddenly on Friday week at her residence. … Had reached her 76th year.
In 1851, at Crawleyside, Matthew Parkin, engine keeper, aged 31, his wife Matilda 27, children Mary H 6, Matthew 2, and Gavin 11 months.
In 1861, at Mountain Daisy, Sunderland, Matthew Parkin, engine fitter, aged 41, wife Matilda 36, Martha 12, George 9, Matilda 5, and John J 8 months.
In 1871, at Willington Square, Matilda Parkin, married, aged 49, son George, labourer, aged 20daughter Matilda 16, son John 9, married daughter Mary H Brown 27, and granddaughter Phillis A Brown 4.
In 1881, at Martin Street, Matilda Parkin, engine fitters widow, aged 56, and granddaughter Phillis A. Brown 13.

2nd August 1890 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

Dr Short, Nenthead, reported that the death rate for the quarter had been 4.8 per 1000 and birth rate 5.3.

9th August 1890 (Hexham Herald)
Marriages

13th September 1890 (Hexham Herald)

WEARDALE

The Ballarat Star, Saturday July 26th contains the following respecting a Weardale man late of St John's Chapel. "A miner named Stephen Bee aged 44 years, met with a fatal accident early yesterday morning in the mine of the Britannia United Company, Ballarat East. The deceased it appears was engaged with a number of mates at the 600 feet level putting in a charge of dynamite in some stone. During the process of the work one of the mates (Thomas Mueller) brother of the well-known member of the Ballarat Fire Brigade, observed looseness in the reef overhead, and suggested that the party should retire to a place of safety. All retreated except Bee. Shortly afterwards a loud crash was heard and on the miners rushing forward they found a large quantity of stuff fallen away and that Bee was covered with the debris. … After two hours, the mutilated body of Bee was recovered. Deceased, who resided in Neil Street, Soldiers Hill, leaves a widow and six children.

On initial reading, it seems an irresponsible act by Bee, but the newspaper, The Mercury (Hobart, Tas.) Saturday 26 July 1890, gives a different viewpoint. "Stephen Bee, a miner, employed at the Britannia United Co.'s mine, Ballarat, was killed to-day by the ground giving way while he was engaged timbering it, the falling earth and timbers pinning him down." This suggests Stephen Bee was trying to make the area safe rather than ignoring the danger.

His father Stephen died 1843 aged 54, Mother Mary (Mason) died in 1859 aged 59.

In 1851 at Green Foot Chapel, Mary Bee shopkeeper 51, children, Mary Ann shopkeeper 28, Peter, lead miner, aged 18, Jane 16, and Stephen 7.

In 1861 at St Johns Chapel, Mary A Bee, grocer, aged 38, sister, Elizabeth, grocer, aged 37, sister, Jane, 26, and brother, Stephen, lead miner aged 19.

Peter had already emigrated to Australia records show a Peter Bee aged 24, arrived at Melbourne on 19th July 1857, port of departure Liverpool, on the "Royal Charter".
In 1871 there are only the 3 girls on the census, still living at St John's Chapel. Mining records for Victoria give Stephen Bee, killed on 25th July 1890, married, aged 48. The Australian records do not have a marriage for Stephen that I can find but there is a record of a Stephen Bee marrying at Weardale in 1870, by a process of elimination I believe he married Phoebe Hodgson, the daughter of Thomas & Hannah (Peart) Hodgson of North Grain, St John's Chapel, Weardale.

The Argus (Melbourne) Thursday 1 March 1923
BEE. On the 25th February, Mrs Phoebe Bee, loving mother, of T L Bee; 51 Toorak Road, South Camberwell, in her 78th year. (Interred privately, Ballarat, February 27)

At Stanhope, Pease Myers, 14th inst. aged 36, Sarah Vickers.
In 1881, at Peas Myers, William Vickers, farmers son, aged 27, wife Sarah 27, daughter E. Eleanor Vickers 1, and domestic servant Hannah Harrison, aged 16.
In 1891, at Peas Myers, William Vickers, widow, farmer, aged 37, children, Catherine 8, Francis 6, George 5, Alice 3, housekeeper Hannah Pigg, widow, aged 47, and domestic servant Mary E Stamper aged 17

27th September 1890 (Hexham Herald)

WEARDALE

THE LEAD MINING CRISIS IN WEARDALE.

This week Mr George Hopkins of London and his son, Mr Edward Hopkins, directors of the Weardale Lead Company, had an interview with Dr Livingstone, County Councillor, Stanhope, with reference to the men at Daddry Shield and Green Laws mines being laid off work. The directors stated that the company were at present joining the Upper and Lower levels, so that the work from the upper could be shot down into the lower where a horse can pull out the material and save the men in the upper, where a horse cannot be used – from having to push it so far viz. 500 fathoms. Their action was not due to the County Council. Dr Livingstone thereupon urged that employment should be found for the men out of work, and Messrs Hopkins said that this would be done as soon as possible. They also promised that in future, where possible all "cuttings" would be kept out of the River Wear, the alleged pollution of which had caused all the trouble.
The County Council had banned the pouring of waste into the River Wear by the lead company, it had been thought that the reduction in workforce at the mines had carried out as a result of this ban.

4th October 1890 (Hexham Herald)
Marriages
Alston Primitive Methodist Chapel, 27th ult., James Spotswood *(coal miner)*, Middle Skelgill, to Francis Rutherford, Dykeheads.

18th October 1890 (Hexham Herald)

ALSTON
RURAL SANITARY AUTHORITY

The Nenthead Medical Officers (Dr E. W. Short) quarterly report was read and the statistics for the quarter ending September were of a satisfactory nature. The district has been in a healthy sanitary state, free from all diseases of a zymotic nature. The number of deaths had been 9 the same as the previous quarter, but among the deaths were included two, that of a lead miner who was on his way to another part of the country, and that of a tramp. Deducting these from the number of deaths for the quarter, the average death rate was 3.7 or 14.8 per annum. The birth rate was 7.9 per quarter.

Marriages

Weardale, Heathery Cleugh, Parish Church, 19th inst., Thomas Peart, of the Moss, to Hannah Peart of Copt Hill.

15th November 1890 (Hexham Herald)
WEARDALE
DEATH OF WEARDALE POET
There died at Shallow Ford in Weardale, on Saturday last, a well known Weardale poet Mr Featherstone Martindale in the 55th year of his age. His remains were interred at Westgate on Tuesday in the presence of a large gathering. Deceased who had been ailing in health for some time was the recognised bard of the valley. Several pamphlets in verse survive the author who was a respected member of the Wesleyan Society, to which his last lyric was dedicated. His verses possessed merit, being full of poetry and lofty thought, and rhymed pleasantly as well.

John Smith married Elizabeth Watson 27th July 1833, at Alston, Elizabeth Smith died 1st quarter of 1839.
In 1841, at Cowslips? John Smith, lead miner, aged 30, Mary 8, Martha 5, and servant Ann Davidson aged 15.
In 1851, at High Cowslip?, John Smith, Miner & farmer, aged 45, his wife Tamar (Shield, married 17th June 1843, Alston) aged 43, children Martha 14, Sarah 7, Ann 5, Ester 3, and Elizabeth 1.
John Smith died 3rd quarter 1853 or 1859.
In 1861, at High Nest, Tamar Smith, miners widow, aged 44, and daughters Elizabeth 11, and Anna 8.
In 1881, at Bruntley Syke, Tamar Smith, widow, assists her daughter with dressmaking aged 62, and daughter Anna, dressmaker, aged 27.
At Alston, 18th inst., aged 48, Isabella, daughter of Featherstone Varty, lead miner, late of Nenthead.
In 1841, at Burn Bottom, Nenthead, Featherston Varty, lead miner, aged 35, Isabella 30, William 12, Featherston 8, Robert 5, Elizabeth 1, Edward 6, and John Varty, lead miner, aged 25.
In 1851 at Low Level, Featherstone Varty, lead ore washing foreman aged 47, his wife Isabella 43, children William lead miner, aged 22, Featherstone, lead ore washer, aged 18 , Robert, lead ore washer, aged 15, Betsy 10, Isabella 8, and Phillis 6.
In 1861, at Low Level, Nenthead, Featherstone Varty, lead miner, aged 57, wife Isabella 53, children Featherston, lead miner, aged 28, Isabella, house maid, aged 18, and Phillis, house servant, aged 16.
Featherstone Varty died 1st quarter 1867, aged 63.
In 1871, at Somerset Terrace, Elswick, Jane Nixon, annuitant, aged 72, sons Robert, retired manufacturer, aged 42, James, retired manufacturer, aged 40, niece Ann Scott, annuitant 48, and domestic servant Isabella Varty 21.
In 1881, at Butts, Isabella Varty, unmarried, general domestic servant, aged 38, and daughter Elizabeth aged 6.

22nd November 1890 (Hexham Herald)

WEARDALE

There died at Stanhope on Sunday, one of the old standards of the dale Nixon Coulthard, who was for many years a lead worker for the London Lead Company at their Stanhope Lead Smelting Mill.
Nixon Coulthard, son of Joseph and Isabell Coulthard, baptised at Slaidburn, Yorkshire (West Riding) 8th March 1818.
In 1851, at Green Head, Stanhope, Isabella Coulthard, widow, aged 61, and son, Nixon, lead crystaliser, aged 33, born Stoth Hall, Yorkshire
Nixon Coulthard married Mary Ann Raine 2nd quarter 1854, at Weardale.
In 1861, at Green Head, Nixon Coultard, lead crystaliser, aged 42, his wife Mary A 32, children Joseph 6, John 4, and Ellenor 4 months.
In 1871, at Green Head, Stanhope, Nixon Coulthard, labourer at lead mine, aged 53, his wife Mary A., aged 42, children Joseph, lead smelter, aged 16, John, lead smelter, aged 14, Ellen 10, and Isabella 7.
In 1881, at West Terrace, Stanhope, Nixon Coulthard, lead smelter, aged 63, his wife Mary Ann 52, children, John, lead smelter, aged 24, Ellen, dressmaker, aged 20, Isabella 17, boarders William Parker, limestone quarryman, aged 29, and Joseph Wearmouth, corn miller, aged 19.

Marriages
Nentsbury Primitive Methodist Chapel, 20th inst., Joseph Renwick, Clog Hall, to Betsy Hetherington, Beldy, Garrigill.
In 1881, at Greenends, Thomas Renwick, lead miner, aged 65, his wife Mary 59, daughter Mary 24, son Joseph, lead miner, aged 22, and grandson George H. Renwick 4.
In1891, at Clog Hall, Nenthead, Joseph Renwick, lead miner, aged 32, born Allendale, his wife Elizabeth 22, and daughter Annie 10 months.
Joseph Renwick died 13th December 1894, aged 37.
In 1901, at Cross Hill, Stanhope, Betsy Renwick, widow, aged 32, children Annie 10, Mary H 9, and Thomas 7. In 1911, at Stone Houses, Stanhope, Betsy Renwick, widow, school caretaker, aged 42, daughter Mary Hannah, assisting caretaker, aged 19, and son Thomas William, Spar mines washer boy, aged 17.
See 31st May 1890, & 15th December 1894.
Deaths
Stanhope, 16th inst., aged 76, Nixon Coulthard.
In 1841, at Brickshaw, Newlandsides, Isabella Coulthard, independent, aged 50, born Northumberland, sons, Nixon, lead miner, aged 20, born Yorkshire, Joseph 15, Thomas 14, and Fenwick 12.
In 1851, at Green Head, Isabella Coulthard, widow (husband Joseph), aged 61, son Nixon, lead crystalliser, aged 33, and lodger Christopher Harrison, widow, ironstone miner, aged 30. In 1861, at Green Head, Nixon Coulthard, lead calciner, aged 42, his wife Mary A, aged 32, born Prudhoe, children Joseph 6, John 4, and Ellenor 4 months.
In 1871, at Green Head, Nixon Coulthard, labourer at lead mine, aged 53, wife Mary A 42, children Joseph, lead smelter, aged 16, John, lead smelter, aged 14, Ellen 10, and Isabella 7.
In 1881, at West Terr., Stanhope, Nixon Coulthard, lead smelter, aged 63, his wife Mary Ann 52, children John, lead smelter, aged 24, Ellen, dressmaker, aged 20, Isabella 17, boarders William Parker, limestone quarryman, aged 29, and Joseph Wearmouth, corn miller, aged 19.
In 1891, at West Terr., Stanhope, Mary A. Coulthard, living on her own means, aged 62. In 1901, at Wearhead, Mary A. Coulthard, widow, living on own means, aged 72. Also at Wearhead, Joseph Coulthard, Elementary school teacher aged 46, and his wife Margaret aged 47.

29th November 1890 (Hexham Courant)
Deaths
At Croft, near Nenthead, 23rd inst., aged 65, Sarah widow of William Wailes, lead miner.
In 1841, at Low Galligill, Thomas Wailes, lead miner, aged 55, his wife Elizabeth 50, children Edward, lead miner, aged 25, Isaac, lead miner, aged 23, William, lead miner, aged 20, Isabella 18, Margaret 15, Thomas, lead miner, aged 12, and John 9.
Thomas Wailes snr. died 1857.
In 1851, at Haggs Foot, William Wailes, lead miner, aged 31, his wife Sarah (Redshaw, married 1st June 1848, at Nenthead) aged 25, sons John 1, and Thomas 2 months. In 1861, at Haggs Foot, William Wailes, lead miner, aged 41, wife Sarah, children John 12, Mary 7, and William 2.

In 1871, at Low Grassfield, William Wailes, lead miner, aged 51, wife Sarah 45, children John, lead miner, aged 22, William 12, Isabella 9, and Frances Sarah 7.
William Wailes died 13th June 1879, aged 59.
In 1881, at Croft, Sarah Wailes, lead miners widow, aged 55, children John, lead miner, aged 32, William, lead miner, aged 22, Isabella 19, Frances S. 17, and John W. 3.
See 11th June 1842, 8th June 1844, 12th April 1845, 3rd May 1879, 21st June 1879, and 6th Dec. 1884,

6th December 1890 (Hexham Courant)
Deaths
At Fair View, Nenthead, 3rd inst., aged 42, John Dickinson, lead miner.
In 1851, at Fair View, James Dickinson, lead miner, aged 28, his wife Marie aged 36, sons William 8, James 5, John 2, and brother in law William Little, lead miner, aged 56.
In 1861, at Fair View, James Dickinson, lead miner & farmer of 17 acres, aged 40, his wife Maria 50, sons William, lead miner, aged 18, James, lead miner, aged 14, and John 12.
In 1871, at Fair View, James Dickinson, lead miner, aged 53, wife Maria 60, sons, William, lead miner, aged 28, James, lead miner, aged 24, John, lead miner, aged 22, and domestic servant Isabella Gray aged 20.
In 1881, at Fair View, Maria Dickinson, widow, farmer of 20 acres, aged 75, sons, William, lead miner, aged 37, John, lead miner, aged 32, grandson James D. Matthews 2, and domestic servant Elizabeth E. Matthew 22 (born Ireland).
In 1891, at Fair View, Maria Dickinson, widow, living on her own means, aged 86, son William, lead ore miner, aged 47, his wife Ellen 32 (born Ireland), children James 12, Thomas 9, Maria 7, Mary Jane 5, and William 3.
In 1901, at Fair View, Ellen Dickinson, widow, farmer, aged 41, children James, lead miner, aged 22, Thomas, lead miner, aged 19, Mary J. 15, William 13, and visitor James E Railton 5 years. See 5th February 1898

12th December 1890 (London Gazette)
HARDSHINS MINING COMPANY LIMITED.
NOTICE is hereby given, in pursuance of section 142 of the Companies Act, 1862, that a General Meeting of the Members of the above named Company, will be held at the office of the Liquidator, St. Nicholas-chambers, Newcastle-upon-Tyne, on the 21st day of January, 1891, at twelve o'clock, noon, for the purpose of having an account laid before them, showing the manner in which the winding up has been conducted, and the property of the Company disposed of, and of hearing any explanation that may be given by the Liquidator, and also of determining, by Extraordinary Resolution, the manner in which the books, accounts and documents of the Company, and of the Liquidator thereof, shall be disposed of.—Dated this 10th day of December, 1890.
JOHN H. ARMSTRONG, St. Nicholas-chambers, Newcastle-upon-Tyne, Liquidator.

13th December 1890 (Hexham Herald)

WEARDALE

Mr James Blenkiron of Newhouse, has just retired from the office as Head Manager of the Weardale lead mines. … Mr Blenkiron and family will leave the dale shortly for Middlesbrough.

James Blenkiron, born Reeth, Yorkshire in 1881 (aged 41 listed as lead mining agent) he was living at West House Arkingarthdale, Yorkshire. He was married to Margaret (married 1860) aged 43, they had at this time 8 children, Mary 20, Clara 18, Helena 12, James Ernest 10, John Pearson 8, George Frederick 6, Thomas Victor 3, and Lawrence Kenneth 2. Mary was born in Reeth, Clara in Kettlewell, the others all in Arkingarthdale. In 1891 the family had moved to No.11 Imeson Terrace, Linthorpe, Middlesbrough.

18th December 1890 (The Times)

MINING GROUND TO BE LET

To be let on lease, a very extensive and valuable SET of MINING GROUND situated at Tynehead, near Alston, Cumberland, the property of Col. Crummer-Byng. For particulars apply to Geo. A. Millican, Garrigill, Alston, Cumberland.

20th December 1890 (Hexham Courant)

Deaths

At Hill Top, Nenthead, 5th inst., aged 36, John Erwin.

In 1851, at Burn Bottom, George Erwine, lead ore smelter, aged 58, his wife Isabella 53, children George, lead ore smelter, aged 26, Joseph, lead ore smelter, aged 24, Anthony, lead ore miner, aged 18, Rachel 15, Betsy 13, and Hannah 10.

George Erwin died 1st quarter 1857, his wife Isabella died 3rd quarter 1855.

In 1861, at Burn Bottom, Joseph Erwine, smelter, aged 34, his wife Margaret 34, children Robert 4, Margaret A 2, and George 4 months.

In 1861, at Low Dykehead, Ann Walton, widow, housekeeper, aged 69, son William, lead ore miner, aged, daughter Sarah, dressmaker, aged 33 and grandson John Erwine 6.

In 1871, at Burn Bottom, Joseph Erwine, lead ore smelter, aged 42, wife Margaret 42, children John Erwine, lead ore washer, aged 16, Robert, lead ore smelter, aged 14, Margaret A. 11, George E. 9, Joseph W. 5, Polly 1, boarders John Foster, wood cutter, aged 38, and Joseph Foster, wood cutter, aged 37.

In 1881, at Hill Top, Joseph Erwine, lead ore smelter, not able to work, aged 53, wife Margaret 52, children John, engineman, aged 26, Robert, lead ore smelter, aged 24, Margaret, domestic servant, aged 21, George, lead miner, aged 18, Joseph W., lead ore washer, aged 15, Polly 11, and lodger John Foster, woodman, aged 48.

Joseph Erwin died 2nd quarter 1885, aged 58.

At Tower Hill, Alston, 14th inst., aged 42, Hannah, daughter of the late John Crawhall Little.

See 2nd December 1837, and 29th August 1846.

East Side: In memory of Hannah the beloved wife of Anthony WALTON of Alston, who departed this life on 14 November 1865, aged 84 years; the above Anthony, who died on 21st May 1871, aged 59 years; Michael their son, died 4th April 1875, aged 60; James their son, died at Newcastle, 22nd October 1877, aged 84, and was interred in Jesmond Old Cemetery; Jane their daughter, and wife of John PATTERSON, died 27th July 1889, aged 77.
South Side: Also of Esther, the beloved wife of John Crawhall LITTLE and daughter of Anthony and Hannah WALTON, who departed this life 18th July 1850, aged 27 years; John Crawhall LITTLE, who died at Tower Hill, Alston, 14th April 1860, aged 41; Jane, daughter of the above, who died in Infancy; Hannah his daughter, died 14th February 1890, aged 42; Jane Hannah LITTLE, born 16th August 1878, died 13th March 1880; Margaret Ann, wife of W.H.LITTLE, died 15th July 1856, aged 52; West Side: Also of Michael Mowbray WALTON, died 16th August 1899, aged 29; Hannah Hetherington, daughter of Anthony and Hannah WALTON who died at Alston 7th June 1902, aged 82. North Side: Also of Jonathan ROBINSON, who departed this life 20th August 1838, aged 64.

Memorial Inscriptions of Redwing Independent Chapel by Mr Jeremy Godwin.

27th December 1890 (Hexham Herald)
Deaths
Irestone, Weardale, 24th inst., aged 66, suddenly, Elizabeth widow of Ralph Watson.
Mother of the Rev T. J. Watson, Primitive Methodist minister, she was interred at St John's Chapel.
In 1871, at Irestone, Ralph Watson, landowner, aged 60, wife Elizabeth 47, children Thomas J. 15, Mary H. 13, Elizabeth 10, John J. 8, Ralph 5, visitor Margaret H Jameson 6, and domestic servant Mary Featherston aged 24.
In 1881, at 45 Alexandra Place, Newcastle, Elizabeth Watson, widow, aged 57, children Mary H. 23, John J., accountants clerk, aged 18, and Ralph 15.

3rd January 1891 (Hexham Courant)
Deaths
At Highland Cottage, Nentsbury, Alston, 29th inst., aged 9 weeks, Thomas Frederick, son of Thomas F. Varty.
In 1871, at Town Foot, Sarah Varty, dressmaker, aged 39, children William, lead ore washer, aged 12, Thomas Featherstone 7, born Allendale (3rd quarter of 1863), Eleanore 3, Clara 3, boarder Sarah Ann Graham 1, sister Margaret Varty, formerly domestic servant unemployed, aged 30, nephew Thomas Varty 9, niece Sarah Elizabeth Varty 5, and niece Emily Varty 9 months.
In 1891, at Brigham, Cockermouth, Thomas Frederick Varty, mason, aged 24, born Hexham, and his wife Isabella (Collinson, married 2nd quarter of 1890, at Alston) aged 20, born Alston.

In 1901, at Caldbeck, Wigton, Thomas Featherstone Varty, stonemason & waller, aged 35, his wife Isabella, aged 28, and daughter Sarah Lizzie aged 7.
At Nenthall, 29th ult., aged 2 years, Walton, son of Annie Spottiswood.
In 1841, at Middle Skelgill, James Spotswood, lead miner, aged 51, wife Ann 54, children Hugh, lead miner, aged 22, Margaret 20, James, lead miner, aged 15, and Nicholas, lead miner, aged 12.
In 1851, at Middle Skelgill, James Spottswood, lead miner, aged 61, son Nicholas, lead miner, aged 21; Hugh Spottiswood, lead miner, aged 23, was lodging with neighbour Jonathan Hornsby, shoemaker & family.
In 1861, at High Skelgill, Nicholas Spotswood, lead miner, aged 31, wife Sarah (Walton, married 2nd quarter 1857, at Alston), aged 25, children James 3, Jane 2, boarder Joseph Walton, lead miner, aged 22 and boarder Nicholas Walton, lead miner, aged 19
In 1871, at High Skelgill, Nicholas Spotswood, lead miner, aged 41, wife Sarah 36, children Jane 12, Joseph 9, Ann 8, James 6, and Matthew 3.
In 1881, at High Skelgill, Nicholas Spottiswoode, farmer of 45 acres, aged 51, his wife Sarah 45, children Joseph, coal miner, aged 19, Jane, domestic servant, aged 18, James, farm labourer, aged 16, Matthew 13, Margaret 9, and Nicholas 7.
In 1891, at Bailes, Alston, Nicholas Spottiswood, farmer, aged 60, wife Sarah 55, children Annie 26, James, labourer in coke yard, aged 24, Matthew, labourer in coke yard, aged 22, Margaret 19, Nicholas, milk man, aged 17, Sarah Alice 8, and grand daughter Dora 4 years. See 18th August 1883, 19th April 1884, 3rd December 1887, & 29th November 1913
At Alston, 28th ult. aged 55, Margaret wife of Joseph Seatree.
In 1841, at Kates Lane, William Seatree, lead miner, aged 60, wife Sarah 60, children William, lead miner, aged 25, Ann 15, John, lead miner, aged 15, William, lead miner, aged 15, grandson Joseph Seatree 6.
In 1851, at Kates Lane, Thomas Sanders, lead miner, aged 45, wife Sarah 34, stepson Joseph Seatree, lead miner, aged 16, sons William Sanders 11, and Thomas Sanders 4.
In 1861, at Clitheroe, Joseph Sanders, lead miner, aged 26, his wife Margaret 26, children John Sanders 2 (died 2nd quarter of 1861, listed as Seatree), and Sarah 1 day.
In 1871, at Butts, Alston, Joseph Seatree, lead miner, aged 37, his wife Margaret 36, children Sarah 10, Ellen 6, Jane 3, and William 8 months.
In 1881, at Front Street, Joseph Seatree, provisions dealer, aged 47, wife Margaret 46, children Sarah, domestic servant, aged 19, Ellen, domestic servant, aged 16, Jane 13, and William 10. In 1891, Joseph Seatree, lead miner & grocer, aged 56, children Sarah, housekeeper, aged 29, Ellen, stocking maker, aged 26, and William, lead miner, aged 20.

3rd January 1891 (Hexham Herald)

WEARDALE

The miners employed by the Weardale Ironstone Company are now under notice and the probability that the mines may shortly be closed has thrown a gloom over the high part of the dale.

8th January 1891 (Northern Echo)

NORTH COUNTRY NEWS

Major Bainbridge, superintendent of the London Lead Company's mines in Teesdale, has accepted a similar position in Spain.

10th January 1891 (Hexham Courant)

Marriages

At St Augustine Church, Alston, James Vipond, Blaydon, to Jane Ann daughter of the late Joseph Bell, Mohope, Allendale.

In 1901, at Roseberry Avenue, South Shields, James Vipond, insurance agent, aged 36, his wife Jane A 35, children Sidney J 8, Amy M 3, Vernon K 1, visitors Mary Shield, widow, aged 37, and Leslie Shield 1 month.

Deaths

At New Shield, Alston, 7th inst. aged 63, Alice wife of Joseph Bowman, road surfaceman.

In 1881, at Newshield Toll Bar, Joseph Bowman, road surface man, aged 60, his wife Alice 56, and daughter Elizabeth, general servant out of employment, aged 28.

17th January 1891 (Hexham Courant)

Deaths

At Melbourne, Australia, 5th ult., aged 31, William Bell Nixon, for many years in the goods dept Hexham station.

21st January 1891 (Daily Gazette for Middlesbrough)

THE WEARDALE IRONSTONE CRISIS.

A DESPAIRING OUTLOOK.

[By Our Special Commissioner.]

It is many years since the natives of upper Wear dale have been so agitated in mind as they are at the present time over the threatened, and what looks like the inevitable, closing of the ironstone mines. That was the impression I gained yesterday during a visit to the seat of war—St. John's Chapel. A month ago the Weardale Iron and Coal Company gave the ironstone miners notice that twenty-eight days from that date their services would be no longer required—that, in fact, the mines would be closed. Something like a panic seized upon the inhabitants. As a consequence it was decided to address a letter on the subject to the Weardale Iron and Coal Company, and subsequently a reply was received to say that the Company could not possibly see its way to continue working the present mines. Other steps had then to be devised to meet what was looked upon as a pressing emergency. And foremost amongst those who took sides with the miners in their troubles was the Rev. R. Shepherd, the Vicar of St, John's Chapel, a kindly and good-hearted clergyman, whom dalesmen respect and admire. His motives were purely humanitarian. He has gone into the breach with an energy, commendable in the circumstances on the part of any man, but truly remarkable in a man of his years. Then it was suggested that as a last resort, and as the beat means of bringing their grievances to the front, a petition should be sent to the Ecclesiastical Commissioners in London asking them to see that the mines were properly worked, or the lease of the mines handed over to a company who would work them permanently. In that way only could the illimitable mineral resources of Weardale be opened out, and the

inhabitants receive anything like a secure and substantial benefit from the same development. In doing that the workmen had not the remotest idea of acting in any way inimical to the interests of the lessees of the mine.

SELF-PROTECTION AND A LOVE OF HOME

were alone the motives, which actuated them to adopt such a course. The petition was drawn up by Mr T. Pentland of Ireshopeburn, and signatures were speedily attached. Mr Lindsay Wood, the agent of the Ecclesiastical Commissioners, is also connected with the Weardale Lead Mines, and to him the ironstone miners stated their case, and he, in reply, said he would do all he could for them. The Commissioners also heard of the petition in course of preparation, and they wrote that they awaited “the memorial to render any assistance.” Mr H. W. Hollis, the general manager of the Weardale Iron and Coal Company, also heard of the petition, and wrote a letter to the Rev. R, Shepherd on the subject, and referred to the proposed petition to the lessors of the mines. “As this course of procedure,” added Mr Hollis in his letter, “will be attended with some expense, and would be entirely without any result such as is desired, may I suggest as a preferable line of action that a deputation of the miners confer with me on the question. If this suggestion be acceptable I shall be happy to receive such a deputation at this office on Monday, the 19th, or, if desired, at Stanhope at one o'clock on that day. The adoption of this coarse would enable me to explain to the miners the position in which we are placed, and would perhaps enable them to see that nothing will be gained with regard to their future prospects by the adoption of their hostile attitude towards us that appears to have developed.” From the Commissioners also a letter has been received, in which they deplored that circumstances entirely beyond their control were likely to lead to the

STOPPAGE OF THE IRONSTONE MINES,

and thereby occasioning much distress in the dales. They assured the miners that any memorial sent up from them would receive careful consideration. Mr Hollis met the deputation at Stanhope, and explained that the demand for pig iron made out of Weardale stone had become limited. He further pointed out that the substitution of Siemen’s steel for the older wrought iron had led to a change, which told seriously against the working of the Weardale ironstone, which was altogether unapplicable for the manufacture of steel. He was considering whether by stocking the ironstone they could avoid for the present the entire stoppage of the mines, but as to that he could not give anything like a definite promise. He also explained that the Company look the lease of the mines in 1884, for forty-two years, at a rental of £1,200 a year. The deputation consisted of Messrs Barkas, Lowe, Roddam, Thos. Wilson, and T. Hodgson, and they also gave expression to their views. The petition was sent off the same afternoon, and later on there was a public meeting in the Town Hall, St. John's Chapel, at which the Vicar presided, and the result of the interview with Mr Hollis given. The notices of the men will terminate on Friday first, and meanwhile nothing can be done, or further action decided upon, until some answer, satisfactory or otherwise, be received from the Commissioners at Whitehall.

THE MINES

There are three mines belonging to the Weardale Iron and Coal Company. These are Rowantree, Grovehead, and Wearhead. The latter mine, however, has not been worked for some time. In the summer time it is a very good mine to work, being what is called an “open cut,” but in the winter season it is

exceedingly difficult to work. For some time previous to June last the other two iron stone mines were idle, and in that month operations were recommenced with a diminished staff of workmen, the impression being that such was done to give those who were engaged regular employment. The ore from these mines has to be carted as far as Eastgate, from whence the Weardale Company have a line of railway which joins the Consett line at Burnhill Junction. The carting of the ore is let by contract to such of the villagers who are rich enough to be possessed of a horse and cart. This carting of the ore is no sinecure in a season like the present. Yesterday's weather in Weardale was wintry to an extreme. Rain fell in torrents from early morning. When the floodgates of heaven open,

IT RAINS IN UPPER WEARDALE WITH A VENGEANCE.

The waters of the swollen river rushed down the desolate valley with Niagara like swiftness, and the swishing and the rushing of the waves (for such they really were) as they dashed against the boulders of rock in the bed of the river, or where the river was joined by its no less swollen tributaries, could be heard a hundred yards away above on the hill. Many portions of the road between St John's Chapel and Eastgate were ankle deep in water, and in some instances impassable for pedestrians. Yet in this weather the carting of ore from the working mines continued as usual. Now and again as I passed up the valley in the old-fashioned coach, processions of these carts passed on the way to the loading depot, the drivers drenched to the skin by the blinding storm, and yet seemingly as happy at their toil as at a fair or a pantomime. And what will happen if these mines are closed?

THE EFFECT

will be to drive out a large number from Weardale to seek the bread, which is denied them in their native dale. That will be a painful position for a great many, for Weardale men are patriotic in a high degree. Weardale is their temporal promised land, and their ambitions go not beyond that. Then again, some of the cottagers keep cows, and an acre or two of land, which, with the little they earn in the mines, is sufficient to give them the comforts requisite for their humble station. Can we wonder then that the miners dread the closing of the two mines now working? It spells ruin, not only to them, but to the small tradespeople in the villages.

“IT MEANS DESOLATION! DESOLATION!”

said the Rev. R. Shepherd to me yesterday afternoon in an interview, “if the mines are closed and the line of railway is not extended up the dale as far as Wearhead.” This railway question is a pressing and an important one. There is not only illimitable ore in the valley, but other minerals which only require developing under favourable circumstances to make Weardale hills and dales the scenes of stirring and lasting industry. What is wanted, in the first instance is a line of railway from Stanhope, the present terminus, up to Wearhead, a few miles beyond St, John's Chapel. There are acres’ of rich limestone extending up to Kilhope, which only requires the sod cutting to make them then profitable. The projected railway has been surveyed, the engineering difficulties found to be not insurmountable, and land has been offered at a fair price. The purchase of the land is not expected to cost more than £2,000. The Ecclesiastical Commissioners give six acres. The total estimated cost is about £40,000. There is a firm conviction in the dale that such a branch of railroad to Wearhead would make the valley the Weardale men's El Dorado. It is also maintained that if the Commissioners are in earnest, they must give generous assistance to the

scheme, and it should take the shape of a donation of say £10,000. If that is done, and the dalesmen guarantee £5,000, either in shares or otherwise, Sir Joseph W. Pease, M.P., the representative of the division, has promised to use his influence in favour of the scheme and solicit that of his friends. If such, or something like it, is not done, it will mean hard times for Weardale folks. "Desolation, desolation!" as the Vicar of St John's pithily put it to me yesterday,

WHAT IS BEST TO BE DONE?

The officials of the Weardale Company said the petition sent up to Whitehall will do more harm than good. The dalesmen look at it in another light. They think the Commissioners will bring pressure to bear upon the present lessees either to work the mines or else give up the lease so that someone may take them and work them, and thus find employment for the dalesmen. Perhaps one thing may help them to gain their end. It is rumoured that the Spanish Government are proposing to put a substantial duly tariff all iron ore exported from Bilbao, and if it is done, it may compel some of the big companies to work native ore. I might also state that the coal question is a serious one in Upper Weardale. The Weardale Company, through their branch line from Burnhill, have the monopoly. If some people were told the price of a load of coal from the terminus depot to, say, St. John's Chapel, after cart age has been added, they would be surprised. In conclusion, it is right to say that the Weardale miners are losing a good manager in Mr Blenkiron, who, for a number of years past, has managed the mines. He was skilled at his business, eminently practical in his schemes, and thoroughly in sympathy with the workmen. It is a loss to the dale that he should have to leave it.

24th January 1891 (Hexham Courant)

IRON MINES CRISIS IN WEARDALE

With but little hopes of the closing of these mines being averted to-day (Saturday), the public have thrown themselves into the breach with the men, and the petition to the Ecclesiastical Commissioners has been got ready, but held in abeyance pending the result of Monday's interview with Mr Hollis, the Weardale Iron and Coal Company's manager at Stanhope. The deferring of the petition has given rise to some adverse comment, as it is attributed to the indifference of the Iron Company towards their workmen that the public took up the matter and formulated the said petition, which has been duly advised to and expected by the Whitehall authorities, whose assistance, in case their covenant with their lessees permits of no enforcement of the first part of the petitioner's prayer is expected to take the direction of the railway.

A public meeting took place at the Town Hall, St John's Chapel on Monday night to hear the result of the interview. The vicar (the Rev R. Shepherd) presided, and after a cursory view of the late developments read a telegram he received from Mr Hollis, Tudhoe: - ": Letter re Weardale mines is addressed to you by to-days post," and on the 14th he duly received the letter, which suggested that a deputation from the miners confer with Mr Hollis on the question. This was followed by another telegram on the 16th from the same gentleman: - "Having no notice of deputation attending, am I at liberty to make other arrangements for Monday? Reply." At the public request he had written to the Ecclesiastical Commissioners explaining the situation and advising the petition, and had received a reply from the Ecclesiastical Commissioners, in which they greatly deplored that causes beyond their control were likely to lead to a stoppage of

the ironstone mines, and stated that the subject was one which would engage the anxious attention of the Commissioners, and that any memorial that might be forwarded would receive their careful consideration. He now called upon the deputation who said they were received by the manager courteously, and fully discussed the crisis with the result that Mr Hollis expressed the sincere sympathy of the company with their miners and all affected by the compulsory suspension, and pointed out that through circumstances altogether beyond their control, the demand for pig iron made wholly or part of Weardale ironstone had become very limited, and that they could not hope to dispose of by sale and use in the iron works any quantity that would suffice to keep the mines in operation to the extent represented by the continuous employment of a comparatively small number of men. He further referred to the changed condition of their trade, which had led to the substitution of Siemens steel for the older wrought iron, a change which told seriously against the working of the Weardale ironstone, which was altogether inapplicable for the manufacture of steel. He was considering the question whether by stocking the ironstone they could avoid for the present the entire stoppage of the mines but the possibility of this he could not then definitely promise. (Applause) Mr Hollis also said that they had the lease from 1884 for 42 years and at a rental of £12090 per year. Mr Hollis then put the question. Had the petition gone? ("Yes, it has gone." and cheers). Mr Hollis said anything they could do to assist in getting their dues they would – (cheers) – and the petition would do them good as well as themselves. …

24th January 1891 (Hexham Herald)

WEARDALE

DEATH OF MR JOHN HALL

John Hall a native of Stanhope, died in Newcastle on Sunday (*18th inst. aged 50 years*). Deceased was well known and highly respected in Stanhope. For a long time he was an employee of the London Lead Company at their lead smelting works at Stanhope. He afterwards removed to Nenthead, where he acted as overman with both credit to himself and the Company, having earned the goodwill of both masters and men. Three or four years ago, he removed to Newcastle. ...

In 1851, at Crawleyside, John Hall, lead miner, aged 49, wife Hannah 46, children Matthew, highway labourer, aged 19, Margaret 12, John, lead miner, aged 11, Anthony 9, Joseph 5, Thomas 3, and visitor Richard Blades, ironstone labourer (furnace) aged 21.

In 1861, at Crawleyside, Hannah Hall, widow, washerwoman, aged 55, children Matthew, iron miner, aged 29, Margaret, housemaid, aged 23, John, iron miner, 21, Anthony, iron miner, 18, Joseph, iron miner, 16, Thomas, iron miner, 12, grandson John Allison 8, granddaughter Mary H Allison 4, and boarder Isabella Golightly, widow, pauper, confined to bed, aged 79.

In 1871, at Stanhope, John Hall, lead smelter, aged 31, his wife Anne 30, children John 8, George 6, Hannah 4, Mary 1, and boarder Emma Allinson, milliner aged 21 years.

In 1881, at Burn Bottom, Nenthead, John Hall, foreman at lead works, aged 41, his wife Annie 40, children John, engineman at lead works, aged 17, George, labourer at lead works, aged 16, Hannah 14, Mary 11, Margaret A. 9, and William 7. In 1891, at Northbourne, Elswick, Annie Hall, widow, aged 50,

children John Hall, general labourer, aged 27, George, hand driller, aged 26, Hannah, waitress in cocoa room, aged 24, Margaret, dressmaker, aged 19, William, telegrapher, aged 17, and boarder Thomas Peacock, widow, mill wright, aged 55.
In 1901, at Elswick, Annie Hall, widow, aged 59, daughter Margaret Hall, aged 29, son William, telegrapher, aged 27, boarders James Coulson, ordnance fitter, aged 22, Joseph Hall, ship telegraph fitter, aged 28, George Mason, hydraulic _____ fitter, aged 24, and Jackson Mason, time keeper, aged 22.

ROBERT DIXON

Robert Dixon, late of Stanhope, died last week (14th inst. aged 71 years) at Sunderland. Deceased was a lead miner and worked for years at the London Lead Company mines at Nenthead, and afterwards removed to Stanhope, where he laboured for years at the Limestone Quarries. He removed to Sunderland a few years ago, where he died last week.

In 1841, at Middleton in Teesdale, Robert Dixon, lead miner, aged 54, his wife Jane Dixon (Dowson, married 1st September 1821) aged 50, children Robert, lead miner, aged 17 (baptised 9th May 1824, at Middleton), Jane aged 9, and Hannah aged 5.
In 1851, at Banks Hill, Garrigill, Robert Dixon, lead miner, aged 27, born Middleton, wife Betsy (Johnson, married 28th June 1845, St John, Garrigill) aged 26, born Garrigill, children Mary 5, William 3, and Thomas 1.
In 1861, at Ashgill, Robert Dixon, lead miner, aged 37, wife Betsey 36, children Mary, house maid, aged 15, William 13, Jane 9, Thomas 7, John 4, Robert 2, and Edward Dowson 1.
In 1871, at Loaning Head, Robert Dixon, lead miner, aged 47, his wife Elizabeth 46, children Jane, house maid, aged 19, Thomas, lead miner, aged 17, John, lead miner, aged 15, Robert, lead miner, aged 13, Edward D. 11, Johnston 9, and Carr 8.
In 1881, at Albert Cottage, Stanhope, Robert Dixon, limestone quarryman, aged 57, his wife Betsy 55, sons Edward, limestone quarryman, aged 21, Johnson, limestone quarryman, aged 19, Carr, limestone quarryman, aged 17, niece Lizy J. Carruthers 6, son William, married, limestone quarryman, aged 33, daughter in law Mary 33, granddaughter Lizzy 3, and servant Lizzy A. Brown, scholar, general servant domestic, aged 10.

Marriages

Nenthead Primitive Methodist Chapel, 22nd inst., John Pattinson, Pry House, to Jane Hall, Post Office, Nenthead.

In 1871, at Low Dykeheads, John Pattinson, stonemason, aged 42, his wife Agness 36, children Sarah Ann 12, John 10, and Margaret 6. In 1881, at Pry House, Agnes Pattinson, stonemasons widow, aged 46, son John, lead miner, aged 20, daughter Margaret 6, and grandson George Pattinson aged 2.
In 1891, at Pry House, John Pattinson, lead miner, aged 30, and his wife Jane aged 27.
John Pattinson died April 1892, aged 31.
Jane Pattinson married Jonathan Thompson 1895
In 1901, at Whitehall, Nenthead, Jonathan Thompson, lead miner, aged 40, his wife Jane 37, children Hannah J 5, Joseph B 4, Ester A 3 months, and William H Pattison 9.
Hannah Jane Thompson, died 4th quarter 1908, aged 13.
A possible death for Jonathan Thompson is 1st February 1907, aged 45.

In 1911, at Whitehall, Nenthead, Jane Thompson, widow, aged 47, children William Hall Pattinson, lead miner, aged 19, Joseph Britten Thompson, labourer, aged 14, and Esther Annie Thompson 10.
See 19th April 1873, 5th December 1885, & 16th April 1892

Deaths

At Hillersdon Terrace, Nenthead, 17th inst., aged 22, Margaret, daughter of Joseph Thompson, lead mining agent.

William Thompson married Margaret Cowing, 25th May 1837, at St Augustine's, Alston.
In 1841, at Foulard, Nenthead, William Thompson, lead miner, aged 30, his wife Margaret 27, children, Matthew 3, and Joseph 1.
In 1851, at Spring Hall House, William Thompson, lead miner, aged 40, born Scotland, his wife Margaret 37, children Matthew, lead ore washer, aged 13, Joseph 11, John 9, Ann 6, Agnes 5, and Mary 2.
William Thompson, died 2nd quarter 1858.
In 1861, at High Dykeheads, Margaret Thompson, lead miners widow, aged 47, children Joseph, lead miner, aged 21, John, lead miner, aged 19, Ann, dressmaker, aged 16, Agnes 14, and Mary 12.
In 1871, at Dykeheads, Joseph Thompson, lead miner, aged 31, his wife Mary aged 28, children William 7, Margaret 2, and Agness 1.
In 1881, at Hillersdon Terrace, Joseph Thompson, lead mine agent, aged 41, his wife Mary 38, children William, lead ore dresser, aged 17, Margaret 12, Agnes A. 11, Mary 8, Alice 7, Amelia 4, Sarah J. 2, and Joseph 2 months. In 1891, at Hillersdon Terrace, Joseph Thompson, lead mine agent, aged 51, wife Mary 48, children William, blacksmith, aged 27, Agnes Ann, milliner, aged 21, Mary 18, Amelia 14, Sarah Jane 12, Joseph 10, Matthew Walton 8, and Kate 5.

31st January 1891 (Hexham Herald)

Deaths

Holmfoot, Nenthead, 24th inst., aged 50, Edward Hudspith, woodman.

In 1881, at Fair Hill, Edward Hudspeth, foreman woodcutter, aged 69, born Hamsterly, (died 2nd quarter of 1891, aged 79) his wife Hannah 70, born Middleton, daughter Elizabeth Scott, widow, house assistant, aged 50, born Middleton, son Edward wood cutter, aged 40, born Middleton, and grandson Thomas E. Scott 11, born Middleton.
See 20th June 1871, 27th June 1891 & 18th July 1896

7th February 1891 (Hexham Herald)

Marriages

Alston, St Augustine's Church, 3rd inst., William Holmes to Margaret, 2nd daughter of the late Matthew Robson, Low Farnberry.

In 1881, at Garrigill Gate, Elizabeth Holmes, widow, aged 82, sons George, boot & clog maker, aged 45, and William, lead miner, aged 41.
Elizabeth Holmes was buried at Garrigill 29th October 1885, aged 87.
In 1871, at Low Farnberry, Matthew Robson, labourer (in all previous census listed as a lead miner), aged 60, born Coanwood, his wife Hannah (Pickering, married 29th April 1837, Alston) aged 57, born Alston, children, William, carter, aged 23, Margaret 30, Ralph, lead miner, aged 17, Alfred 13, and granddaughter Nora Robson aged 2.

Matthew Robson died 3rd May 1877, aged 66. See 12th May 1877
In 1881, at Low Farnberry, Hannah Robson, widow, laundress, aged 67, children Margaret 40, William, cartman, aged 33, Ralph, general labourer, aged 27, Alfred, general labourer, aged 23, and granddaughter Jane E. N. Robson 12.
In 1891, at Front Street, Alston, William Holmes, shoemaker, aged 50, and his wife Margaret aged 50.
Margaret Holmes died 5th October 1895, aged 54.
See 18th December 1841, 8th June 1878, 9th December 1882, 4th March 1893, and 12th October 1895.

Deaths

New York, 16th ult., aged 38, Henry Salvin Gill M.D. Second son of the late Railton Gill M.D. Alston.

14th February 1891 (Hexham Herald)

WEARDALE

SERIOUS ACCIDENT

On Tuesday night, Wm. Bell, Weardale was working at Rookhope lead mine when a "lump" of stone fell upon him causing serious internal injuries in the region of the lungs. Dr Hewitson, St John's would not permit his removal to his distant home and the poor fellow still lies in the mine shop. Bell is a well-known lightweight wrestler, and much sympathy is felt for him.
See 11th July 1891

21st February 1891 (Carlisle Express and Examiner)

FATAL ACCIDENT AT PATTERDALE LEAD MINES.

On Monday Mr. Wilson, coroner for Westmorland, held an inquest at the Greenside Mines, Glenridding, Patterdale, on the body of Thomas Pollock, 44 years of age, who met with his death on the previous Friday by falling down a shaft.—Robert Slee, banksman at the shaft top, said he was working with the deceased, who was a waggon ____, at the 40 fathom. They were engaged at the trap door and witness was working the windlass. Whilst deceased was pushing the left hand door back he slipped forward and fell down the shaft, which was about 20 fathoms deep. Witness to at once reported the accident to the engineman, and afterwards went down the shaft, at the bottom of which he found the body of the deceased, quite dead. There was a large wound on deceased's left temple. The jury returned a verdict of accidental death, and recommended the mining company to place protecting gates at the entrance to the shaft.

21st February 1891 (Hexham Courant)

Deaths

At Bloomsbury, Nenthead, 12th inst., aged 72, William Rutherford, lead ore washer.

25th February 1891 (Teesdale Mercury)

WANTED, Four or Six good LEAD MINERS for **SCARGILL MINE**, near Barnard Castle, Men with boys preferred. Also TO LET, the DRAWING OF THE WORK. —Apply to ISAAC WALTON, Bowes, by Darlington.

4th March 1891 (Teesdale Mercury)

AN important advertisement in our last issue calls prominent attention to the **SPANHAM LEAD MINES** *(Miners wanted at Scargill Mine).* The outside world apparently knows nothing of this sequestered spot, and, in the hurly-burly of things, probably cares as little. But any enterprise, which furnishes employment for local, labour at all times commands our best attention. Certain changes are being made in working the undertaking, Mr Milligan, late manager, as we are informed, succeeded Colonel Bainbridge as superintendent in Upper Teesdale. The Spanham Lead Mines are situate in a ravine among the hills, at the northern base of the Stang. The distance from Bowes is about two miles, and, years ago; the undertaking was in the hands of Messrs. Leggett and Company. The proprietor of the royalty Sir Talbot Clifford Constable, Bart., of Scargill Lodge and Holderness. In the way of weighing big works, this concern cannot be viewed as an extensive thing. But it is to be worked, and that is saying a good deal as the lead world wags commercially. The directorate are advertising for men. They are publicly letting the drawing of the work. True, the yield at the first was not large. Twenty years ago it used to average about two and a half bings per month, and the workmen, of whom there were but few, earned about £3 per month each. At that time the greater portion of the ore was sent to the Gaunless Mill, a distance of ten miles to be smelted. The change, which has come over the lead trade in the meantime, is marvellous. Where are now the Gaunless Smelting Mills? At Spanham the lead-ore is found in the “twelve-feet limestone,” and was reached by a level extending three hundred and twelve fathoms into

the hill. At the time of which we write a second level had also been driven, extending one hundred and seventy fathoms, but at first, this was unproductive. The latter level was ventilated by a shaft twenty fathoms deep, and it is a most extraordinary fact that, in piercing, shale or “Plate” the thickness of forty-two feet was cut through. This has often puzzled local geologists, and especially the old school of thought in Teesdale, who have invariably worked upon the lines OF the late MR H. T. M. Within, of Lartington Hall. It is almost impossible to treat this question without this identical leadership. The father of the present generous proprietor of the Lartington estate—Mr Henry Thornton Maire Witham —somewhere in the year 1831, laid the foundation stone of a museum, in which he placed an extensive collection of geological and mineralogical specimens. He was a great and distinguished geologist, and, in his day, put an end to a good deal of nostrums with reference to the geological formation of Durham County. It is well that his works survive him. The lode, or vein, which dips from north-west to south-east, at the Spanham Mines, has always been supposed to be a continuation of the vein found in Arkingarthdale, on the other side of the Stang. The ancient workings, in the immediate vicinity of this mine, must have been of singular extent and importance, and the numerous springs of water have been utilized in a remarkable degree for the purpose of “hushing,” that being the mode by which the metal has been brought to light. The engineering skill brought to bear in this connection is as unique as it is commendable. The contriving is, indeed, of the first order of merit, with much toil and patient assiduity the water was conveyed in winding channels, from the highest summits, for the formation of the reservoirs by which the hushing was accomplished. It is a romantic spot. On the very top of some of the lower hills, more than above a thousand feet above the level of the sea, these dams or reservoirs were constructed, which is shown by the remains of the embankments, and the force of water is exhibited in the vast chasms in the hillsides, from which hundreds of tons of stone and soil have washed into the valley. There is here trace of the old adventurers.

A huge trench had been dug across the moor; presumably in the hope of baring the vein and the excavated earth, together with the now half-filled trench, have been overgrown with heath for centuries. On a minute examination it will be found that on the heights bordering the Ellerbeck—a stream running a tortuous course amid the ranges of hills—are a number of shallow pits, which have been used apparently for smelting purposes, and it is asserted that actual “slag ” has been found near them. These pits are termed “bloomeries,” and seem to have been employed universally for the smelting of metals when dense forests apparently covered the face of the land. It is even speculated that luxuriant woods grew where are now desolate moors. …

7th March 1891 (Newcastle Courant)

THE LATE MR BAINBRIDGE

The funeral took place at Stanhope Church on Saturday afternoon of the late Ralph Bainbridge, for many years a well known and highly esteemed resident. Deceased was for a number of years an employee of the London Lead Company at their Bolihope Mines.

In 1871, at Stanhope, Ralph Bainbridge, lead miner, aged 46, children Jane 16, George 10, and Mary Margaret 8.

In 1881, at Quaker Square, Stanhope, Ralph Bainbridge, lead miner, aged 54, his wife Hannah 41, son George, clerk, aged 20, step children William Hill, labourer, aged 15, John Hill 12, Elizabeth Hill 11, and James Hill 9.

7th March 1891 (Hexham Herald)
Deaths
Alston, Factory House, 1st inst, aged 29, John William Ritson, son of the late Joseph Bell, Mohope, Allendale.
John William Ritson Bell, was manager of the Alston Stocking factory, owned by a Mr Storey, he died suddenly from a burst blood vessel, he had been suffering from Phthisis.
Alston 3rd inst., aged 56, George Holmes.
George Holmes a boot and clog maker, originally a native of Garrigill.

14th March 1891 (Newcastle Courant)
DEATH OF A WELL KNOWN STANHOPE MAN AT DARLINGTON
Thomas Archer, late of Stanhope, and well known both in that locality and Teesdale, has just died at Darlington, in the sixty-fourth year of his age. Deceased for the greater part of his life was a lead miner for the London Lead Company, both in their Weardale and Teesdale mines. In later years, he also worked at the Stanhope Burn Lead Works. He removed with his family to Darlington a few years ago. He was widely known and well respected.
In 1841, at Eggleston, Ann Archer 55, John 30, Hannah 25, Thomas 21, William 19, Richard 15, Mary 15, and Ann 2.
In 1851, at Bishoply, Thomas Archer, lead miner, aged 32, his wife Elizabeth (Dent, married 1st quarter of 1842, at Middleton) aged 32, children Mary A. 8, William 6, Thomas 4, John 2, and Catharine 11 months. In 1861, at Stanhope, Thomas Archer, lead miner, aged 41, his wife Elizabeth 41, children Mary A. 18, Thomas, labourer, aged 14, John 12, Elizabeth 8, Catherine 6, and Jane 4. In 1871, at Stanhope, Thomas Archer, lead ore smelter, aged 51, his wife Elizabeth 51, children John, lead ore smelter, aged 21, Elizabeth 19, Jane 14, and William 9. In 1881, at Union Square, Frosterley, Elizabeth Archer, married, aged 61, son William, telegraph clerk "civil service", Methodist local preacher, aged 19, granddaughter Elizabeth Jane Martin 7, son in law Ozom Heatherington, limestone quarryman, aged 25, married daughter Jane Heatherington aged 24, and grandson John Heatherington 9 months. Thomas Archer was visiting his daughter, at 3 Railway Terrace, Marske, Yorkshire, William Martin, railway porter, aged 27, his wife Catherine 26, children George 6, Robert J. 6 months, and visitor Thomas Archer, blacksmiths labourer, aged 61. In 1891, at Eldon Street, Darlington, William Archer, clerk at post office, aged 29, his wife Elizabeth I. aged 28, and his mother Elizabeth Archer, widow aged 71.

14th March 1891 (Hexham Herald)
ALSTON
RURAL SANITARY AUTHORITY
There had been two deaths from influenza in the Alston district during the previous year. Dr Short's report for the previous year, for No. 2 district (Garrigill & Nenthead) showed 41 deaths, or at the rate of 20.5, the highest rate for ten years. Phthisis was more prevalent than might have been expected considering the high situation and the pure and rarefied air. Some thing of this he believed

was due to consanguineous marriages. There had been 45 births at the rate of 23.7 per 1000.

Marriages

Stanhope Church, 7th inst., Featherstone Martindale, West Ferry Field Farm, Stanhope to Miss Mary Hannah Martin, daughter of Robert Martin, Stanhope.
In 1891, at Front street, Stanhope, Robert Martin, rural postman, aged 63, born Norfolk, his wife Sarah 64, born Allendale, daughter Susan 25, son in law Featherstone Martindale, fireman to locomotive, aged 25, and married daughter Mary H 27.

Deaths

Alston, 10th inst., aged 44, Willis second son of John Little, blacksmith.
In 1881, at 6 Little's Buildings, John Little, black & white smith, age 62, wife Ann 62, children Willis, black & white smith, age 34, John, black & white smith, age 26, and Jane, house maid, aged 22.
Alston, Grains House, 11th inst., aged 98, Phillis widow of John Teasdale.
See 14th April 1865, and 10th September 1892
Alston, Town Foot, 12th inst., John James infant son of Thomas and Mary Jane Teasdale. *See 12th July 1890*
Overwater, Nenthead, 11th inst., aged 74, Richard McGuiness, Hawker.
An inquest gave the verdict of death by starvation for Richard McGuiness.

28th March 1891 (Hexham Courant)

Marriages

At the Wesleyan Chapel, Alston, 21st inst., Joseph Teasdale Cail, Blacksmith, Nenthead, to Sarah Ann Hetherington, Hill Top, Nenthead.
In 1871, at Hill Top, Matthew Hetherington, lead miner, aged 42, his wife Mary aged 40, John, blower at the mines, aged 13, Sarah Ann 11, Frances M 7, son in law William Lee Hornsby, lead miner, aged 22, and lodger, Thomas Elliott, clerk to lead smelting works, aged 23. In 1881, at Alston Workhouse, Richard Dixon, master of the workhouse, aged 61, his wife Mary, matron of the workhouse, aged 54, daughters Emily I. assistant matron, aged 21, Margaret, assistant matron, aged 20, and visitor Sarah A. Heatherington, dressmaker, aged 21.
Matthew Hetherington died 4th quarter 1895, aged 67.
In 1871, at Homefoot, Joshua Cail, lead miner, aged 50, born Stanhope, his wife Sarah aged 46, and son Joseph T 8.
Joshua Cail died 2nd quarter 1876, aged 57.
In 1881, at Hillersdon Terrace, Sarah Cail, widow, aged 54, and son Joseph Cail, blacksmith, aged 18. In 1891, at Hill Top, Joseph Teasdale Cail, blacksmith, aged 28, and his wife Sarah Ann aged 31. In 1901, at Hill Top, Joseph T Cail, blacksmith, aged 38, his wife Sarah A 40, children Clarence 9, Winnie 6, and Alice 3. In 1911, at Wardway Foot, Nenthead, Joseph T Cail, labourer on dressing floor, lead & zinc mines, aged 49, his wife Sarah A 40, children William Clarence, labourer, aged 19, Winnie 16, and Alice 13.
See 31st December 1870

28th March 1891 (Hexham Herald)

WEARDALE

Sudden Death Mrs Mary Vickers, living at Huntshieldford, near St John's Chapel, was found lying dead on the floor of her residence on Tuesday

forenoon. Deceased was in her 68 year. … Heart disease is supposed to be the cause of death.

THOMAS CRAWHALL

The death is announced of Mr Thomas Crawhall, of The Square, Stanhope, an old and respected inhabitant, and a representative of an ancient local family. … He was representative and local agent for the Weardale Iron and Coal company for many years and upon his retirement he was succeeded by his son John Crawhall the present agent. The deceased gentleman had attained the age of 75 years. *See 6th March 1886*

4th April 1891 (Hexham Herald)

Deaths

Alston, Kings Arms Lane, 30th ult., aged 53, Esther wife of John Lowe, miner.

In 1851, at Front Street, Phoebe Lowe, unmarried, domestic duties, aged 40, son John, lead miner, aged 18, nephew Thomas Lowe, lead miner, aged 42, and nephew John Lowe, lead miner, aged 29.

In 1861, at Thirlwells Lane, John Lowe, lead miner, aged 28, wife Esther 23, and daughter Jane Ann 4. In 1871, at Butts, John Lowe, lead ore miner, aged 38, his wife Esther 33, and daughter Jane A. 14.

In 1881, at Thirlwalls Lane, John Lowe, lead miner, aged 48, his wife Esther 43, daughter Jane Ann, domestic servant, aged 24 and visitor Hannah Clint, dressmaker, aged 48.

In 1891, at Thirlwalls Lane, John Lowe, widow, lead miner, aged 58, and daughter Jane Ann, domestic servant, aged 34.

ALSTON

A WORKMAN AND HIS JUBILEE.

Mr Anthony Martindale is one of the oldest and most experienced blacksmith in the employ of the Lead Company at Nenthead, and last week he celebrated his jubilee having completed his 50 years of service. Although residing at Alston, Mr Martindale has regularly travelled the distance between Nenthead and Alston twice a week, and sometimes more. So that he will have traversed over some 3000 miles the only system of locomotion used being “shankums pony.” …

In 1871, at Butts, Anthony Martindale, blacksmith, aged 58, and his wife Hannah 55. In 1881, at Butts, Alston, Anthony Martindale, married, blacksmith, aged 68, and Robert, lead miner, aged 36. In 1891, at Butts, Anthony Martindale, blacksmith, aged 78, his wife Hannah 75, and son Robert, lead miner, aged 46.

NORTH GREENHURTH LEAD MINE.
It is stated that an important discovery has been made in North Greenhurth lead mine. The agent of the mine writes, stating that he has cut the Lady Rake vein in the Grasshill mine. He has commenced to rise on it, and is now seven feet up into the limestone, and the vein looks well in the top of the rise. It is worth from 1 to 1½ tons per fathom, and steadily widens and improves in value as the rise goes up into the limestone. He also states that he is perfectly satisfied now that he is to have a going mine at Grasshill.

30th May 1891 (Hexham Courant)
NENTHEAD
FIND OF LEAD ORE AT GRASSHILL
It is refreshing in the general poverty of local mines to have to report, as the result of lengthened exploration by the Green Hurth Co., the cutting of a very promising vein at Grasshill. The Nenthead and Tynedale Co. are now paying good dividends but these are evidently more due to zinc than lead.
MEETING OF LEAD MINING COMPANIES AT NEWCASTLE
THE GREEN HURTH LEAD MINING COMPANY
The annual meeting of the shareholders of this company was held on Thursday afternoon, in Newcastle upon Tyne. The sum of £1,723 standing to the credit of profit and no dividend declared was animadverted upon by the shareholders, who thought it should have been divided, and a call made for the further development of mining. It would have kept up the price of shares for those who wanted to sell. The chairman (Mr Cameron Swan) said it was not their business to make markets for people who wanted to sell shares. They were to take charge of the property, and do the best they could for it. The cash stated was not exactly in hand, but had gone to the plant account. They had struck a rich vein, and the results were promising. The report was adopted and the directors re-elected. A meeting under the same chairmanship was held of the shareholders of the North Green Hurth Mining Company Limited. Complaint was made that the sinking of a new mine for their company had cost £4,700, more than double the estimated cost. The chairman said it seemed to bear out the saying that a mine was a hole to put money into, but the troubles met in sinking had led to extra expenditure. They had now a going concern at Grasshill, there being two tons of ore per fathom, with 80 percent of lead and seven or eight ounces of silver. The shareholders were advised to live in hope. The cost of raising the ore was £7 11s 8d, and it sold at the mine for £8 13s. The report was adopted.
Deaths
Ashgill, 22nd inst., aged 66, Thomas Stout, late of Force Green, Garrigill.
In 1841, at High Shield Hill, John Stout, lead miner, aged 40, George Stout, lead miner, aged 21, John Stout, lead miner, aged 15, Thomas Stout, lead miner, aged 15, and Betsy Stout 8. In 1851, at Force Green, John Stout,

widow, lead miner, aged 52, son Thomas, lead miner, aged 26, daughter Betsy 17, and house servant Mary Dobson aged 48.
In 1861, at Force Green, Joseph Bowman, lead miner, aged 36, his wife Betsey 27, house servant Mary Dobson aged 56, and brother in law Thomas Stout, lead miner, aged 36. In 1871, at Force Green, Thomas Stout, lead miner, aged 46, and aunt, Mary Swindle, widow, housekeeper, aged 65.
In 1881, at Force Green Thomas Stout, lead ore washer, unmarried, aged 56.
In 1891, at Mid Ashgill, Emerson Thomason, single, lead miner & small farm, domestic servant Ann Swindle aged 48, and boarder Thomas Stout, single, aged 66. See 22nd January 1864, 10th June 1864, 19th December 1874, 13th May 1876, & 27th April 1889.

11th July 1891 (Hexham Herald)

WEARDALE

DEATH OF A WELL KNOWN WEARDALE WRESTLER.

On Thursday Mr Wm. Bell, Hill Farm, Weardale, died at the age of 58. Deceased who had been in ailing health consequent on his early calling of lead mining was well known 25 years ago as one of the best 9½ stone wrestlers of his time. … After his return from America where he won many prizes, Bell started sheep farming at the above farmstead. … Deceased leaves a widow and two sons and daughter, the sons being well known athletes.
In 1861, at Cows Hill, Heathery Cleugh, William Bell, lead miner, aged 32, his wife Elizabeth aged 28, daughters Ann 4 (born Canada West), and Mary 1 (born Stanhope)

In 1871, at Hill, Heathery Cleugh, William Bell, lead miner, aged 42, his wife, Elizabeth 38, children, Anne 14, Mary 11, William 8, Frances 6, and Emerson aged 2.
In 1881, at The Hill, William Bell, lead miner, aged 52, his wife Elizabeth 47, children William, ironstone miner, aged 18, Emerson 11, and Elizabeth 9
In 1891, at The Hill, Heathery Cleugh, William Bell, farmer, aged 63, his wife Elizabeth 58, children Emerson, lead miner, aged 21, Elizabeth 19, grandsons, Emerson Bell, lead ore washer, aged 14, and Henry Peart 3.
In 1901, at The Hill, Elizabeth Bell, widow, living on her own means, aged 68, grandsons, Emerson Peart, railway porter, aged 24, and Harry Bell 13.
See 14th February 1891

Deaths

Stanhope (at the residence of her daughter Mrs Joseph Curry) age 83, Hannah Stephenson.

In 1841, at Bolts Hope Mill, John Stephenson, lead miner, aged 30, his wife Hannah aged 25, children Isaac 8, John 5, and Mary 4. In 1851, at Whiteheaps, John Stephenson, lead ore miner, aged 46, his wife Hannah 40, children Isaac, lead ore miner, aged 19, John, lead ore miner, aged 16, Mary 14, Hannah 7, Jane 4, lodger Robert Elliott, lead ore miner, aged 20, and lodger George Bell, lead ore miner, aged 19.
In 1861, at Whiteheaps, John Stephenson, lead ore washer, aged 57, his wife Hannah, aged 51, and daughter Jane aged 14.
In 1871, at Stanhope, Hannah Stephenson, widow, aged 61, visiting married daughter Mary Cleunel aged 34, granddaughter Hannah Jane Cleunel 1, boarder Elizabeth Currey 5, and boarder Matthew Currey, unmarried, ironstone miner, aged 31. In 1881, at Front Street Stanhope, Joseph Currey, grocer & beer dealer, aged 36, his wife Jane 34, mother in law, Hannah Stephenson, widow, annuitant, aged 71, and niece Elizabeth Curry aged 16.
In 1891, at Front Street Stanhope, Joseph Currey, ale and porter merchant, aged 47, his wife Jane 45, mother in law, Hannah Stephenson, widow, aged 82, nephew in law Joseph Wearmouth, married, labourer and cartman, aged 28, and niece Elizabeth Wearmouth, married aged 26.

18th July 1891 (Hexham Courant)

Deaths

Strellas, Nenthead, 13th inst., aged 32, Sarah Ann, wife of Tom Hewitson.

In 1881, Tom Hewitson, married, railway labourer, born Allendale, was lodging in Appleby, his wife and daughter were visiting at Green Ends, Alston, in 1881, at Green Ends, George Rutherford, lead miner aged 24, his wife Jane aged 22, daughter, Annie aged 10 months, visitors Ann Hewitson, (Rutherford, married 4th quarter of 1874, Hexham) labourers wife, aged 30 (died 1st quarter of 1885 aged 33), Margaret Ann Hewitson aged 6 (In 1891, working as a servant for Joseph Dalton & family at High Allers, Heathery Cleugh, Stanhope), and Diana (Dinah) Hewitson aged 4.
In 1891, at Strellas, Thomas Hewitson, lead miner, aged 36, his wife Sarah A. (Pattinson, married 2nd quarter of 1889, Alston) aged 31 (died 4th quarter of 1891, aged 32), children Dinah 13, Thomas W. 6, Mary J. 1, stepsons George Pattinson 12, and William Pattinson 9. In 1901, at Chapel Street, Appleby, Tom Hewitson, widow, labourer, aged 45, and Thomas W. Hewitson, postman, aged 16.

At High Cow Gap, Alston, 14th inst. aged 34, Sarah Short, daughter of the late John Jackson. *See 15th June 1889. Married Thomas Short, 2nd quarter of 1882, Stockton, Durham. In 1891, at Low Dinsdale, Durham, Thomas Short, steel worker, aged 36, born Melsonby, Yorkshire, England, his wife Sarah aged 34, and son Edwin (Edward?) Short 4.*
The 1901 census shows Tom remarried, in 1901, at Darlington, Florence Street, Thomas Short, fireman at Sta. boiler, aged 46, (born Melsonby) wife Harriet 54, sons Edward 14 (born Dinsdale), Harry 11, and visitor William Marshall, horseman at farm, aged 28.

29th July 1891 (Teesdale Mercury)

ALSTON'S DECADENCE.
THE LEAD MINING INDUSTRY.

A contemporary says: —The results of our local census is nothing less than astounding. A decrease in population of course had been counted on, but the decrease was generally calculated at some 600 to 800 on the returns of 1881. It was supposed that the rate of decrease from 1871 to 1881 might possibly have been maintained; no one calculated it would have been accelerated. The rate, however, proves to have been accelerated most seriously. The decrease in 1881 was 1,059, on a population at the previous census of 5,680. The last census shows a decrease of 1,237 on a population in 1881 of 4,621, thus bringing the present population to 3,384. The decrease, in fact, in the first decade was at the rate of 19 percent. the diminution in the second 27 per cent. Had the first rate not been accelerated the decrease would have been some 870; it is, in fact, 1,237.
Some of the causes of this rapid depopulation of course lie on the surface; other causes are a little abstruse. It is common to say that the Alston mines are exhausted, and to the extent that this refers to the surface lead ore veins we grant that the assertion contains a strong substratum of truth. It can, however, hardly be held to be true as a general statement. There is still a considerable production of lead ore, and there is little doubt that this production could be very largely increased did prices revert to those ruling a generation ago. When the production of Alston lead was at its highest, very few mines would have paid at the prices ruling to-day; consequently the output would not have approached the actual yield. Still a reversion to old prices would not give us old productions. Nothing has been stumbled on of late equal to the finds in the Rodderup and Hudgill veins. There may possibly be an exception in the case of North Greenhurth, which promises well, though this mine cannot be said to be more than in the promising stage. It was once calculated that Alston had an exhaustless reserve of lead, at greater depths than it had been customarily worked, but explorations underneath the Whinsill have gone far to dispel this view. It is too much the fashion to forget, however, that the locality has much mineral wealth, besides its lead. Present prices militate against the working of some minerals, notably of copper ore, but the market favours others, as for instance blende, the output of which has increased owing to the high price of zinc. The district is very rich indeed in iron ore of good quality, and it is just possible that with through railway communication to Weardale or Teesdale, there may be a large accession of population in the shape of iron ore-miners. Coal is a mineral which promises to rule high in the future, and the possibility is that the anthracite seams which crop out in all the Alston bills may be worked

more extensively when the bituminous seams lower down the Tyneside Valley are wrought out. These, however, are only the possibilities of the future, A probability is that the locality will become the sanatorium for the crowded population of the lower Tyne, Tees, and Wear, and with this view Alstonians might give a helping hand to nature in improving the scenery and conveniences of the locality. Many a bare hillside of comparatively little value for gracing purposes might have a belt of plantation. If the working of other minerals than lead is not to be extended and the locality does not extend as a resort for visitors, even a greater diminution of population may be looked for.
It may be paradoxical to say so but some part of the diminished trade of Alston is due to the formation of the local railways. It will be readily granted that the Midland takes many fellside farmers to Carlisle or Appleby who previously attended Alston market. What is not so generally realised is that the railways into the other dales—Allendale, Weardale, and Teesdale—have drawn many from Alston to Hexham, Newcastle, and Darlington. It cannot, from an economic point of view, be argued that Alston would have been more prosperous had her own railway not existed, because without the railway the produce of her mines would have cost more to place on the market, and the mines would have been worked in even a less degree than now; and yet in some measure the railway tends to reduce the population as it employs very few hands compared with the numbers employed in the carrying trade, when all the produce was conveyed in carts or on horseback. It would seem, then, hardly logical to advocate an extension of railways, and yet in such extension lies almost the only hope of seeing prosperity return to the district. Direct railway communication with the Middlesbro' Furnaces, for instance, would pretty certainly lead to Alston iron ore and limestone being supplied to the hives of industry on the lower Tees.

1st August 1891 (Hexham Herald)
Deaths
Nenthead, Hillersdon Terrace, 28th ult., aged 82, Mary widow of John Robson, joiner. *In 1891, at Hillersdon Terrace, John Robson, joiner, aged 41, born Weardale, his wife Mary 39, born Weardale, children William, joiners apprentice, aged 14, born Weardale, George 11, born Alston, Joseph 7, born Alston, Sarah Annie 5, born Alston and mother Mary Robson, widow, aged 81, born Weardale.*
See 11th May 1889.

8th August 1891 (Hexham Courant)
Deaths
At Alston, 2nd inst., aged 68 Agnes daughter of John Leathart, mining agent deceased.
In 1841, at Hill House, John Leathart, (son of James Leathart, & Agnes Dickinson who married 1st July 1792?) mine agent, aged 45, his wife Margaret (Seatree, married 4th May 1816, Alston) aged 45, children Agnes 15, Margaret Anne 11, John D. 8, and William 6. John Leathart, mine agent died 1st quarter of 1845.
In 1851, at Gallowgate, Lead Works, James Leathart, lead merchant, aged 30, mother Margaret Leathart, widow, annuitant, aged 58, sister Agnes Leathart, annuitant, aged 26, brothers John D., grocers apprentice, aged 18, William, lead merchants, clerk, aged 15, and general servant Ann Reay aged 20.

In 1861, at 11 Framlington Place, Newcastle, George Pellot, post master, post office, 39, his wife Mary 42, children Jane Mary 10, Julia Anne 6, Katherine M 4, Charles George 3, Maude M. 1, servant Mary Ann Anderson, nurse maid, aged 24, cook Isabella Barrow, aged 23, servant Isabella Charlton, house maid, aged 18, servant Sarah Ann Hunter, aged 23, servant Mary Patterson, aged 40, mother in law Margaret Leathart, widow, aged 69, sister in law Agnes Leathart aged 36.
In 1881, at Front Street, Crown Hotel, Robert G. Gordon, licensed victualler, aged 36, his wife Elizabeth A. 31, son Laurence A. 3 months, boarder Agnes Leathart, annuitant, aged 56, and domestic servant Margaret Code aged 18.
In 1891, at Front Street, Thomas Hodgson, stone mason, aged 54, wife Frances 54, sons William, postman, aged 26, Thomas, stocker for locomotive, aged 21, niece Emily Turner 23, boarders John Butterley, railway engine driver, aged 58, Agnes Leathart, living on her own means, aged 68, and John Cowen, shoe maker, aged 51.
See 25th January 1845, 20th August 1847, and 17th August 1895.
At High Lee House, Tynehead, Alston, 2nd inst. aged 61, Christopher Hetherington, quarryman.
At Clitheroe, Alston, 3rd inst. aged 49, Edward Kirsopp, road surfaceman.
Had been "foreman of the employees on the highways and roads of Workington". Died at his sisters residence in Alston.

29th August 1891 (Hexham Courant)

WEARDALE

A GLOOMY PROSPECT

The notices of the employees of the Weardale Iron Company expired on Thursday, and the whole of them, excepting the caretakers, are thrown idle. In the evening, the men held a meeting in the Town Hall, St John's, when the action of the Company was freely canvassed. Considerable sensation was created by the unexpected suspension of the Lead miners also at Grove Rake, Rookhope and Greenlaws by the Lead Company, who assign as the reason the accumulation of "bouse" at the former and water at the latter workings. Some 200 men are now out of employment, and with the retarded hay harvest exposed to the wet, cold weather, the outlook is the gloomiest known for many years, being rendered more acute by the curtailed operations in Teesdale of the London Lead Company, whose Weardale workmen have been discharged.

Marriages

At Stanhope Primitive Methodist Chapel, 22nd inst. Mr Wm. Barkas, Crawleyside, Stanhope, to Miss Mary Lowes, Allendale.
At the Primitive Methodist Chapel Alston James Rutherford, Bloomsbury, Nenthead, to Hannah Vickers, Chesterfield, Haydon Bridge.

29th August 1891 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

The Nenthead Medical officers report for the quarter ending June was read, which showed the death rate had been 19.1 per annum, on a population of 1675 at last census and which gives a decrease of 225 for the last ten years. The

number of births was 7, which gives an average rate of 16.7. The report urges the adoption of the Compulsory Notifications of Diseases Act. There was a widespread epidemic of Influenza of a mild form. The medical officer also notifies that he had made a house to house visitation and drawn attention to several defective sanitary arrangements at Nenthead and the condition of a house at Overwater. In Garrigill 300 yards of earthenware pipes (3 inches) have been laid down in place of the old iron pipes.

Deaths

Overwater, Nenthead, 26th inst., aged 53, Robert Sanderson, lead ore washer.

Ralph Sanderson married Mary Atkinson, 20th June 1835, at St Augustine's, Alston.

4th September 1891 (Carlisle Patriot)

DEATH ON THE HIGHWAY NEAR ALSTON

A man named Robert Sanderson, 53 years of age a foreman washer at the Nenthead and Tynedale Mine Works, was found dead _____ the highway at Nenthead. He had called at the home of Mr Snowdon on Tuesday night, and left about nine o'clock. As he did not arrive home a search was made, and his body was found about half past one in the morning. Dr Masterton attributed death to heart disease, and an inquest was not considered necessary.

5th September 1891 (Hexham Herald)

WEARDALE

LEAD MINES

A number of workmen in the employment of the Weardale Lead Company at the Grove Rake, and Greenlaws lead mines have been temporarily discharged owing, it is said, to the difficulties connected with the working of the mines from the accumulation of ore which cannot be quickly enough dealt with by the washing and dressing apparatus.

12th September 1891 (Hexham Herald)

WEARDALE

Mrs Ann Dixon, late of Sunnybrow, near St John's Chapel, died last week at Kirkcaldy, Scotland at the advanced age of 81 years.

Mrs Ann Byers late grocer &c. of Daddry Shield, died very suddenly early on Tuesday morning aged 54 years.

CLOSING OF THE WEARDALE MINES

A number of men left the dale on Monday in quest of employment at other places, Weardale being much depressed. Other found employment at the limestone quarries at Stanhope and Frosterley.

FATAL QUARRY ACCIDENT AT STANHOPE

A sad fatal accident occurred on Monday at the Newlandside limestone quarry at Stanhope. Whilst Isaac Wales was charging a hole or shot to blast the rock, and had nearly completed the charge, it exploded and threw him over the quarry face and he fell some thirty feet. … Deceased was a steady and much respected single young man about 36 years.

In 1881, at Front Street, John Wales, boot dealer employing 1 man, aged 48, his wife Frances 46, children Isaac, limestone quarryman, aged 25, Thomas Cuthbert, locomotive engine stocker, aged 23, John George, stone mason, aged 20, William, tailor 18, and Mary Annie 10.

In 1891, at Dales terrace, Frances Wales, widow, boot & shoe dealer, 56, children Isaac, limestone quarryman, aged 35, Thomas C., quarry bank rider, aged 33, and Mary A. 20.

19th September 1891 (Cumberland & Westmorland Herald)

AGRICULTURAL SHOW.

NENTHEAD

The 16th annual show of cattle, horses, sheep, &c., was held on Saturday last, in exceptionally fine weather. There was an average attendance of visitors. The stock exhibited was of excellent quality, taking into consideration the situation of the village, which is out of the way. The success of the show depends very much upon the energy of the residents, and they are to be congratulated upon being able to put forward the stock that was exhibited on Saturday. In the open class Mrs. Carr and Sons, Garrigill, exhibited a shorthorn bull which was considered the best animal shown in the ring at the show. For shorthorn bulls above one year old confined to the district, Mrs. Bright, Hudgill, took first, and for cows in milk or in calf Mrs. Bright also secured first with an animal which has been placed first for some years in succession. In blackfaced sheep Mrs. Graham & Sons took the lead in prizes. Mr. Emerson Peart took first prize for draught horses, and two special prizes with the same animal. In the open classes for ponies Mr. Charlton, Weardale, was awarded first prize with a fine

two-year-old. In the same class Mr. Charlton was commended for a chestnut mare, which has won a host of prizes. He also secured second prize in foals in two instances. The three animals took six prizes at the Weardale Show. The arrangements were carried out under the superintendence of a committee, and with the secretary, Mr. Robert Graham. Dinner was served in the band room. After the removal of the cloth, the usual toasts were proposed. The chair was occupied by Councillor Richardson, Alston, and the vice-chair by Mr. J. E. Richardson, Coatlith Hill, Alston.

26th September 1891 (Hexham Herald)
Marriages
At the Independent Chapel, Alston, 20th inst., Thomas Robinson, Overwater, Nenthead, to Mary Thompson, Hillersdon Terrace, Nenthead.

WEARDALE

DEATH OF MRS BRIGHT

Mrs Mary Bright wife of Mr Richard Bright of the Kings Arms and Commercial Inn, St John's Chapel (Late of Cowshill Hotel) died on Saturday aged 57 years.

3rd October 1891 (Northern Echo)

DEATH OF THE " TEESDALE POET."

Richard Watson, known as the "Teesdale Poet" died yesterday at Edinburgh Infirmary, whither he had gone to undergo the operation of amputation. He was well known, not only in the dale district, but throughout the North of England as a writer of considerable power, and his poems have obtained a wide circulation amongst all classes. Of late years the poet was in reduced circumstances and a long illness, with which he had to contend his latter days.

5th October 1891 (Northern Echo)

THE LATE RICHARD WATSON

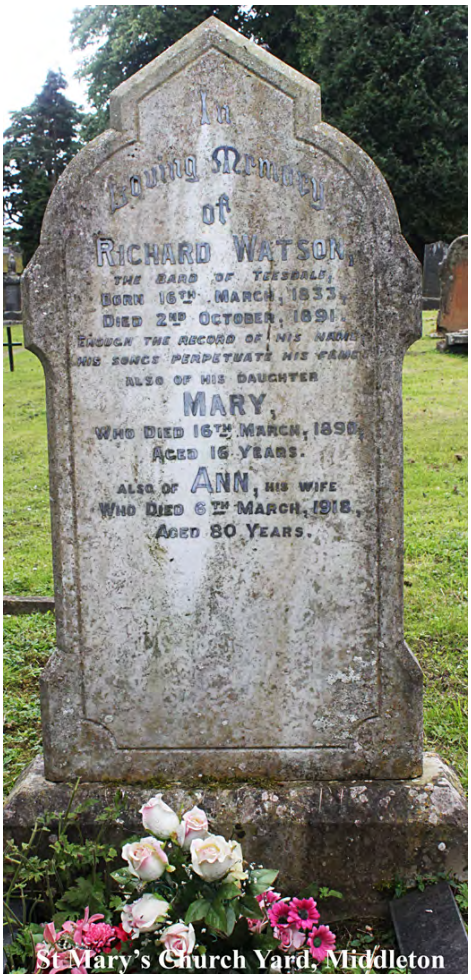
Sad, very sad, are the circumstances of the death of Richard Watson, the Teesdale poet. His life, indeed, was sad. A miner, born 60 years ago, the son of a miner, with true poetic gifts, and loving his native hills and woods as only' a poet could, his career has been one long struggle with terrible poverty. Death was the result of an accident to his foot, since the accident, now nine months ago, he has been bedfast; has undergone two amputations, and suffered great agony and depression of mind. From some stanzas addressed to Mr Henry King Spark—the last he ever wrote—we extract the following: —

Blythe summer now is on the wane;
The beauties of its genial reign
Have all bean lost to me.
Green fields, green woods, and shady bowers,
Clear rippling streams and lovely flowers,
Alas I can not see.
I often from my window look
On a green mead close by;
Though but a poor restricted view
'Tis pleasant to the eye,
It charms me; it warms me,

And gives my mind relief;
It lightens and brightens
My load of woe and grief.

The last remains of the poor poet are to be brought to Middleton for interment. It were, indeed, an act of sacrilege almost to lay them in any other spot. The funeral will take place on Tuesday after the arrival of the 12:45 train from Darlington.
The expenses of the interment must be borne by generous friends. I trust my readers may pardon me foe reminding them of this fact, and for stating that Mr Henry King Spark, of Startforth, Barnard Castle, will thankfully receive any proffered help.

In 1841, at New Town, Middleton, William Watson, lead miner, aged 40, his wife Rebecka (Walton, married 17th June 1824, Middleton) aged 40, children Mary 10, Richard 8, Martha 5, and William 2.
In 1851, Middleton, Rebeca Watson, widow, aged 51, son Richard, lead miner, aged 18, and daughter Martha 14.
In 1861, at High Dyke, Middleton, Richard Watson, lead ore dresser, aged 28, his wife Ann (Brumwell, married 3rd quarter 1857, Teesdale) aged 24, children Rebecca 3, and Elizabeth A 1.
In 1871, at Leadhills, Scotland, Richard Watson, lead miner, aged 38, his wife Ann 32, children Rebacca 13, Lilly 11, and Margaret 6.



St Mary's Church Yard, Middleton

In 1881, at Holwick, Teesdale, Richard Watson, lead miner, aged 48, his wife Ann 43, children, Elizabeth Ann 21 (married John Watson, 1st quarter 1885, at Teesdale), Margaret 16 (born Frizzington, Cumberland), Mary 9 (born Lead Hills, Scotland), Martha 6 (born Paisley, Scotland), and Rebecca 3 (born Holwick).

In 1891, at California Row, Middleton, Richard Watson, general labourer, aged 58, his wife Ann 53, daughters Martha 15, Rebecca 12, and grandson Richard Watson 4. In 1901, at Hude, Middleton, Ann Watson, widow, aged 65,m and grandson Richard Watson, limestone quarryman, aged 14. In 1911, at Hude, Middleton, Ann Watson, widow, aged 73, grandson Thomas Watson, putter in coal mine, aged 20, and servant Winifred Shield, aged 19.

17th October 1891 (Hexham Courant)

COTTAGES TO LET

PATTERSYKE AND CLARGILL HEAD MINING COMPANY LIMITED.

AT an Extraordinary General Meeting of the Members of the above named Company, duly convened, and held at the Company's offices, 25, Westgate-road, Newcastle-upon-Tyne, on the 19th day of October, 1891, the following Extraordinary Resolutions were duly passed: —

1. "That it has been proved to the satisfaction of this Meeting that the Company cannot, by reason of its liabilities, continue its business, and that it is advisable to wind up the same, and accordingly that the Company be wound up voluntarily.

2. "That Alfred Thomas Winship, of Newcastle-upon-Tyne, Shipowner, and Charles Webster Harrison, of Newcastle-upon-Tyne, Accountant, be and are hereby appointed Liquidators for the purposes of such winding up."

DEES and THOMPSON, Newcastle-upon-Tyne; Solicitors.

5th November 1891 (Newcastle Evening Chronicle)

SHOCKING DEATH OF A BOY NEAR HAYDON BRIDGE.

An inquest was held, this afternoon, at the Wheat Sheaf Inn, Haydon Bridge, before Mr. J. R. D. Lynn, coroner, on the body of Thomas John Hetherington, who was fatally crushed by a clutch at a chats mill at Langley Baronny Lead Mines near Heydon Bridge, on Tuesday.—William Hetherington identified the body aa that of his son, aged 13 years who had worked a month and a day at the Langley Baronny Mines.—Mr. J. Philipson was called, and and said he was present, along with Dr. Callender, when the boy died.— Thomas William Charlton, 15 years of age, said:—I work at the lead mines. On Tuesday morning, the deceased was taking cuttings from the jigger at the Leadbitter chatt mill. I was putting in the chatts. Between 7 and 8 o'clock I went past the clutch, where deceased was crushed, to get some grease for the deceased. He followed me, and hearing him shout, I turned, saw him disappearing between the clutch and the beam. I ran and stopped the engine, and seeing I could not get him out, I ran and sought Mr. Forster. I did not see him get his foot in, but when he shouted I saw the clutch pulling him in. I had to step over the clutch to get the grease, and the box was over the clutch. The deceased must have displaced the box in coming over it, or he could not have got his foot in. I have never known the box to be off. — Robert Forster said he was master washer at the mines. On Tuesday, he was called by the boy Charlton, and on going to the chatt mill, be found the deceased boy fast in the clutch, and his head and body underneath. The machinery was stopped, and they had to lift the clutch and cut away part of the flooring before they could get him out. He would be in that position for about three-quarters of an hour. His legs seemed to be brocken, and his body crushed. Witness asked him how it happened, and he replied that he was going past the clutch to get some grease.—By Mr. Hedley, mines inspector: Had that boy or any other person any right to go over that clutch?—Not when the machinery waa in motion.— Mr. Hedley: Why was the grease there?—I think some of the boys had hidden it. All the machinery was properly protected.—The jury returned a verdict of accidental death.

Mines Inspectors Report:
Name: Thomas Hetherington
Death Age: 13
Death Date: 3 Nov 1891
Death Place: Haydon Bridge, Northumberland, England
Occupation: Lead ore dresser
Colliery: Langley Barony (metalliferous)
Owner: Bewick and Partners
Notes: Crushed by machinery. The grease box had been placed by another boy on the far side of the shafting and as deceased was going for it he displaced the covering of the clutch bearing and his foot catching he was dragged in receiving injuries which resulted in death. The place was fenced off and deceased had no business there. Inspection made and inquest attended. 7.30 am.
William Hetherington married Alice Susan Brown 2nd qtr 1876, registered at Hexham.

ALSTON

MINING LOOKING UP

It is announced that Mr Thomas Dickinson, of Spency Croft, has cut an excellent vein of Zinc ore at Haggs mine. For years, Mr Dickinson has been an indefatigable speculator in mines, and should this vein prove as productive as reports aver. ...

A new company has been formed, and have commenced operations in the Taylors Grove mine, and we believe it is their intention to make several more trials in the district.

Marriages

WEARDALE

QUARRY ACCIDENT AT FROSTERLEY

A sad but singular accident occurred on Wednesday to a Stanhope woman at White Kirtle near Frosterley. Mary Rutherford widow of the late George Rutherford, who was killed in America a little over a year ago, was on the road to see a friend at White Kirtle and when passing the limestone quarry a shot was fired and a stone from it fell with great force on her head seriously fracturing her skull. She was conveyed home and medical aid procured. She lies in a very precarious condition. *See 6th September 1890.*

Marriages

19th December 1891 (Hexham Herald)
THE WEARDALE LEAD MINING COMPANY

The ordinary general meeting of shareholders.
... In a word, the whole gist of the matter lay in the fact that the mines had continued poor, and had been really poorer than they had been for some time. The result had been that they had raised less by 11,000 tons than any previous

year. That fact would account for the difference in the statement of accounts, as against the profit shown last year. Then again, they had to take into account the decline in the price of lead, the importations from Australia having caused a depressed market, which had continued ever since. Had it not been for this importation of Australian lead, of course, the price of the Weardale Company's lead would have been very much higher, and he was certain that under such circumstances the company would have been in a very flourishing condition today. ... They had great hopes that the extensive and important works at Sedling, now nearing completion, would prove a very good paying mine. With regard to the question of royalties, they had had Mr Porter and Mr Lindsay Wood down at the mines, and the results of the visit of these gentlemen had been that the company had obtained some concession amounting to a reduction by the Ecclesiastical Commission of nearly £2,000. If the present price of lead obtained, proceeded the chairman, the company certainly could not afford to go on working on the royalties, which they had paid to the Commissioners. They believed however, that on further representations being made to the Commissioners still more valuable arrangements would be conceded, as the directors did not intend to expend the shareholders money in developing the dale alone. They would certainly not go further on, unless they got a considerable abatement of the Commissioners terms which it was only reasonable to expect, as he could not see why they should expend one sovereign to get another merely to keep the dale going for the benefit of the Commissioners. The result would be that if the Commissioners did not make some abatement the dale would become depopulated, as had happened in the case of the iron trade.

Marriages

Alston Independent Chapel, 13th inst., William Seatree, Alston to Jane Richardson, Overwater, Nenthead.

Joseph Seatree son of Sarah was living with his grandparents in 1841; at Kates Lane, William Seatree, lead miner, aged 60, his wife Sarah 60, children, William, lead miner, aged 25, Ann 15, John, lead miner, aged 15, William, lead miner, aged 15, and Joseph aged 6.

9th February 1892 (Penrith Observer)

THE INQUEST

An inquest was held on Wednesday at the Black Ball Inn Dufton, before Mr. T. Wilson, coroner for East and West Wards of Westmorland, when the following evidence was adduced:
William Holmes said: I am assistant miller at the **Dufton Barytes Mill**. I identify the body of the deceased as that of **Thomas Parkin**, the miller there. He was 25 years of age. Yesterday morning about seven o'clock the deceased and I went down to the mill together. I commenced to work at the top, feeding the mill, and the deceased went amongst the machinery for the purpose of oiling it. At half past eight, I, from the kiln, saw the deceased go into the mill again. At twenty minutes past nine I went Into the mill, it being then our lunch time. I did not see Parkin. I looked out of the door to see if there were any foot-prints in the snow, which was fresh fallen, but I did not see any. I went back into the mill and looked about; lighted a candle, and looked amongst the machinery, and found the body of the deceased fixed to the driving axle, and revolving with it. He had no doubt been caught by his clothes by the axle whilst endeavouring to pass it The space between the axle and the protecting rail against the wall would be about two feet. I at once ran and turned the water off. I was quite convinced that the deceased was then dead. I afterwards went up to the village, and meeting Mr. Gibson, the manager, I reported the circumstances to him. Deceased told me that morning that he had had a bad night with his teeth. He had often been troubled with toothache, and I did not think anything about it. It was not customary for deceased to go into the machinery every day, but he occasionally did so. Our instructions were to oil the machinery before it was put into motion.
William Gibson said I am the manager of the Dufton Lead Ore end Barytes Mining Company, and I live at Dufton. I heard of the accident at the Mill from the last witness about 10-15 yesterday morning, and I went at once to the place. I found the clothing of the deceased wrapped round the shaft, and the body attached to it. The revolution of the shaft would carry the body with it. I think the deceased's clothes had become entangled in the shaft in his attempt to pass it, and that he was on his way to make an examination of the spindle. I first cut through the clothing, which was very tightly lapped round the shaft, and, with the assistance of others, removed the body. I then found that the lower extremities of the body had been literally dashed to pieces.
The Coroner having briefly summed up, the Jury found that deceased had been "Accidentally caught by the revolving shaft of the Barytes Mill wheel, and instantly killed." Deceased, who was single, was a very steady young man, and a greet support to his aged parents, for whom much sympathy is felt.

Joseph Parkin married Ann Ellwood 12th May 1847, at Dufton
In 1861, at Dufton Mill, Joseph Parkin, Miller, aged 44, his wife Ann 34, children, Betsy 13, Nancy 12, John 6, and Mary J 4.

WEARDALE

DEATH OF THOMAS PEADON

Early on Wednesday morning week (3rd February), Mr Thomas Peadon died from Pneumonia, at his residence in St John's Chapel, at the age of 55. The deceased dalesman took a prominent part in the mining crisis of 1872 and 1882, and was an authority on all matters connected with mines and lead mining. Of late he devoted himself to farming and cattle dealing.

IN LOVING MEMORY OF
THOMAS PEADON
OF ST JOHN'S CHAPEL
WHO DIED FEB. 3RD 1892
AGED 56 YEARS
"IN THE MIDST OF LIFE WE ARE
IN DEATH"

In 1871, at Grain, Thomas Peadon, lead miner, aged 32, brother Isaac, lead miner aged 24, and nephew Joseph aged 9. In 1881, at Grain, Thomas Peadon, unmarried, aged 44, and niece Mary J. Peadon, servant, aged 20.

12th March 1892 (Hexham Herald)
Deaths
At Knockshield, Allendale, 28th ult., aged 76, Mary, widow of the late William Glendinning.
In 1841, at Woodhead, Allendale, William Glendinning, lead miner, aged 20, his wife Mary (Charlton, married 16th November 1839, Allendale) aged 25, son John 1, and Jacob Robson, independent, aged 75.
In 1851, at Woodhead, Jacob Robson, widow, landed proprietor, aged 85, William Glendening, lead miner, aged 33, his wife Mary aged 35, children John 11, and Mary 9. In 1861, William Glendinning, farmer of 5 acres & lead miner, aged 43; wife Mary aged 45, and son John Ag. Labourer, aged 21. In 1871, at Wooley Green, William Glendinning, farmer of 29 acres and lead miner, aged 53, wife Mary 54, and grandson John W Dawson 10.
In 1881, at Wooley Green, William Glendenning, jobbing labourer & farmer of 26 acres, aged 63, wife Mary 65, and grandson Thomas D. Glendenning 4.
William Glendinning died 4th quarter 1886, aged 69, registered, at Hexham.
In 1891, at High Knock Shield, John Glendinning, farmer, aged 51, wife Sarah Jane 39, son Thomas Davidson 14, and Mary Glendinning, living on her own means, aged 75.
Sarah Jane Glendinning died 3rd quarter 1895, aged 43.
In 1901, at Knock Shield, John Glendinning, widower, farmer, aged 61, and son Thomas D, Ag Labourer, aged 24. In 1911, at Knock Shield, John Glendinning, farmer, aged 71, son Thomas Davidson, working on the farm, aged 34, and sister, Mary Dawson, widow, house keeper, aged 69.
At Hudgill near Alston, 6th inst. aged 75, Elizabeth, widow of John Hymers.
On 15th April 1839, John Hymers married Elizabeth Coulson, at Alston.
In 1841, at Foreshield, John Hymers, lead miner, aged 25, his wife Elizabeth 20, children Hannah 3, and Sarah 1.
In 1851, at West Foreshield, John Hymers, lead miner aged 37, his wife Elizabeth 36, children Hannah 13, Sarah 11, Robert 7, Thomas 4, Jonathan 2, and William 4 months.
In 1861, at Hudgill, John Hymers, lead miner aged 47, his wife Elizabeth 45, children Hannah 23, Sarah 21, Robert 17, Thomas 14, Jonathan 12, William 10, Elizabeth 8, John 6, Emmerson 3, and nephew, Joseph Hall 9 years.
John Hymers died 2nd quarter 1862.
At Hudgill, in 1871, Elizabeth Hymers, widow, farmer of 40 acres, aged 55, her unmarried children Robert lead miner 26, Thomas lead miner 24, Jonathan lead miner 22, William lead miner 20, Elizabeth 18, John 16, and Emerson 13.
In 1881, at Hudgill, Elizabeth Hymers, widow, farmer of 26 acres, aged 65, children Elizabeth, domestic servant, aged 26, and Emerson, Ag. Labourer, aged 22. In 1891, at Hudgill, Elizabeth Hymers, widow, farmer, aged 76, and son Emerson, farmer, aged 30.
See 25th May 1878, and 28th September 1878.
At Ivy House Garrigill, 7th inst. aged 43, Sibyl, wife of Nicholas Anderson.
See 1st May 1869, & 15th February 1890.

19th March 1892 (Hexham Herald)

FROZEN TO DEATH ON THE WEARDALE MOORS

An inquest was held at Crawleyside, near Stanhope, on Saturday, by Coroner J. T. Proud, on the body of John Liddle, aged 43, who was found frozen to death on the railway between Crawley Engine and Weatherhill on the previous Thursday morning. From the evidence it appeared that deceased, who had been in India five or six years, and who had not worked since his return to this country, came to Stanhope on the Wednesday to seek some medicine for his father, with whom he resided at Waskerley Village. He left Dr Livingstone's surgery about five o'clock without waiting for the medicine, and was afterwards seen in Stanhope much the worse for liquor. Between six and seven o'clock he was seen by Mr John Littlefair, of Crawley Engine, making his way up the incline towards Weatherhill, He then showed signs of being drunk, but witness thought; him capable of getting home, as there was not much snow on the ground, although there was an intense frost, and it was bitterly cold. Next morning deceased's body was found by a platelayer named Robert Smith, about three-quarters of a mile further up the incline than where he was last seen by J. Littlefair. He was found lying on his back with his hands folded over his chest; as if he had lain down to fall asleep. Dr Livingstone said death resulted from exposure to the intense cold, and the jury returned a verdict accordingly. Deceased's body had been conveyed to his brothers house at Park Head, where it was viewed by the jury, who, with the coroner and Supt. Snowdon, experienced considerable difficulty in reaching the place, owing to the snow. The funeral took place at Stanhope Church on Saturday afternoon at four p.m.

In1891, at Waskerley, John Liddell, clerk to the N. E. Railway Co., & sub post master, aged 73, born Lanchester, his wife Ann aged 76, born Langley, son John, attending his invalid mother, aged 42, born Conside and Knitsley, Durham, grandson, William Lowes, clerk to N. E. Railway aged 18, and grandson John Lowes aged 9.

HOW THE STRIKE WILL AFFECT WEARDALE. — How the strike will affect Weardale will be gathered from the fact that there are ten quarries at Stanhope and Frosterley, which employ over 500 men. It is the staple industry, and some 900,000 tons of limestone are quarried, and sent away to the furnaces for flux purposes. The furnaces being damped down for want of coal preclude the possibility of much demand for Limestone. So that already the influence of the strike is being felt, as several of the quarries were closed on Monday morning until further notice, while at others some two or three days a week meets the demand, but if the strike continues it is expected they will be closed. The quarry supplying Consett was stopped on Tuesday until further notice. Every day numbers of men are walking about in enforced idleness. Grave fears are entertained that the present lack of coal in the dale will necessitate a stoppage of the lead works at Rookhope. On Tuesday the price of the limited stock of coal at the Westgate depot of the Weardale Iron Company was raised to £1 1s 10d per ton. Many homes in the western extremity of the dale are reported to be without coals, causing suffering and anxiety in the existing severe weather. The Wolsingham Steel Works, it is also feared, will be partially, if not altogether, closed, as the notices expire this week, and unless supplies of coal can be obtained it is highly probable they will be closed.

FROM WEARDALE TO NEW ZEALAND

The following diary of a voyage from Weardale to New Zealand written by Mr Jacob Featherston has been forwarded to us for publication:

Having safely arrived at Dunedin I enclose you particulars of our passage.

I left home on October 5th and after bidding farewell to a few old friends at Stockton and procuring a passenger ticket on board the SS Ormuz, took train for London.

For the next three days I was sight seeing in the modern Babylon, and the chief scenes that linger in my memory are—Naval Exhibition, St. Paul's, National Gallery, Westminster Abbey. I might occupy the whole letter with an account of this great city, but will hasten on; and so, having said good-bye to my genial host and hostess, I wended my way to Fenchurch Street, the headquarters of the steamship company. We were soon conveyed thence to Tilbury Dock, where the tender was lying ready to take us on board the Ormuz, which was for the next few weeks to be the home (?) of 800 of us.

Passengers were allowed to have their friends on board for a while, and then the order was “visitors ashore." Then commenced a scene more easily imagined than described, and which is only witnessed on such occasions. Many and affectionate were the farewells that were taken, and long was held many a hand, the owner of which seemed to be perfectly aware that it might be the last handshake on earth. At last the gangway was raised, and then from each boat (such as were able) arose one loud " Hip, hip, hurrah," amid a waving of hats and handkerchiefs.

Having somewhat settled down from this exciting scene, we began to examine our new abode. Everything was remarkably clean and tidy, and in each of our bunks we found a couple of plates, a knife and fork, a spoon, a drinking tin, and two towels. The vessel is one of the finest in the line, and bears the record between London and Melbourne. She is named after an island, supposed by Milton to have been noted for its fabulous wealth.

> High on a throne of royal state, which far
> Outshone the wealth of Ormuz and of Iod.

We had just finished dinner when we felt the vessel moving, and from the deck we saw that we were quietly floating down the Thames. What a peculiar sensation creeps over one!

Oct. 10th. —Rose early, but not feeling very well, returned to bed. Rose again about 11 o'clock as we were nearing Plymouth. Having written and posted our letters we again steamed away, and at 6:10 p.m. the shores of Old England faded from our view.

Oct 11th. —This morning finds us in the Bay of Biscay, and the ship pitching violently, as were also most of the passengers. Eating was so much out of the question that the stewards declared they were having a holiday; but if they had holiday from one kind of work, sufficient for another and more disagreeable kind was prepared for them.

Oct. 12. —Found us still in the Bay and many of us still in bed, but the order was "Turn out, all," and much against my will but for my benefit, with a locomotion anything but graceful, I crawled on deck, where I lay all day, one among many the very picture of misery.

Oct. 13th. —A little better and tasted food, the first for three days.

Oct. 14th. —Rose early. Many had slept on deck. Everybody in good spirits, quite a contrast to the dismal facial expressions of the few previous days.

Perhaps the thought of spending a few hours at Gibraltar had something to do with it. The scenery was attractive too, and we were close to Trafalgar Bay, dear to all Englishmen's hearts. On landing at Gibraltar we were instantly besieged by the usual, “Want a guide, sir," "Take you all round, sir," but declined their services and strolled into the town. The signal station if 1,291 feet above sea level. The garrison forms the bulk of the population, the remainder being a mixed multitude of English, Spanish, Moors, &c. Our time was limited, and, purchasing a supply of fruit of which there is an abundance, we were rowed back to the ship. The Mediterranean was smooth, calm, and quiet in the evening the band ascended to the saloon deck, and many passengers indulged in dancing, whilst from various parts of the deck came the sound of the violin, harp, and melodeon.

Oct. 15. —This morning were to be seen the summer dresses and straw hats of those who were afraid of old Sol's rays. The ladies, too, brought out their workbaskets and the gentlemen their books, cards, &c, and all was a scene of busy enjoyment.

Oct. 18. -—We entered the harbour at Naples, and were favoured with a good view of Vesuvius, from whose lofty summit there arose a dense volume of smoke. From shipboard, the city presents a very, inviting appearance, and many of the passengers went ashore. After breakfast the mail boat name alongside, and letter reading became the order of the day. The tearful eye of many a reader told plainly that the sheet of paper with its closely written pages had brought to mind recollections of home and friends—dear but distant. It was evident that Sabbath-keeping was not a feature of Neapolitan character, for they crowded the deck pressing their merchandise upon us; and I was sorry to see English people patronising them on the Lord's Day. When a vessel is in port Sunday services are dispensed with, and it was a pleasant surprise when three ladies from ashore arrived who, with the Rev G. Gibbs, who is going to Dunedin, held a short service. We were invited by them to attend their little chapel at night. We readily accepted the offer, and were rowed ashore and back in their own boat. The Ormuz was lit up with the electric light, and presented in the twilight the appearance of what a pitman would call a "row of coke ovens."

(To be continued.)

Orient Line Postcard, Steam Ship Ormuz

26th March 1892 (Hexham Herald)

FROM WEARDALE TO NEW ZEALAND

Concluded

Oct. 19. —We were once more in motion, and in the afternoon entered the straits of Messina, whence a good view of Mount Etna is obtained. The scenery on each side is extremely beautiful, and it would almost seem they were vying with each other to attract the attention of passing vessels. But the Ormuz tore along with racehorse speed, evidently determined to atone, if possible, for time lost, and next day's record showed that she had made good for that day 356 miles.

Oct. 22. —This morning we entered Port Said, and were busily watching the coaling process, which is done by Arabs. Then we went ashore a couple of hours, and many were the curiosities that were bought as souvenirs of Port Said. We entered the Suez Canal, but our passage was very slow. The canal is too narrow to allow two vessels to pass each other, and so we had to moor several times.

Oct. 28. —At 11 a.m. we arrived at Suez, where we took on board large quantities of vegetables, especially cabbage and melons. Suez is the best place from which to make an excursion to Mount Sinai, during which the traveller must be prepared to live an Arab life.

Oct. 24. —Mr Hood, one of the second-class passengers, died to day, and at sunset the burial service for the dead at sea was read, the vessel slowed down, and the poor fellow was gently lowered into a watery grave. Another scene as solemn, but more weird and awful, was in store for us. The lightning began at first to flash only at intervals, but it gradually came nearer, and flash succeeded flash so quickly that the heavens seemed to be one mass of flame, and for miles around you could see objects as clearly as in broad daylight. It was a sight never to be forgotten, and possessed in it something fascinating as well as awe striking.

Oct. 25. —Sunday services—Catholics at 6:30 a.m. English Church, 10:45 a.m., and at 7:15 p m. the Rev J. Gillies, who is also going to Dunedin, preached from "What think ye of Christ?"

Nov. 1. —Since last Sunday the voyage has been almost devoid of interest. A good many lady passengers have been poorly. Weather dull and unhealthy. Services as usual.

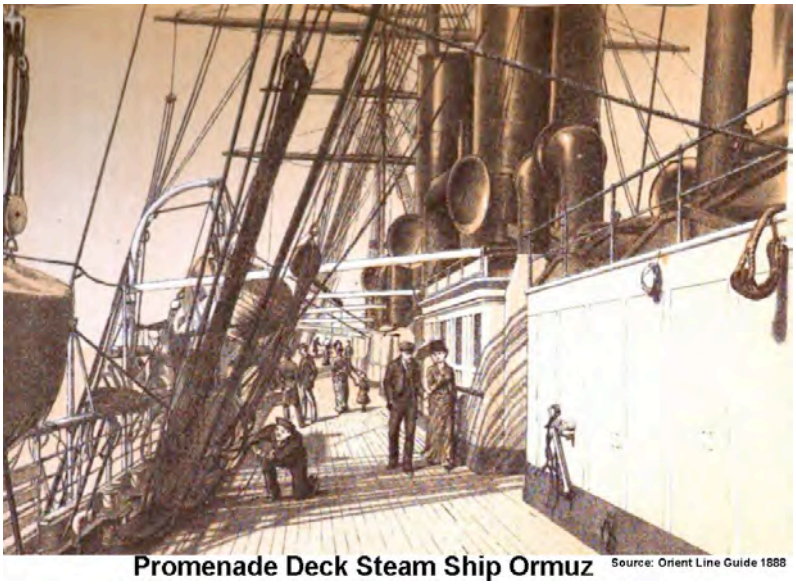
Nov. 2. —For some days we have been longing for Colombo. Many were anticipating the pleasure of experiencing for themselves the "spicy breezes of Ceylon's Isle," of which Bishop Heber sings so sweetly, and great was our disappointment when we entered the harbour amidst a. downpour of rain, such as only can be experienced in those regions. There was a plentiful supply of fruit, of which our store was exhausted. Just after sunset we were startled by the cry of "A man overboard," and hearing a splash I ran to the side, only to see that whoever it was he was perfectly at home in the water. It was one of the engineers who had a fancy for a bath in Colombo Harbour.

Nov. 3. —Our coal supply being replenished we steamed slowly away, followed by a number of boys crying "Divee, Divee," which they certainly do with astonishing alacrity, and catch the coin thrown into the water.

Nov. 4. —Crossed the line, but not subjected to the usual pranks.

Nov. 8. —Sunday always welcome—a break in a monotonous sea life.

Nov. 13. —Sighted west Australian coast, and anchored in Port Albany at 5:15 pm.' Left a few passengers, and took a few on board, who had come out in the summer-and broken their journey.
Nov. 15. —Collections, amounting to £16 17s, made at all services to day, in aid of Sailor's Orphanage
Nov. 17. —Anchored some distance from. Port Adelaide, but not allowed to go ashore.
Nov. 18. —It has been much warmer of late. Overcoats and cloaks have disappeared.
Nov. 19. —Moored alongside the wharf of Port Williamstown, Melbourne, 41 days distant' from Tilbury Dock. Many friends were impatiently waiting for the lowering of the gangway. It was quite a scene to watch the people running hither and thither, first asking one officer and then another for so-and-so. We will draw a veil over the tender meeting of some friends, but wonder what sort of conscience several of the young women possessed who had during the voyage flirted with nearly every steward on board, and were now affectionately greeting the men who had provided a home for them in the sunny south.
It would be tedious to give you in detail our movements the next six days in Melbourne, to tell of its rapid, growth in the 50 years of its existence, of its inhabitants, buildings, streets, and tramways, which, compared with the towns in the old country, are simply perfection. We heard Mr H. M. Stanley lecture on darkest Africa on the Saturday night. The great drawback to Melbourne is its sanitary arrangements. Sewers are unknown. Food is cheap. A dinner of four courses costs you sixpence. Taking the city upon the whole it is more American than English and is doubtless destined to play an, important part in the future history of the British Empire. Nay, it may be that Melbourne and not London will at some distant time be the metropolis of the British Empire.
Nov. 25. —The "Tarawera," our new home, left at 3:15. We are now travelling second class. Food is of better quality, and more temptingly served, and we get along fairly well. On the 1st December we arrived at Port Chalmers, but had the misfortune to run aground on a sandbank. However, after breakfast; we were rowed ashore, too train to Dunedin, and were soon amongst a host of friends who left Weardale 13 years ago. Here I leave off at present but may at some future time give you a further account of life in New Zealand.
Jacob Featherston.



Promenade Deck Steam Ship Ormuz Source: Orient Line Guide 1888

Passenger List Records Show:
Name:J FEATHERSTONE
Date of departure: 9 October 1891
Port of departure: London
Passenger destination port: Melbourne, Australia
Passenger destination: Melbourne, Australia
Date of Birth: 1865 (calculated from age)
Age: 26
Marital status: Single
Sex: Male
Occupation: Engineer
Ship: Ormuz
Master's name: W. E. White
Where bound: Sydney, Australia
Square feet: 7111
Registered tonnage: 6031
Passengers on voyage: 593
In 1871, at Rigg Foot, Heathery Cleugh, George Featherston, lead miner, aged 29, his wife Phoebe aged 28, and son Jacob aged 6.
In 1881, at Wellhope, Heathery Cleugh, Mary Coatsworth, widow, farmer, aged 58, children Fanny 18, Harriet 15, Joseph 13, and grandson Jacob Featherston.
In 1891, at Prospect Place, Norton, Stockton, Joseph Featherston, fitter, aged 33, his wife Mary A aged 30, children Lavina A 5, Emily E 1, and boarder Jacob Featherston, crane driver, aged 26 (all born at Stanhope).
New Zealand records suggest that Jacob became a Methodist Minister, and that he died June 1951, aged 86.

WEARDALE

CLOSING OF THE WEARDALE LEAD MINES.

Consequent upon the Pitmen's strike, the Weardale lead mines will be closed after Saturday.

16th April 1892 (Hexham Courant)

NENTHEAD

Sudden death of Mr John Pattinson of Pry House, Nenthead, died rather suddenly on Saturday morning last from inflammation of the bowels. He had to leave work on Thursday on account of illness and got gradually worse till the time of his death. Deceased was of a quiet disposition and was greatly respected. He leaves behind him a widow and one child.
In 1881, at Pry House, Agnes Pattinson, stone masons widow, aged 46, son John, lead miner, aged 20, daughter Margaret, domestic servant, aged 16, and grandson George Pattinson 2.
In 1891, at Pry House, John Pattinson, lead miner, aged 30, and his wife Jane (Hall, married 1st quarter of 1891, at Alston) aged 27.

ALSTON

DEATH OF MR CRAWHALL WILSON

We regret to announce the death on Monday night (25th) of Mr Thomas Crawhall Wilson, at his residence, Alston House. Deceased was the eldest son of the late Mr Isaac Crawhall of Nun-Monkton, Yorkshire. The family from which he descended was of old standing in the dales, and has been long connected with the lead mining industry. Mr Crawhall Wilson for a time was managing partner of Hudgill Burn and also Rodderup Fell, two of the most productive mines in the Alston Moor. For many years, he had been the managing partner of Coanwood Colliery, and of late, he had been Chairman of the Solway Iron Company, Maryport. He qualified as Cumberland county Magistrate in 1876. He adopted the additional surname of Wilson, and succeeded to the Nenthall Estate and other properties on the death of his uncle, Mr Wilson of Shotley Hall, in 1880. Deceased was for a number of years connected to the Alston Rifle Volunteers and attained the rank of captain. He was an ardent conservative, and held at his death the office of President of the Alston Union Club, and Ruling Councillor of the local Primrose League. Deceased was in his 66th year. Mrs Crawhall Wilson survives her husband, who leaves five sons and two daughters. *T. F. Crawhall Wilson born 29th December 1825 died 25th April 1892, buried in Alston cemetery. Sons were T. F. Crawhall Wilson, Rev Edmund L. Crawhall, Charles Crawhall, and Harry Crawhall*.

1st May 1892 (Hexham Herald)

WEARDALE EMIGRANTS

John Maddison of Daddry Shield and Thomas Nattrass, Ralph Nattrass and Thomas Maddison of St John's Chapel left their native dale this week for East London, South Africa.

Mrs J. Nattrass of the Kings Head Inn, St John's Chapel, who was lately thrown from a conveyance by the falling of a horse and was badly injured is now able to walk about.

DEATH OF STANHOPE QUARRY MANAGER.

William Wedgewood who for the last 20 years has been manager for Messrs Bell Brother at their Parson Byers limestone quarry, Stanhope died at his residence at that place on Monday last. … He leaves a widow and family to mourn his loss.

WEARDALE MINES RELIEF FUND.

Since the acknowledgment of subscriptions amounting to £44 14s the following have come to hand …

A further £17 9s had been contributed to the fund by various persons, the fund had been set up to relieve the hardship caused by the closure of the mines due to the lack of coal, a result of the pitmen striking.

6th May 1892. (London Gazette)

ALSTON MOOR MINING COMPANY LIMITED.

NOTICE is hereby given, that a General Meeting of the Members of the above named Company will be held at the offices of Thomas Bowden and Nephew, 42, Mosley-street, Newcastle upon Tyne, on the 18th day of June next, at eleven o'clock in the forenoon, for the purpose of having an account laid before them showing the manner in which the winding up of the Company has been conducted, and the property of the Company disposed of, and of hearing any explanation that may be given by the Liquidator; and also of determining, by Extraordinary Resolution, the manner in which the books, accounts, and documents of the Company, and of the Liquidator thereof shall be disposed of. —Dated the 4th day of May 1892.

THOMAS BOWDEN, Liquidator.

7th May 1892 (Cumberland & Westmorland Herald)

ALSTON.

This Board met on Saturday, Mr. Walton presiding.

THE FINANCES

The CLERK said he estimated the Poor Law expenses for the ensuing half-year at £769, and the sanitary and highway at £220. They had some balances, and precepts for £630 and £220 respectively would suffice. He was in a difficulty in estimating county rate, as he did not know whether it would be assessed on the new or the old basis.

Mr. Richardson—On the old. Have you exhausted the windfall from the County Council?

The CLARK—Yes

GARRIGILL CEMETERY.

A letter was read from Mr. Dent, clerk to the Burial Board, asking whether the Authority were satisfied on sanitary grounds with the proposed site of the Cemetery at Garrigill.

Some complaint was made that the Authority had not sufficient evidence on the point, but eventually it was decided to reply in the affirmative.

THE NOTIFICATION OF DISEASES ACT.

The CLERK said he had given the requisite notice to the members that the advisability of adopting this Act would be considered at the meeting.

Mr. Richardson said the Act had not in all cases worked well It was useless unaccompanied by isolation, for which there were no facilities amongst the poor. They had no local hospital, and families would not like their members forced away to distant hospitals and mixed up with all kinds of diseases. He thought they should defer the adoption of the Act until they had fuller information.
This was agreed to.

NENTHEAD WATER SUPPLY.

Mr. Bramwell moved that the Inspector be instructed to prepare plans and estimates of the cost of relaying water pipes from Nenthead Well to Gillgill Burn. The Clerk said to lay the distance with metal pipes would cost at least £300.
Eventually the Chairman, Mr. Pickering, Mr Holmes, Mr Harrison, and Mr Bramwell were appointed a committee to examine and report.

Marriages

At St John's Church, Nenthead, on the 1st inst., by the Rev. C. Berry, John Anthony Erwin, Whitehall, Nenthead, to Miss Elizabeth (Bessy) Milburn, Overwater, Nenthead.

In 1901, at Overwater, Nenthead, John A Erwin, stationary engine driver, aged 32, his wife Elizabeth 28, children, Thomas H 8, and boarders, Edward Bainbridge, lead miner, aged 28, born Patterdale, and James J Gibson, lead miner, aged 25, born Glencoigne, Westmorland.

In 1911, at 28 Goschen St., Cowpen, Blyth, John Anthony Erwin, coal miner, aged 42, his wife Elizabeth 38, and son, Thomas Howard, grocers assistant, aged 18.

See 28th January 1888

14th May 1892 (Cumberland & Westmorland Herald)

NENTHEAD NEWS.

Farmers in this district are bemoaning the absence of rain, which is very much required. Hay is a very scarce commodity, and this, together with the protracted drought, is having a very serious effect on stock and farmers generally. The severe cold weather has also been disastrous to lambs, numbers of which have died. Farmers cannot sell to profit, the prices being miserably low.

22nd May 1892 (Hexham Courant)

Births

At Alston 18th inst. the wife of Mr Wm. Seatree of a daughter.

Deaths

At Alston, 18th inst. aged 18, Furnace Pattinson

In 1881, at Front Street, Sarah Pattinson, widow, dressmaker, aged 45, son Furness (Henry?) Pattinson, aged 7. In 1891, Sarah Pattinson, widow, dressmaker, aged 55, and son Alexander F. aged 19.

22nd May 1892 (Hexham Herald)

WEARDALE

Miss Frances Dawson, daughter of Mr Joshua Dawson, evangelist of Pryse House, near St John's Chapel, left home on Tuesday noon en route to America.

See 6th November 1875, 25th March 1876, 8th February 1890, 2nd July 1892, 5th November 1892, and 21st October 1893.

4th June 1892 (Hexham Courant)

Marriages

At the Wesleyan Chapel, Nenthead, 2nd inst. Robert Wm. Armstrong, Overwater to Ruth Ann Thompson, Hillersdon Terrace, Nenthead. *(only daughter of Jonathan Thompson deceased)*

Robert Armstrong married Sarah Greenwell, 2nd quarter 1860, at Alston.
Sarah Armstrong died 3rd quarter 1869, aged 33.
In 1871, at Overwater, Robert Armstrong, widow, lead miner, aged 38, born Newcastle, children Leah 9, John Greenwell 7, and Robert W., 4.
Robert Armstrong married Nancy Hetherington 4th quarter 1875.
In 1881, at Overwater, Robert Armstrong, lead miner, aged 48, born Newcastle, his wife Ann aged 41, born Alston, children Leah 19, John G., lead miner, aged 17, and Robert W., lead ore washer, aged 14.
Robert Armstrong died 1st quarter 1884, aged 50.
In 1891, at Overwater, Nancy Armstrong, widow, aged 52, and stepson R W Armstrong, blacksmith, aged 24.
Ruth Ann Thompson died 22nd February 1899, aged 34, at Nenthead.
In 1901, at West Nenthead, Robert W. Armstrong, widow, blacksmith, aged 34, son Laurence aged 7, and sister Leah Armstrong, aged 38.
In 1911, at Nenthead, Robert Wm Armstrong, widow, sub postmaster, aged 44, son Lawrence, post office assistant, aged 17, and sister Leah Armstrong aged 49.
Robert W. Armstrong died 3rd quarter 1911, aged 45.

Deaths

At Sparty Lea, Allendale, 27th ult. aged 50, Thomas the beloved husband of Ann Sparke.

In 1891, at Sparty Lea, Thomas Sparke, farmer, aged 49, and his wife Ann 47.

At Love Lady Shield, Alston, 2nd inst. aged 77, Mary Ann, wife of Joseph Dickinson.

Joseph Dickinson, married Mary Ann Bell, 20th April 1840, at Alston.

At Alston Cemetery

To Hannah Bell relict of William Bell who died at
Love Lady Shield 4th September 1868 aged 77 years.
Also Thomas Lancaster Bell M.D. her son
Who died at Hingolee India 6th September 1854 aged 35 years
Also in memory of Joseph Dickinson of Love Lady Shield Alston
Who died 26th November 1895 aged 84 years
Also in memory of Mary Ann the beloved
Wife of Joseph Dickinson of Love Lady Shield
Who died 2nd June 1892 aged 77 years

11th June 1892 (Cumberland & Westmorland Herald)

FATAL ACCIDENT AT GREENSIDE.

On Thursday a sad accident occurred at the Greenside Lead Mine, Patterdale. While four men were engaged in sinking a shaft, a large iron bucket fell, hitting a young man named Christopher Jeffreys on the skull. He was carried home to his lodgings, where he died about four o'clock in the afternoon.

9th June 1892 Mine Inspectors Report (Source: Durham Mining Museum)

9:50 a.m., 4th hour of shift, aged 23, Sinker, while engaged with others in sinking a shaft the bucket became detached from the rope and fell down the shaft, a distance of 12 fathoms.

NO. 1 ON THE LIST OCCURRED AT GREENSIDE MINE, in Westmoreland, belonging to the Greenside Lead Mining Company, Limited, on the 9th of June, about 9.50 a.m., causing the death of **Christopher Jefries**, a sinker.

A shaft was being sunk from a level, and at the time of the accident was 12 fathoms down. The top was protected by means of a bogie, which ran on rails placed on two baulks, and when this bogie was over the shaft, one end of it was against a fixed batten, on the other side of which was placed a tram, the top being level with the bogie to take the kibbles from the shaft.

One of the men came out of the pit to empty the kibble ; one was sent out full of stones, the bogie ran under it, and then it was lowered.

The kibble was then moved, with the rope attached to it, on to the tram, and whilst this was being done, by some means the spring hook became detached and the kibble capsized, forced the bogie back out of its place and fell into the shaft, killing deceased instantaneously. How the spring hook, which was a good one, became detached has not been ascertained.

The bogie should have been provided with some means to fasten it, when it was over the shaft ; it is much safer to have the tram to run on to the bogie, so that the kibble can be detached, and run off at once, instead of at one side and level with the bogie, as it was in this case.

Christopher Jeffery Aged 23, was buried 11th June 1892, at Patterdale

11th June 1892 (Hexham Herald)

Marriages

Nentsbury, Primitive Methodist Chapel, 5th inst., Thomas Liverick Wilkinson to Phoebe Hindmarsh.

In 1901, at Grassley Well Row, West Allendale, Thomas L Wilkinson, farmer, aged 35, born Allendale, his wife Phoebe 34, born Allendale, and son William H aged 7.

Deaths

At the Loaning, Alston, on the 6th inst., Clara, wife of Arthur G. Wood, mining engineer, and daughter of the late Adam Walton, aged 26 years.

See 19th June 1875, 19th March 1887, & 15th September 1888

13th June 1892 (Northern Echo)

WEARDALE

The relief works at Westgate, St John's, and Ireshopeburn are being actively proceeded with to give employment to those idle, but the number has been reduced by the Lead Company reinstating a score or more of their miners. The committee are giving immediate relief to the most needy cases.

18th June 1892 (Hexham Herald)

ALSTON

On Wednesday morning, Mrs Walton and family late of the Blue Bell Hotel, left Alston en route for Sydney Australia. … Mr Walton (Landlord of the Blue Bell) having died some months ago, Mrs Walton decided to leave England for Australia. They sailed from London yesterday in the SS Ormus, of the Orient Line.

We were pleased to note the safe arrival in Alston on Thursday morning of the Rev. John Scott from America. It is close on 9 years since Mr Scott left Alston. After being engaged for a time at the oil wells, Petrolia, an opening was made for the employment of his preaching talents, the result being that for a number of years he has been in charge of a church at Minden City, Michigan. Mr Scott is the oldest son of Mr John Scott, Fair Hill View, Alston. His work during his stay at Alston will be undertaken by Mr John Thompson who left Nenthead some weeks ago.

See 1st October 1892, 2nd September 1893, 28th October 1898, 29th July 1899 & 12th January 1901.

Marriages

Alston Wesleyan Chapel, 11th inst., John Anderson, schoolmaster, East Stanley to Mary Armstrong, late of Ninebanks, Allendale.

Alston Primitive Methodist Chapel 16th inst., John Harrison, Nenthead to Hannah Hindmarsh, Nenthead.

In 1901, at The Row, Nenthead, John Harrison, lead miner, aged 48, born Alston, his wife Hannah 42, born Allendale and son Herbert 5.

John Harrison died 4th quarter 1909, aged 57.

In 1911, at Nenthead, Hannah Harrison, widow, aged 52, son Herbert, working on dressing floor, aged 15, and boarder, Thomas Coates, lead & zinc miner, aged 37.

Deaths

Alston, Golden Lion Hotel, 9th inst., aged 45, Walter Walmsley.

Alston, Front Street, 13th inst., aged 56, Thomas Hodgson.

In 1861, at Church Cross Terrace, Thomas Hodgson, stonemason, aged 24, born Ainstable, his wife Fanny (Borrow, married 22nd December 1859, at St Augustine's, Alston) aged 27, and son John 7 months. In 1871, at Front Street, Francis Hodgson, stone masons wife, aged 37, children John 10, William 7, Thomas 1, and niece Mary Elizabeth Turner 11 years.

In 1881, at Front Street, Thomas Hodgson, stone mason & confectioner, aged 44, wife Francis 46, sons John, stone mason, aged 20, William, stone mason unemployed, aged 17, and Thomas 11.

In 1891, at Front Street, Thomas Hodgson, stone mason, aged 54, wife Frances 54, sons William, postman, aged 26, Thomas, stocker for locomotive, aged 21, niece Emily Turner 23, boarders John Butterley, railway engine

driver, aged 58, Agnes Leathart, living on her own means, aged 68, and John Cowen, shoe maker, aged 51. See 24th December 1859

18th June 1892 (Cumberland & Westmorland Herald)

ALSTON BOARD OF GUARDIANS.

The fortnightly meeting was held on Saturday last. Members present were:—Messrs. H. Walton (chairman), J. Millican, T. Richardson, T. Nicholson, J. Dickinson, T. Harrison, G. Pickering, T. Bramwell, T. Walton, J. R. Walton.

Mr. RICHARDSON reported that the petition the Board in favour of the proposed St. John's Chapel Railway had been presented to the County Council. Their support had been given to it and it had been signed and forwarded to London the same day.

Mr. T. W. DICKINSON (Deputy Clerk) said he had received a copy of the County Rate Basis, which showed the Alston basis having been increased £4445 on the gross rental. The school attendance was given as follows:

	No. on Books	Average Attendance
Nenthead	131	131
Nenthall	44	38
Tynehead	20	15
Garrigill	55	49
Leadgate	30	27
Alston High	115	108
Alston Girls	51	41
Alston Infant	80	71

The usual half-yearly payments of £25 to the Governors of the Grammar School and £5 to Garrigill School were ordered to be made.

The Clerk intimated he had received a letter and statement of accounts from Mr. Bell, Secretary to Nenthead School. The letter stated that at a special meeting of the managers, which Mr. Holmes presided, the secretary stated that the school year was nearing completion and the meeting was called to give the managers a knowledge of the financial position of the school. Estimating the Government grant at 17s 6d. per head, the balance sheet showed that they could not meet the debit at the bank by £50 6s. 3d.,., which will be the amount to be made up as agreed at the ratepayers meeting in October. The whole of the Nenthead managers were against carrying on the school under the present management and resigned as members of the committee. The Clerk was further asked to convey the decision to the Education Department. The Clerk said it was the duty of the managers to communicate their resolution to the Department. The school account was at present overdrawn at the bank by £126 6s. 8d., the guarantee of £120 being thus exceeded.

The Chairman said that some steps would have to be taken to meet the liabilities. The Alston managers were liable for two-thirds of the deficit.

The Clerk said that the proper course would be to have a full meeting of the managers and let them decide on their course of action and communicate with the Education Department.

It was decided that a meeting of the Alston managers should be held on Wednesday in the Board Room, to decide on their course of action.

Deaths

At Holmsfoot, Nenthead, on the 12th inst., Hannah Bright, aged 64 years.

2nd July 1892 (Hexham Herald)
Marriages
New York City, USA, 4th ult., the Rev. Rocliffe Mackintosh, pastor of the Methodist Episcopal Church, Rocky Hill, New Jersey to Elizabeth Frances daughter of Mr Joshua Dawson, Weardale. *See 6th November 1875, 25th March 1876, 8th February 1890, 22nd May 1892, 5th November 1892, and 21st October 1893.*

2nd July 1892 (Cumberland and North Westmorland Herald)
ALSTON BOARD OF GUARDIANS
Present:—Messrs. H. Walton (chairman), Pickering, Richardson, Lee, Millican, T. Bramwell, Nicholson, Simpson, Dickinson, and Harrison
A circular was read from the Local Government Board relative to the discharge of casual paupers. Persons making a declaration that they were desirous of seeking work might be discharged at 5:30 in summer and 6:30 in winter if they had previously performed their tasks.
Mr. Dickinson had visited the Workhouse and found all in order.
The CLERK — Mr. Dawson estimated the cost of a new saddle boiler for the Workhouse at £5. The old boiler should be examined to ascertain the cause of the defect. We are using limestone water, and it may be furred up.
No action was taken.
The CLERK said he had received a communication from the managers of Nenthead School. The resident managers declined to take responsibility any longer, and the guarantors could not be expected to do so. He had suggested to the correspondent of the school that the managers should take initiatory steps towards the formation of a School Board. He thought a requisition of 50 ratepayers to the Education Department would be the most convenient form of procedure. The corispondent had informed him, in reply, that he had already conveyed the determination of the managers to the Department, and stated that the matter now rested with the Local Authority. This, of course, was a mistake; the Local Authority had nothing to do with the matter.
The Chairman—It will be for the Department to decide whether tho School Board area shall be limited to Nenthead district or extend over the whole parish.
The CLERK —The whole parish is the school district, and a School Board will be a heavy matter to it. I calculate that the direct loss to the parish in subscriptions and otherwise will amount to not less than 3d in the £.
Mr. HARRISON said the NENTHEAD managers had done their duty. They had no preference for a School Board, and if any body of gentlemen chose to take up the management as a voluntary school they would place no obstacle in their way.
RURAL SANITARY AUTHORITY.
NENTHEAD WATER SUPPLY.
The INSPECTOR read a report—which was practically the report we summarised at last meeting, with a few added details—as to the recommendations of the Committee.He estimated that £110 should cover the cost. He produced a plan showing the proposed coarse, and the lengths where earthenware and where metal pipes were proposed to be laid, with the cisterne and wells.
Mr. RICHARDSON objected that the report was not the report of the Committee.

This roused a protest, and each member of the Committee declared that he identified himself with the report.
Mr. RICHARDSON—No details of the proposed expenditure are given.
Mr. PICKERING — You do not suggest that the Inspector jumped at his estimate of £110, do you?
Mr. SIMPSON moved that the report, plan, and estimate be adopted. They could accept the plan and then discuss what was to be done first,
Mr. BRAMWELL- Precisely. My original motion was that we adopt the scheme as a whole so as to ensure one part being in keeping with another, and spread the work over a period of time.
Ultimately it was decided that Messrs. Harrison, Holmes, and T. Walton—the local Guardians, should be a sub-committee to act with the Inspector.
In regard to the Hilltop ans Dykehead communications, it was decided that action on these stand over.

HIGHWAYS AND BRIDGES.

The SURVEYOR said he had not been able to gather any positive information as to who were the builders of Overwater Bridge, but it was believed in the locality to have been the London Lead Co., and the Lead Zinc Co. kept up the retaining wall and waggon-way. The parapet wall at present was in a dangerous state.
Mr. HARRISON—Will the liability to repair rest with the Lead & Zinc Co.?
Several members expressed an opinion that it would, and the Surveyor was instructed to call their attention to its condition.
Mr. Archer was granted leave to straighten a wall at Hutchinson's Bank.
It was decided to repair two foot bridges at Ashgill, one crossing Ashgill Burn ana the other the Tyne.

9th July 1892 (Hexham Courant)

ALSTON
MINING ACCIDENT

Last Tuesday a sad accident occurred to a young man named Isaac Hetherington, miner of Overwater, Nenthead. It appears that while at work at the Lead and Zinc Company's mines, he was preparing to charge a hole for blasting, when the charge suddenly exploded and damaged his right hand to such an extent that it was found necessary to amputate it above the wrist. His eyes and face were also much damaged, and it is feared that he may lose his sight.

In 1861, at Fidler Street, Nenthead, William Hetherington, lead miner, aged 47, his wife Mary aged 46 (Dawson, married 5th December 1835, Alston), children Robert, lead miner, aged 24, Nanncy, house servant, aged 20, George, lead ore dresser, aged 19, William, lead miner, aged 17, Mary 7, and granddaughter, Elizabeth, aged 2.
In 1871, at Fiddler Street, George Hetherington, lead miner, aged 29, his wife Mary (Walton, married 4th quarter of 1869) aged 31, and daughter Mary Alice aged 1.
In 1881, at Overwater, George Hetherington, lead miner, aged 39, his wife Mary 41, children Isaac 9, Mary E. 7, Alice 6, and William 4.
In 1891, at Overwater, George Hetherington, widow (Mary died 1st quarter of 1882, aged 42), general labourer, aged 49, sons Isaac, lead miner, aged 19, and William, lead ore washer, aged 14. In 1901, at Overwater, George

Hetherington, widow, aged 59, sons William, lead miner, aged 24, and Isaac, letter carrier to Zinc Company, aged 29. See 23rd April 1870, 7th November 1874, 4th February 1882, and 17th September 1892.

30th July 1892 (Cumberland & Westmorland Herald)

ALSTON BOARD OF GUARDIANS.

RURAL SANITARY AUTHORITY.

The CLERK said that whilst King's Arms Lane was open for the laying of the water pipes Mrs. Hodgson asked leave to make a connection and he took the responsibility of granting it. The Board signified approval.

Relative to permission given to Mr. R. Lee to carry water into his yard. the CLERK said he had noticed that he was preparing to carry the pipe into his stable. The Authority might object to the water being carried into the stable; they were not bound to supply the commodity except for domestic purposes. Mr. Lee on being spoken to instanced two other persons who had been permitted to take water from the old wells for years, and it was not thought right to cut off their supply.

Mr. BRAMWELL—We allow these now to take water from the main and form a precedent.

The CLERK—We are not obliged to supply water to byres and stables we might exhaust the supply.

The CHAIRMAN—I said at the time that it we granted this application we opened out a wide field. The Chairman and Mr. Millican were appointed a committee to view the place and report at next meeting.

Leave was given to make a connection at the police station, and it was stated that Mrs. James had generously offered to convey water to the High School in case permission was obtained.

The Inspector complained that it had become a common practice to place filth of all kinds under the public fountains, thus interfering with the free passage of the water, and causing a nuisance. All persona in the locality of the fountains seemed to connive at this practice for no evidence could be obtained.

It was decided to post up notices that in case this was persisted in the supply to the wells would be cut off.

Dr. Carson s quarterly report for No. 1 district showed 15 deaths or at the rate of 8.8 per 1000, and 7 births. There had been one death from scarlet fever. At present the district was healthy.

Bridges.—The surveyor reported in reference to instructions to have a foot bridge at Ashgill, and another over the Tyne near the same place, repaired, that he found the main beams decayed. It would be a waste to do repairs, and new bridges were needed. The Tyne bridge would cost £4 14s. 6d., and the Ashgill bridge £2 8s. 6d.—It was decided to rebuild both bridges.

NENTHEAD SCHOOL

The CLERK said he had taken the responsibility of calling a special meeting of the School Attendance Committee to consider the position relative to Nenthead school, which would be finally closed on the 14th August. Though he had intimated to them the advisability of doing so, no steps had been taken by the Nenthead people to call a vestry meeting in order to decide what steps were to be taken to carry on the school. He was informed that they had written twice to the Education Department, but had received no reply. The Committee should know the position of affairs and be enabled to decide whether they should take

action. He had procured a form of requisition for a School Board and sent it to the secretary of the school to have it filled in, but nothing had been done. .
The CHAIRMAN—This is too small a meeting to decide anything. The initiative ought to come from Nenthead, and, if it is not taken there. I would leave the matter to the Education Department.

30th July 1892 (Hexham Herald)

WEARDALE

DEATH OF STANHOPE'S OLDEST INHABITANT

There died on Saturday (23rd) at Stanhope, its oldest inhabitant, Thomas Gowland, in his 90th year. Deceased had been a lead miner nearly all his life, and worked in the Derwent mines, and also for many years in the London Lead Company's Bollihope mines.

In 1841, at High Bishopley, Thomas Gowland, lead miner, aged 35, his wife Elizabeth 25, children John 9, Thomas 6, Eleanor 4, Elizabeth1, and Jane 2 months.

In 1851, Thomas Gowland, miner, aged 48, his wife Elizabeth 39, children John, miner, aged 19, Thomas, miner, aged 16, Eleanor 14, Elizabeth 11, Jane 9, Harrison 6, Mary 2, and Ann 1.

In 1861, at Dodd House, Newlandside, Thomas Gowland, lead miner, aged 58, his wife Elizabeth 50, children Jane 20, Harrison, lead miner, aged 16, Mary 12, Ann 11, Sarah 6, Elizabeth 3 months, and visitors son in law William Bowman, agricultural labourer, aged 25, and daughter Eleanor Bowman aged 24.

In 1871, at Stanhope, Thomas Gowland, lead miner, aged 68, his wife Elizabeth 58, children Harrison, lead miner, aged 26, Mary 22, Sarah 15, and granddaughter Eleanor Gowland 1 month. In 1881, at Bond Eale Terrace, Stanhope, Thomas Gowland, retired lead miner, aged 78, his wife Elizabeth 69, son in law Thomas Robinson, limestone quarryman, aged 24, and daughter Sarah Hannah Robinson aged 25. In 1891, at Town Foot (prospect Peace), Thomas Gowland, retired lead miner, aged 88, and his wife Elizabeth 79. Also Thomas Robinson, limestone quarryman, aged 34, and his wife Sarah Hannah aged 35.

IRONSTONE MINES

The Ironstone mines west of St John's Chapel, which have been closed for a considerable time were re-opened last week and a number of men employed. The Cartmen commenced on Monday to lead the stone.

Mr Ralph Walton of Island House, near St John's Chapel died last Saturday night after about a year of severe affliction, aged 55 years.

In 1851, at Huntshieldford, Anthony Walton, lead miner, aged 60, his wife Martha 53, children John, lead miner, aged 24, Ann 23, William, lead miner, aged 21, Anthony, lead miner, aged 17, Adam, lead miner, aged 16, Ralph, lead miner, aged 13, and Jefferson 10.

In 1881, at Huntshieldford, Ralph Walton, lead miner, aged 42, his wife Margaret 38, son Anthony 11 month, , and domestic servant Hannah Emerson aged 19. In 1891, at Frog Hall, Ralph Walton, engine brakesman at lead mine, aged 53, his wife Margaret 48, son H. J. 7, and brother Anthony Walton, widow, aged 59.

In 1901, at Huntshieldford, Nathan M Egglestone, single, printer, aged 54, sister Margaret Walton, widow, housekeeper, aged 58, and nephew Henry J. Walton, carpenter joiner, aged 17.

6th August 1892 (Hexham Herald)

WEARDALE

On Wednesday a bargain day was held at the Newhouse office in connection with the lead company and a number of more miners set to work.

Deaths

Town Head, Alston, 29th ult., aged 70, John Readshaw

In 1871, at Townfoot, Alston, Elizabeth Redshaw, unmarried, formerly domestic servant, aged 74, and son John, Agricultural labourer, aged 48.
In 1881, at Physic Hall, Bank Foot, John Readshaw, Ag. Labourer, aged 58, his wife Ann (Graham, married 4th quarter of 1875, Alston) aged 47, born Allendale, children Alfred 8, and Elizabeth 5.
In 1891, at Physic Hall, John Readshaw, general labourer, aged 69, his wife Ann aged 58, children Alfred drapers apprentice, aged 18, Lizzie A. stocking knitter, aged 15, and grandson Edwin Graham 6, born Gateshead.
In 1901, at Chapel Terrace, Ann Readshaw, widow, charwoman, aged 68, daughter Elizabeth A, stocking knitter, aged 25, and grandson Edwin Graham, ironmonger apprentice, aged 16.
See 23rd April 1892

12th August 1892 (London Gazette)

THE CASHWELL LEAD MINING COMPANY LIMITED.

Notice is hereby given that a General Meeting of the Members of the above named Company will be held at 32, Mosley-street, Newcastle-on-Tyne, on the 12th day of September next, at three o'clock in the afternoon precisely, to receive the Liquidator's report, showing how the winding up of the Company has been conducted, and its property disposed of, to hear any explanation that may be given by the Liquidator, and to pass a Resolution as to the disposal of the books, accounts, and other documents of the Company.—Dated this 5th day of August,

13th August 1892 (Hexham Herald)

Marriages

At Stanhope, Wesleyan Methodist Chapel, 6th inst., George Raine of Spain's Field, Eastgate to Miss Ellen Wilkinson of Rogerly Lodge, Frosterley.
At Alston Wesleyan Chapel, 9th inst., the Rev Frank Jones to Florence, youngest daughter of John Millican, Croft House, Alston.
See 14th April 1894, 23 March 1901

Deaths

High Prudhoe, 11th inst., aged 82, Ann Pickering formerly of Alston.

In 1841, at Nest, Mathew Pickering, lead miner, aged 35, his wife Ann aged 30, children Thomas 10, Joseph 10, Naomi 8, Teasdale 6, Margaret 4, and John 2.
In 1851, at Low Nest, Mathew Pickering, lead ore miner, aged 42, his wife Ann 41, children Thomas, lead ore miner, aged 22, Joseph, lead ore miner, aged 20, Teasdale, lead ore miner, aged 16, Margaret 13, John 11, Hannah 7, Mathew Ralph 5, and William 2. In 1861, at Loat Burn, Ann, lead miners

widow, aged 50, children Thomas, lead miner, aged 32, Joseph, lead miner, aged 30, Naomi, household work, aged 28, Teasdale, lead miner, aged 26, Mary A., household work, aged 19, Hannah, household work, aged 17, Matthew, lead ore washer, aged 15, William 12, Sarah 9, and Elisabeth 5.

William Stout of Elba, Nenthead, died 11th November 1924.

20th August 1892 (Hexham Herald)
WEARDALE
FATAL FALL DOWN A LEAD MINE
On Monday Mr J T Proud district coroner held an inquest at Bolt's Burn, Rookhope, Weardale, on the body of a man named Walton Reed, 24 years of age, who was a lead miner employed at the Grove Lead Mines. The deceased and his father were descending the mine, which is situated on the extreme boundary of the county, about eight mile north west of Stanhope. When about 20 feet from the bottom the cage slackened, and the deceased stepped out. His father was under the impression that the deceased thought the cage had descended to the bottom. The cage went further down and the man could hear it crush his son. He jumped out, and the deceased was immediately extracted.

He was unconscious at the time, and died shortly afterwards. A verdict of accidental death was returned.
On Tuesday last Private Walton Reed, a member of the Allenheads section of the F Company, 1st V.B.N.F was interred with military honours at St Peter's Allenheads.
In 1861, at Hope Head, John Reed, lead miner, aged 57, his wife Jane 51, children John, lead miner, aged 23, Walton, lead miner, aged 18, and Jane 14
In 1871, at Pry Field, John Reed, iron stone miner, aged 33, his wife Mary (Bell, married 22nd June 1861, St Peter, Allenheads?) aged 32, children Jane E. 11, John 9, Thomas 8, Ruth 5, Walton 3, and Dryden B. 10 months.
In 1881, at Ropehaugh Cottages, John Reed, lead ore miner, aged 43, his wife Mary aged 42, children John, lead ore miner, aged 19, Thomas, lead ore miner, aged 18, Ruth 15, Walton 13, and Margaret E. 6.
In 1891, at Dirt Foot, Allenheads, John Reed, lead miner aged 54, his wife Mary 51, son Walton, lead miner, aged 22, daughter Margaret Emma 16, married daughter Ruth Robson, aged 24, and granddaughter Mary Jane Robson 6.
In 1901, at Rope Haugh, John Reed, lead ore miner, aged 64, and his wife Mary aged 61.

ALSTON

The Rev John Scott who has been visiting home for the last few weeks left Alston for America on Friday morning by the 10:5 train. He will embark at Liverpool today (Saturday).

ALSTON
RURAL SANITARY AUTHORITY

Dr Short's quarterly report as Medical Officer of Health for No. 2 district showed 9 deaths and 13 births or at the respective rates of 5.35 and 7.73 per 1000 per quarter. The sanitary condition was satisfactory.

27th August 1892 (Hexham Courant)

THE SAD CALAMITY NEAR MOSSWOOD.
HEROIC CONDUCT OF POLICE AND CIVILIANS.
SINGULAR DEATH OF MOTHER AND SON.

Yesterday, Mr W. Brewis Elsdon, deputy corona for South Northumberland, hold inquests at the remote farm-house of Mr W. T. Archer, the Crooked Oak, on the bodies of Susannah Snowdon, aged 51 years, the widow of Joseph Snowdon *(incorrect husband was Edward Snowdon)*, a lead miner, and her son, Joseph Snowdon, aged twelve years who lived at Silver Tongues in the parish of Shotley Low Quarter, and met with their deaths on Tuesday night: 23rd August, under most extraordinary circumstances.
Robert C. R. Snowdon, 10 years of age, identified the bodies of his mother and brother, and said that on Tuesday night, about six o'clock, his brother was sent by his mother to an old drift, about 200 yards from their home, to fetch some water. As he did not return Mrs Snowdon directed witness to go in search of his eider brother; and upon his arrival, he perceived that his brother was lying in face drift, upon his back, apparently quite dead. Witness ran and told his mother, who accordingly went to the drift, and also did not come back again.

Elizabeth Lowery, wife of Oliver Lowery, farmer of Cornfield House, Muggleswick testified that about seven o'clock on Tuesday evening she was called to the drift by the witness Snowdon, and observed the two dead bodies lying there in. The drift descended into the earth, the boy lying about three feet from the mouth, and the mother would be six feet from the entrance, but she was lying more to the side. There was a hole, which contained some water; but neither of the bodies was lying in the water. Witness could see the mother and son had not been drowned, but had been, in her positive opinion, suffocated by the foul air, which had accumulated in the drift.

John Fairless, a gamekeeper who lives at the Crooked Oak Farm, gave corroborative evidence, and added that he tried to get the bodies out, but he was immediately dazed, and had to leave the drift in an exhausted state, the foul air proving too much for him. The police were sent for, and they worked on for several hours endeavouring to rescue the bodies, but although they were just a few feet from the mourn, all the attempts of the explorers were of no avail, the foul vapours immediately attacking and prostrating them. When the darkness set in the lights they had procured went out on approaching the mouth of the drift.

In reply to the jury, witness said he had been a miner for 20 years, and he had never been so much affected by bad air in his life.

The Rev John Ingham, vicar of Muggleswick, Durham, described at length the strenuous and persistent exertions to rescue the bodies, which he declared had, without doubt, been suffocated by the noxious air which had gathered in the drift. He held lights to let the men see what they were doing, but they died out immediately on approaching the mouth of the drift. P.C. Haddon, stationed at Shotley Field, went into the spot to try to get the bodies out. A rope and chain was fastened to his waist, but the officer had not been in the drift many moments before he was overpowered by the foul air, and he was dragged out in a completely exhausted and unconscious state. The witness Fairless next went into the drift, but he had just gone as far as the bay was lying—only three feet from the surface—when he was utterly overcome by the noxious vapours, and was likewise pulled out in an exhausted and insensible condition. Acting upon his (witness) advice, it was deemed expedient to suspend operations for the recovery of the bodies till the following morning. In his opinion, every effort was made by the police and Fairless to bring the bodies to the surface that night, but their exertions proved futile.

P.C Haddon, stationed at Shotley Field, having given evidence,

The Rev J. Ingham remarked that he was very much pleased with the gallant and heroic conduct of P.C. Haddon and John Fairless and he thought some representation should be made of their behaviour to the proper quarters.

The Coroner, in summing up, spoke in terms of the honest commendation of the conduct of the witnesses in their endeavours to recover the deceased

A similar verdict was returned in both instances, viz., that Joseph Snowdon was accidentally suffocated in a disused drift at Silver Tongue, on the 23rd inst. whether he had gone in search of water, and that Susannah Snowdon, at the same time and place was also accidentally suffocated while attempting to rescue her son.

The jury furthermore recommended that the gallant conduct of P.C. Haddon should be brought before his superior officer so that he should receive some recognition far his valuable service the Foreman adding that many a policeman

had been promoted for doing far less. The Coroner concurred and said that he would write informing Captain Torry the Chief Constable for Northumberland, of the heroic behaviour of Haddon. The shocking occurrence has awakened a great deal of interest and sympathy throughout the district, and this was shown At the funeral of the bodies, which were interred at Snods Edge Church later on in the afternoon, there being a vast assemblage of relative and acquaintances from all parts of the district. There is a family left behind and the jury generously remitted their fees for their benefit.

In 1871, at Silver Tongues, Cottage, Shotley Low Quarter, Edward Snowdon, lead miner, aged 35, his wife Susanna 29, children Elizabeth Annable 7, Mary Jane 5, and Susanna 2 (died 2nd quarter 1874).

In 1881, at Silver Tongue, Shotley Low Quarter, Edward Snowdon, coal miner, aged 44, his wife Susannah 39, children, Isabella 9, William 7, Anna 4, Edward 2, and Joseph 1.

Edward Snowdon, died 3rd quarter 1885, aged 49.

In 1891, at Silver Tongue, Shotley Low Quarter, Susannah Snowdon, widow, living on her own means, aged 48, children, William, engineers apprentice, aged 17, Anna 14, Edward 12, Joseph 11, Robert 10, and granddaughter Ruth Snowdon, aged 7.

10th September 1892 (Cumberland & Westmorland Herald)

NENTHEAD.

The 43rd annual Floral and Horticultural show, was held on Saturday last. The weather for several days previous had militated very much against the garden produce, strong winds and heavy rains having in many instances destroyed the beauty of and made useless for competition, many a promising flower; but it was a surprise to find such a display as was collected in the spacious schoolroom, which reflected credit on the local amateurs, who have to fight against many disadvantages which those who are living in sheltered and peaceful valleys know nothing about. The pot plants, which were a numerous collection, included some splendid specimens, both in foliage and bloom. Cut flowers were a little behind the bloom exhibited on previous years. Hand bouquets and buttonhole bouquets were a good collection, many of them being gems of artistic arrangement, and contained both beauty and good taste. Fruits were a marvellous display considering that for days they had been, where uncovered, at the mercy of inclement weather. Gooseberries, red and black currants especially demand note, and would have been worthy of a place on the bench of a much larger show. Vegetables, which are often a great feature of this show, were a little behind this year. Special mention must be made of the potatoes, which were of a superior class. A good few specials were given for competition, and in some instances were very keenly competed for. In addition to the show of flowers, fruits, and vegetables, special prizes were awarded fur butter. Prizes were given for the best loaf of white bread, and also grey bread. The exhibits were good in quality but few in number. The prizes offered for needlework had not a very numerous collection of exhibits, but those to hand were a very creditable lot. Mr. Petty the respected schoolmaster at Nenthead, had for inspection a large collection of drawings, both in model and freehand, these being the test papers as previously done by the scholars. …

17th September 1892 (Hexham Herald)

PRACTICAL SYMPATHY

It will be remembered that a serious accident happened to a young man named Hetherington working at the mines at Nenthead some weeks ago. The injuries were such a nature that the unfortunate young man will be unable to follow his employment again even if he will be able to do anything. To show sympathy with the young man Messrs W. Sanders and J Green, very kindly undertook to collect what money they could in Alston. The result is that the sum of £20 15s has been handed over to Mr W. L. Hornsby, Nenthead to be disposed of as will best suit the young man.
See 9th July 1892

Deaths

Hayring Cottages near Nenthead, 13th inst., aged 24, Thomas W. son of the late John Lowe.

In 1861, at Nenthall, John Lowe, 33, his wife Sarah aged 27, and daughter Mary 7 years. In 1871, at Pry Head, John Lowe 44, his wife Sarah 37, children Mary 17, Sarah Ann 19, John J. 5, and Thomas W. 2. In 1881, at Nenthall, Sarah Lowe, lead miners wife, aged 47, and son Thomas W. lead ore washer, aged 12. In 1881, John Lowe, lead miner, aged 53, was a patient at the Cumberland & Westmorland, Counties Asylum, Garland.

In 1891, at Island Cottage, Nenthead, Sarah Lowe, widow (John died, 1st quarter of 1882, aged 54, registered Carlisle), aged 57, and son Thomas W. driving in mines, aged 22.

Sarah Lowe of Hayring, was buried 5th July 1896, aged 63, at Nenthead.

NENTHEAD AGRICULTURAL SHOW

The seventeenth annual show in connection with the above was held on Saturday last in a field at the west end of the village. The weather, which had been very unsettled through the week, took a change for the better, the morning of show being bright though cold. Early in the day visitors began pouring into the village from all directions, the village being centrally situated and of ease access from Weardale, Allendale, Garrigill, and Alston. The first item on the program was the open trotting match, the winner turning up in Mr. Simpson's pony, Alston, piloted by Master Simpson; second, Mr. E. Peart's (Miners' Arms), Nenthead; five ran. The show of stock was excellent, some of the classes containing well-known winners at various shows, Mrs. Graham and Son about sweeping the deck in the blackfaced classes and taking the special in the best collection of blackfaced sheep on the ground; the special for Leicester's going to Mrs. Bright for her tup. Mr. Hodgson took the special for the best horse (in the district classes) with his noted winning yearling filly, this animal having only once been beaten this season. The most notable class was the open class for ponies under 14½ hands high for which there were 23 entries and comprised the cream of this and last year's neighbouring shows, the first prize going to William Rutherford, Black Dean, Weardale; second, John Foster, Allendale; third, Thos. Peart, Burnhope, Weardale. The amount taken at the gate was highly satisfactory, having only once been beaten, and that by a few shillings only. Dinner, supplied by Mr. E. Peart, Miners ' Arms, was held in the Band Room, and served up in Mrs. Peart's well known style. After dinner commenced the district trotting. Four competed; Mrs. Bright's pony winning, Mr. Pearl's again scoring second. The music through the day was ably supplied by the Weardale Brass Band under the leadership of Mr. William English. Dancing on the ground freely indulged in until darkness set in. …

Deaths

At the Butts, Alston, on the 19th inst., Peter Gilmore, aged 36 years. At the same place, on the 21st inst., Patrick Gilmore, father of the above.

In 1871, at the Butts, Alston, Patrick Gilmore, hawker, aged 35, born Ireland, his wife Elizabeth aged 29, born Carlisle, children, Peter, hawker, aged 16, born Carlisle, Mary A 13, Margaret J 2, John W 1 month, and lodgers, George

Irwin, Hawker, aged 62, born Hexham, and his wife Isabella aged 61, born Hexham.
In 1881, at the Butts, Alston, Patrick Gilmore, general dealer, aged 46, his wife Elizabeth 39, children, Margaret J 12, John Wm 10, Isabella 7, Elizabeth 2, and Patrick 7 months.
Elizabeth Gilmore died 1st qtr., 1886, aged 43, registered at Alston.
In 1891, at the Butts, Patrick Gilmore, widower, general dealer, aged 56, children, Isabella, stocking knitter, aged 17, Elizabeth, stocking knitter, aged 13, and Patrick 11.
Peter Gilmore married Elizabeth Walton, 4th qtr., 1882, registered at Carlisle.
In 1891, at the Butts, Peter Gilmore, mineral dealer, aged 35, his wife Elizabeth 31, children, Patrick 7, Bernard 5, and Joseph 1.

1st October 1892 (Cumberland & Westmorland Herald)

ALSTON

An inquest was held by Mr. J. B. Lee, coroner for East Cumberland, at the Greyhound Inn, Alston, on the 23rd ult., touching the death of Patrick Gilmore, aged 59 years, general dealer, residing at the Butts, Alston, who died very suddenly at 11-30 a.m. on the 21st Mr. T. Richardson, C.C., was foreman of the jury. Evidence was given by John W. Gilmore and Dr. Pringle, who gave it as his opinion that the cause of death was, inflammation of the lungs, The jury returned a verdict that deceased died from natural causes.

1st October 1892 (Hexham Herald)

ALSTON

EMIGRATION

On Tuesday last Mrs Thompson and children the wife and family of Mr John Thompson late of Nenthead and now in the United States, left Alston for Liverpool, where they embark on Wednesday for New York, by the Inman liner, City of New York. Since Mr Thompson entered the ministerial work he has made good progress having passed his examinations and been accepted by the Conference. He has recently been ordained and is doing well.
See 18th June 1892, 2nd September 1893, 28th October 1898, 29th July 1899, and 12th January 1901.

WEARDALE

Mr John Spark has been appointed manager of Parson Byers limestone quarry in the place of Mr Wm. Wedgewood deceased.

Marriages

Wesleyan Chapel Alston, 29th ult., Thomas Smith, Nenthall to Rosina Olga Sophia Agnes Heslop, Nentsbury.
In 1901, at Clog Hall, Thomas Smith, blacksmith for mines, aged 32, his wife Rosina O S A 32, children John 7, William M 5, and Sarah 1.
In 1911, at Clog Hall, Thomas Smith, blacksmith, aged 43, his wife Rosina Olga Sophia Agnes 42, children John, blacksmiths apprentice, aged 17, William Morley, lead ore dresser, aged 15, and Sarah 11.
See 8th January 1870

4th October 1892 (Cumberland & Westmorland Herald)

A SCHOOL BOARD FOR ALSTON.—Owing to the closing of Nenthead School and the improbability of the requisite accommodation being provided by

voluntary effort, the Education Department have given instructions for the formation of a School Board for Alston parish to consist of five members. The time for making nominations expired on Friday and the following candidates will seek election.—George Pickering, farmer, Garrigill; W A. Rutherford vicar, Alston; Hugh Bell, joiner, Alston; Robert Elliot, bank agent, Alston; Henry Walton, farmer, Howburn; Thomas Harrison, farmer, Nenthead; Jonathan Rutherford, Nenthead; Charles Berry, vicar, Nenthead, Joseph R. Walton, bank agent, Alston; Thomas Richardson, farmer, Coatlith Hill; John Millican, retired draper, Alston; Thomas Bramwell, coal agent, Alston. Withdrawals must be made before 4 o'clock to-day and the election is on the 11th inst.

15th October 1892 (Hexham Courant)
Marriages
At the Bondgate Wesleyan Chapel, Darlington, 6th inst., John Peart, mining engineer, Alston to Margaret Ann Smith, youngest daughter of the late Jacob Smith of Cow Gap, Alston.
See 20th December 1861, and 9th May 1891

15th October 1892 (Cumberland & Westmorland Herald)
SCHOOL BOARD ELECTION.
The election for five members to constitute the School Board was held on Tuesday, voting taking place at Alston, Nenthead, and Garrigill. There were eleven candidates for the five seats. There was no great stir on during the day, all passing off very quietly. A number of voters, especially at Alston, did not exercise their power. Garrigill seems to have polled the greatest number in proportion. Altogether about 551 persons entered the booths at the three places--at Alston, 243; Nenthead, 183; Garrigill, 125. Opinion was much divided as to who should head the poll. Some canvassing was done by persons interested in certain candidates. Many people seem, however, to have taken little or no interest in the matter, as they had no thought of going to poll until solicited to do so. There were 21 spoiled papers. The votes were counted on Wednesday, and the result declared during the afternoon as follows:

ELECTED.	
Mr. Henry Walton, Howborn	533
Mr. T. Harrison, Nenthead	362
Mr. J. Rutherford, Nenthead	361
Mr. H. Bell, Alston	333
Mr. K. Elliott, Alston	308
NOT ELECTED	
Mr. G. Pickering, Garrigill	302
Mr. J. R. Walton, Alston	195
Mr. T. Richardson, Alston	109
Rev. C. Berry, Nenthead	52
Mr. T. Bramwell, Alston	50
Rev. W. A. Rutherford, Alston	29

It will thus be seen that the Board is composed of one Churchman and four Nonconformists. A petition was being signed on Saturday, praying that the expenses of the Nenthead School, over which the Board will have control, should be paid by the Nenthead people. This, however, is scarcely likely to be granted.

Deaths
At Gethel, Snohomish Co., Washington, U.S.A., very suddenly, John son of the late Thomas Graham, of Pryhouse, Nenthead, aged 35 years.
See 13th July 1872, 11th December 1875, 27th April 1878
At Alston, on the 8th inst., Thomas Turner, stonemason and contractor. *(aged 69)*
At Cocklake, on the 8th inst., Jane Walton, aged 90 years. *Farmers Widow*

15th October 1892 (Hexham Herald)
Marriages
At Allendale Town Primitive Methodist Chapel, 13th inst., William Liddle, Swinhope Shield to Margaret only daughter of John Parker, Allenheads.
At Alston Wesleyan Chapel, 10th inst., Jonah Aden Stephenson, High Craig, Garrigill to Charlotte Bainbridge, Wood House, Barnard Castle.
In 1901, at Mickleton, Yorkshire, Jona A Stephenson, stone quarryman, aged 34, born Alston, his wife Charlotte 33, born Middleton, children Mary H 7, Frances A 5, and Margaret S 3.
Deaths
Haggs Bank, 10th inst aged 82, Jane wife of John Fawcett.
See 2nd January 1869

29th October 1892 (Cumberland & Westmorland Herald)
SUCCESS OF AN ALSTONIAN IN CANADA.—We are pleased to notice from the Canadian papers, some good work with the rifle done by a native of Alston, Mr. Charles Millican, son of Mr. John Millican, Croft House, Alston. At the Annual Battalion Shooting, he with 5 others tried for the premier honours in the first competition, in the second was top scorer, and although dropping the third position in the third match came off with the highest score in the grand aggregate.

5th November 1892 (Hexham Herald)
WEARDALE
Mr Joshua Dawson, Wesleyan Evangelist died at his residence, Pryse House, near St John's Chapel on Monday night at the age of 71. … Mr Dawson who in early life was a lead ore washer, and afterwards a lead ore miner. He afterwards started a business in a small way, and was rural letter carrier when the present postal arrangement was in its infancy. The subsequent growth of his business enabled him to devote himself more fully to evangelistic work all over the kingdom.
(Wesleyan preacher for 45 years visiting nearly every part of Great Britain)
In 1841, at Hood, Joshua Dawson, constable, aged 60, Hannah, 20, Joshua, lead miner, aged 20, John, lead miner, aged 15, and Thomas 1 month.
In1851, at Low Prise, Joshua Dawson, school master, aged 29, his wife Frances 29, children Tinniswood 6, Hannah 2, and Ann 9 months.
In 1861, at St John's Chapel, Joshua Dawson, draper, grocer, and postmaster, aged 40, wife Francis 39, children Tinniswood 16, Hannah 12, Sarah A. 4, Francis E. 2, Mary A. 1, nephew Thomas Dawson, drapers assistant, aged 20, and general servant Elizabeth Dawson 19.
In 1871, at Post Office, St John's Chapel, Frances Dawson, draper & grocer, aged 49, children Tinniswood, draper & grocer, aged 26, Hannah 22, Frances

In 1871, Joshua was in Maryport, Crosscanonby, Cumberland; at No. 11 Wood Street, John Telford, jeweller & watchmaker, aged 50, his wife Frances 52, children Mary C. 22, John, watch maker, aged 19, Joseph R. 13, visitor Joshua Dawson, grocer & postmaster, aged 50, and visitor Mary Johnstone 27.
In 1881, at High Prise, Stanhope, Joshua Dawson, evangelist, aged 60, his wife Frances 59, daughter Hannah, missionary widow, aged 32, grandchildren Florence A. Race 4, Russell T. Race 2, Joseph D. Race 6 months, daughters Sarah A. 24, Mary A. 21, and Phoebe T. 19, and domestic servant Elizabeth Shaw, aged 22. Frances had predeceased Joshua, she died in the last quarter of 1889.
See 6th November 1875, 25th March 1876, 8th February 1890, 22nd May 1892, 2nd July 1892, and 21st October 1893.

Deaths

Dyke Heads, Nenthead 27th ult., aged 66, Matthew Stephenson *(Yeoman farmer).*
Joseph Stephenson married Nancy Spotswood, 30th June 1808, at Alston, Joseph Stephenson, aged 46, died at Wellgill, 7th July 1831.
In 1851, at Wellgill, Dykeheads, Ann Stephenson, widow, land owner & farmer of 8 acres, aged 60, sons Henry, lead miner, aged 41, Joseph, lead miner, aged 33, Matthew, lead miner, aged 26, and general servant Mary Hunter aged 19.
Ann Stephenson died 2nd quarter of 1849.
In 1861, at Wellgill, Dykeheads, Henry Stephenson, lead miner, aged 51, brothers Joseph, lead miner, aged 43, Matthew, lead miner, aged 36, nephew Allison S Teasdale 13, and general servant Elizabeth Longstaff aged 28.
In 1871, at Dykeheads, Henry Stephenson, lead miner, aged 61, brother Joseph, lead miner, aged 53, brother Mathew, lead miner, aged 46, son Allison Stephenson Teasdale, lead miner, aged 23, servant Tamar Walton, house keeper, aged 34, and boarder John Walton 9.
In 1881, at Dykeheads, Matthew Stephenson, farmer of 60 acres, aged 57, wife Tamer (Walton, married 23rd August 1874, Nenthead) aged 44, daughter Mary Ann 6, boarder John Walton, lead miner, aged 19, and domestic servant Elizabeth Barron aged 20.
In 1891, at Dykeheads, Matthew Stephenson, farmer, aged 66, wife Tamar 54, and daughter Mary A. 16. See 29th August 1874, & 16th December 1893

5th November 1892 (Cumberland & Westmorland Herald)

BOARD OF GUARDIANS ALSTON.—SATURDAY.

Present--Messrs. H. Walton (chairman), Pickering, Richardson, Millican, Nicholson, T. Walton, Lee, and J. R. Walton.

The CLERK said they had a large sum to pay on account of a pauper lunatic recently removed from Newcastle to Garlands. The amount was £33 7s. Under the Act they were liable for the woman's maintenance for twelve months previous to their having accepted her as chargeable to Alston. He had already made their return of pauper lunatics, and he would have to make a duplicate

return in order to secure the return of 4s. per week on account of this additional inmate.
A letter was read from Mr. A. Thomas, M.P. for East Glamorgan, stating that on the meeting of Parliament he proposed to move an appointment of a Royal Commission to inquire into the present working of the Poor Law Act of 1832, and if deemed desirable to suggest changes in its provisions. If the Board thought this was required, he asked them to embody their assent in a resolution.
The Collector statement showed:—Recoverable arrears, Aug. 31, £493 2s. 9d.; collected, £353 11s. 3d.; irrecoverable, £21 1s. 6d.; legally excused, £3 3s. 7d; recoverable, Sept. 30, £110 6s. 3d.
A lengthy report by Dr. Carson on the Sanitary condition of No. 1 District—having in view a possible visitation of cholera—was read. It set forth the possibility of cholera germs being imported into England in the winter and lying dormant until next year. It was, therefore, imperative to take precautions against the development of these germs. He had inspected the district. The sewer at Kate's-lane and the Malting had not been efficiently flushed, and he advocated its connection with the main sewer, and the fixing of gully traps. There were nuisances at the Mill Race and at Back-o'-Burn, and certain offensive middens required removal i*n toto*. A place of deposit for town refuse was required. He again advocated the adoption of the Compulsory Notification of Diseases Act.
The CHAIRMAN said several of the matters referred to had been embodied in the Inspector's report. and already attended to.—The CLERK said there were now 17 indoor paupers as compared with 19 for the corresponding week last year, and 27 vagrants had been relieved. There had been two removals to the Workhouse from Garlands. One of them had been at the asylum perhaps 25 years.
Mr. RICHARDSON—What will he have cost us?
Mr. MILLICAN—A good round sum.
The CLERK—The most costly pauper ever we had was one who was resident 40 years in the asylum at a cost to the parish of £1500.

SCHOOL ATTENDANCE COMMITTEE.

The attendance list showed:—

	No. on Books	Attendance Average
Nenthead	133	110
Nenthall	45	42
Tynehead	20	14
Garrigill	55	47
Leadgate	25	23
Alston High	130	114
Alston Girls	59	46
Alston Infant	63	50

The CLARK said he had been under the impression that the duties of the Attendance Committee ceased on the formation of a School Board. He found, however, on referring to the Act, that these duties were to be performed for two months from the date of the election of the Board.

A VOTE OF THANKS TO MRS. JAMES.

Mr. RICHARDSON said that a meeting of the trustees of the High School had just been held, and the arrangements for the transfer had been completed. After the purchase of the school and site, and the putting up of additional buildings, they had a slight balance in hand. He therefore had a motion to make, with which

he thought they would all cordially agree. That was that they accord a vote of thanks to the lady (Mrs. James, of Liverpool), through whose munificence the school was placed in its present condition. Mr. PICKERING seconded the motion, which was cordially agreed to.

19th November 1892 Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

A sum of £50 would be required for special sanitary purposes for Nenthead.

Marriages

Stanhope Wesleyan Chapel, 12th inst., William Featherstone, Ireshope Burn to Miss Jane Peart, also Emerson Bowes, Lone Hill to Miss Fanny Peart, Lanehead, Weardale.

19th November 1892 (Hexham Courant)

Deaths

At Stanhope 10th inst. aged 51, Thomas Vipond.

In 1851, at Mathew Vipond, lead ore miner, aged 34, Elizabeth (Rain, married 29th February 1840, St John, Garrigill) aged 40, children Hannah 14, Winsele 14, Thomas 10, Ann 8, Mary 6, and John 3 months.

In 1861, at High Shield Hill, Matthew Vipond, lead miner, aged 46, his wife Elizabeth 50, children Thomas, lead miner, aged 21, Ann 18, Mary 16, John 12, William 9, and Matthew 7

In 1871, at Loaning Head, Garrigill, Thomas Vipond, lead miner, aged 29, and his wife Elizabeth (Richardson, married 6th June 1867, Alston) aged 24.

In 1881, at Sound Burn, Stanhope, Thomas Vipond, labourer in limestone quarry, aged 38, his wife Elizabeth 33, children Elizabeth A. 9, Maggie 6, and Ruth 2.

In 1891, at Stanhope, Thomas Vipond, limestone quarryman, aged 49, his wife Elizabeth 44, children Elizabeth A., housemaid, aged 9, Maggie, farm servant, aged 16, Ruth 12, James 7, and Mary H. 4.

In 1901, at Stanhope, Elizabeth Vipond, widow, laundress, aged 52, son James William 17, daughter Mary Hannah 14, general servant domestic Mary Hetherington aged 32, and boarder William Garthwaite, limestone quarry worker, aged 27.

19th November 1892 (Cumberland & Westmorland Herald)

ALSTON

TECHNICAL EDUCATION.—A meeting of the general committee was held on Saturday. Present: Rev. W. Farries (chairman), W. Core (secretary), Councillor Richardson, Rev. P. T. Lee, Messrs. T. Lattimer, G. W. Storey, R. Dent, T. Richardson, H. Petty, W. Holmes, and Dr. Short. It was intimated that the cookery classes would commence at Alston on Monday, the 21st inst. The fees received from the students to be used for local expenses, each student to pay the gum of 1s for the course. The public will be charged the sum of 6d each during the parochial course, the demonstrations being free. An account of the income and expenditure incurred during the time the cookery classes had been held at Nenthead and Garrigill to be sent in to Alston. Reference was made to the incident of the gas going out during Mr. London's lecture in the Town Hall. It

was considered to have been a misadventure, and not due to any wilfulness on the part of anyone.

SCHOOL BOARD.—The Board met on Saturday, and there were present Messrs. Elliott (chairman), T. Harrison, H. Bell, J. Rutherford, H. Walton, and T. W. Dickinson (clerk). The Chairman said he had notified to the Education Department the appointment of Mr. Dickinson as clerk. The Clerk said he had visited Nenthead School and had seen the corresponding manager and the treasurer to the old managers. They had not received any money nor paid any accounts this year. He understood the managers were willing to hand over the furniture and other assets if the Board would take the liabilities. Some discussion took place as to whether the Department would allow them to take over the liabilities, and ultimately the clerk was directed to ask the Department for leave to assume the liabilities on condition that they receive the assets, and also whether the late managers were entitled to a portion of the grant. The question of by-laws was considered, and it was thought best to leave the matter over till the time for the attendance committee expire. On the motion of Mr. Bell, seconded by the Chairman it was decided to retain the present staff of teachers till the end of the year on the old terms. The Clerk was directed to order the necessary books for the Board's transactions, and it was decided to continue the same scale of charges. The Clerk estimated the expenditure for the current year at £238 16s. 5d., and the receipts at about £176, and it was thereupon decided to issue a precept for £100. Mr. Harrison, drew attention to the supply of coal, and it was resolved to ask for tenders of the local coal agents. The Clerk said that Mr. Petty wished to know if the Board would form a committee for the science and art classes in the school, and it was resolved that such be done.

BOARD OF GUARDIANS

The fortnightly meeting was held on Saturday. Present—Messrs. H. Walton (chairman), G. Pickering, T. Richardson, W. Lee, J. Millican, J. Dickinson, T. Harrison, T. Nicholson, and T. Walton.

The use of the Board Roam was granted to the School Board for their meetings.

The Clerk read a communication from the Local Government Board which provides that the power, hitherto vested in the medical officer only, of allowing tobacco and snuff to inmates of the workhouse be exercised by the Guardians. They may at their discretion allow a certain quantity of tobacco or snuff to any pauper not able-bodied, or who is employed in any disagreeable work. On the suggestion of the Workhouse Master, who was called in, it was resolved to allow each pauper from lee to 1oz. to 1½oz. tobacco per week, time and place of smoking at the discretion of the Master.

The CLERK said the estimates for the ensuing half-year were £500, as against, £550 for the corresponding period of last year, and a precept was issued accordingly. Of the arrears due at the beginning of the month £110 6s. 5d., £56 7s. 9d. had been collected. There were 17 inmates in the house and 19 vagrants had been admitted.

Mr. N. WALTON (relieving officer) stated that the half-yearly vaccination had passed over and that with one exception the law had been complied with, and that was in the case of a child of Mr. W. Sinclair, Nenthead. Mr. Sinclair did not believe in vaccination. It was decided that Mr. Sinclair be summoned before the magistrates.

RURAL SANITARY AUTHORITY.

The CLERK reported that £130 would be required for the ensuing six months for sanitary and highway purposes. A sum of £50 would also be required for special sanitary purposes for Nenthead. Dr. CARSON, medical inspector for No. 2 District reported nine deaths during the quarter or at the rate of 5.2 per 1000. Births numbered eight. There had been two cases of scarlatina, one of erysipelas, and one very mild of typhoid. With regard to the filthy collection on Burn Bank, he wished the Guardians to see it for themselves.

The SANITARY INSPECTOR stated he was unable to prevent people depositing refuse, nor had he any other place to remove it to. He was directed to have the accumulation removed.

Mr. KIRSOP, surveyor, presented a proposal from the Garrigill Burial Board, from which it appeared that, being desirous of rebuilding the cemetery walls, they wished to take in about 18 inches of the roadway for a few yards, reducing it from 21ft. to 19ft. 6in. in breadth, and applied for the sanction of the Highway Board. In return they agreed to give a portion of land at each end of the cemetery. It was considered that the change would be a desirable improvement, but Mr. RICHARDSON pointed out that from similar cases which had come before the County Council he was convinced the Authority could not legally alienate any portion of a highway.

The CLERK concurred, and it was passed by a majority of the Board that the request be acceded to, though it was not entered on the minutes.

2nd December 1892 (Newcastle Daily Chronicle)

THE LEAD WORKERS' CRISIS IN TEESDALE

The utter prostration of the lead trade in Treesdale oombined with the strike of the whole of the miners employed by the London Lead Company, writes our Teesdale correspondent, is being keenly felt throughout the neighbourhood. The determined attitude of the masters and men seems to preclude the possibility of an early settlement of the dispute, Mr. W. T, Scarth, the chief agent of Lord Barnard, of Raby, who is the owner of the royalties, has agreed to proceed to London for the purpijse of having an interview with the directors. Meanwhile, the impoverished condition of the men is exciting much sympathy. The question of outside assistance has been raised, and it was proposed and seconded at the last meeting of the unemployed that a statement of the heartrending condition of the lead miners be forwarded to the union lodges, and all those interested in the labour question. With the approach of winter the outlook is extremely dismal.

3rd December 1892 (Hexham Courant)

FOURSTONES

A BOY KILLED AND A MAN INJURED

A sad accident, which was attended with fatal results, occurred at Prudham Freestone Quarry (Fourstones) on Wednesday morning last. A boy named Benjamin Irwin, 12 years of age, son of Mr Joseph Irwin, Engineer, was employed by Messrs Benson to convey away "bearing" from the quarry with a horse and waggon and on driving up to the face of the quarry on Wednesday a huge mass of earth weighing ten tons gave way and fell to the bottom entirely burying the little fellow. The foreman Mr Wood was also partly buried beneath

the debris and had his right leg broken. … About a quarter of an hour elapsed before the boy was dug out, and when found he was quite dead.
In 1891, at Kiln Cottages, Warden, Ann Thornburn, widow, aged 68, sons, William, labourer, aged 28, John, labourer, aged 25, and grandson, Ben Irwin, scholar, aged 10.

3rd December 1892 (Hexham Herald)

WEARDALE

The Weardale Iron Company have given notice to their workmen in Upper Weardale to terminate their engagement shortly, as they are stacking up the iron ore.

Deaths

Alston Market Place, 27th ult., Wm. Lee, grocer and draper.
He had married 8 or 9 months previous, he was a member of the Alston Volunteer Corp, had been unwell the past few months, he was aged 35.

10th December 1892 (Northern Echo)

TEESDALE LEADMINERS. AN APPEAL.

We are asked to print the following appeal on behalf of the Teesdale leadrniners:—
"For many years lead mining has been the staple industry of Teesdale, large quantities of lead being raised every year in the mines worked by the London Lead Company. The mines are principally situated in the manors from five to ten miles distant from Middleton in Teesdale where a large number of the men employed at the mines reside. Owing to the lonely situation of the mines far away from any human habitation the company provide large lodging houses or shops (to use the native term) near the principle entrance to each mine, in which the labourers stay until they complete their weekly work. The miners were required to give 40 hours labour each week, but to meet this case they were allowed to complete their work in four days the hours being divided as follows: Mondays 8 hours: Tuesday and Wednesday 12 hours: and Thursday 8 hours, commencing on Monday at 11 am, and finishing on Thursday at 2 pm, a system not in accordance with the eight hours movement but one very satisfactory to the miners themselves, taking into consideration mine shop life and its surroundings. The miners work chiefly by piece, being paid a certain sum per fathom, such price being fixed quarterly by the company's agents, according to the nature of the stone or vein in prices varying from £10 to £1 per fathom. On the miners going to the company's offices on October 28th to renew their bargains, they found that the directors had laid down a new system of working, the conditions of which when laid before the men, were so unjust that upwards of 150 refused to accept their bargains. By the new conditions they were required to spend 106 hours in and about the mine shops each week for the purpose of working 40 hours in the mine, the shifts ranging over five days instead of four. The miners would gladly have accepted the new system had they been able to get to their own homes each night, but under the the new rules obliged to take their meat with them to the mine shop and stay them all the week, they refused to accept them but offered to work an extra hour on the Monday and Thursday, thus making their shifts two 9 hours and two 11 hours. This was refused by the directors. On November 4th the miners made a new offer—viz., to be allowed to resume work under the old system refer the new

system to arbitration, and abide by the decision of the arbitrator. This offer was also refused. On November 12th the following offer: was submitted—viz., to accept the new terms under protest, desiring arbitration within three months, but this also shared the fate of the others, the men being told that if they took any bargains at all they would have to accept the new terms unconditionally, which practically means imprisonment with a slight amount of liberty.

“Another injustice under which the miners suffer is the system of payment of wages. They are paid monthly, but do not receive the wages (which are by no means large, averaging about 15s per week) until a month after they are worked for. Thus a person commencing to work in the mines has to work eight weeks before he receives any wages, a state of affairs unparalleled in other parts of England. Upfortunately the miners are not connected with any association, and are practically helpless unless financial help from some quarter is forthcoming, for even ii they accept the master's terms, shortly, as they received their last pay on the 26th it is feared great distress will be experienced. Subscriptions are earnestly solicited to meet the urgency of the case, and will be thankfully received by the treasurers, Mr John Hutchinson, Masterman-place, Middleton-in-Teesdale, and Mr Michael Richardson, Town End, Middleton-in-Teesdale.

10th December 1892 (Cumberland & Westmorland Herald)

OUR LOCAL INDUSTRIES.

II.—THE BARYTES MINES ON DUFTON FELL.

The glory of Cumberland and Westmorland is their mountains, and it is our joy to live in a land encircled by the mighty hills, as the mountains “round about Jerusalem." Mountaineering is a splendid recreation, and we would suggest to our youth, amongst whom there is undoubtedly a tendency to indulge in athletic exercise to the damage of the heart and arteries, that if they would make themselves acquainted with the beauties of the scenery that surrounds us, throwing in at the same time an inter mixture of botany, geology, and natural history, they would find a greater reward than they possibly can in the almost exclusive pursuit of football, which at the best, even if it lead to strong legs, conduces, we are afraid very much to “wooden heads." It was Keats who said that “a thing of beauty is a joy forever,” and we can say that the memory of some of the grand panoramic views that we have had from various elevations in the district will never fade away. The neighbourhood of the pretty fellside village of Dufton is a favourite resort, and the “High Cup Nick" will repay a visit at any time of the year, provided there is a clear atmosphere. Our last excursion, in connection with our project of giving to our readers some account of the various Local Industries scattered up and down around us, was to Dufton, with a view to making ourselves acquainted with an industry which has only sprung up within the last few years—the barytes mines. We met with a genuine hearty welcome from Mr. Gibson, the worthy manager of the Dufton Fell Barytes Company Limited, to whom we had previously intimated our intention of giving him a call, and after partaking of his unostentatious hospitality, we set off in company with one of the workmen to Rundale, that part of Dufton Fell immediately behind Dufton Pike, a huge sugar-loaf shaped hill, that seems in the vast ages behind us, to have broken away from the range we call the “Backbone of England.’’ There, right up in the mountain gorge, at an elevation of some 1600 ft., after trudging an ascending road nearly three miles, we came to the barytes mines. These mines are worked on old levels, which were made

in the days of lead mining, when the London Lead Company, in hope of finding an El Dorado amongst the Cumberland and Westmorland hills, but where, alas for human plans they are said to have sunk in a very literal sense in the Silver Band and other mines some £40,000. Notwithstanding, there is still some faith left in the project of finding profitable working for lead ore in these hills, for a new company is erecting at great coat machinery in the Murton district, a few miles south of Dufton, and vigorously prosecuting mining operations there. But we have come to see the barytes mines, and the first thing our readers will ask is—what is barytes? Speaking technically, it is the sulphate of barium, but in every day parlance, it is what we commonly call heavy spar, because of its high specific gravity. It is found abundantly in almost every country, usually accompanying, in the place where it is found, galena, or common lead ore, of which it frequently forms the gangue. It is beautifully crystallized, of various colours, from a snowflake white to a brown. It is translucent and often almost transparent. It is also insoluble, and the only salt of the earth which is not poisonous. Years ago, when the London Lead Company were at work, barytes had no commercial value, and was simply debris from the lead ore, to be cast aside as useless. Reaching a hut up the mountain side, enveloping ourselves in cap and overcoat (some sizes too large), and putting on a pair of waterproof boots, we ascended the hill by a circuitous path until we reached the place where the mineral is washed and sorted by men and boys, before being sent down to the mill at Dufton to grind. From this point we made an almost perpendicular ascent to the level known as Cragg's level, and lighted candle in hand, accompanied by our guide, we penetrated underground until we reached the termination of the working, and there found the miners at work picking out the stone, which glistened in the light of the candles, pieces of lead shining here and there like diamonds. This is carried in a small waggon along the tramway, and is tipped into a pit, where it is washed or “hushed” down an artificial channel to the place where the men were washing. The washers sort it into three divisions, and pick out the pieces of lead ore into a separate heap. The latter is not manipulated by the company, but is sold and sent away to the smelt mills, its value being about £6 per ton. There is very little silver in the ore found in Dufton Fell. The barytes is carted down to the mill at Dufton, where it is classified, then dried on a large kiln, and Afterwards ground, passing through three pairs of millstones, and coming out at the third operation as a fine impalpable powder. This is packed in bags or casks, conveyed to Longmarton Station, and despatched to its destination as ordered. The powder is used for various purposes, both in connection with pottery and fine paper making, but it is chiefly employed in the manufacture of paints, its quality being according to its purity of colour. When perfectly white its commercial value is somewhere about £2 per ton, and the less pure down to 10s. The pure white is used for painting in water colours, but its more general use is in the preparation of common paints, for which it is peculiarly adapted, owing to the fact that it is impervious to any kind of weather, and its use has cheapened paints very much. It is sent from Dufton to all parts of England, Scotland, and Ireland. This industry has been of considerable importance to the village of Dufton in the matter of the employment of labour, and it is our wish that the Dufton Fell Barytes Company may meet with every success in its speculative enterprise, and so extend its business that still greater commercial prosperity may come to the village.

12th December 1892 (Northern Echo)

THE TEESDALE MINERS. MEETING ON SATURDAY.

The leadminers now on strike held a meeting at Middleton on Saturday.-Mr John Hutchinson (chairman) detailed what had taken place since their last meeting. Mr W. T. Scarth had met the directors in London on Friday, with a view of effecting a settlement, but he regretted to say that his endeavours had been unsueceesfull. An appeal for funds had also been issued, and copies forwarded to 29 trade unions. He had received replies from Mr J. Wilson, secretary of the National Association of Miners; Mr Patterson, secretary of the Durham Miners' Union and Mr Winwood, secretary Staffordshire Miners. He had also had a conversation with Mr Hobbs, secretary of the Cleveland Miners' Association, who asked for 30 circulars that he might distribute to each lodge in the association, and at the Council meeting a decision would be arrived at as to the extent of their help. The Rev. J. Milner had also written to the directors asking them to rearrange the system that the miners might get to their homes in the middle of the week. A slight alteration was sub-mitted by the directors, but this, however, was counterbalanced by the extra time to be worked on Saturday. With regard to the scheme for relief, there had been eight collectors appointed to obtain subscriptions in Middleton and Barnard Castle, and up to the present £44 had been sub-scribed. He had also seen Mr J. Raine, the president of the Flower of Teesdale Lodge, Cleveland Miners Association, who had called a meeting, and the lodge had decided to make a weekly levy of 3d per man, such levy to continue till within two weeks of receiving their first pay. (Applause.) As to the result of the appeal in other quarters, he could not say how it could be met, but judging from the way appeals were responded to during the Durham strike they could hope for considerable augmentation. The private gentlemen too, who were interested in labour qlestions had not yet been approached, but no doubt they would respond liberally, especially those connected with the dale. They had met that day to learn whether the conditions should be accepted.—Mr T. Brunskill thought that, taking into consideration all matters, it was better to make a trial of the terms. In the meantime they could be recruiting themselves for the future. He was gratified to see the way in which subscriptions had come in, but they were a long way short of what was required, During the six weeks they had been out of employment he considered £600 had been lost. What they should now do was to accept the best terms and hope for better things in the future.—Discussion ensued as to the advisability of accepting the conditions, and the Chairman said the letter from Mr Scarth plainly showed the directors were detemined to abide by the conditions laid down. He should like to refer to some misconception which was abroad regarding the advice the directors had received. Mr Millican had assured them the advice had not emanated from him. No one knew the trouble and anxiety which he had had in connection with this matter. He (the Chairman) thought it was only justice to mention this and no man should be condemned unheard.—The following resolution was proposed by Mr T. Brunskill, and seconded by Mr T. Horn:—"That this meeting of miners cannot see their way clear to accept the conditions offered by the directors as they stand at present, but agree to accept the five days system, and, seeing that the great proportion of the men will be working in one set, that they be allowed to work their shifts without a break and to take their meat into the mine with them.“ — This was carried and the meeting terminated.

17th December 1892 (Northern Echo)

TEESDALE LEAD MINERS
DISCUSSING THE MASTERS OFFER.
AN ACCEPTANCE.

At meeting of lead miners at Middleton-in-Teesdale, who are at present on strike, vas held in the large clubroom of the Cleveland Arms Hotel on Friday to consider the last offer made by the masters, Mr J. Hutchinson presided, and there was a large gathering of workmen present.—The Chairman said he had been informed by the manager at the mines that the directors had talked the matter over, and that they had decided to agree to the men's offer of five days of eight hours per week, with a slight alteration. The directors required a full eight hours' work in the "face," and if the men wished to have some bait and a little rest, extra time would have to be added. If they allowed three-quarters of an hour for bait on that meant eight hours and three-quarters each day. The directors in their letter said that condition would have to be strictly adhered to if accepted, and if any man was seen to go late to work or coming from work too soon he would be liable to be dismissed at once. (Voices: "It's a good job for them," and "There will be a lot of them.") When the deputation waited upon the manager he wanted to help them in arranging the three-quarters of an hour as to the shifts, so that if they, decided to accept the masters' offer they could arrange to suit themselves. He then read

THE MASTERS OFFER
In the case of one set.

Monday	10 am	to	6.45 pm
Tuesday	7.15 am	to	4.00pm
Wednesday	6 am	to	2.45 pm
Thursday	8 am	to	4.45 pm
Friday	5 am	to	2.45 pm

In the case of two sets

	1st Set				2nd Set		
Monday	10 am	to	6.45 pm	Tuesday	2 pm	to	10.45 pm
Tuesday	5.15 am	to	2 pm	Wednesday	5.15 am	to	2 pm
Wednesday	2 pm	to	10.45 pm	Thursday	2 pm	to	10.45 pm
Thursday	5.15 am	to	2 pm	Friday	2 pm	to	10.45 pm
Friday	5 am	to	1.45 pm	Saturday	5 am	to	1.45 pm

The shifts. were so arranged as to allow the men working in single sets to return home on Tuesday for a fresh supply of food, and those working in the double sets to return on Tuesdays and Wednesdays alternately for the same purpose. It was not exactly what they wanted there was an extra three-quarters of an hour. If that meeting agreed to accept the offer the matter would be at an end. Mr. T. Brunskill said things were beginning to look very serious, he was sorry to say that they were beginning to undermine themselves, and to hold out longer would be taking the ground from under their feet. He proposed that the masters' offer be accepted.

Mr. Michael Richardson, in seconding the motion, said he thought the three-quarters of an hour would die a natural death. (A Voice: " I will never die.") The people were agitating for an eight hours day for miners, and he thought that

measure would be passed, and then they would have the law in their own hands. He did not think the extra three-quarters of an hour would last long.
Mr. Joseph Raisbeck moved that the men remain firm and stick it out for eight hours, and Mr. T. Cooper seconded.
The Chairman said before he put the vote to the meeting, he hoped they would consider the matter carefully, because every week brought the wolf of hunger nearer the door. The three-quarters of an hour between the masters and men seemed to be a paltry thing, and it they refused to accept the, offer it meant that they would lose the sympathy and support of the country. He thought they, should accept the masters' offer, and then join some labour organisation. There was an agitation for an eight hours day for miners, and he was of opinion that that measure would be passed.
The vote was taken, and the amendment that the men refuse to accept the masters' offer was carried by 63 votes to 44.
A deputation waited upon the manager, and informed him of the decision arrived at. The manager, in reply, said if the men had accepted the offer, he would have done his best to get the extra time knocked off, (A Voice: "It's only a hoax.) He thought the directors would not stir another peg.
A relief fund has been opened, and the Chairman (Mr. Hutchinson) stated at the meeting that about £72 had been subscribed. (Applause.) Sir Joseph Pease had forwarded the following a letter:,—"I have much pleasure in sending you £10 towards the funds. I cannot understand how any body of gentlemen acquainted with the character of the employment of the Teesdale lead mines as existing for many generations could suggest terms that would be so detrimental to them." (Renewed applause.) Messrs. Appleton, French, & Scrafton had also it promised to forward two sacks of flour. (Hear, hear.) Mr. Walter Beaumont forwarded a cheque and enclosed a note as follows : " Please forward this to the right quarter, for I know it not, so as to reach lovers of home, light, and fresh air—our Gods gifts." (Hear, hear.)—Other donations and gifts in kind have been received.

A SETTLEMENT EFFECTED.

At a subsequent meeting, a settlement was effected, the bargains being accepted on the eight hours' system, five days a week. The men will therefore commence work on Monday.

17th December 1892 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

The medical officers report for No. 2 district showed 15 births and 6 deaths.

WEARDALE

Mrs Phoebe Race, wife of Mr George Race of Westgate, after a prolonged and painful affliction expired on Wednesday the 7th inst., aged 57 years.
In 1891, at George Race, carpenter & builder, aged 57, his wife Phoebe 56, children Annie 29, William, joiner, aged 25, Elizabeth 23, Thomas, joiners apprentice, aged 18, and granddaughter Martha R Lowther 4 years.
The death of Mrs Elizabeth Vickers widow of Mr Joseph Vickers of Howl John Farm, Stanhope took place at Thornley Hall on the 10th inst., at the advanced age of 91 years.
See 31st October 1885.

21st December 1892 (Teesdale Mercury)

Letters to the Editor.

TEESDALE LEAD MINERS

"A word in season" for lovers of home, light, and air—our God's Gifts.

Sir, —An old proverb “Tell a man the plain truth and make him your foe” scares many—but thank God! not all —from bring a man's friend in spite of himself. The present state of mining in Upper Weardale discovers the plain and painful fact, however, that heavy is the burthen which pride lays on its own shoulders. Even Allendale, just beyond, "knows its own bitterness," May I then venture to think that out of the thousand, according to your paper, who took kindly the remarks made about ten years ago to Teesdale miners and others, at a public meeting, a few on the side of employer and employed may (if you deem them suitable for insertion) are to read the following: — “Although, when the kindly and genial efforts of even Mr Scarth are so far unavailing in establishing a point of approach for both mine-owner and mine-worker— under a lease more favourable, I believe, than was the old Beaumont agreement—in the present sorrowful differences between labour and capital, some may consider me an unwise interloper, yet I can but “draw a bow at a venture,” Well, Sir, past experience of some of the underground toilers of your valley—as with other brave men in other parts—goes to prove that endurance and contentment brace the nerves and sway the hearts of some who now assert that to protract the hours of mine-hut-life, without absolute need and proven cause, is an absurd and injurious as to dry up the gravy of good meat, and reduce its nourishing powers by overcooking. Does, moreover, the love of home, the pleasure of light, and the health-giving fragrance of fresh air go for so little, in the eyes of such as know right well that each is God’s gift, above gold and silver indeed in value! that their *ipse dixit* is to deprive the miners of such priceless boons in no little degree? Did such conduct succeed in the adjoining districts? Did a kindred spirit tell anywhere in the long run? Does it to day answer either in fellow feeling or worldly prosperity? I defy any one, who has thoroughly tested and effectually probed this important and vital question practically, impartially, and prayerfully, as best be can, to say that such a change in the men's hours, viewed under all its aspects, can possibly produce prosperity to the London Lead Company. Long ago one, who does wish them well, told me that that loss, which now presses so heavily on this company, must go from bad to worse, and more, he added, namely, that unless they follow God's geography of lead, and wise men’s sound ways of work, they cannot make the miners pay. We all have read in the poor and rich man's book, “Thieves are all who enter not by the door."—Your, truly

W. BEAUMONT. 80, Gower St., Bedford Square, London, Dec. 10th, 1892

24th December 1892 (Hexham Courant)

THE TEESDALE LEAD MINERS.

SETTLEMENT OF THE DISPUTE.

A settlement of the dispute was arrived at on Friday afternoon the men agreeing to work five shifts instead of four as for many years past, each shift comprising eight and three quarter hours. The “bargains were let” on Friday evening and the workmen were at once told off to put the mines in order for a resumption of work on Monday morning.

31st December 1892 (Hexham Courant)

NEWBROUGH
SAD DEATH OF A MINER

On Thursday last an inquest was held before Mr H. T. Rutherford, deputy coroner for South Northumberland, at Settlingstones, on the body of a miner named George Dodd, who met with a fatal accident on Wednesday morning last, in the Settlingstones Mines. Deceased was a widower and had eight children, the youngest of which was six years old. Mr Richard Thompson was foreman of the jury. Mr G. F. Bell, Inspector of Mines, Newcastle, was present at the inquiry.

Thomas Dodd deposed that he was an engineman and lived at Allerwash. The body viewed by the coroner and jury was that of his brother George Dodd, who was 49 years of age and resided at Cubstocks.

John Waugh said he lived at Allerwash and was a miner. Deceased and he were employed in the same mines, Settlingstones mines, and they were mates. On Wednesday morning, deceased and he had to go down the pumping shaft to look at the Colring, which was out of order. They got down the shaft all right. They went down about 37 fathoms from the surface, and went onto the main platform for the purpose of repairing the Colring. When they got on to the main platform the water was dropping very much, and the deceased's light went out. Deceased asked him to get on to the ladder and keep his light in. The ladder was adjoining the main platform. When deceased's light went out, he got it lit from him. He stepped up the ladder a little and deceased got onto the ladder underneath him, and went down a few steps, and got onto a few boards below the main platform. As soon as he stepped on these boards and got his foot rule out to measure a piece of wood he fell. He could easily have taken the measurement of the piece of wood from the main platform, but instead of doing that he got on the ladder and descended three or four feet and then stepped of the ladder on to two cross pieces of boards, which were some three or four feet below the Colring. Whilst deceased was standing on the main platform, he warned him to be careful. When deceased got on to the cross boards he sat down on one knee and reached up to the Colring to measure a piece of wood to insert in the Colring to tighten it, and just when he was in the act of reaching up to take the measurement, the boards he was standing on gave way and deceased fell down the shaft a distance of about 12 fathoms. After deceased fell, he shouted "George" two or three times, to see if he was alive, and if he had been alive he would have gone down to him. When he got no answer he ascended the shaft and got assistance, and along with another man, he went down the mine by another shaft, and they found the body of the deceased. If deceased had remained on the platform he would have been alive that day. The accident was entirely due to his own carelessness. Deceased had no business whatever on these cross pieces of timber; he had been a practical miner for many years. If deceased had told him, he was going on to those boards he would have told him not to do so.

Thomas Johnson, deputy manager, said he saw deceased and Waugh go down the pumping shaft, and he had told Dodd to be careful. Dodd replied that there was no danger, as he had been there many a time. Deceased had no right on those cross pieces of timber, and could easily have taken his measurements from the main platform.

A juryman asked why these cross boards were allowed to remain where they were, and Mr Watson, the manager of the mine explained by means of a model of the shaft that these boards were only left there for the means of catching grease which dropped from the main platform.
The jury returned a verdict that deceased had been accidentally killed by falling down the pump shaft of Settlingstones mine.
They accident occurred at 8 in the morning, and he had started work at 6 am. His wife Sarah, had died 2nd quarter of 1892, aged 47.
In 1841, at Cragg End, Haltwhistle, John Dodd, Farmer aged 50, his wife Jane 40, and children, Jane 15, Joseph 15, John 14, Eleanor 12, Edward 10, Robert 8, Thomas 6, Henry 5, Ann 3, and Elizabeth 1.
In 1851, at Haydon Hill, Jane Dodd, married, farm labourer, aged 50, Robert, farm labourer, aged 17, Thos, farm labourer, aged 16, Henry, farm labourer, aged 14, Ann, farm labourer, aged 13, Elizabeth, farm labourer, aged 11, George 8, and William 9.
In 1861, at Haydon, Hexham, John Dodd, shepherd, aged 62, his wife Jane 62, children, Joseph, agricultural labourer, aged 35, Robert, shepherd, aged 27, Thomas, engineman, aged 26, and Elizabeth 21.
In 1871, at Haydon Fell Cottage, George Dodd, lead ore miner, aged 27, his wife Sarah (Watson, married 4th quarter 1863) aged 26, children Mary J 6, Margaret A 4, and Siddle 11 months.
In 1881, at New Alston, Haydon, George Dodd, lead miner, aged 37, his wife Sarah 36, children Mary Jane 16, Siddle 10, John W. 6, George 4, Alfred 3, and Harold 9 months.
In 1891, at Haydon, Hexham, George Dodd, lead miner, aged 48, his wife, Sarah 46, children Mary Jane 26, Siddle, lead miner, aged 20, George, farm labourer, aged 14, Alfred 13, Harold 10, Sarah B. 7, Frederick 5, and Matilda aged 3.
In 1901, Siddle was working as a cartman on a farm, boarding at Frankham Fell, Warden. George aged 24, general labourer was living at Chesterwood, Haydon with his wife Mabel aged 25, children James 3, Elizabeth Jane, 6 months, stepson Edward Telford, and boarder, James Telford, widow, aged 75, living on his own means. The next census entry shows Sarah Jane and Matilda boarding with Joseph Dargue, lead miner and his family. Harold was working as a carter on a farm for Dixon Dickson at Aydon, and Alfred was boarding at Grove gate House, Newbrough also working as a carter.

31st December 1892 (Hexham Herald)
Deaths
Frosterley, 24th inst., aged 64, Ralph Bainbridge, platelayer.
In 1871, at Frosterley, Ralph Bainbridge, platelayer, aged 42, wife Elizabeth 39, children Joseph, clerk, aged 18, Ralph 11, Phoebe E. 4, and Sarah 1.
In 1881, at Frosterley, Ralph Bainbridge, plate layer, aged 52, his wife Elizabeth 49, children Ralph, clerk, aged 21, Phoebe E. 14, and Sarah 11.
In 1891, at Front Street, Frosterley, Ralph Bainbridge, quarry platelayer, aged 62, wife Elizabeth 59, daughters Phoebe, schoolteacher, aged 24, and Sarah 21.
On the 26th inst aged 60, Anthony Erwin, late of Nenthead. *(death registered at Lanchester, Co. Durham)*
In 1861, at Overwater, Anthony Erwine, lead miner, aged 28, his wife Isabella

(Percival, married 21st February 1856, Nenthead) aged 29, children Joseph 4, and Isabella 11 Months.
In 1871, at Hill Top, Nenthead, Anthony Erwin, lead miner, aged 38, his wife Isabella 39, children, Joseph 14, Isabella 10, George 7, Anthony 5, and Thomas 1. In 1881, at Hillersdon Terrace, Nenthead, Anthony Erwin, lead ore smelter, aged 48, his wife Isabella 49, children, Joseph, lead ore smelter, aged 24, Isabella, dairy maid, aged 20, George, lead miner, aged 17, Anthony, lead ore labourer, aged 15, Thomas 11, John 8, Mary Ann 5, and grandson, Alfred Erwin 1. In 1891,, at Hill Top, Nenthead, Anthony Erwin, lead ore smelter, aged 58, his wife Isabella 59, son John, lead ore washer, aged 18, daughter, Mary Ann 15, and grandson, Alfred Erwin 11.
In 1901, at Leadgate, Iveston, Durham, Isabella Erwin, widow, aged 69, children, George, iron foundary labourer, aged 37, Anthony, steel worker, aged 35, John, coal miner hewer, aged 28, and Mary 25.
Isabell Erwin died 4th quarter 1901, aged 70, registered at Lanchester.

WEARDALE LEAD COMPANY

The ordinary meeting of the shareholders in the above company was held at Cannon Street Hotel, London, on Friday afternoon, under the presidency of Mr G Richardson. - The Chairman moving the adoption of the report and accounts, said the negotiations that they had had with the Ecclesiastical Commissioners had resulted in an arrangement whereby the Company had received concessions amounting to something over £9,000 in royalties and rents. They had sold very nearly the same quantity of lead as they did last year - within thirty tons - but it realised £6,400 less. The mines were looking somewhat better now than they had been. The expenses during the year had been reduced by £8,500. Generally speaking, if lead was to continue from this time forward at the present rate they did not see that there was much prospect in the future unless they were led to believe that at selling they had got a very valuable mine.

WEARDALE

SAD ACCIDENT AT COPTHILL

On Saturday afternoon Upper Weardale was startled by the report of an explosion at Copthill. Mr Joshua Featherstone, who is a miner, was filling a bag with powder from a can, which contained 7lbs. His wife was assisting him, and they were only a few feet away from the fire. During the process it seems that a cloud of powder dust had formed, which was drawn towards the fire and exploded, and so ignited the whole of the powder. The noise of the explosion which followed was heard a long way off, and the destruction caused was considerable. The window was blown clean out, and an inner door was wrenched off, the ceiling was removed, and half of the roof carried away. There was also a hole blown through the partition into a neighbours house big enough

to allow the neighbour to come through to render prompt assistance to poor Featherstone and his wife. How they escaped instant destruction is miraculous. As it is, they were very badly burnt. The poor wife, however had sufficient presence of mind to rescue her baby from the burning cradle. Dr Wolfe was speedily in attendance, and dressed the burns of the three sufferers, who are now doing as well as can be expected. A concert promoted by the Weardale Band is to be given on Friday night at Wearhead, for the benefit of Featherstone and his family. (*a later paper records that £9 was raised from the concert held at Stanhope town Hall*)

In 1881, at Spring Well, Heathery Cleugh, Joseph Featherstone, lead miner, aged 43, his wife Mary aged 40, children John J., labourer, aged 24, Mary A. 17, Joshua 13, and Frances H. 1. In 1891, at West Fall, Wearhead, Joseph Featherstone, widower, living on own means, aged 54, children John Joseph, lead miner, aged 30, Mary Ann, house keeper, aged 27, Joshua, lead miner, aged 23, Frances H 11, and Mary 4.

In 1901, at Copt Hill, Joshua Featherstone, Whin quarryman, aged 33, his wife Mary (English, married 3rd quarter of 1892) aged 32, and son Lawson 1 year.

In 1911, at Wearhead, Joshua Featherstone, disabled limestone quarryman, aged 43, his wife Mary 42, children Lawson 11, and Beatrice 8.

On Saturday evening William Nicholson, aged 18 of Stanhope, limestone quarryman died from injuries received the previous day from an explosion of blasting charges. The unfortunate young man was walking along the road smoking, after the dinner hour on his way to Ashes Quarry, having some blasting charges used at the quarry in his hands, when the charges exploded, blowing off one hand and shattering the other in such a manner that necessitated amputation. His face and eyes received serious injuries. DR Livingstone and Dr Grey were in attendance but the sufferer succumbed. … The young mans father is blind having lost his eyesight by an explosion in the quarries over 20 years ago.

In 1871, at Crawleyside, John Nicholson, labourer & license excavator, aged 34, born Westmorland, wife Catherine Ann 27, stepdaughter Ann Bowman 11, stepsons Joseph Bowman 9, Thomas Bowman 8, son Henry 6 months, domestic servant Alice Elliott aged 17, and boarder Isaac Elton, lead miner, aged 36.

In 1881, at Crawleyside, John Nicholson, formerly limestone quarryman, blind caused by accident, aged 48, Catherine 38, Thomas Bowman, general labourer, aged 18, Henry 11, John 9, William N. 7, George F. 3, and Sarah N. aged 1.

In 1891, at Stanhope, John Nicholson, aged 59, blind, his wife Catharine A. 48, children Thomas Bowman, plate layer, aged 28, Henry, limestone quarryman, aged 20, John, limestone quarryman, aged 18, William N., limestone quarryman, aged 16, George F., limestone quarryman, aged 13, Sarah W. 11, Frances J. 7, Dora E. 4, and granddaughter Maude Talentyre 7.

Deaths

Stanhope 7th inst., aged 17, William Nattrass Nicholson. *See above*

Stanhope West End, 9th inst., aged 74, Thomas Bainbridge.

In 1881, at Bridge Head, Thomas Bainbridge, limestone quarryman, aged 62, his wife Mary 52, children Matthew, limestone quarryman, aged 29, Elizabeth, dressmaker, aged 25, Jane, housework, aged 20, Thomas, limestone quarryman, aged 18, Annie, dressmaker, aged 15, and Alice 11.

In 1891, at Stanhope, Thomas Bainbridge, platelayer, aged 72, wife Mary 62, daughters Elizabeth, dressmaker, aged 35, and Alice 21.

28th January 1893 (Hexham Courant)
Deaths
At Bruntly Syke, Alston, 20th inst. aged 60 Hannah wife of William Walton.
In 1851, at High Annatwalls, aged Thomas Walton, lead miner, aged 61, born Allendale, his wife Mary 57, children Thomas, lead miner, aged 26, William, lead miner, aged 21, Ann, dairy maid, aged 18, and John 13.
In 1861, at Annatwalls, William Walton, lead miner, aged 31, his wife Hannah 28, children Sarah 6, Joseph 4, and Amelia 1.
In 1871, at Annatwalls, William Walton, farmer of 11 acres, aged 41, his wife Hannah 38, children Joseph, lead miner, aged 14, Amelia 11, and Thomas 8.
In 1881, at Annatwalls, William Walton, farmer of 23 acres, aged 51, his wife Hannah 49, children Joseph, farmers son, aged 24, Amelia 21, Thomas, grocers apprentice, aged 18, and John W. 8.
In 1891, at Bruntley Syke, William Walton, grocer & farmer, aged 61, his wife Hannah 58, children Joseph, farmers son, aged 34, John Wm. drapers apprentice, aged 18, and domestic servant Margaret A Richardson aged 17.
At Grisedale Lane, Alston, 21st inst. aged 83, Sarah Harrison.
In 1851, at Low Farnbury, Jonathan Harrison, lead ore miner, aged 32, his wife Ann (Wilkinson, married 25th November 1841, Alston) aged 32, children Agnes 8, Mary 6, Jane 4, and Thomas 2. Ann died 1st quarter of 1852.
In 1861, at Physic Hall, Jonathan Harrison, lead miner, aged 41, wife Sarah (Martindale, married 15th May 1853, Alston) aged 47, children Jane 14, Thomas, lead ore washer, aged 12, and stepson Thomas Martindale, lead miner, aged 20.
In 1871, at Front Street, Sarah Harrison, widow (Jonathan died 4th quarter of 1870, aged 52), aged 61, granddaughter Sarah Ward, domestic servant, aged 15, boarders Thomas Clapham, carpet weaver, aged 23, and George Brown carpet weaver, aged 57. In 1881, at Front Street, Sarah Harrison, widow, confectioner, aged 71.
In 1891, at Edmunds Lane, Sarah Harrison, widow, aged 81, born Kirkhaugh. See 27th November 1841
At Tynehead, Garrigill, 20th inst. aged 61, Mary Ann Millican.
In 1881, at High Lee House, Garrigill, Mary Ann Millican, married, annuitant, aged 50, and cousin Sarah Jane Stephenson, sewing mistress, aged 29.

28th January 1893 (Cumberland & Westmorland Herald)
ALSTON & DISTRICT NEWS
DEATH or MR. M. WHITFIELD.— We regret the death of our respected townsman Mr. Matthew Whitfield, miller, which took place on Saturday last. Deceased for a great number of years has carried on the business of a miller, and up to a few weeks ago was able to attend to his business. He has been in failing health for some time, but was only confined to his room recently. Mr. Whitfield was a Wesleyan in religion, holding until lately the responsible office of a class-leader, which he was compelled to resign owing to ill health. He was also a local preacher, and was a regular attender at the services. His remains were interred in the cemetery on Thursday. Deceased was 63 years of age.

TECHNICAL EDUCATION.— A general committee meeting was held on Saturday, present: Rev. W. Ferries (in the chair), Coun. Richardson, Rev. P. T. Lee, H. Petty, W. Core (sec.). In connection with a class on ambulance and sick nursing, it was decided that the secretary write to the St. John's Ambulance Association for form of application to affiliate such a class with that association. The Rev. P. T. Lee proposed that the secretary write to the trustees of the Town Hall stating that as the committee are carrying on work for the benefit of the district, they would respectfully ask them to allow them the use of the hall at a cheaper rate and also ask for some abatement of last year's charge made. The Rev. P. T. Lee's application for two lectures on mining, by Mr. Lawn, two on agriculture by Mr. Lawrence, and as many of Mr. London's six lectures applied for last year as were not received this winter, as well as a class on laundry work for ladies, was passed, and the secretary was requested to forward the applications. The application for a grant towards the cost of apparatus for Nenthead art and continuation class was passed.

BOARD OF GUARDIANS.

Held on Saturday. Present—Messrs. H. Walton (chairman). J. R. Walton, Richardson, Pickering, Lee, Millican, Bramwell, Nicholson, Simpson, Dickinson, Harrison, T. Walton.

The Clerk drew attention to the charge made for children attending Nenthead School whose fees were payable by the Board as being higher than admissible. The charge was 1d. per week, whereas the charge to the other children was only 9d. per quarter. After some discussion it was agreed that the present account be paid, the excess to be deducted from the current quarter.

The Clerk read certain quotations of prices of air and water beds. The purchase of such was, however, deferred, as the reason for the purchase of one which existed when the Inspector visited the House did not now exist.

The vaccination returns for January to June, 1892, and likewise for the full year were read. The first showed births—30 successfully vaccinated, 6 died unvaccinated, and 2 postponed on medical certificates. The yearly returns showed 86 births-—72 successfully vaccinated, 5 died unvaccinated, 5 postponed, and 3 removed, leaving 1 unaccounted for (the child of Mr. Sinclair, Nenthead). The Chairman said they should do their duty in seeing that vaccination was carried out, as smallpox was prevalent in many places. The Relieving Officer said Sinclair was before the magistrates and ordered to have the child vaccinated within three months.

31st January 1893 (Northern Echo)

FUNERAL OF THE LATE MR WILLIAM LEE.

The mortal remains of the late Mr William Lee, mine agent, and one of the head officials of the London Lead Company, who had suffered from a paralytic stroke for the past 11 weeks were interred in Middleton in Teesdale Churchyard, on Saturday, when a numerous concourse of mourners attended to pay the last tribute of respect. The mournful cortege left his late residence at Hude Terrace, a little after three o'clock. … The pallbearers were the sons of Robert and Ralph Lee, six in number. Following the coffin were Mrs Lee (widow), Mr T. Lee (son) and family, Mr Robert Lee (son) and family, Mr Ralph Lee and family, Mr Thomas Lee and family, Mr & Mrs Tarn, Howgill; Mrs Dent and family, Lunerdale; Mr Langstaff, Greengate; and other relatives; Messrs. Millican, Forsgate (director of the L.L. Co.), J. Hunt, P. Race, T. Beadle, and J. Pattinson,

lead mining officials; … The Coffin was of polished oak with brass fittings and bore the inscription "William Lee born July 22nd 1816, died Jan. 25th 1893.
William Lee married Ann Hodgson 4th quarter of 1842, at Teesdale, Ann died in 1846.

In Middleton Church Yard

WEARDALE
DEATH OF WELL KNOWN MINING AGENT.
George Wallace (*aged 65*), late mine agent for the London Lead Company in Bollihope, died at Frosterley on Sunday last (*12th*). He was for many years agent for the above company's Weardale lead mines, and as such was universally respected alike by both masters and men. He was also for about 40 years a member of the Primitive Methodist body, and was one of the oldest local preachers in the Westgate circuit. He was well respected.
In 1841, at Stanhope Butts, William Wallace, lead miner, aged 40, his wife Elizabeth, aged 40 (Watson, married 1st February 1834, St John's Chapel), children, George 13, Margaret 11, Thomas 8, William 6, Joseph 3, and James 9 months.
In 1851, at Stanhope Butts, Elisabeth Wallace, lead miners widow, aged 52, children, George, lead miner, aged 23, Margaret 21, Thomas, labourer, aged 18, William, lead ore washer, aged 16, Joseph, lead ore washer, aged 13, James 10, and John 6

18th February 1893 (Cumberland & Westmorland Herald)
DEATH OF MR. R. VARTY.—We regret to notice the death of the above named gentleman, which took place at his residence, 12, Mistletoe-road, Jesmond, Newcastle, on Friday, the 10th. inst. Mr. Varty had been ailing for about 18 months, but was able to go about his business till within 9 weeks of his death. Mr. Varty carried on an extensive business as draper in Clayton-street, Newcastle. He was the eldest son of Mr. John Varty, of Nattrass House, Alston, and went to Newcastle about 40 years ago. Mr. Varty will be very much missed amongst a large circle of friends, as he took an active part in matters connected with the Primitive Methodist Connexion. He has been a liberal supporter of the

chapel at Alston, having presented the trustees with a supply of hymn books when the new chapel was opened, and on several occasions has subscribed handsomely to the funds. His liberality will be much missed. The funeral took place on Monday, the 13th inst., at Elswick Cemetery. The service was held in Nelson-street Chapel, Rev. Mr. Hallam and other ministers officiating, there being a large assembly. Deceased leaves a widow and no family.

18th February 1893 (Hexham Courant)

25th March 1893 (Hexham Herald)

WEARDALE

TRADE DEPRESSION - GENEROSITY OF THE ECCLESIASTICAL COMMISSIONERS.

At the meeting of the Weardale Union Assessment Committee on Friday week, a letter was read from the Weardale Lead Company wherein they stated that, owing to the loses incurred in the working of the mines during last year, their Lordships (the Ecclesiastical Commissioners) had foregone all royalties and rents for the past 12 months. The committee regarded this concession as a generous one.

25th March 1893 (Cumberland & Westmorland Herald)

ALSTON SCHOOL BOARD.

The meeting of this Board was held on Saturday. Present—Messrs. R. Elliot (chairman), T. Harrison, H. Bell, J. Rutherford, H. Walton, T. W. Dickinson (clerk), N. Walton (attendance officer).
The Education Department notified that the Alston examination would be held on April 15.
Mr. N. Walton (attendance officer) reported the attendance during the past month as follows

	On Books.	Average Attend.
Nenthead	125	98
Nenthall	45	41
Tynehead	21	12
Leadgate	23	21
Alston High	115	98
Alston National	59	47
Alston Infants	65	58
	508	421

The Officer said that the poor attendance was owing to the bad weather that had preveiled. Reference was made to the irregular attendance of several of the scholars and the Board decided to write the parents urging regular attendance,

otherwise proceedings would be taken. A deputation consisting of Councillor Richardson, Rev. P. T. Lee, and Mr. W. Core (secretary) representing the Technical Education Committee, waited upon the Board respecting the charge for the use of Nenthead School for lectures under the Technical Education Committee. Mr. Core read the communication from the secretary to the Central Committee saying that the charge was excessive.
Councillor Richardson said there were 287 classes in the county, and the Committee had decided that none of the money should go directly or indirectly to relieve the rates. He further explained the position that the Local Committee was in and pointed out the advantage of the Board trying to meet the Committee in the matter. It would be a serious matter for the district if the money allocated should be withdrawn. He further pointed out that an application had been made for models for the school which were expensive, but the Committee would grant one half of the cost and this would eventually become the property of the School Board. He would like the Board to give them every facility in keeping on the educational work and to assist them as much as possible. He would like to disabuse the public mind of the idea that they had been badly treated previously.
The Board held that the charge was not excessive, seeing that nothing was charged for the use of the school for the Art and Continuation classes. This the Committee explained was an arrangement with the schoolmaster, and not with the Technical Education Committee. A good deal of talk took place respecting the matter, the Committee finally withdrawing for the Board to consider the matter.

1st April 1893 (Cumberland & Westmorland Herald)
Deaths
At Roughside, Nenthead, on the 22nd ult., Thomas Graham aged 62 years.

See 27th April 1878

8th April 1893 (Hexham Herald)
ALSTON
RURAL SANITARY AUTHORITY
Dr Short's annual report for No. 2 district showed 47 births and 29 deaths or at the respective rates of 28.05 and 16.7 per 1000. Of the deaths 72 per cent were infants or persons over 65 years of age. Of the deaths two were due to Whooping Cough, two to Influenza, and three to Phthisis. The adoption of The Contagious Diseases Notification Act was strongly recommended. In view of a possible visitation of Cholera, the district had been carefully inspected and faulty drains and middensteads put in order. At Hillersdon, the water supply was defective and he hoped rapid progress would be made with laying the new pipes.

22nd April 1893 (Hexham Herald)
Marriages
At Alston Parish Church, 20th inst., Thomas William Dickinson, second son of Mr Joseph Dickinson of Lovelady Shield, to Bessie, Youngest daughter of the late Hugh Pattinson, Alston.

He was 33 years old and leaves a widow and two children.
Mr Tarn after leaving Petrolia had gone to Vancouver then to Land's Down, he had an attack of Measles, other complications followed resulting in his death.

THE NENTSBURY MINING COMPANY

The new ore dressing machinery, which is being erected by this company at Haggs mine is nearing completion, and it is expected that in about two months the works will be in full swing. The mine has in it a splendid deposit of blende and lead ores, and from the managers reports we learn that 70 tons of blende was produced and shipped to Swansea last month, which is a very good record considering the fact that the mine has only been working a short time, and the present means of dressing the ores is very limited.

Marriages

At the Parish Church, Nenthead, 27th inst. Margaret, daughter of William Hall, Post Office, Nenthead, to Thomas Henry Little, White Hall, Nenthead.
In 1871, at Whitehall, Henry Little, lead miner, aged 27, his wife Ann Erwin, married 1st quarter 1867) aged 35, and son Thomas Henry 2.

22nd July 1893 (Carlisle Express and Examiner)

KESWICK. —***Thornthwaite Lead Mine*:** On Wednesday at a special sitting of the Keswick Justices, 33 miners obtained judgment for payment of wages owing to them by the Cumberland Lead Mines Limited, carrying on business and Thornthwaite. The men had been unable to get wages for six weeks, and some wanted as much as £10. Mr G. Falcon appeared for complainants and there was no defence.

29th July 1893 (Hexham Herald)

ALSTON

RURAL SANITARY AUTHORITY

The medical officers report for No. 2 district was read, showed 5 deaths at a rate of 2.97 per 1000, for the past quarter and 11 births.

12th August 1893 (Hexham Herald)

WEARDALE

A fatal quarry accident occurred at Stanhope on Tuesday afternoon whereby a man named John Gowland of Westgate lost his life. A falling of stone from a shot hit him on the head, although he was some distance off. He was badly injured and only lived an hour or two. He had been singularly unfortunate, having been injured severely twice before, and had just recovered from his last accident and got to work at Newlandside quarry when the sad accident happened to him.

In 1881, at Westgate, John Gowland, lead miner, aged 33, his wife Hannah (Furnass, married 3rd quarter of 1872?) aged29, children Esther Ann 13, James 10, Elizabeth 7, John William 6, George Henry 3, Mary Hannah 1, and Diana 4 months.

In 1891, at Westgate, John Gowland, lead miner, aged 46, his wife Hannah 39, children Esther A. 23, Elizabeth, domestic servant, aged 17, John W., horse driver, aged 16, George H. 13, Mary H. 10, Diana 9, Thomas A. 8, and Arthur H. 2.

In 1901, at Westgate, Hannah Gowland, widow, aged 49, children Mary H. domestic servant, aged 20, Arthur H. 11, visitors John Martin, married, engineer, aged 53, Eliza Harrison, married, aged 47, and Martha Vokes, general servant, domestic, aged 19.

12th August 1893 (Cumberland & Westmorland Herald)

ALSTON & DISTRICT NEWS

FROM the Registrar General's quarterly return of births and deaths in Cumberland for the quarter ending June 30th, the following particulars for Alston are given:—Population in 1891, 3384. Births registered second quarter 1893, 25. Deaths registered second quarter 1893, 12. Deaths by 7 chief zymotic diseases, 3.

GARRIGILL PAROCHIAL SCHOOL.—A meeting of the managers of this school was held on Wednesday week. Present: Rev. P. Lee (chairman), Messrs. J. Vipond (treasurer), G. Pickering (correspondent), R. Dent (schoolmaster). The

Chairman presented the Inspector's report, of which the subjoined is a summary: "The school is carefully educated. Generally speaking, the results of the examination are very fair, but the arithmetic of the higher classes is open to improvement. Up to a certain point the order is good, but it would be well for the children to work more independently, and to receive fewer admonitions from their teacher, and not to stoop over their writing as they do at present. Several scholars seem too young for the standards in which they are presented. It is desirable that the forma and desks, especially those used by the younger children, should be brought nearer together."—The drawing received the mark “Excellent"— The Chairman considered that it was an excellent report, only small matters being found fault with. The grant earned was higher this year.—The treasurer presented accounts which showed a balance in hand of £2 11s. He said he had held office now for over 12 years, and considered it was time someone else should take his place.—Mr. Vipond's decision to resign being final, the Chairman proposed a vote of thanks to him for his services, which was seconded by Mr. Pickering, who remarked that although the school was in an excellent position financially, something would have to be done, as the managers had nearly all died. He proposed that the meeting should adjourn till August 10th, to consider the matter.—The Chairman: I second that; we ought to do nothing without all the managers are present, and we can elect a new treasurer at the same time.

SCHOOL BOARD.—This Board met on Saturday. Present: Messrs. R. Elliott (chairman), H. Walton, H. Bell, and T. Harrison.—The Clerk read the report received from the Education Department relative to the Nenthead School examination. The report read was as follows: "The children have passed their examinations accurately. They might be trained to read and answer questions more clearly and cheerfully, and if their eyesight be of importance, they should not be allowed to stoop over their writing as many of them do at present Oral arithmetic needs attention. With some hesitation, the higher grant for English is recommended. Geography cannot be called good. The pupil teachers seem to have served somewhat over 25 hours per' week."—The amount of the grant for the eight months that the school has been under the Board is £68 18s., which with balance of fee grant, £7 1s. 7d., makes a total of £75 19s. 7d. The grant is now payable by average attendance, the average for the eight months being 112.—Cheques were signed for the payment of salaries, &c.—The attendance officer reported that the schools were closed for the holidays, consequently there was no attendance to report—Mr. Elliott drew attention to the rule made at the last meeting respecting the standard of exemption for school fees, and thought such alterations should be submitted to the Education Department Mr. Harrison moved that the Board at its next meeting take the bye-laws into consideration. Mr. Bell seconded.—An application was read from the Primitive Methodist Society at Nenthead, asking for the loan of the schoolroom for services during the renovation of the chapel. Application was granted.—The Clerk said that nothing further had been received respecting Tynehead School.

Deaths

At Alston, on the 4th inst., Margaret, wife of Thomas Ramsay, fruiterer, aged 60 years.

24th August 1893 (The North Cumberland Reformer)

THE WATER QUESTION AT ALSTON.
LIVELY DISCUSSION.

A memorial was read, signed by several inhabitants at the Townfoot, respectfully asking the Authority to reconsider the decision come to at last meeting, on the question of extending the mains from the Townfoot Well, past the Golden Lion Hotel and Alston House. The memorialists considered it the duty of the Authority to see that a supply of pure water was brought within a reasonable distance of all houses, and respectfully but firmly urged this to be done.—Mr Simpson thought it the duty of the Board to comply with the memorial.—Mr Harrison: My opinion is this: That taking into consideration the agricultural aspect of the district, we should try to keep down expenses till we get into another half-year. We have talked about expense all the morning, and we should allow the ratepayers time to get their breath.—Mr Simpson: This will come in the next half-year.—Mr Harrison; Yes, but we may run up the rate next half- year till the people cannot pay it.—Mr Dickinson: A great deal of money has been spent on Nenthead, and the inhabitants of Alston should have their turn.—Mr Harrison: Nenthead has not got so much as Alston.— Mr Simpson: You are not finished at Nenthead yet.— The Chairman: There is no private supply to any person at Nenthead, and this is.—Mr Richardson: These people are not asking for a private supply.—Mr Simpson moved, and the Rev. P. T. Lee seconded, that the mains be extended. Mr Lee said that this was one of the most important streets in Alston, and it should not be left out.—Mr Richardson: I would like to ask Mr Simpson to alter his motion. We shall have an application from a large ratepayer—the Railway Company —to lay a main towards the Station, and we should have some idea as to what streets and roads it is our duty to lay mains along, The Vicar would also want water at the school, and there was the Gasworks. He wished Mr Simpson to include these three places, so as to prevent future discussion.—Mr Millican thought it would be better to deal with each case as it came before the Authority, and Mr Richardson thereupon said he would support Mr Simpson's motion. Conveyances, he said, were brought out to wash at the public well. It was very inconvenient, but they had no place else to go to. Then in some of the large hotels people were carrying water from morning till night for ail purposes.

These houses all paid largely to the rates; and it was unseemly in the eyes of visitors to have all the water carried in cans along the road. For the credit of the town, and to induce strangers to visit it, it should be made as attractive and as comfortable as possible.— The CHAIRMAN: How many market towns are there where a rural district has to supply the town with water? Answer that question. Look at Brampton and Haltwhistle.—Mr RICHARDSON: You would not compare Alston with Brampton and Haltwhistle.—Mr SIMPSON; We all pay. We have to make our own connections.—The CHAIRMAN: There is no precedent for a rural district supplying a town with water.—Mr RICHARDSON: We are bound to supply them.—Mr Bramwell: Suppose we take the Clerk's opinion on that point.—Mr RICHARDSON: As a Sanitary Authority we are bound to supply the population with water.— The CHAIRMAN: What is a population?—Mr RICHARDSON: Nenthead is a population according to your theory. You are supplying the people there with water.—Mr W. HOLMES wished to know what Alston water supply had cost compared with Nenthead.—Mr HARRISON contended that the Alston people had got their water supply already within a

shorter distance than it was proposed to convey it to the people at Nenthead.—They were all agreed that it was desirable to make Alston as healthy and comfortable as possible, but it was not right that the general body of the ratepayers should be put to an extraordinary expense to benefit a few private individuals.—Mr RICHARDSON: I never used the words "private individuals," in that sense.—The CHAIRMAN drew attention to the motion, and asked if there was any amendment, whereupon Mr W. Holmes moved, and Mr T. Walton seconded that the application be refused.—Mr RICHARDSON asked that the names of those voting he taken down.—On the motion being put, there voted for it Dr. Rutherford, Rev. P. T. Lee, Messrs Simpson, Dickinson, Richardson, and Millican. 6; against, Messrs T. Walton, Harrison, and W. Holmes, 3.—The motion was therefore carried.

26th August 1893 (Hexham Herald)

WEARDALE

Robert Fairless succumbed on Monday (21st) to injuries received some time ago in the Parson Byers limestone quarry Stanhope. He was leaving work one evening when a fellow workman hailed him and asked for a lift up with a big stone. While in the act of giving his neighbour help, the stone slipped and jammed him between it and the quarry face, nipping him severely and hurting him internally from the effects of which he died on Monday. … He was the only breadwinner for his parents the father being blind.

In 1871, at Hanging Wells, Edward Fairless, railway labourer, aged 45, wife Elizabeth 41, children Isabella 6, William 5, Catherine 3, and Robert P. 2.
In 1881, at high Farm, Edward Fairless 54, blind, his wife Elizabeth Fairless aged 51, sons William, labourer, aged 15, and Robert P. 12.
In 1891, at Birks How, Edward Fairless, aged 64, blind, his wife Elizabeth 61, and son Robert P. limestone quarryman, aged 22.

Deaths

The Butts, Alston, 21st inst., aged 71, Henry Jones, mine agent.

In 1871, at Butts, Henry Jones, lead ore miner, aged 49, his wife Elizabeth 44, and domestic servant Annie Goodfellow aged 17
In 1881, at Front Street, Henry Jones, mining agent barytes, aged 49, his wife Elizabeth 44, and domestic servant Annie Goodfellow aged 17
In 1891, at Butts, Henry Jones, lead & barytes miner, aged 69, his wife Elizabeth 60, and domestic servant Annie Goodfellow aged 38. See 24th August 1891

Mill Cottage, Allenheads, 17th inst., aged 60, Mary Whaley, widow of Robson Whaley.

In 1871, at Allenheads, Robson Whaley, assistant engineer at lead works, aged 33, his wife Mary (Shield, married 2nd quarter of 1863, Hexham) aged 38, children John J. 7, Margaret A. 4, and Tom S. 2.
In 1881, at Smelt Mill Cottages, Robson Whaley, barytes miner, aged 43, his wife Mary 48, children John J., lead mine labourer, age 17, Margaret A. 14, Tom S. 12, and James R. 8.
In 1891, at Smelt Mill Cottages, Robson Whaley, lead ore miner, aged 53, his wife Mary 58, daughter Margaret Ann 23, and son James Robson, grocer, aged 18.
Robson Whaley died 2nd quarter of 1893, aged 56.

2nd September 1893 (Hexham Courant)

EMIGRATION

It will be interesting to the many friends of Messrs Jonathan and Tom Thompson of Nenthead, to learn that these two promising young men left this country for America on Wednesday last. Their intention is to join their brother John Thompson (who went to America a year ago) and to offer themselves at the Detroit Conference as candidates for the ministry.

7th September 1893 (North Cumberland Reformer)

VACCINATION PROSECUTIONS.

Thomas Place, carter. Alston, was summoned for a breach of the Vaccination Act.—Mr N. Walton, Vaccination Officer, proved that defendant had a child born on June 23rd, 1892. Due notice was given to have it vaccinated on August 2nd following, but defendant had hitherto refused to comply with the order.—Defendant, on being asked what he had to say, stated that he did not think vaccination did any good. He was willing to have the child vaccinated, if it could be shown to be any benefit.—The CHAIRMAN: Act of Parliament says it must be done. Many people think it not only beneficial, but necessary.—Defendant: don't think it necessary, or I should have it done. The CHAIRMAN said the Bench would not inflict a penalty, but make an order that the child should be vaccinated. If that order was not complied with, defendant would be summoned again, and fined. Defendant said he would rather have his case settled at once, but was told that the Bench would not do that.—William Sinclair, Nenthead, was summoned for non-compliance with an order to have his child vaccinated.—Mr Walton said the order was made on the 2nd December last. Defendant was given till April, the last vaccination period, to comply with it, but he had not done so.—In answer to the Bench, defendant said he did not believe in vaccination. Moreover, prosecutions had been stopped in many places, in consequence of a memorandum issued by the Government, and there were large numbers of unvaccinated children in some districts.—The CHAIRMAN said the law must be obeyed. Defendant had given no sufficient reason why his child should not be vaccinated. He would be fined 5s. and costs, and if the order of the Bench was not complied with he would be summoned and fined again.

ALSTON SCHOOL BOARD.

The usual monthly Meeting of this Board was held on Saturday. As only two members, Mr H. Walton and Mr H. Bell were present, no business could be transacted. . The following is the Attendance Officer's report. The schools having only been reopened after the holidays, the returns are, for Tynehead one week, Leadgate three weeks, and the remainder two weeks.

	No. on Books.	Aver. Att.
Nenthead	126	112
Nenthall	41	38
Tynehead	19	7
Garrigill	54	49
Leadgate	23	19
Alston (High)	115	95
Alston (National)	54	45
Alston (Infants)	51	42

ALSTON BOARD OF GUARDIANS.

The fortnightly meeting of this Board was held on Saturday. Mr H. Walton presided, and the Rev. Dr. Rutherford, Rev P. T. Lee, Messrs G. Pickering, J. Dickinson, J. Millican, T. Walton, J. Nevin, T. Harrison, and T. Bramwell were present, with the Clerk (Mr Jos. Dickinson). and the Relieving Officer (Mr N. Walton).

VAGRANTS.—The CLERK stated that vagrancy seemed to be very much on the increase. The number for the last week was 53, and for the previous week 48, a total of 101.

FINANCE.—The Collector's monthly statement was read and showed, on July 31st recoverable arrears £808 10s 8d, collected during the month, £161 7s 9d, balance recoverable £639 2s 11d.

VACCINATION PROSECUTIONS.— The RELIEVING OFFICER reported that William Sinclair, Nenthead, and Thomas Place, Alston, had been summoned before the magistrates for noncompliance with the Vaccination Act. An order was made on Place to have his child vaccinated at the next public vaccination period, and Sinclair, who had not obeyed a previous order, was fined 5s and costs, and also directed to have his child vaccinated at the next vaccination period.

21st September 1893 (North Cumberland Reformer)

RURAL SANITARY AUTHORITY.

THE MEDICAL OFFICER'S

The report of the Medical Officer of No. 1 district (Dr. Carson), for the quarter ending 30th June, showed that 7 deaths and 14 births had been registered during the quarter. One of the deaths was of a person 92 years of age. The death rate for the quarter was 4.09 per thousand. The health of the district was good. A case of diphtheria had been brought into a house near Alston from Spennymoor, where the disease was prevalent. Four others contracted the disease, and two died, one from the direct effects, and one accelerated by the attack. There was no further extension, beyond a slight attack contracted by the Medical Officer himself.

LEADGATE WATER SUPPLY.

A petition was read from Leadgate, asking the Authority to take steps for supplying that place with water. Their usual supply had failed for the last seventeen weeks, and the only available substitute was 230 yards from the nearest, and 483 yards from the furthest house.—Mr. RICHARDSON moved that the Inspector examine the place and report.—The INSPECTOR (Mr J. Walton) being called in, stated that the facts were as stated in the petition.—The CHAIRMAN said that a good many people were in that position. The season had been an exceptional one. He had no water, except what was carried in cans about a quarter of a mile. He thought there was a good supply at Leadgate at one time, when it was looked after.—The INSPECTOR said the Leadgate supply had always been liable to fail in frosty weather, as well as drought.—The CHAIRMAN: Is it the duty of the owners, or ours? —Mr BRAMWELL: The Clerk will instruct us on that point.—Mr Richardson's motion was then agreed to.

THE NATIONAL SCHOOLS.

Mr RICHARDSON said he had an application to make on behalf of the National School to take the water down the Butts to that place. A good water supply was a necessity, especially for children. The Managers intended to put in water

closets, and the children also wanted water for washing. He was aware that he was not in order in referring to the matter at that meeting, but seeing that there was a full attendance, he would ask that the standing orders be suspended, so that the question might be considered. The builders were going on with the work, and the managers did not wish to have the place to break up again. It would be a benefit to the whole community to supply this water, seeing the children from all parts of the district- attended the school.—The CHAIRMAN thought notice should be given.—Mr BRAMWELL asked if the mains were not within a reasonable distance already, but Mr RICHARDSON pointed out that the managers had no right to go on the streets—Dr. RUTHERFORD said there were several houses on the way that would take water.—Mr SIMPSON seconded Mr Richardson's motion, and it was put, when four voted for, and four, including the Chairman, against. —The motion was therefore lost. Mr RICHARDSON then gave notice to bring it forward at next meeting.—The CLERK informed him that it could not come on for a month.—Mr RICHARDSON: Then that places the managers in a very awkward predicament.

NUISANCES.

The reported that on account of the low state of the stream, a very dangerous and offensive accumulation of filth existed in the Mill Burn, in the Butts, immediately behind Mrs Turner's property, and near to the National Schools. It consisted of slaughterhouse offal, and other matter, and he hoped means would be taken to prevent such being put in, in future.—The CLERK The only way is to find out who does it, and proceed against them.—Mr RICHARDSON said that several trap doors existed in the Butts, through which people put rubbish. The Inspector was ordered to have them closed.—The INSPECTOR also stated that there was a very offensive midden at the back of the burn, on premises belonging to Mr Jos Dickinson, and occupied by John Shield. He had given Mr Shield notice several times to remove it, but no attention had been paid. The midden consisted chiefly of slaughter-house refuse.—The CLERK: That place belongs to me, and I was given to understand that it was kept in a proper condition. He applied to me to have some repairs done and I went to see the place, and gave orders for them to be carried out. I was surprised to see the condition of the midden-stead it was abominable and must have been so for a long time. I at once called the attention of the Inspector to it. It should be removed every week.—It transpired that the Inspector had only given verbal notice to the occupier, and he was instructed to give written notice, and if that was not obeyed, to take steps to compel the removal of the nuisance.

30th September 1893 (Hexham Herald)

ALSTON

DEATH OF MR ISAAC WALTON

We regret to announce the death on Wednesday night of Isaac Walton, of Lowbyer, Manor House, Alston. By Mr Walton's death at the ripe age of 78 (*Isaac was born 3rd October 1814 and died 27th September 1893, so he was 80 years old; buried in the family plot at Kirkhaugh church yard*) a link is severed which carries back the recollection of Alstonians to more thriving and prosperous times. With both the staple industries of the locality, mining and stock breeding, ... Mr Walton was early in life associated with lead mining and held first the position of secretary and afterwards that of manager of Rodderup

Fell Mining Co. In 1875 he received the Government certificate of Mining Engineer. ...
Mr Walton is survived by his wife and a family of four daughters.
Sons Rev Isaac Walton, Newbiggen; Joseph R Walton.
In 1841, at Brown Side, Isaac Walton, lead mine agent, aged 65, his wife Ann (Tinniswood, married 31st December 1803, Kirkhaugh) aged 60, children Frances 35, John 30, Mary 30, and Isaac, lead mine agent, aged 25.
In 1851, at Brownside, Isaac Walton, mine agent and farmer, aged 34, his wife Eleanor (Richardson, married 28th June 1843, Alston) aged 32, children Mary Ann 7, Frances Eller 5, Elizabeth 3, Hannah Richardson 10 months, farm servant Ann Cousin aged 16, and farm servant John Mounsey aged 16. In 1861, at Brown Side, Isaac Walton, lead mine agent & farmer of 60 acres, aged 44, his wife Eleanor 43, children Frances E. 15, Isaac 8, Joseph R. 6, Florence H. 4, Nicholas 11 months, boarder John Richardson, single, landed proprietor, aged 78, sister in law Hannah Richardson, single, landed proprietor, aged 34, and house servant Hannah Varty aged 21. In 1871, at Brown Side House, Isaac Walton, landowner, mine agent, & farmer of 66 acres employing one man, aged 54, his wife Eleanor 53, son Joseph R 16, domestic servant Mary Ann Parmley aged 23, and farm servant indoor, Thompson Yeates, aged 18. In 1881, at Brown Side House, Isaac Walton, mining engineer & yeoman, aged 66, wife Eleanor 62, daughter Mary Ann 36, son Joseph Richardson, mining engineer26, visitor Hannah Richardson, landed proprietor, aged 51, domestic servant Sarah Jane Varty aged 19, and farm servant indoor John Kindred aged 19. In 1891, at Low Byre Manor House, Isaac Walton, retired mining engineer, aged 76, his wife Eleanor 74, children Mary A. 42, Frances E. 40, Elizabeth S. 38, Joseph R. Bank manager, aged 36, and domestic servant Elizabeth Erwin aged 21. See 3rd August 1901, & 28th June 1902

Deaths

Alston, Physic Hall, 22nd ult., aged 22, Annie Maria Shield.
In 1861, at Skydes, Garrigill, Stephen Shield, lead miner, aged 61, his wife Lucy (Dobson, married 17th February 1825, Alston) aged 59, children Joseph, lead miner & Methodist local preacher, aged 30, Lucy, house maid, aged 26, and Stephen, lead miner, aged 23.
In 1871, at Garrigill Gate, Stephen Shield, lead miner, aged 33, his wife Elizabeth (Hodgson, married 19th May 1870, St John, Garrigill) aged 24, and daughter Annie M. 4 months.
In 1881, at Bail Hill, Stephen Shield, coal miner, aged 43, his wife Elizabeth 34, children Annie M. 10, Marietta J. 8, Isabella E. 5, and John J. 3.
In 1891, at Physic Hall, Elizabeth Shield, widow (Stephen died 2nd quarter of 1881, aged 43), farmer, aged 43, children Annie M, stocking knitter, aged 20, Marietta J, stocking knitter, aged 18, Isabella E, stocking knitter, aged 15, and John J. 13.
Alston, Lowbyre House, 27th ult., aged 80, Isaac Walton Mine agent.
At Garrigill, 21st inst. aged 62, Isaac Watson.
In 1851, at Snappergill, Garrigill, John Watson, retired lead miner, aged 67, his wife Jane 60, sons John, lead miner, aged 27, Isaac, lead miner, aged 20, Christopher, lead miner, aged 17, house servant Esther Armstrong aged 17, and grandson John Slack 7.

In 1861, at High Snappergill, Jane Watson, widow, farmer, aged 71, granddaughter Ann Watson 8, sons John, lead miner, aged 37, Isaac, lead miner, aged 30, Christophe, lead miner, aged 27 and house servant Elizabeth Johnson, aged 25.

In 1871, at Pasture House, Isaac Watson, lead ore washer master, aged 47, his wife Elizabeth (Readshaw, married 3rd November 1866, at the Primitive Methodist Chapel, Alston) aged 34, and daughter Mary J. 3

In 1881, at Garrigill Gate, Isaac Watson, lead miner unemployed, aged 50, his wife Elizabeth, dressmaker, aged 44, and daughter Mary J. 13.

In 1891, at Garrigill, Isaac Watson, retired lead ore dresser, aged 60, his wife Elizabeth 54, and daughter Mary J., dressmaker, aged 23.

See 13th November 1866, 4th November 1871, 18th August 1883, & 22nd December 1883.

30th September 1893 (Cumberland & Westmorland Herald)

ALSTON AND DISTRICT NEWS

JUMBLE SALE AT GARRIGILL.

A most successful jumble sale was held in the schoolroom, Garrigill, on Friday and Saturday last, for the purpose of procuring funds for the purchase of a church organ. A great quantity of useful and curious articles were on sale at the different stalls, which were presided over by Mrs. Lee, Mrs. Vipond, and the members of the choir. At the close of the sale it was found that sufficient money had been raised to warrant the immediate purchase of the much-needed instrument. Refreshments were provided in the class-room, which was fitted up as a café chantant; Mrs. Moffat, Mrs. Shield, the Miss Archers and Miss M. Millican having charge of tea and supper tables, while the choir, assisted by several visitors, entertained the guests with music and songs.

WESLEYAN METHODISM

The quarterly meeting was held at Alston on Tuesday. The local preachers met at 3.30, the Rev. I. E. Page in the chair. The names of twelve brethren likely to come on the plan as exhorters were submitted to the meeting by the Rev. J. W. Seller, secretary, and unanimously approved. It was resolved to hold a local preachers' gathering on November 11th, Mr. Hugh Bell to open a conversation. The general meeting was held at 5-30. The stewards' report showed a balance in hand, and Mr. J. Millican was re-elected foreign mission treasurer, with the Rev. J. W. Seller and Mr. C. Bramwell as secretaries. Mr. M. Tindly was re-appointed treasurer to worn-out ministers' fund. A committee was appointed to consider the question of starting a circuit magazine. A resolution was unanimously passed appreciative of the services of Messrs. Jonathan and Tom Thompson, of Nenthead, who have removed to America with a view to entering the ministry of the Methodist Episcopal Church. Sanction was given for the renovation of Low Brownside Chapel. The meeting concluded with a most profitable conversation on the work of God.

TECHNICAL EDUCATION.

A committee meeting was held in the Board Room, Alston, on Saturday, present Rev. W. Farries (chairman), Councillor Richardson, Rev. P. T. Lee, Messrs. H. Petty, G. W. Story, T. Lattimer, and W. Core (secretary).—The secretary produced certain forms which had to be filled up and reformed respecting the proposed continuation classes to be formed for the winter.—The classes and teachers were then fixed upon—Rev. P. T. Lee said that Miss Dent proposed

starting a class in domestic economy at Garrigill. It was agreed that such be granted providing a sufficient number of pupils could be secured.—Mr. Core said the class in music (tonic solfa) which he proposed taking came under a different heading in the Technical Education scheme and thought a small charge should be made.—It was decided to make a charge of 1s. each pupil—Mr. Core moved that the teachers be paid according to the suggestions by the County Council to the district and local committees. Mr. Petty seconded and it was carried.—Mt. Petty moved that 1s. be charged each pupil for the classes.—Mr. Richardson seconded. Carried.—It was decided that the public be charged one penny each for attending lectures and demonstrations that might be held.—Rev. P. T. Lee said it was the opinion at Garrigill that an ambulance class would be a useful thing there. It was decided to see whether a teacher could be secured and the fee and report at the next meeting.—It is proposed also to form a music class at Nenthead.

Marriages

At the Wesleyan Chapel, Alston, on the 26th inst., by the Rev. I. E. Page, Charles Lamb, Newcastle, to Elizabeth, eldest daughter of John Scott, Fair Hill View, Alston.

Deaths

At Shield Hill, Garrigill, on the 16th inst., Elizabeth, widow of Friend Herdman, aged 59 years. *See 23rd July 1867*

At Turk's Head, Alston, on the 21st inst., Jos. W. Lee, aged 30 years.

At Grisedale's Lane, Alston, on the 20th inst., Sarah, widow of Thomas Saunders, aged 90.

At Whitehall, Nenthead, 17th inst., aged 23, Ada wife of William Graham.

In 1871, at High House, John Graham, lead ore smelter & farmer of 65 acres, aged 50, his wife Martha 44, children Thomas, lead ore washer, aged 14, Margaret 12, Robert 11, John 8, George 6, and William 3.

In 1881, at High House, John Graham, farmer of 65 acres, aged 60, his wife Martha 53, children Thomas, farmers son, aged 24, Margaret 22, Robert, lead miner, aged 21, John, lead miner, aged 18, George, lead ore washer, aged 16, and William, lead ore washer, aged 13.

John Graham snr., died 3rd quarter 1888, aged 67.

In 1891, at High House, Nenthead, Martha Graham, widow, farmer of 65 acres, aged 64, son John, general labourer, aged 28, and domestic servant Elizabeth Hetherington 18.

In 1891, at Whitehall, Spring House, William Graham, lead miner aged 23, and his wife Ada (Doyle, married 1st quarter of 1891, Alston) aged 20.

Robert Doyle married Agnes Ann, at Annan, about 1891/92.

In 1901, at Lady Street, Annan Dumfriesshire, William Graham, gardener, aged 33, his wife Agnes 32, born Annan, children Mary 9, John 7, Catherine 6, Thomas J 5, and Harry G. 7 months. In 1911, at Wardway Foot, Nenthead, William Graham, lead miner, aged 43, his wife Agnes Ann aged 34, sons John William 7, and Harold 1. Of seven children five had died before the 1911 census.

5th October 1893 (The North Cumberland Reformer)

SCHOOL BOARD

Mr Petty was granted the use of the school at Nenthead for evening classes, on the same terms as last year.—Some discussion took place as to the cleaning

out of the ashpits and closets at Nenthead.— Mr WALTON said that Mr Peart, who occupied the adjoining land, had offered to clean them out four times a year, at 4s each time.—Mr HARRISON thought there might be others who would do the work, and the Board should have tenders before them. He suggested that the matter, as it was pressing, be left to the Clerk, but the CLERK thought the Board could not do better than accept Mr Peart's offer, and this was done. —On the motion of the CHAIRMAN, . it was agreed that the schools be visited by the members in rotation, each member having his appointed month. It was also agreed that Tynehead School be taken over by the Board from the 1st of June.

ATTENDANCE.

The attendance for the month was as follows:—

	On Books	Average.
Nenthead	126	117
Nenthall	41	38
Tynehead	12	9
Garrigill	56	52
Leadgate	26	23
Alston High	109	93
„ National	70	51
„ Infant	58	46
	498	429

NENTHEAD SCHOOL.

The Clerk said that on the 11th of August he received notice from the owners *(Nenthead & Tynedale Lead and Zinc Co.)* of Nenthead school to deliver up the school house on the 11th November. He had been given to understand that it was merely that the Board might come to some arrangement.—The Chairman: It is only three months' notice, and we are yearly tenants.—The Clerk: We need not notice it till next May.—It was agreed that the communication be acknowledged, and that the Clerk ascertain what the wishes of the owners were with regard to the tenancy.

THE FEES QUESTION.

A letter was read from Mr George Black, Nenthead, asking for a free place for his daughter, Isabella J. Black, attending Nenthead School.— The Clerk: This is the first application we have received, and it is for the Board to say if they will grant it.—Mr Bell: His best plan will be to write to the Department.—The Clerk: If he does, the free place will have to be granted, so that it is needless to put him to the trouble.—Mr Walton considered that it would be more regular if Black made application to the Department.—Mr H. Bell thought if he did, he would not get a free place before the 1st of December.—Mr Harrison: Notwithstanding the motion passed some time ago with regard to providing free places after the 1st of December, a very large proportion of parents pay no fees. The Master can tell you that.—The Clerk: Mr Harrison has just opened a question which I intended to bring before the Board. At my request, the Master, yesterday, furnished me with a list of names of parents whose children attend Nenthead School, and who have not paid any fees for the last two years. From information I have received, it appears that the people have been led very much by one of the agents, who has three children attending school, and who, since the Board took over the school, has refused to pay fees, although he has made no

application either to the Board or the Education Department. I understand that he has also plainly intimated to some of the workmen that they need not pay fees. The Master complains of the difficulty of getting in these fees, because these workmen turn round upon him and say, “If the agent refuses to pay fees, we don’t see why we should pay them,” Including arrears, the total amount to be received on the 30th June was £7 19s 5d, and of that we have only got £1 19s. They are setting the Board at defiance, and something must be done to put an end to such a state of things. The only course I can suggest is for the Board to give instructions to the Master to refuse to admit children who do not bring their fees.—The Chairman: We all regret such a state of things should have arisen, but the course you suggest seems the only one. We cannot recover the arrears.—Mr Walton: Can we not summon them?— The Chairman: Only for non-attendance. — Mr Walton: It is a pity but we could deal with one of those who create the mischief.—The Clerk: The list contains the names of 11 parents of 23 children, who have paid no fees since 1891.—The CHAIRMAN: Instructions had to be given to the Master on the lines suggested by the Clerk, to be carried into effect after the holidays.—The Clerk: They were given, and this is the consequence. They will not pay until they are forced.—Mr Harrison: A good many have come to me on the subject, and I have always told them that there would be free places after December 1st, and if any wanted them before, they must apply to the Education Department. It is not fair that some should pay, and others go free; they should all be made alike.— The Chairman: These people deserve to be dealt with, but whether we should gain anything by taking action it is hard to say.—Mr Walton: It should be done.—The Clerk: The Board should really take some stand, and not be dictated to by those sending children to school, and who ought to know better.—The Chairman: They deserve to be dealt with, but we are not going to gain much. We had better enforce the resolution already passed. Monday is the beginning of the month, and every scholar not bringing the fee must be turned away.—This was agreed to, and the Clerk was instructed to inform Mr Black that he must write to the Education Department.

14th October 1893 (Hexham Courant)

ALSTON
MINING

We hear with a great deal of pleasure that the Rodderup Fell Mine which have been practically closed for some months now, are to commence working at an early date under a new company. A few openings of this kind would be very useful just now, if only for taking up surplus labour, of which, unfortunately there is too much in the Alston district at present.

19th October 1893 (The North Cumberland Reformer)

ALSTON BOARD OF GUARDIANS
FINANCIAL.

The CLERK said the amount required for the ensuing half-year would be the same as for the corresponding half last year, viz. £50. The total estimated expenditure was £795 12s. 4d, of which £313 6s would be returned, leaving the net expenditure £482 6s 4d. He did not know how much the School Board would require. Special expenses would take £50, general expenses £45, and highway £60.—Mr RICHARDSON: What are the special expenses for—sanitary

purposes? —The CLERK: We will deal with that in due course. There is £17 10s for Nenthead water supply; £6 10s for flushing of Garrigill sewers; £14 for gully traps for Alston; and £12 for the extension of mains at the town foot.

STATISTICS

The CLERK reported an increase of two inmates to the Workhouse, children from Nenthead. The vagrants relieved were 53 for the past week, and 55 the week before.

RURAL SANITARY AUTHORITY, MEDICAL OFFICER'S REPORT

Dr. CARSON reported that 11 deaths had occurred during the quarter ending September 30th. That made the rate for the quarter 6.43 per thousand, equal to 25.72 per thousand per annum. The rate for the two previous quarters was very low, and he was unable to assign any special cause for the increase. Several of the deaths occurred at an advanced age. Seven births had been registered. With the exception of a mild case of diptheria, there had been no infectious disease, and the health of the district was good.

SANITARY CONDITIONS AND WATER SUPPLY.

The CLERK read a letter from the Local Government Board, calling attention to the report of the Medical Inspectors for the year 1892, particularly with reference to the disgraceful condition of the Burnbank, and to the unsatisfactory water supply to Nenthead and Hillersdon Terrace, and inquiring what steps had been taken in these matters. The Clerk remarked that he must have instructions as to what reply he should make.—Mr RICHARDSON: You can inform them how much money has been spent in improving Nenthead water supply.—Mr HARRISON: There has been nothing done to the Hillersdon Terrace supply. Something has been done to the other, but it is not finished.—Mr RICHARDSON: What has been done with the money that has been spent?—Mr HARRISON: To bring water to the centre of the village?—That is what I am referring to. The work is still in progress.—Mr HARRISON: Yes, but the well referred to is not.—The CHAIRMAN: It will be a year before it is finished. It will be taken up after the other.—Mr HARRISON: The question is: What has been done? The answer I give is "Nothing." The water is not fit to use; it is only surface water.—The CHAIRMAN: The work is going on, and will be finished as soon as we get funds. —The CLERK: I think the best course is to take the report as a whole. With regard to the condition of the Burnbank. I think the Medical Officer has used rather strong language. So far as I can remember, there was nothing dangerous to health in the accumulation there, it was simply a nuisance to the eye, being chiefly ashes. I went down to see it when I got this document. I found the deposit as large as ever, and I called the attention of the Inspector to it. The SANITARY INSPECTOR. (Mr N. Walton), being called in, said there were about two cart loads of ashes lying. The Surveyor had got orders to remove them, but had not done so

LEADGATE WATER SUPPLY.

The Inspector reported concerning this supply, that he considered sufficient water might be obtained in the field belonging to Mrs Dickinson, about 350 yards west of the village. It would require a drain of about 300 yards through Mrs Dickinson's property, and 50 yards more through a field in the occupation of Mr Kirsopp. He estimated the total cost at £28.—The Chairman pointed out that there was an overflow from a well, which was running over and damaging the road.—The Inspector said that could be easily remedied. There had been a

scarcity of water at Leadgate for over twenty years. Both drought and frost put a stop to it. He had paid no attention to the overflow complained of by the Chairman, as he did not consider he had anything to do with it.—The Clerk: They all belong to the Authority.—Mr Richardson: Every well on every roadside is yours, and you are bound to take care of it.—Mr Harrison: Then how is it that motions to take care of these have been before the Board and rejected, on the ground that we had nothing to do with them?—Mr Richardson: At the last County Council audit the Surveyor was surcharged for expending £1 on one of these wells, and was told that it was the duty of the Sanitary Authority.—The Chairman: Our rates at this place are three or four times more than those of our neighbours. I would throw all these applications into the fire. How do you propose to serve the school.—The Inspector: It will be nearer than it is now, but we cannot get it up to the school. —Mr Richardson: You see by the letter of the Local Government Board that it is our duty to provide this water.—After some further discussion it was agreed to adjourn the matter for a month.

THE NATIONAL SCHOOLS.

Mr RICHARDSON moved, in accordance with notice given, that the Sanitary Inspector be instructed to lay a main pipe for water from the Butts to the National School. The managers were spending a lot of money on improvements, and the water was absolutely required for drinking and washing purposes, and for flushing the water-closets. The school was used by the whole district, and therefore, all would feel the benefit. —Mr MILLICAN suggested that the pipe be laid from the well at the end of the Kings' Arms Lane. It was only half the distance.—Mr RICHARDSON said that was so, but there were several houses on the other route that would take water. — Dr. RUTHERFORD mentioned several who would be likely to do so.—The CHAIRMAN: Are we not to have a report from the Inspector?— Mr RICHARDSON said an approximate estimate of the cost had been prepared, but not by the Inspector. —Mr HARRISON moved that the Inspector prepare two estimates, one from each of the proposed places. That had to be done before they could get water to Nenthead, and there seemed to be a difference of opinion amongst the local men.—Mr RICHARDSON: There is no difference of opinion as to the necessity for the water. —Mr W. HOLMES, seconded.—Mr SIMPSON moved that the water be taken from the end of the lane.—Mr RICHARDSON seconded, and thought it did not become the Nenthead Guardians to oppose this, seeing the money that had been spent over Nenthead.—Mr HARRISON: That expense incurred at Nenthead has often been thrown in our faces. If not out of place, I should like to know what the water supply has cost at Alston, compared with Nenthead. I have an idea that it cost a great deal more, and it is unfair of Mr Richardson to allude to it in this way. We were obliged to estimate the cost before we expended anything.—Mr RICHARDSON, (pointing to the memorandum of the cost in the hands of the Clerk): You have it there,—Mr HARRISON: That is from a private member of the Board, who had no right to send it in. After some further discussion, Mr Simpson's amendment was put and carried by seven votes to three.

A memorial was read from Nentsbury, complaining of the condition of the footpath leading from that place to Garrigill, which in times of flood was impassable. The Highway Surveyor (Mr Kirsopp), being called in, said the path was in some places quite washed away, leaving only the bed of the river. He was instructed to examine and report.

21st October 1893 (Hexham Herald)

NENTHEAD

The internment of the late Matthew Raisbeck, of Beldy House, Garrigill, took place on Wednesday, ... present were Mr J. Cameron Swan, Mr I. Clark, and Mr W. M. Henzell, representing the Nenthead and Tynedale Zinc Company, of which the deceased was manager, ... (*died 13th October aged 61*)

In 1841, at West Nenthead, Thomas Raisbeck, lead miner, aged 40, his wife Martha (Henderson, married 1st September 1825, Alston) aged 35, children George 15, Ann 13, Rachel 11, Mathew 8, Christiana 6, and Mary 2. In 1851, at West Nenthead, Martha Raisbeck, widow, parish relief, aged 47, children George, lead miner, aged 25, Matthew, lead miner, aged 18, Christiana 15, Mary 11, Thomas 9, Robert 6, and William 2. In 1861, at Pasture House, Martha Raisbeck, widow, farmer, aged 57, children George, lead miner, aged 35, Matthew, lead miner, aged 28, Mary, household work, aged 21, Thomas, lead miner, aged 19, Robert, lead miner, aged 16, and house servant Christiana Henderson aged 21.

In 1871, at Hillersdon Terrace, Matthew Raisbeck, lead mine overman, aged 38, and his wife Ann (Watson, married 2nd quarter of 1868, Alston) aged 28. In 1881, at Beldy House, Matthew Raisbeck, lead mine agent, aged 48, and his wife Ann aged 38. In 1891, at Red Brow, Garrigill, Matthew Raisbeck, mining engineer, aged 58, and his wife Annie 48.

21st October 1893 (Hexham Courant)

WEARDALE

On Tuesday (*17th*) afternoon the Rev T H Penrith, Wesleyan minister of Egremont, Cumberland was married to Mrs Hannah Race, widow of the late Rev Joseph Race, missionary in China and daughter of the late Joshua Dawson of Weardale. The marriage ceremony was performed by the Rev Thomas Cook, the well known evangelist, brother in law of the bride.

See 6th November 1875, 25th March 1876, 8th February 1890, 22nd May 1892, 2nd July 1892, and 5th November 1892.

28th October 1893 (Hexham Courant)

WEARDALE LEAD COMPANY

The ordinary general meeting of the shareholders in the Weardale Lead Company (Limited) was held at the City Terminus Hotel, Cannon Street, London, on Thursday under the presidency of Mr George Richardson, the Chairman of the Company. The secretary (Mr R S Maclaren), having read the notice convening the meeting, the Chairman, in moving the adoption of the report and accounts, said he must, as the board did, sympathise with the shareholders on the state of affairs mentioned in the report, and also the loss which they would see they had sustained in the working of the mines during the past year. At the same time, the directors were not responsible for the state of the lead market, or for the poorness of the mines. The price of lead had averaged only £10 2s 10d per ton delivered at Parkhead, being £1 4s 8d per ton less than the average price last year. The total sum received for sales of lead was £28,089 18s 4d, and for the previous year £33,526 9s 11d. He was happy to state that since the report was issued things had improved very much in all the mines.

4th November 1893 (Cumberland & Westmorland Herald)

ALSTON & DISTRICT NEWS.

STOCKING FACTORY.—The employees at Mr. G. W. Storey's works have during the past few years had a social gathering about Christmas, but Mr. Story intends opening out his new premises on Tuesday at the Brewery, when the annual gathering will then be held as a sort of "house-warming."

TECHNICAL EDUCATION.—A meeting of the district committee was held at Alston on Saturday last. Present—Rev. W. Ferries (chairman), Councillor Richardson, Dr. Short, Messrs. W. Core, W. Holmes, and H. Petty. It was decided that those who did not succeed in being admitted as pupils in the cookery classes held last year have the preference this time if they made application. A request having been made from Garrigill for the formation of an ambulance class it was decided at the last meeting to endeavour to secure a local medical man to undertake the work. The secretary now read replies from Dr. Short and Dr. Carson, the former intimating that he could not see his way clear to undertake the class. Dr. Carson replied saying he wished for more particulars. It was decided to ask the Rev. P. T. Lee to ascertain the probable number of pupils, &c. The average attendance at the evening continuation classes for the different places was read. The classes at Tynehead had been a failure owing to there being an insufficient attendance.

CONSECRATIONS AT GARRIGILL.—On Sunday last the Bishop of Newcastle visited Garrigill for the purpose of consecrating the churchyard extension, and also the church portion of the new cemetery. It. became a question some time ago whether there should be aa extension of the churchyard or a cemetery. A poll being taken a majority decided in favour of the cemetery. A Burial Board was formed and the work proceeded with. A portion of the chapelry still favoured the extension and subscriptions being received towards it, that work was also proceeded with. Sunday was very cold, heavy showers falling during the day. The first service was held at the cemetery, commencing at 10 a.m. The bishop, clergy, clerk, churchwardens, sidesmen, and choir, preceded by members of the Burial Board, walked in procession around the ground to be consecrated repeating the 49th psalm. The registrar of the diocese (Mr. Booth) then read the licence of consecration, and the proceedings closed with prayer. The same service was then held at the churchyard, the Extension Committee taking the place of the Burial Board. On entering the church the procession sang the hymn, "A few more years shall roll." The Rev. P. T. Lee conducted the service, and Dr. Rutherford read the lessons. The bishop preached from John ii., 25, "I am the resurrection and the life." In the evening the Bishop took for his text, John, iv, 24, "God is a spirit," &c. There were large congregations at both services.

SCHOOL BOARD. The monthly meeting was hold on Saturday, present, Messrs. R. Elliott (chairman), T. Harrison, H. Bell, J. Rutherford and H. Walton. The Clerk said no further communication had been received from Mr. Holmes respecting Nenthead School. On Mr. Harrison's motion it was resolved that Mr. Holmes be asked to meet the Board that day fortnight to arrange the question of the base of the school.

The school attendance officer's report showed the number on the books to be 497 and the average attendance 437. The officer reported that the children of two parents had been sent away from Nenthead School for non-payment of fees and had not returned. It was decided that written notice be sent that if they did not attend school summonses would be issued. After irregulars were also

reported and it was resolved that notice to attend be sent to the parents. A child having been examined in Standard V. and left school, nothing being known whether the child had passed or not, the question as to whether he was exempt or not was raised, and after some discussion the subject was left over till next week for the production of the bylaws. A letter was read from the teachers of the Alston schools calling attention to the fact of children of seven years of age who had not attended the infant school and were consequently without infant training, but who went to the High or National schools.
The Clerk stated that as it only applied to Alston it was for the managers to deal with. The Clerk said it would be better to decide on the amount of precept. He had prepared an estimate of expenses to the 31st May, the amount being £260 19s. 4d., but against that there would be about £72 1s. 6d. for fees, grant, &c., leaving £188 17s. 10d. At the end of June the salaries would be due for that month. He thought the precept should not be less than £200. Granted.

4th November 1893 (Hexham Herald)
Deaths
Nenthead, 29th ult., aged 75, James Atkinson.
James Atkinson, of West Nenthead, Washing Overman, will dated 12th April 1884, proved at Carlisle 22nd May 1894, effects £177 13s 9d. Names mentioned in the will: —
Wife Jane Atkinson, three sons John James Atkinson, Ralph Atkinson, and Pearson Atkinson, daughter Hannah wife of Hartley Petty (school master).

At Allenheads, Allendale, 1st inst. aged 62, Joseph Coats, interment St Peter's on Sunday 3rd inst. *See 2nd October 1867 & 28th June 1890.*
At Stanhope, 27th ult. Mrs Frances Brown, widow of the late Robert Brown, late manager of Newlandside quarry.
In 1881, at Sound Burn, Robert Brown, limestone quarry agent, aged 38, his wife Frances 33, children Joseph 4, and Annie 1. In 1891, at Quaker Square, Frances Brown, widow, aged 43, children Joseph, limestone quarryman, aged 14, Annie 11, and mother Ann Parker, widow, aged 84.

2nd December 1893 (Cumberland & Westmorland Herald)

ALSTON SCHOOL BOARD

This meeting was held on Saturday. Present —Messrs. Elliott (chairman), W. Harrison, H. Bell, and H. Walton. The first, business was the revision of the bye-laws. Attendance to be compulsory on all children from 5 to 13 resident within 3

miles of an elementary school, except that no child is to be compelled to attend during such time as religious instruction is being given. Standard 5 was fixed in place of Standard 4 as the limit of exemption for children from 10 to 13, and tho 4th for the 3rd as the standard for half. timers.
It was reported that Nenthead school was closed on the certificate of Dr. Short owing to the prevalence of influenza, and it was decided that the school should remain closed during next week .
A communication was read from the Education Department enclosing a copy of a petition from 30 parents at Nenthead asking that free places be provided for 46 children. The Department asked to be informed what free places wore provided, what provision it was proposed to make, and to have a map forwarded showing the residences of the petitioners. The Clerk was instructed to state in reply that by a resolution passed a couple of months ago the Board would provide free places from the 1st December for children on whose behalf application was made.
It was decided that the Technical Education Committee be granted the use of the class-room for holding mining classes on Saturdays, at a charge of 1s. each meeting. The attendance list showed the number on the books—495, and the average attendance —423.
The Attendance Officer explained that the smaller attendance was due to the influenza epidemic. The majority of the schools were now closed.

9th December 1893 (Hexham Courant)
Deaths
At Intack Head, Swinhope, 7th inst., age 74, Phillis Rodham, late of Ropehaugh.
In 1891, at Coalpits, Phillis Rodham widow, aged 71.

9th December 1893 (Hexham Herald)
WEARDALE
There was a report in the paper regarding T. Nattrass's performance at the annual athletic tournament that took place at Johannesburg on November 11th, T. Nattrass, son of J. Nattrass of the Kings Head, St John's Chapel. He threw his opponents in the final falls and was declared the winner; the report stated that he was working as a miner in the gold fields where he had gone 18 months ago.
Deaths
Weardale, Doctors Cottage, 5th inst., aged 90 John Watson. *See 14th November 1891*

16th December 1893 (Hexham Courant)
Deaths
At Dykeheads, Nenthead, 7th inst., aged 57, Tamar, widow of the late Matthew Stephenson.

20th January 1894 (Hexham Courant)

LEAD AND LEAD ROYALTIES

The owners of one of the lead mines in the North of England are pressing their claim for a reduction of the royalty that they pay to the landowner. And without saying that the royalty should be one-tenth, or one-twentieth of the produce it may be said that the present condition of the lead mining industry in the North of England is such that it needs all the aid in the shape of reductions of cost it can obtain to enable it not to flourish but to survive. For years the lead produced from British lead ores has irregularly decreased; it was about 50,000 tons in the year 1882, and it had fallen to about 33,000 tons in the year 1890. Whilst the British lead produce is decreasing, the imports from other countries have of late rapidly increased; they rose from 100,000 tons for 1882 to 174,000 tons for 1890. And the decrease on home produce is very greatly reflected in the constituent produce of the North. Mines that were once prosperous are laid idle; dales that were enriched by the working and the smelting of lead are impoverished by the absence of the industries; and therefore the landowner has not only to consider whether (say) a sixteenth part of the produce is not better to have a mine at work than a larger nominal amount without yield, but he has to consider that the operative of the mine enriches the estate by giving a better

local market for the produce of the surface of the land. In some instances we believe that the North of England lead mine owners have paid royalty for years out of capital rather than lose that sunk in the mine; but the closed mines of the North make it obvious that this cannot go on forever. It is becoming apparent that the "adventurer" in a mine must not bear the whole of the loss of working; and there have been some suggestions to obviate or modify the system. We believe that the principle of the sliding scale has been adopted at one or two mines; and it is obvious that as the price of lead has sunk in recent years from £20 to under £10, the adoption of such a system would have greatly benefited the mine owner, and possibly might have allowed mines to continue at work that are closed. It was suggested also by one of the chief of the Northern lead miners some little time ago that there should be an imposition of the tribute on the net profit instead of the gross result of the working. Either of these courses would probably give some stimulus to the lead mining, and that stimulus would be shown in the improvement of many of our dales and the greater demands that they would make not only for mining requirements but also for the essentials of comfort.

Newcastle Chronicle

Deaths

At Milestone House, Melmerby, 16th inst., James Spottiswood, farmer and innkeeper, late of Parkside, Alston.

In 1891, at Milestone House, James Spottiswood, farmer & innkeeper, aged 64, his wife Phebe 63, sons William, farmers son, aged 23, Hugh, farmers son, aged 22, John, farmers son, aged 19, and domestic servant Fanny Reed aged 13

27th January 1894 (Hexham Courant)
ALSTON
INDUSTRIAL ITEMS
We are pleased to note that there is now considerable yield of Spelter from the Nentsbury mines, Mr Thompson, the manager, having evidently of late turned his attention more to the production of Spelter than of lead. The very low price of the latter, as also of silver, now handicaps the Alston mines terribly, and we make a present of the information to the bi-metallists for what it is worth. Until quite recently Spelter has not been produced in the Alston locality, except at Nenthead; to find that Nentsbury offers to yield well is a welcome intimation. The Nentsbury ore is forwarded into Wales, where it is blended with other ores and is smelted. It is a curious feature of zinc ores that several varieties have to be blended to give the full yield. The Nenthead ores, for this reason are blended with ores from Wales, and if we mistake not with ores from the Isle of Man. It is a little startling to find that a week or two ago a consignment of lead ore was received from Australia to be smelted at Nenthead - probably by way of experiment. It would hardly be recognised as lead ore by those accustomed to Alston samples. Instead of being found in cubes like the local galena, it is apparently an oxidised substance of less specific gravity - probably sulphate of lead or anglesite.
Deaths
At Garrigill, 24th inst. aged 68, Matthew Millican, carpenter.

In 1891, at Clark Hall Row, Matthew Millican, widow, joiner for a lead mine company, aged 65, and son Ridley, joiner at home, aged 27 and sister in law Sarah Ridley, single, housekeeper, aged 48.
See 28th May 1881, & 28th June 1890.

Garrigill Cemetery

3rd February 1894

SALE OF LEAD ORE AT HAYDON BRIDGE

A sale of 823 bings of lead ore took place at the Anchor Inn, on the 14 inst. The mineral, which is known as duty ore, belonged to the Lord Commissioners of the Admiralty, and was raised from the different lead mines in Alston Moor. It constitutes their share or portion of the produce of the mines as claimed and due to them as Lords of the Manor. The principle buyers in the North of England seven in number, sent in tenders for the purchase of the ore, 663 bings being sold to Messrs, Shield and Dinning, and the remainder to John Warwick. A similar sale of 44 bings took place at Alston, the buyers being Messrs. John Walton and Co, at the price of £4 19s 0d per bing.

MINE ACCIDENT

Mr Stephen Watson of Weardale House, Manager of the Weardale lead mines was injured in the Grove Rake Lead Mine on Tuesday by being thrown from a small "bogey" waggon. His face was found to be much hurt, and Dr Gray, of Stanhope, was sent for to attend to his wounds. Owing to the nature of his injuries it was not considered safe to remove him across the fell to his home for a few days.

Deaths

Clitheroe, Alston, 29th ult., aged 81, Margaret Widow of Teasdale Lowe.

24th February 1894 (The North Cumberland Reformer)
ALSTON SCHOOL BOARD
The monthly meeting of this Board was held on Saturday, the members present being Messrs R. Elliott (chairman), H. Walton, T. Harrison, H. Bell, and J. Rutherford, with the Clerk (Mr T. W. Dickinson), and the Attendance Officer (Mr N. Walton.)

ATTENDANCE.
The school attendance for the month was as follows:—

	On Books	Average.
Nenthead	126	108
Nenthall	43	39
Tynehead	14	9
Garrigill	57	42
Leadgate	24	21
Alston High	106	96
„ National	67	51
„ Infant	61	59
	498	425

BAD ATTENDANCE.

Mr Harrison said the Master at Nenthead School had complained very much of the bad attendance of late, and feared that it would affect the grant.—On the list of irregulars, however, being gone through, it was found that many of these lived at a considerable distance, or were very young, and that taking into account the bad weather experienced of late, they had a valid excuse. Two notices were directed to be sent to parents at Nenthead, and several to the parents of scholars attending Alston National School.

FREE EDUCATION AT LAST.

Applications were read from 49 parents of 91 children at Nenthead, and for three children at Tynehead, for free places at their respective schools.—The CHAIRMAN thought the Board had no alternative but to grant the applications.—Mr BELL: We are bound by our own resolution to do so—Mr WALTON expressed an opinion that the resolution was a piece of folly. The Education Department had found that they had gone too far, and they would never have compelled the Board to grant free places to all applicants, if the Board had not tied their hands by their own action. It was the most ridiculous thing he had ever known in his experience, that all these children should come on the parish in this way. The School Board rate was 3½d in the £, while the poor rate was only 8d; the sanitary rate, and the highway rate, 1d. For the two years the Board had been in existence, they had raised £420 in rates, and that had all been spent on one school, while they had no power to free the other schools.—Mr BELL thought that if Mr Walton was dissatisfied with the resolution, he had been allowed sufficient time to move that it be rescinded, or amended.—Mr HARRISON said they could not abrogate the resolution now, for the time had passed when it came into effect. —Mr RUTHERFORD suggested that the free places Should not be confined to those only who had applied. It would be a wise policy to declare the school free once for all, and save others the trouble of making application.—The CHAIRMAN remarked that some might not be inclined to apply, and Mr WALTON hoped that there would be some parents at Nenthead who disdained to accept parish relief.—The applications were then granted.

TYNEHEAD SCHOOL.

Mr Richardson, master of Tynehead School, made an application to have his salary continued at the average of the 13 years previous to 1891. In that year the Lords of the Admiralty withdrew their subscription and the population grant was discontinued. The average was £61. Some discussion ensued as to whether it was necessary to continue the school, and it was stated that there were only scholars from one house outside a two Mile radius from Garrigill. It was also stated that the attendance was somewhat irregular. On the motion of Mr Harrison, it was agreed to fix definitely the salary at the next meeting. An account of £6 6s for books and school apparatus taken over from the late managers was ordered to be paid.

3rd March 1894 (The North Cumberland Reformer)

NENTHEAD.

For the last few weeks the weather in this locality has been in a very unsettled state, frosts and thaw has prevailed with wonderful regularity. At times a heavy downpour of rain has prevailed, and large floods have been witnessed. At other times the rain has given place to snow, which has fallen very rapidly, and soon laid a thick covering on the ground. A heavy fall took place on Wednesday of

this week, and it seemed as if a heavy storm was to prevail, the milder atmosphere, however, soon got the upper hand, and rain fell in a manner that soon laid bare the ground again, Thus we are having sudden changes, and it is hoped that soon a change will take place for the better, and that the weather may be of a more genial description.

TECHNICAL EDUCATION.—On Wednesday night last, Mr London, County Council lecturer, gave the second of his series of lectures on the "Senses." He dealt on this occasion with the eye. A graphic description of the exterior of the optic nerve was given, explaining the eyebrows, the eyelashes, the eyelids, and the various uses to which they were adapted. The interior and construction of the important organ was elaborately explained. A lot of information was imparted on colour-blindness, long and short sight, and other matters concerning the sight. The diseases of the eye and their causes, and some useful hints how to remedy them was offered. For about two hours Mr London continued to speak, to the interest of his audience, which was a very large one. Next week, "Hearing and Speaking" will be the subject.

10th March 1894 (Hexham Courant)

Marriages

At Stanhope Primitive Methodist Chapel, 3rd inst. Thomas Wallace to Jane Rutherford, both of Stanhope.

Deaths

At Leadgate, 328 South Cross St, 25th ult., aged 41, Joseph D. Curry, beloved husband of Mary Ann Curry late of Allenheads.

Joseph Dickinson Curry, married Mary Ann Short, 4th quarter of 1878, Hexham.

In 1881, at Mill Cottage, Joseph D. Curry, lead miner, aged 28, his wife Mary A. 24, children Jane A. 1, and William C. 2 months.

In 1891, at Leadgate, Durham, Joseph D Curry, coal miner, aged 38, his wife Mary A. 34, children Jane A. 11, William C. 10, Elizabeth A. 7, Joseph 5, and Isabella 3.

WEARDALE

FATAL ACCIDENT

On Thursday, the mangled remains of a boy named Thomas William Dalton aged 15 years, were found lying beside an old disused water wheel, near Green Laws lead mine, Weardale. The deceased, who lived at Green Laws Farm, was a washer boy at the above lead mine. He was at work until about half past one, when he went home. About half past four in the afternoon, he left the house, and at 6.30 his father Joseph Dalton found him dead, hanging to the shaft in connection with the water wheel and a circular "buddle" at Middle Green Law. It is supposed that the water had been turned on, and the wheel set in motion, and the lad had been caught by it.

In 1861, at High Allers, Heathery Cleugh, Thomas Dalton, lead miner, aged 42, his wife Isabella (Graham, married 2nd qtr 1841, at Weardale) aged 46, children, Jesse, lead miner, aged 18, John, lead miner, aged 15, Joseph, lead miner aged 12, Thomas 10, Isabella 8, and Hannah 3.

In 1871, at High Allers, Heathery Cleugh, Thomas Dalton, lead miner, aged 51, his wife Isabella 56, children, John, lead miner, aged 25, Thomas, lead miner, aged 22, Joseph, lead miner, aged 20, Isabella 18, and Hannah 13.

In 1881, at Low Allers, Heathery Cleugh, Weardale, Thomas Dalton, retired lead miner, aged 61, his wife Isabella 66, and daughter Hannah 23.

Isabella Dalton died 4th qtr 1883, aged 69, registered at Weardale.

Thomas Dalton died 14th September 1884 at Killhope, Weardale.

In 1881, at Cogley, Heathery Cleugh, Joseph Dalton, labourer, aged 30, his wife Jane Ann (Milburn, married 1st quarter of 1878, Weardale) aged 24, and son Thomas 2.

In 1891, at Burnt Hills, Heathery Cleugh, Joseph Dalton, widower (Jane Ann, died 2nd quarter of 1890, aged 33), lead miner & farmer, aged 39, children

Thomas Wm. 12, Jacob Joseph 9, John Graham 6, Jesse 4, Hannah 1, and general servant Harriet Rutherford aged 16.
In 1901, at Daddry Shield, Weardale, Joseph Dalton, widower, limestone quarryman, aged 49, and son John G. 16.
In 1911,at Daddry Shield, Weardale, Joseph Dalton, widower, limestone quarryman, aged 59, and daughter Hannah aged 21.

NENTHEAD
SUDDEN DEATH

An inquest was held on Saturday at Nenthead relative to the sudden death of Mrs Tamar Dixon, a widow 51 years of age, who resided at Nenthead with her daughter and sons, and who died in bed the previous night. The deceased woman was strong and robust in appearance but had complained of shortness of breath and fluttering of the heart. On Friday night she slept with her late husbands mother who is 89 years old, the latter in the morning waking to find her daughter in law dead. Verdict death from natural causes. (Heart disease).
See 17th March 1894

ALSTON

DEATH OF MR ROBERT DENT GARRIGILL. We regret having to record the death of Mr R. Dent, schoolmaster, Garrigill, which took place on Monday morning. Mr Dent having been in failing health for sometime not having been able to attend to his school duties. …
Mr Dent came to Garrigill about 50 years ago. He was a local preacher amongst the Wesleyan Methodists. … He leaves a grown family of sons and daughters, his two sons being, Mr John Dent, schoolmaster, Harker near Carlisle, and the Rev. W. R. Dent, Stockton. *(Died 12th March aged 71 years.)*

24th March 1894 (Hexham Herald)
Deaths

Stanhope 19th inst., aged 91, George Rain, grocer, same day, Hannah, wife of John Walton, East Lane, and daughter of Mark Martindale.
See 31st March 1894

31st March 1894 (Hexham Courant)
NEWBROUGH STOPPAGE OF LEAD MINES

On the 22nd inst. the miners engaged at the Stonecroft and Greyside lead mines stopped work. The lease under which The Stonecroft and Greyside Mining Company, have been working expired on December 31, 1893, but a compromise was affected whereby the company have been enabled to carry on the mines until the present and also under the expectation that the royalty rents would be reduced. In the case of one of the royalty owners this expected reduction has not been granted, and as this royalty covers a considerable portion of the mine, it was not deemed possible for the mine to pay. It is expected that the whole of the men will very shortly be finished work, as there only remains the dressing of ore, which has already been raised to the surface.

31st March 1894 (Hexham Herald)
Deaths

Stanhope 24th inst., aged 20 Hannah daughter of Mark Martindale.

In 1851, at Westgate, St John's, Feather Martindale (Featherstone son of Thomas Martindale & Mary Walton, died June 1854), lead miner, aged 41, his wife Mary 33, children Thomas 14, John 13, Mark 11, and Joseph 5.

WEARDALE

DEATH OF A WEARDALE MAN IN AUSTRALIA

The Australian papers just to hand record the death on March 3rd of Mr Thomas Egglestone, mining reporter on the staff of the Bendigo Independent. ... Deceased was the eldest son of Mr Nathan Egglestone, now in the 85th year of his age and living at St John's Chapel, Weardale. In 1857 deceased emigrated, along with some eight or nine young fellows from Weardale, to the gold fields of Australia, and worked at the mines for some years. In 1871 the deceased became foreman of the Lazarus Gold Mining Company and occupied that post for 11 years, relinquishing it on account of ill health in 1882, when he was presented with a gold watch and chain by the work people. Mr Egglestone subsequently became an examiner in connection with the school of mines for mining students and also became a mining reporter. He leaves a widow and family. (Cause of death "the breaking of a blood vessel".)

In 1841, at St John's, Stanhope, Nathan Egglestone, lead miner, aged 30, his wife Sarah aged 25, children, Thomas 5, Henry 4, William 3, and Mary 1.

In 1851, at Huntshieldford, Stanhope, Nathan Eggleston, lead miner, aged 42, his wife Sarah 39, children, Thomas, lead miner, aged 16, Henry, lead miner, aged 15, William, lead miner, aged 13, Margaret 8, John 7, Nathan 4, Sarah 2, and Ann 2 months.

In 1861, at Huntshieldford, Nathan Eggleston, widow, green grocer, aged 52, Henry, lead miner, aged 24, William, lead miner, aged 22, Margaret 19, John, assistant green grocer, aged 16, Nathan 14, Sarah 11, Ann 9, and Joseph 7.

ALSTON

Death of the wife of the Rev. F. Jones. Florence wife of the Rev Frank Jones (who was recently stationed in Alston Wesleyan Circuit) and daughter of Mr John Millican, Croft House, Alston. The sad event occurred on Sunday morning at Heburn. Mr & Mrs Jones were married at Alston about 18 months ago, they have an infant daughter born on 15th March. *See 14 April 1894.*

21st April 1894 (Hexham Herald)

ALSTON

A sudden death occurred last week in the person of Robert Watson, Chapel House. Mr Watson had been in failing health for some time past but had been working pretty regularly. He proceeded to his work on Thursday morning week (13th) at Rodderup Fell Mines. He complained of feeling unwell about two o'clock in the afternoon, and left for home which he reached about six o'clock, though only about 2 miles away. He had undoubtedly burst a small blood vessel on the road home as he had been vomiting blood. … Deceased was in his 61st year … he leaves a widow and daughter to mourn his loss.

He was a native of Scotland and settled in Alston more than 30 years earlier.

In 1861, at Aimshaugh, Robert Watson, lead miner, aged 27, his wife Hannah (Cousins, married 28th April 1860, Alston) aged 24, and son George 3 months (died 4th quarter of 1862).

In 1871, at Over Burn, Robert Watson, lead ore miner, aged 38, his wife Hannah aged 34, and daughters Elizabeth 8, and Mary J. 7.

In 1881, at Chapel Square, Robert Watson, coal miner, aged 48, his wife Hannah 43, and daughter Mary J., domestic servant, aged 17.

In 1891, at Chapel Terrace, Robert Watson, coal miner, aged 58, born Glasgow, his wife Hannah 53, daughter Mary J. 27, and granddaughter Florence H Watson 5 years.

Deaths

Allendale, Dene House, 14th inst., aged 72, John Roddam.

(Interred at Corbridge) In 1891, at Dene House, John Roddam, widow, farmer, aged 68, son John S. farmers son, aged 34, and daughter Frances, farmers daughter, aged 34.

At Beldy, Garrigill, 16th inst., aged 63, Hannah, widow of the late Isaac Teasdale.

In 1861, at High Shield Hill, Isaac Teasdale, lead mine labourer, aged 37, his wife Hannah (Bramwell, married 1st quarter of 1853, Alston) aged 29, children Elizabeth 8, and John 8 months. In 1871, at Beldy, Isaac Teasdale, lead miner, aged 47, his wife Hannah 39, and son John 10.

In 1881, at Beldy, Isaac Teasdale, married, lead miner aged 56.

In 1891, at Beldy, Isaac Teasdale, lead miner & grocer, aged 67, and his wife Hannah aged 59. Isaac died 20th June 1892 aged 68.

To the Memory of
Isaac Teasdale
of High Beldy
who died June 20th 1892
Aged 68
Intered in the Churchyard

Also Hannah his wife
who died April 16th 1894
Aged 63 years

28th April 1894 (Hexham Courant)

Marriages

At the residence of the brides mother, 28th ult., John Catton, of Hamilton, Canada, late of Alston, to Agnes Craig Haig, of Seymour East.

Joseph, Francis and John Catton, were the children of Joseph and Ann Catton, of Ninebanks. Joseph Catton (baptised 7th March 1819, at Alston, parents Joseph & Hannah) married Ann Smith, 18th December 1847, at Alston.

In 1851, at Blagill, Alston, Joseph Catton, farmer of 829 acres, aged 63, his wife Hannah (Walton, married 23rd January 1813, at Alston) aged 59, children Jane, unmarried, aged 26, Robert W., unmarried, aged 23, Alice, unmarried 18, and grandson Joseph Catton 2.

Joseph Catton, of Blagill Burn Head, died 14th January 1859, aged 71.

In 1861, at Blagill, Hill Top, Hannah Catton, widow, farmer of 376 acres, aged 69, grandson, Joseph Catton, aged 13, granddaughter Fanny A. U., aged 11 (Christened Fanny Ann Ursilla, 2nd August 1850, Ninebanks), and grandson John Catton, aged 9.

Hannah Cotton, died 2nd quarter 1862, at Alston.

In 1871, at Coatley Hill, Alston, Thomas Richardson, farmer of 944 acres, employing 2 labourer, aged 42, his wife Alice M 38, children, Joseph E 10, Alice Jill 8, Thomas W 6, Henry B 4, Clarence E 3, Francis I 3, Arthur R 2, Ada L M 3 months, nephew, Joseph Catton, farm servant, aged 22, nephew, John farm servant, aged 23, niece, Francis A. U. Catton, dairy maid, aged 20, and Elizabeth Dowson, domestic servant, aged 24. (Joseph, John & Francis Catton, all born at Allendale)
In 1881, at Victoria Street, Elswick, Newcastle, Thomas Lee, machinist, aged 32, born Alston, his wife, Fanny A.U. aged 31 (married at Alston, 23rd June 1880), brother in law, Joseph Catton, coal merchant, aged 32, aunt, Alice M. Richardson, farmers wife, aged 49, born Alston, and cousin, Charles J. Richardson 4.

Sarah Hughes	Adopted Daughter	F	10	Scotland
Agnes C Catton	Wife	F	47	Ontario

There is a record of a John Cotton, of Seymour, Northumberland, Ontario born England, 3rd January 1851, died 14th November 1921, aged 69. John Catton appears in the England & Wales Birth Registration Index, 1st quarter 1852. See 13th November 1841, 30th July 1881, and 17th July 1886

28th April 1894 (Hexham Herald)

WEARDALE

The Weardale Lead Company have turned off a number of hands at their different mines, - Green Laws, Grove Rake, Sedling, Killhope. No reason is given, and no information as to whether it is temporary or permanent. Lead is very low, and it is now difficult for any lead company to make lead mining pay at present prices. ...

28th April 1894 (The North Cumberland Reformer)

ALSTON SCHOOL BOARD.

A special meeting of this Board was held on Saturday to appoint a successor to Miss Mann, who has resigned her position at Nenthead School, and to take into consideration the new proposal of the Lead Company as to letting the present school buildings.—Mr Elliott presided, and the other members of the Board, Messrs - Walton, Harrison, Bell, and Rutherford, were present, with the Clerk (Mr T. W. Dickinson).—The CLERK reported that he had advertised for a female teacher at a salary of £35 per annum, but he had not received a single application.—Mr HARRISON thought teachers must be getting scarcer, or salaries had risen.—Mr WALTON said the examinations were becoming stiffer and stiffer, and that this was reducing the number of candidates, who were, some years ago, much, more numerous than the vacancies. He proposed that the Board appoint a sewing mistress, and endeavour to carry on with the remaining staff.—The CHAIRMAN doubted the wisdom of such a policy. and Mr HARRISON asked what salary would be likely to bring applications.—The CHAIRMAN thought £40 might do so, and it was agreed to advertise again and offer that salary.

NENTHEAD SCHOOL.

A letter was read from Mr W. Holmes, acknowledging receipt of the Board's request to attend their meeting, to discuss the terms on which the school might be rented, but stating that he saw no advantage likely to accrue from such a course, as he had no other terms to offer than such as were contained in his previous letter.—Mr WALTON said this was only what be expected.—The CHAIRMAN suggested that the Board might offer to the Company what they received for letting the school for concerts, &c., in addition to the £20, the company to do repairs, and the Board to retain control of the building.—The CLERK: It would not be fair to let the company have both the proceeds, and the use of the Board's furniture.—Mr RUTHERFORD: When the school is let to outsiders we shall require a representative to see that no damage is done.—After some further discussion, Mr BELL moved that they offer £25, the Board to have full Control of the building, and the Lead Company to do repairs, and this was agreed to.

2nd May 1894 (Teesdale Mercury)

THE ANNUAL REPORT OF THE TEESDALE UNION

Assessment Committee is always an interesting document, because the statistics therein contained are a kind of index to the trade of the neighbourhood, Very gratifying is it to learn that the lead trade shows slight indications of revival. Indeed, there are some authorities who believe that the lead trade is now passing its lowest depths, and that perceptible recovery cannot be very far from commencing. The decline in the price of lead during the past few years is well known. The Chairman of a lead mining company has recently said that when the mine was opened out lead was selling at from £21 to £22 per ton—now it ranges from £9 7s. 6d. to £9 10s. per ton. The question of royalties was discussed a few years ago in Teesdale, when it was shown that a fall so vast, and continued over a number of years, had not been, and scarcely could be, accompanied by any fall, concurrently, in the cost of production. The hampering effects of royalties, however, generally speaking, that were for many years fixed in amount, have only of late begun to be adjusted in earnest in anything like the extent they should be. Lead has been arriving in the United Kingdom from many quarters—from Spain, but more especially Australasia. Bearing in mind that it is produced there with cheap labour and with very low royalties, and being rich in silver— so much so, indeed, that it has actually been imported direct into Teesdale on that account —the foreign lead became a terrible competition with British lead, resulting in the closing of some of the oldest mines. But the fall in the price of lead, with a serious fall also in the value of the silver, has begun to affect the production in other countries, and we are assured that it is possible that an industry that used to be of great moment in the upper reaches of the Tees may again experience revival Notwithstanding the formidable array of pig lead at Romaldkirk Station, it is a fact that our production of lead at home has fallen to a very low ebb, and there are some signs that the imports may be checked by the lowness of price, and possibly by the recovery in the demand in the American markets. But at the present moment the price of lead is almost at its lowest: the output in the north is limited; and the bar to recovery has been for a month or two the flooding of our markets with foreign and Australian lead. There is now little fuller demand for manufactured lead —low prices stimulate the use—and for sake of Northern industries we re-echo the wish that the brighter prospect may bulk out into fact.

5th May 1894 (Hexham Herald)

WEARDALE

It is announced that the wages of the Weardale lead miners have been reduced by 16 per cent.

12th May 1894 (The North Cumberland Reformer)

The Parish Councils Bill

A vestry meeting of the rated inhabitants of the parish of Alston was held in the Board Room of the Town Hall on Thursday afternoon. There was a good attendance. The object of the meeting was to consider a circular from the County Council relative to the Parish Councils Act. Councillor Richardson presided.—The first question was whether there was to be any alteration in the boundaries of the parish, to which an answer in the negative was given. The number of elected guardians was to be fifteen.—On the question of whether it

was desirable to divide the parish into wards, a somewhat lengthy discussion took place.—The CHAIRMAN gave it as his opinion that it was possible to divide the parish into wards or into Parish Council districts.—Mr GEORGE PICKERING said that if they were to take the benefit of the Act it was desirable to divide the parish into wards.—Mr R. ELLIOT asked if a ward could have a Parish Council.—The CHAIRMAN: That is an awkward question, and I am not a lawyer.—Mr H. BELL: Would it not be wise to deal with the District Council and then the Parish Council?—Mr W. J. SIMPSON: So far as I can see, where a parish is divided into wards there will be a parish council in each.—Mr T. HARRISON thought the meeting ought to apply for Parish Councils. Mention had been made in a local paper that at a meeting held on Saturday he had made a resolution to adopt wards. His motion was to apply for Parish Councils, and failing that, then wards. It would be best to apply for Parish Councils. They had separate needs, and would be able to look after their own interests.—After some further discussion it was resolved to answer "yes" to the question.—Mr PICKERING then moved that the parish be divided into three wards— Alston, Nenthead. and Garrigill, and further that each ward be constituted a separate parish.—Mr A. BOLTON seconded, and it was carried.—Further discussion was held on the question of the time of existence of each board, whether returning by thirds or every three years.—Mr SIMPSON moved that the District Council retire every three years. It would save expense.—Mr H. BELL seconded.—Something was said about the number of councillors, but the Chairman thought the question was premature.—Mr PICKERING moved a vote of thanks to the Chairman, which was seconded by Mr ELLIOTT, who asked at the same time if the Chairman, as County Councillor, would be present when the suggestions would be presented.—The CHAIRMAN said he could carry them, and acknowledged the vote of thanks, expressing his approval of the resolution.

Marriages

At the Primitive Methodist Chapel, Alston, on the 10th inst., by the Rev. W. Spirey, Thomas William Moffat, Nenthead, to Mary Ann Stephenson, Dykes Head, Nenthead.

In 1861, at Haggs Foot, Nenthead, Sarah Moffat, lead miners wife, aged 40, sons, John, lead miner, aged 17, Thomas, lead miner, aged 11, and Albany 5.
Thomas Moffat married Agnes Henderson 16th January 1870, at Nenthead.
In 1871, at Low Galligill, Nenthead, Thomas Moffat, lead miner, aged 21, his wife Agnes 21, and son Thomas Wm 9 months.
In 1881, at Island Cottage, Nenthead, Thomas Moffat, lead miner & farmer of 6 acres, aged 30, born, Threlkeld, his wife Agnes 30, born Alston, children, Thomas W 10, Sarah 8, John A 6, and Annie 3.

In 1901, at Dykeheads, Nenthead, Thomas W Moffat, grazing farmer, aged 30, his wife Mary Ann 26, daughter Hilda 5, & step son Matthew 2.
In 1911, at Dykeheads, Nenthead, Thomas William Moffat, farmer, aged 40, his wife Mary Ann 36, children, Hilda 15, Matthew Stephenson, 12, Annie 8, and Thomas Henry 6.

19th May 1894 (Hexham Herald)

ALSTON SCHOOL BOARD.

A letter from the Lead Office, Nenthead, was read, stating that the company could not accept less than £30 a year rent for Nenthead School building. They undertook to be responsible for the repair of the roof (including belfry), walls and floor of the main buildings and out-offices, the Board to keep the place otherwise in condition, as to cleanliness, &c., to satisfy the Inspector and Company's agent. A decided opinion was expressed that £30 was an exorbitant charge, and after the clerk had explained that the Board could not be required to vacate the premises for a year at least, he was instructed to inform the Company's agent that the Board could not increase their offer of £25. The attendance for the month at Nenthead was: - On books 137, Average attendance 114.

26th May 1894 (The North Cumberland Reformer)

Deaths

At St. Joseph's Home, Carlisle, on the 6th inst., James Fitzsimmons, formerly of Nenthead, aged 73 years.

St Josephs Home for aged poor, Albert Street, Carlisle.

7th July 1894 (Hexham Courant)

SETTLINGSTONES MINES

Obituary: - Another estimable citizen in the person of Mr Michael Clennel, engineer of the above place, has been removed after a short illness from the mundane sphere at the ripe old age of 86 years. Quite five momentous decades or 50 years have passed since the subject of this notice took up his residence in the neighbourhood, firstly at Newbrough, secondly at Stonecroft, and finally at Settlingstones mines. Deceased was imported from Derwent Lead Mines by Messrs Hall, the proprietors who had also acquired the rights to work the lead

ore at the former place; and which was now fast developing into a veritable El-Dorado under the experienced directorship of Mr Matthew Winter, the Manager Mr William Watson, father of the present respected resident manager, and Mr John Ball, master washer. … He was the father of a family of 17 children but Mrs Clennel predeceased him many years. … Interred Newbrough churchyard.
In 1841, at Michael Clennell, lead miner, aged 30, his wife Frances (Henderson, married 5th March 1831, Hunstanworth) aged 30, children Jane 7, Mary 5, Susannah 3, Thomas 5 weeks, and Alexander 10.
In 1851, Settlingstones cottages, Michael Clennel, engine keeper, aged 42, born Leeds, Yorkshire, his wife Frances aged 40, born Newcastle upon Tyne, children Alexander 19, born Stanhope, Mary 14, born Stanhope, Susannah 12, born Stanhope, Elizabeth 8, born Stanhope, and Michael 3, born Warden.
In 1861, at Settlingstones mines, Michael Clennel, engine keeper at mines, aged 52, his wife Frances 50, children Mary, dressmaker, aged 24, Elizabeth, nurse, aged 18, and Michael, lead miner, aged 13.
In 1871, at Settlingstones mines, Michael Clennell, widow, engineman at lead mines, aged 64, daughter Susannah, housekeeper, aged 42, and son Michael, engineman at lead mines, aged 23.
In 1881, at Settlingstones mine, Michael Clennel, widow, engineman, aged 74, daughter Susannah, housekeeper, aged 42, and son Michael, engineman, aged 33.
In 1891, at Settlingstones mines, Michael Clennel, widow, living on his own means, aged 83, daughter Susannah 58, son Michael, stationary engineman, aged 43.

4th August 1894 (The North Cumberland Reformer)

SAD DEATH OF A CHILD NEAR NENTHALL

On Tuesday, the 31st ult. an inquest was held in the Nenthall Schoolroom, before Mr J. B. Lee, coroner for East-Cumberland, and a jury, of which Mr W. J. Simpson was foreman, touching the death of George William Teasdale, aged 1year and 5 months, son of John Teasdale, farmer, High Lovelady Shield, which took place under most distressing circumstances the previous day. It appears that two men, Victor Peart and Smith Walton, were proceeding from Nenthead to Alston, in charge of three horses and carts laden with lead. The two leading carts were Pearts. Instead of remaining with his horses, Peart accompanied, as he often did, Walton in the third cart, where sitting low down upon the lead, they were unable to see anything low down on the road. When opposite High Lovelady Shield, the deceased boy, who had strayed or been playing on the road, unfortunately got among the horse's feet and cart wheels, and was crushed to death, his mother, who had seen him a few minutes before, and was hastening with all speed to keep him out of danger, being the only eye-witness of the accident, and the first to pick up the mangled body. The little fellow's head and body were very much crushed, and death must have been instantaneous.

Margaret Teasdale, wife of John Teasdale, High Lovelady Shield, said she saw the child upstairs at 9 o'clock. She had another older child. She afterwards saw him on the road, and the cart coming, and she ran to try and get him out of the way. She was three or four yards off when the child was run over. She ran between the second cart and the third horse, and picked up the body. The two men were both in the third cart. She shouted to the child all the way as she ran to the cart, and when she got up she shouted to the men. The child was lying close beside the second cart wheel. The men at the farm were at work among the hay, and she was busy with the dinner.

Stewart Carson, M.D., residing at Alston, said he arrived at High Lovelady Shield a little after ten on Tuesday morning, and there saw the dead body of the child, and made an examination. The right side was flattened and crushed, the head was crushed, and the brains were protruding from the mouth. There was

also a contusion corresponding to the marks of a wheel which had passed over the left elbow, and a depressed mark on the left hand which had probably been caused by the hind foot of a horse. The wheel of the cart had passed over the body obliquely downwards and across the right hand over the nose and cheek and then over the left elbow. From-appearances, he was of opinion that the child had been lying on the road on its back, slightly on the left side and obliquely across the road. It was a remarkably strong healthy child.

William Thompson, mining agent, Alston, said he was walking from Alston to Nenthead, and met three carts south of Nenthall School. The two first were laden with pig lead, and no one was in either cart, or beside them. The two men. Peart and Walton, were in the third one sitting on the lead in the body of the cart. He passed them on the east side, and spoke to Peart about some carting. He did not observe whether Peart was nearer the horse than Walton, but had the impression that he was. That was about 60 yards from Mr Teasdale's gate. He could not say whether the horses were fastened behind the carts, but it was a usual thing to attach them by a chain. He had known this road nearly all his life, and in a case like that, one man would have charge of two carts, and the other one. It was a calm day. He heard nothing till a few minutes after he passed the men, and then he heard a woman's screams. The lead on the cart would be in two layers on the bottom, and the men's heads would be about 18 inches above the wheel—By a juryman: He did not see the child. The carts were near together, and the head of the two rear horses might have been fastened to the cart preceding.—By the police: The carts were in a straight line; the men in the last cart could not see the first one.

Smith Walton said he was a carter employed by Henry Stout, Nenthead, and Peart by his father, Emmerson Peart. They were in the habit of going down together. The last cart was his, and the other two Peart's. They were carting independently of each other. Victor Peart was in his cart, his horse not being fastened to Peart's cart. There was only one layer of lead in the cart, and they were sitting on it, facing the east. He could see over the front of his cart. Thompson spoke to them. When nearing Teasdale's gate; they saw Mrs Teasdale coming up the fields from the house, which was 70 or 80 yards away. We heard her shouting, and Peart and I both remarked that she would be wanting something brought from Alston, as he was in the habit of bringing things for people on the return journey. When they saw her run between the horse and cart they both jumped out and stopped the horses. Mrs Teasdale had the child in her arms. This was on the west side of the road, to the left of the carts. After taking the child, into an adjoining cottage, we went on to Alston to send the doctor. The carts were in a straight line. He usually drove two carts. No complaint had ever been made of the way the carts were driven.—By the jury: Mrs Teasdale seized the horse and stopped it, two or three yards from where the child was picked up. He thought the first cart went over the child. He was next his horse, not Peart.—By the police: There was no nonsense going on between him and Peart after Thompson passed. They did not see the child. He could not say whether Peart's second horse was attached to the cart before it.

Stephen Spink, schoolmaster, Nenthall, said that he was in his house, which is nearly opposite Teasdale's gate, between 9 and 9-30, when he heard a woman scream. He ran out to the school wall, and saw Mrs Spink wave her hand, and heard Mrs Teasdale cry out about her child. As he got up Mrs Teasdale put the child down on the flags, and he took it into Mrs Sparks, and asked the two men

to send a doctor. They were then in the cart, but when he first ran up they were not. He often saw lead carts passing, and one man in charge of two horses, and frequently noticed men together in each-others carts, and no accident had occurred before during the three years of his residence there,
The Coroner in summing up reviewed the evidence at length, and fully explained the law of manslaughter voluntary and involuntary. He concluded by pointing out to the jury that notwithstanding the fact of the child being improperly on the road there was no doubt evidence of a flagrant offence against the Highway Act by Victor Peart, through which the child came by its death.
The jury retired, and on their return the foreman said they found that death had resulted from inadvertence, partly owing to the practice adopted by lead carters in the district, partly from the deceased child having been improperly upon the road. The jury through him expressed a strong view against the present objectionable practice of driving followed by lead carters.
In 1871, at Park Alston, Isaac Teasdale, Lead miner, landowner, & farmer of 51 acres, aged 45, his wife Mary 44, children, John, lead miner, aged 18, Isaac, lead miner, aged 16, Eleanor 13, Robert 12, Thomas 8, and George 5.
In 1881, at Park, Alston, John Teasdale, Farmer of 47 acres, & lead miner, aged 28, brothers, Isaac, farm servant, 26, Thomas, Tailor & Draper, aged 18, and George, no occupation, aged 16, and domestic servant Hannah Ellen Robson aged 20.
In 1891, at High Lovelady Shield, John Teasdale, farmer, aged 37, born Alston, his wife Margaret (Routledge, married 4th qtr 1884, registered at Alston) 30, born Hexham, and son John Frederick 4 (born 1st March 1887).
In 1901 at High Lovelady Shield, John Teasdale, lead miner, aged 48, his wife Margaret 40, and son John F 14.
In 1911, at Acomb, Hexham, John Teasdale, coal miner, aged 58, and his wife Margaret aged 50. John Frederick Teasdale, coal miner aged 24, and his wife Emily aged 26 were also living at Acomb in 1911. *See 8th February 1873*

8th August 1894 (Teesdale Mercury)

TEESDALE MINE SHOPS.

The Clerk read extracts from the report of the Medical Officer of Health of the Durham County Council relative to the Teesdale mine shops: “That the low shops at Green Hurth should no longer be used as a sleeping apartment, and that the drawers’ shop at Grove Rake should be closed as unfit for habitation. Better ventilation should be provided for the Wiregill (men’s) sleeping rooms, and an improvement in the general sanitary condition of the Grove Rake and Wolfcleugh mine shops is greatly needed. That all shops should be properly spouted, and means provided for carrying the roof-water away from the houses, so as to prevent dampness of the foundation and walls. That at least 400 cubic feet of air per head should be allowed in every sleeping room, that the tier system of beds should be discontinued, and that all beds and bedding not in use should be removed from the rooms. In several of the shops a better separation of the drying and wallet rooms would be advantageous."
Dr. Hill further said: “The following lead mine shops are at present occupied: High Manors Gill, Low Manors Gill, Wiregill, Little Eggleshope, Lady Rake and Green Hurth, and at the date of my visit they were inhabited during four days' a week by about 250 men and boys. As a rule the living rooms are fairly large and satisfactory but at the low shop, at Green Hurth, it is small, badly lighted and

ventilated, and directly connected with the sleeping room, while the living room at the boys' shop, Little Eggleshope, is somewhat damp. With regard to the bed-rooms a great improvement has been inside in many of the shops of late years, for not only have the number of beds been reduced, but apart from this, owing to the decline in the lead mining industry, the number of men engaged in the mines has greatly decreased. In most of the shops also, except at Green Hurth, artificial ventilation through the roof, or else cross ventilation has been provided. The bed-room on the first floor of the Wiregill shop is, however, insufficiently ventilated, while at the low shop, Green Hurth, the room is very small, badly lighted and ventilated, and unfit for a sleeping apartment. In none of the mine shops are bedrooms provided with a fire place. The chief defect, however, in the mine shop is the overcrowding of the bedrooms."

Dr Atkinson forwarded a letter in which be stated that be believed it was the opinion of the Medical Officer of Health for Durham County that the small low shop at Green Hurth was unfit to be used as a sleeping place for men, and recommended that it be closed. Dr Atkinson said that Green Hurth was the place that he had complained about on previous occasion, and he believed it was not fit for the purpose for which it was used as it stood at present.

Mr Raine complained that the notices ordered to be sent by the Board had been over-ridden by the Inspector and Medical Officer.

On the motion of Dr Mitchell, it was resolved to send notices to the owners of the mines asking them to remedy defects in the rooms occupied by their workmen, although he thought that the demand for air-space was excessive.

25th August 1894 (Hexham Herald)

Marriages

Alston, St Augustine's Church, 13th inst., John Davidson of Idaho, America, (late of Blagill) to Miss Annie Todd, Shaw House Inn (late of Croglin).

In 1891, at Croglin, Penrith, Margaret Waugh, widow, farmer, aged 72, son James, farmer, aged 35, and granddaughter Annie Todd 20.

8th September 1894 (Cumberland & Westmorland Herald)

ALSTON & DISTRICT NEWS.

SCHOOL BOARD.—Held on Saturday. Present Messrs. R. Elliot (chairman). H. Bell, J. Rutherford. and H. Walton. The Clerk said he had made application to the Science and Art Department respecting the drawing examination for Tynehead School. The report had not yet been received for the Nenthead School. The question of the buying or renting of Nenthead School was left over till after the receipt of the report. **PROPERTY FOR SALE**.—At Nenthead on Thursday Mr. Elliot offered for sale certain leasehold properties at and near Nenthead. For the inn and seven cottage houses situate at Overwater the bidding lay between Mr. W. R. Little, Alston, Mr. P. Swindle, Nenthead, and Mr. M. Yeats, Gateshead. The last named secured the lot for £570. For dwelling house, cottage, and 22 acres meadow and pasture land known as Browngill there were only two offers—£400 by Mr. Little and £500 by Mr. H. Lattimer—and the property was withdrawn.

Deaths

At Alston, on the 1st inst., Bessie, wife of J. J. Shield, aged 36 years.

John James Shield, married Betsy Busby, 4th qtr., 1885, registered at Alston.

In 1891, at Croft House Terrace, Alston, John J Shield, butcher, aged 41, his wife Bessie aged 33, born Wigton, daughter, Georgina S 4, and lodger, William Cox, school master, aged 29, born Scotland.

15th September 1894 (Hexham Herald)

Marriages
At Newcastle, St. Jude's, September 12, by the Rev. Digby Seymour, John Thomas Hay, fourth son of Robert and Georgina Hay, late of Vine Lane, to Margaret Armstrong, late of Nenthead, Cumberland.

15th September 1894 (The North Cumberland Reformer)
THE NENTHALL FATALITY.
Victor Peart, carter, Nenthead, was charged with a breach of the Highway Act on July 30th, at Nenthall. He pleaded guilty.—Superintendent Russell said that the proceedings were taken in consequence of the negligence of defendant when engaged in carting lead from Nenthead to Alston with two horses and carts, whereby a child lost its life.—Smith Walton, carter, Nenthead, deposed that he was engaged in carting lead from Nenthead, and was in company with defendant. He had one horse and cart, defendant had two. Defendant's horses and carts were in front, and near Nentsbury defendant left his own horses to go on by themselves, and got into the cart with witness. Near Nenthall, Mrs Teasdale shouted. They stopped the horses, and saw her pick up the child between the second and third carts. They gave what help they could, but the child was dead.—Defendant having admitted the offence, no further evidence was called.—The Bench retired for a few minutes, and on their return the Chairman said that this case had been investigated by the Coroner, and a verdict of "accidental death" returned. That verdict might have taken another form, but it was not for the Bench to inquire into the reasons which actuated the jury in coming to that conclusion. It was plain defendant was not where he could have control over his horses, and had therefore clearly committed an offence against the Highway Act. He might have been brought up under a much more serious charge, and the present proceedings were no bar to future action, should additional evidence be brought out. The Bench had good grounds for believing that such negligence on the part of drivers was very common, and the police would take proceedings in all future cases. The case was one that called for a substantial penalty. Had defendant been the owner, he would have been

liable to a fine of £10, as it was he was liable to be fined £5. In this instance the penalty would be £2 and costs.

22nd September 1894 (Hexham Courant)

WEARDALE

ACCIDENT

A somewhat serious accident has happened to Mr William Emerson of Westgate in Weardale formerly known as the leader of the lead miners. While engaged on the new railway cutting at Ladywell the sides of the embankment gave way. His leg was fractured and he was crushed internally.

In 1891, at Garrigill, Elizah Smith, lead miner, aged 54, his wife Hannah 54, and son Joseph, lead ore washer, aged 17.

27th October 1894 (Hexham Courant)

WEARDALE
MINES TO BE RESTARTED

The Weardale Iron Company have decided to restart their Rowantree and Grove Heads mines at once as soon as they can get sufficient hands men being scarce owing to the making of the railway. The above mines have been closed over two years. It is reported that the Weardale Lead Company's directors have decided to reopen Killhope mine, which has been closed some time. Negotiations are going on between Mr Peart, of Copt Hill, and two gentlemen from out of the dale for a lease to work the Whinstone in Mr Peart's land adjoining the Ecclesiastical Commissioners property in the upper part of the dale. The nearest Whinstone worked is at Stanhope some ten miles away. The new extension railway terminus is within a mile of the Whinstones at Copt Hill.

Marriages

At the Primitive Methodist Chapel, Alston, 20th inst Harrop Holmes, blacksmith to Elizabeth Ann Hetherington, both of Garrigill.
In 1851, at Ramseys Buildings, Thomas Holmes, carpenter, aged 23, his wife Mary (Dobson, married 21st June 1849, St John, Garrigill) aged 21, and daughter Tamar, aged 1.

Thomas Holmes died 4th quarter 1852?

In 1861, at Garrigill, Mary Dobson, widow, aged 67, son Arthur, lead miner, aged 24, daughter Mary Holmes, Widow, dressmaker, aged 31, and granddaughter Tamar Holmes 11.

In 1861, Harrop Holmes aged 3, was a boarder with the John & Mary White and family at Redwing, Garrigill.

Jonathan Greenwell married Mary Holmes, 20th April 1862, at St John Garrigill.

In 1871, at Garrigill Gate, Jonathan Greenwell, Blacksmith, aged 48, his wife Mary 41, stepson Harrop Holmes 13, children Thomas 8, Jane A 6, Jonathan 4, Mary E 4, and Hannah 5 months.
In 1881, at Garrigill Gate, Jonathan Greenwell, blacksmith, aged 58, his wife Mary 51, children Tom, blacksmith, aged 18, Jane A. 16, Jonathan 14, Hannah 10, Harrup Holmes, blacksmith, aged 23, and daughter Tamar Dawson, lead miners wife, aged 31.
In 1891, at Garrigill, Jonathan Greenwell, Blacksmith, aged 68, his wife Mary, aged 61, children, Jonathan, blacksmith, aged 24, Hannah aged 20, Harrop Holmes, 33, and grandson Francis Greenwell, aged 10 months.
In 1901, at Garrigill, Jonathan Greenwell, retired blacksmith, aged 78, his wife Mary 71, daughter Hannah 30, and grandson Francis W Greenwell 10.

Jonathan Greenwell died either 1st quarter 1906, or 4th quarter 1905.

In 1881 & 1891, Elizabeth A. Hetherington, was working as a domestic servant for John Dobson, widow, lead miner (in 1891 a retired lead miner), at Garrigill.
In 1901, at Ivy Cottage, Alston, Harrop Holmes, blacksmith, aged 43, his wife Elizabeth A 34, and daughter Maud 5. In 1911, at Kentmere House, Alston, Harrop Holmes, blacksmith, aged 53, his wife Elizabeth Ann 46, daughters Maud 15, Aletia 9, and Annie 7.
Harrop Holmes died 4th quarter 1928, aged 71

3rd November 1894 (The North Cumberland Reformer)

NENTHEAD SCHOOL.

The Clerk stated that no reply had been received from the Department respecting the Nenthead school buildings.—Mr Walton said that in view of the uncertain condition of the mining industry, and the consequent possibility that considerable changes might occur in the population, it would be better to continue renting the buildings if reasonable terms could be arranged.—It was decided to let the matter stand over.

FINANCIAL

The Clerk said that it would be necessary to issue a precept to meet the expenditure up to June next. He had previously estimated that £125 would be required, but he had since found that £70 would probably suffice.

ATTENDANCE.

The attendance for the month was as follows:—

	On Books	Average.
Nenthead	129	115
Nenthall	42	37
Tynehead	16	12
Garrigill	71	62
Leadgate	21	20
Alston High	109	100
„ National	59	48
„ Infant	72	62
	519	456

10th November 1894 (Hexham Herald)
Marriages
Stanhope Primitive Methodist Chapel, 3rd inst., John Dryden Ward to Miss Elizabeth Metcalf of Frosterley; same day at the Wesleyan Chapel, J. N. Gardner to Miss E. Batty of Rookhope.

17th November 1894 (Hexham Courant)
WEARDALE
Forty quarrymen and bearers at Newlandside limestone quarry, Stanhope were dismissed last weekend, their notice terminating. The quarry west of Softly turnpike is laid in on account of being to dirty.
Mrs Bainbridge of Water Lodge near Stanhope, died of excessive grief on Sunday at the sudden death of her husband John Bainbridge, who dropped down dead while at work in Newlandside limestone quarry three weeks ago. The poor lady was preparing supper for her husband when the cart arrived with his dead body. The shock and grief have caused her death.

17th November 1894 (Hexham Herald)
WEARDALE
Some 60 men and boys irrespective of cartmen have been employed at the ironstone in Upper Weardale these last two weeks.
Mrs Bainbridge of Water Lodge near Stanhope died from excessive grief on Sunday (11th) at the sudden death of her husband, John Bainbridge who dropped dead whilst at work in Newlandside Limestone quarry three weeks ago. *(John Bainbridge a labourer aged 61)*

In 1871, at Crawleyside, Thomas Slack, lime burner, aged 28, his wife Ann 25, children William Littlewood 5, Sarah Hannah 3, and John Thomas 4 months.
In 1891, at Crawleyside, Thomas Slack, lime worker, aged 48, his wife Ann 45 William, limestone quarryman, aged 28, daughter Sarah 23, John Thomas, limestone quarryman, aged 20, Robert, limestone quarryman, aged 18, Mary 15, Rosanna 9, and boarder Robert Slack, limestone quarryman, aged 26.

19th November 1894 (Northern Echo)
At Wearhead on Saturday, **an inquest** was held by Deputy-Coroner Badcock on **Thomas Hodgson**, who was killed in the **"Carricks" Mine**. Mr Plummer Her Majesty's Inspector of Mines was present; and evidence was given by Joseph Harrison, Wearherad; John Byers, Ireshope Plains, and Thomas Wilkinson, overman, St John's Chapel.—A verdict of "Accidental Death" was returned.
Durham Mining Museum gives:

Age:	*48*
Died:	*15th Nov 1894*
Accident:	*15th Nov 1894 1:00 p.m., 6th hour of shift*
Year Born:	*abt. 1846*
Colliery:	*Carricks (Ironstone)*
Company:	*Weardale Iron Co. Ltd.*
Occupation:	*Miner*
Notes:	*Fall of ironstone from the roof*

"a shot had been fired and this displaced a stone, which had been covering a clay back or parting in the stone above; as soon as this happened, the support having been taken away, a large stone fell upon the deceased man without any warning and killed him. He had examined the stone, both with a light and by sounding it, and thought it was quite safe."

Thomas Hodgson baptised 21st October 1847, at Stanhope, son of Thomas (lead miner) and Hannah Hodgson.
Thomas Hodgson senior died 14th August 1860, at Middle Rigg, Weardale, aged about 49.
In 1871, at Middle Rigg, Heatheery Cleugh, Hannah Hodgson, widow, farmer of 7 acres, aged 62, children, William, lead miner, aged 26, Thomas, lead miner, aged 24, John, lead miner, aged 22, Ann 31, Mary 19, and grandson Thomas Dawson 10.
In 1881, at 4 Railway Street, Tow Law, Wolsingham, Thomas Hodgson, stone mason, aged 34, and his wife Phoebe Ann (Harrison, married 4th qtr 1877 at Weardale) aged 32.
In 1891, at Wearhead, Weardale, Thomas Hodgson, ironstone miner, aged 44, his wife Phoebe Ann 42, and son Thomas William 6.
In 1901, at Wearhead, Weardale, Pheobe A Hodgson, widow, Coffee refreshment room, aged 50, and son Thomas Wm, Railway Clerk, aged 16.

24th November 1894 (Hexham Courant)
Deaths
At Wearhead, 15th inst. Thomas Hodgson.
In 1881, at 4 Railway Street, Tow Law, Thomas Hodgson, stonemason, aged 34, and his wife Phoebe Ann 32.
In 1891, at Wearhead, Thomas Hodgson, iron stone miner, aged 44, his wife Phoebe Ann aged 42, son Thomas William 6, and boarder John Harrison Hodgson, general labourer, aged 35.

24th November 1894 (Hexham Herald)

In 1861, at Overwater, William Havelock, lead miner, aged 50, his wife Anna 44, children Nicholas, lead miner, aged 24, Isabella 20, William, lead ore washer, aged 17, Richard, lead ore washer, 15, John 13, Susannah 4, and grandson, Thomas Havelock 5 months.
In 1871, at, Hill Top, Robert Dixon, lead miner, aged 36, born Haltwhistle, his wife Martha (Martha Havelock, married Robert Dixon, at Nenthead, 8th March 1863) 30, children Susannah 7, Mary Jane 6, Isabella 4, Catharon 1, and step son Thomas Havelock 10.
In 1881, at Hill Top, Robert Dixon, lead miner, aged 53, his wife Martha 43, children Thomas H. lead miner, aged 20, Isabella 15, Catherine 11, Margaret 9, and Ridley H. 5.
In 1901, at Hillersdon Terrace, Thomas Havelock, lead miner, aged 40, his wife Lucy 35, sons Robert W 6, and Harold 3.
In 1911, at Hill Top, Nenthead, Thomas Havelock, lead miner, aged 50, his wife Lucy 43, sons Robert William, lead ore washer, aged 16, and Harold 13.
See 6th October 1854, 3rd December 1870, 3rd August 1872, and 22nd April 1882.

8th December 1894 (Hexham Herald)
WEARDALE
LEAD COMPANY
The report of the directors for the year ending June 30 states that the produce of the mines during the 12 months has considerably improved. The average price of the lead sales has been £9 9s 7d per ton delivered at Park Head. This is 13s 3d per ton less than the exceptionally low average prices of the previous year. The total sum realised from sales of lead during the year amounted to £31,429, as against £28,089 in the preceding year. ... 4,971 tons of ore have been raised, and 4,827 tons dressed during the year; 4,738 tons of ore have

been smelted, and the yield from the mill has been 3,315 tons, 4cwt, 1qr, 8lbs, of pig lead, realising as before stated, £31,429 net at Park Head.

15th December 1894 (Hexham Courant)

ALSTON

ACCIDENT

A serious accident occurred at Nenthead on Tuesday morning last. An engineer named John J Atkinson, employed by the Nenthead Lead and Zinc Co., was doing some repairs to the "jiggers", and while thus engaged he fell from the gangway on to the floor beneath a distance of perhaps 20 feet. In his fall he is supposed to have struck one of the iron tubs with his head. When he was picked up he was found to be unconscious, and had sustained severe injuries to his head and legs, while other parts of his body were badly bruised. He was conveyed home and Dr Masterton was called in to attend his injuries.
He remained unconscious for several hours and lies in a precarious condition.
In 1891, at Overwater, Nenthead, James Atkinson, retired lead ore washer, aged 73, his wife Jane 67, sons John James, mill wright, aged 44, Pearson, student (master training college) aged 22, and grandson John James Atkinson aged 12. In 1901, at Overwater, Jane Atkinson, widow, aged 77, and son John J., millwright, aged 54.
See 9th February 1884, & 4th November 1893

Deaths

At Nentsbury, 13th inst Joseph Renwick, lead miner, aged 37.
See 31st May 1890 & 22nd November 1890

22nd December 1894 (Hexham Courant)

Deaths

At West Allendale House, 19th inst., aged 66 years, Matthew, beloved husband of Phillis Keenleyside.
In 1871, at Grey Stone, Whitfield, Matthew Keenleyside, shepherd, aged 41, his wife Phillis 39, children Ann 15, Rachel 11, Rosetta 9, Mary 7, and Robert aged 4.
In 1881, at Dale House, Ninebanks, Matthew Keenleyside, farmer 51, his wife Phillis 50, children Polly 17, Robert 14, and Matthew 9.
In 1891, at dales House, Ninebanks, Matthew Keenleyside, farmer, aged 61, his wife Phillis 60, and daughter Rosetta, domestic servant, aged 29.
Accidentally drowned off the coast of British Columbia, 30th November, William Heslop, second son of Anne and the late William Gibson of East Farm, Fourstones.

29th December 1894 (The North Cumberland Reformer)

ALSTON.

SEVERE GALE.—One of the most serious gales experienced for a number of years took place on Saturday morning last. The older inhabitants compare it with " Windy Monday." The storm commenced late on Friday with heavy wind and rain and continued till nearly mid-day on Saturday. It seems to have been in its greatest strength about 3 o'clock in the morning, and we understand that some people got very little rest, having to keep a look out lest their windows should be blown in. Fortunately no serious damage was done, though several houses shewed signs of having been rather roughly dealt with in the shape of

having slates blown off or windows damaged. It was fortunate that it occurred during the night or someone might have suffered from falling slates. It was found that a large number of trees had been blown down, the Harbut Lodge estate suffering most, having about 18 trees blown down. One of the stately Scotch fir trees in The Firs was laid low, whilst in the fields branches were strewn in all directions. The telegraph wires suffered also, being broken in two near Nenthead. Perhaps the most serious incident was en the railway. A large tree was found to be blown across the line near Lambley and caused the morning train from Alston to be 2 hours late in reaching Haltwhistle and correspondingly late in arriving at Alston. Heavy rain fell during the night. The storm abated towards mid-day, and the rest of the day was better.
LECTURE.—On Tuesday evening a lecture on "South Africa, its natives and products," was given in the Wesleyan Chapel by Wm. Holmes, Esq., of Natal. The lecture was illustrated by lime-light by Mr Bramwell. The proceeds were for the purchase of a new harmonium for the Nentsbury Wesleyan Chapel.

Deaths
At Alston (at his son in laws, Teasdale Lowe, Clitheroe) 8th inst. aged 79, John White.
In 1841, at Fewsteads, Zaccheus White, lead miner, aged 65, wife Margaret (Plaise, married 5th August 1810, Alston) aged 50, children William, lead miner, aged 25, John, lead miner, aged 25, Elizabeth 20, and Margaret 15.
In 1851, at High Plain, John White, lead ore miner, aged 34, his wife Mary (Hetherington, married 10th December 1846, Alston) aged 25 and son William aged 3.
In 1861, at Redwing, John White, lead miner, aged 46, his wife Mary 35, children William, lead ore washer, aged 13, Margaret A. 9, John 6, Joseph 2, and nurse child Harrap Holmes 3.
In 1871, at Craig Green, John White, lead miner, aged 55, his wife Mary 45, children William, lead miner, aged 22, Mary A. home servant, aged 19, John, lead miner, aged 16, Joseph 12, and boarder Joseph Fawkes 6.
In 1881, at White Well, John White, widow, lead miner, aged 65, children Margaret, domestic servant, aged 28, John, lead miner, aged 24, Joseph, lead miner, aged 22, and grandson Henry C. White 8.
In 1891, at Low Skelgill, John White, widow, aged 75, son Joseph, farmer, aged 32, his wife Hannah 32, and boarder Joseph Fawkes, coal miner, aged 26.
See 20th October 1877, and 24th October 1891.
At Coalcleugh, West Allendale, 12th inst. aged 61, Robert Hindmarsh.
In 1851, at Coalcleugh, Joseph Hindmarsh, lead miner, aged 28, his wife Jane 25, and son John 1.

In 1861, at Coalcleugh, Jane Hindmarsh, lead miners widow, aged 29, children Elizabeth 7, William 4, and Eliza 2 years.
In 1871, at Coalcleugh, Jane Hindmarsh, widow, aged worsted knitter, and laundress, aged 39, sons, William, lead ore dresser, aged 14, and John 6.
In 1881, at Carrshield, Robert Hindmarsh, lead ore miner, and farmer of 10 acres, aged 47, his wife Jane (Hindmarsh, married 2nd quarter of 1880, Hexham) aged 47, and son William, rural post messenger, aged 24.
In 1891, at Coalcleugh, Robert Hindmarsh, farmer, aged 57, his wife Jane 58, and brother Thomas, farming assistant, aged 55.

12th January 1895 (Cumberland & Westmorland Herald)
Deaths
At Holmesfoot, Nenthead, on the 8th inst., Mar Coates, aged 61 years.
In 1881, at Wardway Cottage, Nenthead, Mary Coates, unmarried, housekeeper, aged 47, son Matthew, cartman, aged 23, and nephew, Thomas Coates 7. See 18th April 1896
In 1891, at Holmefoots, Nenthead, Mary Coates, unmarried, aged 57, and nephew, Tom Coats, lead ore dresser, aged 17.
At Fiddler street, Nenthead, on the 9th inst, John son of Henry Stout, quarryman, aged 9 months.
See 6th February 1892

26th January 1895 (Newcastle Courant)
THE SNOWSTORM IN THE ALSTON DISTRICT.
One of the heaviest falls of snow of which the present generation has had experience lies at present on the Alston hills. Ascending the Alston branch railway from Haltwhistle, the weight of snow gradually increases. From Alston to Garrigill the rate of increase is accelerated, and at Nenthead and Tynehead the fall is something to wonder at, but certainly not to wish for. All the roads over Hartside, Killhope, Yadmoss, and Whitfield Fell, are hopelessly blocked. At least one "marketer" from Weardale who attended Alston on Saturday, the 12th instant, has yet been unable to reach home, and is located at Nenthead. It is stated that one family, who were dug out from a Nenthead cottage, when rescued had only a cup of water. On Saturday week three market carts were unable to proceed further than Shaw House or Hartside. After staying there a few days they essayed to proceed with their horses—leaving the carts behind—and after much digging they eventually made their way into the Eden Valley, where there is practically no snow, Sunday, the 13th inst., was one of the most terrible ever experienced on Alston Moor —where terrible storms are by no means rare. The drift was blinding, and the wind fearfully chilling, making it very dangerous for shepherds to go on the moors. Seeing the immense wreaths that have been drifted, it is surprising that many sheep have not been overblown, but owing to the fact that a threatening day or two preceded the burst of the storm, shepherds were enabled to drive their flocks to such shelter as offered. Since the 13th instant there has been almost continuous drift on the hills and the flocks are literally starving, for in many cases it is not possible to get the sheep to the hay, or the hay to the sheep. The barns were pretty welt stocked at the start, and hay was well saved up till Christmas, but now, owing to the block on the roads and on the moors the supplies are too frequently not

available. The main roads from Alston to Garrigill, and from Alston to Nenthead, are being kept open with difficulty. Beyond this little can be done.

26th January 1895 (Hexham Courant)

WEARDALE

Mr Robert Walton, of Stanhope House, Stanhope died on Sunday (20th) at the age of 63 years. Deceased was largely interested in the lead mining industry and was the owner of the smelt mills at Castleside near Consett.

In 1861, at Stanhope, John Walton, lead mining manager, aged 57, his wife Hannah 44, children Mary A. 29, Thomas, lead mine manager, aged 27, Robert, lead mill manager, aged 25, and domestic servant Margaret Crawhall aged 19.

In 1871, at John Walton, lead mine owner & land owner, aged 67, his wife Hanny, aged 58, son Robert, lead manufacturer employing 12 men, aged 38, and domestic servant Jane Golightley aged 27.

In 1881, at Stanhope House, Robert Walton, lead merchant, aged 48, born Nenthead, his wife Jane (Proud, married 1st quarter of 1875, at Newcastle) aged 33, born Castleside, sister in law Elizabeth Proud, single, aged 21, brother in law Ralph Proud, single, leads smelter, aged 23, nephew John Wm. Proud 9, and domestic servant Jane Elliott aged 23.

In 1891, at Stanhope House, Robert Walton, lead smelter, aged 55, sister in law, Jane L Proud, single, aged 29, and domestic servant Fannie Douglas aged 26. See 11th September 1897 & 10th April 1897.

ALSTON RURAL DISTRICT COUNCIL

A petition asking that a supply of water be carried from Nenthead to Holmesfoot was read. Mr Lattimer said he lived in the locality and the need was urgent. He had himself gone to the present source of supply, an old mine, on the previous night. It took him ten minutes to go and return and nine minutes to fill his flagon. The water too was very “heavy” and not suitable for drinking. He moved that the inspector be instructed to report to the next meeting. Mr Bolton seconded the motion stating that the mine was the only source of supply for 20 houses.

2nd February 1895 (Hexham Herald)

WEARDALE

Word has just been received in Weardale of the death of **Joseph Brown** at Maryborough, Queensland in the latter part of last year. Deceased went to bathe in the river not far from his home. On returning, it is supposed he got on the wrong track and was lost in the bush. … After 11 days, a search party discovered the body of the unfortunate man floating in the river some 10 miles away. The body was identified by his son George. … Deceased had been a resident of Howard for many years and left a widow and family. Mr Brown was a native of St John’s Chapel, Weardale and married a daughter of the late Mr George Watson of Bateable Hill, St John’s Chapel.

(He was buried close to where his body was found)

In 1851, at Harthopeburn, Stanhope, George Watson, lead miner, aged 27, his sister Ann unmarried, aged 23, and illegitimate daughter Sarah Featherstone aged 5.

In 1861, at Harthopburn, Stanhope, George Watson, lead miner, aged 37, his wife, Sarah (Wilson, married 2nd quarter 1851) aged 32, unmarried daughter,

Sarah Featherstone 15, daughter in law, Isabella Wilson, 10, son Cuthbert 8, daughters Elizabeth 7, Mary Ann 5, Jane 3, Hannah 1, and Frances 2 months. In 1871, at Bateable Hill, St John's, Stanhope, George Watson, widow, lead miner, aged 48, children, Cuthbert, limestone labourer, aged 18, Elizabeth 17, Jane 13, Hannah 11, Frances 10, and Margaret 5.

Maryborough Chronicle, Wide Bay and Burnett Advertiser Wednesday 14 November 1894

A MAN named Joseph Brown, Is reported to have been lost from Howard. He was seen making in the direction of Maryborough but no more is known of his movements though search parties have been out. The man Is described as 48 years of age, 5ft 6in high, small red whiskers worn all round; minus front teeth; dressed in dark tweed trousers, light serge coat, soft black felt hat.

Maryborough Chronicle, Wide Bay and Burnett Advertiser Saturday 24 November 1894

THANKS.

I DESIRE to tender my sincere THANKS to the Residents of Howard and Torbanlea, for the sympathetic feeling shown by them in aiding me in the search for my Father, the late JOSEPH BROWN, also to the Police for the strenuous effort which they put forth to find him.
JOHN GEORGE BROWN.

16th February 1895 (Hexham Courant)
Deaths
At Newcastle, 45 Larkspur Terrace, 8th inst. in her 65th year, Cleopatra, widow of the late Thomas Ware of Stonecroft Mines, Fourstones. Interred at Newbrough churchyard.
See 27th November 1886

22nd February 1895 (Carlisle Patriot)
ALSTON DISTRICT COUNCIL
The ordinary meeting of this Council was held on Saturday, Mr T. Richardson presiding. —The Chairman signed a petition to the North Eastern Railway Company in behalf of workmen's tickets at reduced fares from Alston to Haltwhistle. Complaint was made that water had been scarce for some time in the Townhead wells, though plentiful at the Townfoot. —Mr Simpson gave notice that he would move at next meeting that provision be made in the estimates for the ensuing half year for extending the water main up to the source of the spring. A deputation headed by the Rev. I. E. Page, waited upon the Council with regard to the subject, and pointed out that six weeks last year the Townhead was without a water supply. —It was decided that from Eleven to three o'clock each day the water be cut off from Townfoot in order that the Townhead might be better supplied. …

23rd February 1895 (Cumberland & Westmorland Herald)
ALSTON SCHOOL BOARD
A meeting of this Board was held on Saturday. Present— Messrs. R. Elliot (chairman), H. Bell, T. Harrison, and J. Rutherford. A letter was read from the Education Department relative to an application from Mrs. Gill, Clitheroe. for a

free place for her son, Robt. Gill, aged 13 years. The Department asked for a return of the number of free places, and stated that if there were inefficient, places must be provided. The Clerk had replied explaining the resolution that the Board passed some time ago to the effect that the Board insisted on applications being made to them. The Attendance Officer said that the register showed the boy to be 14 years of age. The Clerk said that ended the matter, and the Board decided to notify the Department to that effect. A letter was read from the Nenthead and Tynedale Co. acknowledging receipt of the Board's communication, stating that they could not accept the offer of the Board, but were willing to let the school at an annual rental of £50. The Chairman said some final step must now be taken. They first asked £30, now £50. It would be best to make them an offer, and if not accepted the Board must take their own course. The school required some alteration. It ought to be divided by a movable partition. Mr. Bell said he was prepared to stand by the last offer of £25, but would not mind offering £30 if a movable partition was provided. Mr. Bell moved and Mr. Harrison seconded that the Board offer £25 per year rental, and if a movable partition was put in, £30. This was carried. The Clerk was appointed custodian of the Science and Art Examination papers.

28th February 1895 (Newcastle Daily Chronicle)
Deaths
At Wallsend Lead Works, 26th inst., aged 42, Michael Carrick, husband of Eleanor Carrick, late of Nenthead, Alston. See 22nd February 1873
Michael Carrick married Eleanor Smith, 4th qtr., 1881, registered at Newcastle.
In 1881, at 2 Turners Terrace, Wallsend, lodger, Michael Carrick, lead smelter, aged 28, born Alston.
In 1891, at Lead Works House, Wallsend, Michael Carrick, foreman, aged 38, and his wife Eleanor, aged 39, born United States.

8th March 1895 (Carlisle Patriot)
ALSTON RURAL DISTRICT COUNCIL
Mr T Richardson presided at the meeting of this District Council on Saturday — Mr A. Elliott, the newly elected councillor for Garrigill signed the statutory declaration and qualified. — The Medical Officers annual report for No. 1, (Alston) district was submitted. The birth rate for the year was at the rate of 19.3 per thousand of the population, and the death rate 13.45, the latter being the lowest for many years past. Much sanitary work had been done, but much remained to be done. The Alston water supply had out been completed.
Extensions were still needed along the Townfoot and down Kate's Lane, and a

supply was required at Leadgate. There were still grave defects in regard to ashpit and closet accommodation. The Medical Officer's report for Nenthead and Garrigill district was also submitted. It showed an increased death rate—18.5 per thousand—and a decreased birth rate—19.1 per thousand. Infant mortality had been very high. He mentioned that the water supply to Garrigill was discoloured after rain. —The Inspector stated that it had been impossible to carry out all the recommendations of the Medical Officers, on account of the storm —The question of the extension of the Alston water mains to the spring, and the provision of a reservoir, was left over to be considered with other matters referring to the water supply of the whole district.

—Mr Lattimer, reverted to a subject previously mentioned, and asked for an answer to the question "When where public money had been expended on private property at Nenthead." —The Chairman said it appeared no one had anything to say in reply, and they would proceed with the next business. —Mr Lattimer then put the question in the form of a motion, which was carried, Mrs Core, Mr Dowson, and Mr Nevin voting against it. —The Chairman declined to give answer, Mr Bell said they had better let the matter drop. They could draw their own conclusions, and the ratepayers would draw theirs. —The question of the repair of the Market Place was referred to the General Committee. —The Surveyor reported that during the month £211 had been spent in snow cutting in the main and £50 in the district roads, and many roads were still blocked. A complete opening could only achieved at a heavy additional cost. He wished to have definite instructions as to whether to proceed with the opening of Tynehead Road. It had been twice opened and was full again. — Mr Elliott: It is quite blocked now, and the road through the fields and over the fences impassable owing to the partial thaw. —Mr Pickering: It seems a necessity that should be opened, for the residents are quite shut in. One farmer who sold a lot of hay could not deliver it, and it had to be procured elsewhere. He had found another customer, but still the hay cannot be got away. The road was full, and fences and six barred gates were level. —Mr Lee said could hardly imagine how the road through the fields and over the fences passable with horses and sledges before, but now with the partial thaw matters were worse. Mr Holmes: How many houses are there out there? —Mr Pickering: Thirteen farm houses. —The Chairman thought they could not give the surveyor instructions to cut this road to the exclusion other roads. They could only give general instructions to cut such roads as were most necessary for the use of the district. —It was agreed that this be done. —The members afterwards considered Parish Council Business, the charities forming the chief subject. There is the Fairhill charity, for the benefit of the poor of Alston, Nenthead, Garrigill, and Alston Grammar School and Garrigill School. There is also Attwood's charity of £25 a year, and Langhorn's charity. Certain payments from the Fairhill charity were ordered.

9th March 1895 (Hexham Courant)
Deaths
At Mill Cottage, Allendale, 2nd inst., aged 67, Wilson beloved husband of Jane Glenwright. Forty seven years employed in the service of W B Beaumont.
In 1841, at Catton, William Glenwright, lead ore smelter, aged 50, his wife Ann (Stobbard, married 24th December 1825, Allendale) aged 40, children Wilson 14, William 9, Jacob 7, John 5, Thomas 3, and Hannah 1.
Ann Glenwright, died 1st quarter 1843, registered at Hexham

In 1851, at Flake Gate, Catton, William Glenwright, widow lead ore smelter, aged 66, children Wilson, lead ore smelter, aged 24, Jane, housekeeper, aged 21, Jacob, lead ore washer, aged 19, John, lead ore washer, aged 16, Thomas 13, Hannah 11, and Joseph 8.
In 1861, at Catton Village, Wilson Glenwright, lead ore smelter, aged 35, his wife Jane (Elliott, married 7th November 1857, Allendale) aged 25, children Thomas 7, John W. 1, and lodger Richard Dawson, master tailor, aged 39.In 1871, at Mill Cottage, Wilson Glenwright, lead ore smelter, aged 44, his wife Jane 36, children Thomas 17, John W. 10, Margret W. 8, Isabella 5, and Wilson aged 1.
In 1881, at Mill Cottage, Wilson Glenwright, lead ore smelter, aged 53, his wife Jane 47, children Thomas, coal miner, aged 27, John W., joiner, aged 21, Margaret A., dressmaker, aged 18, Isabella, dressmakers assistant, aged 15, Wilson 11, Joseph 6, and niece Polley Glenwright 7.
In 1891, at Mill Cottage, Catton, Wilson Glenwright, retired lead ore smelter, aged 63, his wife Jane 55, sons John W., joiner, aged 31, Wilson, lead ore smelter, aged 23, Joseph 16, and visitor M. A. Milburne, dressmaker, aged 28.
In 1901, at Mill Cottages, Catton, Jane Glenwright, widow, aged 67, and son Joseph, gardener, aged 26
In 1911, at Mill Cottages, Catton, Jane Glenwright, widow, aged 76, son Joseph, gardener, aged 36, and daughter in law, Elizabeth aged 31.
Jane Glenwright died 2nd quarter 1925, aged 90, registered at Hexham.

15th March 1895 (London Gazette)

THE NORTH GREEN HURTH LEAD MINING COMPANY LIMITED.

NOTICE is hereby given, that a General Meeting of the Members of the above-named Company will be held at the office of the Liquidator 1 St. Nicholas-buildings, Newcastle-on-Tyne on Monday the 29th day of April next at three o'clock in the afternoon, for the purpose of having an account laid before them showing the manner in which the winding up of the Company has been conducted and the property of the Company disposed of, and of hearing any explanation that may be given by the Liquidator, and also of determining by Extraordinary Resolution the manner in which the books, accounts and documents of the Company, and of the Liquidator thereof shall be disposed of. —Dated the 12th day of March 1895.
C. W. HARRISON Liquidator.

THE PATTERSYKE AND CLARGILL HEAD MINING COMPANY LIMITED.

NOTICE is hereby given, that a General Meeting of the Members of the above named Company will be held at the office of the Liquidator 1 St. Nicholas-buildings, Newcastle-on-Tyne on Tuesday the 30th day of April next at three o'clock in the afternoon, for the purpose of having an account laid before them showing the manner in which the winding up of the Company has been conducted and the property of the Company disused of, and of hearing any explanation that may be given by the Liquidator, and also of determining by Extraordinary Resolution the manner in which the books accounts and documents of the Company, and of the Liquidator thereof shall be disposed of.—Dated the 12th day of March 1895.
C. W. HARRISON Liquidator.

16th March 1895 (Hexham Herald)

ACOMB

The lead mines owing to the prevailing depression in trade the Fallowfield lead mines have been practically laid in for some weeks past, and the employees have been thrown idle. About 100 men and boys were employed at the works.

22nd March 1895 (Carlisle Patriot)

ALSTON DISTRICT COUNCIL

The ordinary fortnightly meeting of this Council was held on Saturday, Mr T. Richardson presiding. —The Works Committee reported in favour of carrying out the Leadgate, Garrigill, and Holmesfoot water schemes, and of providing a well in Kates Lane and recommended that a practical engineer be employed to consider the question of a supply for the district generally. —In the discussion, which took place, Mr H. Walton said it would be the best plan to have a complete report as to the requirements of the whole district, with an estimate of the cost. At present the principal part of the rate was levied on agricultural property, which benefited it no way. He asked those who advocated the prevision of water to mention another authority that levied rates for the supply in this way. The report was referred back to the Works Committee. —It was decided to ask the Lords of the Admiralty to pave the Market Place. —It was decided to acquire if possible the Fairhill for the purposes of an ash deposit and also for fairs and recreation. —The Surveyor's estimate of the stones required for the year was 210 yards. About three miles of district roads and three of mam roads were yet snow blocked, chiefly in the Garrigill district. Some residents had suffered great privation. Mr Jackson of Dodberry had been unable to get his cart away from home for eleven weeks. —Mr Pickering said he had not been able to get over the fell to Nenthead for eleven weeks, and the road was still closed.

23rd March 1895 (Hexham Courant)

Deaths

At Alston, Town Foot, 16th inst. aged 63, Joseph Pattinson.

John Pattinson married Isabella Walton, 14th February 1813, at Alston, Isabella died 22nd March 1837, aged 41.

In 1841, at Edmunds Lane, John Pattinson, lead miner, aged 50, children Hugh, carpenter, aged 20, Sarah 15, Isabella 14, Alexander 12, and Joseph aged 10.

In 1851, at Bulman's Lane, John Pattinson, widow, lead miner, aged 61, children Isabella, dressmaker, aged 24, Alexander Furnace, lead miner, aged 22, Joseph, lead miner, aged 20, Jane 18, and J. Walton, blacksmith, aged 16. In 1861, at Edmunds Lane, Joseph Pattinson, lead miner, aged 30, his wife Mary aged 24, and son Thomas 9 months. In 1861, at Town Hall, Alston, Joseph Walton, relieving officer and registrar of births & deaths, aged 51, his wife Mary 49, children Hannah, house maid, aged 19, Nathaniel 14, Jane 12, Margaret 8, and grandson James 2.

In 1871, at Town Foot, Joseph Pattinson, lead miner, aged 39, his wife Mary (Walton, married 23rd February 1860, Alston) aged 34, sons James Walton 12, and Thomas 10.

In 1881, at Thirlwell Lane, Joseph Pattinson, lead miner, aged 50, his wife Mary 44, and Nicholas Hetherington, proprietor of land, aged 66.

In 1891, at Front Street, Alston, Joseph Pattinson, lead miner, aged 60, and his wife Mary J. aged 54. In 1891, at Main Street, Haltwhistle, James W Pattinson, railway clerk, aged 32, his wife Mary A. J. 30, children Thomas W. 8, William F. 6, Joseph 4, and Edward F. 2 years.
See 2nd September 1876, & 17th September 1887.
At Alston, Grisedale Lane, 21st inst. aged 69, John Whitfield.
Lead miner unmarried, son of Ralph & Ann Whitfield. See 22nd June 1878.
At 122 Gloucester Road, Newcastle, 14th inst. aged 32, Jonathan Walton, third son of the late Joseph Bainbridge, Alston.
In 1861, at Newberryside, Alston, Joseph Bainbridge, farmer of 120 acres, aged 52, his wife Isabella 29, children Peter 5, Elizabeth R 3, and Thomas W. 11 months.
Joseph Bainbridge died 4th quarter 1869, aged 62.
In 1871, at Physic Hall Bank Top, Isabella Bainbridge, retired farmer, aged 38, children Peter 15, Elizabeth R 13, Thomas W 10, Jonathan W 8, Jane A 6, Joseph 3, and Frances M 1. See 16th June 1877
In 1881, at Physic Hall, Isabella Bainbridge, laundress, aged 48, children Peter, invalid from birth, 25, Thomas W. cartman, aged 20, Jonathan W. lead ore washer, aged 18, Jane A. milliner, aged 16, and grandson Herbert J. Bainbridge aged 5.
In 1891, at Physic Hall, Isabella Bainbridge, widow, aged 58, children Peter 35, Thomas W. railway checker, aged 30, Herbert J. general labourer, aged 15, and granddaughters Phillis M Place 9, and Isabella Place 7.

In 1891, at Maple Street, Elswick, lodgers, Thomas W. Bainbridge, checker N.E. Railway, aged 30, and Jonathan W. Bainbridge, Porter N.E. Railway, aged 28.
***Note** Thomas W. Bainbridge in two places in 1891!*
In 1911, at Physic Hall, Frederick Harrison Nicholson, gas stoker & gas fitter, aged 27, his wife Isabella 27, son John Harrison 2, and wife's grandmother, Isabella Bainbridge, widow, aged 78. (Isabella was at Physic Hall with her son Peter in 1891, the census is virtually undecipherable).
Isabella Bainbridge died 3rd quarter 1914, aged 81. See 21st May 1842

23rd March 1895 (Hexham Herald)

ALSTON RURAL DISTRICT COUNCIL

The works committee reported in favour of carrying out the Leadgate, Garrigill and Holmesfoot water schemes, and of providing a well in Kate's Lane.

5th April 1895 (Carlisle Patriot)

ALSTON DISTRICT COUNCIL.

This body met on Saturday; Mr Richardson in the chair.
A Trained Nurse. A letter was read from Miss Ada Richardson, with a memorial signed by the principle ministers and medical men of the district, requesting the Council to consider the advisability of providing a trained nurse. —The Clerk said they had no funds for the purpose, and no power to provide such a nurse. By communicating with the Local Government Board, they might possibly be authorised. —Mrs Cove asked whether they could not take the money from some of the charities instead of giving doles, which were liable to be wasted. —Mr Harrison: In some respects, it may be desirable to have a nurse. It is not desirable to touch the charities. —Mr Lee moved that the Council use its utmost

endeavours to provide a nurse. —Mr Harrison moved as an amendment that the subject remain in abeyance, and this was carried by 7 to 4.
The Fairhill. —The Clerk said he had received a communication signed by various residents at the Townhead complaining of the deposit of ashes and other objectionable refuse on Fairhill. He had also received a communication from the Chairman of the Parish Meeting, with a copy of a resolution, asking that the Fairhill be taken over for the benefit of the public. —The Inspector reported that he had received a complaint from the Rev. I. E. Page and others relative to the deposit on Fairhill, which was within 30 yards of the girls' playground at the High School, and 20 yards of the boys' ground. He had mentioned the matter to Mr Lancaster, the tenant but he declined to have anything to do with it, and complained of the nuisance himself. —Mr Harrison: No one seems to be responsible but the parties who made the deposit. They should remove it. —It was decided that the Chairman consult the Fairhill Committee.

6th April 1895 (The North Cumberland Reformer)

CLOSING OF COANWOOD COLLIERY.

Great regret will be felt in this neighbourhood at the closing of Coanwood Colliery, which will take place on the 13th inst., notices having been issued to the men employed to that effect. The colliery has been worked for 35 years. The Coanwood (Coal Company was originally formed by Mr T. Wilson, Shotley Hall, Northumberland, and Mr I. Crawhall, Nun-Monkton, York. On the expiration of the lease of the Blenkinsopp Colliery in 1859, these gentlemen, who were partners in that undertaking, commenced operations at Coanwood, where they worked their own royalty at Herdley Bank, along with Mr Hope-Wallace's Asholme, and Mr Blackett-Ord's, East Coanwood, Royalties. Coanwood was chiefly noted as a coking colliery, the coke produced being of first class quality for blast furnace purposes, and it met with good demand in West Cumberland. The depressed condition of the iron industry there of late years had, of course, an adverse effect on prices, but the Coanwood coke still met with a market, and the pit hands were kept regularly employed for many years, a time of slackness being a rare exception. The number of hands, of course, decreased as the coal area became circumscribed, and at the present time only about 100 men and boys are at work. Many of them are men who were originally lead miners at Alston and Allendale, who were compelled to seek fresh employment as the lead mining industry declined. Except on one occasion, in 1890-91, when a prolonged Strike occurred on the question of house rents, the relations between employers and workmen have always been most cordial, and the notices to cease work will occasion the greater regret, as they will, in not a few cases, sever a life-long connection.

13th April 1895 (Hexham Courant)

Deaths

At Hillersdon Terrace, Nenthead, 30th inst. aged 26, Mary Jane, daughter of Wm. T. L. Shaw.
See 13th October 1894

19th April 1895 (Carlisle Patriot)

ALSTON DISTRICT COUNCIL.

Mr Richardson presided at the meeting of this Council on Saturday. —The Works Committee recommended that a resolution, passed in January, ordering a survey of the requirements of the whole parish for sanitary purposes be rescinded. —In the course of discussion, Mr Lattimer said the committee had recommended that certain work, which they thought needful, should be proceeded with, but as the minute stood in the way of this being done, they recommended that it be rescinded. —It was resolved by 7 votes to 6 that the minute be rescinded. —The recommendation of the committee that the work at Leadgate, Garrigill, Holmesfoot, and Kate's Lane be proceeded with was next considered. —Mr Walton said there was no need for a new water supply at Leadgate. —The report was adopted. —Dr Carson's report for No. 1 district showed six deaths, or at the rate of 14 per thousand of the population per annum. —It was agreed to erect a new foot bridge at Nattrass Gill, at a cost of £3 10s.

20th April 1895 (Hexham Courant)

Marriages

At the Registry Office Newcastle, 11th inst., John Maughan, Nenthead, to Maggie Rutherford, Alston.

Ann Graham, daughter of Thomas & Catherine Graham of Catton married Robert Maughan, 2nd quarter 1864, reg. Hexham.
Robert Maughan died 4th quarter 1865
Ann Maughan married Richard Elliott 2nd quarter 1868, reg. Hexham.
In 1881, at Rose & Crown Inn, Allendale Town, Richard Elliott, innkeeper, aged 44, his wife Ann 39, stepson John, general labourer, aged 16, children Thomas 10, Catherine 7, Robinson 5, Richard 3, and Isabella 1.
In 1891, at Crown Inn, Nenthead, Richard Elliott, innkeeper, aged 54, born Allendale, his wife Ann 49, born Allendale, step son John, labourer, aged 27, children Thomas, labourer, aged 20, Catharine 17, Frank R 15, Richard 13, Isabella 11, and Tempely 9.
In 1901, at Overwater, John Maughan, stationary engine man, aged 36, born Allendale, and his wife Margaret aged 32.
John Maughan died 2nd quarter 1909, aged 44.
Richard Elliott died 4th quarter 1911, aged 73, his wife Ann died 2nd quarter 1919, aged 77.

21st April 1895 (Hartlepool Northern Daily Mail)

WEARDALE LEAD MINES. —A " bargain-day" was held at Newhouse Offices on Saturday. The bargains were let on a different system than heretofore. Rookhope Mine was let to two miners, and they can employ whom they like, and at what terms they choose. The miners have been out of employment for three months, and as yet not nearly the whole hare been re-employed. Killhope Mine is not to be re-started yet, and Green Laws only to a limited extent.

25th May 1895 (North Cumberland Reformer)

NENTHEAD MINES.—A meeting of the directors of the Nenthead and Tynedale Lead and Zinc Co. was held at Newcastle on Tuesday last. It is currently reported here that the foreign syndicate which has been in negotiation for

possession, has purchased the mines at Nenthead, so that a change, if the rumour is correct, will again take place. We can only hope that it will be for the good of the place and the benefit of all.

31st May 1895 (Carlisle Patriot)

ALSTON DISTRICT COUNCIL

The ordinary meeting of this District Council was held on Saturday, Mr Richardson presiding —Mr Lattimer moved that the water scheme for Holmesfoot be carried out. Some 70 were supplied from a source which was not sufficient for more than 18 persons.—Mr Bolton seconded the motion.—The Inspector said he had visited the place he estimated the cost of the scheme at £40.— Mr Bolton said a nearer supply than that at Nenthead could be got. There was a good flow from an old mine at Pity Me, which was very much nearer.—Mr Harrison said he could not recommend that water, he lived near th place about eleven years. —It was decided to take time and further consider the matter.—Mr Pickering moved that the laying of the sewer pipes at Garrigill be proceeded with.—The Clerk pointed out that it was undesirable to proceed with the work without an estimate; and the matter was left over for the Inspector to report upon.—The Surveyor was given a fortnight's leave of absence, on account of ill health. A question of liability to repair the Green at Garrigill was referred to the Surveyor.

1st June 1895 (Hexham Courant)

Marriages

At the Wesleyan Chapel, Garrigill, 22nd ult. John Robley, Carlisle, to Alice, daughter of Wallace Millican, Crossgill. *See 28th June 1873*

15th June 1895 (Hexham Courant)

SAD DEATH OF A MINER

A sad fatal accident occurred at the **Stonecroft and Greyside** mines on Tuesday morning last. These mines are being carried on by Col. Clark, of London, who has been sinking a new shaft. Two brothers, named **Nicholas and Reuban Nichol,** natives of Cornwall, have been amongst the workmen engaged in the mine. On the morning in question, after they had got their "baits," they commenced drilling a hole in a stone, which they intended to charge with powder. The younger brother, Reuben was turning the drill, whilst the elder was striking. Without any warning, a huge stone of enormous weight fell from above on to the young fellow, Nicholas Nichol, and crushed him to the ground. The great rock came on to the poor fellows shoulders and back, and before he had time to utter a word to his companion was killed. The younger brother Reuben had a narrow escape, but fortunately he was none the worse. He immediately secured assistance from some men who were working in the mine close by, and it was with considerable difficulty that they removed the huge rock from where it had fallen. It was found that the young man (*22 years of age*) was quite dead, and his body was crushed and bruised in a frightful manner. His lifeless body was removed from the mine to await an inquest.

(*A verdict of accidental death was recorded*)

In 1891, at High Wood, St Ives, Cornwall, Richard Nicholls, tin miner, aged 48, his wife Catharine 43, children Nicholas, tin miner, aged 18, Ruben, farm labourer, aged 14, Lauretta 9, John 7, Elizabeth M. 4, and Fredrick 3 months.

Deaths

At West End, Allenheads, 6th inst. aged 83, Richard Bright, beloved husband of Tamar Bright.

In 1841, at West End, Richard Bright, lead ore miner, aged 65, his wife Ann (Readshaw, married 2nd July 1803, Allendale) aged 60, sons Richard, lead ore miner, aged 25, and Joseph, lead ore miner, aged 20.

In 1851, at West End, Richard Bright, lead ore miner, aged 39, his wife Tamer (Redshaw, married 9th December 1848m St Peter, Allenheads) aged 25, children Joseph, lead ore dresser, aged 10, Mary A. 2, and Sarah 1month.

In 1861, at West End, Richard Bright, brakesman at lead mines, aged 49, his wife Tamar 38, children Joseph, labourer in lead mines, aged 20, Mary A. 12, Sarah 10, Thomas 8, Margaret 6, Frances 5, Hannah 3, and Richard 10 months.

In 1871, at West End, Richard Bright, brakesman in lead ore mines, aged 59, his wife Tamar 46, children Sarah 20, Margaret 16, Hannah 12, Richard, lead ore washer, aged 11, John 8, and grandson Matthew 3.

In 1881, at West End, Richard Bright, engine brakesman at lead mines, aged 69, his wife Thamar 57, sons Richard, barytes miner, aged 20, John, lead ore miner, aged 18, and grandson Matthew Bright, lead ore washer, aged 13.

In 1891, at West End, Richard Bright, farmer, aged 79, his wife Tamar 67, daughter Margaret 36, son John, lead ore miner, aged 28, and grandson Matthew, lead ore miner, aged 23. See 2nd November 1895

28th June 1895 (Carlisle Patriot)

ALSTON DISTRICT COUNCIL

A meeting of this Council was held on Saturday, Mr. Richardson in the chair.

Technical Education.—The Council decided to accept the proposal of the Technical Committee of the County Council that they should act as the local committee for the parish.

Highways.—The Surveyor called attention to the dangerous state of Dowgang Hush, which required additional railing. He was instructed to repair a culvert or sewer at Overwater which is at present stopped.

Water.— The Inspector presented a report as to water supplies. As regards the supply to Holmesfoot two schemes were proposed.—one being to take the water from Nenthead well at a cost of £43, and the other to take the supply from an old mine at Pity Me at a cost of £28.—Mr . Walton said he never could see what reasonable objection there could be to a having a survey of the requirements of the whole parish.—Mr. Lattimer moved that the supply at Holmesfoot be carried out at public cost.—Mr. Walton moved as an amendment that the property owners be instructed to provide a sufficient supply for sanitary purposes.—Mr Nevis seconded the amendment.—Mr Holmes: Is it not too late in the day to do this? We have provided water to a lot of places at the public cost.—Mr. Wharton: I have protested against every such proceeding.—The amendment was defeated by five (Messrs. Lattimer, Bolton, Harrison, Holmes, Dawson) to three (Mrs Core, Mr. Walton, and Mr Nevin).—The rest of the Inspectors report was then read. It recommended that at Leadgate, provided the owners assented, water be brought from the allotment spring at a cost of £15: that a well be provided in Kate's at a cost of £12, and that the works in connection with the Garrigill sewer be carried out at a cost of £11 8s. The discussion was eventually adjourned.

Cyclist's Notice Boards.—Mr Lattimer moved that the County Council be asked to place a caution board for the benefit of cyclists at the head of Crook Bank. The descent was dangerous, and there had been several accidents. — The Chairman said the question of placing caution-boards at dangerous places had been before the Highways Committee, who felt that as cyclists had strong Association, it might fittingly undertake the work. To place a board at Crook Bank would be to establish an undesirable precedent.—The motion was not seconded.

6th July 1895 (Hexham Courant)

DEATH OF MR JOSEPH SHIELD.

By the death of Mr Joseph Shield, parish clerk and newsagent, Garrigill has lost one of her notabilities of whom she was justly proud. Mr Shield, who passed quietly away in his own house at Garrigill on June 27th, after a short illness which had found its seeds in the late severe winter, began life as a brakesman on the railway, connected with Thompson's pits in the Midgeholme district, in the days when the locomotive power was supplied by that ancestor of engines, "The Rocket." On leaving the Kirkhouse district he returned to his native place and continued to within a year or less of his death to be connected with the lead mining industry of the neighbourhood, being for many years master workman of Benty Field mine, and afterwards in both Nentwater and Clarghyll, serving other mines in the same capacity. Mr Shield, whose politics were Liberal, was always anxious for the spread of knowledge in his neighbourhood. In his younger days before Board Schools and Technical Education were thought of, he opened in his own house, for the benefit of the young miners and taught himself, a night school which flourished for nearly 20 years, and till his end he continued as newsagent, bookseller, and agent for printing. Anything connected with music, however, was Mr Shield's special delight, and his own proficiency was well known in his day. Several singing classes, both in the Alston and Kirkhouse neighbourhood, were taught by him. Mr Shield was also one of the last of the old parish clerks, his notebook showing that he had died on the forty-fourth anniversary of the first occasion when he officiated as clerk to Garrigill church at a funeral. Few, if any, have been buried in the village since without his presence. Many people remember the days when he met each funeral at the entrance to the village and lead the way to the Church gates singing the 90th Psalm. Changing times curtailed somewhat the glory of his office, but to the last he maintained his position as one of the leading members of the Church choir. He was laid to rest on Sunday afternoon in Garrigill Churchyard in the presence of a large concourse of mourners, hymns being sung in Church and at the graveside by the choir, while the organist attended and played the "Dead March." He leaves a widow and four children. Rev. P. T, Lee, curate in charge of Garrigill, preached a funeral sermon at the evening service from the text "I had rather be a door-keeper in the house of my God than to dwell in the tents of wickedness," Psalm lxxxiv, 10, and referred to his long service to the Church and the loss sustained by the death of one who had so quietly and blamelessly lived out his life among them, and whose familiar face had never been missing from their services till his last illness.

In 1851, at Lane Head, Garrigill, Mary Shield, widow, aged 56, children Joseph, lead miner, aged 29, John, lead miner, aged 24, Thomas, lead miner, aged 20, Hannah 17, James 13, and Elizabeth 9.

In 1861, at Garrigill Gate, Joseph Shield, lead ore dresser, aged 40, his wife Hannah (Peart, married 14th October 1852) aged 40, children Elizabeth 8, Alfred Wesley 4, and John 1.
In 1871, at Garrigill Gate, Joseph Shield, lead ore dresser, aged 50, his wife Hannah 50, children Alfred, lead ore dresser, aged 14, John, lead ore dresser, aged 11, Elizabeth 18, Harriett 9, and Mary 5 months.
In 1881, at Garrigill Gate, Joseph Shield, lead ore dresser, aged 60, Hannah 60, children Alfred, lead miner, aged 24, John, lead miner, aged 21, Harriet 18, and grandson Thomas 6.
In 1891, at Garrigill, Joseph Shield, grocer & stationer, aged 70, his wife Hannah 70, children John, lead ore dresser, aged 32, Harriet, dressmaker, aged 29, and grandson Thomas, lead ore labourer, aged 16.
See 11th February 1871, 3rd January 1880, 3rd March 1883, 24th March 1888, 12th October 1895, and 3rd May 1902

13th July 1895 (Cumberland & Westmorland Herald)

ALSTON & DISTRICT NEWS

On Friday last the scholars attending St. Augustine's Church Sunday School had their annual trip when they visited Roker near Sunderland. With the same train the children from St. Johns Sunday School at Garrigill and Nenthead Primitive Methodist scholars visited the same place. A very pleasant and enjoyable day was spent on the sands, and in boating &c., and the children returned having thoroughly enjoyed themselves. **SCHOOL BOARD**.—Held on Saturday. Present, Messrs. H. Elliott (chairman), J. Harrison, and H. Bell. The report of the drawing examination at Nenthead was very good, the grant per head being 7s. 6d. A letter was read from Mr. Petty, Nenthead, calling attention to the bad state of the gate at the end of the yard; and also to some of the children who had not been attending school since the examination. Unless they attended according to the new rules he could not keep the standards up.
NATTRASS GILL.—The dangerous state of the bridge at the waterfall was the subject of attention some time ago at a Ward Meeting, and a resolution was passed to request the District Council to have it repaired or a new one erected, as it was dangerous to life and limb. The bridge had become so delipidated that it was really not safe for people to pars over it, and being immediately above the fall people were in great danger of falling over. The District Council happily entertained the proposal, and gave instruction to put a new bridge across. This has now been done, a good substantial bridge having been built by Mr. H. Kearton. The beams are of pitch pine with red pine rails and posts. Visitors can now visit the place without any fear. Some improvements are to be made in the approaches thereto as well, so that the place will be considerably improved.

Deaths

At Alston, on the 9th inst., Mary Jane, wife of William Moore, fireman, aged 33 years.

20th July 1895 (Hexham Courant)

Deaths

At Overwater, Nenthead, 18th inst., aged 53, James Richardson, lead miner.

Agnes Richardson died 1st quarter 1919, aged 77, registered at Alston.

10th August 1895 (North Cumberland Reformer)

ALSTON SCHOOL BOARD.

The monthly meeting of this Board was held on Saturday last, the members present being Messrs Elliot (chairman), Walton, Bell, and Rutherford.—The Clerk intimated that he had received the report from the Science and Art Department respecting the drawing examination at Nenthead. The mark awarded was " Excellent." Taking into consideration that the school had been closed for a time owing to whooping cough, the mark had been raised from "Good" to " Excellent."—The Inspector's report for the Nenthead school was read as follows: "Everything considered, a fairly good examination has been passed in the elementary subjects, and special praise is due to the spelling and handwriting of the third standard, and the written arithmetic of the fourth standard. Handwriting, however, in the fifth, sixth, and seventh standards is little more than fair, and oral arithmetic requires considerable attention above the second standard. English in the third standard and upwards lacks thoroughness, but geography is everywhere distinctly good. The tendency of the children to talk during the early portion of the examination makes the recommendation of the higher grant, under Article 101 (b), a matter of some hesitation. The infants have been very carefully taught."—The grant was stated to be 17s 6d.—A communication was read from the United Kingdom Band of Hope Union lecturer, offering to give a lecture free of charge to the scholars attending the Board School on "The Physiological effect of Alcohol." The lecture had been given at several schools, and had given satisfaction. The lecturer

would be in the district during the winter, and could visit the school.—The Board agreed.—Owing to the schools being closed for the holidays, there was no attendance list.

ALSTON

DEATH OF MR JAMES LEATHART

Mr James Leathart, managing director of the firm of Messrs Locke & Co, lead manufacturers, Newcastle, died on Friday at his residence, Bracken Dean, Low Fell. The deceased was the son of Mr John Leathart, mining engineer, of Hill House, Alston, and it was at Alston that Mr Leathart spent his younger days. He was born November 25th 1820, and came to Newcastle in 1836, entered the firm of Locke, Blackett & Co. … In 1858, Mr Leathart married Maria, daughter of the late Ald. Hedley of Coxlodge Hall, who with four sons and five daughters survives him.

Baptised 14th June 1821, at Redwing Congregational Chapel, Alston, son of John & Margaret Leathart, married 22nd June 1858, at All Saints, Newcastle.
In 1851, at Gallowgate Lead Works, James Leathart, lead merchant, aged 30, mother Margaret Leathart, annuitant, aged 58, sister Agnes Leathart 26, brother John D Leathart, grocer apprentice, aged 18, brother William Leathart, lead merchants clerk, aged 15, and general servant Ann Reay, aged 20.
In 1861, at Newbiggin by the Sea, John Taylor, casting master, aged 45, his wife Alice 48, general servant Mary Gibson, aged 18, visitors James Leathart, lead manufacturer employing 217 men, 10 boys, and 57 women, aged 40, Maria Leathart aged 21, Edith Leathart aged 1, Ann Newby, nurse, aged 20, and Richard D C Cordeaux, curate, aged 26.

Mrs James Leathart and children, by Arthur Hughes. *www.sightswithin.com*

In 1871, at Bracken Dene Lodge, James Leathart, lead manufacturer, employing 240 men, 110 boys, and 90 women, aged 50, his wife Maria (Hedley, married 22nd June 1858, at All Saints, Newcastle) aged 31, children

Edith Mary 11, Margaret 9, Mary Beatrice 7, Thomas Hedley 4, John Eliott 2, and Constance Maria 1 month.
In 1881, at Bracken Dean, James Leathart, lead manufacturer employing 250 men and 50 women, aged 60, his wife Maria aged 41, children Edith Mary 21, Margaret 19, Constance Maria 10, Anna Hilda 8, James Gilbert 6, Percival Wilson 5, Anthony Hedley 4, William Bell Scot 2, and Charles Boustead 1.
In 1891, at Bracken Dean, James Leathart, lead manufacturer, aged 70, his wife Maria 51, sons Thomas H., lead manufacturer, aged 24, and Percival W.15.

James Leathart, by Ford Maddox Brown (1863-64)

The web site of St Helen's church, Low Fell, gives the following information: —

> *"James Leathart (1820-1895) the son of an Alston Lead Mining Engineer married Maria Hedley (1840-1899), daughter of Thomas Hedley, soap manufacturer. They lived at Brackendene, Low Fell from 1864 and had a family of fourteen children. James was Managing Director of Locke, Blackett and Company, a Newcastle lead manufacturing company. He was also a director of the Tyne Steam Shipping Co and of William Cleland and Co., shipbuilders. He was a Justice of the Peace for Gateshead and, from the time St. Helen's Church opened until his death, People's Churchwarden. He has been described as somewhat shy and retiring and he had a lifelong interest in Fine Arts. He was a collector of antique furniture, clocks and blue-and-white Chinese porcelain but it was for his collection of paintings that he is best known. He was strongly influenced in this by William Bell Scott, poet and artist who had been master at the Newcastle School of Art of which James was Secretary. A great supporter of the Pre-Raphaelite movement he commissioned pictures from several of their circle including Edward Burne-Jones. At his death he had assembled one of the finest collections of Pre-Raphaelite art..."*

Probate records show: —
James of Brackendene Gateshead, lead manufacturer, died 9th August 1895. Probate Durham, 28th September to Maria Leathart, widow, and Thomas Hedley Leathart, lead manufacturer.
Effects £10524 5s 2d.
See 25th January 1845, 20th August 1847, 8th August 1891, and 18th June 1892.

ALSTON RURAL DISTRICT COUNCIL

Dr Short's report for No. 2 district; 7 deaths and 7 births at the rate each of 4.17 per thousand per quarter. Scarlet Fever had made its appearance at Nenthead, evidently imported from Tynemouth, but precautions had been taken and there had been no spread of infection.

7th September 1895 (Hexham Herald)

WEARDALE

We regret to have to record the death of **Mr Cowper Cain**, a well known Darlington tradesman who retired to Northalerton some years ago. The death occurred at Mr Cain's residence at Northalerton on the 27th ult. Deceased was a native of Nenthead near Alston, Cumberland where his late father was a mining engineer. He served his apprenticeship to the drapery trade in Newcastle but returning to Weardale he started business as a draper in St John's Chapel, afterwards removing to Darlington where for many years he was in business in Crown Street and Northgate. He was twice married, his second wife surviving him and leaves two grown up daughters by his first marriage. About 9 months ago he was attacked with dropsy and cancer of the liver and to these diseases he succumbed. He was in his 70th year.
In 1891, at 6 South Parade, Northallerton, Cowper Cain, retired draper, aged 64, his wife Ann (Winteringham, married 1st quarter of 1886, at Darlington), aged 60, and Esther Smart, servant, aged 16. See 3rd September 1852, and 4th April 1856
For family connections see 21st March 1845, 4th July 1846, 8th April 1853, 4th April 1856, 7th March 1868, 13th July 1872, 23rd January 1875, 28th August 1875, and 6th April 1901.

Deaths

Alston, Townfoot, 3rd inst., aged 60, Rachael, widow of Wm. Tatters.
See 3rd November 1888

7th September 1895 (Cumberland & Westmorland Herald)

ALSTON & DISTRICT NEWS

The Rev. Samuel Henry Greenway has been appointed to the curacy-in-charge of the district of St. John the Baptist, Garrigill, in the parish of Alston, in place of the Rev. P. T. Lee, who has been appointed vicar at Birtley-on-Tyne. …
SCHOOL BOARD.—The monthly meeting was held on Saturday. Present—Messrs. R. Elliot (chairman), Walton, H. Bell, T. Harrison, H. Bell, J. Rutherford. The Clerk said a cheque for £100 had been secured from the Education Department, being the amount of grant for Nenthead school. A letter from the Nenthead schoolmaster relative to the school yard gate was read, but no action taken. Permission to purchase certain requisites in the shape of books, &c., was

granted. A letter was also read relative to Nenthead School rental, and it was resolved to refer the Company to previous correspondence, and point out that the Board had received no legal notice of any change in the original agreement.

14th September 1895 (Hexham Herald)

ACOMB

On Thursday shortly before noon a serious accident befel a lead miner named Thomas Waggott who resides at Acomb near Hexham whilst he was following his employment at the **Fallowfield Lead Mines**. Waggott was working at the bottom of a heap at the entrance to the mines when the upper portion suddenly came away and imprisoned his lower limbs. It was estimated that about a ton and a half of material fell upon the poor fellow, and it was some considerable time before he was extracted, Medical assistance was sought and it was ascertained that his right thigh was severely crushed and other parts of the body were also injured.

Deaths

Alston, 12th inst., aged 66, William Calvert.

in 1881, at the Police Station, William Calvert, police sergeant, aged 52, his wife Isabella 43, children William, grocers apprentice, aged 19, Sarah 13, Richard J. 9, Francis D. 7, Jane Ann 5, and Isabella 4.

In 1891, at Elswick, William Calvert, retired police sergeant, aged 62, his wife Isabella 53, children Richard I. engine & machine maker, aged 19, Jane A., shop girl in drapers shop, aged 15, and Isabella, apprentice dress maker, aged 14.

Alston, Foul Loaning, 10th inst., aged 14 months, John Henry son of Samuel Walton.

FLOWER SHOW AT NENTHEAD.

The annual show of the Nenthead Floral and Horticultural Society was held on Saturday last, September 7th, in the Board Schools, Nenthead. There was a capital entry, the exhibits especially in the vegetable classes being very good. Some splendid specimens of writing and drawing were also exhibited. There were several stands for exhibition only, notably specimens of drawing and shading by Miss M. Harrison and Miss Lattimer, while Mr Henry Stephenson had on exhibition four potatoes of enormous size, weighing 8 lbs., grown by himself. The judges were as follows:—Flowers, fruit, and vegetables, Mr S. Shield, Haltwhistle; writing, Mr A. Bolton and Mr Bell; bread, sewing, and knitting, Mrs Walton, Mrs Bell, and Mrs Hornsby. During the evening the Nenthead Brass Band, which has only been in existence some 18 months, delighted the audience with selections of music during the evening, under the able leadership of Dr. Masterton. The attendance was large, and the arrangements were admirably carried out under the supervision of the Secretary, Mr Henry Stephenson. The show was closed at 9 p.m., and the proceedings terminated with a dance, the band supplying the music.

Deaths

At Foulard, Nenthead, on the 12th inst., Ida Josephine, daughter of Mary Hannah Martin, aged 6 years.

At Chapel Terrace, Alston, on the 7th inst., Thomas Johnstone Snowdon, builder, aged 41 years.

21st September 1895 (Hexham Herald)

ALSTON RURAL DISTRICT COUNCIL

5th October 1895 (Hexham Herald)

DEATH OF AN ALSTON MAN IN AUSTRALIA

We regret having to notice the following from the "Ovens and Murray Advertiser" of August 24th: - "We regret to learn of the very sudden death of Mr William Walton of the firm of Messrs J & W Walton, Tinsmiths, Beechwood. Mr Walton who was about 50 years of age, had recently suffered severely from Sciatica, and upon this influenza supervened by which he was confined for some days to his house in Barnard Street. … Deceased had only been a few years in the colony. …" Mr Walton it will be remembered was manager at the Gas Works at Alston for a number of years and left for Australia about 5 years ago. Mr Walton leaves a wife and family of three sons and one daughter.

Died on the 21st August of Mr William Walton (aged 53), he emigrated with his family to Victoria in 1890 to join his brother Mr John Walton. Mr Hugh Walton of Alston was a brother of the deceased.
